SENCOR

EVERY TIME, EVERY DAY

FOOD PREPARATION

For most of us is eating our favorite part of the day. Today, cooking is a real hobby and passion for many of us and we have previously unimaginable possibilities. SENCOR is the market leader within the household kitchen appliances. SENCOR brings new technologies and also takes great care in design and easy and economical solutions.

In order to enjoy cooking and to apply our culinary art, SENCOR offers easy-to-use appliances that meet the most demanding criteria of state-of-the-art kitchens. Stylish products for the joy of food preparation, but also for the gentle treatment of our dishes to preserve the best and healthiest of the used ingredients.

Even the preparation of food itself can be fun and thanks to properly selected appliances save time by simplifying everything. Working in the kitchen will become fun as now some activities such as laborious dough mixing, whipping, juicing and slicing or crushing will do the modern appliances for us. We will have enough time and strength to become great chefs at our home.

SENCOR FROM BREAKFAST TO DINNER

A perfect breakfast?

Start your day with fresh smoothie made from seasonal vegetables and fruit that you like by using a SENCOR blender, smoothie maker or stand mixer. If you like some change try oatmeal or porridge made by the modern SENCOR table mixers and you will have enough time to enjoy breakfast even in a busy day. For late morning snack, such as a stuffed toast use a SENCOR slicer and also garnish your bread with some vegetables.

Quick and easy weekday lunch

With SENCOR you can prepare all the ingredients for any of your meals easily with fun and save time and energy. Don't be afraid to make your lunch fresh, there is no need to buy produced food. SENCOR meat grinders will make a burger in a second, all the ingredients will be in exact proportions from programmed SENCOR scale in a moment and anything you need mixed in a minute with SENCOR multifunctional mixer.

Dinner for one or more

Simply, all the boring and laboring work in the kitchen will be fun with SENCOR appliances. Dining is perfect occasion for more elaborated cooking and baking. And it's perfect time for SENCOR food processors and kitchen robots. Prepare fresh pasta, extra fine dough for fresh bread, perfect slices of potatoes and vegetables in moussaka and extra whipped whites into pies. All of that in short time with no effort.

WHY CHOOSE SENCOR

These are just some of the examples and ideas how SENCOR kitchen appliances can make your life easier, tastier and more fun. Check out the remaining 96 pages to find many great products, as well as SENCOR hints, tips and recipes.

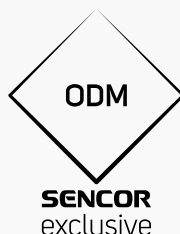

Elaborate weekend and holiday feasts

Weekends and holidays are perfect occasions for more elaborate cooking and baking. This is a perfect time for SENCOR Stand Mixers, which are designed to turn the preparation of doughs and creams into real fun. Many are also equipped to handle mincing meat, vegetable grating or preparation of sausages and other advanced tasks. You can also have great fun with induction cookers or grills in your garden or backyard and take them with you to your holiday home.

COMPLEX SOLUTIONS

Cooking is for more and more people hobby, entertainment and opportunity to enjoy time with the loved ones. SENCOR loves to be part of this phenomenon and develops a complete range of appliances.

INNOVATIONS

SENCOR loves innovation! New materials and constant improvements are crucial for us in every step of our production and development. Our experts initiate product engineering to reach highest European standard in every detail.

MARKET LEADER

SENCOR as a market leader in household appliances segment follows trends in line with the latest technology. SENCOR applies innovations, ensures high quality, uses safe materials, and brings inspirational design for an affordable price to millions of households around the world.

TECHNOLOGIES & MATERIALS

The appliances are developed and manufactured with advanced technologies and made of safe ecological materials.

TITANIUM COATING

For proceeding fresh food SENCOR often uses titan coating to preserve vitamins, nutrients, and enzymes while prevention of possible oxidation and germs multiplication.

EXTRA LONG WARRANTY

SENCOR appliances meet high-quality European standards of workmanship and durability and are carefully tested. For this reason, SENCOR can guarantee extended warranty periods.

reddot award
product design

DESIGN & COLORS

The design should be fun! SENCOR combines style with practice usability. Most SENCOR appliances are available in a variety of timeless design and also in wide range of trendy colors collections.

BOROSILICATE GLASS

Borosilicate glass is commonly used in demanding laboratory conditions or automotive industry, so we use it in our appliances to ensure top durability and long life.

STAINLESS STEEL

We use only the high-quality stainless steel, which you may find in most of our appliances.

TRITAN

Tritan, which was originally developed for rocket science, is used for jags, bottles and other jars as it is safe and very durable.

BPA FREE

Plastic parts in all SENCOR products are safe for health and environment, and always BPA free.

STAND MIXERS

Are you a passionate baker, cake maker or sweet maker? Looking for a universal companion for your weekend projects? Or perhaps you need help with your occasional experiments in the kitchen? SENCOR has just the right mixer for you.

Turn the long and hard process of preparing doughs, creams and icings into a enjoyable and fun date. Just you and your food mixer. These modern SENCOR companions, equipped with a planetary system of mixing, can handle fluffy foams & creams, while the efficient motors can handle all types of dough. The supplied extensions and available accessories make it easy to make home-made pasta, cookies, salads or meta specialties and home-made sausages. Discover the wide range of mixers and choose one that not only matches your needs, but also matches your style and the colors of your kitchen.

LET THE MACHINES DO THE HARD WORK

MULTIFUNCTIONAL STAND MIXERS

Meet the top class of the industry. Whatever they touch turns into masterpiece. Thanks to their beaters the dough is always light, creams are smooth and whipped whites as feathery as snow. All ingredients get perfectly processed with no mistakes made. That is how SENCOR multi-purpose stand mixers work.

