HOW TO SELECT A VACUUM CLEANER?

With so many different types and models, which vacuum cleaner should I choose? The answer lies in user preferences, floor type and the size of your home. However, multiple specialised appliances deliver the best results and greatest convenience.

When it comes to thorough cleaning, SENCOR bag and bagless vacuum cleaners excel. SENCOR models of bag vacuum cleaners not only provide A-class qualities, but also ensure top hygienic manipulation. Their dust bag increases filtration levels and is easy to change without any direct contact with dirt, which, together with the HEPA filters, highlights its suitability for allergy sufferers. SENCOR premium bag vacuum cleaners also offer extremely quiet operation, easy maintenance and a generous range of accessories, some of which are kept in a handy storage area inside the vacuum cleaner body.

Multicyclone SENCOR bagless vacuum cleaners are ready to deliver the same power regardless of how full their special dirt collection container is. They lock in all the dirt without the additional cost of vacuum cleaner bags and allow the user to see how much has been vacuumed up.

Wet and dry vacuum cleaners are able to work both with or without water, which is highly practical when carpets and upholstery need cleaning.

Quick kitchen clean up, car cleaning and reaching spots under furniture all call for a SENCOR cordless vacuum cleaner. They can handle hard floor and carpet vacuuming, wet mopping and manual cleaning using a detachable unit for small and outside-the-home jobs. Advanced technical features like a nozzle with LED light to help in dark places, HEPA cyclone filtration system and a self-standing function contribute to their easy use and precise cleaning.

Enjoy coming home to a clean house by letting a robotic vacuum cleaner do the everyday chores for you. The advanced navigation system and powerful Li-ion battery ensure problem-free vacuuming and even mopping.

UNIQUE FEATURES OF SENCOR VACUUM CLEANERS

All SENCOR vacuum cleaners feature guaranteed high efficiency, precise design and industry-leading health standards. The materials we use, our unique production processes and patented technologies guarantee the high utility value of our products, and make them popular with customers all over the world.

PERFORMANCE AND EFFICIENCY

Our appliances deliver high performance despite their very low power consumption. The materials used and functional features of SENCOR vacuum cleaners guarantee economical, yet effective, operation without any compromises.

ENERGY – Highest class of energy efficiency

CARPET – Highest class of carpet cleaning performance

HARD FLOOR – Highest class of hard floor cleaning performance

CLEAN AIR – Highest class of filtration efficiency

AIR FILTRATION

Multi-layered, microfiber dust bags with antibacterial properties provide the first filter level of the unique Clean Air system. HEPA filters that capture even the smallest particles effectively complete optimal filtration. SENCOR vacuum cleaners ensure a healthy and safe home for your entire family.

QUIET OPERATION

You will definitely appreciate the possibility of vacuuming your home at any time without having to worry about waking small children or disturbing other members of your household.

6-YEAR MOTOR WARRANTY

Our motors are high powered, efficient, and feature great quality. We have complete confidence in our products, which is why we offer an **ADDITIONAL** 6-year warranty on the higher-level models of our vacuum cleaners.

BAG VACUUM CLEANERS

With each new model of classic bag vacuum cleaner, the boundaries of what is possible are challenged. Advanced SENCOR appliances set new standards in efficiency, user convenience, noise level and hygiene. They are here for everyone who desires truly exceptional quality.

A woman with dark hair tied back, wearing a grey long-sleeved shirt and white pants, is smiling while using a black and silver vacuum cleaner on a light-colored wooden floor. The background shows a living room with a white cabinet, a television, a potted plant, and a sofa with a red and white checkered pillow. Two framed quotes are on the wall: "DO MORE OF WHAT MAKES YOU HAPPY." and "DO LESS OF WHAT MAKES YOU UNHAPPY."

GO FOR
TRADITION,
GO FOR
PERFECTION

BAG VACUUM CLEANERS

How is it that the popularity of bag vacuum cleaners has remained undiminished? Their innovative features and unrivaled qualities provide a sufficient answer.

These classic appliances by SENCOR come in attractive designs that conceal the powerful and efficient technical solutions inside. The four A rating ensures highest efficiency in energy consumption, the best carpet cleaning performance, flawless hard floor cleaning, and the lowest dust re-emission.

Satisfy both your needs for health and convenience with the newest models of SENCOR bag vacuum cleaners, which feature both: advanced filtration systems with high-performance HEPA H13 filters to please allergy sufferers, and market-leading, quiet 59 dB(A) operation to delight both people and pets. SENCOR bag vacuum cleaners are easy to use and feature rubber wheels for easy movement, a XXL-long metal telescopic tube to fit and reach anywhere, and the longest action radius on the market to free the user from repeated plugging and unplugging.

WHY CHOOSE A SENCOR BAG VACUUM CLEANER?

