SENCOR

EVERY TIME, EVERY DAY

FOR YOUR COMPLETE COOKING AND FOOD PREPARATION

Cooking and eating are special in many ways, and cooking is one of the oldest chores done at home. Workday breakfasts and dinners are natural occasions for the entire family to gather together, and home-cooked, weekend lunches are great opportunities for family and friends to see each other.

Cooking was also a force behind early global trade (in spices). In the past century, we have witnessed a technological revolution with the arrival of electric home appliances. They save our time and allow us to make meals at home easily. Recently, new cooking and eating trends have gained popularity – vegetarian and vegan cooking, slow food and molecular cuisine as well as the return to traditional, old recipes and fusion cooking.

At SENCOR, we want to reflect all of this! We design and deliver modern, stylish kitchen appliances that are practical, reliable, safe and useful, while meeting the most demanding of expectations.

SENCOR FROM BREAKFAST TO DINNER

A perfect breakfast?

Start your day with fresh coffee or tea made by a SENCOR coffee maker, espresso machine or water kettle. Modern SENCOR induction hotplates and toasters are perfect choices for making warm breakfasts, such as pancakes, oatmeal, porridge, boiled or scrambled eggs and toast. For a late morning snack, such as a fruit or vegetable smoothie, use a powerful SENCOR stick blender.

A quick and easy weekday lunch

SENCOR rice cookers are equipped with a steaming basket for entire steamed meals of fish and vegetables or meat dumplings and steamed rice cooked together. A quick stir fry is best prepared on an induction hotplate, while grilled meat and vegetables can be done right on one of the modern SENCOR contact or tabletop grills. However, if you are really in a hurry, a SENCOR microwave oven heats up any meal in seconds. Check out the SENCOR microwave cooking tips.

Workday dinner for everyone

With a SENCOR electric oven, it's easy to roast a pumpkin to make a perfect puree or creamy pumpkin soup, or even to bake pasta, moussaka and pies. Use the built-in rotisserie for a perfectly roasted chicken. Naturally, induction hotplates are perfect for making stir fry dishes or cooking a hearty sauce, chilli or cassoulet.

WHY CHOOSE SENCOR

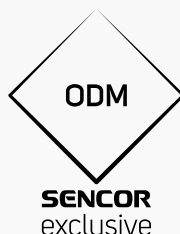

These are just a few examples and ideas of how SENCOR kitchen appliances can make your life easier, tastier and more fun. Check out the remaining 104 pages to discover many great products, as well as SENCOR recommendations, tips and recipes.

COMPREHENSIVE SOLUTIONS

For a growing number of people, cooking has become a hobby, a form of entertainment, and an opportunity to enjoy time with loved ones. SENCOR loves to be part of this phenomenon and is developing a complete range of appliances.

INNOVATION

SENCOR loves innovation! New materials and continuous improvements are crucial to us in every step of our production and development. Our experts engineer products in every detail to meet the highest European standards.

MARKET LEADER

As a market leader in household appliances, SENCOR follows the latest technological trends. SENCOR applies the newest innovations, ensures high quality, utilizes only safe materials and delivers inspirational designs at an affordable price to millions of households around the world.

TECHNOLOGIES & MATERIALS

Appliances are developed and manufactured with advanced technologies and safe ecological materials.

TITANIUM COATING

For processing fresh food, SENCOR often uses a titanium coating to preserve vitamins, nutrients, and enzymes while preventing possible oxidation and germ multiplication.

EXTRA-LONG WARRANTY

SENCOR appliances meet high European quality standards for workmanship and durability and are carefully tested. For this reason, SENCOR can guarantee extended warranty periods.

BOROSILICATE GLASS

Borosilicate glass is commonly used under demanding laboratory conditions and in the automotive industry. We use it in our appliances to ensure the greatest durability and long service life.

STAINLESS STEEL

We use only the highest quality stainless steel in most of our appliances

BPA-FREE

The plastic parts in all SENCOR products are safe for your health and the environment, and they are always BPA-free.

TRITAN

Tritan, originally developed for rockets, is used for jugs, bottles and other jars as it is safe and very durable.

COOL TOUCH

A modern feature that protects you from hot surfaces

STRIX

Only original British STRIX can deliver such high quality and a longer service life.

A dark, textured background with several coffee beans scattered on the right side. The beans are dark brown and have a glossy finish. The overall mood is sophisticated and minimalist.

COFFEE PREPARATION

Coffee is such a global phenomenon that it's one of the few things almost everyone around the world can agree on. Across the globe, people sip coffee throughout the day either for its health benefits, or the social custom it has become. The variety of recipes and prescriptions for roasting, brewing, and serving coffee reflects the diversity of consumer tastes and cultural preferences. All techniques begin with properly roasted and freshly ground coffee, freshly boiled water and perfectly clean utensils. There are many ways to prepare coffee, and SENCOR knows how to guide you through the process - with a selection of machines and appliances that will help.

HAVE YOUR ESPRESSO ANY TIME

AUTOMATIC ESPRESSO MACHINES

There's no need to go to a café to enjoy a good cup of coffee since today you can prepare it yourself at home. Modern SENCOR espresso machines are fully automatic – an LED panel with touch buttons ensures easy, convenient operation, while a pump pressure of 19 bars guarantees an excellent coffee.

With a single touch, you can conjure up a frothy latté or creamy cappuccino with micro-foamed milk. If you wish, the machine will also remember your cup size for next time. Modern SENCOR espresso machines keep your favourite variety of coffee beans in a tightly-sealed container, and the stainless steel grinder uses 5 levels of grinding to suit your wishes. The patented pre-steaming system gives coffee a fuller taste, while the modern Termoblock heating system ensures the optimal beverage temperature. The durable Tritan container for your dairy or soy milk can be easily attached to the appliance, and the 1.1 l removable water tank is easy to fill.

Moreover, smart SENCOR automatic espresso machines are automatically cleaned and feature a descaling programme. Despite their great performance, these appliances are relatively compact and fit into smaller kitchens as well.

WHY CHOOSE A SENCOR AUTOMATIC ESPRESSO MACHINE

- 19 bar pump pressure for optimal results
- First coffee in less than a minute
- Practical LED panel with touch buttons for easy use
- Practical functions for hot water, descaling and automatic self-cleaning
- Removable parts are dishwasher safe
- Elegant, compact design

Fully Automatic Espresso/Cappuccino Machine

SES 9210WH

● **SES 9200CH** ○ **SES 9210WH**

Treat yourself to a cup of exquisite coffee anytime you feel like it. The SES 9210WH automatic espresso machine features a colour LED panel and touch buttons for easy operation, delivering delicious lattes and creamy cappuccinos with a milk micro-foam with only a single touch.

Adjust the size of your cup, the strength of your coffee (7 g, 8 g, 10 g) and the grinding level to get the perfect cup for you. Although slim and compact in size (width just 180 mm), this automatic espresso machine uses a powerful pump pressure of 19 bar, with a hopper capacity of 150 g and a 1.1-litre removable water tank for your perfect coffee. The appliance is loaded with advanced technologies: a patented steaming unit, thermoblock heating system which ensures optimal water temperature, and specialised, one-touch espresso and lungo programmes.

FEATURES

- **Powerful pump pressure of 19 bar**
- **Colour panel with touch buttons for easy operation**
- **Adjustable coffee strength (7 g, 8 g, 10 g) and 5 grinding levels**
- Slim and compact size: width just 180 mm
- Delicious latté and creamy cappuccino with a milk micro-foam with only a single touch
- First drop of coffee in 42 seconds
- Coffee hopper capacity of 150 g, water tank volume of 1.1-litre
- Thermoblock heating and pre-steaming systems
- ECO mode

STAINLESS-STEEL
BURR GRINDER

Automatic Espresso Maker

SES 7210WH

○ SES 7210WH ● SES 7200BK

A lovely cup of morning coffee ready in just 42 seconds? This automatic espresso maker says yes! Equipped with a premium, colourful LED panel with touch keys, operation is as easy as it gets.

Despite its compact size - only 180 mm wide - it uses 19 bars of pressure to satisfy you with the perfect cup of coffee. The stainless-steel grinder has five different settings to satisfy all taste preferences.

FEATURES

- Premium, colourful LED panel with touch keys for easy operation
- Adjustable strength of coffee (7 g, 8 g, 10 g) with 5 grinding settings
- Patented brewing unit – advanced technology in a compact size
- 19 bar pump pressure for the perfect coffee
- The first drop of your favourite coffee in only 42 s
- Dishwasher-safe brewing unit
- 150g capacity bean container
- 1.1 l removable water tank

Automatic Espresso Maker

SES 7018BK

This SES 7018BK espresso maker features a premium, colourful LED panel with touch keys, so making a cup of coffee is fast & easy.

Only 42 seconds are needed to make your perfect liquid energy brew, and the grinder can be set to five different levels to suit any taste. Thanks to the patented brewing unit, this automatic espresso machine is compact enough to fit into even the smallest of kitchens. The strength of the pump is not compromised at all as it operates at 19 bars of pressure.

FEATURES

- **Premium, colourful LED panel with touch keys for easy operation**
- **5 settings of the stainless-steel grinder to suit any taste**
- **Patented brewing unit – advanced technology in a compact size**
- 19 bar pump pressure for the perfect coffee
- First drop of your favourite coffee in only 42 s
- Dishwasher-safe brewing unit
- 150 g capacity bean container
- 1.1 l removable water tank
- Slim & compact size, only 180mm wide

Automatic Espresso

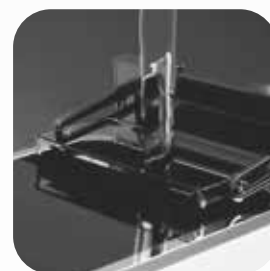

SES 7015CH

A lovely cup of coffee will give the perfect dose of energy to start a great day. And with SES 7015CH, it takes only 42 seconds for the first drop of your coffee to fall into the cup! The stainless-steel grinder uses five different settings to suit your taste, and the 19 bar pressure pump works hard to deliver a great coffee experience.

This automatic espresso machine also features an easy-to-use LED panel and one-touch espresso and lungo programme. The 1.1-litre removable water tank ensures fresh water, while the thermoblock heating system takes care of its optimal temperature.

**FEATURES**

- **Slim and compact size: width just 180 mm**
- **First drop of coffee in 42 seconds**
- **Coffee hopper capacity of 150 g, water tank volume of 1.1 l**
- Thermoblock heating system
- One-touch espresso and lungo programme
- Hot water function for americano or tea

MAKE COFFEE JUST THE WAY YOU LIKE IT

PUMP ESPRESSO MACHINES

Become a real barista in the comfort of your own home. With SENCOR pump espresso machines, you can prepare your coffee exactly the way you like. Not only your skilful hands, but also the 20 bar pump pressure, extremely fast preheating and a boiler with a Thermoblock system join forces to create the perfect cup.

A single touch is enough to run the Espresso, Double Espresso, Cappuccino, Latté and Frothed Milk programmes. As a real professional, you will appreciate the cup warmer plate or the electronic controller with a sensor for a more accurate beverage temperature. One or two mugs can fit under the stainless-steel filter, as well as small cups for one sip! There is even enough room for your favourite extra-large mugs.

The removable, 1.4-litre water tank features a water level indicator and its transparent milk container has a detachable frothing device for easy cleaning. When it comes to the cleaning, the SENCOR pump espresso machine has an automatic self-cleaning function and a descaling programme so you don't have to worry about anything. Just comfortably enjoy your favourite coffee.

WHY CHOOSE A SENCOR PUMP ESPRESSO MACHINE

- Powerful appliance with 20 bar pump pressure
- Innovative Thermoblock system
- High-quality, durable materials for perfect results
- Very easy and safe to use
- Practical functions and accessories (pre-heating, even for large cups, descaling, automatic self-cleaning)
- Elegant, stylish design

Espresso Machine **SES 6050SS**

With a white LCD display and advanced settings, you are in full control of your favourite coffee. Features such as the boiler heating system with Thermoblock, semi-professional stainless steel portafilter, and 15-bar pressure pump are included to deliver café quality right from your home.

The wide range of accessories makes your life easier. The measuring scoop ensures that a precise amount of coffee is used for your favourite beverage, while the tamper helps to achieve its desired quality. The durable filter holder can hold two different types of filters, depending on the number of cups you wish to prepare.

FEATURES

- **White LCD display with advanced settings**
- **Boiler heating system with Thermoblock**
- **Semi-professional, 58 mm stainless steel portafilter**
- Pre-brew function
- Swivel steam wand
- 15-bar pressure pump
- Stainless steel filter for 1 and 2 cups
- Steam/hot water selection
- Cup-warmer plate
- Stainless steel milk jug
- Removable drip tray for easy cleaning
- Extra-large cup height, ideal for coffee mugs
- Water volume indicator
- ON/OFF switch with indicator light

ACCESSORIES

- **Filter holder, Measuring scoop, 2 filters (for 1 and 2 cups), Milk jug, Cleaning set, Tamper**

Espresso Machine

SES 6010SS

If you're a fan of large cups of coffee, then the extra-large mug space provided by this machine will make your life so much easier!

The pre-brew function, 15-bar pressure pump, and semi-professional portafilter will make a tasty and aromatic coffee that is sure to delight you throughout the day.

FEATURES

- **Boiler heating system with Thermoblock**
- **Semi-professional, 58 mm stainless steel portafilter**
- **Pre-brew function**
- Swivel steam wand
- 15-bar pressure pump
- Stainless steel filter for 1 and 2 cups
- Steam/hot water selection
- Cup-warmer plate
- Stainless steel milk jug
- Removable drip tray for easy cleaning
- Extra-large cup height, ideal for coffee mugs
- Water volume indicator
- ON/OFF switch with indicator light

Semi-Automatic Espresso Machine

SES 4090SS

Start your day with an aromatic cup of freshly prepared coffee. SES 4090SS, a semi-automatic espresso machine, uses a 15-bar pump and Thermoblock to deliver perfect results every time.

