EN

Before operating this unit, please read all instructions.

SAFETY INSTRUCTIONS

This user's manual contains important safety instructions and information related to correct device use. To prevent any accident, please read it carefully and make sure you have understood all instructions.

Don't expose this device to extreme temperatures and in particular, don't leave in a vehicle with closed windows in summer.

Do not store the device in moist or contaminated environment.

Take care not to drop the device on the floor or expose it to a severe impact. Do not shake the screen forcefully, otherwise damage to the screen or faulty image may occur.
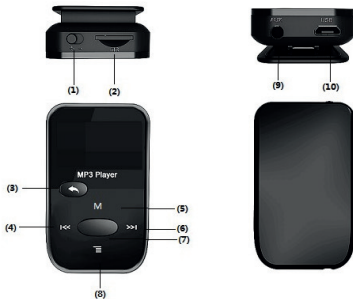

Set volume to a reasonable level. During use, do not raise the headphone volume level too high. If you feel ringing in your ears, stop using the device or turn the volume down.

Do not disassemble this device on your own and do not clean the surface with alcohol or benzene.

Dot not use this device in places where using electronic devices is forbidden, such as in an aircraft.

Do not use this device while driving a vehicle or walking on street.

⑧	VOL (Volume)	Volume/Lock/Unlock
⑨		Headphone connector
⑩		MicroUSB socket

CHARGING THE BATTERY

This player is equipped with an internal battery that must be fully charged before first use.
Connect one end of the USB cable (supplied) to the MP3 player, then connect the other end to a functional running PC. The battery charging will start. The charging takes about 2 hours. To extend the battery lifetime, we recommend to fully charge the battery before each use.

> **NOTE:**
> Connect the USB cable directly to the PC USB socket (not in the hub) to avoid malfunction to the player connection.

PC CONNECTION

Connect your player to the PC using the supplied USB cable. The PC will detect your device automatically.
Once detected by the PC, your player will appear as an external drive. This is why the file transfer is being made just like in any other memory device (select the files to be copied and drag them to your device or use the copy and paste feature).

MUSIC

1. To open the music window, press the "M" button, to start music playback, press ▶II button.
2. Select music: press the I ◀◀ / ▶▶I to select previous or next track.