- 4AAAA ECO Power for excellent cleaning performance on any surface
- Superior silence technology for extra quiet vacuuming
- Complete care with accessories for the best results on any task around the home, pets and cars
- Clean Air HEPA H13 filters ensuring filtration suitable even for allergy sufferers
- Remote control for easy and ergonomic operation with power settings right by your hand

CLEANING EVERYTHING

REACHING EVERYWHERE

A wide action radius delivers major convenience. The bigger it is, the fewer times you need to unplug and plug the vacuum in again when moving around your household. Selected SENCOR bag vacuum cleaners proudly provide an impressive radius of 14 meters – the best on the market.

Bag Vacuum Cleaner

SVC 9300BK 4AAAA ECO POWER

This state-of-the-art bag vacuum cleaner delivers extra-quiet cleaning with a noise level of only 59 dB(A). The appliance is able to take complete care of all household tasks, including pet and car care, while ensuring the highest class of energy efficiency and floor cleaning performance for both hard floors and carpets.

The Clean Air HEPA H13 filter, which is even suitable for allergy sufferers, delivers unrivaled filtration. Easy use is provided by the XXL, extra-

lightweight, ALU telescopic tube with adjustable operating height, horizontal and vertical parking for easy storage and breaks during vacuuming, and an extra-long operating radius (12 m).

The wide range of accessories can handle cleaning in any situation or place. The 4 l synthetic dust bag improves filtration, and the LED full-bag indicator shows when the bag needs to be replaced and hygienically disposed of.

BAGLESS VACUUM CLEANERS

The idea behind these modern appliances, which also feature A-rating performance, HEPA filtration and quiet operation, is to keep all the benefits of classic vacuum cleaners while saving money on bags.

SAVE MONEY,
GO BAGLESS'

BAGLESS VACUUM CLEANERS

Great cleaning results without the extra cost of bags? Absolutely, with SENCOR bagless vacuum cleaners! Their dust containers are large enough to capture dirt particles throughout your household, while its transparent material allows you to see if anything gets trapped inside. The finest dust and even larger particles are securely sealed in, which is supported by the Clean Air HEPA H13 filter, ensuring optimal filtration suitable for allergy sufferers.

Moreover, no matter how full the dust container gets, the multicyclone system ensures full suction power. SENCOR premium bagless vacuum cleaners are proudly rated 4AAAA in energy consumption, carpet cleaning, hard floor cleaning performance and dust re-emission to deliver uncompromising results, while even the basic models deliver good value at a reasonable price.

WHY CHOOSE A SENCOR BAGLESS VACUUM CLEANER?

- Multi-cyclone technology prevents any loss of suction performance
- 4AAAA ECO Power for excellent cleaning performance on any surface
- Complete Care with accessories for best results on any task around the home, pets and cars
- Clean Air HEPA H13 filter for filtration suitable for allergy sufferers
- Lower operating costs - no need to buy bags

CYCLONE AND HEPA FILTRATION

This bagless vacuum cleaner uses the cyclone effect, where centrifugal force separates tiny particles from the air. Most of the particles are trapped in the container, while the few remaining tiniest particles are handled by the HEPA filter to ensure uncompromising hygiene.

CYCLONE EFFECT

Bagless Vacuum Cleaner

SVC 1080TI 4AAAA ECO POWER

The results delivered by this 4AAAA ECO Power bagless vacuum cleaner will satisfy even the most demanding users. Excellent cleaning performance on any surface and the Complete Care system with all the accessories needed to achieve impressive cleaning results around your home, pet and car make it an unbeatable choice.

Multi-cyclone technology ensures that there is never a loss of suction power, while the Clean Air HEPA H13 filter delivers a filtration level suitable even for allergy sufferers. Greater user comfort is delivered by the low noise level of 78 dB, a generous coverage area of 314 m² and the XXL metal telescopic tube that can be adjusted to any height.

FEATURES

- **SVC 1080TI 4AAAA ECO Power for excellent cleaning performance on any surface**
- **Complete Care with accessories for best results on any task around home, pets, and car**
- **Multi-Cyclone Technology prevents the loss of suction power**
- Clean Air HEPA H13 filter with top filtration suitable for allergy sufferers
- Low noise 78 dB(A) for quiet vacuuming
- 314 m² coverage area for fewer outlet changes
- Action radius of 10 m (7 m cord length)
- XXL, 3.5-litre dust container
- XXL metal telescopic tube for customisable, ergonomic height
- Horizontal parking for easy storing or breaks during vacuuming
- Soft wheels for floor protection and quiet movement
- Automatic cord winder
- Electronic power regulation

Multi-Cyclone System

Our most advanced bagless technology separates dust from the airflow in multiple small cyclones. The multiple filtration method ensures strong and continuous suction performance, even when the dust container is full.

HARD FLOOR NOZZLE

The nozzle ensures gentle, silent and perfect cleaning, thanks to its 100% natural hair fibers, providing delicate cleaning on all hard floors, including wood, floating floors, tiles, linoleum and marble.

THE EXTRA-LONG, FLEXIBLE CREVICE

Nozzle is extremely helpful in reaching anywhere inside a car, even those very hard-to-reach places.