Cappuccino lovers are sure to appreciate the detachable milk frothing device and its transparent milk tank.

FEATURES

- **Large LCD display**
- **15-bar CEME ULKA pump and temperature setting**
- **Boiler heating system with Thermoblock**
- Pre-Brew function
- Transparent milk tank with detachable milk frothing device
- Stainless steel filter for 1 and 2 cups
- Cup-warmer plate
- Removable drip tray for easy cleaning
- Extra-large cup height, ideal for coffee mugs
- Water volume indicator
- ON/OFF switch with indicator light

ACCESSORIES

FILTER HOLDER, MEASURING SCOOP, 2 FILTERS (FOR 1 AND 2 CUPS)

Pump Espresso Machine **SES 4900SS**

Take the preparation of an aromatic cup of coffee into your own hands! With the pump espresso machine SES 4900SS, you get the perfect cup of coffee anytime. The boiler heating system delivers precise water temperature, while the pre-brew function treats your ground coffee as it should be. The swivel steam wand froths milk for your cappuccino or serves hot water for tea or an americano.

Its stainless-steel filter takes enough coffee for 1 or 2 cups, which can get be preheated on the upper cup-warmer plate. This espresso machine will also be a hit with people who use large coffee mugs, as it accommodates extra-large cups.

FEATURES

- **Powerful pump pressure of 20 bar**
- **Patented adjustable steam nozzle (hot milk, milk foam)**
- **Premium slim-body design**
- Thermoblock heating system
- Stainless-steel filter for 1 or 2 cups
- Metallic cup-warmer plate

MEASURING SCOOP
FILTER HOLDER
TWO FILTERS (FOR 1 OR 2 CUPS)

ADJUSTABLE STEAM NOZZLE
(HOT MILK, MILK FOAM)

Pump Espresso Machine **SES 4700BK**

Thanks to its 20 bar pump pressure, this espresso machine will satisfy you with a consistently outstanding coffee every time.

Its pre-steaming system gives your coffee a fuller flavour, while the patented adjustable steam nozzle conjures up a wonderfully milky froth. Its premium SLIM body is combined with a classy black and chrome design to compliment any kitchen. Cleaning and maintenance are easy and convenient with an indicator informing you when descaling is needed, and its automatic programme will guide you through the whole process. All-important accessories are included, of course.

FEATURES

- **Pump pressure of 20 bars for outstanding coffee**
- **Patented adjustable steam nozzle offers hot milk/milk foam**
- **Premium SLIM body design in a black and chrome combination**
- Boiler with Thermoblock heating system
- Pre-steaming system for fuller coffee flavour
- Very fast preheating
- Stainless portafilter for 1 or 2 cups of coffee
- Removable, 1.5-litre water tank guarantees fresh water every time for your delicious coffee
- Coffee cup size memory function
- Espresso, double espresso, steam/hot water
- Cup pre-warming plate
- Removable drip tray for easy cleaning
- Extra space for large cups
- Descaling programme and indicator

ADJUSTABLE STEAM NOZZLE
(HOT MILK, MILK FOAM)

Pump Espresso Machine

SES 4050SS/SES 4040BK

● SES 4050SS ● SES 4040BK

Thanks to the thermoblock-based advanced heating system, these pump espresso and cappuccino machines pre-heat and are ready for action really fast.

They also include a pre-brewing function, which intensifies the espresso flavour, and are very easy to operate with one-touch selection of your favourite espresso-based coffee with or without milk. You only have to choose your preferred style and design.

FEATURES

- **20 bar pump for perfect coffee**
- **Boiler heating system with Thermoblock**
- **Extremely fast pre-heating**
- Pre-brewing System for intensive flavour
- One-Touch Espresso, Double Espresso, Cappuccino, Latté and Frothed Milk programmes

SES 4050SS

SES 4040BK

Pump Espresso Machine SES 4010SS

Thanks to its advanced boiler heating system, this coffee machine pre-heats and also includes a pre-brewing function, which intensifies the espresso flavour. Its pump is 15 bar and it comes with the following accessories: a useful filter holder, measuring scoop and 2 filters - for 1 and 2 cups.

FEATURES

- **Pre-brew function for perfect taste**
- **Swivel steam wand for milk**
- **Stainless-steel filter for 1 and 2 cups**
- Steam or hot water selection
- Metallic cup-warmer plate
- Removable, 1.5 l water tank
- ON/OFF switch with indicator light and water volume indicator
- Anti-slip feet for good stability

Pump Espresso Machine SES 1710BK

This coffee machine has a pre-brewing function that intensifies the espresso flavour. Its pump is 15 bar and it comes with the following accessories: a useful filter holder, measuring scoop and 2 filters - for 1 and 2 cups.

FEATURES

- **Pre-brew function for perfect taste**
- **Swivel steam wand for milk**

- Steam or hot water selection
- Metallic cup-warmer plate
- Removable, 1.5 l water tank and drip tray
- ON/OFF switch with indicator light and water volume indicator
- Anti-slip feet for good stability

PRACTICAL WITH **ZERO** **COMPROMISES**

FILTER **COFFEE MAKERS**

Just imagine a morning this beautiful: you awake to the aroma of fresh coffee traveling directly into your bed... Reach out and pour yourself a proper cup for breakfast to start your day. Only filter or drip coffee can do this, and SENCOR coffeemakers can handle this perfectly.

Brewing up to 15 cups at once is a perfect fit for a 1.8 litre pot. However, you do not have to drink it straight away, the non-stick hot-plate keeps the coffee at an optimal serving temperature. Naturally, SENCOR coffee makers can prepare exactly as many cups as you wish with the help of a practical water level indicator. The LCD display assists in operating the coffee maker intuitively, while the drip-stop lock valve immediately stops coffee from dripping when the pot is removed.

Not really a fan of coffee? No problem, SENCOR machines can also brew tea using a removable, washable, permanent filter, or a size 4 paper filter. So all you have to do is figure out what to have with your coffee or tea for breakfast.

WHY CHOOSE A SENCOR FILTER COFFEE MAKER

- Appliance makes up to 15 cups of coffee or tea
- Hot plate for temperature preservation
- Convenient LCD display with optional features
- High-quality and safe materials
- Easy to use and clean
- Modern, stylish design

Filter Coffee Maker

SCE 7000BK

There may be more than a dozen ways to make coffee. Featuring a built-in coffee grinder, this coffee maker always has enough freshly prepared coffee for the whole family, or colleagues in the office. Its grinder (200 g) and kettle (1.5 l) are ideal for brewing 12 cups of coffee at once.

The elegant design is highlighted by practical features too: the LCD display shows the functions, both permanent and paper filters can be used, the glass kettle has a closable lid and heat-insulated handle, the non-stick hotplate maintains optimal serving temperature, and the drip-stop lock valve prevents liquid from dripping when the kettle is removed.

FEATURES

- **Built-in coffee grinder (200 g)**
- **LCD display with functions**
- **Ideal for brewing 12 cups of coffee at once**
- Glass kettle (1.5 l) with heat insulated handle
- Permanent washable or disposable filters option
- Non-stick hotplate maintaining optimal temperature
- Drip-stop lock valve

Filter Coffee Maker

SCE 5070BK

There may be more than a dozen ways to make coffee, but the traditional ground beans and filter approach is still the easiest and fastest way to make strong coffee for the entire family or office and keep it warm for another hour.

This perfect coffee maker that has an LCD display with functions can brew up to 15 cups of delicious coffee or tea if you like and is ideal for households.

FEATURES

- **1000 W power input, 1.8 litre/15 cup water tank and glass pot**
- **Removable, washable, permanent filter, or use disposable, size 4 filters**
- **Non-stick hotplate maintains the optimum temperature**
- Drip-stop lock valve prevents spills, water level indicator
- Tea brewing option, overheating protection
- LCD with clock, timer and other functions

Filter Coffee Maker

SCE 5000BK

This practical, advanced coffee maker with a glass pot has a large insulated handle to protect against heat, making it very safe and easy to use. With its 2.1-litre tank, you can make up to 14 cups of drip coffee at once. There is also a tea brewing option so even tea lovers can use it.

FEATURES

- **Power input of 900 W**
- **Glass pot (2.1 l) with a practical closable lid**
- **Aroma intensity control**
- Option to use disposable paper filters (size 4)
- Non-stick hotplate for maintaining the optimal serving temperature
- Water level marks on the tank and pot indicate the number of cups
- Main switch with a power indicator light
- Anti-slip feet and overheating protection

Filter Coffee Maker

SCE 3700BK

This nice compact coffee maker has a handy LCD display with functions, makes up to 6 cups of coffee per pot, and fits perfectly into a family kitchen.

FEATURES

- **700 W of power input, 0.75-litre/6 cup water tank and glass pot**
- **Removable, washable, permanent filter, or use disposable, size 4 filters**
- **Non-stick hotplate to maintain optimum temperature**
- Drip-stop lock valve prevents spills, water level indicator
- Tea brewing option, overheating protection

Filter Coffee Maker

SCE 3050SS

This elegant coffee maker comes with a glass pot with a practical closable lid and an insulated handle. The drip-stop lock valve immediately stops coffee from dripping when the pot is removed. The volume of the tank is 1.25 litres, allowing you to make 10-12 cups of dip coffee at once. There is also a tea-brewing option so even tea lovers can use it.

FEATURES

- **Power input of 1000 W**
- **Glass pot (1.25 l) with a practical closable lid**
- **Removable, permanent, washable filter**
- Non-stick hotplate for maintaining the optimal serving temperature
- Water level marks on the tank and pot indicate the number of cups
- Main switch with power indicator light
- Anti-slip feet and overheating protection

Filter Coffee Maker

SCE 2100BK

● SCE 2100BK ● SCE 2101RD

Don't give up on having a coffee maker in a small kitchen. The filter coffee makers SCE 2100BK and SCE 2101RD have extra compact dimensions to fit tight places.

Feel free to prepare your favourite beverage as soon as you open the box: two double-wall glass cups are included, providing great heat insulation and keeping your coffee or tea at the right temperature for a long time.

FEATURES

- **Extra-compact dimensions for small spaces**
- **2 double-wall glass mugs included**
- **Ideal for brewing 2 cups of coffee at once**
- 0.3-litre water tank with level mark
- Easy to clean with removable permanent washable filter
- Tea brewing option
- Main switch with power indicator light
- Safety features: anti-slip feet and overheating protection
- Power input of 500 W

FRESH TASTE AND EXPERIENCE

COFFEE GRINDERS

The coffee aroma is known to quickly vanish once the beans have been ground, so nothing beats freshly ground beans. Having a coffee grinder is not a luxury but a necessity for all coffee lovers.

The best SENCOR electric coffee grinders feature steel grinding stones, providing fast and accurate grinding. Up to 17 different grind settings from fine to coarse ensure that coffee is always just right. Moreover, you can choose the number of cups you want coffee ground for and the grinder will then shut itself off once the job is done. Thanks to an innovative design with a planetary gearbox drive, SENCOR coffee grinders produce low levels of noise when in operation. The transparent hopper holds up to 350 g of coffee beans and what's more, some coffee grinders can also handle nuts, herbs or poppy seeds. An illuminated push-button ensures convenient operation, and the anti-slip feet provide stability when grinding.

WHY CHOOSE A SENCOR COFFEE GRINDER

- High-performance and quiet appliances
- Selection of different size models
- Up to 17 different grinding fineness settings
- High-quality steel grinding stones
- Ergonomic design with planetary gearbox drive
- Easy to use and clean
- Practical safety features

Electric Burr Coffee Grinder

SCG 6050SS

Burr grinders are the only proper way to grind coffee – the beans are crushed between two abrasive elements into a uniform grind that can usually be adjusted.

Another advantage is that the beans are not heated as much as in blade grinders, thus better preserving the aroma and protecting valuable oils. This model has a special cone-shaped steel burr head that ensures fast, precise grinding and zero overheating of the ground coffee. With 15 grind settings, you can grind your coffee perfectly for espressos, filter or other brewing methods. Even tea lovers can use it.

FEATURES

- **Power input of 150 W, 15 grind settings**
- **Cone-shaped steel burr head for fast and precise grinding with no overheating**
- **Selector to automatically grind coffee for 2 to 10 cups**
- Hopper for up to 350 g of beans and a container for up to 150 g of ground coffee

Coffee Grinder

SCG 5050BK

This stylish black and silver SENCOR model is equipped with a flat steel burr head, offers 17 levels of grind settings and can hold up to 180 g of coffee beans. There is also a rotating dial used to automatically set it to grind coffee for 2 to 12 cups.

**FEATURES**

- Power input of 110 W, 17 grind settings
- Regulator to automatically grind coffee for 2 to 12 cups
- Hopper for up to 180 g of beans and container for up to 100 g of ground coffee
- Flat steel burr head for fast and precise grinding

Coffee Grinder

SCG 3550SS

● SCG 3550BK ● SCG 3550SS

There is no fresher coffee aroma than the one delivered by an electric coffee grinder. Its hopper can hold up to 60 g of coffee beans, which is enough for 12 cups of coffee to enjoy with your friends and family. Set the ground coffee fineness and number of cups to suit your preferences and the appliance will give you evenly ground coffee thanks to its special titanium blade. The appliance can be also used for grinding nuts, herbs, and spices, making it useful in your kitchen too.

FEATURES

- Suitable for coffee, nuts, herbs and spices
- Ground coffee fineness and number of cups settings
- Hopper for up to 60 g of coffee beans (12 cups of coffee)
- Even coffee grinding consistency thanks to a special titanium blade
- Anti-slip feet for easy and stable grinding

Coffee Grinder **SCG 3050SS**

With this coffee grinder equipped with a hopper for up to 50 grams of coffee beans, you can prepare 10 cups of coffee at once. It can be used not only for coffee beans but for grinding seeds, spices, walnuts and herbs as well.