Standing in for a standard kitchen robot, they knead, whisk, and mix. But they can also grind meat and fill the home-made sausages or white puddings. They also make cookies; preparing the pastry first and shaping it into four different sweet-smelling delicacies afterwards. There is blending too – for baby mash and puree, nutritious drink for sportsman, or shaved-ice for the sweet-toothed.

Their beaters have to be adored too. For example the balloon beater copes with up to 12 eggs at once, making a snow-soft whipped whites for you. Kneading hook is eager to process any heavy dough, no matter if to be used for pizza or bread, and the other two special beaters manage light doughs without any difficulty. But no matter how good the beaters are, they would be useless without energy of the powerful motor and correct rhythm and direction given by the head. And which is the right one? Planetary, of course! Beaters or hooks rotate simultaneously around their own axis as well as around the bowl. Because this is the only way to perfectly mix all the ingredients inside.

There is just a single task the robot cannot carry out: speaking. But who knows, maybe sometime...

WHY CHOOSE SENCOR MULTIFUNCTIONAL STAND MIXER

- Extremely powerful motor with 6-year warranty
- Robust full-metal body
- LED lighting of the blending bowl
- Wide range of accessories to provide further functions (meat grinder, sausage filler, pastry shaper)
- Optimised rotation and economical performance
- Stainless steel hooks

MIX, WHISK AND KNEAD EASILY

STAND MIXERS

You could hardly get a better kitchen helper than a stand mixer! The top modern ones not only whip, knead and wipe at several speeds levels and varied directions, but they also cut, grate, shape, and even make a home-made pasta. The job for ten different helpers gets done by a single one – SENCOR stand mixer. Can you image the space saved at your home?

All the whisks and beaters would be useless if SENCOR stand mixer was not equipped with sufficiently powerful and efficient motor, keeping the pre-set pace even under the maximum load. That is no piece of cake, considering that a bread dough can weigh more than two kilos. Moreover, SENCOR is so sure about the quality of the motor to provide its customers with 6-year warranty.

The unbeatable benefits of SENCOR stand mixers also include their robust full-metal body, durable metal gears and eight speed levels, perfect to whip both smooth, fluffy mousse and heavy dough. Urge for maximum performance at minimum time? Just press the pulsion switch and the robot starts its labour in a second. As a matter of course the wide range of accessories is provided. So what do you think? How about making a cake, for example?

WHY CHOOSE SENCOR STAND MIXER

- Powerful motor with 6-year warranty
- Durable metal gears
- Full-metal body
- Optimised rotation and economical performance
- Up to 8 speed levels
- Wide range of accessories to provide further functions

FOOD PREPARATION

No matter how big the job is SENCOR full line of preparation appliances helps you to deliver great results. From the first cut or blend to the last mix or shake, you can rely on SENCOR support and feel free to start any brave culinary project on your own.

We create our products to save your time and energy and make you enjoy all the work in the kitchen easier, faster and more fun. We offer the wide range of products designed for different types of kitchen from small corners to the large family houses and also in modern design and colors.

We care a lot about the healthy lifestyle and therefore we use only the top quality materials that preserve the nutrients and vitamins inside all the ingredients you prepare with SENCOR products. Also important are the latest technology improvements, so we can guarantee the long warranty period.

BLEND EVERYDAY ANYTIME, ANYWHERE

STICK BLENDERS

We can hardly imagine preparing our meals without a help of stick blenders. They are practical, fast, and compact, and moreover – the best ones are variable and multifunctional enough to cover for several kitchen appliances.

High quality blades of SENCOR stick blenders are made of stainless steel with a titanium coating. Being this firm, the blades process anything you slip them – not only fruit or meat, but also parmesan, and even the nuts. Thanks to various attachments, it can cut, whisk, slice, and blend of course. The whisker has a stainless steel attachment, coping easily with hot meals, such as soups.

SENCOR stick blender owners benefit from its strong, but extra quiet motor covered by 6-year warranty. Continuous control of 20 speeds is a feature to please you, as well as the ergonomic shape of the handle that perfectly fits in your hand.

Especially big families will appreciate large-sized containers, in which everything can be easily processed.

WHY CHOOSE SENCOR STICK BLENDER

- Powerful and quiet motor with 6-year warranty
- High quality stainless steel blades with titanium coating
- Easy use and speed control
- Large-sized containers made of quality material
- Ergonomic handle
- Stylish design

9 in 1 Stick Blender

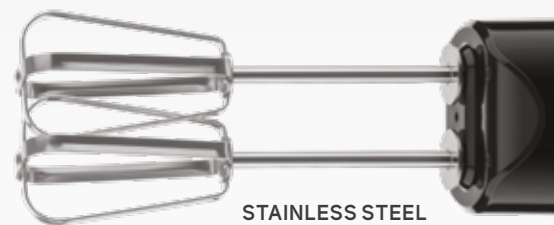

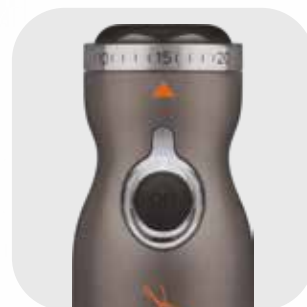

SHB 5501CH

With its super-powerful 1 000 W motor covered by a 6-year warranty and continuous 20-speed control, this top of the line SENCOR hand blender has the power to give and, thanks to its four titanium-coated blades, it can compete with stand blenders in performance and the smoothness of the resulting soups, creams and sauces.