MINI TURBO BRUSH

The Mini Turbo Brush is the best tool for cleaning up pet hair and vacuuming hard-to-reach areas. It's the perfect nozzle for vacuuming up hard-to-remove fibers from car seats, upholstery, stairs, pillows and any other textile surfaces.

TURBO BRUSH

The powerful rotating brush is perfect for deep cleaning carpets and rugs and the easy removal of hair, pet hair, fibers, etc. Cleaning is quicker and more effective. The gentle brushing action increases vacuuming effectiveness by up to 25%.

HEPA FILTER

The high-quality HEPA H13 filter captures even the smallest dust and dirt particles to provide a healthy home environment.

ERGONOMIC

The easy-carry and practical handle is combined with an upper handle that ensures the easy emptying of the dust container.

ACCESSORIES

1. TURBO BRUSH
2. MINI TURBO BRUSH COMBI FLOOR NOZZLE
3. UNIVERSAL FLOOR NOZZLE WITH EXTENSIBLE BRUSH
4. CREVICE NOZZLE, DUSTING BRUSH
5. HARD FLOOR NOZZLE
6. LONG, FLEXIBLE CREVICE NOZZLE

USE

CORDLESS VACUUM CLEANERS

Imagine an appliance that delivers great vacuuming and mopping results, lets you move as freely as you wish and is light and easy to maneuver. Think of an appliance powerful enough to handle carpets and hard floors with a battery so strong it lasts the entire time you clean your home or car. Picture an elegant product so well manufactured that you can be proud to own and use. Your dream comes true with the SENCOR cordless stick vacuum cleaner.

A woman with long, wavy blonde hair, wearing a white t-shirt and blue jeans, stands barefoot in a bright, modern living room. She is holding a black and yellow cordless stick vacuum cleaner. The room features a large window with blinds, a floor lamp, and a sofa with cushions. The text "BE FREE, BE CORDLESS" is overlaid in large white letters.

BE FREE,
BE CORDLESS

CORDLESS VACUUM CLEANERS

Varied use, numerous surfaces, one product. SENCOR cordless stick vacuum cleaners were designed for great performance on carpets and different types of hard floors, and not only for vacuuming but also mopping in one stroke.

No matter how demanding the conditions, SENCOR cordless stick vacuum cleaners deliver great results thanks to their highly powerful Li-ion battery with a short charging and long running time. The rotary brush with an independent motor and a nozzle with LED lighting deliver thorough cleaning. The brush collects dirt particles on both hard floors and carpets, while the LED light makes vacuuming dark areas easier. The advanced design of these cordless vacuum cleaners features a 180° radius swivel vacuum nozzle, which combined with their light weight and low centre of gravity, enables excellent control and easy maneuverability.

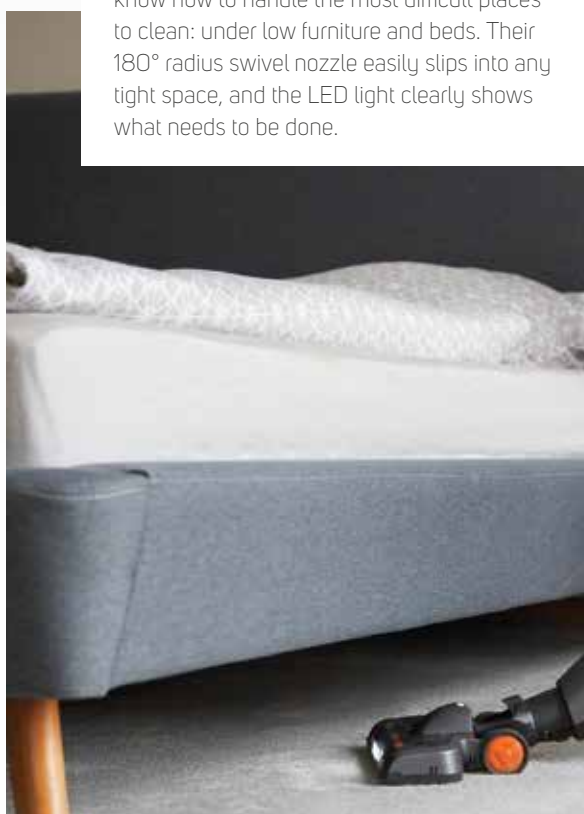

Once the job is finished, a smart disassembly system and self-standing function make maintenance and storage truly easy.

WHY CHOOSE A SENCOR CORDLESS STICK VACUUM CLEANER?

- Absolute freedom of movement with no power cord
- Varied use: hard floor and carpet cleaning, mop function, hand unit for small and outside-the-home jobs
- Rotary brush with an independent motor and nozzle with LED lighting for thorough vacuuming
- Excellent control and easy maneuverability around furniture, thanks to a 180° radius swivel vacuum nozzle and the light weight of the vacuum cleaner

EASY SOLUTION

SENCOR cordless stick vacuum cleaners know how to handle the most difficult places to clean: under low furniture and beds. Their 180° radius swivel nozzle easily slips into any tight space, and the LED light clearly shows what needs to be done.

