everything for your home and garden

Quality, Design and Innovation, That Is **FIELDMANN**®

She was born twelve years ago and we literally watch her grow. She keeps up with the times, but does not lose her style. We are not talking about a strange girl, but about the Czech brand **FIELDMANN**, which is celebrating ten years on our market this year. The popularity of **FIELDMANN** products is growing year by year and the circle of loyal customers is expanding. Mainly thanks to them, we are able to continuously adjust the offer, supplement it with other items, and above all, improve the overall range.

After twelve years **FIELDMANN** is no longer just a brand of garden equipment for the maintenance of lawns, trees, shrubs and flower beds. It is also an assistant in cleaning the house and the garden, a partner in the maintenance and improvement of the house, but also a supplier of equipment for pumping water. For several years now, customers can choose from a wide range of garden furniture and the range of grills or car accessories is also expanding.

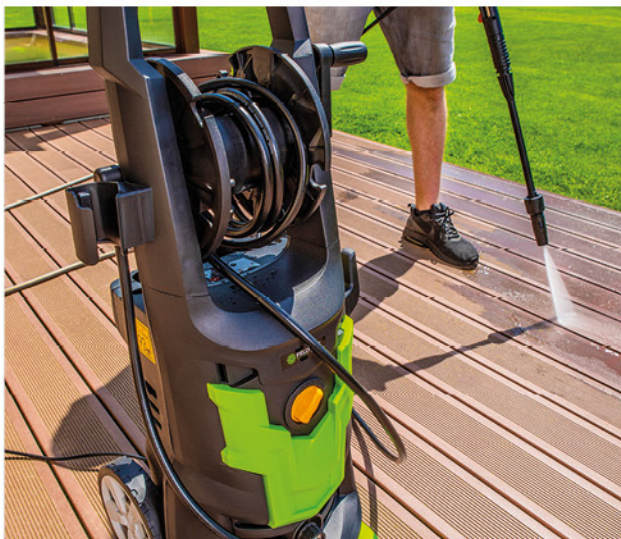

All these products are connected with a very good quality, reliability, safety and easy operation. **FIELDMANN** brings the latest trends, but maintains maximum comfort when working in the garden, in

the house and in the workshop. And as it is also betting on reliability, the machines of this brand are equipped with quality components and the tool excels in precise processing. Modern design, optimal parameters and good quality are available at the **FIELDMANN** brand at reasonable prices.

The catalogue that you are currently holding in your hands is significantly wider, for example in the category of car accessories. The **FIELDMANN** CORDLESS FAST POWER 20 V programme represents a comprehensive range of garden and workshop tools and implements. You don't have to worry about whether there is an electrical outlet available, whether the power cord reaches it, or where you can get an extension cord, you don't care about the amount of petrol in the tank or the oil. The convenience is offered by the battery assistants even during the use itself, which is not obstructed by any cables. Using the latest technology, the CORDLESS FAST POWER 20V range offers the performance and dynamics of petrol machines.

For new products as well as for the existing range, you can rely on the **FIELDMANN** brand. We believe that this year you will be pleasantly surprised by our novelties.

20V Li-Ion battery 2 Ah/4Ah FDUZ 79020/79040

- patented battery cell technology for longer life
- LED charge status indicator directly on the battery
- battery capacity: 2,000/4,000 mAh
- compatible with all items from the FAST POWER 20V series

Quick charger 20 V FDUZ 79100

- AC 230V/50Hz, DC 20 max 2.4 A
- LED indication / battery overheating protection
- charging time: 60 min (2 Ah), 120 min (4 Ah)
- compatible with all items from the FAST POWER 20V series

CORDLESS PROGRAMME 20 V FAST POWER

It is quiet, ecological, economical. No petrol, no cable, no noise, no exhaust fumes. This is the new cordless series from **FIELDMANN**. Nothing will stop you with them.

You don't have to worry about whether there is an electrical outlet somewhere, whether the power cord reaches it, or where you can get an extension cord, you don't care about the amount of petrol in the tank or the oil. The convenience is

offered by the battery assistants even during the use itself, when no cables interfere. The programme is a comprehensive range of garden and workshop tools and equipment that work with a single type of battery. You need the other battery only in rotation during longer use, when the first one runs out of energy, or in pairs for larger machines, such as garden lawn mowers or brush cutters, where the full power of two batteries is used at the same time. It is definitely not a waste of investment.

Quick charger 2 × 20 V FDUZ 79110

- AC 230V/50Hz, DC 20 max 2.4 A
- LED indication / battery overheating protection
- charging time: 60 min (2 × 2 Ah), 120 min (2 × 4 Ah)
- compatible with all items from the FAST POWER 20V series

brushless engine

- speed without load: 0–405 rpm, 0–1,900 rpm
- max. diameter: 13 mm
- max. torque: 60 Nm
- tap function
- without battery and charger

**20V Cordless compressor
FDAK 70205-0**

- max. outlet pressure: 10.3 bar
- air flow rate: 235 l/min
- the package includes a valve adapter, ball inflation needle, universal adapter and high pressure hose
- weight 1.7 kg
- without battery and charger

**20V Cordless high-pressure washer
FDW 70905-0**

- power: 20 V
- operating pressure: 20 bar
- water flow rate: 2.5 l/min (150 l/hour)
- pressure adjustment: yes (2 stages: low – high)
- the package includes a multi-function nozzle, self-priming hose and shampoo container
- without battery and charger

**2 × 20 V Cordless chain saw
FZP 70805-0**

brushless engine

- chain speed: 15 m/s
- guide bar length: 300 mm
- guide bar and chain included
- oil tank capacity: 180 ml
- without battery and charger

**20V Cordless chain saw
FDUK 70305-0**

- speed without load: 0–3,700 rpm
- disc diameter: 165 mm
- ergonomic handle
- AC Laser
- without battery and charger

**20V Cordless angle grinder
FDUB 70605-0**

- speed without load: 0–7,500 rpm
- wheel diameter: 115 mm
- with a side handle and ergonomic handle
- without battery and charger
- grinding wheel included

**20V Cordless sabre saw
FDUO 70505-0**

- speed without load: 0–3,000 rpm
- cutting length: 26 mm
- max. cutting capacity: wood: 100 mm, soft metal: 20 mm, steel: 10 mm
- without battery and charger

**20V Cordless jigsaw
FDUP 70405-0**

- speed without load: 0–2,800 rpm
- max. cutting capacity: wood: 80 mm, soft metal: 10 mm, steel: 5 mm
- without battery and charger

**20V Cordless ash vacuum cleaner
FDU 70705-0**

NEW

- air flow rate: 10 l/s
- container volume: 18 l
- only for cold ash (max 40°C)
- without battery and charger

20V Cordless hedge trimmer FZN 70205-0

- guide bar length: 510 mm
- cutting diameter: 16 mm
- speed without load: 0–1300 rpm
- electronic brake
- without battery and charger

20V Cordless grass trimmer FZS 70101-0

NEW

- coverage width: 230 mm
- string diameter: 1.6 mm
- speed without load: 0–8000 rpm
- telescopic handle
- adjustable trimmer head angle
- without battery and charger

20V Cordless grass trimmer FZS 70105-0

- coverage width: 300 mm
- string diameter: 1.6 mm
- speed without load: 0–7,500 rpm
- telescopic handle + guide wheel
- adjustable trimmer head angle
- without battery and charger

2× 20V Cordless brush cutter FZS 70705-0

- max. width of cut 38 cm
- string trimmer head: 33 cm
- string diameter: 2.0 mm
- 3-pointed metal disc: 23 cm
- handlebars with softened grip
- the package includes a string head, metal disc and strap
- without battery and charger

20V Cordless leaf blower FZF 70605-0

- speed without load: 0–17000 rpm
- maximum velocity of air: 38 m/s
- airflow: 350 CFM
- without battery and charger

20V Cordless telescopic hedge trimmer FZN 70405-0

- guide bar length: 420 mm
- cutting diameter: 16 mm
- telescopic handle: ± 70 cm
- adjustable head
- without battery and charger

20V Cordless pole saw FZP 70505-0

- chain speed: 5 m/s
- guide bar length: 200 mm
- guide bar and chain included
- telescopic handle: ± 70 cm
- without battery and charger

2× 20 V Cordless scarifier FZV 70905-0

NEW

brushless
engine

- aeration and scarification
- coverage: 380 mm, grass catcher volume: 50 l
- adjustable handle (3 positions)
- 5 working depth positions: (-12, -9, -6, -3, +6)
- without battery and charger

2× 20 V Cordless cultivator FZK 70305-0

NEW

brushless
engine

- speed without load: 0–180 rpm
- working width/depth: 36/22 cm
- number of blades: 4 pcs
- including castors
- without battery and charger

CORDLESS PROGRAMME / 20 V

20V^{Li-ION} FASTPOWER

ONE BATTERY FOR ALL / NEW GENERATION

2 × 20V CORDLESS LAWN MOWERS

The great advantage of cordless lawn mowers is the absence of an electric cable and therefore significantly increased comfort when working. However, they are usually designed primarily for smaller areas. A major innovation is therefore the extension of the cordless mower range **FIELDMANN CORDLESS FAST POWER** to five models.

The highest models can also cope with more demanding conditions and larger lawns, up to 750 m². You can even venture into the far corners of a larger garden

with no power socket. The wider reach of the mowers ensures that the job is done right, and the bulky collection bins don't fill up right away. The five machines allow you to choose a model that is literally tailored to your lawn, its size and its texture. All **CORDLESS FAST POWER** mowers are equipped with a modern, long-life, zero-maintenance, brushless engine. The motor uses the power of 2x 20V batteries (from the CORDLESS FAST POWER series) with a capacity of 2 Ah or 4 Ah. Solid construction guarantees a long service life. For perfect handling, the mowers are equipped with solid wheels made of durable plastic.

REEL, ELECTRICAL AND PETROL LAWN MOWERS

REEL LAWN MOWERS

Reel lawn mower FZR 1010

150 m²

- suitable for smaller lawns not within reach of electrical energy
- mowing coverage: 40 cm
- continuous mowing height adjustment 14–47 mm
- textile grass catcher of 23 l
- folding handle for easy storage

Reel lawn mower FZR 1050

200 m²

- mowing coverage: 38 cm
- 5 knives
- mowing height: 13–38 mm
- 4 positions of mowing height adjustment
- textile grass catcher of 45 l
- folding handle
- possibility of use without power supply as a hand reel lawn mower

fieldmann.eu

These days, caring for a lawn without a lawn mower is unimaginable. This garden assistant not only saves time and effort, but also allows you to take care of the grass efficiently and regularly, thus maintaining both its appearance and quality. Rotary lawn mowers are the most commonly used type in private gardens.

They mow the grass with a horizontally mounted rotating blade, which ensures an even "cut" for the lawn. **FIELDMANN** offers both electric rotary lawn mowers and cordless lawn mowers that can withstand even the more demanding conditions, in addition to unnecessary noise and cable restrictions.

FIELDMANN rotary mowers, regardless of the type of drive or coverage, combine the quality of the materials used and their workmanship, modern design, but also the emphasis on safety, excellent ergonomics, overall comfortable operation and easy maintenance. They have practical features that facilitate using. These include central adjustment of mowing height with a single movement of the lever and a height-adjustable handle, which can be easily folded down during storage by unlocking the quick-release screws. For selected models, the switch across the entire width of the handle is the advantage. This switch allows you to control the lawn mower with both hands. The grass collection will be taken care of by durable, large-volume grass catchers with full signalling. Thanks to the fact that the chassis of the machines exceeds the width of the wheels, you will always mow the grass to the edge without the need for additional adjustments with hand shears or a string trimmer.

