SENCOR

SENCOR APPLIANCES THAT HAVE WON OVER THE WORLD

More than 50 years ago, two words were combined to create one of the world's most popular brands – SENCOR. In Japan, where the company's story began, SENCOR means „thousand hearts“. Today, „SEN“ („thousand“) represents a wide range of products and their design, while „COR“ („heart“) illustrates not only passion but also the company's headquarters in the heart of Europe, the Czech Republic.

It all started in Japan

Japan is well-known for its research and development of new technologies. When SENCOR entered the market in 1969, the competition was stiff. However, the traditional Japanese industriousness and perfectionism was joined by a desire to create something exceptional, resulting in products comparable to the world's leading manufacturers. In the following decades, SENCOR products entered all parts of the world and the brand became an international player.

The democratisation of technology

At SENCOR, we focus on modern trends and progressive technologies. We want to make sure that new products can truly be enjoyed by everyone, so we bring them into everyday life quickly and at a friendly price.

A comprehensive portfolio to make your life easier

SENCOR delivers its products to more than 55 countries around the world. Our ever-expanding portfolio includes more than 1,000 items from a wide range of categories. These include consumer electronics, tablets and phones, office appliances, car electronics, kitchen and home appliances, and health and beauty products. And new products are still on the way to serve the wants and needs of our customers.

Quality at a reasonable price. Our key policy

Regarding price, SENCOR sticks to an uncompromising rule: quality for the right price, and not a penny more! We are convinced that everyone should be able to enjoy reliable products at a reasonable price. Simply put, we offer value for money.

Member of the FAST family

Since 2003, SENCOR has been part of the Fast Group, a major trading company. Fast currently comprises of fifteen renowned brands in the DIY and consumer electronics sector, including Philco, Fieldmann, Lamart, Yankee, and Catler, among others

Where innovation meets affordability

Welcome to the world of consumer electronics, which combines cutting-edge technology with quality materials and reasonable prices. Welcome to the world of FAST. Our new QLED TVs feature stunning visuals with unparalleled colour accuracy and detail. For audio enthusiasts, we bring an exceptional assortment of speakers and soundbars, crafted with precision to deliver crystal-clear sound and deep bass. Also staying connected and enjoying superior sound quality is within reach with our latest headphones. And if you wish to record every adventure in stunning detail, see our range of action cameras. Built to withstand extreme conditions, they are perfect for capturing your most exciting moments.

WHY CHOOSE SENCOR

- Excellent quality at an affordable price
- Latest technology and continuous innovation
- Excellent design and a wide choice of colours
- Satisfied customers in over 55 countries

WHICH TV IS THE BEST FIT FOR YOU?

Each type of TV is designed to suit different needs. QLED TVs, which use Quantum Dot technology, boast vibrant, lifelike colours and superior brightness. This makes them the top choice for the most demanding customers, seeking premium picture quality and advanced features. Our Ultra HD TVs with 4K resolution offer sharp, detailed images with HDR for enhanced colour and contrast, making them perfect for movie and sports lovers. But if all you're looking for is a reliable TV for casual viewing, and you still insist on clear images at an affordable price, then go with HD-Ready or HD TVs.

QLED TVS FOR AN UNPARALLELED VIEWING EXPERIENCE

QLED SMART TV

QLED technology has completely transformed the way we experience television. By harnessing the power of quantum dots, these TVs deliver colours that are more vivid and true-to-life than ever before. The result? An immersive viewing experience, with every scene bursting with detail and brightness. WCG, or Wide Color Gamut, is a major contributor too. This technology displays a wider spectrum of colours that are closer to the real world and have richer, more vibrant shades. Whether you're watching the latest blockbuster, wildlife documentary, or your favourite TV show, the QLED's exceptional contrast renders deeper blacks and brighter highlights, making each moment feel cinematic. Plus, with its energy efficiency and long-lasting performance, QLED is the go-to choice for those who want the best in home entertainment.

But it's not only QLED that makes these TVs so desirable. HDR (High Dynamic Range) enhances the contrast and brightness of every frame. From the darkest shadows to the brightest highlights, this technology ensures that nothing goes unnoticed, making every scene more lifelike. To enjoy smooth, blur-free motion, MEMC technology is implemented too, the ideal choice for fast-paced action movies, sports, and gaming. Every movement is rendered with incredible fluidity, giving you a truly immersive viewing experience. Our QLED TVs come equipped with the latest webOS platform and ThinQ AI, making your TV smarter and more intuitive. Enjoy seamless navigation, voice control, and personalised recommendations tailored to your viewing habits. Magic Remote offers point-and-click simplicity, voice commands, and universal control of your connected devices. Access to AirPlay and leading streaming platforms is a matter of course.

WHY CHOOSE SENCOR QLED SMART TV

- QLED technology for an unparalleled watching experience
- Impressive contrast with HDR (High Dynamic Range)
- Wide Colour Gamut (WCG) for more vibrant and accurate colours
- Compatible with leading streaming platforms
- User-friendly webOS interface and Magic Remote for increased comfort

WCG (WIDE COLOR GAMUT)

This state-of-the-art technology enables the widest spectrum of colours to be displayed, reaching beyond the standard RGB space. The image is much more vivid, realistic, and rich in shades. WCG's unique features especially stand out in scenes with natural elements (landscapes, the sky, or people) and in animated films.

THE RICHEST COLOURS

QLED SMART TV

SLE 65-55-50-43Q870TCSB

Whichever screen size you choose, the Q Series TV will wow you with its picture quality, using Quantum dot technology with a special layer of highly durable quantum dots and blue LEDs. These create the purest white light possible, the highest brightness values, and display the richest colour palette with over a billion shades. Motion Estimate and Motion Compensation (MEMC) – a technology that eliminates motion traces – ensures action scenes and sports matches are displayed accurately. Of course, the sound is also unparalleled, with four built-in speakers providing a harmonious blend of rich bass and surround experience.

The Q Series offers everything you'd expect from a modern TV. LG's webOS runs on a quad-core ARM processor, the controls are snappy, and you can choose from a wide range of apps and movie libraries (HBO MAX, Disney+, Netflix, etc.). Game lovers will enjoy the same, as the TV uses the game optimiser for PlayStation and Xbox. Features such as FPS optimisation, VRR support, Black & White Stabiliser, low latency, and Dark Room mode allow you to immerse yourself fully in the gaming world.

Design is also important for any modern TV. The Q Series' frameless design and metal body with a central leg give it a sleek look. Choose from 65, 55, 50 and 43-inch diagonals.

FEATURES

- **WebOS SMART TV with unique picture and sound**
- **Quantum Dot technology enhances brightness and colour**
- **MEMC (Motion Estimate and Motion Compensation) accurately renders sports and action scenes**
- Display diagonal up to 65", UHD resolution
- Integrated AI ThinQ voice assistant enables control
- Optimised for gaming consoles (PlayStation, Xbox, Nintendo)
- HBO MAX, DISNEY+, Netflix, Apple TV, Prime Video, YouTube, Spotify, etc.
- Built-in Wi-Fi module and Bluetooth 5.0 with LG Sound Sync support
- DVB-T2, DVB-T, DVB-C, DVB-S2
- 3x HDMI CEC (1xARC), AV in, RJ45, optical output, 2x USB 2.0 (5 V = 0,5 A), sluchátkový výstup 3.5 mm headphone jack output, HDMI CEC SIMPLINK
- Disc recording (PVR-TS format)/disc playback (2x USB port)
- Magic and standard controller

A group of five people, three women and two men, are sitting on a large, dark-colored sofa. They are all wearing red shirts and are celebrating enthusiastically. Some are holding up red scarves or pieces of fabric. In the background, a large television screen displays a soccer game. Two players are visible on the screen: one in a white and blue kit and another in a red kit with the number 2 on his back. The scene is set in a living room with a potted plant and a soccer ball on the floor. The overall atmosphere is one of excitement and joy.

FOR GAMING,
SPORTS, AND
YOUR **FAVOURITE**
SHOWS

SMART TV

In 2008, a TV revolution started. Smart TVs entered the market and changed the way we watch movies, shows, and even sports. Since then, stunning progress has been made, taking the qualities of today's models far beyond their ancestors. And what exactly do they offer?

Their operation system, webOS, simplifies navigation, offering an intuitive interface and allowing quick access to top streaming services like NETFLIX, HBO MAX, DISNEY+, and APPLE TV. It also supports multitasking and personalised content recommendations, ensuring a smooth viewing experience. And as artificial intelligence continues to gradually create space for itself in our world, new TVs also use it to create a tailored viewing experience. ThinQ AI used in our models turns your TV into a smart home hub. With voice commands and AI-driven enhancements, it optimises the picture and sound based on what you're watching.

Traditional tools evolve as well. Bulky remote controllers are now often replaced by more elegant and powerful accessories – just like with our Magic Remote. Using its point-and-click and voice control options, it makes navigating through apps and overall control surprisingly easy.

Available in screen sizes ranging from 24 to 65 inches, our Smart TVs fit any space, offering a range of options from compact bedroom sets to large living room displays. So, which one will be yours?