TRICKY PLACES

Cordless Stick Vacuum Cleaner

SVC 0825WH all-in-one

The SVC 0825 is an all-in-one appliance powered by a 380 W, extra-strong, latest-technology, digital BLDC motor. In fact, it is a set of two cleaners with plenty of accessories on top. One is a versatile stick cleaner with all of the accessories you can imagine, while the other is a revolutionary active floor washer, ready for vacuuming and wet cleaning during your everyday, household upkeeping.

Soup or coffee spilled on the floor, no problem. The Aqua8 system will vacuum and clean it all. Pet owners will appreciate its "Cat&Dog Mini" motorised power brush for the hand unit, removing pet hair from your upholstered furniture with ease. The SVC 0825 offers excellent control and easy manoeuvrability around furniture, thanks to its 180° radius swivel vacuum nozzle and lightweight vacuum cleaner body and tube. This makes high-reach cleaning a lot easier too.

FEATURES

- **High performance, 380 W digital BLDC motor**
- **Cordless vacuum cleaner; all-in-one with removable hand unit**
- **Full-fledged extractor unit AQUA 8 (spray, clean, vacuum liquids) with 2-tank system (0.4 l clean water tank and 0.4 l recovery tank)**
- For all types of surfaces including wet cleaning for hard floors
- Extra lightweight ERGO FLEX 90° foldable tube
- Bagless technology, dust container volume: 0.5 l
- Light, quiet and easy to control
- Rotary brush with an independent motor for uncompromised results
- Removable hand unit with "Cat&Dog Mini" Motorised Power Brush
- Two very powerful 25.2 V Li-ion batteries with LED indicator
- Short charging time (4 hours) and long operating time (up to 2× 25 minutes)
- Charging base with an integrated accessory holder and second battery charger
- 2-speed operation: high power, extended vacuuming time
- HEPA cyclonic filtration system
- Nozzle with LED lighting

**ACCESSORIES**

1. CAT&DOG MINI MOTORISED ROTATING BRUSH
2. UPHOLSTERY AND DUSTING BRUSH COMBINATION
3. CREVICE NOZZLE
4. SOFT DUSTING AND BOOKSHELF BRUSH
5. MULTI-ANGLE BRUSH ATTACHEMENT
6. FLEXIBLE HOSE
7. FLEXI REACH - LONG, FLEXIBLE CREVICE NOZZLE

MOTORISED BRUSH WITH LED LIGHTS

The motorised rotating brush ensures outstanding results on any type of floor and improves the vacuuming of dirt from carpets, all with unparalleled manoeuvrability.

INNOVATIVE, 380 W DIGITAL BLDC MOTOR

High performance and powerful suction with up to 80,000 RPM. Less rotating parts ensures a long motor life.

INTEGRATED LED SPOT LIGHTS

Dirt is no longer difficult to see thanks to the LED light. The motorised rotating brush ensures outstanding results on any type of floor.

FLEXI REACH

A long, flexible crevice nozzle to reach anywhere. Behind the heating panel or cabinet or under the car seat, no place is unreachable.

ERGO FLEX

With the Extra Lightweight ERGO FLEX 90 foldable tube, no place is difficult to reach. You can get under the lowest furniture with ease.

MULTI - ANGLE BRUSH ATTACHMENT

The multi-angle brush attachment makes high-reach cleaning a lot easier. Great for keeping ceiling fans, lighting, and furniture tops dust-free.

CHARGING STAND WITH SECOND BATTERY

The practical stand holds plentiful accessories in a single place once charging the second battery.

CAT&DOG MINI MOTOR BRUSH

The detachable hand unit with the Cat&Dog Mini brush is the ultimate tool for picking up pet hair and deep cleaning upholstered furniture or car seats.

WET&DRY EXTRACTOR AQUA 8

AQUA 8 with convenient 2-tank system: Permanent wetting of the rollers from the pure water tank while the dirt is collected in the waste water tank. The Self Cleaning Roller Brush will power clean hard floors and refresh your carpets with the speed of 3000 RPM.

Cordless Stick Vacuum Cleaner

SVC 0725BK 4-in-1

The 4-in-1 cordless vacuum cleaner SVC 0725BK powered by a cutting-edge, 400 W, digital brushless motor delivers excellent results smoothly and easily. It is light, quiet, and easy to control, which makes it an ideal appliance for everyday cleaning of all types of surfaces or high-reach cleaning. The mopping function delivers a perfectly clean hard floor!

Its removable hand unit in combination with the plentiful accessories allows you to quickly eliminate dirt and dust from furniture, tables or cars. When connected to the "Cat&Dog Mini" motorised power brush, it removes all the pet hair from your living area, while the integrated UVC light sanitises all cleaned surfaces. The HEPA cyclonic filtration system and bagless technology make it a superb choice for any household.

