# COFFEE PREPARATION

Coffee is such a global phenomenon that it's one of the few things almost everyone around the world can agree on. Across the globe, people sip coffee throughout the day either for its health benefits, or the social custom it has become. The variety of recipes and prescriptions for roasting, brewing, and serving coffee reflects the diversity of consumer tastes and cultural preferences. All techniques begin with properly roasted and freshly ground coffee, freshly boiled water and perfectly clean utensils. There are many ways to prepare coffee and SENCOR knows how to guide you through the process - with a selection of machines and appliances that will help.

# HAVE YOUR ESPRESSO ANY TIME

## AUTOMATIC ESPRESSO MACHINES

There's no need to go to a café to enjoy a good cup of coffee since today you can prepare it yourself at home. Modern SENCOR espresso machines are fully automatic – an LED panel with touch buttons ensures easy, convenient operation, while a pump pressure of 19 bars guarantees an excellent coffee.

With a single touch you can conjure up a frothy latté or creamy cappuccino with micro-foamed milk. If you wish, the machine will also remember your cup size for next time. Modern SENCOR espresso machines keep your favourite variety of coffee beans in a tightly-sealed container and the stainless steel grinder uses 5 levels of grinding to suit your wishes. The patented pre-steaming system gives coffee a fuller taste, while the modern Termoblock heating system ensures optimal beverage temperature. The durable Tritan container for your dairy or soy milk can be easily attached to the appliance and the 1.1 l removable water tank is easy to fill.

Moreover, smart SENCOR automatic espresso machines are automatically cleaned and feature a descaling programme. Despite their great performance, these appliances are relatively compact and fit into smaller kitchens as well.

### WHY CHOOSE A SENCOR AUTOMATIC ESPRESSO MACHINE

- 19 bar pump pressure for optimal results
- First coffee in less than a minute
- Practical LED panel with touch buttons for easy use
- Practical functions for hot water, descaling and automatic self-cleaning
- Removable parts dishwasher safe
- Elegant compact design

## Fully Automatic Espresso/Cappuccino Machine

# SES 9200CH

Treat yourself to a cup of exquisite coffee anytime you feel like it. The SES 9200CH automatic espresso machine features a colour LED panel and touch buttons for easy operation, delivering delicious lattes and creamy cappuccinos with a milk micro-foam with only a single touch.

Adjust the size of your cup, the strength of your coffee (7 g, 8 g, 10 g) and the grinding level to get the perfect cup for you. Although slim and compact in size (width just 180 mm), this automatic espresso machine uses a powerful pump pressure of 19 bar, with a hopper capacity of 150 g and 1.1 litre removable water tank for your perfect coffee. The appliance is loaded with advanced technologies: a patented steaming unit, thermoblock heating system which ensures optimal water temperature, and a specialised one-touch espresso and lungo programmes.

## FEATURES

- **Powerful pump pressure of 19 bar**
- **Colour panel with touch buttons for easy operation**
- **Adjustable coffee strength (7 g, 8 g, 10 g) and 5 grinding levels**
- Slim and compact size: width just 180 mm
- Delicious latté and creamy cappuccino with a milk micro-foam with only a single touch
- First drop of coffee in 42 seconds
- Coffee hopper capacity 150 g, water tank volume 1.1-litre
- Thermoblock heating and pre-steaming systems
- ECO mode

## Automatic Espresso

# SES 7015CH

A lovely cup of coffee will give the perfect dose of energy to start a great day. And with SES 7015CH it takes only 42 seconds for the first drop of your coffee to come! The stainless steel grinder uses five different settings to suit your taste and the 19 bar pressure pump works hard to deliver great coffee experience.

This automatic espresso machine also features an easy to use LED panel and one touch espresso and lungo program. The 1.1 litre removable water tank ensures fresh water, while the thermoblock heating system takes care of its optimal temperature.

## FEATURES

- **Slim and compact size: width just 180 mm**
- **First drop of coffee in 42 seconds**
- **Coffee hopper capacity 150 g, water tank volume 1.1 l**
- Thermoblock heating system
- One touch espresso and lungo program
- Hot water function for americano or tea

# MAKE COFFEE JUST HOW YOU LIKE IT

## PUMP ESPRESSO MACHINES

Become a real barista in the comfort of your own home. With SENCOR pump espresso machines you can prepare your coffee exactly the way you like. Not only your skilful hands, but also 20 bar pump pressure, extremely fast preheating and a boiler with a Thermoblock system join forces to conjure it up.