WHY CHOOSE SENCOR SMART TV

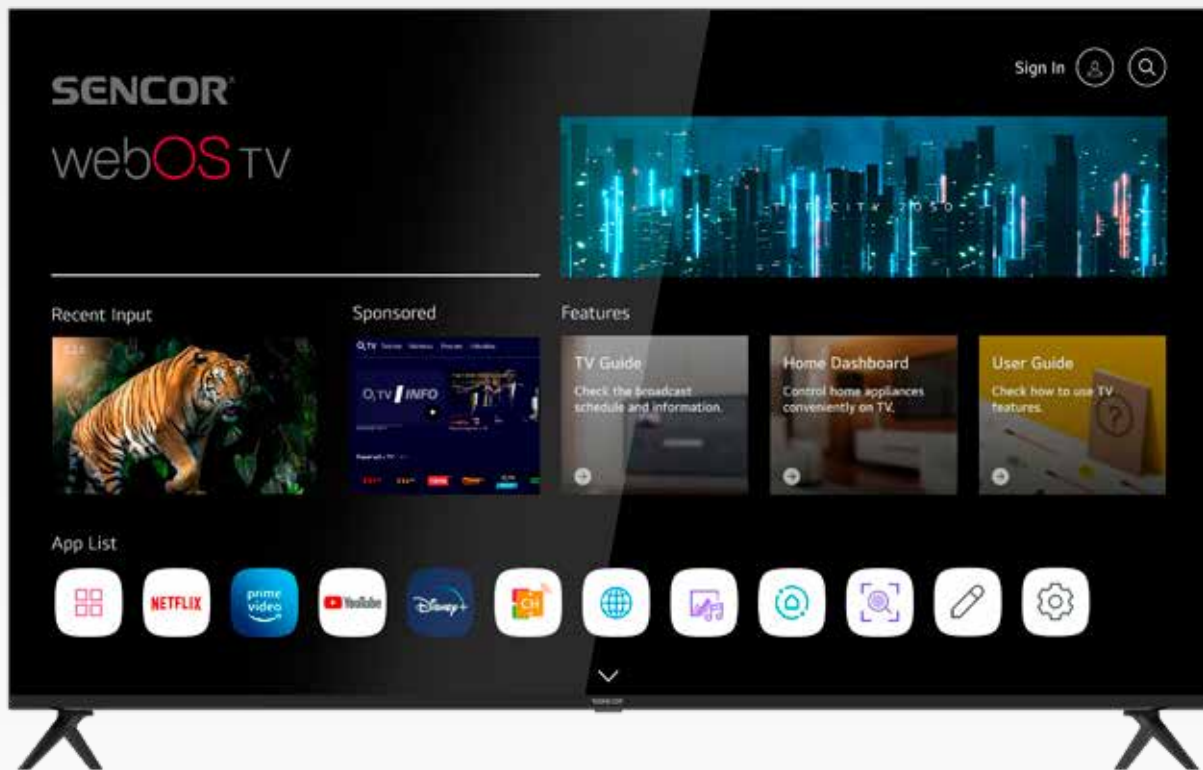

- Intuitive navigation with webOS
- AI features ThinQ for a tailored viewing experience
- HDR technology enhances colour and contrast
- Magic Remote for smooth TV controls
- Screen sizes from 24 to 65 inches to fit any space
- Airplay and major streaming services integrated

ARTIFICIAL INTELLIGENCE

ThinQ technology can be found in a variety of home appliances and electronics, including TVs. It's actually artificial intelligence that allows you to control and customise your device using voice commands, the mobile app, or even gestures. All to make your life just a little bit easier.

MAKES LIVES EASIER

SMART UHD TV

SLE 65-55-50-43US802TCSB

Thanks to their frameless design, the TVs in this model series fit any interior. They impress with perfectly rendered images, powerful sound, and maximum ease of use thanks to the Magic Remote, which can switch programmes, search for new content, and use other functions with just a click, point, scroll, or voice command.

The picture is sharper than ever with the High Dynamic Range HDR technology, meaning you can enjoy your favourite shows or movies in ultra-high definition (UHD). Of course, all the big, global apps are there, including Netflix, Amazon Prime, HBO MAX, DISNEY+, YouTube, etc. And more can be downloaded via the pre-installed store.

The integrated AI THING voice assistant gives you control as the TV becomes part of your connected smart home. The TV also communicates with other technologies such as Google Assistant, Alexa, and Apple Airplay. Of course, there's a built-in wireless WiFi module and the option to connect a LAN cable, Bluetooth home cinema, or classic speaker.

FEATURES

- **WebOS SMART TV with AI ThinQ voice assistant**
- **Magic Remote allows quick and convenient control with just a click or point**
- **Diagonal from 164 cm, 65, 55, 50 and 43-inch variants**
- Superior picture quality with UHD and HDR 10 with 1.07 billion colours
- DVB-T/T2/C/S/S2 tuners
- Digital Comb Filter (DCF), Dynamic Noise Reduction (DNR), and Adaptive Deinterlacing (DMDI) enhance the viewing experience
- WebOS SMART TV 22 interface
- HBO MAX, DISNEY+, Netflix, Apple TV, Prime Video, YouTube, Spotify, Deezer, etc.
- Built-in Wi-Fi module (2.4/5 GHz) and Bluetooth 5.0 with LG Sound Sync support
- Sound with 2×8 W of output power, Dolby Digital Plus, equaliser
- 3 × HDMI CEC (1 × ARC), AV in, RJ45, optical output, 2× USB 2.0 (5 V \approx 0,5 A), 3.5 mm headphone jack output, HDMI CEC SIMPLINK
- Disc recording (PVR-TS format)/disc playback (2x USB port)

SMART FULL HD TV

SLE 43-40FS802TCSB

Looking for a TV with a great picture at a reasonable price? Then our F-Series is for you. You can choose from two diagonal sizes, both providing the same quality viewing experience.

The Full HD picture uses HDR technology. LG's operating system runs on a quad-core ARM processor, so the TV is not only packed with useful apps but it's also responsive. The available apps include major streaming services like HBO MAX, Disney+, Netflix, and Amazon Prime Video. You can easily switch between them using the standard remote or the Magic Remote (purchasable alongside the TV). The Magic Remote lets you search for new content, switch channels, and use other features with just a click, point, scroll, or voice command. The device communicates with the AI voice assistant THINQ and also supports Google Assistant, Alexa, and Apple Airplay. Of course, it comes with a built-in wireless WiFi module, LAN cable, Bluetooth home cinema, and a classic speaker.

FEATURES

- **WebOS SMART TV, Wi-Fi, and Bluetooth**
- **Display diagonal from 109 cm, 43 and 40-inch variants available**
- **Integrated DVB-T/T2/C/S/S2 tuners**
- Outstanding picture with FULL HD resolution, HDR 10 with 1.07 billion colours
- Brightness 220 cd/m², 8 ms response time, wide viewing angle 178°/178°
- Digital Comb Filter (DCF), Dynamic Noise Reduction (DNR), and Adaptive Deinterlacing (DMDI) enhance the viewing experience
- HBO MAX, DISNEY+, Netflix, Prime Video, YouTube, Spotify, Deezer, etc.
- LG ThinQ voice assistant with smartphone app
- Built-in Wi-Fi module (2.4/5 GHz), Miracast, and Bluetooth 5.0 with LG Sound Sync support
- 3× HDMI CEC (1×ARC), AV in, RJ45, optical output, 2× USB 2.0 (5 V = 0,5 A), 3.5 mm jack headphone output, HDMI CEC SIMPLINK
- CI+ interface

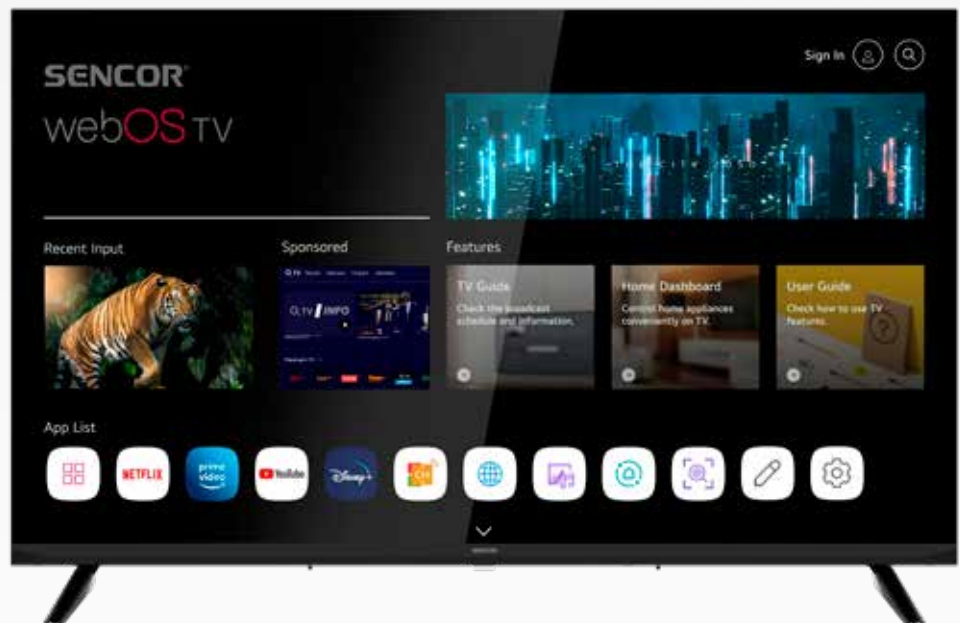

SMART HD TV

SLE 32-24S802TCSB

A modern, frameless design, international apps, and a great price. These features make the SLE 32S802TCSB and the SLE 24S802TCSB TV models that provide excellent service at home, in the cottage, or even in your guest room. They use LG's operating system with support for the quad-core ARM processor, making operation comfortable, intuitive, and responsive.

Netflix, Amazon Prime, HBO MAX, DISNEY+, and YouTube are all available, and more apps can be downloaded via the pre-installed store.

The TV connects to the internet using its built-in wireless WiFi module or LAN cable, while Bluetooth connects your home cinema or classic speaker to the TV.

FEATURES

- **WebOS SMART TV with Wi-Fi and Bluetooth**
- **Display diagonal from 80 cm, 32 and 24-inch variants**
- **HD Ready resolution with HDR 10 (1.07 billion colours)**
- DVB-T/T2/C/S/S2 tuners
- 180 cd/m² brightness, 8 ms response time, 178°/178° wide viewing angle
- Digital Comb Filter (DCF), Dynamic Noise Reduction (DNR), and Adaptive Deinterlacing (DMDI) support a high-quality viewing experience
- HBO MAX, DISNEY+, Netflix, Prime Video, YouTube, Spotify, Deezer, etc.
- LG ThinQ, including the smartphone app
- Built-in Wi-Fi module (2.4/5 GHz), Miracast, and Bluetooth 5.0 with LG Sound Sync support
- DVB-T2, DVB-T, DVB-C, DVB-S2, Skylink FastScan tuning
- Sound with 2x8 W of output power, Dolby Digital Plus, equaliser
- 3 x HDMI CEC (1 x ARC), AV in, RJ45, optical output, 2x USB 2.0 (5 V \approx 0,5 A), 3.5 mm jack headphone output, HDMI CEC SIMPLINK
- CI+ interface

SOUND THAT DRAWS YOU INTO THE ACTION

SOUNDBARS

Transform any ordinary TV audio into an immersive experience.

The soundbar is here to deliver richer sound, clearer dialogue, and deep bass, adding cinematic quality to movies, music, and games. Our stylish soundbars seamlessly integrate into your living space. Enjoy high-quality sound that makes your entertainment feel truly alive.

WHY CHOOSE SENCOR SOUNDBAR

- Impressive peak power for great sound
- 3D stereo surround-sound experience
- Bluetooth 5.3 for reliable data transfer
- Deep bass and room-filling audio
- HDMI ARC to connect with the TV

2.1 Ch soundbar with wireless subwoofer **✦5.3**

SSB 5500BW

Elevate your movie experience to the next level and connect your SSB 5500BW soundbar to your TV. This exceptional soundbar with a wireless subwoofer is designed for those who won't settle for anything but the best. With a maximum peak power of 160 watts, every note, every piece of dialogue, and every explosion is sure to ring out with incredible clarity and power.