FEATURES

- **Cordless 4-in-1 stick vacuum with detachable handheld unit and wiping function**
- **High-performance, long-life digital motor with 400 W of power**
- **Powerful 25.2V Li-ion battery with a high capacity of 2500 mAh**
- **Short charging time (4 hours) and long operating time (up to 50 minutes)**
- High-performance HEPA cyclonic filtration system
- Removable hand unit with "Cat&Dog Mini" Motorised Power Brush with sanitising UVC light
- 360° technology allows you to reach every corner from the floor to the ceiling
- Rotary brush with an independent motor for thorough cleaning
- Excellent control and easy manoeuvrability (180° radius swivel)
- XL dust container volume: 0.5 l
- 3-speed operation: Turbo, high power, extended vacuuming time
- Noise level: 79 dB

THE COMBINATION OF THE POWER FROM THE 400W DIGITAL MOTOR AND THE PERFORMANCE OF THE 3-FOLD CYCLONIC HEPA FILTRATION SYSTEM ENSURES STRONG SUCTION AND CLEAN AIR, LEAVING THE VACUUM CLEANER

MOPPING

The mopping function delivers a perfectly clean floor! Wet cleaning removes even the finest particles and leaves the floor spotless.

INNOVATIVE, 400 W DIGITAL MOTOR

High performance and powerful suction with up to 100,000 RPM. Less rotating parts ensure a long motor life.

CAT&DOG MINI MOTOR BRUSH WITH UVC LIGHT

The Cat&Dog Mini brush with UVC light is the ultimate tool for picking up pet hair and deep cleaning upholstered furniture or car seats.

UVC LIGHT

The addition of UVC light to the brushing and suction of vacuum cleaner can almost double the removal of potentially infectious microorganism from the cleaned surface.

ACCESSORIES

1. WALL-MOUNTED CHARGING STATION
2. SOFT DUSTING AND BOOKSHELF BRUSH
3. COMBINED UPHOLSTERY AND DUSTING BRUSH
4. COMBINED CREVICE AND DUSTING BRUSH
5. FLEXIBLE HOSE
6. MULTI-ANGLE BRUSH ATTACHMENT
7. HAND UNIT WITH THE CAT&DOG MINI BRUSH

Cordless Stick Vacuum Cleaner

SVC 8725GD 3-in-1

The state-of-the-art 400-watt digital motor powers this 3-in-1 stick vacuum cleaner to deliver excellent cleaning results. SVC 8725GD is lightweight, quiet, and easy to handle, making it the ideal appliance to clean all types of surfaces or difficult-to-reach areas.

Its removable unit and wide range of accessories allow you to quickly remove all dirt and dust from furniture, tables, or out of the car. Moreover, with the Cat&Dog motorised brush, you can easily vacuum up any pet hair.

FEATURES

- **Detachable handheld unit**
- **High-performance, long-lasting digital motor with 400 W of power**
- **Powerful 25.2V Li-ion battery with a high capacity of 2500 mAh**

- Three-level HEPA cyclone filtration system
- Rotary brush with independent motor ensuring excellent results on any type of floor
- The Cat&Dog Mini motorised brush for the detachable hand
- 360° technology allowing excellent maneuverability
- Bagless technology, XL dust container (0.5 l)
- 3 operating speeds: turbo, high speed, and extended vacuuming time
- Noise level: 79 dB

ACCESSORIES

1. WALL-MOUNTED CHARGING STATION
2. COMBINATION BRUSH FOR UPHOLSTERY AND DUST
3. COMBINATION CREVICE AND DUST BRUSH
4. HANDHELD UNIT WITH THE CAT&DOG MINI BRUSH

**CAT&DOG MINI MOTOR BRUSH**

The Cat&Dog Mini brush is the ultimate tool for picking up pet hair and deep cleaning upholstered furniture or car seats.

Cordless Stick Vacuum Cleaner

SVC 0741YL 3-in-1

● SVC 0740BL ● SVC 0741YL

Vacuum cleaning and wet mopping with absolute freedom of movement is what the 3-in-1 SVC 0741YL cordless stick vacuum cleaner and mop has to offer. This cordless stick vacuum cleaner with a mop and removable hand unit is light, quiet and easy to operate. The appliance provides a fast and easy solution to everyday vacuuming and mopping in one stroke on all types of hard floors. Moreover, its removable hand unit delivers convenient cleaning of dirt and dust from furniture or cars.

The powerful Li-ion battery (2200 mAh) has a short charging time of 4–5 hours and a long running time of up to 85 minutes. Uncompromising hygiene is ensured by the HEPA cyclone filtration system. A rotary brush with an independent motor delivers outstanding performance on any type of floor and improves the vacuuming of dirt from carpets. The nozzle with an LED light and a 180° radius swivel easily eliminates even the finest dust in the darkest corners.