A single touch is enough to run the Espresso, Double Espresso, Cappuccino, Latté and Frothed Milk programmes. As a real professional, you will appreciate the cup warmer plate or the electronic controller with a sensor for a more accurate beverage temperature. One or two cups can fit under the stainless steel filter and not necessarily just small cups for one sip since there is enough room for even extra-large mugs.

The removable 1.4-litre water tank features a water level indicator and its transparent milk container has a detachable frothing device for easy cleaning. When it comes to the cleaning, the SENCOR pump espresso machine has an automatic self-cleaning function and a descaling programme so you don't have to worry about anything. Just comfortably enjoy your favourite coffee.

### WHY CHOOSE A SENCOR PUMP ESPRESSO MACHINE

- Powerful appliance with 20 bar pump pressure
- Innovative Thermoblock system
- High-quality, durable materials for perfect results
- Very easy and safe to use
- Practical functions and accessories (pre-heating of even large cups, descaling, automatic self-cleaning)
- Elegant stylish design

## Pump Espresso Machine **SES 4900SS**

Take the preparation of an aromatic cup of coffee into your own hands! With pump espresso machine SES 4900SS, you get the perfect cup of coffee anytime. The boiler heating system delivers precise water temperature, while the pre-brew function treats your ground coffee as it should be. The swivel steam wand froths milk for your cappuccino or serves hot water for tea or an americano.

Its stainless-steel filter takes enough coffee for 1 or 2 cups, which can get be preheated on the upper cup-warmer plate. This espresso machine will also be a hit with people who use large coffee mugs, as it accommodates extra-large cups.

### FEATURES

- **Powerful pump pressure of 20 bar**
- **Patented adjustable steam nozzle (hot milk, milk foam)**
- **Premium slim body design**
- Thermoblock heating system
- Stainless steel filter for 1 or 2 cups
- Metallic cup-warmer plate

- Steam or hot water selection
- Metallic cup-warmer plate
- Removable 1.5 l water tank and drip tray
- ON/OFF switch with indicator light and water volume indicator
- Anti-slip feet for good stability

# PRACTICAL WITH NO COMPROMISES

## FILTER COFFEE MAKERS

Just imagine a morning this beautiful: you awake to the aroma of fresh coffee traveling directly into your bed... Reach out and pour yourself a proper cup for breakfast to start you up. Only filter or drip coffee can do this and SENCOR coffeemakers can handle this perfectly.

Brewing up to 15 cups at once is a perfect fit for a 1.8 litre pot. However, you do not have to drink it straight away, the non-stick hot-plate keeps the coffee at an optimal serving temperature. Naturally, SENCOR coffee makers can prepare exactly as many cups as you wish with the help of a practical water level indicator. The LCD display assists in operating the coffee maker intuitively, while the drip-stop lock valve immediately stops coffee from dripping when the pot is removed.

Not really a fan of coffee? No problem, SENCOR machines can also brew tea using a removable, washable, permanent filter, or a size 4, paper filter. So all you have to do is figure out what to have with your coffee or tea for breakfast.

### WHY CHOOSE A SENCOR FILTER COFFEE MAKER

- Appliance makes up to 15 cups of coffee or tea
- Hot plate for temperature preservation
- Convenient LCD display with optional features
- High-quality and safe materials
- Easy to use and clean
- Modern stylish design

Filter Coffee Maker

## SCE 7000BK

There may be more than a dozen ways to make a coffee, Featuring a built-in coffee grinder, this coffee maker always has enough freshly prepared coffee for the whole family, or colleagues in the office. Its grinder (200 g) and kettle (1.5 l) are ideal for brewing 12 cups of coffee at once.

The elegant design is highlighted by practical features too: the LCD display shows the functions, both permanent and paper filters can be used, the glass kettle has a closable lid and heat-insulated handle, the non-stick hotplate maintains optimal serving temperature, and the drip-stop lock valve prevents liquid from dripping when the kettle is removed.