To make full use of the extra power at hand, a large 800 ml beaker with a lid, as well as two choppers – 500 ml and the larger 1 200 ml, which can also be used as excellent vegetable grinders. Finally, the stainless-steel double whisk is perfect for whipping cream, egg whites or mashed potatoes. Both the double whisk and the main blending attachment are stainless steel and can be used with hot foods.

PROPERTIES

- 1 000 W super-powerful motor with a 6-year warranty
- Titanium quad blade technology for smooth soups, sauces and creams
- Continuous speed control (20 speeds) and led-lit power switch
- 800 ml beaker with lid

- Dual stainless-steel blades

ACCESSORIES

A collage of food preparation images. In the top left, a bowl contains several cracked eggs. In the center, a cracked egg with its yolk intact sits on a surface of flour. To the right, a small black pot is filled with several whole eggs, some white and some brown. In the bottom left, a stainless steel hand mixer is shown with its beaters submerged in a bowl of yellow liquid, likely egg yolks. The background is a textured, grey surface.

SMALL VERSATILE, PRACTICAL

HAND MIXERS

Hand mixers are just ideal to whip cream, beat the egg whites, create airy creams or smooth potato mash. Those belonging to SENCOR brand are provided with several variable beaters, which can process whatever the recipe orders. And when a beater gets replaced by a kneading hook, the mixer daringly starts to prepare the dough.

Five speed levels are a great plus too. With a slow start and continuous speed up you can be sure that the ingredients will not plash out of the bowl or curdle. If the maximum is to be squeezed out of your hand mixer, simply press the turbo pulse button. There is no need to worry about the overheating, the heat fuse is in charge. Cleaning is as easy as it gets, simply release the beaters into a dishwasher.

WHY CHOOSE SENCOR HAND MIXER

- 5 speed levels and turbo feature
- Quiet and simple operation
- Safe use, overheating protection
- Set of accessories
- Ergonomic modern design

Hand Mixer

SHM 5203

With this hand mixer whisking becomes fun. With 5 speed levels you will find the perfect speed for all types whisking and blending, including turbo pulse level. It is also ideal for preparing dough. All that in ergonomic and stylish design.

PROPERTIES

- **Power input 300 W**
- **5 speed levels + turbo**
- **Set of beater whisks and kneading whisks**
- Quiet operation
- Attachment release button

ANY MEAT MINCED IN A MINUTE

MEAT GRINDERS

Do you like meat? Fond of barbecue? Then your household should not miss a powerful meat grinder by SENCOR! Mincing various kinds of meat – pork, beef, chicken, lamb, mutton or venison – easily and fast, it instantly upgrades your patty, meat loaf, burger or ragout. Because this is the only way to be absolutely sure about the quality of the meat used, which you can never tell about the minced meat from a shop.

Meat grinder SENCOR can process up to 1,65 kg of meat per minute, using its three mincing discs made of durable steel to deliver meat minced exactly as you wish – coarse, medium or fine. Moreover, thanks to a special attachment it fills your home-made white pudding or sausages, while the other one can make breadcrumbs or squeeze the juice out of the soft fruit and vegetables.

WHY CHOOSE SENCOR MEAT GRINDER

- Powerful motor with reverse mode
- Durable steel mincing blade and 3 different discs
- Attachments for more functions (fruit and vegetable juicing, sausage filling)
- Wide range of accessories
- Easy use and timeless design

Meat Grinder with accessories

SMG 4382

Minced meat has a wide range of use in the kitchen. With this meat grinder all various types of meat will be ready for perfect burgers, meat balls or meat loaf easily and it will be done in a minute with no hard work or lot of mess around your kitchen.

SENCOR used here top quality materials like stainless steel blades, solid aluminium alloy and durable powerful motor. And there are more functions thanks to accessories for juicing soft fruits like berries and citruses, producing smoked goods like sausages and grating vegetables or for making breadcrumbs.

PROPERTIES

- **1 500 W powerful motor and durable steel mincing blades and disks**
- **1,65 kg/min meat mincing capacity, reverse operation for easy cleaning**
- **Attachments for juicing (berries, citruses, softer vegetables), sausage stuffing and grating**
- Three mincing discs coarse/oval and round 7,4 + 4,2 mm
- Storage space for mincing discs and power cord

PERFECTION IN
EVERY CUT

FOOD SLICERS

Not only large families, but also households often preparing snacks for many guests, and also smaller businesses will appreciate the food slicers. Their main advantage is the fast preparation of the food all together with a perfect cut. Because only slicer can conjure up the self-same slices, which would be hardly achievable even with the sharpest knife. The device can handle bread, cheese or salami, simply anything you need to have sliced fast.

As a matter of course SENCOR slicer has a quality metal design, with removable stainless steel cutting disc and removable food carriage with stoppers in both directions. Thanks to practical adjustment dial the cut width can be set – from 1 to 15 mm. Food pusher with grip pins prevents the food from unwanted slipping, but it can be easily removed when slicing a large loaf of bread for example. Removable parts ensure easy cleaning and washing.

WHY CHOOSE SENCOR FOOD SLICER

- Quality metal and stainless steel materials
- Easy and safe to use
- Practical design for easy cleaning
- Simple function setting to slice any kind of food

Food Slicer

SFS 4050SS

An angled food carriage with a smooth sliding rail which stops in both directions is one of the top features of this SENCOR slicer as it makes using it much easier and safer. The food pusher can be removed for cutting larger foods and the cutting disc is also easily removable for simple cleaning and washing. Finally, the large 190 mm cutting disc enables the slicing of a wide range of foods.