ELECTRIC LAWN MOWERS

Electric lawn mower **FZR 2046-E**

1,000 m²

- mowing height: 30–75 mm
- 5 positions of mowing height adjustment
- folding handle for easy storage
- central mowing height adjustment
- softened handle cover

In more rugged gardens situated, for example, on a slope or where the terrain is more complicated, higher and denser grassland, petrol lawn mowers are used. Their advantage is higher performance and standard coverage of up to 56 cm, thanks to which you can comfortably manage even larger areas. Above all, they are independent of energy sources – if you have enough fuel, you can work with them far from civilisation.

The **FIELDMANN** petrol lawn mowers category includes machines with different engine power, cutting width, with and without travel. Smaller assistants without travel are ideal for larger but flatter terrains, where you will appreciate their performance, endurance and lower weight. Lawn

PETROL LAWN MOWERS

mowers with travel are suitable for areas where it would be necessary to push the machine up a slope or over uneven terrain. The **FIELDMANN** top petrol machines have a continuously adjustable travel speed.

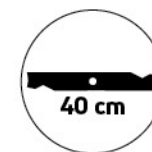

The reliability of **FIELDMANN** petrol mowers is determined by the use of quality materials and individual components. Some higher-class machines are equipped with Briggs & Stratton engines, which are considered high quality and reliable worldwide. An automatic engine choke and electric starter can then facilitate easy starting.

Fuel can 5 l FZR 9060

- swivel cap and special pouring tube
- resistant to UV radiation, weathering or mechanical damage
- approved for transport and storage of fuel

ELECTRIC AND PETROL SCARIFIERS

The scarifier or aerator is an important assistant in the care of lawn health. With the help of vertically placed knives, it will cut the lawn easily and gently and with the help of springs, it then removes the airtight layer, which prevents the supply of nutrients and moisture. You can use hand tools in the mini-garden, but for

a normal garden, choose one of the electric or petrol machines, which are fast, take up more width and work at a precisely set depth.

Like the lawn mower, the scarifier should match the size and nature of the plot. The electric assistant is more compact and runs quieter without emissions. Powerful machines can handle grassy space with an area of up to 1,000 m², the only condition is the reach of the electricity source. Although the petrol scarifier is noisier and less environmentally friendly, it offers greater coverage and faster work with unlimited possibilities of movement in the field, even if it is hilly or sloping.

Petrol scarifier FZV 6050-B

2,000 m²

- OHV 212 cm³/4.3 kW engine
- working width: 40 cm, steel chassis
- equipped with a cylinder with 36 knives as standard
- central working depth adjustment
- adjustment range -15 to +5 mm, 8 positions
- textile grass catcher of 35 l reducing dust permeability
- wheels mounted on ball bearings
- folding handle for easy storage
- optional accessory: cylinder with springs

FIELDMANN scarifiers have height-adjustable folding handle and simultaneously, the possibility of continuous regulation of the working depth, and the electrical machines have just two interchangeable cylinders – one for scarifying and the other for aeration.

everything for your home and garden

Electric scarifier FZV 2102-E

600 m²

The offer also includes a cordless scarifier within the programme **FAST POWER 20V**, pp. 4-7

- electric engine input power: 1,300 W
- coverage width of scarifying: 32 cm
- two interchangeable cylinders are included
- adjustment of the working depth according to the wear of the knives or springs
- scarifying roller with 18 knives
- aeration cylinder with 40 springs
- height-adjustable handle
- grass catcher with a capacity of 40 l

Electric scarifier FZV 2004-E

800 m²

- electric engine input power: 1,500 W
- coverage width of scarifying: 32 cm
- two interchangeable cylinders are included
- adjustment of the working depth to 4 positions according to the wear of the knives or springs
- scarifying roller with 16 knives
- aeration cylinder with 20 springs
- grass catcher with a capacity of 40 l

Electric scarifier FZV 4003-18E

1,000 m²

NEW

- electric engine input power: 1,800 W
- coverage width of scarifying: 38 cm
- two interchangeable cylinders are included
- adjustment of the working depth according to the wear of the knives or springs
- scarifying roller with 16 knives
- aeration cylinder with 24 springs
- grass catcher with a capacity of 48 l

Electric scarifier FZV 4010-20E

1,200 m²

NEW

- electric engine input power: 2,000 W
- coverage width of scarifying: 40 cm
- two interchangeable cylinders are included
- adjustment of the working depth according to the wear of the knives or springs
- scarifying roller with 20 knives
- aeration cylinder with 24 springs
- height-adjustable handle
- grass catcher with a capacity of 55 l

STRING LAWN MOWERS,

TRIMMERS AND BRUSH CUTTERS

There are places where even the most wildy rotary lawn mower may not be used: on steep slopes, in ditches, on the banks of streams, under bushes, but a conventional lawn mower fails even where the vegetation is already too large. That's when string trimmers, trimmers and brush cutters start.

Smaller machines eliminate the rank growth with the help of a rotating string, more powerful types offer the possibility to use a steel three tooth blade. The devices are easily operated by hand, for easier handling of heavier types, a solid shoulder strap is available.

String trimmers are used where there are uncut areas left after working with a conventional rotary lawn mower, but they also tame overgrown lawns, nettles, etc. Semi-automatic heads allow comfortable unwinding of the strings – just tap the cutting head on the ground. Some models are equipped with support wheels for easier work on larger areas. You can adjust the **FIELDMANN** string trimmer with the telescopic handle to make it more comfortable according to your height. The possibility of adjusting the position of the upper handle and, for selected models, the angle of the cutting head is practical.

With the trimmer, you can easily manage bigger challenges, more overgrown grass, stronger plants, denser vegetation. If even the strongest trimmer is not enough, there is the highest category – brush cutters or electric trimmers **FIELDMANN**. Their advantage is comfortable operation using a double handle resembling a bicycle handlebars.

We recommend
MOL oils for the
preparation of the
fuel mixture.

FZS 5025-B
has an advanced
anti-vibration system

Twist & Go
string trimmer head
Unique construction

string without the need to
disassemble the head.

everything for your home and garden

Cordless string trimmer FZS 1005-A

We also offer
a cordless string
trimmer within the
programme **FAST
POWER 20 V**,
pp. 4-7

- Li-Ion battery 18 V/1,500 mAh
- operating time of approx. 35 min.
- string 1.4 mm
- semi-automatic string trimmer head
- telescopic handle 85-110 cm
- adjustable cutting head angle and spacer strip
- weight: only 2 kg

Electric string trimmer FZS 2105-E

- electric engine input power: 250 W
- semi-automatic string trimmer head
- weight: 1.3 kg
- optional accessory:**
- spare string 60 m / 1.0 mm

Electric string trimmer FZS 2306-E

- electric engine input power: 350 W
- adjustable handle
- telescopic handle 95-105 cm
- weight: 1.7 kg
- optional accessory:**
- spare string 60 m / 1.4 mm

Electric string trimmer FZS 2505-E

- electric engine input power: 550 W
- semi-automatic string trimmer head
- telescopic handle 105-125 cm
- weight: 2.3 kg
- optional accessory:**
- spare string 60 m / 1.4 mm

Electric string trimmer FZS 2002-E

- electric engine input power: 500 W
- possibility of adjusting the angle of the string trimmer head
- telescopic handle 92-114 cm
- support wheels
- protective guide against mowing ornamental plants
- weight: 2.4 kg
- optional accessory:**
- spare string 15 m / 1.4 mm
- spare string 60 m / 1.4 mm

Electric string trimmer FZS 2050-E

- powerful electric motor: 1,400 W
- semi-automatic string trimmer head
- steel three tooth blade
- split shaft for better storage and transport
- height-adjustable handle
- shoulder strap in the package
- weight: 6 kg
- optional accessory:**
- spare string 60 m / 1.6 mm
- steel three tooth blade

Petrol brush cutter FZS 3003-B

- two-stroke engine with a capacity of 25.4 cm³ with an output of 0.7 kW
- steel three tooth blade for mowing more resistant plants – part of the package
- double handle with ergonomic grips
- weight: 6.6 kg
- optional accessory:**
 - spare string 2.4 mm / 15 m
 - spare string 2.4 mm / 60 m
 - spare steel three tooth blade
 - semi-automatic string trimmer head
 - work gloves

Petrol brush cutter FZS 3020-B

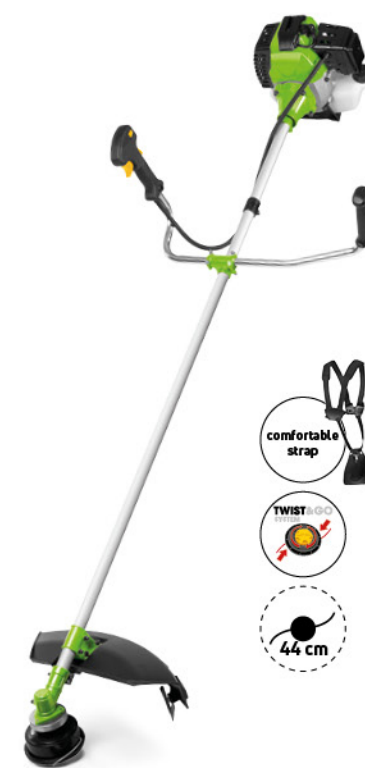

- two-stroke engine with a capacity of 32.5 cm³ with an output of 1.15 kW
- steel three tooth blade for mowing more resistant plants – part of the package
- double adjustable handle and strap
- weight: 6.6 kg
- optional accessory:**
 - spare string 2.4 mm / 15 m
 - spare string 2.4 mm / 60 m
 - spare steel three tooth blade
 - semi-automatic string trimmer head
 - work gloves

Petrol brush cutter FZS 4004-B

- two-stroke engine with a capacity of 43 cm³ with an output of 1.4 kW
- double handle with ergonomic grips
- steel three tooth blade for mowing more resistant plants – part of the package
- large fuel tank for uninterrupted operation
- weight: 7.2 kg
- optional accessory:**
 - spare string 2.4 mm / 15 m
 - spare string 2.4 mm / 60 m
 - spare steel three tooth blade
 - semi-automatic string trimmer head
 - work gloves

Petrol brush cutter FZS 5003-B

- powerful two-stroke engine with a capacity of 52 cm³ with an output of 1.6 kW
- double handle with ergonomic grips
- steel three tooth blade for mowing more resistant plants – part of the package
- large fuel tank for uninterrupted operation
- weight: 7.0 kg
- optional accessory:**
 - spare string 2.4 mm / 15 m
 - spare string 2.4 mm / 60 m
 - spare steel three tooth blade
 - semi-automatic string trimmer head
 - work gloves

everything for your home and garden

Petrol brush cutter FZS 5025-B

- the most powerful machine in our range with patented anti-vibration technology
 - powerful two-stroke engine with a capacity of 51.7 cm³ with an output of 1.45 kW
 - double handle with ergonomic grips
 - steel three tooth blade for mowing more resistant plants – part of the package
 - large fuel tank for uninterrupted operation
 - weight: 8.5 kg
- optional accessory:
- spare string 2.4 mm / 15 m
 - spare string 2.4 mm / 60 m
 - spare steel three tooth blade
 - semi-automatic string trimmer head
 - work gloves

PETROL AND ELECTRIC CHAIN SAWS

The chain saw is a necessary assistant when processing wood for the winter, but also for a more thorough pruning of woody plants. Choose its drive, power and length of the guide bar according to the nature of the activity, the amount of work you have to do with it, and also which user and how often he/she will work with the saw. **FIELDMANN** chain saws have a bar length of 35 or 40 cm, which are ideal for occasional cutting of small quantities of firewood or tree pruning.