### FEATURES

- 2 nozzles (2 cups can be brewed at the same time)
- 0.3 litre water tank
- Easy cleaning thanks to a removable drip tray
- Main switch with a power indicator light
- Anti-slip feet

# FRESH TASTE AND EXPERIENCE

## COFFEE GRINDERS

Coffee aroma is known to quickly vanish once beans have been ground so nothing can beat fresh ground. Having a coffee grinder is not a luxury, but is essential for all coffee lovers.

The best SENCOR electric coffee grinders feature steel grinding stones, providing fast and accurate grinding. Up to 17 different grind settings from fine to coarse ensure that coffee is always just right. Moreover, you can choose the number of cups for which to have coffee ground and it will serve you and then turn itself off.

Thanks to an innovative design with a planetary gearbox drive, SENCOR coffee grinders produce low levels of noise when in operation. The transparent hopper holds up to 350 g of coffee beans and what's more, some coffee grinders can also handle nuts, herbs or poppy seeds. An illuminated pushbutton ensures convenient operation and anti-slip feet stability when grinding.

### WHY CHOOSE A SENCOR COFFEE GRINDER

- High-performance and quiet appliances
- Selection of different size models
- Up to 17 different grinding fineness settings
- High-quality steel grinding stones
- Ergonomic design with planetary gearbox drive
- Easy to use and clean
- Practical safety features

Electric Burr Coffee Grinder

## SCG 6050SS

Burr grinders are the only proper way to grind coffee – beans are crushed between two abrasive elements into a uniform grind that can usually be adjusted.

Another advantage is that beans are not heated as much as in blade grinders, thus preserving more aroma and protecting valuable oils. This model has a special cone-shaped steel burr head that ensures fast, precise grinding and no overheating of the ground coffee. With 15 grind settings you can grind your coffee perfectly for espresso, filter or other brewing methods. Even tea lovers can use it.

### FEATURES

- **Power input 150 W, 15 grind settings**
- **Cone-shaped steel burr head for fast and precise grinding with no overheating**
- **Selector to automatically grind coffee for 2 to 10 cups**
- Hopper for up to 350 g of beans and a container for up to 150 g of ground coffee

## Coffee Grinder

# SCG 5050BK

This stylish black and silver SENCOR model is equipped with a flat steel burr head, offers 17 levels of grind settings and can hold up to 180 g of coffee beans. There is also a rotating dial for automatically setting it to grind coffee for 2 to 12 cups.

## FEATURES

- Power input 110 W, 17 grind settings
- Regulator to automatically grind coffee for 2 to 12 cups
- Hopper for up to 180 g of beans and container for up to 100 g of ground coffee
- Flat steel burr head for fast and precise grinding

## Coffee Grinder

# SCG 3550SS

● SCG 3550BK ○ SCG 3550SS

There is no fresher coffee aroma than the one delivered by an electric coffee grinder. Its hopper has volume for 60 g of coffee beans which is enough for 12 cups of coffee to enjoy with your friends and family. Set the ground coffee fineness and number of cups to suit your preferences and the appliance will give you evenly ground coffee thanks to its special titanium blade. The appliance can be also used for grinding nuts, herbs, and spices, making it useful in your kitchen too.

## FEATURES

- Suitable for coffee, nuts, herbs and spices
- Ground coffee fineness and number of cups settings
- Hopper for up to 60 g of coffee beans (12 cups of coffee)
- Even coffee grinding consistency thanks to a special titanium blade
- Anti-slip feet for easy and stable grinding

## Coffee Grinder SCG 3050SS

With this coffee grinder equipped with a hopper for up to 50 grams of coffee beans, you can prepare 10 cups of coffee at once. It can be used not only for coffee beans, but for grinding seeds, spices, walnuts and herbs as well.

### FEATURES

- **Power input 150 W**
- **Hopper for up to 50 grams of coffee beans (10 cups)**
- **Anti-slip feet for easy and stable grinding**
- Power cord storage in the base

## Coffee Grinder SCG 2052WH

● SCG 2050RD ● SCG 2051BK ○ SCG 2052WH

This compact coffee grinder is equipped with a hopper for up to 60 grams of coffee beans which is enough to make 12 cups of coffee at once. The grinding consistency is even thanks to a special stainless-steel chopping blade. You can also grind poppy seeds, spices, walnuts or herbs.