PROPERTIES

- **Removable 190 mm cutting disc, 150W motor**
- **Fast disassembly for easy cleaning and washing**
- **Easy cutting with adjustment dial (1-15 mm)**
- Integrated thumb guard, anti-slip feet
- Food carriage with guiding rail and stops

Food Slicer

SFS 1000WH

○ SFS 1000WH ● SFS 1001GR

Practical and compact for easy storage with a folding base plate, and yet powerful thanks to the stainless steel cutting disc with 170 mm in diameter.

PROPERTIES

- **Removable 170 mm cutting disc, 100 W motor**
- **Fast disassembly for easy cleaning and washing**
- **Easy cutting with adjustment dial (1-15 mm)**
- Integrated thumb and finger guard, anti-slip feet
- Child safety mechanism preventing accidental start
- Food carriage with stops
- Compact size (339 x 109 x 206 with folded base plate), 1,98 kg

PERFECT TO AN OUNCE OR A GRAM

KITCHEN SCALES

Do you remember the kitchen scale as seen in old movies? Two copper pans next to each other; one for the mass to be placed and the other for the little weights to count. Only when the pegs met in the middle, the weigh was measured. Luckily, these days have gone. Modern kitchen scale by SENCOR occupies as much space as a magazine. It is super slim, the slimmest is only 17,5 mm high.

With a surface made of three-millimetre hardened safety glass, it is no easy to break. The extra-large LCD display instantly shows, how many grams or kilograms the load weights. If willing to test it, give it, let's say, a pepper seed – the scale will not hesitate at all. It is sensitive enough to notice a single gram. On the other hand, it can cope with a bag of flour as its maximum capacity reaches 10 kilograms. If you happen to put a bit more on, it starts a warning blinking.

Naturally, SENCOR scale has tare function, which zeros the weight of a container. Selection of a unit type is a brilliant feature too – not only you can weight in pounds if you happen to have a British recipe, but the scale also measures the volume of water or milk. Isn't it impressive?

WHY CHOOSE SENCOR KITCHEN SCALE

- Quality hardened safety glass
- Extra-large LCD display
- High weighing accuracy
- Unit selection
- Easy to use
- Ultra-slim modern design

Kitchen Scale

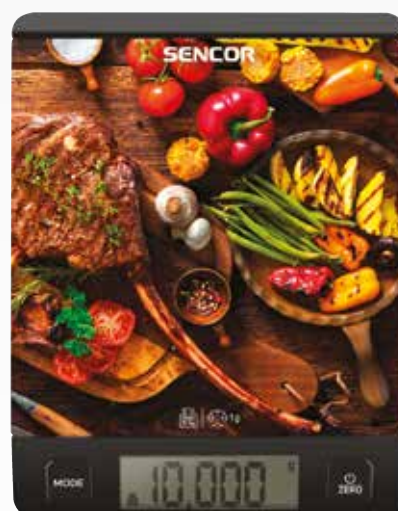

SKS 7001BK

○ SKS 7000WH ● SKS 7001BK

Ultra slim and yet it can measure immense weights - up to 10 kg / 22 lb. Even better is the large display that shows the exact weight to a gram – even when you get above 1 kg, and its two big buttons.

PROPERTIES

- **Weighing range up to 10 kg / 22 lb, with 1 g / 0,1 oz sensitivity**
- **Slim design and tempered safety glass surface for easy cleaning**
- **Extra large LCD with 5 digits, two large buttons**
- Four sensors for increased sensitivity, auto idle shut-off
- Empty battery and overload indicator, clock function
- Volume measurement of water and milk

Dietary Kitchen Scale SKS 6000

This ultimate dietary kitchen scale was pre-programmed with 999 food codes to easily calculate and display precise information on calories, sodium, protein, fat, carbohydrates and fibres – all at once thanks to its supersized LCD with individual figures for each nutritional aspect.

It has also memory for up to 99 weighed foods to calculate a sum of nutritional values. It can also display values of individual foods or courses and count daily or weekly food intake.

PROPERTIES

- **999 pre-programmed food codes with nutritional data**
- **Displays weight, calories, sodium, protein, fat, carbohydrates, cholesterol and fibres**
- **Memory for 99 weighed foods, calculation for courses, meals, daily and weekly intake**
- Large LCD displays all nutritional data at once
- Four sensors for increased sensitivity, auto idle shut-off
- Ultra slim with hardened safety glass surface for easy cleaning
- Weighing range of up to 5 kg, with 1 g sensitivity, tare function

Kitchen Scale SKS 5700

This fold-down wall mounted kitchen scale perfectly fits in every kitchen, it's depth when folded down is only 7 cm. There are successive weighing functions and automatic shut off when idle. The additional functions such as clock or timer with alarm are very useful. It's supplied with two 1.5 V AAA batteries.

PROPERTIES

- **4 sensors for higher weighing accuracy**
- **Hardened safety glass (4 mm)**
- **Extra large LCD display (72 x 35 mm)**
- Maximum capacity 3 kg
- Gradual reweighing function
- Weighing sensitivity of 1 g
- Option to select measuring units (g/lb.oz)

Kitchen Scale

SKS 5400

This light but durable stainless steel kitchen scale has practical ultra slim design and automatic idle shut-off. For better accuracy there are 4 sensors and useful unit selection option. It comes accessorized with two 3V lithium battery so you can start weighing immediately.