Electric chain saws are easy to maintain, environmentally friendly and suitable even where exhaust fumes may be otherwise a problem – for example in a closed workshop. The quieter operation welcome in the gardens in dense areas or in recreational areas is also an advantage. Use is limited by the range of electricity. The category of petrol devices is intended for those who use the saw more often, thus requiring higher power, or even the possibility of working without restricting the electricity supply. Petrol saws can also handle larger amounts of wood and thicker branches

or tree trunks. Safety comes first when working with a chain saw. **FIELDMANN** chain saws manufactured using high-quality materials and components have a safety brake as standard for immediate chain stopping, selected models also have a safety clutch or a fixed tooth support that prevents kickback.

Petrol chain saw
FZP 45016-B

- two-stroke engine with a capacity of 45 cm³
- FIELDMANN guide bar 40.5 cm long
- safety chain brake
- C.D.I. starting system
- weight: 5.0 kg

PETROL SAWS

Petrol chain saw
FZP 56516-B

- two-stroke engine with a capacity of 56.5 cm³
- guide bar 40.5 cm long
- FIELDMANN chain
- safety chain brake
- C.D.I. starting system
- weight: 5.6 kg

FIELDMANN®
Home & Garden Performance

THE PERFECT COMPROMISE

FZP 5816-B is a good choice for the garden and the woods. It does a fair job of pruning thicker branches, felling trees, cutting large quantities of firewood, but it is also useful for maintaining the garden and around the house.

The model has an excellent balance, reasonable weight and therefore easy handling. Moreover, it has a very good performance. You don't need a lot of physical strength to start even in winter.

ELECTRIC SAWS

Electric chain saw
FZP 2105-E

- electric engine input power: 1,800 W
- FIELDMANN guide bar 35 cm long
- safety chain brake
- automatic oil pump
- weight: 5.0 kg with a guide bar and chain

Electric chain saw
FZP 2005-E

- electric engine input power: 2,000 W
- guide bar 40 cm long
- safety chain brake
- automatic oil pump
- weight: 5.5 kg with a guide bar and chain
- quick chain tensioning system

Electric chain saw
FZP 2025-E

OREGON

- electric engine input power: 2,400 W
- guide bar and chain Oregon with a length of 40 cm
- excellent balance thanks to unique design
- safety chain brake
- automatic oil pump
- weight: 5.4 kg with a guide bar and chain

Electric chain saw
FZP 2030-E

- electric engine input power: 2,400 W

ELECTRIC AND PETROL HEDGE TRIMMERS

If you want to have a well-tended hedge, you can't do without its maintenance aids. But with mechanical clippers, you will only manage really small areas. For hedges, which are usually several tens of meters long, hedge trimmers or powered hedge cutters – electric or petrol are needed. Working with electric or petrol hedge trimmers is easier, faster, more comfortable, but also more accurate than with manual hedge clippers.

With an electric hedge cutter, you get the advantage of a lighter device, zero emissions and basically zero maintenance, with petrol machines the limit of the availability of electricity and the supply cable is eliminated. Petrol machines offer more power and higher speed.

Choose the right assistant according to the power – the longer, more high-grown, denser and thicker the branches of the plant, the greater the power you need. Focus also on the length of the guide bar – a longer one (40 cm and more) is suitable for wide hedges, large areas or shaping larger bushes, a shorter guide bar will

suffice for a solitary thuja. It is worth buying telescopic hedge trimmers for a high or difficult-to-access hedge (these can be found among tree pruners). It is practical to be able to adjust the cutting head or handle to different angles, with which you can easily manage even vertical surfaces, places low to the ground, etc.

All **FIELDMANN** hedge cutters are equipped with a safety switch system that prevents unintentional lowering, a guide bar cover for safe storage or a protective shield against flying branches.

Electric hedge trimmers FZN 2000-E

Electric hedge trimmers FZN 2305-E

LOPPING SHEARS, GARDEN TOOLS

You can't do without hedge clippers. in the garden. They are needed for cutting an ornamental shrub, for liquidating overly rank offsets of woodbine or for a quick pruning of a fruit tree, for cutting off a bouquet of roses... The brand **FIELDMANN** offers several types of these assistants tailored to specific activities straight away.

One-handed double-shear (double-edge) clip-pers are designed especially for detailed shaping of shrubs, pruning, rejuvenation or grafting of trees or cutting of thicker flower stems. Thanks to the shears made of high-quality metal, they can also handle young tree branches up to thickness of 15 or even 20 mm. Ergonomically designed handles ensure that they are comfortable and easy to work with.

Lever shears for branches are designed for thicker branches – up to a thickness of 50 mm, which they can manage thanks to longer handles and a leverage. In telescopic lever shears from **FIELDMANN**, handles can be even extended, from the standard 68 up to 92 cm. This will allow adjustment to several different lengths, and therefore different range. The low weight of these tools due to the use of high-quality aluminium alloy also increases the cutting comfort. All **FIELDMANN** lopping shears are equipped with ergonomic handles with a rubberised surface.

Do you need to conquer even stronger branches? Then a hand saw will be suitable or a telescopic pruning saw for work in higher positions, with a range of up to 5 meters.

Lopping shears FZNR 1006

- lopping shears
- double-bladed
- max. thickness of wet branch: 20 mm
- SK5 stainless steel blade

Lopping shears FZNR 1007

- lopping shears
- double-bladed
- max. thickness of wet branch: 20 mm
- 2 cutting pitch positions

Hand saw FZNR 1310

- blade length: 240 mm
- total length: 410 mm
- blade treated against corrosion
- weight: 380g
- protective case
- possibility of attachment to the belt

Telescopic pruning saw FZNR 1350

- suitable for pruning branches in tree crowns
- high sharpness, hardened teeth
- telescopic pole with adjustable range, max. 5 m
- plastic blade cover also included

Lever shears for branches FZNR 1013

- telescopic shears
- single-bladed
- shears length 680–920 mm
- shears weight: only 1920 g
- cut of branches up to 50 mm
- steel handles
- rubberised handles

Lever shears for branches FZNR 1022

- telescopic shears
- shears length 680–920 mm
- shears weight: only 1,980 g
- cut of branches up to 50 mm
- steel handles
- rubberised handles

Garden tools set FZNR 1101

- set of 5 hand tools
- hoe, fork, garden claw, root puller and transplanting trowel
- plastic with strong polyamide fibres
- high heat resistance
- high strength

Garden tools set FZNR 1104

- set of 4 hand tools
- trowel, small rake, cultivator, weed puller
- high durability
- material: aluminium
- softened handle

GRASS SHEARS, TREE PRUNERS

Detailed shaping of decorative hedges or ornamental shrubs as well as final treatment after work with a classic lawn mower can be facilitated by grass shears and hedge trimmers. They use two-edged blades to cut the edge of the lawn precisely. All you have to do to shape higher-grown shrubs or just a short hedge of low-hardy plants is to replace the knives with a guide bar for dressing ornamental trees, with which you can cut branches up to a thickness of 1 cm.

The swivel handle allows you to choose one of four working positions for comfortable work even in less accessible places. Among the optional accessories, you will find a telescopic pole with a length of up to 130 cm, additionally equipped with wheels for easier work standing up, which is useful, for example, when trimming grass along the pavement. Of course, there is a safety lock to prevent accidental starting and a protective cover of the guide bar. The high-quality Li-Ion battery of the cordless shears and trimmers has no memory effect and does not suffer from self-discharge.

To prune the branches in the tree crown, you need a ladder or stepladder – working with cutting tools at height is, however, associated with many risks. These are eliminated when using an electric telescopic pruner. Thanks to the handle, which can be adjusted to a length of up to 290 cm, you can easily reach it from the ground to the crowns of, for example, fruit trees. The **FELDMANN** telescopic cutter has the option of adjusting the angle of the cutting head, the comfort of use is increased by the softened handle cover or shoulder strap.

everything for your home and garden

We also offer battery options within the programme **FAST POWER 20V**, pp. 4-7

Telescopic hedge trimmers

FZN 6005-E

- electric engine input power: 450 W
- length of the shear guide bar 46 cm
- maximum cutting diameter – 16 mm
- cutting head angle adjustment – 8 positions
- telescopic handle adjustment in the range of 1.9–2.5 m
- weight: 3.70 kg

Pole saw

FZN 6005-E

- electric engine input power: 600 W
- FIELDMANN guide bar and chain
- guide bar length – 25 cm
- possibility to adjust the cutting head angle – 3 positions
- telescopic handle adjustment in the range of 2.3–2.9 m
- weight: 3.50 kg

Cordless grass shears and hedge trimmers

FZN 4000-A

- Li-Ion battery 3.6 V / 1,500 mAh
- operating time of approx. 30 min
- recharging time of approx. 4 hours
- 2 cutting blades – easy exchange
- shrub trimmer blade – 100 mm
- grass shear blade – 70 mm
- safety switch
- battery charge status indicator
- weight: 0.60 kg

Cordless grass shears and hedge trimmers

FZN 4101-A/4102-AT

- replaceable Li-Ion battery 3.6 V / 1,300 mAh
- swivel head with 4 positions
- grass shear blade – 80 mm
- shrub trimmer blade – 110 mm
- battery power indicator
- weight: 0.60 kg
- the FZN 4102-AT option also includes a telescopic handle (130 cm)
- weight 1.00 kg

SHREDDERS AND CHIPPERS

Where to place waste after pruning trees or preparing firewood? Fresh branches are difficult to burn, in some areas such disposal is not even allowed by a local decree. Drying them in the corner of the garden is also not ideal, and if you do not own a car with a trailer, transport to waste recycling centres can be technically demanding. Garden shredders and chippers will easily help with disposal, which will also allow the waste to be further effectively used.

FIELDMANN electric shredders process the branches of shrubs and trees, which they crush into small pieces using rotary blades. The resulting pulp, which is collected in a plastic box or textile bag, can be composted or used as mulch in flower beds where you want to prevent weed growth.

The pieces that form a wood chipper from the branches can also be used as mulch, but they are also suitable for kindling of fire in stoves or boilers. The wood chipper does not crush the branches, but with the help of a slowly rotating teeth roller it breaks them into larger chips, which are caught in a plastic box. The **FIELDMANN** wood chipper can handle branches up to a diameter of 44 mm, has a self-feeding function, reverse run and overload protection.

everything for your home and garden

Electric shredder
FZD 4010-E

- shredding system: 2 blades
- input power: 2,400 W
- overload protection
- maximum diameter of crushing: 4 cm
- included bag for shredded waste
- large catcher opening
- overload protection
- weight: 14 kg

Electric shredder
FZD 4020-E

- electric engine input power: 2,500 W
- blade crushing system – 2 blades
- waste crushing up to a diameter of 4 cm
- overload protection
- solid steel construction with wheels for easy relocation
- box with a capacity of 50 l with safety lock for easy handling of crashed material
- weight: 14.1 kg

Electric wood chipper
FZD 5015-E

- electric engine input power: 2,800 W
- crushing with a teeth roller
- box for crushing material with a volume of 60 l
- crushing of garden waste up to a diameter of 4.4 cm
- overload protection and reverse run
- robust steel construction with wheels for easy handling
- weight: 19.4 kg

LOG SPLITTER

The popularity of heating with wood is returning, but in the case of wood for the whole season we are happy to give the traditional chopping with an axe a miss.

Modern splitters help to prepare wood stocks quickly and without much physical effort. They are easy to operate and allow you to split dry and wet wood. The horizontal splitter is ideal for occasional splitting of smaller logs, while the vertical model is designed for more demanding users and for regular use, allowing for processing even slightly larger or longer logs.

Electric log splitter
FZLS 1005H-E

- type of splitter: horizontal
- voltage: 230 V, classic socket
- power: 1,500 W
- max. cutting pressure: 5 t
- max. log length: 52 cm
- max. log diameter: 25 cm

NEW

5 t

Electric log splitter
FZLS 1008V-E

- type of splitter: vertical
- voltage: 230 V, classic socket
- power: 3,000 W
- max. cutting pressure: 8 t
- max. log length: 55 cm
- max. log diameter: 30 cm

GARDEN VACUUM CLEANERS

AND BLOWERS

A garden blower or a vacuum cleaner is primarily used while cleaning autumn leaves. With the help of a strong wind current, it blows the fallen leaves into one place, removes them even from hard-to-reach corners and thus saves hours of strenuous work with rakes.