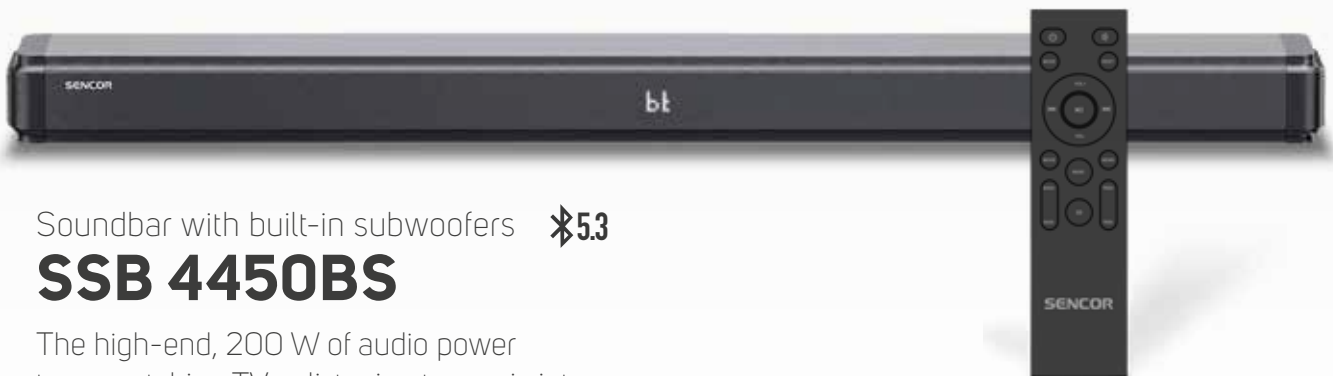

The wireless subwoofer-to-soundbar connectivity allows you to position the subwoofer according to your capabilities and needs. With this combination, you'll experience deep bass and room-filling sound that immerses you in the movie experience.

Even connecting the soundbar is as flexible as possible. With Bluetooth version 5.3, you can stream music wirelessly from your devices, and you can also use the USB or AUX input (3.5 mm jack). With HDMI ARC functions, you can easily connect your TV and other external devices.

FEATURES

- **Wireless subwoofer with 160 W of peak power and 3D stereo surround sound**
- **Pre-set equalisers and 3 speakers (left, right, and wireless subwoofer)**
- **Frequency response: 75 Hz - 20 kHz**
- Total harmonic distortion: L/R ≤ 10% (1 kHz)
- SNR: L/R: ≥80 dB
- Inputs: Bluetooth 5.3, optical, HDMI ARC, AUX input (3.5 mm jack), and USB

Soundbar with built-in subwoofers **✦5.3**

SSB 4450BS

The high-end, 200 W of audio power turns watching TV or listening to music into a unique experience. The soundbar with built-in subwoofers will bring out every note, accentuate the drama from every piece of dialogue, and add unprecedented intensity to movie explosions.

The two integrated subwoofers provide a deep, resonant bass. They work in perfect harmony to immerse you in the movie experience. Of course, the 3D stereo surround sound effect also makes you feel like you're in the centre of the action. It's ideal for both movies and gaming and will enhance your overall entertainment experience. You can balance the bass and treble to suit your personal preferences to make sure you get the most out of everything.

FEATURES

- **Soundbar with two built-in subwoofers**
- **Maximum peak power of 200 watts and 3D stereo surround sound**
- **Individual base and treble settings**
- White LED display
- 4 speakers (left, right, two woofers)
- Frequency response: 80 Hz - 15 kHz
- Total harmonic distortion: L/R ≤ 5% (1 kHz)
- SNR: L/R: ≥80 dB
- Equaliser modes
- Inputs: Bluetooth 5.3, Optical, HDMI ARC, Aux input (3.5 mm Jack), USB

MUSIC BY YOUR SIDE

Bluetooth speakers are the ultimate accessory for music enthusiasts who live life on the move. With top-notch sound quality and long-lasting battery life, they keep the party going wherever you are. Their water resistance (IPX7 or IPX4) makes them perfect for poolside chill sessions or beach vibes. To add some flair, simply turn on the LED lighting effects that sync with your music. And their overall design hasn't been left out either; our speakers come in different colours and sizes so you can choose the one that fits you the best.

A vibrant party scene with people dancing and singing into a microphone. The background is filled with warm, orange and red lighting, creating a festive atmosphere. In the foreground, a woman with long blonde hair is singing enthusiastically into a black microphone. To her left, a man with a beard is also singing and holding a glass of red wine. Other guests in the background are seen dancing and holding drinks, with some raising their hands in the air. Large, shiny balloons are visible in the upper left corner.

FOR STRONG AND CRYSTAL-CLEAR SOUND

LARGE SPEAKERS RESONEX

RESONEX speakers combine top performance with elegant design. Whether you're hosting a garden party or enjoying a relaxing day by the water, these large speakers give you rich sound with deep bass and clear highs. The modern and durable design makes them both stylish and practical, and the waterproof construction gives you the freedom to take them virtually anywhere.

A variety of connectivity options such as bluetooth, USB, and AUX ensure a seamless sound system. Select models even feature dynamic LED lighting that transforms with the music to add atmosphere to the action. And you don't have to worry about power; the batteries are strong enough to keep the speaker going all day long.

WHY CHOOSE SENCOR RESONEX SPEAKER

- Waterproof with an IPX7 rating for unlimited outdoor use
- Broadcast function with up to 99 connected devices
- Impressive sound power and playback time
- Modern design with premium fabric cover
- LED illumination and ambient lighting

Waterproof Bluetooth speaker

RESONEX MEGA

With the IPX7 waterproof speaker, you can literally immerse yourself in the music. Not only is it unaffected by splashes from the pool but it can even handle being dropped into the water. The premium fabric cover looks great and also protects it from scratches.

The RESONEX MEGA features TWS (True Wireless Stereo), so you can connect two speakers wirelessly and enjoy surround sound, while the LED lighting adds to the atmosphere. Up to 190 watts of power is delivered by a set of 5 speakers and 2 passive radiators.

The sound and thick bass will surround you, as you easily pick out every detail of your favourite tracks. The large, built-in 22500 mAh Li-Ion rechargeable battery allows for a whopping 28 hours of playback (at 50% volume). Charging via USB-C is fast and convenient, with no more than 3 hours needed to fully charge the speaker.

SMALL
SPEAKERS WITH
A BIG HEART

SMALL BLUETOOTH SPEAKERS SIRIUS 2

Compact, yet so sonorous! SIRIUS 2 Bluetooth speakers give you clear sound with vibrant bass and accurate highs. Perfect for a party with friends or a relaxing evening at home. They can also enhance your cinematic experience, filling the room with rich sound that instantly immerses you in the action. At SENCOR, we never forget about design either, so the SIRIUS 2 boasts an elegant look that goes with any interior.

The speakers offer several connectivity options, including bluetooth, USB, and AUX, so you can easily stream music from your phone, pair it with your TV, or connect your gaming console. Intuitive controls and advanced audio modes let you tailor the sound to any mood or occasion. If one speaker isn't enough, the TWS (True Wireless Stereo) feature can connect multiple devices into a massive sound system. You'll also enjoy the long playback time and fast charging. And because they're waterproof with an IPX7 rating, you can use them outdoors without restriction. SIRIUS 2 speakers are simply versatile companions.

WHY CHOOSE

SENCOR SIRIUS 2 SPEAKER

- Waterproof with an IPX7 rating for your outdoor experience
- TWS (True Wireless Stereo) function
- Compact in size, powerful in sound
- Sleek and modern design
- Long playback time and fast charging

IPX4 OR IPX7?

IPX is the international standard for protecting devices against water ingress. You don't have to worry about an IPX7-rated device even in water. In fact, it can handle immersion to a depth of one meter for up to 30 minutes. IPX4 then indicates that the device is splash-proof, meaning it doesn't mind a rainy walk or a splash when washing your hands.

BOTH PROTECT AGAINST WATER

Bluetooth speaker

SIRIUS 2 MAXI

SIRIUS 2 MAXI will win you over immediately with its surround sound. Thanks to its three speakers with a maximum output of 30 W and two passive radiators, it creates a truly dynamic and clear sound. To make the listening experience even more intense, TWS technology also allows you to use two speakers at the same time. And you can easily connect your tablet or mobile device via Bluetooth.

The IPX7 rating guarantees sufficient water resistance, so the speaker can be switched on even in bad weather or when you're chilling by the pool in the summer. The powerful rechargeable battery (5000 mAh) ensures up to 8 hours of entertainment. SIRIUS 2 MAXI is simply the perfect musical companion wherever you are.

FEATURES

- **Waterproof speaker with IPX7 rating**
- **Premium fabric speaker cover**
- **TWS (True Wireless Stereo) function**
 - Maximum speaker power of 30 W (4 Ω impedance)
 - 3 speakers and 2 passive radiators
 - Frequency response: 50 Hz - 20 kHz
 - Total harmonic distortion ≤ 1%
 - LED loudspeaker illumination
 - Bluetooth Audio 5.0 and AUX Audio input (3.5 mm stereo connector)
 - TF card slot
 - Hands-free function
 - Built-in rechargeable battery: 5000 mAh Li-Ion
 - Playback time of up to 8 hours (at 50% volume)
 - USB-C charging with a total charging time of only 3 hours

WATERPROOF

Waterproof speaker with IPX7 rating. No need to worry about it being submerged in water and listening to music in unfavorable weather.

SOUND

Two speakers and two passive radiators together with a DSP digital sound processor provide 360° surround sound.

TRUE WIRELESS STEREO

TWS technology allows any two Sirius 2 Series speakers to be connected for even better sound.

CONNECTIVITY

Bluetooth 5.0 interface enables wireless music playback with high range and the highest quality.