**PROPERTIES**

- **4 sensors for higher weighing accuracy**
- **Ultra slim design (height only 14 mm)**
- **Fingerprint proof coating**
- Large LCD display (57 x 27 mm) with blue inverse backlight
- Maximum capacity 5 kg
- Tare function for weight of container
- Weighing sensitivity of 1 g

Kitchen Scale

SKS 4030BK/WH

This practical kitchen scale with its handy removable 1 litre stainless steel bowl means, you no longer have to look for a plate, cup or bowl to weigh your ingredients. It is also hygienic, as the bowl can be easily washed. It can be smoothly switched to measure volume - of milk or water - or other units like pounds and ounces.

**PROPERTIES**

- **Practical design with removable 1-litre stainless steel bowl**
- **Angled large LCD with 5 digits, two large buttons**
- **Four sensors for increased sensitivity, auto idle shut-off**
- Weighing range up to 5 kg, with 1 g sensitivity
- Selection of measuring units (g/lb:oz) volume measurement (ml/fl:oz)
- Empty battery and overload indicator

CRISPY TASTY VITAMINS ALL YEAR LONG

FOOD DEHYDRATORS

Dehydrating is an ideal way of preserving fruit, mushrooms, or herbs and meat. Healthy, gentle, and chemical-free. Great taste is retained all together with the vitamins and minerals. Just choose your ingredient, slice it, place on a sieve, set temperature with time and close the door.

SENCOR food dehydrators take care of the rest. And what makes them so awesome? Offering the wide range of temperatures to set, from 35 °C to 75 °C, they provide a great choice of food to be dried. They cope not only with all kinds of fruit and vegetable, but also with mushroom, herbs for tea and seasoning, or meat. You can also use them to prepare trendy and healthy RAW food.

SENCOR food dehydrators are multi-trayed, the most efficient appliances have ten sieves, giving the possibility of all-at-one-time drying. Horizontal Air Flow technology ensures heat distribution throughout the whole inner area, drying all the food evenly and at the same time, so that the trays do not have to be rotated.

As a matter of course the food dehydrators feature clear and intuitive control with temperature regulator and LED display to set the time. If unsure, what drying temperature to use, icons on the control panel will help. The automatic shut-off can be set on an electronic timer – everything is fast, no long-winded button pressing needed.

WHY CHOOSE SENCOR FOOD DEHYDRATOR

- Unique time and temperature control program
- Innovative Horizontal Air Flow technology
- Multi-use appliance and great capacity
- Intuitive control and setting
- Safety features
- Quality materials

Food Dehydrator

SFD 7000BK

This high capacity food dehydrator has time setting in ten-minute increments with quick-setting mode. This design of dehydration trays prevents the formation of moulds and optimizes air circulation. Its suitable for all types of vegetables, fruits, herbs and seeds, mushrooms and also meat, fish or pasta. You can dry not just to eat, but also for decorations and potpourri and petals.

**SETTING MODE**

Time setting in ten-minute increments with quick-setting mode

BLENDERS

For perfectly blended fresh juice, tasty smoothie or smooth soups developed SENCOR blenders that turns any fruits, vegetables, seeds, or even meat and hard nuts into delicious dish. Simply without blenders cannot be any modern household these days. Imagine how much time it saves and how hard it would be to do all the chopping, cutting and crushing or squeezing by your self...

With SENCOR blenders of many categories it's just very simple and easy. You may have super healthy breakfast or snack in seconds. Creamy soups to make you warm when you come back from work will take just a moment. And fresh tasty baby food can be ready in a minute - and we all know kids don't like to wait for too long for their food.

SENCOR blenders are made of top quality and safe durable materials. The priority is to preserve all the important vitamins, nutrients and enzymes so you can enjoy the most of the freshly blended ingredients and be sure your food is prepared with the best possible care.

You can use SENCOR blender daily. There is plenty of accessories for variable functions and its easy for operation and maintenance. Modern and healthy lifestyle and cuisine can be easy and fun with SENCOR blenders.

VITAMINES & NUTRIENTS IN EVERY PORTION

VACUUM BLENDERS

Having ever made a cocktail in an ordinary blender, you know you'd better drink it straight away. In a few hours it just tastes different and looks different too. Moreover, expert analysis would tell that most of the vitamins and enzymes simply got lost somewhere. And that hurts. Not only the time you spent to prepare it, but also the money for all the ingredients. SENCOR vacuum blenders fix this problem easily, using vacuum when blending. The preparation starts with all the air from the container evacuated, and only after that blending comes.

WHY VACUUM BLENDING?

- **more vitamins & nutrients remain**
- **more volume & less foam**
- **juice & fiber stays together**
- **much longer storage time (up to 30 days)**

WHY CHOOSE SENCOR VACUUM BLENDER

- Vacuum technology that preserves healthy vitamins, nutrients and enzymes for long time and stops oxidation and microorganism growth
- Extra powerful motor
- Containers made of highly durable Tritan material
- Easy choice of various programs and speeds
- Easy to operate and fast to clean
- Safety features

For perfectly blended fresh juice, tasty smoothie or smooth soups SENCOR developed blenders that turns any fruits, vegetables, seeds, or even meat and hard nuts into delicious dish. Simply without blenders cannot be any modern household these days. Imagine how much time and hard work it saves...

POWER AND TOP RESULTS IN EVERY BLEND

MULTIFUNCTIONAL BLENDERS

Athletes, managers, mothers with small children, but also others of various professions and interests need to deliver high performance in today's busy times.

However, that requires a proper nutrition, which a semi-finished, canned and fast-food really cannot provide. Also toddlers and small children need quality food as their correct eating habits are just being established. If nothing is to be left to chance, SENCOR multifunctional blender comes to turn fruits, vegetables, seeds, nuts, and herbs into super cocktails, smoothies, snacks, shakes, homemade ice creams, mashes, and soups that meet the most demanding requirements of nutritional specialists. Moreover, the appliance makes its homemade seed and nut flour, and is therefore suitable for people with allergies (gluten e.g.)