FEATURES

- **Power input of 150 W**
- **Hopper for up to 50 grams of coffee beans (10 cups)**
- **Anti-slip feet for easy and stable grinding**
- Power cord storage in the base

Coffee Grinder **SCG 2052WH**

● SCG 2050RD ● SCG 2051BK ○ SCG 2052WH

This compact coffee grinder is equipped with a hopper for up to 60 grams of coffee beans, which is enough to make 12 cups of coffee at once. The grinding consistency is balanced thanks to a special stainless-steel chopping blade. You can also grind poppy seeds, spices, walnuts or herbs.

FEATURES

- **Power input of 150 W**
- **Hopper for up to 60 grams of coffee beans (12 cups)**
- **Large safety button ensuring easy operation**
- Safety mechanism that prevents the coffee grinder from being started when open
- Anti-slip feet for easy and stable grinding
- Power cord storage in the case

Coffee Grinder **SCG 1050WH**

● SCG 1050BK ○ SCG 1050WH

This coffee grinder is equipped with a hopper for up to 50 grams of coffee beans, which is enough for 10 cups of coffee. The fineness of the ground coffee can be adjusted based on the grinding time. It can be used not only for coffee beans but for grinding seeds, spices, walnuts and herbs as well.

FEATURES

- **Power input of 150 W**
- **Large safety button ensuring easy operation**
- **Safety catch that prevents the coffee grinder from being started when open**
- Anti-slip feet for easy and stable grinding
- Power cord storage in the base

PERFECTLY VELVETY FROTHED MILK

MILK FROTHERS

Do you like fluffy cappuccinos, smooth lattes, or do you prefer a strong macchiato? Then you cannot do without a SENCOR milk frother and warmer. The three levels of automatic operation with a combined light indication are able to froth both cold and warm milk, or just warm it up without frothing. Two types of easy- to-replace attachments are used to do so, using a contactless magnetic attachment system inside the container.

The SENCOR milk frother and milk heater is simply ideal for making most Italian-style coffees. Moreover, the built-in thermostat guarantees that the resulting temperature will always be an optimal 68° C, just like a smooth milk froth should be. It also prevents milk from overheating. The non-stick coating also makes cleaning much easier.

WHY CHOOSE A SENCOR MILK FROTHER

- Different levels of automatic operation
- High-quality construction and non-stick materials
- Practical attachments with a modern contactless magnetic system
- Easy to use with overheating safety features
- Thermostat for accurate temperature
- Stylish design

Milk Frother

SMF 4000BK

This milk frother is suitable for preparing lattes, cappuccinos, frappes, and other beverages that include frothed or hot milk.

There are three fully automatic operating modes, so you can choose the exact speed that suits your taste. With a thermostat-controlled final temperature of 68°C, it's an easy-to-use and safe appliance.

FEATURES

- **Power input of 650 W**
- **Anti-slip handle**
- **Induction heating with patented technology for more efficient preparation**
 - Maximum milk level marks included inside (150/300 ml)
 - Heat insulated outer case
 - Automatic transition to stand-by mode
 - Overheating protection

Milk Frother

SMF 2020WH

If you like to have fun while preparing coffee, this is the milk frother for you. With three fully automatic operating modes, it's so easy to find the right speed to prepare lattes, cappuccinos, frappes, and other beverages that require frothed or hot milk.

And the thermostat-controlled final temperature of 68°C makes it a safe appliance.

FEATURES

- **Power input of 450 W**
- **Anti-slip handle**
- **Heating base with a covered heating spiral**
- Maximum milk level marks included inside (100/200 ml).
- Heat insulated outer case
- Automatic transition to stand-by mode
- Overheating protection

RECIPE

GINGERBREAD COFFEE

Once you try this delicious coffee, it will become a regular delight. It's easy to make, takes 20 minutes to prepare and 10 to cook, and everybody will love it - SENCOR guarantees it!

Ingredients:

½ cup of molasses, ¼ teaspoon of baking soda, ¼ cup of brown sugar, 1 teaspoon of ground ginger, ¾ teaspoon of ground cinnamon, 6 cups of hot brewed coffee from a SENCOR espresso machine, 1 ½ cups of sweetened whipped cream

Directions:

1. In a small bowl, mix together the molasses, brown sugar, baking soda, ginger and cinnamon until well blended. Cover and refrigerate for at least 10 minutes.

2. Add about a ¼ cup of coffee to each cup, then stir in about a tablespoon of the spice mixture until dissolved. Fill cups to within an inch of the top with coffee. Stir in half and half to suit your taste, then garnish with whipped cream and a light dusting of cloves.

KETTLES

Quick, efficient, convenient and automatic – these are the typical benefits of most electric kettles, a kitchen appliance class introduced more than a century ago. Electric kettles became popular especially after the first fully automatic models were introduced in the late 1950s.

Today, many advanced kettles offer more than just bringing water to a boiling point at the touch of a button. You can set a lower than boiling temperature and some kettles will even maintain it. There are even special types of kettles for brewing perfect tea. SENCOR offers a wide range of electric kettles – from large 2.5-litre models and those with advanced functions, such as operation indicated with a coloured light and variable temperature setting and maintenance, to small 1-litre single-button models. All SENCOR kettles use top-quality, safe materials like BPA-free plastic, heat-resistant borosilicate glass or German SCHOTT GLASS and high-quality stainless steel (SUS 304).

HOT WATER QUICK AND EASY

ELECTRIC KETTLES

A common appliance that no kitchen can go without. They are fast, practical and heat water without talking back. However, SENCOR smart kettles can do much more. Feel free to set the water temperature, making the preparation of not only different kinds of tea but also baby milk super easy. Some of them can even maintain the temperature at your desired level until you arrive for up to two hours.

The temperature can be set between 60° C and 100° C, and once reached, a sound will alert you. A removable and washable filter captures any impurities or limescale. Tea lovers will appreciate a kettle with a removable basket for tea blends or herbs. The triple safety system ensures that the kettle switches off automatically when removed from the base or when the boiling point is reached, and prevents overheating when accidentally turned on without water.

You can also choose from elegant designs and materials. SENCOR offers glass, metal, plastic and even porcelain kettles. Naturally, in a wide range of colours.

WHY CHOOSE A SENCOR KETTLE

- Powerful, energy-saving appliances
- Stainless-steel, foldable lid with a patented design
- Temperature setting and innovative temperature-maintenance function
- Modern design with touch control panel
- Easy to operate with triple safety system
- Easy-to-clean removable parts

Double-Wall Kettle

SWK 0590BK

With four different temperatures – 40-80-90-100 °C – this kettle will help you achieve the perfect results when preparing your favourite hot drink.

During busy mornings, there is no need to wait by the kettle for the water to be ready, as it maintains the selected temperature for an impressive 120 minutes! Hygiene and safety are carefully considered too as the kettle is equipped with a dirt and limescale filter, the heating base is made of stainless steel and its specially designed spout prevents any dripping or spilling. The triple safety system protects against overheating and turns the kettle off when taken from the base or when the boiling point is reached.

FEATURES

- **Volume of 1.5 l, power of 2200 W**
- **Electronic adjustable temperature control (40-80-90-100 °C)**
- **Maintains selected temperature for 120 minutes**
- Dirt and limescale filter
- Heating base made from stainless steel with a covered heating spiral
- Specially designed spout preventing drippage and spillage
- Lid fitted with a safety locking mechanism for maximum safety
- Triple safety system
- Suitable also for hearing impaired users with an operation light indicator
- Central 360° STRIX connector

Double-Wall Kettle

SWK 1591WH● **SWK 1592BK** ○ **SWK 1591WH**

This double-wall, variable temperature electric kettle prepares the right beverage anytime. The kettle heats water just as you wish, featuring seven different water temperature settings (40-50-60-70-80-90-100 °C). Once the desired temperature is reached, a sound signal lets you know, while the keep-warm function keeps the water hot for you.

The double-wall technology uses vacuum insulation to eliminate heat radiation from the inside, keeping water hot for longer and maintaining a cool housing on the outside. The interior, kettle lid, spout, and filter are made from SUS304 stainless-steel, and the kettle's design ensures that none of the BPA-free plastic parts come in contact with water. With the lid open, the kettle is very easy to clean.

The 1.5-litre volume is large enough to serve the whole family with a nice cup of their favourite hot drink.

**FEATURES**

- **Double-wall technology with cool touch housing**
- **Water temperature settings (40-50-60-70-80-90-100 °C)**
- **Power Input of 2150 W**
- "Reached set temperature" sound and "keep warm" function
- Premium quality stainless steel SUS304
- Central 360° STRIX connector

PLASTIC

DOUBLE WALL

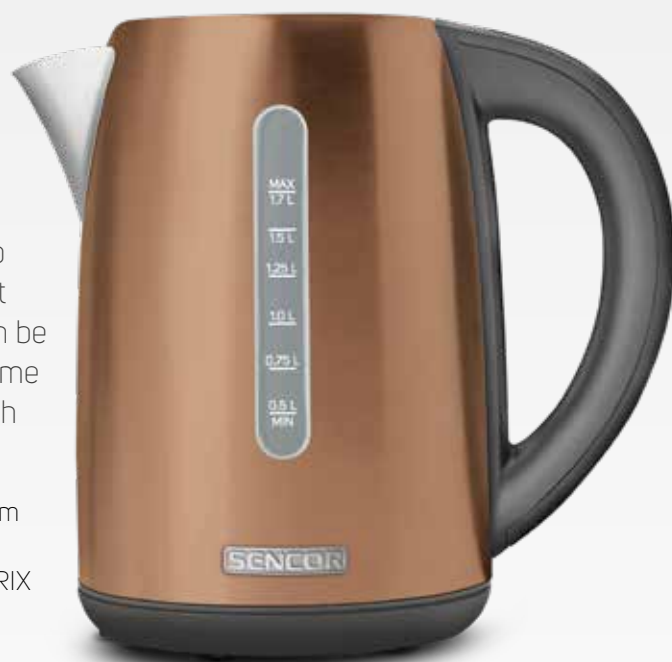

Variable Temperature Kettle SWK 7706GD

● SWK 7706GD ○ SWK 7707CH ● SWK 7708BK

Every hot beverage requires an exact water temperature to be perfect, and this variable temperature kettle delivers just that. The desired temperature (60-70-80-90-100 °C) can be comfortably set on a control panel. The generous 1.7 l volume heated by a strong power input of 2150 W provides enough hot water for the whole family, even on busy mornings.

The smart design is highlighted by practical aspects: the keep-warm function maintains the temperature for you, while the dirt and scale filter can be easily removed and washed, and the central 360° STRIX connector ensures hassle-free use.

FEATURES

- 1.7 l volume with 2150 W of power input
- Water temperature settings (60-70-80-90-100 °C)
- Keep-warm function
- Removable and washable dirt and scale filter
- Water level mark and power on indicator light
- Premium-quality stainless-steel SUS304
- Triple safety system

Variable Temperature Kettle SWK 1795SS

This elegant electric kettle prepares your hot drinks quickly and with maximum energy savings, thanks to its 2200 W of power input. With a generous 1.7 litre volume, it can handle many cups at once for large families or for visitors.

Heating water to 100, 90, 80, 70 and 50 °C with a single button is both easy and ideal for all kinds of hot beverages. Once it's done heating, your water will maintain the desired water temperature for 30 minutes. Moreover, each temperature level has an LED colour, so you can easily see how hot the water is from across the room. Maximum safety is a must, so the kettle features reliable triple safety protection: this includes overheating protection, an auto switch off when removed from base, and when heating is completed.

FEATURES

- 1.7 l volume with 2200 W of power input
- Special lid cover for easy filling
- Two buttons for easy control (on/off and temperature level)
- Keeps temperature for 30 minutes
- Five temperature settings (50-70-80-90-100 °C)
- Reached set temperature sound

Variable Temperature Kettle SWK 1590SS

This stylish kettle made of stainless steel combined with high-quality glass features a variable temperature setting from 70 to 100 degrees Celsius.

It's perfect for all types of hot beverages or cooking, as it maintains the set temperature for up to 120 minutes. There is also overheating protection in case it is switched on without water, automatic shutdown after removal from the base and automatic shutdown once the boiling point is reached, which makes it very safe even for hearing-impaired users.

PROPERTIES

- **1.5 l volume, 1500 W of power input**
- **Intuitive operation with two buttons – on/off and temperature setting**
- **Electronic temperature control with temperature setting between 70–100°C**
- On/Off sound indication
- Power cord storage in the base, double-sided level of fullness
- Removable, stainless-steel tea strainer for ingredients and herbs
- Elegant stainless steel design
- High-quality, heat-resistant, borosilicate glass

STAINLESS STEEL TEA STRAINER

Variable Temperature Kettle

SWK 2193OR

- SWK 2190WH ● SWK 2191GR ● SWK 2192BL
- SWK 2193OR ● SWK 2194RD ● SWK 2195VT
- SWK 2196YL ● SWK 21978GG ● SWK 2198RS

Featuring an impressive volume of 2 litres, this electric kettle is ready to serve eight cups at a time, which will please any big family or those expecting guests.

Heat just the right amount of water thanks to the high visibility watermark, which makes its operation quick and economical. The nine attractive colours will complement any kitchen. Five different temperature settings (50, 70, 80, 90, and 100 °C) can be selected to give coffee and teas the full flavour of their active ingredients, and the temperature can be changed at any time. When heating has completed, the kettle gives a notification with a colour and sound signal, and maintains the desired temperature for up to 30 minutes.

FEATURES

- **2.0 l volume with 2200 W of power input**
- **Maintains temperature for 30 minutes**
- **Water temperature settings:**
50-70-80-90-100 °C
- Reached set temperature sound and light signal
- Double-sided water level mark and colour set-temperature indicator
- Triple safety system

Variable Temperature Kettle

SWK 1080SS

This is a durable, small-volume kettle made from high-quality borosilicate glass and stainless steel.

