

# SENCOR®

Micro Hi-Fi System

## SENCOR SMC 808

**INSTRUCTION MANUAL**

## SAFETY PRECAUTIONS

To achieve the utmost in enjoyment and performance, please read this manual carefully before attempting to operate the unit in order to become familiar with its features, and assure you years of faithful, trouble free performance and listening pleasure.

### Important Notes

This safety and operating instruction should be retained for future reference.

The apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on apparatus. Avoid installing the unit in locations described below:

- \* - Places exposed to direct sunlight or close to heat radiating appliances such as electric heaters, on top of other stereo equipment that radiate too much heat.
- \* - Places blocking ventilation or dusty places.
- \* - Places subject to constant vibration, humid or moist places.

No naked flame sources such as lighted candles should be placed on the unit.

Attention should be drawn to the environmental aspects of battery disposal.

Make sure not to obstruct the ventilation openings, a minimum of 10cm should be kept around the apparatus for ventilation.

The ventilation should not be impeded by covering the ventilation openings with items such as newspaper, table-cloths, curtains, etc. Use apparatus in moderate climates only.

Operate tuning controls and switches as instructed in the manual.

Before turning on the power for the first time, make sure the power cord is properly installed.

The mains plug is used as the disconnect device and it must remain readily operable. To completely disconnect the power input, the mains plug of the apparatus must be disconnected from the mains.

The normal function of the product may be disturbed by Strong Electro Magnetic Interference. If so, simply reset the product to resume normal operation by following the instruction manual. In case the function could not resume, please use the product in other location.

Do not attempt to remove any screws, or open the casing of the unit; there are no user serviceable parts inside, refer all servicing to qualified service personnel.

**CAUTION : TO REDUCE THE RISK OF ELECTRIC SHOCK DO NOT REMOVE COVER(OR BACK), NO USER SERVICEABLE PARTS INSIDE, REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.**

#### DANGEROUS VOLTAGE

Conductor dangerous voltage, that may be of sufficient magnitude to constitute a risk of electric shock to persons is present within this product's enclosure.

#### ATTENTION

The owner's manual contains important operating and maintenance instructions, for your safety, it is necessary to refer To the manual.

**WARNING :TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS APPLIANCE TO DRIPPING OR SPLASHING.**

**Note:** This unit will become warm when used for a long period of time. This is normal and does not indicate a problem with the unit. This unit includes micro-processors which may malfunction as a result of external electrical interference/ noise or electrostatic discharge. If the unit is not working properly, disconnect the power source and then reconnect it. Excessive sound pressure from earphones and headphones can cause hearing loss.

## Assembly Drawing of Unit and speaker

### 1. fixing the board for wall mounting

Fix the two nails (Size:3.5\*25BA) into the wall and they should parallel each other. (The distance between the two nails should be 182mm)

### 2. Speakers connection

Max connection distance is 2 metres