10-year motor warranty is a plus too, making you sure that SENCOR multifunctional blender stands a lot. There is surely a heavy duty to endure - for example, the 30,000 rpm used by six high-quality titanium-coated steel blades to blend all ingredients with ease.

WHY CHOOSE SENCOR MULTIFUNCTIONAL BLENDER

- Extra powerful unique brushless DC motor with 10-year warranty
- 10 speeds to select • Safety mechanism • Preset programs
- Quality innovative materials (2l Tritan container, BPA free)
- Timeless practical design

Multifunctional Blender

SBU 9000NP

TREAT YOURSELF WITH ENERGY FROM A SMOOTHIE

NUTRI BLENDERS

Only superblenders apply to superfoods! SENCOR nutriblender will turn not only fruits and vegetables, but also nuts and all kinds of seeds into a perfect energy source for your body. The preset blending programs create a whipped smoothie or a healthy drink to provide you with instant energy, let's say after a sports performance. A powerful motor with 10-year warranty and six high-quality removable stainless steel blades that spin at 25,000 rpm, is strong enough to crush the ice into bits.

Feel free to mix your drink in a 1.3 liter container or in a portable bottle, which is just ready to cap and go. Both are made of solid Tritan, so there is no need to worry about breaking them. Moreover, additional closable containers are available to store your super-cocktails in the refrigerator.

Two other attachments – a slow juicer and a citrus juicer – help you to squeeze the fresh juices for a vitamin and enzyme dose, so necessary for your sports performance.

WHY CHOOSE SENCOR NUTRI BLENDER

- Extra powerful motor with 10-year warranty
- Sencor Nutri Smart Blending innovative technology
- Removable quality steel blades
- Preset programs
- Safety mechanism
- Accessories for blending and transporting
- Easy to use and clean

TASTY, HEALTHY & FRESH AT ANY TIMES

SMOOTHIE BLENDERS

If searching for a handy assistant to quickly turn your favourite ingredients into a healthy cocktail, try the automatic SENCOR smoothie maker. It is so practical and simple to use - unlike a stand mixer it blends directly in a drinking bottle.

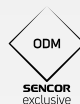

All you have to do is to place a leakage-safe lid and take the fresh drink to work or on a trip. The bottle fits comfortably in your backpack or purse and thanks to its shape also into a bottle holder on a bike or in your car. Comfortable handle makes it easy to carry, but even if dropped it will not break as it is made of impact-resistant material.

Having the practical SENCOR smoothie maker in your office is a perfect way to prepare a healthy snack or lunch there. Just add fruit or vegetables. Two modes can process not only fine fruits such as raspberries and strawberries, but also the harder kinds - pineapple or pear.

WHY CHOOSE SENCOR SMOOTHIE BLENDER

- Highly powerful motor
- High quality materials (titanium coated stainless-steel - prevents oxidation,
- BPA free tritan - highly durable and safe)
- Two preset programs
- Practical accessories
- Safety features
- Easy to operate and clean

Smoothie Blender SBL 7500SS

Powerful smoothie blender with two special preset programs for light cocktails made of soft fruits like berries or tomatoes and hard program for harder fruit and vegetables such as pineapple and carrot. It's always perfectly mixed with smooth texture and thanks to titanium coated stainless steel blades all the vitamins, enzymes and nutrients are kept in your drink. Used safe modern materials also prevent oxidation or microorganism growth in fresh food. And there are also accessories, perfect for active people and kids, as all the drinks you can take with you outside in a safe bottle with sport designed lid and compatible with car holder too.

PROPERTIES

- **2 preset programs 45/60 seconds (Soft and Hard)**
- **Removable high quality six titanium coated stainless steel blades**
- **800 W powerful motor**
- Safety mechanism enabling start only when in correct position
- Unique 0.6-litre sports bottle from impact-resistant BPA-free TRITAN
- Specially designed 0.6-litre double-walled stainless steel bottle
- Pulse Switch for effective blending
- Glass blending jug with 1.5-litre capacity
- Back-lit scale
- Suction cups for outstanding stability

Whether you like strawberries or pineapple, this convenient appliance will always make your smoothies just the way you like them.

Both soft and hard fruits and vegetables can be transformed into a delicious smoothie that can be taken on the go right away!

PROPERTIES

- **800 W power input**
- **Two pre-set 45/60-second programs for soft or hard fruit at the touch of a button**
- **60% better blending performance with a multi-cyclone effect resulting from innovative bottle and blade construction**
- Two exclusive 0.6 l sports bottles made from the advanced material,, Tritan, with safety lids
- Six high-quality removable titanium-coated stainless-steel blades
- Excellent stability thanks to newly-designed suction cups
- Made of hygienic BPA-free material
- Pulse switch for efficient blending
- Prevents the loss of enzymes and vitamins
- Reduces nutri Smoothie oxidation
- Easy-to-read LED indicator

The special Solid edition allows you to choose the colour of your blender. It's great for preparing both fitness drinks and fresh fruit beverages.

PROPERTIES

- Two removable 0.6 l and 0.3 l containers suitable for travelling
- The blending container can be used as a travel bottle
- 500 W power input
- Four high-quality titanium-coated stainless-steel blades
- Made of hygienic BPA-free material
- Suitable for your car cup holder

ALWAYS READY FOR VITAMINES' COCKTAIL

TABLE BLENDERS

Mixing has never been this easy. SENCOR blender is a practical helper for any home. Ideal to prepare soups, baby food, cocktails, or sauces, simply any time the ingredients need to be blended thoroughly.