It's removable, stainless-steel tea basket is useful, perfect for tea, herbs or spices, and is very easy to clean. It also includes a triple safety system, a light indicator for impaired users and a lid with safety lock mechanism.

FEATURES

- **Power input of 2200 W**
- **Volume of 1 l**
- **Electronic adjustable temperature control (60-70-80-90-100°C)**
- Three operating modes
- Central 360° STRIX connector with triple safety system
- High-quality, borosilicate heat-resistant glass
- LED display built into the stainless-steel base to show the actual temperature for easy control
- Double-sided water level mark
- Lid fitted with safety locking mechanism

Stainless-Steel Kettle

SWK 1799SS

This durable kettle made from high-quality stainless steel will serve you for a long time. It's great for making all types of tea, thanks to the thermometer on its front side that shows the current water temperature.

Great for a family kitchen because of the dual safety system that protects against overheating and features automatic shut-off, and a safety lid fitted with a locking mechanism as well.

FEATURES

- Power input of 2200 W
- Volume of 1.7 l
- Water temperature measurement by thermometer gauge
- High-quality stainless steel SUS 304
- Dual safety system
- Lid fitted with safety locking mechanism
- Dirt and limescale filter

Glass Kettle

SWK 2080BK

Simple and practical. You can simply watch the water boiling through the heat-resistant glass body, while an internal LED indicator is a practical and beautiful way to show that the kettle is on (also useful for hearing-impaired users). The two-litre volume makes this electric kettle ideal for larger families or small offices.

**FEATURES**

- **2.0 l volume, 2200 W of power input**
- **Impurity and limescale filter**
- **Double-sided water level marks**
- Power cord storage in the base
- Internal LED light
- Also suitable for hearing-impaired users (indicator light when in operation)
- Stainless-steel heating base with a concealed heating spiral
- Lid easily opened by pressing a button
- Dual safety system

Glass Kettle

SWK 2300BK

Designed for style and endurance, this electric kettle offers a great look, quality materials, and the highest level of safety possible.

The double-sided water mark and ergonomically-shaped handle make it comfortable and easy to use, while the lid lock and dual safety system keep you safe. Maintenance is super easy, thanks to the removable and washable dirt and scale filters.

FEATURES

- **1.2 l volume with double-sided water level mark**
- **Ergonomically-shaped handle for easy use**
- **Power Input of 2200 W**
- Removable and washable dirt and scale filter
- Heating base made of stainless steel with covered heating spiral
- Lid safety lock and double safety system

Glass Kettle

SWK 7300WH○ **SWK 7300WH** ● **SWK 7301BK**

The timeless design of this electric kettle won't go out of style, and the glass combined with the black or white colour suits any kitchen. The heat-resistant glass body with a double-sided water mark can hold up to 1.7 litres of water and prepares enough boiling water for the whole family. And when you need just a single mug, quickly heat up the right amount thanks to the see-through kettle body and powerful 2200 of input.

The double safety system, featuring protection against overheating when turned on without water and automatic shut-off when the boiling point is reached, together with the lid lock, ensures maximum safety. Our ergonomically-shaped handle and removable and washable dirt and scale filter make it comfortable to prepare a cup of your favourite hot beverage. Thanks to the central 360° STRIX connector, the kettle always fits perfectly onto the base. There is no hassle when it comes to finding a place for the power cord, as it can be easily stored in the base.

**FEATURES**

- **1.7 l volume with 2200 W of input power**
- **Double-sided water level mark and heat-resistant glass body**
- **Ergonomically-shaped handle and washable dirt and scale filter**
- Heating base made of stainless steel with covered heating spiral
- Lid lock and double safety system for your maximum protection

Modern, BPA-free plastic is attractive not only thanks to its affordability and wide range of bright colours, but also because it conducts (and releases) less heat and thus improves the efficiency of an electric kettle. It is also ideal for large volume kettles above 2 litres – perfect for big families or an office environment.

Plastic Kettle

SWK 2510WH

○ SWK 2510WH ● SWK 2511BK

There are situations when size does matter. This SENCOR electric kettle features a volume of 2.5 litres, which translates to 10 large mugs of tea – perfect for a large family breakfast or an office environment. The no-nonsense, simple and practical design uses a BPA-free plastic body and a stainless-steel heating base with a covered heating element.

FEATURES

- **2.5 l volume, 1850–2200 W of power input**
- **BPA-free plastic body with ergonomic handle**
- **Power-on indicator light, lid safety lock**
- Stainless-steel heating base with covered heating spiral
- Power cord storage in the base, dual safety system (overheating, auto shut-off)
- Removable and washable impurity and limescale filter

- Double-sided water marks

COOKING

Even a pot can be highly intelligent. You don't believe it? Then try one from SENCOR, whose pots are perfectly multifunctional. They can cook incredibly slowly for even as long as 12 hours to prepare the perfect broth, or fry at lightning speeds to bring you hundreds of healthy fries in just a few minutes. They prepare rice in many ways even better than the best Asian cuisine chef, but can also bake, steam or cook rapidly under high pressure. Uncovering their lids releases the finest delicacies you can imagine, so put your trust in them and let your cooking change in an instant.

SIMPLE AND HEALTHY COOKING

PRESSURE COOKERS

Tender meat that just melts in your mouth with a lot of juices that are so rich in taste - only a pressure cooker can do this. Moreover, the newest cookers from SENCOR do much more than just pressure cooking. They are truly multifunctional and can bake or roast like the best oven, and cook like an electric or gas stove 50 percent faster, more efficiently and with the use of less energy. At the same time, SENCOR pressure cookers are able to feed even large extended families. No wonder, the inner bowl can hold enough food for seven people.

Thanks to its pre-set programmes, the appliance cooks, fries, stews, bakes, roasts and cooks using both pressure and steam with only a minimum amount of water or oil. It even sets the temperature and cooking time for you, while its LED display is intuitive and clear. You do not have to stand over the pot at all since it can prepare everything without your help. With the delayed start function, you can set up everything, only to be greeted by a freshly baked cake when you get home from work. Lovers of slow roasting will also be pleased since the multifunctional SENCOR pressure cooker can handle that too.

WHY CHOOSE A SENCOR PRESSURE COOKER

- Very long service life and economical operation
- Innovative, high-quality materials
- Fully automatic
- Customizable programmes and modes for multiple uses
- High volume
- Easy to use and dishwasher safe
- Abundance of accessories

SLOW COOKERS

Meals full of rich taste, yet made with little effort – that's slow cooking, today's modern trend, which preserves all the essential vitamins, minerals and natural juices in food. SENCOR slow cookers are perfectly in line with this trend since they prepare healthy food without adding unnecessary fats or flavourings. With a 6-litre cooking pot, they feed up to seven diners.

All you have to do is cut up the ingredients, put them in a pot and press one of the settings on the digital controller. The appliance can, for example, cook meat for 14 hours, until an absolutely perfect broth is ready, while 8 hours are enough for an amazing gravy. Moreover, SENCOR slow cookers are multifunctional, can cook light meals in steam, roast, and, thanks to their five frying pre-sets, even prepare the most amazing schnitzels and fries far and wide. If that is not enough, think of the homemade yogurt it makes. The slow cooker works overnight, while you are at work or even on a trip. However, it always welcomes you home with the aroma of an amazing, freshly prepared meal.

WHY CHOOSE A SENCOR SLOW COOKER

- Powerful and fully automatic operation
- Quality, non-stick PFOA-free coating with ideal heat transfer
- Perfect for healthy cooking
- Easy digital control
- Choice of pre-set functions, yoghurt making included
- Practical design and large volume

Slow Cooker

SPR 7200SS

Cooking has never been this easy! This slow cooker features eight automatic programmes with a set-&-forget timer, which will take care of your dinner while you focus on more important things or have fun! Its pot has a 6-liter capacity, which is large enough to prepare food for the whole family. The digital LCD control panel provides the most comfortable cooking experience and enables control even with wet hands. When you're done cooking, the keep-warm function automatically keeps your food at just the right temperature.

The quality of the materials is unbeatable: the pot wall is made of 2.5 mm-thick aluminium with non-stick technology. The pot can be easily stored in a fridge with food inside, and later washed in a dishwasher. The premium stainless steel used in the steamer pot ensures a long lifetime and corrosion resistance as well.

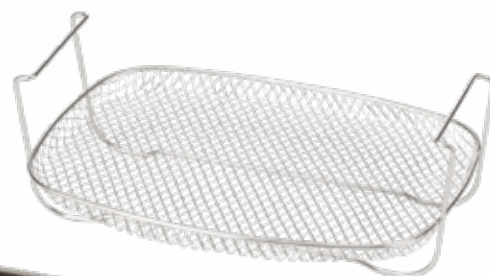

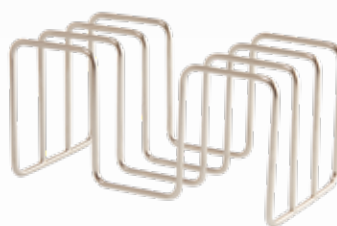

FEATURES

- **6-litre capacity is more than enough for the entire family**
- **Pot with non-stick surface fits into a fridge; dishwasher safe**
- **8 automatic programs for maximum convenience**
- Option to adjust both the cooking temperature and time
- Keep-warm function automatically maintains the ideal temperature
- High-quality materials (stainless steel and aluminium alloy)

Slow Cooker

SPR 5500SS

● SPR 5500SS ● SPR 5508BK

Slow cooking is the new way of modern healthy cooking. It preserves all the flavours, juices and vitamins, doesn't require oil and saves time and money.

The perfect, durable, rust-resistant cooking pot features multiple functions, easy use and 6 litres of volume to serve the whole family. It allows you to steam, cook, fry and prepare great stews or even yogurts. The dual-lid lock system ensures that the maximum flavour and aroma stay in the food and help maintain a steady temperature inside the cooking pot.

The Set & Forget countdown timer, which allows you to set the temperature and time, provides maximum convenience during cooking. The Keep Warm function automatically keeps your food at the ideal temperature after the cooking process is finished. The Non-Stick coating technology with a PFOA-free coating ensures that the maximum flavour and aroma stay in the food and help maintain.

FEATURES

- 6 l volume, 1350 W of power input
- 5 pre-set browning settings to seal in the flavour and caramelize ingredients (Gentle 100 °C, Low 120 °C, Medium 150 °C, Sauté 170 °C, High Sear 180 °C)
- 4 pre-set cooking functions (Low Slow Cook 6–14 hours, High Slow Cook 2–8 hours, Steam 5–120 mins, Yogurt 6–12 hours)
- 3 mm thick aluminium wall
- Digital LED Control display for the most convenient cooking

RECIPE

BARBECUED PULLED PORK RECIPE

This barbecued pulled pork recipe made in a slow cooker is perfect for weekday meals. Serve on sandwich rolls with a side of summertime slaw.

INGREDIENTS FOR 8 SERVINGS

3 pounds of fresh pork shoulder, well-trimmed
 3 tablespoons of barbecue seasoning
 ½ cup of tomato ketchup
 ½ cup of cider vinegar
 ¼ cup of firmly packed brown sugar
 2 teaspoons of Worcestershire sauce
 1 teaspoon of ground mustard

Place the pork in the cooker. Mix the barbecue seasoning, ketchup, vinegar, brown sugar, Worcestershire sauce and ground mustard until well blended. Pour over the pork. Cover and cook for 8 hours on LOW or 4 hours on HIGH. Remove the pork from the slow cooker. Shred the pork using 2 forks. Return the pork to the slow cooker, mix and heat with sauce before serving. Serve on sandwich rolls topped with slaw and any remaining sauce if desired.

PERFECT RICE, SIMPLE AND EASY

RICE COOKERS

It's not easy to cook rice exactly how we want it. Sometimes we want it to be loose, while other recipes require it to be sticky... But you don't have to be a lover of Asian cuisine to appreciate SENCOR rice cookers.

Thanks to 11 different functions, these special cookers can prepare all kinds of rice, even sushi rice. Just select the function on the digital display, that's all! There's no need to monitor it at all since it's fully automatic. Once finished, they turn themselves off and even keep the finished rice warm for up to 6 hours, until let's say you get back from a trip. The 1.8-litre volume means that they can cook up to 1.5 kilograms of rice at once, and that's really a decent portion to eat. You do not have to worry about the water boiling away since these appliances have a special safety feature in addition to overheating protection. Moreover, the unique steam release valve prevents the pot from leaking while cooking.

If you still think that a SENCOR rice cooker cannot do much, there's even more. Thanks to its oatmeal function, it can prepare porridge just as thick as you like. It can also process legumes, cooking them until they are perfectly tender. The slow cooking function can also create strong broths or sauces and re-heat food. These are more than just a few tasks, wouldn't you agree?

WHY CHOOSE A SENCOR RICE COOKER

- Powerful, energy-saving appliance
- High-quality functional materials for better results
- Automatic operation saves time
- Various adjustable modes and programmes for rice and other dishes
- Digital display for easy operation
- Practical functions and safety features
- Easy to clean and timeless design

Rice Cooker

SRM 3150SS

More than just a rice cooker! With 11 special cooking functions, a digital display and 24-hour timer, this is no ordinary rice cooker.

But this by no means suggests that it would be any less capable of preparing perfectly steamed rice. It has all the key functions and features, such as equal heat distribution technology, a special aluminium pot with a high-quality, non-stick surface and automatic operation and shut-off which switches the cooker to "keep warm" mode for up to 6 hours.