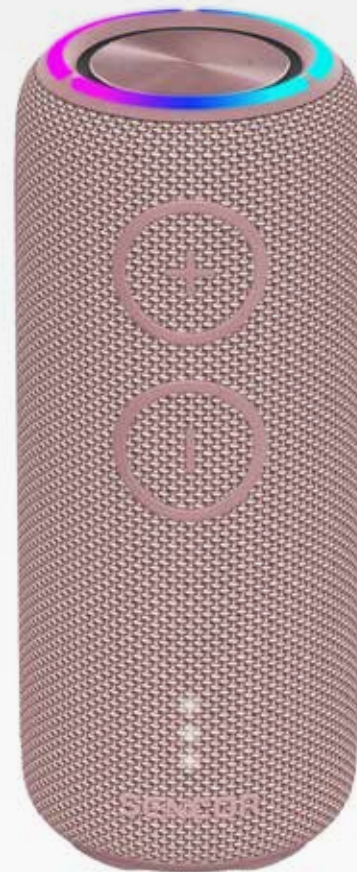

Bluetooth speaker
SIRIUS 2

Listen to your favourite music from your smartphone or tablet in full quality with the SIRIUS 2 Bluetooth speaker. As soon as it connects, the speaker envelopes you with 360° surround sound. Two speakers with a maximum output of 20 W and two passive radiators ensure powerful and clear playback.

The device pairs quickly and easily with your smartphone, while TWS technology allows you to use two speakers simultaneously. The SIRIUS 2 is waterproof, with an IPX7 rating to reliably protect it in inclement weather or by the pool. The 3600mAh rechargeable battery gives it power for up to 7 hours of listening. So, what sort of places will you travel to with this speaker?

FEATURES

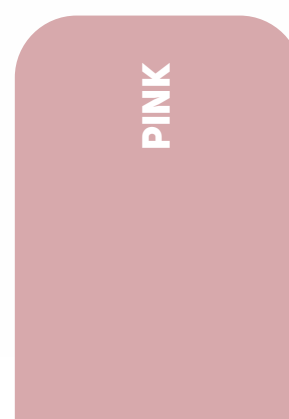

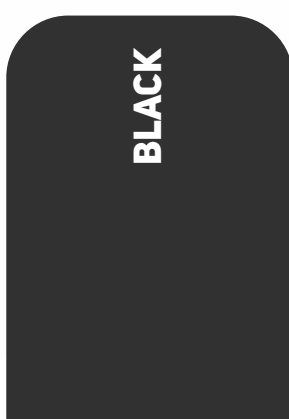

- **Waterproof speaker with IPX7 rating**
- **Premium fabric speaker cover**
- **TWS (True Wireless Stereo) function**
- Maximum speaker power 20 W (4 Ω impedance)
- 2 speakers and 2 passive radiators
- Frequency response: 60 Hz - 20 kHz
- Total harmonic distortion: ≤ 1%
- LED loudspeaker illumination
- Bluetooth Audio 5.0 and Aux Audio input (3.5 mm stereo connector)
- TF card slot
- Hands-free function
- Built-in rechargeable battery: 3600 mAh Li-Ion
- Playback time of up to 7 hours (at 50% volume)
- USB-C charging with a total charging time of only 3 hours

LED LIGHTING
 Multicolor LED light effect with turn off option. The lighting also has an indication function.

PLAYBACK TIME
 5000 mAh rechargeable battery provides up to 8 hours of music playback

Bluetooth speaker

SIRIUS 2 MINI

You don't have to worry about bad weather or any poolside accidents because the SIRIUS 2 MINI is IPX7-rated, meaning even total submersion can't hurt it. The high-quality fabric surface protects it while also giving it a sleek look.

The 16 W power output gives you a great music experience. The two speakers and two passive radiators offer extraordinary sound dynamics and bass depth. Use Bluetooth Audio 5.0 to connect the speaker to your phone, but if you prefer a wired connection, simply use the AUX audio input with a 3.5 mm jack. The built-in 2500 mAh Li-Ion rechargeable battery provides up to 6 hours of playback (at 50% volume).

FEATURES

- **Waterproof speaker with IPX7 protection rating**
- **Premium fabric speaker cover**
- **TWS (True Wireless Stereo) function**
- Maximum speaker power of 16 W (impedance: 4 Ω)
- 2 speakers and 2 passive radiators
- Frequency response: 60 Hz - 20 kHz
- LED loudspeaker illumination
- TF card slot
- Hands-free function
- USB-C charging with a total charging time of only 3.5 hours

Bluetooth speaker

SIRIUS 2 MICRO

The SIRIUS 2 MICRO speaker can accompany you anywhere, not only thanks to its compact design but also its IPX7 resistance. With this level of protection, it doesn't even matter if it goes underwater. The surface is protected from scratches by a high-quality fabric, which also gives it an elegant look.

The 5 W of power output guarantee a pleasant sound experience. The single speaker and passive radiator will surprise you with their extraordinary dynamics and bass depth. The 1200 mAh Li-Ion battery provides up to 10 hours of playback (at 50% volume), fully charged again in no more than three hours.

FEATURES

- **Waterproof speaker with IPX7 rating**
- **Premium fabric speaker cover**
- **TWS (True Wireless Stereo) function**
- LED speaker illumination
- Maximum speaker power of 5 W (Impedance: 4 Ω)
- 1 speaker + 1 passive radiator
- Frequency response: 60 Hz - 20 kHz
- Total harmonic distortion: ≤ 1%
- Bluetooth Audio 5.0 and AUX Audio input (3.5 mm stereo connector)
- Hands-free function
- USB-C charging, fully charged in no more than 3 hours

LET THE PARTY BEGIN!

PARTY SPEAKERS PARTYCON

The PARTYCON speakers didn't get their name by chance. Every rhythm and tone resonates in them to turn any venue into a vibrant party zone. When they're firing on all cylinders, they'll surround you with a powerful output of up to 250 watts. But you can just as easily adjust the sound settings to create a perfectly tranquil atmosphere for a chill-out session. They can accompany you throughout the night and day. It's also up to you to enhance the music experience with LED lighting effects.

Songs from your smartphone or tablet are streamed via the stable Bluetooth connection, but there are also USB and AUX inputs available to further expand your connectivity options. The weather won't limit you either, with IPX4 protecting the speaker from sudden rain showers. To make the fun even more intense, the PARTYCON speakers also have a karaoke function. And just in case the sound of one speaker isn't enough, you can link several of them together using the TWS (True Wireless Stereo) function to form a massive line-up. And beneath the sleek, modern look is a rugged construction that makes sure the speaker can take on any party without a hitch.

WHY CHOOSE SENCOR PARTYCON SPEAKER

- Impressive power for unparalleled sound
- LED panel with atmosphere-enhancing effects
- True Wireless Stereo feature
- Waterproof with IPX4 rating
- Karaoke function for more fun

Party speaker

PARTYCON BOOST

Let the party begin! The PARTYCON BOOST is a speaker with a sound no one can miss, thanks to its power of 250 W (at 6 Ω impedance).

Four speakers, two 8" mid-bass drivers, two 2.5" tweeters, and the equaliser ensure precisely rendered depths and highs. The mood at the party is boosted not only by the LED colour effects panel on the front of the speaker but also by the wireless microphone with a range of up to 10 metres. The latter is ideal for a house concert or karaoke. And when using it outdoors, you won't need to worry about every drop because the speaker is waterproof and IPX4 rated.

TWS
Function

FEATURES

- **IPX4 waterproof speaker**
- **Wireless microphone with a range of up to 10 meters for home concerts and karaoke**
- **Front LED colour panel with effects to enhance the atmosphere (can be switched off)**
- Equaliser for bass enhancement
- Power bank function 5 V / 1 A, built-in rechargeable battery: 12 V / 9 A Lead-acid
- 250 W of output power (impedance: 6 Ω)
- 4 speakers (2 \times 8" mid-bass, 2 \times 2.5" tweeters)
- Frequency response 80 Hz-12 kHz
- Total harmonic distortion \leq 10%
- Pre-set equaliser modes (Indoor and Outdoor)
- Inputs: Bluetooth Audio 5.3, audio jack (3.5 mm stereo jack), 2 \times USB (1 \times for playback and 1 \times for charging), memory card slot, 6.3 mm guitar input, 6.3 mm microphone input
- TWS (True Wireless Stereo): multiple speakers can be connected for an even more powerful effect
- Playback time of up to 3 hours (at 50% volume)
- Karaoke function (Echo, Volume)
- Dimensions: 839 \times 403 \times 348 mm
- Weight: 20.5 kg

ACCESSORIES

- **microphone, remote control, charging cable, antenna cable**

Party speaker

PARTYCON CORE

Four speakers (two 6" mid-bass and two 2" tweeters) with equaliser support to fill your party with great sound at 140 W of power. And you don't just have to listen – it comes with a microphone with a range of up to 10 meters so you can host a house concert or enjoy some karaoke. The front LED effects panel also adds to the atmosphere.

The built-in 12000 mAh Li-Ion rechargeable battery provides up to 6 hours of playback at 50% volume. The speaker has all the necessary inputs: Bluetooth Audio 5.3, an audio jack (3.5 mm stereo jack), two USBs for playback and charging, a memory card slot, and a guitar and microphone input.

TWS
Function

FEATURES

- **IPX4 waterproof speaker**
- **Wireless microphone with 10 m of range included**
- **Front LED colour panel with effects (can be filled in)**
- Equaliser for bass enhancement
- 5V/1A power bank function
- Output power of 140 W (impedance: 6 Ω)
- 4 speakers (2 × 6" mid-bass, 2 × 2" tweeters)
- Frequency response 80 Hz-12 kHz
- Total harmonic distortion ≤ 10%
- Pre-set equaliser modes (Indoor and Outdoor)
- Inputs: Bluetooth Audio 5.3, audio jack (3.5 mm stereo jack), two USBs for playback and charging, memory card slot, and a guitar and microphone input
- TWS (True Wireless Stereo) allows multiple speakers to be connected
- FM radio
- Built-in 12000 mAh Li-Ion rechargeable battery with up to 6 hours of playback time (at 50% volume)
- Karaoke function (Echo, Volume)
- Dimensions: 658 × 324 × 278 mm
- Weight: 11 kg

ACCESSORIES

- **microphone, remote control, charging cable, antenna cable, user manual**

Party speaker

PARTYCON BASE

This speaker acts as a reliable guide to any great party. It'll get the party started not only indoors but outdoors too, and thanks to its IPX4 waterproof rating, it won't shy away from getting wet. A wireless microphone is included for the right atmosphere, and the front LED panel takes care of the lighting effects. When you need it, the speaker also serves as a power bank.

The two speakers, one 6" mid-bass and one 2" tweeter, ensure excellent sound. The output power is 100 W with an impedance of 6 Ω . The powerful 8000 mAh Li-Ion battery gives you up to 5 hours of music on a single charge (at 50% volume).