Their six removable stainless steel blades blend, crush and mix with unsurpassed power. Neither ice nor nuts will stop them. Moreover, the blades have titanium coating, which prevents the loss of so much needed fruit and vegetable vitamins and enzymes.

See how many ingredients its large, 1.5 liter glass jug, can take! No need to worry about processing hot sauce bases or soups too; the container is made of practical thermo glass, which resists temperature up to 100 ° C. The handy hole in the otherwise highly adhesive lid allows fluid filling during operation. So, how about trying a soup?

WHY CHOOSE SENCOR TABLE BLENDER

- Highly powerful motor
- High quality materials (titanium coated stainless-steel - prevents oxidation,
- BPA free tritan - highly durable and safe)
- Quality thermo glass jug
- Additional functions (Ice Crush and Nutri Smart Blending)
- Safety features
- Easy to operate and clean
- Very practical design

Table Blender

SBL 5750SS

Thanks to this blender's high-quality heat-resistant 1.5 litre container, you can also blend hot ingredients and liquids. And with three blending modes, a perfect result is guaranteed.

PROPERTIES

- **1000 W power input**
- **Three blending modes for perfect blending results**
- **1.5 litre glass container made of high quality heat resistant borosilicate glass**
- Six titanium-coated stainless-steel blades
- Removable blade base for easy cleaning
- ICE Crush and PULSE functions
- Nutri Smart Blending function for delicious, energy-boosting fruit and vegetable beverages

DURABLE

- Lid with hole and a feed tube and dosing tube
- Small inner transparent lid for adding ingredient while blending
- The removable parts are suitable for washing in a dishwasher
- Glass blending jug with 0.8-litre capacity
- Anti-slip feet

JUICERS

Fresh fruit or vegetable juices should be a healthy treat to you and your family members. It should take just a moment to prepare them with no hard work.

Whether using a classic or gentle screw juicer, in a powerful table or smoothie blender. The moment should also pass between preparation and consumption - so that you and your loved ones add your body the most valuable nutrients, vitamins and enzymes. And also the cleaning afterward should take just a moment - that is easy and quick cleaning. You can do all that with SENCOR perfectly, in addition with design, style and color that fits perfectly with your home and kitchen.

SUPER FRESH TASTE IN EVERY DRINKS

SLOW JUICERS

If you want to drink a truly nutritional, thicker juice with a higher fibre content, SENCOR slow juicers are the perfect choice. These types of juicers masticate ingredients with rotating wheels and then press by forcing the ingredients through a fine strainer. Compared to centrifugal juicers, they achieve much higher yields and are also quieter and more cost-effective.

Slow juicers allow you to help make juice full of vitamins and minerals, even from harder fruits, herbs, pressed vegetables, small berries, and sprouted grains.

On the other hand, they are slower, and some may have smaller feed chutes because their motors are not designed for large pieces of fruits or vegetables, which must be cut into smaller pieces. Their greatest advantage, however, is that slow processing limits the amount of oxygen entering the juice, i.e., your juice is less oxidized. This means that it can be stored for up to 24 hours, and you can enjoy delicious and nutritious natural juice all day long that you made the day before.

WHY CHOOSE SENCOR SLOW JUICER

- Durable and quiet brushless DC motor
- Sufficient performance for perfect beverages
- Saves maximum vitamins and nutrients
- Prevents chemical reactions
- A durable titanium sieve
- Easy to use and maintain
- All components are BPA-free

Slow Juicer

SSJ 9000NP

High Tech Line

A unique slow juicer with the innovative and remarkably quiet digital BLDC motor for perfect juicing without compromise.

STAINLESS-
STEEL STRAINER

REMARKABLY QUIET
BLDC MOTOR

UNIQUE SPIRAL
JUICING SYSTEM

PROPERTIES

- **200 W BLDC motor with digital speed control**
- **Low speeds of 40-80 RPM help preserve vitamins and enzymes**
- **DripStop technology prevents dripping once juicing is complete**
- Integrated safety mechanism and anti-slip feet ensure maximum safety
- Sturdy motor designed for longer juicing, even up to one hour juicing session
- 10-year warranty on the motor

EXTRA-WIDE
FEED CHUTE

Slow Juicer

SSJ 4070SL

Do you want juice that lasts longer and is easy to make?
A great choice! With this slow juicer, you will get the most out
of your favourite ingredients, and will save time as well.

PROPERTIES

- **400 W motor for effective juicing**
- **Extra-wide feed chute makes it easy to add ingredients**
- **Highly effective juicing with automatic pulp separation**
- Stainless-steel filtration micro-strainer
- Tritan juicing container
- Made of hygienic BPA-free material

FRESH AND FULL TASTE JUICE FOR ALL

CENTRIFUGAL JUICERS

Lovers of fruit and vegetable juices with pulp swear by centrifugal juicers SENCOR. How do they work? The rotating disc cuts the ingredients and the centrifugal force pushes it through the sieve. All this results in thick juice rich in both taste and aroma.

The wide feeding tube stands for a great advantage too, letting the whole apple go through without need to cut into pieces. Pulp is automatically separated. Moreover, SENCOR centrifugal juicers work very quickly, so serving a juice to an eager bunch is just a matter of seconds.

Thanks to a digital LCD display the device is intuitive to operate and its five speeds ensure optimal juicing. An efficient motor with an impressive 1200W power will only start if the SENCOR juicer is assembled correctly – no need to worry about unprocessed apples flying all over the place. The juicer automatically turns off when the lid is removed or the motor gets overheated. The stainless steel design makes maintenance easy. So do you feel like orange or apple juice?