FEATURES

- **1.5 l volume (1300 g of rice), 700 W of power input**
- **Equal heat distribution technology for perfect results**
- **Stainless-steel outer body, aluminium cooking pot with non-stick surface**
- Included accessories: steaming basket, spoon, ladle, measuring cup
- For steam cooking of all types of rice, including sushi rice
- Fully automated operation, "keep warm" function (up to 6 hours)
- 11 special cooking functions, 24-hour timer
- Triple safety system (overheating, water boiling away, auto off)
- Lid with steam escape valve

Rice Cooker

SRM 0650SS

Delicate rice with perfect consistency? Just press the RICE button and the SRM 0650SS rice cooker will do the job for you! There is much more this multifunctional rice cooker can give you: OATMEAL mode prepares wonderful porridge for breakfast; the GRAINS button cooks legumes while retaining all the nutrients and flavours; great soups, meat, and sauces are delivered by the SLOW cooking feature, and those interested in healthy meals will appreciate STEAM cooking with no fat added.

The pot has a non-stick coating and guarantees even heat distribution, while the digital display, indicators and light alerts track all current and planned activities. Once the cooking is finished, the keep-warm function maintains the food temperature for up to 12 hours for you.

FEATURES

- Five automatic cooking modes (rice, oatmeal, slow cooking, legumes, steaming)
- Delayed start and automatic keep warm functions
- Even heat distribution though 1.5 mm thick wall
- Easy cleaning (removable inner pot with a non-stick surface)
- Stainless-steel outer unit, anti-slip feet
- Triple safety system

RICE SPOON

Rice Cooker

SRM 1890SS

With its 1.8 litres of volume, you can easily prepare up to 1.5 kg of any type of rice, including sushi rice. Fully automated rice steaming is much easier, thanks to a special steam release valve, which prevents the pot from overflowing.

The top lid is hinged and has a round glass window for the better control and monitoring of the steaming or cooking process. The automatic shut off switches the cooker to “keep warm” mode for up to 6 hours. The practical steaming basket is great for the healthy steaming of vegetables or Asian dumplings – this can even be done together with rice to save energy.

FEATURES

- **1.8 l volume (1500 g of rice), 700 W of power input**
- **Equal heat distribution technology for perfect results**
- **Stainless-steel outer body, aluminium cooking pot with non-stick surface**
- Included accessories: steaming basket, spoon, spatula, measuring cup
- Steam cooks all types of rice, including sushi rice
- Fully automated operation, “keep warm” function (up to 6 hours)
- Triple safety system (overheating, water boiling away, auto off)
- Easy to clean
- Glass lid with steam escape valve

EQUAL HEAT DISTRIBUTION

Rice Cooker

SRM 2800SS

This SENCOR rice cooker with a stainless-steel outer finish is a perfect match for you. Its volume of 2.8 l allows you to prepare up to 2.3 kg of rice at once – all fully automated and with zero hassle – which should be enough to feed a big family or guests at a big sushi party.

The simple glass lid is very practical as it allows you to see the contents and, together with the high-quality aluminium pot with its non-stick coating, makes cleaning up a snap.

FEATURES

- **2.8 l volume (2300 g of rice), 1000 W of power input**
- **Equal heat distribution technology for perfect results**
- **Stainless-steel outer body, aluminium cooking pot with non-stick surface**
- Included accessories: spatulas for rice, measuring cup
- Steam cooks all types of rice, including sushi rice
- Fully automated operation, “keep warm” function (up to 6 hours)
- Triple safety system (overheating, water boiling away, auto off)
- Easy to clean
- Glass lid with steam escape valve

Rice Cooker

SRM 1550SS

This SENCOR rice cooker model, which works on the steam cooking principle, is just perfect for medium-sized families. With a volume of 1.5 l, it can cook up to 1300 g of rice, including sushi rice.

This is such a simple way to prepare perfect rice, especially when the operation is fully automated. Like the other models, it features a glass lid, allowing you to inspect what's inside. Both the high-quality aluminium with non-stick coating used on the pot and stainless-steel outer finish make it easy to clean.

FEATURES

- **1.5 l volume (1300 g of rice), 500 W of power input**
- **Special steam cooking principle**
- **Stainless steel outer body, aluminium cooking pot with non-stick surface**
- Included accessories: spatulas for rice, measuring cup
- Steam cooks all types of rice, including sushi rice
- Fully automated operation, "keep warm" function (up to 6 hours)
- Automatic shut-off, anti-slip feet
- Easy to clean
- Glass lid with steam escape valve

Rice Cooker

SRM 1000SS

● SRM 1000SS ● SRM 1001BK

This model of SENCOR rice cooker also works on the steam cooking principle and is perfect for standard-sized families. With a volume of 1 l, it cooks up to 800 g of rice, including sushi rice, and its operation is fully automated.

The simple, transparent lid allows you to see the contents practically. Both the high-quality aluminium pot with its non-stick coating and stainless-steel outer finish make it easy.

FEATURES

- **1 l volume (800 g of rice), 400 W of power input**
- **Special steam cooking principle**
- **Stainless-steel outer body, aluminium cooking pot with non-stick surface**
- Included accessories: spatulas for rice, measuring cup
- Steam cooks all types of rice, including sushi rice
- Fully automated operation, "keep warm" function (up to 6 hours)
- Automatic shut-off, anti-slip feet
- Easy to clean
- Glass lid with steam escape valve

Rice Cooker

SRM 0600WH

● SRM 0600WH ● SRM 0601BK

This rice cooker will prepare the perfect side dish no matter what type of rice you prefer; that's the primary function of the SRM 0600WH. Its special pot with a 0.6-litre volume will cook 450 g of rice using the steam principle.

Safety is a matter of priority as the appliance features a glass lid with an opening to release excess steam, and it also includes anti-slip feet. The rice cooker comes with a practical, special spatula for rice and a measuring cup.

FEATURES

- **Special pot using the steam cooking principle**
- **0.6 l volume to prepare 450 g of rice**
- **Fully automated operation makes all types of rice, including sushi rice**
- Glass lid with an opening to release excess steam
- Practical handles on both sides
- Anti-slip feet

CRISPY AND **LIGHT**, FRYING WITH **AIR**

VITA **FRYERS**

Do you like fried meals? French fries, schnitzels, chicken wings, and even donuts? Feel free to enjoy them every day! SENCOR vita deep fryers fry without the unnecessary fat, and therefore, all these delicacies are healthy enough for nutritional experts to take their hats off to them.

Thanks to 12 pre-set programmes and a variety of attachments, the deep fryer can handle whole chickens, pizzas, steaks, hamburgers, cakes and many other delicacies. All programmes are clearly visible on a digital display, so there's no need to search for anything, and everything works with just a few simple clicks. Moreover, with its volume of 11 litres, there will always be enough fries to feed the entire family and some left for the neighbours.

So, how does it work? Inside the deep fryer, there is a special system that circulates hot air evenly, frying the food from all sides, with no additional fat required. If necessary, it even stirs the food itself during cooking. Unlike conventional fryers, filled with litres of oil, no odour escapes thanks to its efficient filters.

WHY CHOOSE A SENCOR VITA FRYER

- Highly efficient and fast operation
- Innovative solutions for a healthy diet
- Special nano-ceramic filter for odour control
- Many optional programmes and functions
- Touch-control LED display for easy operation
- Large volume and practical design for every kitchen

Vita Fryer

SFR 9500SS

Say no to burnt oil and excessive odours when frying. This Vita Fryer uses zero oil, making it a healthier alternative to the traditional method. Its eight pre-set programmes and total volume of 8 litres (2× 4 l) will help you to create lunches and dinners your family will love.

The user experience is quite intuitive; the Vita Fryer features an LED display and touch-control sensors. The 60-minute timer will let you know when it's the right time to serve your delicious meal.

FEATURES

- **Volume: 2 × 4 l, total volume of 8 l**
- **Power: 1700 W**
- **LED display and touch-control sensors**
 - Ready to use in 3 minutes
 - Oil smoke filter
 - 60-minute timer with an alarm
 - Temperature control range of 60–200 °C
 - Possibility to set two different temperatures at the same time
 - 8 pre-set programmes
 - Oil-free frying system; no more burnt oil and fewer odours
 - High-speed air circulation technology
 - Removable, non-stick frying basket trivet for an easy cleanup
 - Cool to the touch
 - Auto shut-off

Vita Fryer

SFR 5510BK

You've surely heard that oil-free frying is a healthier option than traditional fat-based methods.

This Vita Fryer delights with its five pre-set programmes for frozen fries, homemade chips, drumsticks, fried chicken, and steak. To make cooking even easier, it features a 60-minute timer with an alarm. The temperature can be set from 60 °C to 200 °C.

FEATURES

- **Volume: 12 l**
- **Oil-free frying system; no more burnt oil and fewer odours**
- **Special airflow system**
- LED display and touch control sensors
- Ready to use in 3 minutes
- 5 pre-set cooking programmes: frozen chips, homemade chips, drumsticks, fried chicken, steak
- 60-minute timer with an alarm
- Temperature control range: 60–200 °C
- 1500 W of power input
- 4 fast boot functions: preheat, reheat, keep warm, dehydrate
- Many accessories for improved multifunctionality

Vita Fryer

SFR 5010BK

The high-speed air circulation technology and seven pre-set programmes included in this Vita Fryer deliver results that are truly crispy.

Its oil-free frying system is healthier than the traditional method, creates zero burnt oil, and emits fewer odours. Thanks to its 60-minute timer with an alarm, you'll never forget to collect your meal on time. Cleaning is easy; the frying basket is removable and made of a non-stick material.

FEATURES

- **Volume: 5 l**
- **1500 W of power input**
- **LED Display**
- Touch control sensors
- Ready to use in 3 minutes
- Oil smoke filter
- 60-minute timer with an alarm
- Temperature control range: 60–200 °C

- Rapid heating in 3 minutes
- Time switch for 30 minutes with sound alarm
- Cool Touch Housing system – surface stays cool to the touch
- Safety lock prevents accidental basket removal
- Automatic shutdown

MANY COOKING TECHNIQUES FOR **DELICIOUS RESULTS**

DEEP FRYERS

Gone are the days when deep fryers were dangerous and needed lots of cleaning. Today's models are safe, super-easy to use and energy efficient. Moreover, many of them offer numerous cooking techniques: roasting, grilling, baking, sous-vide, searing, or even a fondue. And even if you decide for a standard appliance, you will always get impressive results with a shorter cooking time, lots of oil saved, and odour-free operation.

Advanced materials like the non-stick coating of the inner pot or stainless steel body and lid contribute to simple maintenance and long-life durability. The lid has a see-through window, so that you have full control of the frying process and can change the temperature if needed.

Using a deep fryer is also economical. When deep frying on a common pan, oil gets partly wasted through spillage, and any left-over oil can't be used for other meals. On the contrary, our deep fryer minimizes spillage with its safety lid and keeps oil clean and suitable for reuse, thanks to the oil filters.

But taste is what really matters! You can be sure that with a deep fryer, your food will turn out delicious and crispy. The risk of overcooking is reduced as the deep fryers are equipped with thermostats to control the cooking temperature.

WHY CHOOSE SENCOR DEEP FRYER

- Numerous cooking techniques
- Delicious and crispy meals
- Safe and easy to use
- Energy efficient
- See-through window and thermostat for full control

Multifunctional Fryer

SFR 9300BK

Eighteen cooking jobs done by a single appliance? You bet, with the SFR 9300BK multifunctional fryer. Multiple features and an extensive range of accessories make this appliance a skilled chef in your home kitchen. The list of cooking techniques is truly impressive: sous-vide, searing, roasting, grilling, baking, simmering, frying, slow cooking, fast broth preparation, deep frying, hot pot, steam cooking, rice cooking, fondue, yoghurt and popcorn preparation. Furthermore, each cooking pre-set can be followed by a keep-warm function or changed with a custom setting to suit your taste and time.

The 8-litre pot comfortably cooks meals for the whole family. Being made from aluminium, it allows for fast and even heat distribution, which is quite necessary for precise cooking. Its non-stick surface makes cleaning easy and, the pot itself can be simply washed in a dishwasher.

The specially shaped transparent lid, which is also dishwasher safe, ensures better steam exhaust during cooking. Thanks to its ingenious shape, it can be put on the side, which makes using it even simpler. The handle with cool touch technology prevents the handle from getting too hot.

FEATURES

- **18 cooking programmes and keep warm function**
- **Space saving square design, large LED display**
- **Transparent lid and even heat distribution pot with non-stick surface**
- Digital temperature setting in the range 40–240 °C.
- Easy cleaning, dishwasher safe
- Power input of 1800 W

SFR 8200SS

The deep fryer SFR 8200SS was made to give you the best crust and flavour ever. Its generous 3.2 l capacity prepares 1.4 kg of French fries – a truly good portion for your family and friends! The lid with a viewing window provides full control and the temperature can be instantly adjusted from 130 °C to 190 °C. The integrated handle is both easy to open and cool to the touch.

FEATURES

- **3.2-litre capacity / 1.4 kg of French fries**
- **Lid with a viewing window for full food frying control**
- **Adjustable temperature control from 130 °C to 190 °C**
- Removable, stainless-steel lid for easy cleaning
- Integrated handle for easy opening
- Comfortable mechanical controls
- Aluminium fat filter
- Power input of 2200 W

Deep Fryer

SFR 7200SS

Take full control of the frying process! The viewing window in the lid and adjustable temperature from 130 °C to 190 °C allow you to tune your meals into perfection. The stainless-steel body and lid house a 3.2-litre oil pot – big enough to prepare 1.4 kg of French fries. And using it is easy; the inner pot features a non-stick and dishwasher-safe surface.