FEATURES

- **3-in-1 cordless stick vacuum cleaner with wet mopping function and a removable hand unit**
- **Absolute freedom of movement with no power cord**
- **Long running time up to 85 minutes**
- Vacuuming and mopping in one stroke
- Removable hand unit for comfortable furniture and car cleaning
- Rotary brush and nozzle with LED for thorough vacuuming even in darker places
- Ergonomic handle
- Excellent control and easy manoeuvrability around furniture thanks to a 180° radius swivel vacuum nozzle and the low weight of the vacuum cleaner
- Self-standing function for temporary placement and convenient storage
- Very powerful 40.7 V Li-ion battery with a short charging time (4–5 hours)
- HEPA cyclone filtration system for ultimate hygiene
- 2-speed operation: high power, extended vacuuming time
- Supplied accessories: crevice nozzle and dusting brush
- Bagless technology, dust container volume: 0.5 l
- Noise level: 75 dB
- Weight: 3 kg

SELF-STANDING

Taking a short break during chores has never been this simple. With the self-standing function, the cordless vacuum cleaner is easy to place and store.

LED LIGHTING

Dirt is no longer difficult to see thanks to the LED light. Moreover, the nozzle gets under furniture with unparalleled manoeuvrability.

MOPPING

The mopping function delivers a perfectly clean floor! Wet cleaning removes even the finest particles and leaves the floor spotless.

HAND UNIT

Very practical whenever there is a small cleaning job around the house or car. The unit detaches easily and is always ready to get to work anywhere.

ACCESSORIES

1. COMBINED CREVICE NOZZLE AND DUSTING BRUSH
2. MOPPING UNIT
3. MOPPING CLOTH

Cordless Stick Vacuum Cleaner

SVC 0625AT 4-in-1

This 4-in-1 cordless stick vacuum cleaner delivers absolute freedom of movement without a power cord. Since it is light, quiet and easy to use, it makes everyday cleaning of all floor types fast and easy. Its removable hand unit equipped with the “Cat&Dog Mini” motorised brush is the ultimate tool for picking up pet hair, deep cleaning upholstered furniture and thoroughly maintaining car seats.

The appliance is powered by a 25.2 V Li-ion battery with a short charging time (4–6 hours) and long running time (up to 50 minutes). The rotary brush with an independent motor delivers excellent results, while the nozzle with an LED light exposes even the finest dust, making vacuuming darker areas more thorough.

The bagless technology features a 0.5 l dust container that is easy to remove and empty thanks to a simple detachment system.

FEATURES

- **4-in-1 cordless stick vacuum cleaner with a removable hand unit**
- **Absolute freedom of movement with no power cord**
- **Long running time of up to 50 minutes**
- Removable hand unit with Cat&Dog rotary brush driven by an independent motor

ACCESSORIES

1. CREVICE NOZZLE
2. DUSTING BRUSH
3. CHARGING BASE

**BRUSH EASY CLEAN**

This system continuously keeps the brush clean and free of entwined hairs or fibers. Once the cordless vacuum cleaner is docked in the charging station and activated, the unwanted hair is cut and vacuumed into the dust container.

**EASY REACH**

With the Ergo Clean foldable handle, no place is difficult to reach. It changes position to fit under furniture as needed.

Cordless Stick Vacuum Cleaner

SVC 8621TI 2-in-1

Whether used at home or for car cleaning, this 2-in-1 cordless stick vacuum cleaner with a detachable hand unit delivers great results. The rotary brush is powered by an independent motor that improves vacuuming and ensures perfect performance on any type of hard floor.

The nozzle with an LED light helps to uncover dust in unlit areas. Interrupting your vacuuming is no problem with the self-standing function. The 180° radius swivel vacuum nozzle and light weight provide excellent control and easy maneuverability under and around furniture. The ergonomic handle contributes to overall comfort during the cleaning. The cordless stick vacuum cleaner operates at two speeds: the power option is suitable for intensive cleaning, while the other speed extends vacuuming time.

FEATURES

- **2-in-1 cordless stick vacuum cleaner**
- **Absolute freedom of movement with no power cord**
- **Long running time of up to 50 minutes**
- Removable hand unit for convenient furniture and car cleaning
- Rotary brush and nozzle with LED for thorough vacuuming even in unlit areas
- Ergonomic handle
- Excellent control and easy manoeuvrability around furniture, thanks to the 180° radius swivel vacuum nozzle and the light weight of the vacuum cleaner
- Self-standing function for temporary placement and convenient storage
- Powerful 21.6 V Li-ion battery with charging time of 4-6 hours
- HEPA cyclone filtration system for ultimate hygiene
- 2-speed operation: high power, extended vacuuming time
- Accessories included: crevice nozzle and dusting brush
- Bagless technology, dust container volume: 0.5 l
- Noise level: 78 dB
- Weight: 2.4 kg

ACCESSORIES

1. CREVICE NOZZLE
2. DUSTING BRUSH
3. CHARGING BASE

**EASY CLEAN**

The cyclonic HEPA filtration system is essential for efficient dust separation. This advanced bagless technology also features easy dust container emptying and filter cleaning.