FEATURES

- **IPX4 waterproof speaker**
- **Wireless microphone with a range of up to 10 metres**
- **Front LED colour panel with effects (turn-off option)**
- Power bank function
- 100 W of output power, 6 Ω impedance, 2 speakers (6" mid-bass, 2" tweeter)
- Frequency response: 100 Hz-20 kHz
- Total harmonic distortion: \leq 1%
- Pre-set equaliser modes
- Built-in 8000 mAh Li-Ion rechargeable battery
- Playback time of up to 5 hours (at 50% volume)
- Inputs: Bluetooth Audio 5.0, audio jack (3.5 mm stereo jack), 2x USB (1x for playback and 1x for charging), 6.3 mm microphone input, memory card slot
- TWS (True Wireless Stereo) and FM radio

SOUND IN A PLAYFUL STYLE

KIDS SPEAKERS

The ideal speaker for children should be both fun and functional. That's why the speakers from SENCOR are designed to be durable, colourful, and easy to use. The playful design and bright colours will capture children's imagination and complement their personalities. Then, whether they're blasting tunes in their room or on outdoor expeditions, the speakers will accompany them relentlessly as the batteries last a really long time. To make them easy to carry, our speakers have a reasonable weight and a practical handle. Of course, they can do with a few knocks and spills. After all, that's part of the adventure of being a kid.

In addition to the sturdy construction that can withstand minor accidents, the intuitive controls bring so much desired user comfort. Children can handle the entire setup themselves without any instructions. For parents, it's also important to know that the speakers are considerate of kids' sensitive hearing. That's why the speakers have an integrated volume limiter for the youngest listeners, which protects them from too loud sounds and guarantees a safe listening experience.

Your kids may even pull you into the fun – the speakers are equipped with lighting effects and even a karaoke microphone. So don't be afraid to go for it and organise a singing competition at home or simply enjoy a good time together.

WHY CHOOSE SENCOR KIDS SPEAKER

- Kid-optimised sound volume
- Light effects with shut-off option
- Microphone for karaoke and more fun
- IPX5 water resistance
- Long playback time

Kids bluetooth speaker with microphone **SSS 3900**

The speaker and microphone will keep kids entertained for hours. Not only can they play their favourite music or stories but also sing along. Their birthday parties will be the best in the whole neighbourhood, especially when everyone can listen to their performance again from the recording.

They'll have so much fun! The wireless microphone has a range of up to 10 metres and can operate for up to 4 hours, while the speaker itself can last up to 10 hours. Three speakers (two mid-range and one tweeter) with an output power of 100 W provide quality sound.

FEATURES

- Kids party speaker with wireless microphone
- Karaoke with recording, ECHO function, and volume control
- 100 W of output power (4 Ω impedance)
- Frequency response 100 Hz - 20 kHz
- Total harmonic distortion \leq 1%
- 3 speakers (2 midrange and 1 tweeter)
- Sound modes
- Multi-colour LED speaker illumination
- Built-in rechargeable battery
- Wireless microphone with a range of up to 10 m
- Type AA microphone battery (not included)
- Operating time of up to 4 hours
- Bluetooth Audio 5.0, range up to 15 m
- Inputs and outputs: line audio input (3.5 mm jack), USB input, MicroSDHC card slot, 2x microphone input (6.3 mm jack), guitar input (6.3 mm jack)
- TWS - True Wireless Stereo
- FM PLL Radio
- LED display
- Built-in battery: 4000 mAh Li-Ion
- Playback time of up to 10 hours (at 50% volume)
- 9V charging (LED indication)
- USB power port
- Audio output (Mono)

ACCESSORIES

- charging adapter (DC 9 V, 1 A), microphone, textile carrying strap, 3.5 mm AUX cable

Kids bluetooth speaker with microphone

SSS 3600 KIDS

Bluetooth 5.0

Do you have enthusiastic little singers at home? Then they'll love this Bluetooth speaker with a microphone, where they can record their performance directly.

In addition, the multi-coloured LED lighting on the speaker will make them feel like they're singing live on a stage. And with the built-in 3000 mAh Li-Ion rechargeable battery, the kids can play music for up to 10 hours (at 50% volume).

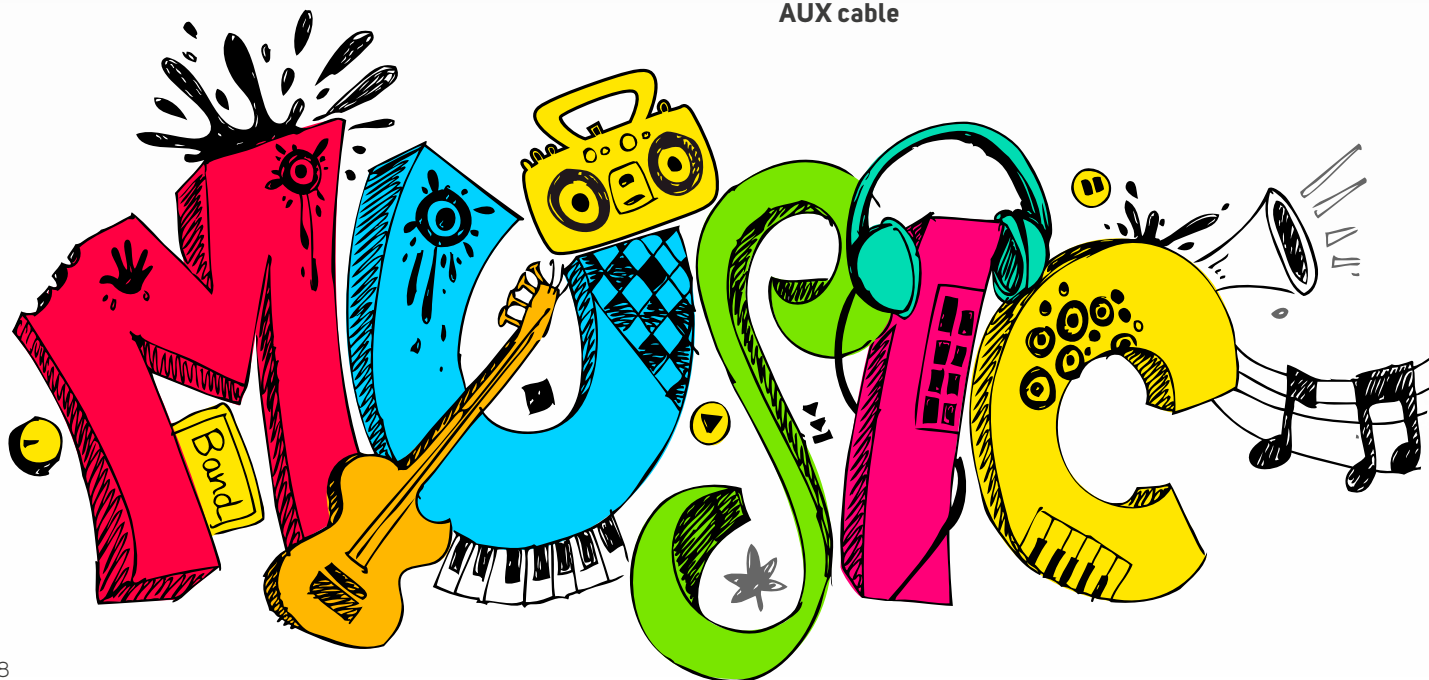

FEATURES

- **Karaoke with recording capability, ECHO function, and volume adjustment**
- **Multi-colour LED speaker illumination**
- **Built-in rechargeable battery**
- 70 W of output power (Impedance: 4 Ω)
- Frequency response 40 Hz - 16 kHz
- Total harmonic distortion ≤ 1%
- 3 speakers (2 midrange + 1 tweeter)
- Equaliser (6 presets)
- Inputs: Bluetooth Audio 5.0 with 15 m range, line audio input (3.5 mm jack), USB input, MicroSDHC card slot, microphone input (6.3 mm jack), guitar input (6.3 mm jack)
- FM PLL Radio
- LED display
- Built-in 3000 mAh Li-Ion battery
- Playback time of up to 10 hours (at 50% volume)
- Charging 9V (LED indication) or 12V

ACCESSORIES

- rechargeable adapter (DC 9V, 1A), microphone with a 5 m cable, fabric carrying strap, 3.5 mm AUX cable

Bluetooth speaker with wireless microphones 

SSS 3450K

The clear sound and perfect light show of the SSS 3450K party speaker will delight children as well as anyone else nearby. The package includes two wireless rechargeable microphones with a range of up to 10 meters, which is ideal for a small home concert or karaoke.

The speaker easily connects to your smartphone or tablet, communicating reliably with them via Bluetooth 5.3. The two speakers with a total power of 35 W handle the proper sound, drawing power from the large, built-in 8000mAh rechargeable battery that lasts up to 10 hours of use (at 50% volume).

FEATURES

- **Two wireless microphones with a range of 10 metres**
- **Light effects (turn-off option)**
- **Maximum speaker power of 35 W**
- Full-Range speaker, tweeter, and equaliser
- IPX5 water resistance
- Inputs and outputs: Bluetooth Audio 5.3, AUX Audio input (3.5 mm stereo jack), USB playback/charge (up to 32GB/MP3), microphone input (6.3 mm jack), and headphone output (3.5 mm jack)
- Rechargeable speaker battery: 8000 mAh Li-Ion with up to 10 hours of battery life at 50% volume
- USB-C power supply

ACCESSORIES

- **2x wireless microphone, 2x microphone holder, AUX cable, USB charging cable**

Kids bluetooth speaker with microphone

SSS 3200 KIDS

The SSS 3200 KIDS speaker will delight all children. At kids' parties, playgrounds, or just when playing, it gives them the opportunity to listen to music and even sing along anywhere they go.

In fact, the package also includes a microphone and karaoke option, allowing any little singers to get their groove on. Thanks to the built-in 1800 mAh rechargeable battery, the speaker can play music for up to 5 hours at medium volume levels. Quality sound is guaranteed by the midrange and tweeter speakers with a maximum power output of 30 watts.

FEATURES

- **Karaoke with recording capability and ECHO function**
- **Multi-colour LED speaker illumination**
- **Built-in rechargeable battery with 5 hours of battery life at medium volume**
- 2 speakers (mid + tweeter) and equaliser (6 pre-sets)
- Output power: 30 W (Impedance: 4 Ω)
- Frequency response: 100 Hz - 20 kHz
- Total harmonic distortion: ≤ 1%
- Inputs: Bluetooth Audio 3.0 (range of up to 15 meters), line audio input (3.5 mm stereo jack), USB input, MicroSDHC card slot, microphone input (6.3 mm jack), guitar input (6.3 mm jack)
- FM PLL Radio
- LED display
- Built-in 1800 mAh Li-Ion battery
- Playback time of up to 5 hours, total charging time of only 3 hour

ACCESSORIES

- **charging adapter (DC 9V, 1A), microphone with 5 m cable, textile carrying strap, 3.5 mm AUX cable**

Wireless speaker SSS 3100

The SSS 3100 KIDS LIGHT speaker is a great choice for kids and teens. It's waterproof, so it can handle getting splashed from the pool or inclement weather. When it comes to the music experience, it delights with dynamic sound and a perfect light show.