FEATURES

- **3.2-litre capacity / 1.4 kg of French fries**
- **Lid with a viewing window for full food frying control**
- **Adjustable temperature control from 130 °C to 190 °C and timer**
- Easy cleaning
- Aluminium fat filter
- Smart power cord storage
- Power input of 2200 W

Deep Fryer

SFR 6200SS

Under the stainless-steel body with a removable, stainless-steel lid, the 1.5-litre inner pot offers enough space to fry 600 g of crispy French fries. Easy frying is followed by hassle-free cleaning: the inner pot has a non-stick surface, and both the lid and the frying basket can be removed for easier maintenance. The safety fuse prevents overheating and the cool-to-the-touch integrated handle protects your hands.

FEATURES

- **1.5-litre capacity / 600 g of French fries**
- **Lid with a viewing window for full food frying control**
- **Adjustable temperature control from 130 °C to 190 °C**
- Removable parts for easy cleaning
- Cool-to-the-touch handle
- Aluminium fat filter
- Power input of 900 W

A GREAT DAY STARTS WITH HOMEMADE BREAD

BREAD MAKERS

Turn your kitchen into a professional bakery. Having fresh & crispy homemade bread every day is so easy with SENCOR bread makers!

To enjoy the aroma of your favourite bread, let your SENCOR bread maker be your guide. Big backlit LCD displays and large viewing windows let you know what is happening, while the baking time is cut shorter thanks to its add-ingredient sound signal or automatic ingredient dispenser.

Different programmes and three crust level settings will deliver exactly what you and your family dream of. Logistics are made easy as well: the non-stick baking pan is dishwasher safe and the 60-minute keep warm function gives you enough time to take care of other tasks done before the bread is ready to be served. Impress your loved ones with homemade bread, and enjoy great meals together.

WHY CHOOSE SENCOR BREAD MAKER

- Fresh home-made bread anytime
- Suitable for both beginners and experienced bakers
- Stay in control thanks to the LCD display and viewing window

CRISPY AND CRUNCHY EVERY MORNING

ELECTRIC TOASTERS

Crunchy toast and crispy rolls – we can hardly imagine our breakfast without them. Whether we spread butter, jam or honey on them, or put cheese or ham on them, everything suddenly tastes better. Top-of-the-line SENCOR toasters are simply indispensable helpers.

They toast up to four pieces of bread at once with 9 toasting intensity levels that can be set on the electronic timer. The appliance takes both thin and thick slices, heats them evenly and ejects them automatically when finished. If a broken-off piece is left inside, you can easily eject it too to avoid burning it.

Is your bread in the freezer right now? Never fear, a SENCOR toaster can defrost it using its light indicator to show when it's ready to eat. It also warms up toast and other foods. Thanks to its handy attachments the toaster can also heat up crispy bread, rolls or croissants.

SENCOR toasters are available in various colours, so you can choose not only the fashionable stainless steel design, but also other a variety of colours to perfectly match your kitchen.

WHY CHOOSE A SENCOR ELECTRIC TOASTER

- Great performance due to high-quality and functional materials
- Choice of various functions and toasting intensity
- Easy to operate and clean
- Wide range of uses in every kitchen
- Safety features

Toaster

STS 6051GR

| ● STS 6056GD | ● STS 6057CH | ● STS 6058BK |

Any metallic colour you like. The newest line of SENCOR toasters is available in either traditional stainless steel (STS 5050SS), or nine metallic colours (STS 6050GG-6058BK), to mix or match with the colours of your other kitchen appliances, or even the kitchen itself.

With an easy-to-use electronic timer control and three buttons for toasting, defrosting and manual control (stop), it has all it takes to deliver a perfect breakfast every day.

FEATURES

- **Power input of 1000 W**
- **Nine metallic colours**
- **Electronic timer for 9 toasting levels**
 - Automatic ejection and shut-off
 - Auto-centring for thinner and thicker slices
 - Toaster rack for warming and crisping buns or croissants
 - Three-in-one function: defrosting, re-heating manual control (cancel)
 - High pop-up for easy removal of smaller slices
 - Easy-to-clean crumb tray with one touch

Toaster

STS 5070SS

Who would want to wait. Even in a household of two, making morning toast means using the toaster at least twice for four slices of bread. And in larger families, toasting bread for 4, 5, 6 or more people becomes an ordeal.

So why not go for a 4-slice toaster with double the capacity? It has all the cool features of the smaller models, like an easy-to-set electronic timer with 9 toasting levels and an automatic centring function to handle both thin and thick slices, as well as two toaster racks for warming or crisping buns – actually, it has two toaster racks.

FEATURES

- **Power input of 1600 W**
- **Electronic timer for 9 toasting levels**
- **Automatic ejection and shut-off**
- Auto-centring for thinner and thicker slices
- Toaster rack for warming and crisping buns or croissants
- Three-in-one function: defrosting, reheating, manual control (cancel)
- High pop-up for easy removal of smaller slices
- Easy-to-clean crumb tray

SAVE ENERGY AND TIME

INDUCTION COOKTOPS

Progress is relentless and it's even changing the way we prepare food. At the same time, induction cooking is definitely growing with advantages such as higher heat transfer efficiency, rapid heating, evenness and better control. Induction cooking is absolutely ideal as it does not emit any heat itself, which you'll appreciate not only in the hot summer months.

SENCOR induction cooktops are top-of-the-line and proud of their cool-to-the-touch glass-ceramic hob plates and minimal heat loss. Compared to more common appliances, they save half the energy and significantly reduce cooking time.

Their two separate induction cooking zones can hold a pot of up to 19 centimetres in diameter. A large, clear and readable LCD display, a slider for temperature and power adjustment and a timer to activate a delayed shut-off contribute to the comfortable use.

WHY CHOOSE

A SENCOR INDUCTION COOKTOP

- Long-life, high-quality glass ceramic hob plate
- Extremely economical operation and minimal heat loss
- Very fast heating and time saving
- Large LCD display for easy operation
- Many pre-set heating levels
- Individual temperature control
- Timeless design

Double Induction Cooktop **SCP 4501BK**

This double induction cooktop boasts an ultra-thin compact design, with a height of just 4.3 cm. Its glass ceramic surface makes maintenance super easy. It also saves you time (60%) and electricity (50%) while delivering high efficiency (up to 90%) with minimal heat losses.

The cooktop and its functions are controlled using sleek and simple touch buttons. The temperature (from 60 °C to 240 °C) and power can be easily adjusted by moving your finger left or right on a slider. The large, red-backlit LCD display provides all the necessary information about the temperature and power.

This cooktop features automatic cookware detection and multiple safety features (thermal fuse against overheating with automatic shut-off, residual heat indicator, control panel lock).

FEATURES

- **Ultra-thin design with simple cleaning**
- **2 hotplates with a temperature range of 60–240 °C**
- **Quick and effective cooking (60% faster with 50% less electricity)**
- Controlled by touch controls and slider
- Overheating protection
- Power input of 3400 W

Double Induction Cooktop **SCP 4601GY**

Super easy to clean, and effective to use: this double induction cooktop was created to provide you with maximum comfort while cooking. Its powerful input of 3400 W works with high efficiency (up to 90%) and minimal heat loss, heating your food at temperatures from 60 to 240 °C. Moreover, the ceramic surface completely covers the top, which makes cleaning as simple as it gets.

This cooktop features an easy touch-panel control with a slider for temperature and power adjustment, and a large, red-backlit LCD display shows the settings.

FEATURES

- **Two hotplates for quick and effective cooking**
- **Touch control for easy adjustment of settings (temperature 60–240 °C)**
- **Overheating protection**
- Easy-to-clean glass ceramic surface
- Power input of 3400 W

Double Induction Cooktop SCP 4201GY

This double induction cooktop is a great choice for any small households, where energy and time savings matter, cooking 60% faster with 50% energy savings. Temperatures ranging from 60 to 240 °C can be set manually using a control knob.

Its smooth surface is easy to clean and the LED display clearly shows which one of ten power levels is selected. Safe and comfortable cooking is ensured by a 180 minute timer and overheating protection.

FEATURES

- **Quick and effective cooking**
- **Touch controls and manual knobs**
- **Overheating protection**
- Simple cleaning
- Power up to 3500 W
- Temperature up to 240 °C

Induction Cooktop SCP 3701BK

An ultra-flat cooktop for ultra-efficient cooking. Save time and energy: that's what SCP 3701BK does. Only half the energy is required and the cooking time is 60% shorter. Its compact size and stylish, thin design make it an ideal appliance for any scenario, no matter if in a small household or on holiday.

Smart features, such as safety lock, cookware detection and temperature settings from 60–240 °C make cooking a pleasure. When it comes to cleaning, this single induction cooktop is a great choice: its smooth surface can be wiped clean easily.

FEATURES

- **Ultra-thin design**
- **Quick and energy saving**
- **Slider touch control**
- Simple cleaning
- Power: 2000 W
- Temperature: 60–240 °C

Induction & infrared Cooktop

SCP 4001BK

When induction technology meets our infrared hotplate, the result is a combined cooktop that meets all your culinary needs. Use the large, legible LCD display with a red backlight to choose the settings.

This induction hotplate has power ranging from 200 to 1600 W and a temperature range from 60 to 240 °C, while the radiant hotplate operates at a temperature range from 50 to 500 °C, or power from 200 to 1800 W. The range of power and temperature make this versatile induction hotplate useful for any meal.

**FEATURES**

- **Induction and radiant hotplate**
- **Suitable for pots from 12 to 26 cm in diameter**
- **Large, legible LCD display with a red backlight**
- Microprocessor-controlled operation
- Control panel lock against accidental use and changes to settings
- High safety standards

GREAT HELPERS TO BRING ALONG

INFRARED COOKTOPS

When it comes to easy out-of-home cooking, no compromises are necessary. Because of their compact size and light weight, infrared cooktops are super-easy to take with you wherever you go: for example, your family weekend house, country cottage or even camping. Choose a single or double burner cooktop to suite your needs and enjoy glass ceramic cooking even on vacation.

Moreover, these cooktops are very simple to use: just turn the dial to set the temperature, and that's it. Maintenance takes only seconds: its smooth glass ceramic surface and metal body make cleaning fast and hassle-free.

WHY CHOOSE A SENCOR INFRARED COOKTOP

- Compact size a light weight for easy out-of-home cooking
- Easy dial control
- Simple maintenance thanks to smooth surfaces
- Suitable for cooking, frying, sautéing, boiling or just heating food up
- Single or double burner options

Double Infrared Cooktop SmoothCook **SCP 2803BK**

What a great solution for your weekend home or a small household! The two infrared, glass-ceramic stoves are digitally controlled to make cooking as easy as possible.

The independent display with white digits informs you about the setting you've chosen, and the timer turns the appliance off after the selected time (from 1 minute to 3 hours).

FEATURES

- **2 infrared, glass-ceramic stoves**
- **Power: 3500 W (2200 W + 1300 W)**
- **Easy-to-clean, all-over surface**
- Easy digital control, classic chrome knobs
- Portable – ideal for weekend homes
- Independent display with white digits & controller for heating plates
- Timer (1 min to 3 hours)
- Double thermal fuse
- Dimensions: 54.5 × 30 × 7.5 cm

Infrared Cooktop

SCP 2263BK

Prepare tasty meals on the glass ceramic burners of this double infrared cooktop. Compact and portable, it is a great appliance for your cottage, weekend house or when on vacation.

Furthermore, its smooth surface is easy to clean and maintain. Turn the cooktop on and set the temperature by simply turning a dial. Within a few minutes, the glass ceramic surface heats a pan up to 250 °C, making it suitable for frying, sautéing, boiling or just heating food up.

**FEATURES**

- **A great helper at your weekend house, country cottage or on vacation**
- **Easy temperature dial control**
- **Smooth surface and metal body for easy cleaning**
- Two glass ceramic burners with a diameter of 19 cm
- Power input: 2400 W
- Dimensions (width × depth × height): 504 × 300 × 75 mm
- Weight: 2.5 kg

Infrared Cooktop

SCP 1763BK

No major cooking ahead, but still want a powerful appliance to reliably cook and heat up food on?

Go for the SCP 1763BK single infrared cooktop. Its glass ceramic burner with a diameter of 19 cm works flawlessly with any kind of cookware, so it's no trouble to find a suitable one. Use and cleaning don't get any easier: just turn the dial to switch the cooktop on and set the desired temperature. The indicator shows that it's on to remind you.