**DETACHABLE UNIT**

The hand unit can handle any small and fast cleaning task inside or outside the home.

Cordless Stick Vacuum Cleaner

SVC 8618GD 2-in-1

When it comes to practicality, this 2-in-1 cordless vacuum cleaner is definitely a great choice. The removable hand unit makes furniture and car cleaning very easy, the nozzle with LED light helps to take care of unlit areas, while the 180° radius swivel vacuum nozzle provides unrivaled maneuverability around furniture.

The rotary brush with an independent motor ensures outstanding results on any hard floor and improved carpet cleaning. Chores can be easily interrupted if needed: the self-standing function enables both temporary placement and convenient storage.

This vacuum cleaner features a powerful 18 V Li-ion battery that charges in just 4–6 hours and provides the appliance with up to 45 minutes of running time.

FEATURES:

- **2-in-1 cordless stick vacuum cleaner with a removable hand unit**
- **Absolute freedom of movement with no power cord**
- **Long running time of up to 45 minutes**

WET&DRY VACUUM CLEANERS

SENCOR multifunctional wet&dry vacuum cleaners are like no other. They vacuum various floor surfaces, wash carpets and upholstery and even clean windows. All this with top filtration to ensure results suitable even for allergy sufferers.

CLEAN IT, WASH IT,
LOVE IT!

WET&DRY VACUUM CLEANERS

SENCOR multi-functional Wet&Dry vacuum cleaners are ready to make everyone's lives easier. Carefully designed and precisely manufactured, these unique household helpers can vacuum and wash hard floors, carpets and upholstery, remove liquids from surfaces and even clean windows! Moreover, all necessary accessories are included so you can take care of all your chores at no additional cost.

The powerful motor drives an efficient dual-filtration system that combines the effects of both cyclone and water filtration in a single tank. Allergy sufferers will be pleased by the washable HEPA E12 filter that ensures optimal filtration suitable for even their health condition.

The generous length of the power cord and XXL extra-lightweight ALU telescopic tube, which can be ergonomically adjusted to suit the height of any user, make every space easy to reach and thoroughly clean. Convenient operation is augmented by horizontal parking for easy storage or breaks during vacuuming, while the soft wheels protect the floor from scratches and make movement as quiet as possible.

WHY CHOOSE A SENCOR WET&DRY VACUUM CLEANER?

- Complete Care + Wet&Dry for best results on any task around your home, pets and car
- Vacuums and washes hard floors, carpets and upholstery, removes liquids from surfaces and even cleans windows
- Powerful motor with a 6-year warranty
- Dual-filtration system combining the effects of both cyclone and water filtration
- Washable HEPA E12 filter ensuring top filtration
- All necessary accessories included
- Impressive action radius and coverage area

AMPHIBIAN VACUUM CLEANER

WHEN WATER HELPS

In addition to delivering perfect dry vacuuming results, these vacuum cleaners wet-clean floors, clean upholstery and even do the windows with little effort!

Wet&Dry Vacuum Cleaner

SVC 5000BL

● SVC 5000BL ● SVC 5001YL

As its name promises, this multi-functional Wet&Dry vacuum cleaner is ready to help wherever needed. The ability to vacuum and wash hard floors, carpets and upholstery, remove liquids from surfaces and even clean windows means this appliance will soon become indispensable in every home.

Its powerful motor with a 6-year warranty provides the extra power of 1600 W, which can be regulated and controlled with an LED display. A dual-filtration system combines the power of the cyclone and water filtration in a single tank, also augmented by a washable clean air HEPA E12 filter to ensure the best filtration suitable even for allergy sufferers.

A generous power cord with automatic winder provides a wide action radius of 9 meters and 254 m² coverage area, meaning faster and more convenient cleaning thanks to limited outlet switches. The XXL, extra-lightweight ALU telescopic tube can be ergonomically customised, while horizontal parking makes storage and breaks during vacuuming much easier. Soft wheels for floor protection and quiet movement also deliver convenient use.

FEATURES

- **Complete Wet&Dry care for home, car and pets with all accessories included**
- **Dual filtration system combining the power of the cyclone and water filtration in a single tank**
- **Power edition uses 1600 W for excellent cleaning performance on any surface**
- Washable clean air HEPA E12 filter ensures the best filtration suitable for even allergy sufferers
- XXL, extra-lightweight ALU telescopic tube for custom ergonomic operating height
- 6-year motor warranty
- Horizontal parking for easy storage or breaks during vacuuming
- Soft wheels for floor protection and quiet movement
- Universal floor nozzle with extensible brush
- Action radius of 9 m (6 m cord length) and 254 m² coverage area for fewer outlet changes
- Electronic power regulation with LED display
- Noise level 90 dB(A)

**DUAL SYSTEM CYCLONE & WATER FILTRATION**

A combination of cyclone and water filtration together in one tank. The primary cyclone separates large dust particles from the air, while fine dust is separated by the water filter in the tank. The washable HEPA E12 filter ensures top filtration suitable for allergy sufferers.