When reverse run is engaged, for which a single lever movement is sufficient, it works as a vacuum cleaner. It sucks the leaves from a blown pile into the attached bag, crushes them on the way, thus preparing the ideal material for compost. However, the garden blower can also be used elsewhere around the house – you can easily remove powder snow with it or blow out sawdust out of the backyard after cutting wood.

FIELDMANN blowers and vacuum cleaners reach air velocity 250 km/h, higher category models of 270–300 km/h! They also have practical bulky collection bags that are attached to the body of the device with a simple movement. Continuous power control is useful, for example, in a situation where you need to suck leaves from the flower bed, but no longer carefully spread mulch. **FIELDMANN** blowers are equipped with a guide wheel and a shoulder strap for easier handling.

Petrol blower /vacuum cleaner **FZF 6205-B**

- 3 functions: blowing, sucking, crushing
- 2-stroke engine 0,8 kW / 25,4 ccm
- air speed: 150 km/h
- fuel tank: 0.57 l
- weight: 4.5 kg

We recommend
MOL oils for the
preparation of the
fuel mixture.

we recommend
Fuel can 5 l
FZR 9060

Electric garden vacuum cleaner FZF 4008-E

- electric engine input power: 3,000 W
- 3 functions – blowing, sucking, crushing
- air velocity 240 km/h
- suction power up to 9 m³/min.
- mulching ratio 10:1
- collection bag volume 45 l
- shoulder strap included
- weight: 2.8 kg

Electric garden vacuum cleaner FZF 4030-E

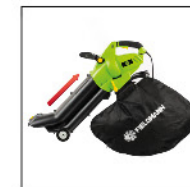

We also offer
a cordless blower
within the programme
FAST POWER 20 V,
pp. 4–7

- garden vacuum cleaner with the possibility of continuous power control
- electric engine input power: 3,000 W
- soft start – smooth engine start
- 3 functions – blowing, sucking, crushing
- air velocity 100 to 270 km/h
- suction power up to 13 m³/min.
- mulching ratio 10:1
- collection bag volume 45 l
- shoulder strap included
- steel shredder
- weight: 3.5 kg

Electric garden vacuum cleaner FZF 4050-E

- garden vacuum cleaner with the possibility of continuous power control
- electric engine input power: 3,000 W
- soft start – smooth engine start
- 3 functions – blowing, sucking, crushing
- air velocity 100 to 300 km/h
- suction power up to 16 m³/min.
- mulching ratio 15:1
- collection bag volume 45 l
- shoulder strap included
- retractable small rake and telescopic nozzle
- steel shredder
- easy access to the workspace
- weight: 3.7 kg

WATER PUMPS

Water management, and in the garden, especially rainwater management, has been a strong trend in recent years. Underground tanks, older or almost forgotten wells, but also above-ground large-volume containers, barrels are an ideal solution.

From them it is necessary to get water into irrigation systems, garden showers, swimming pools, etc. **FIELDMANN** offers a wide range of special equipment for this purpose, from clean water pumps or sludge pumps to drain flooded cellars, septic tanks or garden ponds through universal garden and drum pumps to domestic waterworks. All products in this category are equipped with a float that ensures automatic switching on and, when the liquid level drops to a minimum level, also switching off the device.

Garden waterworks FVC 8510-EC

- garden waterworks with an input power of 800 W
- maximum delivery 40 m
- maximum transferred amount 3,200 l/h
- maximum pressure 3.0 bar
- maximum suction depth 8 m
- tank volume 20 l

Garden waterworks FVC 8550-EC

- garden waterworks with an input power of 1,000 W
- maximum delivery 44 m
- maximum transferred amount 3,500 l/h
- maximum pressure 3.0 bar
- maximum suction depth 8 m
- tank volume 25 l

everything for your home and garden

Clean water pump FVC 2001- EC

- float pump with an input power of 250 W
- maximum delivery 6 m
- maximum suction depth 5 m
- maximum transferred water amount 5,000 l/h
- maximum size of solid impurities 5 mm
- possibility to connect 1" or 2" hose

Sludge water pump FVC 2003- EK

- universal pump with an input power of 400 W
- maximum delivery 5 m
- maximum suction depth 5 m
- maximum transferred water amount 7,500 l/h
- maximum size of solid impurities 35 mm
- possibility to connect 1" or 2" hose

Sludge water pump FVC 4001-EK

- powerful sludge pump with an input power of 750 W
- maximum delivery 8 m
- maximum immersion depth 8 m
- maximum transferred water amount 12,000 l/h
- maximum size of solid impurities 35 mm
- possibility to connect 1" or 2" hose

Sludge water pump FVC 4002- EK

- submersible sludge pump with a durable stainless steel body
- electric input power: 900 W
- maximum delivery 10 m
- maximum immersion 10 m
- maximum transferred water amount 14,500 l/h
- maximum size of solid impurities 25 mm
- possibility to connect 1" or 2" hose
- internal diameter 12.5 mm
- external diameter 18 mm

Pump with integrated float FVC 5015-EK

- electric input power: 750 W
- max. flow rate: 14,000 l/h
- max. immersion depth: 7 m
- max. delivery: 8 m
- max. pressure: 0.8 bar
- residual level in automatic operation 6 cm
- residual level in manual operation 2 cm
- maximum size of solid impurities 16 mm
- possibility to connect 1" or 2" hose

Drum pump FVC 3002- ED

- input power: 250 W
- maximum flow rate 2,000 l/h
- maximum immersion depth 7 m
- maximum delivery 9 m
- maximum size of solid impurities 3 mm
- power cord length 10 m
- float switch

Garden pump FVC 6010-B

- engine type: 2-stroke single cylinder 52 cm³
- engine power: 1.45 kW
- fuel mixture ratio (oil/fuel) 1:25
- max. delivery 30 m
- max. suction depth 7 m
- max. flow rate 20,000 l/h

Garden pump FVC 8010/8020-EC

- input power: 600/800 W
- maximum delivery 35/40 m
- maximum pumping depth 7/8 m
- maximum transferred water amount 2,800/3,200 l/h
- power cord length 1.2 m

SOLAR SHOWERS

Solar showers are an ideal source of hot water without the use of electricity. The water in the tank is simply and ecologically heated by the sun. The solar shower provides a refreshing light shower in the heat, but is also suitable for the pool. Rinsing before swimming reduces the maintenance of the pool.

NEW

**Solar shower
FZH 5020**

- dimensions of the shower: 11 × 218 cm
- volume of the container: 20 l
- max. water temperature: 60°C

NEW

**Solar shower
FZH 5025**

- dimensions of the shower: 11 × 218 cm
- volume of the container: 20 l
- max. water temperature: 60°C
- tap: yes

NEW

**Solar shower
FZH 5035**

- dimensions of the shower: 16 × 218 cm
- volume of the container: 35 l
- max. water temperature: 60°C
- tap: yes

**Irrigation hose
FZH 9115**

- 1"
- length 15 m
- 3 layers
- operating temperature: from -5°C to + 65°C
- operating pressure max. 6 bar
- suitable for FVC 2001, FVC 2003, FVC 4001, FVC 4002, FVC 5010

**Irrigation hose
FZH 9120**

- 3/4"
- length 20 m
- 3 layers
- operating temperature: from -5°C to + 65°C
- operating pressure max. 8 bar

**Irrigation hose
FZH 9130**

- 1/2"
- length 30 m
- 5 layers
- operating temperature: from -5°C to + 65°C
- operating pressure max. 10 bar

**Irrigation hose
FZH 9150**

- 1/2"
- length 50 m
- 5 layers
- operating temperature: from -5°C to + 65°C
- operating pressure max. 10 bar

everything for your home and garden

HOSE REELS, IRRIGATION GUNS AND GARDEN HOSES

So that you don't have to untangle the garden hose before each watering, it is worth buying a winch. Thanks to it, you can easily and quickly unroll and roll up the hose. In addition, using a winch will extend the service life of the hose.

Whether you are choosing a wall winch or a free-standing model, the universal novelty **FIELDMANN FZH 1021** is the ideal choice. It is suitable for both applications. **FIELDMANN** also offers high-quality garden hoses that ensure good service with a long service life. They are resistant to UV radiation and have high temperature stability. At the same time, they are flexible, resistant to mechanical pressure, twisting or breaking. Both three-layer and five-layer hoses do not let the light through, which stimulates the formation of algae in the hose. The range also includes accessories, especially various irrigation guns and end pieces.

Garden winch
FZH 1160

- a hose (1/2") in the length of 60 m can be used
- resistance to corrosion
- easy installation
- light construction
- convenient carrying
- economical storage

Garden winch
FZH 1146

- a hose (1/2") in the length of 45 m can be used
- resistance to corrosion
- easy installation
- light construction
- convenient carrying
- economical storage

Irrigation guns
FZH 9007

- compatible with end piece 1/2", 13 mm
- length 450 mm
- 8 positions
- easy flow rate control

Set of end pieces 1/2"
FZH 9006

- compatible with a hose 1/2"
- 3 x end piece – female
- 1 x stop end piece – female
- adapter 1/2" and 3/4"
- variable irrigation gun

Set of end pieces 3/4"
FZH 9008

- compatible with a hose 3/4"
- 3 x end piece – female
- 1 x stop end piece – female
- adapter 1/2" and 3/4"
- variable irrigation gun

Irrigation set 1/2"
ZH 9005

- compatible with a hose 1/2"
- 3 x end piece – female
- 1 x stop end piece – female
- adapter 1/2" and 3/4"
- irrigation gun 8 positions

Irrigation guns
FZH 9004

- compatible with end piece 1/2"
- 13 mm
- 10 positions
- easy flow rate control

Garden winch
FZH 1220

- hose length: 20 m (outlet) + 2 m (inlet)
- hose diameter: 1/2"
- adapter: 1/2"/3/4" BSP
- operating temperature: from -5 to +45°C
- operating pressure max. 8 bar
- burst pressure: 24 bar

Garden winch
FZH 1021

- hose length: 20 m (outlet) + 2 m (inlet)
- hose diameter: 1/2"
- adapter: 1/2" and 3/4"
- working pressure 8 bar
- burst pressure: 24 bar
- operating temperature: -5 to +45°C

Irrigation timer
FZH 2020

- irrigation time: 1 min – 4 h
- operating pressure: 0.5–8 bar
- max. flow rate: 35 l/min
- watering: up to 3x a day
- up to 3 individual plans for each day
- frequency of irrigation for each plan: Mon to Sun or every 2/3/4/5/6 days

HIGH PRESSURE WASHERS

Pressure washers are a welcome assistant, which can be used in a variety of situations not only at home and in the garden, but now also on the road. In workshops or garages, they take care of the cleanliness of the car, even in less accessible parts of the body, clean the fence, garden furniture, interlocking paving, terrace and facade around the house, wash muddy bikes, boats or caravans on the road...

At the same time, they handle even grime, which they remove with the help of a strong, precisely measured stream of water. **FIELDMANN** high pressure washers, including this year's new high-performance models, offer great performance and low water consumption. Compared to conventional washing, it is up to several tens of percent smaller. Spray guns with variable nozzles are also practical.