**FEATURES**

- **Easy temperature dial control**
- **Smooth surface and metal body for easy cleaning**
- **Diameter of the glass ceramic plate: 19 cm**
- Power input 1200 W
- Dimensions (width × depth × height): 300 × 290 × 75 mm
- Weight: 1.4 kg

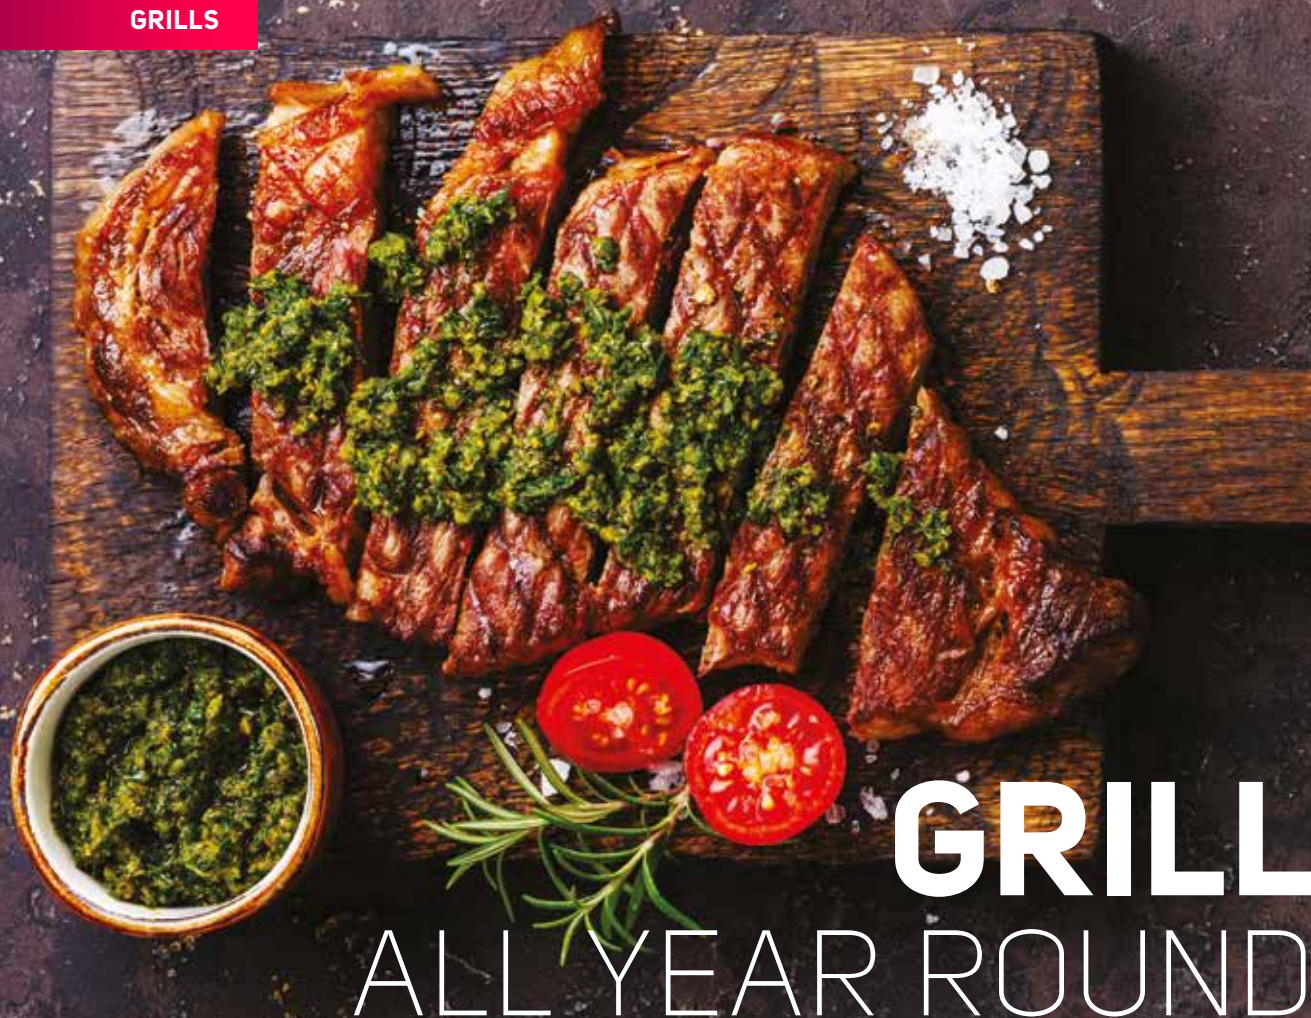

GRILLS

Don't you just love summer barbecues? So why not indulge yourself during the cold autumn and frosty winter months? Just move inside and prepare your favourite steaks, chicken wings or spicy cheese in the comfort of your home. SENCOR grills and sandwich makers will help you. Grill plates are non-stick so you can conveniently wash them in the dishwasher. Contact grills adapt to every dish, they can even handle a big steak, while the sandwich makers can whip up a delicious sandwich or waffle. So go right ahead!

GRILLS

Year-round grilling, so healthy without the unnecessary extra fat, is something only home contact grills can deliver. It has been a long time since food would get burnt on them and it would take longer to clean, than actually cook.

Today's modern grills have 3rd-generation, non-stick plates and intuitive digital controls to help you prepare your top-grade delicacies. Naturally, they feature programmes for various cooking styles, heating and defrosting. Today, you can set the grill plate for the different thicknesses of your food items to prepare a thick steak as well as corn. Moreover, thanks to the bottom grooved plate, you can enjoy creating a variety of patterns on your steak or sandwich to give your meal a hallmark of originality.

Are you worried about the health aspects of grilling? Forget about them. Modern electric grills are recommended by nine out of ten nutrition experts. Thanks to the brilliant non-stick surface, no oil is needed, plus an automatic temperature regulator prevents the food from getting burned. Meat and vegetables and other delicacies are perfectly grilled, while retaining their flavour and all their important vitamins. Cleaning up is also easy since wiping it off with a paper towel is often enough, but if you insist on absolute cleanliness, simply take the grill plates out and wash them in the dishwasher. Grilling has never been this easy.

WHY CHOOSE A SENCOR GRILL

- High-quality 3rd-generation, non-stick plates
- Integrated heating coil for better performance and even grilling
- Ideal for healthy grilling
- Easy digital control
- Choice of several different programmes
- Exclusive glass design

Intelligent Contact Grill **SBG 6231SS**

Enjoy barbecue season all year round! With the SBG 6231SS, delicious hamburgers, fish, steak, sausage, chicken, or bacon can be served anytime you like. The intelligent setting with LCD display ensures easy grilling, while the automatic sensors work hard to deliver perfect results every time. Your meal would not be complete without a side dish: use the extra-smooth grill plate to prepare vegetables or another side dish to impress your family and friends.

The grill plate is large enough to prepare a healthy quantity of meat (30 × 25 cm) and does not need any oil to be added while cooking. To give you maximum comfort and safety, the appliance can be easily cleaned using only a paper towel, grilling plates are dishwasher safe, and its handle is heat insulated.

FEATURES

- **Hamburger, fish, steak, sausage, chicken, bacon, and defrost programmes**
- **Option to grill without needing to add oil**
- **2 ridged plates for meat, smooth plate for side dishes**
- Automatic temperature control
- Removable oil drip tray
- Dishwasher safe

Intelligent Contact Grill

SBG 6238BK

The SBG 6238BK can prepare a delicious steak or a juicy hamburger, as well as vegetables or a side dish in just a few steps and in an especially short time.

It is highly compact and easy to carry, so you can grill at home, in the yard, on the terrace and even on the balcony. 7 Intelligent programme settings and a manual programme, supported by automatic sensors, always ensure perfect results. Maintenance is quick & easy, just wipe it with a paper towel.

FEATURES

- **Intelligent setting with LCD display for easy grilling**
- **Automatic sensors always ensure perfect results**
- **Extra-smooth grill plate for grilling vegetables or side dishes**
- System Cool Touch to ensure the grill surface does not overheat
- 7 programmes (hamburger, fish, steak, sausage, chicken, bacon, defrost) + manual
- 3 operating positions (closed / open 90° / open 180°)
- Non-stick grill plates
- Dimensions of the grill plate (width × depth): 30 × 25 cm
- Automatic temperature control
- Easy to clean with only a paper towel
- Removable oil drip tray
- Separate indicators for operation and heating up
- Heat insulated handle suitable also for pressing sandwiches

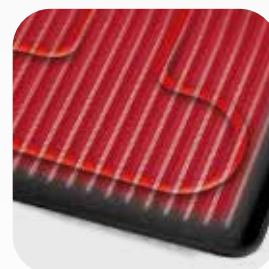

Multi-purpose Contact Grill **SBG 6650BK**

Thanks to the third-generation, non-stick grill plates that are dishwasher safe with integrated heating spirals, this SENCOR contact grill excels in both the areas of easy cleaning and perfect grilling – even without added oil. This is also aided by a precise, automated, temperature control with an LCD display showing the set temperature, heating-up and timer.

With three operating positions (closed, open 90° and flat-open), you can use it either as a contact or flat table top grill. With two types of grill plates, ridged (bottom) and smooth (top), you can easily grill meat or vegetables to your liking or press sandwiches and baguettes.

The timeless combination of stainless steel and glass give this contact grill a stylish appearance that will look gorgeous on your kitchen counter, but, of course, you can also easily stow it away.

FEATURES

- **Non-stick grill plates (3rd gen) with integrated heating spiral**
- **Large-dimension grilling plates 30 × 25 cm**
- **Automatic temperature control with LCD, heating indicator and timer**
- Even pressure distribution
- Easy-to-clean, dishwasher-safe plates, removable oil drip tray and grill plates
- 3 operating positions (closed / open 90° / open 180°)
- Insulated handle, anti-slip feet, lid lock
- 2000 W power input, power cord storage
- Ridged (ideal for steaks) and flat (for smaller vegetables, burgers or seafood) grilling surfaces

Smart Contact Grill

SBG 6031SS○ **SBG 6031SS** ● **SBG 6032BK**

Looking for a contact grill that will help you get perfect results (virtually) every time? Search no more, as the SENCOR intelligent contact grill does just that.

It offers seven smart programmes with a thickness sensor, while the built-in display shows how done your grilled food, so you no longer need to watch or experiment to get your medium-rare steak or burger just right.

**FEATURES**

- Large, non-stick grilling plates 31 × 25 cm with integrated heating spirals
- 7 smart programmes with thickness and temperature sensor plus manual
- Easy-to-clean, dishwasher-safe plates
- Heat insulated handle, anti-slip feet

Multi-purpose Contact Grill

SBG 5030BK

This multi-purpose contact grill features third-generation plates with integrated heating spirals and a non-stick surface that allow grilling without added oil. Its sturdy construction and 7 kg weight ensure the stability of the grill enough grilling space, even for a large family or small party at home.

FEATURES

- Exclusive glass design
- Non-stick grill plates (3rd generation) with integrated heating spiral
- No need to add oil when grilling

PLATES WITH INTEGRATED HEATING SPIRAL FOR PERFECT TEMPERATURE CONTROL AND FAST GRILLING

- **Granite coating**
- **Adjustable temperature control**
- Easy-to clean & 2× more durable granite coating
- Large cooking surface of 44 × 25 cm
- Grease channels for healthier cooking
- Power: 2600 W

ONE MACHINE UNEXPECTED POSSIBILITIES

SANDWICH MAKERS

Throwing a piece of meat on the grill, preparing toast or a panini and finishing up with a sweet waffle? Nothing is impossible. Moreover, where you once needed at least three appliances, one can now handle all of these tasks with one. The secret is in the exchangeable plates with different-shaped surfaces.

Modern sandwich makers are truly versatile and thanks to their variability, they save not only money but also time. They make sandwiches fast and without burning. The appliances know when the snack is ready to serve, so you'll never be wrong. Thanks to their non-stick surfaces, they are also easy to clean, and using them is so simple that even an absolute beginner can do it. In short, more bang for your buck.

So, what are you having as a snack today?

WHY CHOOSE A SENCOR SANDWICH MAKER

- High-performance and energy-saving appliance
- High-quality materials and non-stick surface
- Very easy to operate and clean
- Various options for use with exchangeable cooking plates
- Automatic temperature control and safe operation
- Modern design for every kitchen

Sandwich Maker 4-in-1

SSM 9977CH

● SSM 9976GD ● SSM 9977CH ● SSM 9978BK

Treat yourself to a fulfilling breakfast or tasty snack! This versatile sandwich maker is equipped with four different baking plates to give you an array of culinary options, and with 900 W, it's powerful enough to prepare rich sandwiches, bake waffles or even grill meat.

Quick & easy cooking deserves quick & easy cleaning, and that is what this sandwich maker offers with its non-stick treatment of baking surfaces making maintenance very simple.

FEATURES

- Prepares sandwiches, grills meat or bakes waffles
- 4 changeable baking plates 285 × 152mm - triangular sandwiches, paninis, 2 extra-deep plates for waffles and regular sandwiches
- CoolTouch housing
 - Non-stick baking surfaces for easy cleaning
 - Heat insulated handle and body
 - Power and ready to bake indicators

Sandwich Maker 4-in-1 SSM 9940SS

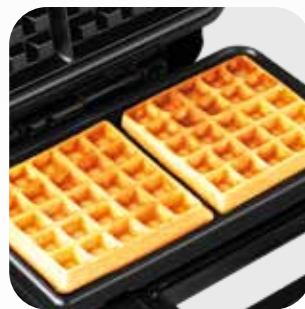

Prepare sandwiches, grill meat or bake waffles using this single sandwich maker. Its four exchangeable XL baking plates (size 285 × 152 mm) are designed to please you with triangle-shape sandwiches, square-shape sandwiches, panini, and waffles.

And there is much more! The CoolTouch housing ensures safe operation, and the baking surface of the plates is very easy to clean thanks to its non-stick treatment. The appliance uses automatic temperature control and features a thermal fuse for your safety. Two indicators keep you informed: the red one is a power indicator and the green one announces that the sandwich maker is ready to cook.

FEATURES

- 4 exchangeable XL baking plates (size 285 × 152 mm)
- Easy to clean baking surfaces with non-stick treatment
- Extra-deep waffle and sandwich baking plates
- Heat-insulated handle and body
- Red power indicator light and green ready to bake indicator
- Safety thermal fuse
- Automatic temperature control
- Power input of 900 W

Sandwich Maker 5-in-1 **SSM 9510SS**

This sandwich maker's five plate options turn breakfast or snacks in your kitchen into a trendy bistro.

Surprise your family and friends with square, triangle, or shell-shaped sandwiches, panini, waffles or even meat prepared on its exchangeable baking plates (size 137 × 228 mm). Operation is both comfortable and safe. All plates are treated with a non-stick surface for easy cooking and cleaning. The CoolTouch housing ensures that the handle and body are heat insulated and the two indicators let you know when it is on and ready to cook for you.

FEATURES

- **5 exchangeable baking plates 137 × 228 mm with easy-to-clean baking surfaces**
- **CoolTouch housing with heat insulated handle and body**
- **For sandwiches, grill meat or waffles**
- Safety thermal fuse
- Automatic temperature control
- Red power indicator light and green ready to bake indicator

Sandwich Maker 3-in-1 **SSM 9410SS**

This 3-in-1 sandwich maker will become your best friend in the kitchen. Its 3 exchangeable baking plates (size 126 × 230 mm) prepare triangle-shape sandwiches, paninis, and waffles, and its surface non-stick treated for your comfortable use and cleaning.