Powerful and clear sound is provided by the two speakers with a total output of 60 W and two passive radiators. But if even that's not enough, a second speaker can be connected using TWS technology. The powerful 3600mAh battery provides up to 7 hours of listening time (at 50% volume).

ACCESSORIES

- **USB charging cable,**
3.5 mm external cable (aux)

FEATURES

- **IPX5 waterproof speaker**
- **Light effects with switch-off option**
- **TWS (True Wireless Stereo) function**
 - Maximum speaker power of 60 W
 - 2 speakers and 2 passive emitters
 - Frequency response 85 Hz-16 kHz
 - Total harmonic distortion $\leq 1\%$
 - Bluetooth Audio 5.1
 - Audio AUX input (3.5 mm stereo connector)
- USB playback (up to 32 GB/MP3, FLAC)
- FM radio
- 6.35 mm microphone input
- Built-in 3600 mAh Li-Ion rechargeable battery
- Playback time of up to 7 hours (at 50% volume)
- USB-C power supply

Wireless speaker

SSS 3000 KIDS

Looking for a speaker for kids? The SSS 3000 may be the ideal choice as it has a maximum power of 16 watts and reproduces music in great quality. Their enjoyment is sure to be enhanced by the lighting effects, but these can easily be switched off if you don't want to be disturbed.

An important feature is the water resistance; the speaker will not be affected by raindrops or small accidents involving water. With the TWS (True Wireless Stereo) function, you can connect two speakers to create the ultimate stereo experience. Music can be transferred from a mobile phone or tablet via Bluetooth Audio 5.1 or with a USB drive. The built-in 1500 mAh Li-Ion rechargeable battery gives up to 7 hours of playback (at 50% volume).

- 2 speakers and 2 passive emitters
- Frequency response 80 Hz-20 kHz
- Total harmonic distortion ≤ 1%
- Built-in 1500 mAh Li-Ion rechargeable battery
- Playback time of up to 7 hours (at 50% volume)
- USB playback (up to 32 GB/MP3)
- Audio AUX input (3.5 mm jack)
- FM radio
- Waterproof IPX4
- Bluetooth Audio 5.1
- USB-C power supply
- Dimensions:
255 × 110 × 87 mm
- Weight: 750 g

Karaoke party microphone with speaker

SSS K1000

Great-sounding music and karaoke? That's a guaranteed recipe for a great party. The SSS K1000 Karaoke Party Microphone with Speaker does both while adding lighting effects.

It connects wirelessly to your music source via Bluetooth so you don't have to do anything complicated. Precise sound is provided by the DSP digital sound processor and the wideband speaker with really deep bass. The long battery life and lightweight design are also advantages.

FEATURES

- **Bluetooth wireless connectivity**
- **Low-distortion microphone diaphragm**
- **LED lights**
 - TWS (True Wireless Stereo) function
 - Digital Sound Processor (DSP)
 - Maximum speaker power of 10 W (3 Ω impedance)
 - Frequency response 130Hz - 20KHz
 - 1 Wideband Speaker
 - Deep bass
 - 4 voice modes (spoken, original sound, karaoke, professional)
 - 4 lighting modes (dynamic, dynamic breathing, RGB, monochrome)
- Bluetooth Audio 5.0
- Audio AUX output for headphones or recording
- Built-in rechargeable battery: 2500 mAh Li-Ion
- Playback time of up to 10 hours (50% volume level)
- USB-C charging

ACCESSORIES

- **USB-C charging cable, 3.5 mm AUX cable**

DIGITAL SOUND PROCESSOR

DSP defines entirely new standards in clarity, dynamics and sound quality. The DSP processes and enhances the song being played by enriching certain frequencies and bringing the sound closer to the original.

TWS
Function

A person wearing large black headphones is shown from the side, looking at a computer monitor. The monitor displays a vibrant, blurred image of a natural landscape with green hills and a blue sky. The background is a solid dark blue.

HEAR NOTHING BUT MUSIC

Technology at the service of undisturbed listening. That's how our approach to headphone development can be described. The latest models use ANC and ENC to keep ambient noise out of the music, communicate with voice assistants, resist moisture, and adapt to impacts during sports. But design and ergonomics also play a crucial role. At SENCOR, we know that feel and look is a big part of the experience.

ULTIMATE LISTENING FREEDOM

TRUE WIRELESS EARPHONES

Offering unparalleled freedom. Do away with wires. Enjoy a perfect fit to your ears. And, of course, they play with precision. Our True Wireless earphones do it all. Their small size doesn't compromise sound quality. And they use ANC (Active Noise Cancellation) technology to keep you listening uninterrupted, so you can focus on the music or podcast you're listening to on your phone. And even though the right and left sides are not connected by any cable, the sound is perfectly synchronised.

The compact size is their advantage. They fit easily in your pocket or small case, making them ideal for travel. Whether you're commuting to work, exercising, or just moving around the house, you don't have to be confined without a cable, and you won't get tangled up at all.

Ergonomics also plays a crucial role. To make sure you're really comfortable with the earphones, SENCOR takes comfort into account. They fit perfectly in your ears, so you don't have to worry about them falling out when you move around a lot. On the contrary, they won't even budge. You can also choose them if you're an active athlete, we even offer a model tailored specifically for this.

And bad weather won't damage them when you decide to go for a run; they're IPX4 waterproof. And because we're moving with the times, SENCOR earphones not only have a built-in microphone but they also communicate with Google Assistant or Siri.

WHY CHOOSE SENCOR TRUE WIRELESS EARPHONES

- ANC technology eliminates ambient noise for undisturbed listening
- Perfect ergonomics and comfort
- Suitable for sports and travel
- Microphone and voice assistants
- Various designs and colours

TWS headset with ANC and ENC   

SEP MELLOW

The TWS earphones do without wires, as Bluetooth guarantees connection to the music source. And this also applies to the SEP MELLOW model, which uses Bluetooth 5.2 with a range of 15 metres.

Two technologies ensure perfectly clear and noise-free audio: active noise cancellation (ANC) and environment noise cancelation (ENC). The earphones are protected from the weather by IPX4 water resistance, so you don't have to worry about using them outdoors.

FEATURES

- **WTS earphones with microphone**
- **Waterproof with IPX4 protection**
- **ANC and ENC**
- Support for Google and Siri voice assistants
- Sensitivity: 98 dB
- 32 Ohm of impedance
- Transducer size: 10 mm
- Bluetooth Audio 5.2 with a range of 15 meters
- USB-C charging, 2-hour charging time
- Playback time with ANC on: 6 hours (50% volume)
- Playback time with ANC off: 7 hours (50% volume)
- Battery: 40 mAh/380 mAh

TWS earphones with ANC   

SEP GRIM

Small size, fast charging, and IPX4 waterproof protection. These are just a few of the advantages that the SEP GRIM TWS earphones have to offer. The ANC and ENC technologies ensure undisturbed listening, reliably eliminating ambient noises so you can focus purely on the music.

On a single charge, the earphones play for up to six hours at 50% volume and with ANC turned off. With ANC on, the battery life still lasts a very pleasant 5 hours. Spare rubber bands are also included.

FEATURES

- **ANC and ENC technology suppresses noise**
- **Keep with you at all times thanks to the smaller size and IPX4 water resistance**
- **Additional rubber bands included**
- Support for Google and Siri voice assistants
- Connects via Bluetooth 5.3 with a range of 10 m
- Impedance: 32 Ω , Sensitivity: 121 dB
- Playback time with ANC on: 5 hours (50% volume level)
- Playback time with ANC off: 6 hours (50% volume level)
- Battery: 30 mAh, 200 mAh case battery, fully charges via USB-C in only 1.5 hours
- Frequency range: 20HZ-20KHZ
- Transducer size: 10 mm

TWS earphones with ANC
SEP SHEEN

With hybrid ANC sound cancellation and IPX4 waterproofing, you can enjoy listening even in the middle of a busy city in rainy weather.

This is because the earphones won't let in any unwanted ambient noise or even raindrops. They can also communicate with Google Assistant or Siri. The earphones can be used for up to six hours, and it only takes 1.5 hours to fully charge them again.

FEATURES

- **TWS earphones with hybrid ANC technology**
- **Waterproof with IPX4 degree of protection**
- **Support for Google and Siri voice assistants**
- Data transfer via Bluetooth 5.3, 10-meter range
- Transducer size: 13 mm
- Frequency response: 20HZ-20KHZ
- Sensitivity: 107 dB, noise reduction: 25 dB
- Battery capacity: headphone 25 mAh, case 300 mAh
- Charging time: earphones 1.5 hours, case 2 hours
- Battery capacity: earphones 25 mAh, case 300 mAh
- Playback time with ANC on: 5 hours (50% volume level)
- Playback time with ANC off: 6 hours (50% volume level)

Wireless earpods with microphone
SEP 540

Whichever of the five colour options you choose, these ergonomically designed wireless earpods will give you a comfortable, high-quality listening experience.

Stable music transmission is ensured by Bluetooth version 5.0 and, of course, the microphone. The compact charging case with a battery capacity of 230 mAh can charge the earpods to 100% up to three separate times. On a single charge, you can enjoy listening for approximately 3 hours (depending on the selected volume).

FEATURES

- **Ergonomic shape for a comfortable fit**
- **Integrated microphone and touch controls**
- **Wireless charging in the case**
- Uses Bluetooth version 5.0 with a signal range of 10 m
- Impedance: 32 Ohm, sensitivity: 102 dB, frequency range: 20HZ-20KHZ
- Two transducers, each with a 13 mm diameter
- Earphone battery capacity: 25 mAh, with up to 3 hours of use per single charge
- Station battery capacity: 230 mAh
- Power bank function
- USB-C charging connector

Design TWS wireless earphones with microphone **SEP 560**

These TWS earpods with Bluetooth version 5.3 guarantee a stable and fast connection. With advanced Environmental Noise Cancellation (ENC) technology, you'll immerse yourself in clear sound without distracting external noise.