### FEATURES

- **Power input 150 W**
- **Hopper for up to 60 grams of coffee beans (12 cups)**
- **Large safety button ensuring easy operation**
- Safety mechanism that prevents the coffee grinder from being started when not closed
- Anti-slip feet for easy and stable grinding
- Power cord storage in the case

## Coffee Grinder SCG 1050WH

● SCG 1050BK ○ SCG 1050WH

This coffee grinder is equipped with a hopper for up to 50 grams of coffee beans which is enough for 10 cups of coffee. The fineness of the ground coffee can be adjusted based on the grinding time. It can be used not only for coffee beans, but for grinding seeds, spices, walnuts and herbs as well.

### FEATURES

- **Power input 150 W**
- **Large safety button ensuring easy operation**
- **Safety catch that prevents the coffee grinder from being started when not closed**
- Anti-slip feet for easy and stable grinding
- Power cord storage in the base

# PERFECTLY VELVETY FROTHED MILK

## MILK FROTHERS

Do you like fluffy cappuccino, smooth latte, or do you prefer a strong macchiato? Then you cannot do without a SENCOR milk frother and warmer. Three levels of automatic operation with a combined light indication are able to froth both cold and warm milk, or just warm it up without frothing. Two types of easy to replace attachments are used to do so, using a contactless magnetic attachment system inside the container.

The SENCOR milk frother and milk heater is simply ideal for making most Italian-style coffees. Moreover, the built-in thermostat guarantees that the resulting temperature will always be an optimal 68° C, just like a smooth milk froth should be. It also prevents milk from overheating. The non-stick coating also makes cleaning much easier.

### WHY CHOOSE A SENCOR MILK FROTHER

- Different levels of automatic operation
- High-quality construction and non-stick materials
- Practical attachments with a modern contactless magnetic system
- Easy to use with overheating safety features
- Thermostat for accurate temperature
- Stylish design

Milk Frother

## SMF 4000 BK

This milk frother is suitable for preparing latté, cappuccino, frappé or other beverages that include frothed or hot milk.

There are three full automatic operating modes so you can choose the exact speed that suits your taste. With a thermostat-controlled final temperature of 68°C it's an easy-to-use and safe appliance.

## FEATURES

- **Power input 650 W**
- **Anti-slip handle**
- **Induction heating with patented technology for more efficient preparation**
  - Inside are maximum milk level marks (150/300 ml)
  - Heat insulated outer case
  - Automatic transition to stand-by mode
  - Overheating protection

Milk Frother

## SMF 2020WH

If you like to have fun while preparing coffee, this is the milk frother for you. With three fully automatic operating modes, it's so easy to find the right speed to prepare latte, cappuccino, frappe or other beverages that require frothed or hot milk. And the thermostat-controlled final temperature of 68°C makes it a safe appliance.

### FEATURES

- **Power input 450 W**
- **Anti-slip handle**
- **Heating base with a covered heating spiral**
  - Inside are maximum milk level marks (100/200 ml).
  - Heat insulated outer case
  - Automatic transition to stand-by mode
  - Overheating protection

## RECIPE

### GINGERBREAD COFFEE

Once you try this delicious coffee, it will become a regular pleasure. It's easy to make, takes 20 minutes to prepare and 10 to cook, and everybody will love it - SENCOR guarantees it!

#### Ingredients:

½ cup of molasses, ¼ teaspoon of baking soda, ¼ cup of brown sugar, 1 teaspoon of ground ginger, ¾ teaspoon of ground cinnamon, 6 cups of hot brewed coffee from a SENCOR espresso machine, 1 ½ cups of sweetened whipped cream

#### Directions:

1. In a small bowl, mix together the molasses, brown sugar, baking soda, ginger and cinnamon until well blended. Cover and refrigerate for at least 10 minutes.

2. Add about a ¼ cup of coffee to each cup, then stir in about a tablespoon of the spice mixture until dissolved. Fill cups to within an inch of the top with coffee. Stir in half and half to suit your taste, then garnish with whipped cream and a light dusting of cloves.