WHY CHOOSE SENCOR CENTRIFUGAL JUICER

- Highly powerful motor
- High quality materials (stainless-steel, BPA free)
- 5 speeds for optimal juicing
- Simple digital LED display
- Easy and safe to use and fast to clean
- Timeless design with extra wide feeding tube

Centrifugal Juicer

SJE 5050SS

SENCOR's most powerful centrifugal juicer.
And it's from the Nutriline series.

PROPERTIES

- **Extra-wide 75 mm feed chute for easy feeding**
- **The Anti-Drip system prevents juice dripping**
- **Transparent lid to aid in monitoring the juicing process**
- Titanium-coated stainless-steel filtration micro-strainer
- 2 l pulp container
- 1 l juice container
- 5 speeds for soft and hard fruits / vegetables.
- Auto shutoff function activated when lid is removed or motor overheats

ANTI-DRIP

STAINLESS-STEEL
TITANIUM
MICRO-STRAINER

Centrifugal Juicer

SJE 1055SS

● SJE 1056RD ● SJE 1055SS ● SJE 1057BK

PROPERTIES

- **High-performance 800 W motor**
- **Stainless-steel design for easy and hygienic maintenance**
- **Extra-wide 75 mm feed chute for easy feeding**
- Stainless-steel filtration micro-strainer
- Auto shutoff function activated when lid is removed or motor overheats
- Two juicing speeds
- 1.6 l pulp container
- 0.75 l juice container
- Automatic pulp separation

Centrifugal Juicer

SJE 741SS

Very handy juicer for perfect results. Modern compact and space saving design. It has easy and comfortable filling and you have your fresh juice in a minute.

PROPERTIES

- **Very efficient 400 W motor**
- **Stainless steel filtration micro strainer**
- **Wide feed tube 65 mm for comfortable filling**
- 2 speeds
- Automatic pulp separation
- Juice jug with froth separation
- Triple protection, automatic shot off if the lid is removed or the motor overheats

THE MOST POPULAR AND **SUPER FRESH**

CITRUS **JUICERS**

The most popular of all the fresh fruit juices is definitely a real home-made orange juice! It's the perfect refreshment at any time of the day and with SENCOR citrus juicers it's easy to make it right inside your home. It's good to improve for change by adding for example by grapefruit or other citrus. Tea lovers will appreciate the fresh lemon juice. And home-made lemonade is evergreen that's regular part of every party.

Fresh juice is great for breakfast, as the huge amount of vitamins and enzymes will start and brighten your day for sure. And it's the most natural source of important substances for busy and active people, that everybody likes. But it has more usage in the kitchen - there is also quite a few recipes where you need lemon or orange juice as an ingredient to reach the right taste. SENCOR offers the perfect solution from small to large households or even to fit in little offices. Our citrus juicers are compact and cleverly designed to get easily the most from the citrus fruits right into your healthy drink, easy to maintain and clean.

WHY CHOOSE SENCOR CITRUS JUICER

- Durable reliable motor (some with 10 years guarantee!)
 - Quiet operation
 - Quality materials for top results
 - Variable usage
 - Technology preventing dripping
 - Easy to use, clean and maintain
- 

Citrus Juicer

SCJ 9000NP

High Tech Line

This juicer has motor with all-cooper winding and can achieve high rotation with no impact on its life and SENCOR guarantees 10 years warranty on it!

Apart from being durable it also has quiet operation and very modern original design with large capacity juice collector of 2 l. Perfect for making fresh juice from citruses and automatically separates pulp and stones by stainless steel filtration strainer. All the removable parts are easy to wash and clean, so its simple for everyday use. Thanks to anti slip feet and DripStop technology you can be sure there will not be any mass on the kitchen table after juicing.

PROPERTIES

- **Power input 80 W, capacity 2 l**
- **Suitable for all citruses, two juicing cone sizes**
- **DripStop technology preventing dripping after juicing**
- Automatic turn on / off when pressing the cone and overheating protection
- 360° pressing technology for easy operation
- Filtration stainless steel strainer for catching fruit pulp and stones

ACCESSORIES

PROTECTIVE COVER

Citrus Juicer

SCJ 6053RD

● SCJ 6050SS ● SCJ 6053RD

This beautiful juicer has great designed outer body made of high quality stainless steel.

For maximum extraction of all kinds of citrus into fresh healthy drink it runs in both directions and you can switch two sizes of cone for small fruit such as lime or lemon or bigger ones like oranges. There is also filtration strainer for catching pulps or stones.

PROPERTIES

- **Power input 60 W**
- **Suitable for all citrus, two juicing cone sizes**
- **Stainless steel outer body**
- Automatic turn on / off when pressing the cone
- Runs both directions for maximum juice extraction
- Filtration strainer for catching fruit pulp and stones
- Accessories: protective dust cover

PROTECTIVE COVER

Citrus Juicer

SCJ 1051 GR

Perfect citrus juicer for small kitchen, available in fresh modern design.

Its so easy to prepare fresh drink just by pressing the cone, which is in two sizes for the maximum extraction from pulp of small or bigger fruit. The filtration strainer prevents any fruit pulp or stones into fresh healthy drink.

PROPERTIES

- **Power input 40 W**
- **Suitable for all citrus, two juicing cone sizes**
- **Automatic turn on / off when pressing the cone**
- Runs both directions for maximum juice extraction
- Filtration strainer for catching fruit pulp and stones
- Accessories: protective dust cover