The offer also includes a cordless pressure washer within the programme **FAST POWER 20V**, pp. 4-7

High pressure washer FDW 201402-E

- voltage/frequency: 230 V / 50 Hz
- Input power: 1,400 W
- maximum pressure: 105 bar
- maximum flow rate: 396 l/hour
- power cord: 5 m
- high-pressure hose length: 3 m
- spray gun with variable nozzle
- turbo nozzle
- Integrated shampoo container

everything for your home and garden

High pressure washer
FDW 201602-E

- voltage/frequency: 230 V / 50 Hz
- input power: 1,600 W
- maximum pressure: 130 bar
- maximum flow rate: 420 l/hour
- power cord: 5 m
- high-pressure hose length: 5 m
- spray gun with variable nozzle
- integrated shampoo container

High pressure washer
FDW 201650-E

- voltage/frequency: 230 V / 50 Hz
- input power: 1,650 W
- max. pressure: 135 bar
- max. flow rate: 420 l/hour
- power cord: 5 m
- high-pressure hose length: 5 m
- spray gun with variable nozzle
- turbo nozzle
- car brush
- surface cleaner
- integrated shampoo container

High pressure washer
FDW 202205-E

- voltage/frequency: 230 V / 50 Hz
- input power: 2,200 W
- max. pressure: 165 bar
- max. flow rate: 450 l/hour
- power cord: 5 m
- high-pressure hose length: 5 m
- spray gun with variable nozzle
- turbo nozzle
- car brush
- surface cleaner
- integrated shampoo container

CULTIVATORS

With a hoe, you will manage a small flower bed at most. If you are going to loosen larger areas, use a cultivator with a drive. **FIELDMANN** offers electric and petrol cultivators, which use rotating blades to loosen and aerate the soil, disintegrate hardened lumps and pieces of turf, bring stones and weeds to the surface and at the same time plough in compost, fertiliser or seedlings into the soil.

Electric cultivators are ideal for medium-sized flower beds within reach of an electrical outlet, they are light and easy to handle. Low noise and zero emissions make them great assistants in soil preparation in enclosed greenhouses. The petrol machine offers other advantages, especially the ability to work on large areas without limiting the availability of electricity.

Electric cultivator
FZK 2002-E

- electric engine input power: 750 W
- working width 32 cm
- steel gears
- 4 steel blades
- blade diameter 20 cm
- folding handle
- weight: 8 kg

Electric cultivator
FZK 2004-E

- electric engine input power: 1,200 W
- working width 40 cm
- steel gears
- 6 steel blades
- blade diameter 20 cm
- folding handle
- weight: 11 kg

Electric cultivator
FZK 2115-E

- electric engine input power: 1,500 W
- working width 35/45 cm
- steel gears
- 6 steel blades
- blade diameter 21 cm
- folding handle
- weight: 12 kg
- possibility to add two more blades

Petrol cultivator
FZK 6015-B

- engine: OHV, 139 cm³, 2.2 kW
- working width: 36 cm
- blade diameter: 26 cm
- weight: 31 kg

Petrol cultivator
FZK 6115-B

- engine: OHV, 139 cm³, 2.2 kW
- working width: 36/59 cm
- blade diameter: 26 cm
- weight: 34 kg
- possibility to add two more blades

The offer also includes a cordless cultivator within the programme **FAST POWER 20V**, pp. 4-7

POWER GENERATORS

Watching your favourite TV show, blow-drying your hair or using an electric drill, even on a boat or in a cottage where there are no electric wires? Or they are available, but the power is out after the storm? In short, there are situations when an electric power generator comes in handy.

For caravan and boat owners, campers, but also for gardeners, cottagers and builders, there are power generators from **FIELDMANN**. Inverter models with the look of a suitcase are compact and easy to move, so they are useful when travelling by caravan, camping, on a boat. Thanks to inverter technology, these models provide a very high quality and stable voltage, so it is possible to connect sensitive electronics such as a PC or TV. The frame model is the optimal solution for outdoor operation of garden equipment and tools. It is also suitable for smaller construction sites and house renovation.

FRAME

INVERTED

MAIN ADVANTAGES OF INVERTED POWER GENERATORS:

- » LOW WEIGHT
- » LOW CONSUMPTION
- » LOW NOISE
- » IDEAL FOR ELECTRONIC DEVICES (PC/TV)

Construction generator **FZI 2300-B**

- container volume: 15 l
- max. power: 2,400 W
- guarant. performance: 2,100 W
- connections: 2x 230 V
- operating time: 12.5 h

NEW

Petrol generator **FZI 4010-Bi**

- OHV engine 54 cm³
- maximum power 1,000 W
- permanent power 900 W
- inverter technology el. output control
- outputs: 1x ~230 V/50 Hz, 1x = 12 V, 1x USB
- tank volume 3 l
- operating time per tank up to 8.5 h
- weight: 15 kg

Petrol generator **FZI 4020-Bi/4018-Bi**

- OHV engine 80 cm³
- maximum power 1,800 W
- permanent power 1,600 W
- inverter technology el. output control
- outputs: 1x ~230 V/50 Hz, 1x = 12 V, 1x USB
- tank volume 4.5 l
- operating time per tank up to 6 h
- weight: 21 kg
- FZI 4018-Bi variant with smaller 4.1 l tank available

NEW

Engine oil
MOL Dynamic Garden 2T

- oil designed to mix the fuel mixture for two-stroke engines
- keeps the engine clean and reduces engine wear
- prevents plug damage
- suitable for garden machinery
- package volume 0.6 l

Engine oil
MOL Dynamic Garden 4T

- designed for lubrication of four-stroke petrol engines
- retains its excellent properties even at low temperatures
- suitable for year-round use
- viscosity class SAE 10W-30
- suitable for garden machinery
- package volume 0.6 l

Oil for lossy lubrication
MOL Dynamic Forest

- oil designed for lubrication of chain saw chains
- suitable for year-round use in petrol and electric saws
- reduces the friction temperature and reduces wear on the chain and guide bar
- integrated funnel for convenient pouring
- package volume 0.6 l

Engine oil
MOL Essence

- oil for lubrication of four-stroke petrol engines
- high thermo-oxidative stability
- viscosity class SAE 15W-40
- suitable for garden machinery
- package volume 1.0 l

Oil extractor
FZR 9050

- container capacity 1.6 litres
- 2x PVC hose: diameter 8 mm and length 1 m
- diameter 10 mm and length 1.3 m
- funnel
- also applicable for all types of fuels

Hand sprayer
FZO 8060

- container capacity 5 litres
- metal nozzle with spray control + position adjustment
- overpressure valve
- shoulder strap
- max. pressure 2.5 bar

Hand sprayer
FZO 8050

- container capacity 2 litres
- metal nozzle with spray control
- overpressure valve
- switch with the possibility of locking after start-up

Garden cart
FZO 4001

- practical cart for use in every garden or around the house
- stable construction and easy handling
- replaceable plastic bag with a volume of 80 l
- cart load capacity 25 kg

everything for your home and garden

**Work gloves
FZO 5010**

- palm part of fine goatskin
- finger part of fine goatskin
- upper part – elastic synthetic fabric
- velcro strap to attach to the wrist
- size 10"(XL)

**Work gloves
FZO 6010/6011**

- reinforced palm lining to dampen vibrations
- lower palm part made of synthetic leather
- upper part made of flexible and breathable synthetic fabric
- the securing strap on the wrist prevents slipping
- size 10" (XL) / 11" (XXL)

**Work gloves
FZO 7010**

- lower part made of synthetic leather
- upper part made of elastic neoprene
- loop for easy donning
- anti-slip protection with Velcro tape size 10"/XL

**Work gloves
FZO 7011**

- lower part made of genuine leather
- upper part made of premium neoprene
- loop for easy donning
- size 10"(XL)

**Work female gloves
FZO 2111**

- lower part made of synthetic leather
- upper part made of flexible SPANDEX material
- elastic material on the wrist against slipping
- size 8"(S)

**Work female gloves
FZO 2110**

- lower part made of synthetic leather
- upper part made of flexible SPANDEX material
- elastic material on the wrist against slipping
- size 8"(S)

**Aluminium folding shovel
FPL 4002**

- unfolded length 82 cm
- folded length 66 cm
- aluminium shovel with anodised surface with a size: 22 x 28 cm
- ergonomic handle for easier handling
- max. recommended weight 15 kg
- security locks against spontaneous folding up
- weight: 0.6 kg

**Steel folding shovel
FPL 4001**

- steel thickness 1.5 mm
- steel handle
- unfolded length 57 cm
- folded length 23.5 cm
- max. recommended weight 23 kg
- weight: 0.99 kg
- shovel width 15 cm
- package includes: portable bag

fieldmann.eu

GARDEN FURNITURE

Today, it is no longer just a seasonal affair, quality garden furniture is used all year round in indoor gardens, covered pergolas or on glazed balconies. Maybe that's why the assortment in this area is increasingly similar to the offer of interior furniture. Even in the garden (or pergola), comfort comes first, it is no longer enough just to have a dining table and chairs, or a sunshade, although they are available in a wide range of shapes and sizes.

There are also sofas and entire sofa systems, swings, serving tables and other pieces of furniture, which used to be exclusively a matter of interior spaces. **FIELDMANN** offers quality garden furniture made of tropical wood, metal and artificial rattan.

Furniture Made of Tropical Acacia Wood

Wooden garden furniture is very popular due to its originality and naturalness of the natural material, which easily fits into traditional as well as purely modern gardens. **FIELDMANN** wooden garden furniture is made of exotic acacia wood, which is characterised by an olive brown to grey-brown shade with a fine texture. It is hard wood, highly resistant to moisture and other weather conditions, so you don't have to be afraid to leave the furniture outside all season, regardless of the weather.

Care for Wooden Furniture

Despite its resistance to climatic influences, it is ideal to store furniture made of exotic wood in a dry environment for the winter or to cover it with a cover or tarpaulin. It should be impregnated with oil at least once a season, which will support its durability, service life and strengthen protection against UV radiation and pests, while maintaining the beautiful appearance of the wood. This is not a difficult task. Before impregnating, you only need to

clean the furniture well, you can remove any algae, mould or fungi with fine sandpaper. Impregnate the wood with the specified products when it is dry, free of dust and dirt.

Metal Furniture

Strength, stability, dimensional stability, weather resistance and a long service life supported by advanced finishes, as well as modern design, elegance and minimal maintenance, these are the features for which many people choose metal furniture for their gardens. The offer of **FIELDMANN** metal furniture includes various sets of tables and chairs, which you can freely combine into an ideal set, as well as comfortable deckchairs or swings. The weaves of armchairs and chairs are made of durable, flexible and maintenance-free fabric, which does not get hot even in direct sunlight. Thanks to the continuing popularity of metal furniture, **FIELDMANN** has added new models to its offer this year as well.

Rattan Furniture

Soapy water to remove any dirt or dust and clean rinsing water. That is all you need to maintain artificial rattan furniture. For this reason, it has more and more fans who also appreciate the durability as well as the comfort and variability that this material offers. The **FIELDMANN** range includes both sets of tables and chairs made of artificial rattan, as well as a deckchair or luxury sofa set, with which you can create the perfect lounge zone in the open air.

Textile Accessories

Textile seat cushions and upholstery are an opportunity to further increase the comfort of garden sitting. In the **FIELDMANN** offer, these accessories are available in several colours, including the popular cream and bottle green. They are made of high-strength, water-resistant polyester. The height of the seat cushions of 5 cm ensures really comfortable sitting. They are available for most types of chairs, armchairs, deckchairs and benches.

- the seat and covers are made of polyester 180 g/m²

GRILLS

ELECTRIC, GAS, CHARCOAL GRILLS AND FIRE PLACES

Barbecue in the garden or on the terrace is not just a matter of the summer months. You can use the grill from the first warmer spring days until late autumn.