The green ready-to-bake indicator announces that making your breakfast or tasty snack can start, while the heat-insulated body and handle complete with a thermal fuse, take care of your safety.

FEATURES

- **3 exchangeable baking plates 126 × 230 mm for sandwiches, meat or waffles**
- **CoolTouch housing with heat-insulated handle and body**
- **Easy-to-clean baking surfaces with non-stick treatment**
- Red power indicator light and green ready to bake indicator
- Safety thermal fuse
- Automatic temperature control

Sandwich Maker 3-in-1 SSM 9300

This sandwich maker has a non-stick baking surface treatment for easy operation and easy cleaning. You can prepare sandwiches or waffles and even grill meat!

FEATURES

- **Power input of 700 W**
- **Prepares 4 triangular sandwiches, grilled meat or waffles**
- **Non-stick baking surface, easy to clean**
- Automatic temperature control
- 3 removable plates (for tasty sandwiches, grilling, waffle)
- Heat-insulated body and handle
- Power indicator (ready for baking) – green light
- Vertical storage option
- Safety fuse

Sandwich Maker SSM 8700WH

Sandwiches are perfect for breakfast, snacks or even dinner. Especially if you are busy and have no time for shopping and cooking since there is always something at home you can use to prepare tasty sandwiches. This sandwich maker has a perfect, non-stick cooking surface, which means easy cleaning. It can also make up to 8 triangle sandwiches, so it can quickly feed even a larger family.

FEATURES

- **Power input of 1100 W**
- **Makes up to 8 triangle sandwiches**
- **Non-stick cooking surface, easy to clean**
- Automatic temperature control
- Heat-insulated handle and body
- Power indicator – red indicator light
- Ready to cook indicator – green indicator light

- Length of the power cord: 85 cm

A top-down view of a rustic wooden table. In the upper left, a glass pitcher of olive oil. Below it, a red chili pepper. In the center, a small metal jar filled with mixed peppercorns and a small spoon. To the right of the jar, a single garlic clove. On the right side, a black cast-iron skillet containing a roasted chicken. Another red chili pepper and a garlic clove are at the bottom right.

OVENS

It's been a long time since we've had to load our stoves up with wood and heat them thoroughly to make a plate of buns. And all that feeding of the fire! Fortunately, today everything is automatic and SENCOR smart ovens suit our baking preferences perfectly. All we have to do is make our selection on the display and then these ovens bake, heat, grill or defrost as powerfully as possible. It is up to you what you choose and the oven takes care of everything else.

WHEN LIMITED SPACE IS NO LIMITATION

ELECTRIC OVENS

Big baking dreams in a tiny kitchen? No problem! With Sencor's electric ovens, quality meals can be prepared even in minimal space. With their compact size and multiple heating functions these practical helpers are a handy fit for your weekend house or any place where every inch counts.

It's pre-set programmes and manual mode will respond to any cooking requirements you have. Select automatic mode or set the desired temperature, and wait for the results. The timer will audibly alert you when your food is ready. Enjoy your meal!

WHY CHOOSE A SENCOR ELECTRIC OVEN

- Perfectly compact size for even the smallest of kitchens
- Pre-set programs and manual mode to suite all your cooking requirements
- Timer with an audible signal for your convenience
- Tempered glass and cool-to-the-touch handle making it safe to use
- Accessories included

Electric Digital Oven

SEO 3250BK

The size of your kitchen does not matter as long as you have the SEO 3250BK electric digital oven. The 8 pre-set modes - warm, defrost, chicken, pizza, toast, cake, cookies, potato - are controlled by the PCB software.

Just select one of the programs and press START to wait for the tasty meal to be prepared. With practical accessories and easy maintenance, this electric oven will soon become your favourite cooking partner.

FEATURES

- **Volume of 35 litres, power of 1870 W**
- **Adjustable temperature control 30–230 °C**
- **150-minute timer with sound signal and automatic shut-off**
- 8 pre-set cooking modes: warm, defrost, chicken, pizza, toast, cake, cookies, potato
- Double tempered glass window
- Cool-touch aluminium handle
- Glass panel which is easy to clean and maintain
- 4 adjustable baking tray positions
- Integrated interior light

Electric Oven

SEO 2000BK

With a volume of 20 litres, four heating functions and adjustable temperature control 70–230 °C, this electric oven will take care of baking in small households.

The double glazed door ensures better heat insulation and your safety is guarded by an insulated door handle. A baking tray and grill grate are included.

FEATURES

- **Power Input of 1650 W**
- **Adjustable temperature control 70–230 °C**
- **120-minute timer with sound signal and automatic shut-off**
- 4 heating functions
- Double glazed door for better heat insulation
- Insulated door handle
- 3 adjustable baking tray positions
- Integrated interior light
- 4 stainless steel heating elements

HEAT, COOK OR BAKE SIMPLY

MICROWAVE OVENS

When do you get your first microwave oven? When you don't have time to stand in front of a stove. When you need to have your food ready as quickly as possible. Fortunately, there is so much to choose from nowadays!

Modern SENCOR microwave ovens provide not only heating, but can also grill, defrost, cook and bake. There are a lot of programmes for you to select from on the digital panel. Just press one and the oven does the work for you. On top of that, the programmes have been simplified so even without a manual you can intuitively click through to what you need. More sophisticated ovens give you the benefit of so-called multiphase cooking - for example, they first defrost and then heat or boil vigorously at first and then switch to a moderate boil. Microwave ovens that heat food up quickly while grilling the surface are an ideal find.

And which features should you focus on when looking for your new microwave oven? First of all, the power, grill and other functions along with its volume. A big family will certainly fully use a microwave oven with a capacity of 20 litres. A stainless-steel interior, which is easy to maintain, is an advantage as well.

WHY CHOOSE A SENCOR MICROWAVE OVEN

- High-quality and safe materials
- Plenty of pre-set programmes and functions
- Simple digital control
- Safety features including child lock
- Modern designs for various kitchen styles

Microwave Oven

SMW 7023BK

With the introduction of its flatbed cavity and high-tech construction in the SMW 7023BK, you can say goodbye to the microwave rotation plate.

Moreover, it features a diamond pattern design, which ensures a better distribution of microwaves. The modern LED touch panel corresponds with its elegant looks, which are highlighted by its frameless door and aluminium handle. 8 easy programmes will take care of quick reheating and cooking.

FEATURES

- **Flatbed cavity – high-tech construction without rotation plate**
- **Diamond pattern design for better distribution of microwaves**
- **LED panel with 8 easy programmes**
- Microwave heating for simple & quick reheating and cooking
- Durable enamel interior for Easy Cleaning
- Large inner space compatible with plates up to 27 cm
- Volume of 23 litres
- 5 microwave power levels to satisfy different needs
- Defrost function for fast & hygienic defrosting
- 95-minute timer sufficient for cooking as well
- Microwave power of 800 W
- Child safety lock
- Sound signal to indicate when a programme ends

DIAMOND PATTERN DESIGN ENSURES
A BETTER DISTRIBUTION OF MICROWAVES

Microwave Oven

SMW 6020SS

This microwave oven was designed to make your life easier, and this is achieved with its clear LED panel and 9 easy-to-use cooking and heating programs.

Ten different microwave levels will satisfy your every need, while the defrost function will do its job fast and hygienically. The large internal space will house plates up to 26cm, while its durable inner coating ensures effortless cleaning.

**FEATURES**

- **LED panel with 9 easy programmes**
- **Microwave heating for quick & easy reheating and cooking**
- **Durable enamel interior for easy cleaning**
- Large inner space compatible for plates up to 26cm
- Volume 20-litres
- 10 microwave power levels to satisfy every need
- Quick & hygienic defrost function
- 95-minute timer sufficient for cooking
- Microwave power of 700 W
- Sound signal to indicate when a programme has ended

Microwave Oven

SMW 6001DS

Smart and stylish – this SENCOR microwave oven offers 8 pre-programmed cooking menus (popcorn, coffee, fresh vegetables, potato, pizza, reheat, bacon and seafood) as well as manual control and 5 microwave power levels.

Auto cook is very handy and helps with possible types of meals and their weight, even with the multi-stage cooking that some recipes require. With its capacity of 20 litres, it can even hold larger cookware. Functions like delayed start or 95-minute timer make it a truly capable oven, rather than just a simple, re-heating appliance. For better safety and to prevent operation by small children, one can easily set the child lock.

**FEATURES**

- **Microwave power of 700 W, volume of 20 l**
- **Stainless-steel exterior and dark-gray, enamel interior**
- **Digital controls and 8 cooking menus**
- Multi-phase cooking, automatic defrost

Microwave Oven

SMW 5517WH

With its LED panel, 8 simple programs and grill function, this microwave oven delivers fast reheating and cooking.

Its 5 different power levels will adjust its performance to any culinary plan, and its defrost function is designed to be fast and hygienic. The inner space is large enough to house plates up to 27cm in diameter and the enamel interior coating ensures easy cleaning.

FEATURES

- **LED panel with 8 programmes & grilling**
- **Durable enamel interior for Easy Cleaning**
- **Large inner space compatible with plates up to 27 cm**
- 17 l volume
- 5 microwave power levels to satisfy different needs
- Defrost function for fast & hygienic defrosting
- 60-minute timer sufficient also for cooking
- Microwave power of 800W
- Sound signal to indicate when a programme has ended

Microwave Oven

SMW 5220

This SENCOR microwave oven offers 8 pre-programmed cooking menus (popcorn, coffee, fresh vegetables, potato, pizza reheate, bacon, seafood) or manual control as well as a grilling mode. With its capacity of 20 litres, it can hold even larger cookware, and functions like delayed start or 95-minute timer make it a truly capable oven, rather than just a simple re-heating appliance.

FEATURES

- **Microwave power of 700 W**
- **Combination cooking mode (microwave + grill)**
- **White, enamel exterior housing**
- White, enamel interior
- Digital controls
- Volume of 20 l
- Defrosting based on weight and time
- Quick-start function
- 95-minute timer
- 5 microwave power levels
- Grill power of 1000 W
- 2 combination cooking modes

Microwave Oven

SMW 5217SL

Thanks to its 8 automatic programmes, you no longer have to think about how long to cook your meal, and at what temperature. The entire process can be seen on the LED panel, and the programmes can be easily set with a rotary knob.

Five microwave power levels, three defrost modes and eight automatic programmes are ready to prepare many delicacies. The generous 17 l volume, 800 W of power, and low noise (65 dB) make the SMW 5217SL a great choice for your kitchen.

FEATURES

- LED panel with 8 easy programs for simple and quick reheating and cooking
- Large inner space (plates up to 27 cm) with durable enamel coating
- Defrost function and 60-minute timer
- Sound signal to indicate when the programme has ended
- 17 l volume
- Microwave power of 800 W

Microwave Oven

SMW 5017WH

○ SMW 5017WH ● SSM 5117BK

The SMW 5017WH microwave boasts an excellent microwave power of 800 W, simple operation, LED panel, and eight automatic programmes. Choose from three subtle colours to compliment your kitchen and enjoy the comfort of 8 automatic programmes with a delayed start feature.

Thanks to the low noise level (65 dB), this microwave can be placed anywhere. Once the heating is finished, a beeping sound lets you know it's ready. The child lock prevents the oven from accidentally starting, opening or a change of the set values and functions.

FEATURES

- LED panel with 8 easy programmes at 5 power levels
- Defrost function and 60-minute timer
- Sound signal to indicate when a programme has ended
- Large inner space (plates up to 27 cm) with durable enamel coating
- 17 l volume
- Microwave power of 800 W

Microwave Oven

SMW 4317SS

This durable SENCOR microwave oven with a modern design, made of quality stainless-steel, offers a combination of heating, cooking and grilling. With its 17-litre volume, you can use larger plates up to 25 cm in diameter and choose from 5 power levels.

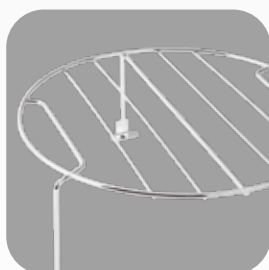

FEATURES

- **Microwave power of 700 W**
- **Combination-cooking mode (microwave+grill)**
- **High-quality, stainless-steel design**
- Volume of 17 l
- 5 microwave power levels

Microwave Oven

SMW 4217WH

This SENCOR microwave oven offers a combination-cooking mode (microwave and grill) and 4 microwave power levels. With its 17-litre volume, it can hold average-size cookware and features functions like delayed start and a 30-minute timer.

FEATURES

- **Microwave power of 700 W, grill power of 900 W**
- **Enamel exterior and interior for easy cleaning**
- **17 l volume**
- 4 microwave power levels
- Defrost function, 30-minute timer

Microwave Oven

SMW 2117SS

Stainless is timeless – the beautiful brushed, stainless-steel exterior of this SENCOR microwave oven will please you for many years to come. It will never rust and is easy to maintain. Maintenance is also simple thanks to the durable enamel-coated interior. Control and use is simple and convenient with two rotating dials and a large door handle.

FEATURES

- **700 W of microwave power, 5 power levels including defrost**
- **Stainless-steel or white/black-enamel exterior, white-enamel interior**
- **245 mm rotating plate**

Microwave Oven

SMW 1918WH○ **SMW 1918WH** ● **SSM 1919BK**

Quick reheating and cooking are incredibly simple with an SMW 1918WH/1919BK microwave oven. Its large interior has space for bigger plates measuring as much as 25.5 cm, and its five different power levels will always deliver the result you need.

To ensure using the microwave is as easy as possible, it features only two control knobs and a sound signal indicating the end of the programme.

EASY CONTROL

INNER SPACE 25.5 CM

FEATURES

- **Simple and quick reheating and cooking**
- **Durable enamel interior for easy cleaning**