With a range of up to 15 metres, you can move freely without having to carry your music source with you at all times. The powerful battery provides up to 6 hours of power, so you can enjoy listening almost all day, given they fully charge in only 1 hour.

FEATURES

- **TWS wireless earphones with integrated microphone**
- **Bluetooth version 5.3 ensures stable transmission with a signal range of 10 m**
- **32 Ohm impedance, noise reduction, frequency range: 20HZ-20KHZ**
- Playback time: 6 hours, charging time: 2 hours
- 40 mAh headphone battery capacity, wireless charging
- 350 mAh station battery capacity
- Two transducers, each with a 13 mm diameter

Wireless sports TWS earphones with microphone **SEP 570BT**

The SEP 570BT earphones will become your indispensable running companion. The ergonomic earpieces adapt perfectly to the shape of your ears and ensure a firm and comfortable fit throughout your workout.

They can withstand harsh conditions such as sweat and raindrops thanks to their IPX5-certified waterproof design. With advanced Bluetooth version 5.3 technology, connectivity is stable and seamless. Just 1.5 hours of charging will provide an incredible 8 hours of continuous playback. So nothing will stop you on your way to sporting success.

FEATURES

- **High-quality ergonomic earphones adapt to the shape of your ears**
- **Comfortable touch controls even when running**
- **Bluetooth version 5.3 guarantees a reliable and stable connection, with a range of 10 m**
- Wireless charging
- Impedance: 32 Ohm, sensitivity: 102 dB, frequency range: 20HZ-20KHZ, transducers: 2, transducer diameter: 10 mm
- 500 mAh station battery capacity

THE PROVEN PATH TO GREAT SOUND

HEADPHONES

Our bluetooth headphones combine the convenience of wireless connectivity with the stability and versatility of traditional wired headphones. The bridge connecting the two earbuds doesn't just serve to secure the headphones securely on your head. It also houses the battery, the controls, and other features such as noise cancellation. Since the headphones are bulkier than their True Wireless cousins, they also have a higher battery life. In fact, the larger size means a larger battery can be used to power the headphones for longer periods without needing frequent charges.

Comfortable wearability and sound quality are also excellent.

The design allows the use of larger drivers that can reproduce richer bass and more detailed sound. The bridge also distributes the weight evenly over the entire head, reducing pressure on the ears and providing more comfort for extended use.

To ensure a truly clear listening experience and that ambient sounds don't interfere, our headphones use two noise-cancelling technologies: ANC (Active Noise Cancelling) and ENC (Electronic Noise Cancelling). Of course, they're also waterproof, meaning you don't have to take the headphones off when the first drops of rain start to fall. You can just keep listening in peace thanks to their IPX4 waterproofing.

As expected from modern products, the headphones have an integrated microphone and communicate with voice assistants. And because they also work as an outfit accessory, you can choose from several design variations in different colours.

WHY CHOOSE SENCOR BLUETOOTH HEADPHONES

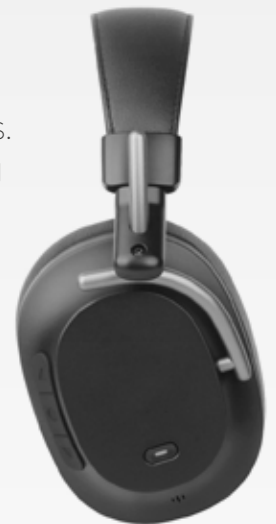

- Comfortable bridge and earcup design
- Excellent and clear sound thanks to large transducers
- Eliminate ambient noise with ANC and ENC technologies
- Long battery life and IPX4 water resistance
- Different designs in different colours

Wireless headphones with ANC   

SEP SLEEPER

Enjoy dozens of hours of music on a single charge with the SEP SLEEPER headphones. If you listen without ANC (Active Noise Cancellation), the battery will keep them running for an impressive 30 hours at 50% volume. Then you can fully charge them in only 1 hour, and you're good to go again..

The sound specs are more than enticing, with a 40 mm diameter driver, a frequency response of 20Hz–20kHz, an impedance of 32 Ω, and a sensitivity of 110dB, ensuring a great listening experience. And with transmission via Bluetooth v5.3, the headphones come equipped with a hands-free microphone.

FEATURES

- **Hybrid ANC (Active Noise Cancellation)**
- **Reliable data transfer via Bluetooth v5.3,**
- **Compatible with Google and Siri voice assistants**
- Hands-free microphone
- Waterproof with IPX4 protection
- Inputs: Bluetooth Audio v5.3, USB-C to 3.5 mm jack AUX cable
- Charging via USB-C, with a charging time of only 1 hour

Wireless headphones with ANC   

SEP ABSOLUTE

To deliver ultimately clear listening, these headphones use a clever combination of two technologies: Active Noise Cancelling (ANC) and Electronic Noise Cancelling (ENC), so you can enjoy your music to the fullest without any ambient noise. Reliable connectivity is ensured by Bluetooth version 5.3 with a range of up to 15 metres, and multi-point pairing is also available.

The headphones are equipped with a powerful battery that delivers an impressive 35 hours of playback time. If you turn off the ANC, you can extend your listening time to as much as 60 hours (at 50% volume). You can conveniently charge the battery via a USB cable, with full power in just two hours. Hands-free functionality and support for Google and Siri voice assistants add to the enjoyable experience.

FEATURES

- **Hybrid ANC and ENC technology for perfectly clear, noise-free listening**
- **Reliable protection thanks to IPX and housing**
- Connectivity for 2 devices at once
- Frequency range: 20 Hz - 20 KHz, 40 mm transducer size, 32 Ohm impedance, 99 dB sensitivity
- Inputs: Bluetooth Audio 5.3, Audio AUX (3.5mm stereo jack)
- ANC noise reduction: 22 dB
- Charging via USB-C, with a charging time of only 2 hours

Wireless headphones with ANC 

SEP PANNION

The combination of two ambient noise cancellation technologies (ANC and ENC) gives you a clear and undisturbed listening experience. The convincing sound parameters, such as the 40 mm driver, the frequency response between 20 Hz and 20 kHz, the 106 dB sensitivity, and 32 Ohm impedance contribute to a perfect experience.

The headphones connect to your source of music via the reliable Bluetooth version 5.3. You can use them with real freedom, as the IPX4 waterproof rating protects them from rain and moisture outdoors.

FEATURES

- **Reliable and stable data transmission via Bluetooth v5.3**
- **IPX4 water protection**
- **Noise cancellation with ANC and ENC technologies**
 - Speaker size: 40 mm
 - Frequency response: 20 Hz - 20 kHz
 - Sensitivity: 106 dB,
 - Impedance: 32 Ohm
- Inputs: Bluetooth Audio 5.3, Audio AUX input (3.5 mm stereo jack)
- Playback Time: 30 hours with ANC on (50% volume level)
- Playback Time: 40 hours with ANC off (50% volume level)
- Charging time of only 3 hours, 500 mAh battery capacity

Wireless headphones with ANC

SEP CORPORATE

Long and comfortable listening – that’s exactly what SEP CORPORATE headphones are designed for. Thanks to their ergonomic design, they fit perfectly on your head, and ANC and ENC technologies make sure you’re not disturbed by any ambient sounds. Of course, they also come with an integrated microphone so you can take calls with ease.

The 500 mAh battery provides up to 20 or 30 hours of listening time depending on whether ANC is on or not. The very fast charging is also a nice touch, with the battery fully ready in just one hour. A reliable and stable connection to the audio source is ensured by Bluetooth v5.3.

FEATURES

- **Wireless headphones with ANC and ENC**
- **Ergonomic shape for a comfortable fit**
- **IPX4 waterproof rating**
- Stable and reliable connection to the audio source via Bluetooth v5.3
- Integrated microphone
- Speaker size: 40 mm
- Frequency response: 20 Hz - 20 kHz
- Impedance: 32 Ohm, Sensitivity: 110 dB
- Inputs: Bluetooth Audio 5.3, Audio AUX (3.5 mm stereo jack)
- Playback time: 20 h with ANC on (50% volume level)
- Playback time: 30 h with ANC off (50% volume level)
- Battery capacity: 500 mAh, 1-hour charging time

Over-the-head headphones with touch controls

SEP 720BT BK

These new over-ear headphones are great to use. With the singular button and touchpad, you’re in full control of the sound. The narrow earpieces and overall modern design not only guarantee a good listening experience but also function as an elegant addition to your outfit.

Connecting via the latest bluetooth version is reliable and fast, so your music experience will be completely uninterrupted. The 500 mAh battery gives the headphones power for up to 40 hours of continuous listening, with fast charging via USB-C in just 3 hours.

FEATURES

- **One-button touch control and touchpad**
- **Premium design with a modern style**
- **Comfortable listening with padded earcups**
- Up to 40 hours of playback
- Reliable data transfer via Bluetooth V5.3
- 500 mAh battery, 3-hour charging time

Wireless headphones with microphone 

SEP 710BT BL

Get ready for punchy bass, clear mids, and true-to-life highs, all in superior sync with zero latency thanks to advanced Bluetooth 5.0 technology.

The SENCOR SEP 710BT headphones pair reliably and lightning-fast with any device, keeping you company in the office, on the sports field, or at home during movie nights. You can listen for a really long time, the ultra-comfortable earcups have nice padding, and their battery lasts up to 35 hours on a single charge.

LIMITED EDITION

GET OUT OF LINE

These limited-edition headphones will delight anyone who sees electronics as a design choice. Your outfit can be accentuated by headphones in a geometric pattern, for example.

The youthful blue with energetic orange is the ideal combination for those who love a more boyish style. On the other hand, the second variant, inspired by nature, brings a sense of subtlety and details that combine harmony and elegance.

SEP 710BT WH

SEP 710BT BK

FEATURES

- **Bluetooth V5.0 with perfect sync and zero latency, 10 m range**
- **Up to 30 hours of music playback**
- **Moisture-resistant, IP 20 rating**
- High-quality sound
- Comfortable cushioning and ergonomic head bridge
- Integrated microphone and touch controls
- 32-ohm impedance, 99 dB sensitivity, frequency range of 20 HZ - 20 KHZ
- One, 40 mm diameter transducer
- Playback time of up to 35 hours, charging time of only 3 hours
- Headphone battery capacity: 400 mAh
- LED charge status indicator
- MICRO USB charging connector
- Removable cable and protective case included

SEP 710BT GR

FOR THE FUN AND SAFETY

KIDS HEADPHONES

Children's headphones must adapt to young listeners in more ways than only size. Three aspects are essential for kids' models: safety, durability, and ease of use. And at SENCOR, we pay close attention to all of them.