Despite the significant development of the gas and electric grills category, charcoal grills designed for outdoor grilling remain the most popular option. Their popularity is due to the unmistakable aroma that accompanies the preparation of dishes, as well as the taste that the ingredients acquire. Lower purchase prices are also an advantage as well as a certain traditional principle on which they work. **FIELDMANN** offers a wide range of charcoal grills, from portable to table to large appliances capable of preparing food for a larger group of people at once. Gas grills also have their advantages and they are not just modern technologies that enable perfect food preparation even for less capable cooks.

- grid height from the ground: 40 cm
- chrome cooking grid
- heat resistant coating
- stable stand
- net cover against flying off embers
- charcoal/briquette fireplace

CORDLESS TOOLS ELECTRIC TOOLS WORKSHOP EQUIPMENT

Almost everyone has basic tools, such as a hammer, pliers and a screwdriver. But to be prepared for more demanding repairs and situations, you definitely need more tools. **FIELDMANN** offers hand tools made of high quality materials that ensure strength, durability and reliability, but also great functionality. With such equipment your DIY result will always be perfect.

CORDLESS TOOLS

Using cordless tools, you no longer have to worry about whether an electrical outlet is within range, whether you can reach the power cord, or where to get an extension cord.

We also offer a cordless drill within the programme **FAST POWER 20V**, pp. 4-7

The convenience is offered by the battery assistants even during the use itself, which is not obstructed by any cables. There is no need to mention how much physical effort you will save. Cordless tools are always available and ready for action, all you have to do is monitor the condition of the battery. The advanced new **FDV 10252-A/10253-A** drills come straight with a spare battery, so you can charge the other while you're working. In addition, the battery weighing only 175 g is built into the ergonomic handle, so you really even don't know about it. The novelty with extremely easy handling will provide user comfort, perhaps even for women, for whom the pink **FDV 10253-A** model is primarily intended. The **cordless** melt glue gun and the **cordless** model grinder are other novelties in the series.

everything for your home and garden

Cordless staple gun FDN 3025-A

NEW

- nail gun 4 V / 1,500 mAh
- integrated LED light for easier work
- suitable for attaching fabrics, foils, tarpaulins, plastic, leather and decorative materials
- USB adapter charging

Cordless model grinder FDMB 200170-A

70 pcs

- Li-Ion 7,2 V / 1,300 mAh
- 5 speeds: 5,000-25,000 rpm
- charging time: 60 min
- LED working light
- softened handle
- package includes: 70 pcs accessories

Cordless melt glue gun FDTP 2204-A

- Li-Ion 4 V / 1,500 mAh
- melt glue stick diameter: 7 mm
- preheating time: only 90 seconds
- gluing activity: 1.5 g/min
- gluing temperature: 170°C
- charging time: 2-3 hours

Cordless Impact drill FDV 10352-55AR

hammer drill

practical kit
is included

- Li-Ion 14,4 V / 2,000 mAh
- 2 speeds: 0–400/0–1,400 rpm
- torque 35 Nm
- torque: 18 + 1 + 1
- **hammer drill**
- 13 mm keyless chuck with a brake
- LED light
- **recharging time 1–1.5 hours**
- package includes:**
 - 9 pcs of masonry drills
 - 30 pcs of 25 mm bits
 - 3 pcs of 75 mm bits
 - 1 bit attachment
 - 1 screwdriver
 - 4 pcs of socket heads

Cordless drill FDV 10345-A

- Li-Ion 14,4 V / 1,300 mAh
- idle speed: 0–400 / 0–1,500 rpm
- torque levels: 15 +1 drilling position
- torque 30 Nm
- max. drilling diameter: 10 mm
- keyless chuck
- LED light
- USB port – power bank function
- 3 level LED battery charge indicator
- weight: 1.3 kg

Cordless drill FDV 10301-A

- Li-Ion 14,4 V / 1,500 mAh
- 2 speeds: 0–400/0–1,400 rpm
- torque 30 Nm
- torque: 18 + 1 + 1
- LED light
- maximum drilling diameter 10 mm
- weight: 1.2 kg

Cordless drill FDV 10201-A

- Li-Ion 12 V / 1,300 mAh
- 2 speeds: 0–400 / 0–1,350 rpm
- torque 25 Nm
- 17 torque levels + 1 drilling level
- 3 level LED battery charge indicator
- LED light
- **recharging time 3–5 hours**
- keyless chuck max. drilling diameter 10 mm
- weight: 1.05 kg

Cordless drill FDV 10252-A/53-A

practical kit
is included

- Li-Ion 12 V / 1,300 mAh
- 2 speeds: 0–350 / 0–1350 rpm
- torque: 22 + 1
- 10 mm keyless chuck
- LED light
- package includes:**
 - 6 pcs of drills, 6 pcs of bits
 - 1 bit attachment
 - **spare battery FREE OF CHARGE**

Cordless Screwdriver FDS 10103-A

USB
charging

- 3,6 V / 800 mAh Li-Ion battery
- idle speed: 280 rpm
- rotation direction switch
- **charging time 1 h** with USB cable
- LED light
- **low weight: 0.16 kg**

Cordless Screwdriver FDS 10101-A

USB
charging

90° swivel
handle

- 3,6 V / 1,300 mAh Li-Ion battery
- idle speed: 180 rpm
- torque levels: 6 + 1
- LED light
- battery charge indicator
- handle rotatable by 90°

Cordless Screwdriver FDS 10155-A

USB
charging

90° swivel
handle

- 3,6 V / 1,300 mAh Li-Ion battery
- idle speed: 230 rpm
- torque 3.5 Nm
- torque levels: 6 + 1
- LED light + flashlight
- 90° swivel handle
- package includes:**
 - 8 pcs of 1/4" heads, 32 pcs of bits
 - 2 pcs of drills
 - 1 magnetic bit holder
 - 1 connecting shaft
 - 1 head adapter

90° swivel handle

Cordless Screwdriver FDS 10102-A

THE BEST-SELLING CORDLESS SCREWDRIVER ON THE MARKET!

- 3,6 V / 1,300 mAh Li-Ion battery
- idle speed: 220 rpm
- 6-bit head, LED lighting
- battery charge indicator
- 90° swivel handle
- ergonomic handle

ELECTRIC HAND TOOLS

Power tools still hold a strong position in DIY workshops and in everyday households. It offers both high and stable performance and unlimited endurance. All you need is an electrical outlet within easy reach.

The **FIELDMANN** brand offers a wide selection of power tools. It covers the needs of hobby users, whether for DIY or repairs in the home, workshop or garage, renovation or construction. The tools offer a very good price/performance ratio and are easy to use, whether they are drills, grinders, saws, welders, spray guns or mixers. Model grinders are versatile tools for precision drilling, grinding, sanding, engraving, carving, milling, polishing, sharpening, cleaning and the list goes on. As with the melt guns, it is a helper for the workshop, but also for creative activities.

SDS drill / rotary hammer FDV 211050-E

- voltage: 230 V / 50 Hz
- input power: 1,050 W
- speed without load: 0–1,050 rpm
- blow force: 0–5,200 blows/min., 2.8 J
- max. drilling: concrete 26 mm, metal 13 mm, wood 42 mm
- speed without load: 0–850 rpm
- 3 pcs of drills and 2 chisels
- 1 chuck
- SDS-PLUS system

pneumatic
hammer drill

practical kit
is included

The best-selling
from our range!

everything for your home and garden

Impact drill FDV 200501-E

- voltage: 230 V / 50 Hz
- input power: 500 W
- keyless chuck up to 13 mm
- speed without load: 0–3,000 rpm
- drilling or hammer drilling
- speed control
- ergonomic side handle
- comfortable switch control

Impact drill FDV 200711-E

- voltage: 230 V / 50 Hz
- power: 710 W
- speed without load: 0–2,800 rpm
- chuck size: 13 mm
- possibility of drilling and hammer drilling
- possibility to control speed
- side handle and depth stop

Impact drill FDV 200751-E

- voltage: 230 V / 50 Hz
- power: 750 W
- speed without load: 0–2,800 rpm
- chuck size: 13 mm
- keyless chuck
- possibility of drilling and impact drilling
- possibility to control speed
- side handle and depth stop

practical kit
is included

Impact drill FDV 201205-E

- voltage: 230 V / 50 Hz
- input power: 1,200 W
- chuck size: 13 mm
- 2-speed clutch: 0–1,100, 0–3,000 rpm
- metal-mounted coupling (long service life)
- drilling or hammer drilling
- speed control
- ergonomic side handle
- comfortable switch control

Rotary hammer FDV 201502-E

pneumatic
hammer drill

- voltage: 220 V / 50 Hz
- input power: 1,500 W
- speed without load: 0–880 rpm
- blow force: 0–4250 blows/min., 5.5 J
- max. drilling: concrete 32 mm, metal 13 mm, wood 40 mm
- speed without load: 0–850 rpm
- 3 pcs of drills and 2 chisels
- SDS-PLUS system
- weight: 4.9 kg

Demolition hammer FDBK 201301-E

SDS
MAX
pneumatic
hammer drill

practical kit
is included

- voltage: 230 V / 50 Hz
- input power: 1,300 W
- SDS-Max
- blow force: 0–3,600/min./15 J
- 1 piece single-point chisel 18 × 320 mm
- 1 flat chisel 18 × 320 mm

SDS drill /rotary hammer FDV 210850-E

SDS
PLUS
pneumatic
hammer drill

practical kit
is included

- voltage: 230 V / 50 Hz
- input power: 850 W
- idling speed: 0–1,300 rpm
- SDS-PLUS
- blow force: 0–5,300 bpm / 2.9 J
- weight: 2.8 kg

fieldmann.eu

Angle grinder FDB 200901-E

We also offer
a cordless grinder
within the programme
FAST POWER 20 V,
pp. 4-7

- voltage: 230 V / 50 Hz
- input power: 900 W
- speed without load: 11,000 rpm
- wheel diameter: 125 mm
- side handle and wrench
- copper engine winding

Angle grinder FDB 201201-E

practical kit
is included

- voltage: 230 V / 50 Hz
- input power: 1,200 W
- no-load engine speed: 12,000 rpm
- side ergonomic handle adjustable to 3 positions
- wheel diameter: 125 mm
- copper engine winding
- 1 piece of grinding wheel included in the package

Angle grinder FDB 201401-E

- voltage: 230 V / 50 Hz
- input power: 1,400 W
- speed without load: 4,000-8,600 rpm
- wheel diameter: 150 mm
- side handle and wrench
- copper engine winding

Angle grinder FDB 202201-E

- voltage: 230 V / 50 Hz
- input power: 2,200 W
- no-load engine speed: 6,000 rpm
- side handle adjustable to 3 positions
- wheel diameter: 230 mm
- copper engine winding

Jigsaw FDP 200451-E

The offer also
includes
a cordless jigsaw
within the programme
FAST POWER 20 V,
pp. 4-7

- voltage: 230 V / 50 Hz
- input power: 450 W
- max. cutting depth: 55-60 mm
- no-load engine speed: 0-3,000 rpm
- ergonomic handle
- copper engine winding
- package includes: 1 pcs of saw blade

Jigsaw FDP 200712-E

- voltage: 230 V / 50 Hz
- input power: 710 W
- max. cutting depth: 80 mm
- no-load engine speed: 800-3,000 rpm
- ergonomic handle, copper engine winding
- package includes:
- rectangular cutting distance holder, 2 saw blades, kit

Jigsaw FDP 200805-E

practical kit
is included

- voltage: 230 V / 50 Hz
- input power: 800 W
- max. cutting depth: 80-100 mm
- no-load engine speed: 2,800 rpm
- ergonomic handle
- AC laser + LED light
- package includes: rectangular cutting distance holder, 2 saw blades, kit

Mini plunge saw FDPP 200705-E

practical kit
is included

- mains voltage: AC 230V / 50 Hz
- input power: 705 W
- speed without load: 4,500 rpm
- blade diameter: 89 mm
- max. cutting depth: 28.5 mm
- practical scale (0-28 mm)
- package includes: 3 x saw blade + accessories (Allen key, dust tube + edge guide)

Circular saw FDK 200802-E

We also offer a cordless circular saw within the programme **FAST POWER 20V**, pp. 4-7

- voltage: 230 V / 50 Hz
- input power: 800 W
- no-load engine speed: 4,500 rpm
- ergonomic side handle
- wheel diameter: 140 mm
- copper engine winding

package includes:

- rectangular cutting distance holder, 1 pc of cutting blade

Circular saw FDK 201202-E

- voltage: 230 V / 50 Hz
- input power: 1,200 W
- no-load engine speed: 0-5,000 rpm
- ergonomic side handle
- wheel diameter: 185 mm
- with ergonomic soft handle

package includes:

- rectangular cutting distance holder + 1 circular blade (185 mm)

Circular saw FDK 201302-E

- voltage: 230 V / 50 Hz
- input power: 1,300 W
- no-load engine speed 4,500 rpm
- side ergonomic handle
- wheel diameter: 185 mm
- robust aluminium body
- AC laser for more precise cutting

package includes:

- rectangular cutting distance holder, 1 pc of cutting blade

Reciprocating saw FDPO 200711-E

- voltage: 230 V / 50 Hz, input power: 710 W
- max. cutting depth: 115 mm
- no-load engine speed 2,800 rpm
- ergonomic handle
- copper engine winding

package content:

- 2 pcs of saw blades (wood + metal)

Reciprocating saw FDPO 201050-E

90° swivel handle

- voltage: 230 V / 50 Hz, input power: 1050 W
- max. cutting depth: 115 mm
- no-load engine speed 1,000-3,000 rpm
- cutting depth, wood 115 mm
- cutting depth, iron 8 mm
- cutting depth, metal tube 60 mm
- swivel handle

package content:

- 2 pcs of saw blades (wood + metal)

We also offer cordless Reciprocating saws within the programme **FAST POWER 20 V**, pp. 4-7

Sheet sander FDB 2004-E

- voltage: 230 V / 50 Hz
- power: 150 W
- speed without load: 11,000 rpm
- sanding surface: 198 × 90 mm
- copper engine winding
- ergonomic handle

Electric planer FDH 200801-E

- voltage: 230 V / 50 Hz
- input power: 800 W
- no-load engine speed: 0–17,000 rpm
- coverage width: 82 mm
- chip depth: 0–2 mm
- folding depth: 0–6 mm
- solid aluminium base

Sheet sander FDB 200131-E

- voltage: 230 V / 50 Hz
- power: 130 W
- speed without load: 13,000 rpm
- sanding surface: 140 × 140 × 80 mm
- copper engine winding

Orbital sander FDEB 200451-E

- voltage: 220 V / 50 Hz
- input power: 450 W
- speed without load: 6,000–13,000 rpm
- sanding surface size 125 mm
- copper engine winding

Sheet sander FDB 200221-E

- voltage: 230 V / 50 Hz
- power: 200 W
- speed without load: 7,000–12,000 rpm
- power control (1–5)
- 3 exchangeable boards:
- 122 mm 
- 150 × 150 × 100 mm 
- 184 × 92 mm 

practical kit
is included

Belt sander FDBP 200901-E

- voltage: 230 V / 50 Hz
- input power: 900 W
- grinding speed: 200–380 m³/min.
- belt size: 76 × 533 mm
- copper engine winding

Multifunction tools FDB 200352-E

practical kit
is included

- voltage: 230 V / 50 Hz
- input power: 350 W
- idling speed 10,000–22,000 rpm
- variable speed
- cutting, grinding, scraping, etc.
- package content:**
- 15 pcs accessories, kit

Multifunction tools FDB 200301-E

practical kit
is included

- voltage: 230 V / 50 Hz
- input power: 300 W
- idling speed 10,000–18,500 rpm
- variable speed
- cutting, grinding, scraping, etc.
- package content:**
- 11 pcs accessories, kit

can be expanded
by 40 accessories
FDB 9002

Model grinder FDMB 200160-E

40 pcs

- voltage 230 v/50 Hz
- power: 170 W
- idling speed: 10,000–36,000 rpm
- chuck size: 1.6–3.2 mm
- 40 pcs accessories included

Model grinder FDMB 200171-E

210 pcs

- voltage: 220 V / 50 Hz
- input power: 170 W
- speed without load 10,000–35,000 rpm
- chuck size 0.8–3.2 mm
- 210 pcs accessories
- copper engine winding

Model grinder FDMB 200172-E

440 pcs

We also offer a
cordless model
grinder p. 62

- voltage: 230 V / 50 Hz input power: 170 W
- speed without load 10,000–35,000/min
- chuck size: 1.6–3.2 mm
- 440 pcs accessories
- plastic kit for transport
- copper engine winding

Melt glue gun
FDTP 2102-E

The offer also
offers a cordless
melt glue gun
p. 82

- voltage/frequency: 230 V / 50 Hz
- input power: 100 W
- melt glue stick diameter: 11 mm
- melting ability: 9–16 g
- preheating time: 3–5 min

Melt glue gun
FDTP 2100-E

- voltage/frequency: 230 V / 50 Hz
- input power: 100 W
- melt glue stick diameter: 11 mm
- melting ability: 9–16 g
- preheating time: 3–5 min

Melt glue gun
FDTP 2020-E

- voltage/frequency: 230 V / 50 Hz
- input power: 20 W
- melt glue stick diameter: 7 mm
- melting ability: 3–6 g
- preheating time: 3–5 min

Melt glue sticks
FDTP 9100

- melt glue sticks transparent
- diameter: 11 mm
- for FDTP 2100-E / 2102-E

Melt glue sticks
FDTP 9101

- coloured melt glue sticks
- diameter: 11 mm
- for FDTP 2100-E / 2102-E

Melt glue sticks
FDTP 9020

- melt glue sticks transparent
- diameter: 7 mm
- for FDTP 2020-E / 2204-A

Melt glue sticks
FDTP 9021

- coloured melt glue sticks
- diameter: 7 mm
- for FDTP 2020-E / 2204-A

INVERTED WELDERS

Welder
FDIS 20140-E

- voltage: 230 V / 50 Hz
- actual output current: 20–140 A
- electrode diameter: 1.6–3.2 mm
- state-of-the-art technologies: IGBT (smart protection), ARC FORCE, HOT START, Anti-Stick, Input current: 28A
- maximum output power: 6.1 kVA
- including earthing and welding cable

Welder
FDIS 20160-E

- voltage: 230 V / 50 Hz
- actual output current: 20–160 A
- electrode diameter: 1.6–4.0 mm
- state-of-the-art technologies: IGBT (smart protection), ARC FORCE, HOT START, Anti-Stick, Input current: 33A
- maximum output power: 7.2 kVA
- including earthing and welding cable

Heat gun FDHP 202001-E

practical kit
is included

- voltage: 230 V / 50 Hz
- input power: 2,000 W
- temperature adjustment:
I.: 50–450°C, II.: 60–600°C
- air circulation: I 250 l/min, II. 500 l/min
- possibility of gradual temperature control
- ergonomic softened handle

package content:

- plastic kit
- 5 × attachment

Heat gun FDHP 202000-E

- voltage: 230 V / 50 Hz
- input power: 2,000 W
- temperature adjustment: I.: 350°C, II.: 600°C
- air circulation: I. 300 l/min, II. 500 l/min

package content:

- 5 × attachment

Bench sander FDSB 200251-E

- voltage: 230 V / 50 Hz
- input power: 250 W
- no-load engine speed: 2,960 rpm
- 2 grinding discs: 150/200 mm
- stable solid construction

wet and dry
sanding

Electric spray gun FDSP 200651-E

- voltage: 230 V / 50 Hz
- input power: 650 W
- spray power: 105 W
- tank volume: 800 ml
- flexible hose length: 1.3 m

Electric mixer FDRM 201601-E

possibility to purchase
a broom FDRM 901601

- voltage: 230 V / 50 Hz
- input power: 1,600 W
- no-load engine speed
I: 0–660 rpm II: 0–900 rpm
- connecting thread: M 14
- broom dimensions: 140 × 590 mm

everything for your home and garden

HAND TOOLS ACCESSORIES **GARAGE**

If you do not want to buy individual types of tools separately, choose one of the **FIELDMANN** practical sets, which are carefully arranged so that nothing is really missing. In addition, the tools are stored in hard plastic cases or kits, which ensure their protection and easy transport, and the overview you have about the contents immediately after opening is also welcome. **FIELDMANN** universal tool sets consist of up to 130 components. With such extensive equipment, you can easily assemble any furniture or replace the plug in the lawn mower.

HAND TOOLS

Around the house and in the workshop, you will always need to screw, hammer, cut or tighten something.

In a home where everything works, life is easier. With comprehensive sets of hand tools, you can handle any situation and not be caught off guard. In addition, CR-V quality tools have a long service life.

Gola set with tools FDG 5005-85R

CR-V

85 pcs

- 3 x pliers, 2 x screwdriver: (-) (+) 6 x 100 mm
- 1 x handle for socket wrenches
- 8 x open side key
- 3 x tools: knife 18 mm, hammer, meter 5 m
- 2 x ratchet handle with tilting head
- 3 x attachment for 1/2 - 1/4" socket wrench
- 1 x three-way attachment, 2 x - universal joint
- 2 x 1/2" spark plug socket wrench
- 12 x socket wrenches 1/4", 16 x - sizes 1/2"
- 1 x connecting member, 1 x - sliding rod 1/4"
- 6 x main socket 1/4", 20 x bit x 25 mm with holder, 2 x hole punch (pick and flat chisel)

Gola set FDG 5001-108R

CR-V

108 pcs

- 18 x 1/4" socket head with bits
- 26 x 1/4" socket head / extended / E
- 2 x 1/4" extension: 50 mm and 75 mm
- 1 x 1/4" ratchet joint, 1 x 1/4" tap wrench
- 1 x 1/4" screw handle, 1 x 1/4" ratchet
- 30 x 1/2" socket head / extended / E
- 2 x 1/2" extension: 125 mm and 250 mm
- 1 x 1/2" ratchet joint, 1 x - 1/2" ratchet
- 2 x 1/2" spark plug head: 16 and 21 mm
- 3 x Allen key: 1.5, 2, 2.5 mm
- 1 x bit adapter
- 17 x bit
- 1 x kit

Gola set FDG 5020-53R

CR-V

53 pcs

- 13 x 1/4" sockets*: 4, 4.5, 5, 5.5, 6, 7, 8, 9, 10, 11, 12, 13, 14 mm
- 21 x 1/4" Bit sockets: SL 4, 5.5, 7, PH 1, 2, 3, PZ 1, 2, 3
- HW 3, 4, 5, 6, 7, 8, T 10, 15, 20, 25, 30, 40
- 7 x 1/4" deep drawers: 6, 7, 8, 10, 12, 13, 14 mm
- 3 x Allen keys: 1.5, 2, 2.5 mm
- 1 x 1/4" universal joint
- 2 x 1/4" extension rod: 2", 4"
- 1 x 1/4" flexible extension: 6"
- 1 x 1/4" sliding T Bar
- 1 x 1/4" quick ratchet handle
- 1 x 1/4" swivel handle: 6"
- 1 x 1/4" bit adapter
- 1 x BMC

Gola set with tools FDG 5003-65R

CR-V

65 pcs

- 23 x socket wrenches 1/4"-3/8"
- 2 x universal joint: 1/4" and 3/8"
- 2 x socket wrench for spark plugs 3/8"
- 3 x attachment for 1/4", 3/8" socket wrench
- 2 x ratchet handle with tilting head
- 2 x screwdriver (-) (+) 6 x 100 mm
- 20 x bit 25 mm + 1 x - connecting element
- 1 x pliers with long jaws: 6"
- 1 x pliers with sliding joint: 10"
- 1 x diagonal pliers: 6"
- 1 x cutting pliers: 7"
- 5 x open side key
- 1 x handle for socket wrenches

everything for your home and garden

Set with tools FDG 5014-66R

CR-V

66 pcs

- 1 x combination pliers 6"
- 1 x diagonal pliers 6"
- 1 x plumbing pliers 10"
- 3 x screwdriver: SL3/100, PH6/100, PH5/75mm
- 1 x handle for socket heads
- 1 x tape measure 3 m
- 1 x 8" adjustable wrench
- 8 x Allen key
- 1 x spirit level 6"

VERSATILE VACUUM CLEANERS

everything for your home and garden

Universal wet and dry vacuum cleaners are your partner for cleaning the house, basement, garage and terrace. They are designed for vacuuming coarse and finer dirt, including spilled liquid. It can also easily handle dirt such as dust, pebbles, leaves, wet mud or even spilled wine, including the remains of a broken glass.