Volume limitation is a key feature. Our children's headphones have a built-in volume limiter that keeps the sound to around 85 decibels, preventing possible hearing damage due to prolonged exposure to loud audio. This technology ensures children can enjoy their favourite music, videos, or games without risking their health. Another essential factor is comfort. That's why our children's headphones are lightweight with padded earpieces that fit well even with extended use. And we didn't forget about durability. Children in the heat of playing or listening can sometimes forget they're wearing headphones, so we designed them to withstand the odd accident. The wireless solution is undoubtedly a great advantage. With no cord hanging around, children not only experience more comfort but using the headphones is also safer overall. And the RGB lighting is yet another attractive detail for children.

WHY CHOOSE SENCOR KIDS HEADPHONES

- Safe listening with volume limiter
- Comfortable and ergonomic design
- RGB lighting for an even more enjoyable experience
- Durable construction and quality materials
- The wireless solution is more comfortable and safer

Kids wireless headphones
SEP FRIEZA

Children's sensitive ears require more careful listening. That's why the SEP FRIEZA headphones are equipped with a safety volume limiter that prevents the volume from exceeding 85 dB. This allows parents to feel at ease while their children listen to stories or music.

The LED backlight can also add to the atmosphere but can be switched off if required. The headphones connect to the music source via Bluetooth 5.3, and an SD card slot is also available.

FEATURES

- **The safety volume limit of 85 dB protects children's sensitive hearing**
- **LED backlight that can be turned off**
- **SD card playback option**
- Reliable Bluetooth 5.3 connectivity
- Ergonomic design adapted to children's needs
- Sensitivity: 102 dB
- 40 mm transducer size
- Impedance: 32 Ohm
- Audio AUX Input (3.5 mm stereo jack), SD card slot
- Charging via USB-C, battery capacity: 400 mAh
- Operating time of 14 hours with the light switched off, 12 hours with the light switched on

Wireless kids headphones
SEP 703BT BL

The SEP 703BT BL headphones are a great choice for kids. Because they're wireless, little listeners can move around comfortably without being restricted by the connecting cable. Thanks to the wide signal range, the headphones easily communicate with tablets, smartphones, and other devices.

The sound is top-notch thanks to the 30 mm speakers that provide a realistic and clear listening experience. The volume limit is also essential for children's ears. With a limit of 85 dB, you can be sure that it stays within a safe range and your children won't hurt themselves.

FEATURES

- **Wireless kids headphones**
- **The 85 dB volume limit protects children's sensitive hearing**
- **Integrated microphone**
- Bluetooth 5.0 with a wide range
- 30 mm diameter transducers

PRACTICAL ACCESSORIES FOR EVERY SPORT

With a wealth of accessories, you're ready for some serious adrenaline! With a waterproof case, helmet kit, and other accessories, you can capture your experiences in any sport. From scuba diving to rock climbing.

A romantic couple is seen from behind, sitting on a rugged, rocky mountain peak. The man, on the left, wears a blue and white plaid shirt. The woman, on the right, has long dark hair and is wearing a light blue jacket and jeans. They are both looking out over a vast, hazy valley at sunset. The sky is a mix of soft pinks, oranges, and blues. The overall mood is peaceful and intimate.

**NO MOUNTAIN
TOO HIGH, NO
WATER TOO DEEP**

ACTION CAMERAS

The joy and excitement of an adventure can be live again and again when you record it with a SENCOR action camera, which captures every detail in uncompromising 5K quality. Our cameras are packed with state-of-the-art technology to ensure perfectly sharp and balanced images without a single glitch, and easy Wi-Fi footage transfer so you can recall your amazing feats forever. You can immediately check if the recording went as planned on the colour display. And just in case something is missing, the long built-in battery life lets you try again.

In addition to the standard recording mode, there are also slow-motion, loop, and time-lapse modes. Of course, you can also take photos, where you can freely set the quality from 5 to 48 megapixels, adjust the exposure, or choose one of the various scenic modes.

Take the camera anywhere right away, as it comes with a waterproof case, helmet mount kit, selfie stick, tripod, belt, handlebars mount, and lots of other useful gear. So don't hesitate to embark on another adventure you won't forget with the help of our action cameras.

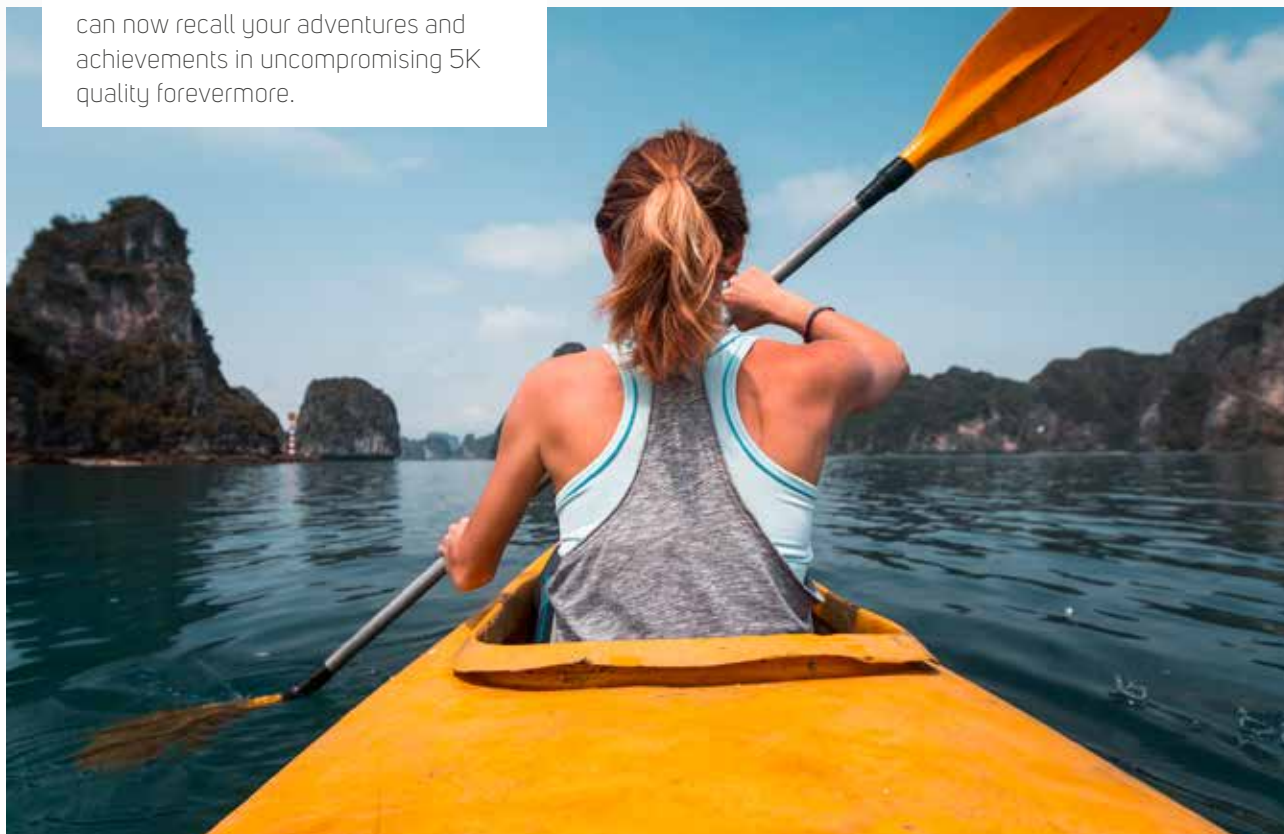

WHY CHOOSE SENCOR ACTION CAMERA

- High-quality recording up to 5K
- Waterproof case for underwater recording
- Numerous accessories for a range of sports
- Two colour displays
- Perfectly balanced and sharp images

EXTRAORDINARY EXPERIENCES

Record your unique experiences on land, in the air, and underwater. No event is too wild for our cameras, they can handle even the most extreme conditions. You can now recall your adventures and achievements in uncompromising 5K quality forevermore.

LIVE FOREVER

Action camera

3CAM 4K60WRD

This high-end camera can shoot videos in impressive resolutions of up to 5K (5120x2880) at 30 frames per second. Recording is handled by the powerful iCatch V39 chipset, while the SONY 576 CMOS sensor and 6-layer glass lens ensure sharp and balanced images.

The waterproof case can be used for all activities in the water or inclement weather, shooting up to 30 meters underwater. Set the ideal shooting mode or view videos and photos on the 2" rear and 1.3" front display. You can also control the camera with the included remote control. To make saving videos and photos easy, the device also has a WiFi module. And don't forget the helmet and belt clip and plenty of other included accessories that allow you to unlock the camera's full potential in any situation.

FEATURES

- **Native 4K recording, 5K recording (5120x2880)**
- **Remote control and two colour displays (2" rear and 1.3" front)**
- **EIS image stabilisation**
- SONY 576 CMOS sensor, iCatch V39 chipset, 6-layer glass lens
- Integrated Wi-Fi
- 170° viewing angle
- Wide-angle lens
- Image Resolution (MOV): 5K, 4K, 2.7K, 1080p, 720p
- Recording modes: H.264 codecs, slow motion, loop, time lapse
- Camera from 5 to 48 megapixels, scene modes, and exposure settings
- Waterproof: 30 m
- Supports micro SDHC/SDXC cards up to 128 GB (not included), 4K/2K recording = U3 speed class
- Battery: 3.7V/750 mAh Li-Ion
- Built-in speaker
- USB-C, Micro HDMI
- Compact size: 60 × 44 × 32 mm
- Weight: 67 g

ACCESSORIES

- **remote control, battery, waterproof case, helmet mounting kit, mounting kit without waterproof case, mounting kit for selfie stick or tripod, mounting kit for handlebar or bar, 3M adhesive tapes, USB data cable**

Action camera

3CAM 4K10WRD

The powerful Allwinner V316 chipset allows this action camera to shoot videos at up to 4K resolution (3840x2160) at 30 frames per second. It achieves sharp and balanced images with its CMOS SONY 316 sensor and 6-layer glass lens. Check your footage on the rear 2" and front 1.3" displays while setting the ideal mode.

With the waterproof case, you can dive to depths of up to 30 metres, while additional accessories allow you to attach the camera to your helmet, selfie stick, tripod, handlebars, or pole. This allows you to use the camera wherever you want to capture your action. Save videos and photos from the camera to your mobile phone or tablet when connected to WiFi.

FEATURES

- **Record in up to 4K quality**
- **Remote control and two colour displays (2" rear and 1.3" front)**