Perfect suction of larger and smaller pieces ensures high performance, which is common to all universal **FIELDMANN** vacuum cleaners. The vacuum cleaners are equipped with a bulky chrome container for solid dirt and water and a solid fibre filter that captures even fine particles. The 30-litre metal collection container can hold a lot of dirt. The cotton filter can be knocked out, rinsed and used again after drying. The plastic hoses up to two-and-a-half metre long ensure comfortable reach when cleaning up the yard, garage, workshop or car.

Wet and dry vacuum cleaner **FDU 2120-E**

- voltage/frequency: 220-240 V / 50/60 Hz
- input power: 1,200 W
- solid cotton filter
- metal container: 20 l
- plastic hose: 1.5 m
- aluminium telescopic tube
- floor attachment
- tapered attachment

The offer also includes a ash vacuum cleaner within the programme **FAST POWER 20V**, pp. 4-7

Wet and dry vacuum cleaner **FDU 2003-E**

- voltage/frequency 230 V / 50 Hz
- Input power: 1,400 W
- solid cotton filter
- metal container 30 l
- plastic hose 1.5 m
- 2 × plastic extension tube 0.85 m
- floor attachment
- tapered attachment
- round small brush
- optional accessory:**
 - spare cotton filter: FDU 9004

Wet and dry vacuum cleaner **FDU 2004-E**

- voltage/frequency 230 V / 50 Hz
- Input power: 1,400 W • outlet for add-on up to 2,000 W
- solid cotton filter
- metal container 30 l
- plastic hose 2.5 m
- aluminium extension tube 0.77 m
- floor nozzle (smooth vacuuming or with small brushes)
- floor nozzle (brush + squeegee)

- tapered nozzle
- round small brush
- optional accessory:**
 - spare cotton filter: FDU 9004

Wet and dry vacuum cleaner **FDU 201432-E**

- voltage/frequency 230 V / 50 Hz
- Input power: 1,400 W
- outlet for add-on up to 2,000 W
- solid cotton filter • metal container 30 l
- adjustable reverberation intensity
- dust knock-off function
- hose lock • drain • plastic hose 2.5 m
- aluminium extension tube 0.77 m
- floor nozzle (smooth vacuuming or with small brushes)
- floor nozzle (brush + squeegee)
- upholstery nozzle
- narrowed nozzle • round small brush
- optional accessory:**
 - spare cotton filter: FDU 901432
 - spare HEPA filter: FDU 911432

fieldmann.eu

VACUUM CLEANERS FOR ASH AND DRY VACUUMING

Regular cleaning of the fireplace, stove or grill will be a piece of cake with **FIELDMANN** vacuum cleaners designed for ash. In addition, it will do without unnecessary swirling of soot and small impurities from the furnace, the result will always be perfect, and above all almost instantaneous.

The vacuum cleaners can handle ash with a temperature of up to 40°C, so you don't have to wait, for example, before leaving the

cottage for the remnants of the fire in the fireplace to cool down completely. However, you can also vacuum any other solid impurities with them. The high-quality HEPA filter, which these vacuum cleaners are also equipped with, captures even extremely fine dust particles, so the vacuumed dirt has no chance to return to the room. The function of the dust shaking function, which ensures the most easy maintenance of the filter, is a major innovation.

everything for your home and garden

Vacuum cleaner for ash and dry vacuuming
FDU 2002-E

- voltage/frequency 230 V / 50 Hz
- input power: 1,200 W

TELESCOPIC LADDERS AND STEPLADDERS

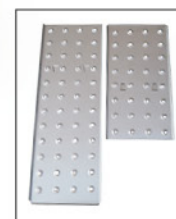

Ladders, stepladders, steps, platforms. They will make it easier to get to the tree crown, to the roof, to the chandelier or to the top shelf in the workshop. The advantage of telescopic assistants of this type is the fact that they always offer just the height you need.

You can use them both in their maximum length and only with one or two rungs extended. They are secured against unintentional folding. The advantage of telescopic ladders in general is the fact that they are not space-consuming during storage, while offering the opportunity to reach really high – for **FIELD-MANN** products up to a height of 6.7 m! Thanks to the materials used with sufficient thickness, however, they are also highly strong, and therefore do not bend even when the maximum length is adjusted. Nevertheless, they are light, which helps easy handling. The brand also offers a multifunctional ladder. At the right moment, it turns into a stepladder with the help of an articulated mechanism, with which you can stand comfortably even on a steep staircase. If you choose one of the platforms, then the ladder is suddenly a scaffolding.

Multifunctional ladder **FZZ 4107**

- maximum ladder length 360 cm
- maximum stepladder length 174 cm
- maximum scaffolding height 98 cm
- distance between rungs 28 cm
- stabiliser length 61.5 cm
- maximum load 150 kg
- weight: 11 kg
- platform FZZ 9107 designed for multifunctional ladder FZZ 4107

everything for your home and garden

Telescopic ladder **FZZ 4004**

- unique telescopic system
- dimensions when unfolded 260 x 47 x 9 cm
- dimensions when folded up 75 x 47 x 9 cm
- distance between rungs 29 cm
- aluminium thickness 1.3–1.5 mm
- maximum load 150 kg
- maximum length 2.6 m
- number of rungs 9
- weight: 7 kg

Telescopic ladder **FZZ 4002**

- unique telescopic system
- dimensions when unfolded 320 x 48 x 8 cm
- dimensions when folded up 81 x 48 x 8 cm
- distance between rungs 29 cm
- aluminium thickness 1.3–1.5 mm
- maximum load 150 kg
- maximum length 3.2 m
- number of rungs 11
- weight: only 9.2 kg

Telescopic ladder **FZZ 4005**

- unique telescopic system
- dimensions when folded up 87 x 48 x 9 cm
- dimensions when unfolded 380 x 48 x 9 cm
- distance between rungs 29 cm
- aluminium thickness 1.3–1.5 mm
- maximum load 150 kg
- maximum length 3.8 m
- number of rungs 13
- weight: 11 kg

Telescopic ladder/stepladder **FZZ 4003**

- unique telescopic system
- dimensions when folded up 87 x 67 x 15 cm
- distance between rungs 29 cm
- aluminium thickness 1.3–1.5 mm
- maximum load 150 kg
- maximum stepladder length 1.6 m
- maximum ladder length 3.2 m
- number of rungs 10
- weight: only 11.5 kg

Telescopic ladder/stepladder **FZZ 4006**

- unique telescopic system
- dimensions when folded up 90 x 49 x 18 cm
- distance between rungs 29 cm
- aluminium thickness 1.3–1.5 mm
- maximum load 150 kg
- maximum stepladder length 2.2 m
- maximum ladder length 4.4 m
- number of rungs 14
- weight: 15 kg

Folding platform **FZZ 2001**

- dimension when unfolded 103 x 41 x 49 cm
- platform dimension 76 x 30 cm
- length when folded up 78 cm
- aluminium thickness 1.0 mm
- weight: 3.6 kg

fieldmann.eu

**Air compressor
FDAQ 201522-E**

24 l

- voltage: 230 V / 50 Hz
- input power: 1,500 W
- rated power – 2,800 rpm
- container volume 24 l
- max. pressure 8 bar
- approximate suction power 190 l/min.
- weight: 26 kg

**Air compressor
FDAQ 201552-E**

50 l

- voltage: 230 V / 50 Hz
- input power: 1,500 W
- rated power – 2,800 rpm
- container volume 50 l
- max. pressure 8 bar
- approximate suction power 190 l/min.
- weight: 32 kg

CAR ACCESSORIES

Car accessories have also been a fixed part of the FIELDMANN range for several years. We offer a wide range of accessories for air compressors, including a car battery charger, a set of keys, or even a tire pressure gauge. The use of quality materials guarantees high durability and a long service life, as well as the maximum functionality of FIELDMANN car accessories.

A compressor is a necessary helper that should not be missing in any home workshop or garage. In addition to driving pneumatic tools or inflating tires, compressed air is also used when applying paint or cleaning with air. In our catalog you will find two compressors with an input of 1500 W and a maximum pressure of 8 bar. The value of the required output pressure can be easily set on the clear manometer. The pump of these compressors is lubricated with oil, which extends their life even with frequent use.

Compressor accessories set
FDAK 901503-E

- tire inflation gun with manometer
- adapter and needles for inflating toys
- spiral PU hose 5 m

Air compressor
FDAK 201101-E

- voltage: 230 V / 50 Hz
- input power: 1,100 W
- air compressor without oil and tank
- suction capacity: 180 l/min
- PVC tube length: 3 m
- 8 pcs accessories

Ratchet wrench with fixed head
FDN 1045

CR-V 7 pcs

- 7 pcs
- size 8, 10, 11, 12, 13, 14, 17
- new modern packaging (occupies less space in the workshop)

Combination spanner set
FDN 1010

CR-V 12 pcs

- combination wrench with offset box-end
- sizes: 6, 8, 10, 11, 12, 13, 14, 15, 17, 19, 22, 24
- hanging tarpaulin with the possibility of rolling up

Compressor accessories set
FDAK 901504-E

- tire inflation gun with pressure gauge
- blow gun
- adapters and needles for inflating toys
- spiral PU hose 5 m

Air compressor
FDAK 12011

- plug to 12V cigarette lighter
- pressure gauge in bar with an accuracy of 0.1 bar
- cylinder diameter 30 mm
- power cord 3 m
- hose with screw connector 1 m
- continuous operation up to 15 min.
- inflation time of a normal tyre up to 2.4 bar: 3 min.

Car battery charger 6 V / 12 V
FDAN 12002

- voltage: 230 V / 50 Hz
- DC output, 6 V/12 V, 2 A/4 A
- display-charged, polarity reversal,
- excess current, protection against overheating
- suitable for cars, motorcycles, electric cars, toy cars, boats, etc. with 6V/12V (4-120 Ah) lead acid battery

Tyre gauge
FDAM 0101

- automatic calibration
- range up to 12 bar
- deviation 0.05 bar
- LCD display
- units: bar, kPa, psi, kg/cm²

The offer also includes a cordless compressor within the programme
FAST POWER 20V, pp. 4-7

FOR YOUR GARDEN

MOWERS, SCARIFIERS, ETC.

Robotic mowers to help you in your garden that is why it is necessary to mow grass regularly. It's a fast lawn in the decoration of every garden. For a lawn to truly look like this, it is important to dedicate proper care and regular maintenance.

If you own a larger property, it pays to bet on a garden lawnmower. It can easily deal with a thicker lawn. Powerful engines are quite louder than in the "Robotic", but they guarantee great results even on large lawns. It's easy work. It's a good idea to have a lawnmower with which you can mow the lawn in the garden, you can mow the lawn with difficulty. It runs fast. Mowing grass on uneven and sloping ground is therefore very easy.