WET CLEAN UPHOLSTERY NOZZLE

This nozzle is perfect for thorough and deep cleaning of upholstery. Using a cleaning solution via the integrated spray nozzle, it quickly and thoroughly removes stains and traces of dirt. Spray, clean and vacuum in one go.

TURBO BRUSH

The powerful turbine-driven rotating brush is perfect for deep cleaning carpets and rugs and the easy removal of hair, pet hair, fibers etc. Cleaning is quicker and more effective. The gentle brushing action increases vacuuming effectiveness by up to 25%.

HARD FLOOR NOZZLE

This nozzle ensures gentle, silent and perfect cleaning, thanks to its 100% natural hair fibers for the soft cleaning of all hard floors including wood, floating floors, tiles, linoleum and marble.

WET CLEAN FLOOR- CARPET NOZZLE

This nozzle is perfect for the thorough and deep cleaning of carpets. Using a cleaning solution via the integrated spray nozzle, it quickly and thoroughly removes stains and traces of dirt. Spray, clean and vacuum in one go.

LONG, FLEXIBLE CREVICE NOZZLE

The extra-long, flexible crevice nozzle helps you to reach everywhere inside a car, even those very difficult-to-reach places.

THE WET CLEAN FLOOR & WINDOW NOZZLE

The hard floor attachment for the wet floor nozzle is the perfect solution for wet window cleaning and mopping sealed hard floors. The cleaning solution sprayed on floors or windows via the integrated spray nozzle quickly and thoroughly removes stains and traces of dirt. Spray, wipe and vacuum in one go.

Wet&Dry Vacuum Cleaner

SVC 3001

Whether dry or wet, coarse or fine, SENCOR Wet&Dry vacuum cleaners remove any kind of dirt.

Thanks to the extra-large capacity of the 30-litre container, they can easily handle larger amounts of water as well. They are ideal for your car, garage, cellar, workshop, for renovations and anything else around the house.

FEATURES

- **1400 W of power**
- **5-step filtration system with washable microfilter**
- **Metal telescopic tube**
- 250 W of suction power
- Washable, inflow microfilter
- Washable, outflow microfilter
- Soft Start function (does not overload the el. grid during motor start-up)
- Rubber coated wheels for easier handling and protection of floating floors
- 5-step filtration system
- 1 docking position for the floor nozzle
- Action radius of 7.5 m (5 m cord length)
- Universal Floor Nozzle with an Extensible Brush
- Special nozzle for vacuuming water
- Accessories stored inside
- Volume of dust bag: 7.5 l
- Volume of container for wet vacuuming: 16 l
- Capacity of the container: 30 l
- Noise level: < 77 dB

**ACCESSORIES**

1. UPHOLSTERY NOZZLE
2. UNIVERSAL FLOOR NOZZLE
3. CREVICE NOZZLE
4. DUSTING BRUSH
5. WET CLEAN FLOOR NOZZLE

ACCESSORIES

UNIVERSAL FLOOR NOZZLE

This universal nozzle is highly effective on carpets and hard floors. Simple to set up for both types of floors with large wheels for easier operation.

HARD FLOOR NOZZLE

This nozzle ensures gentle, silent and perfect cleaning, thanks to its 100% natural hair fibers for the soft cleaning of all hard floors including wood, floating floors, tiles, linoleum and marble.

TURBO BRUSH

The powerful turbine-driven rotating brush is perfect for deep cleaning of carpets and rugs and the easy removal of hair, pet hair, fibers etc. Cleaning is quicker and more effective. The gentle brushing action increases vacuuming effectiveness by up to 25%.

MINI TURBO BRUSH

The Mini Turbo Brush is the best tool for cleaning up pet hair and fur as well as vacuuming hard-to-reach areas. The perfect nozzle to use for removing difficult fibers from car seats, upholstery, stairs, pillows or any other textile surfaces.

LONG FLEXIBLE CREVICE NOZZLE

The extra-long flexible crevice nozzle helps you to reach everywhere inside a car, even those very difficult-to-reach places.

CREVICE NOZZLE

The crevice nozzle makes vacuuming hard-to-reach areas, corners and crevices easy.

DUSTING BRUSH

The dusting brush allows you to easily remove dust from your furniture, books and picture frames.

UPHOLSTERY NOZZLE

This small nozzle with a lint-catching fabric strip is perfect for picking up pet hair or dust from sofas, cushions, mattresses and car seats.

WET CLEAN FLOOR NOZZLE

The wet nozzle for Wet&Dry cleaners can be used for vacuuming water or other liquids from the floor or wet hard-floor cleaning.

Mop Function

ROBOTIC VACUUM CLEANERS

A robot taking care of a perfectly clean floor? It's not just science fiction, but the daily routine of SENCOR robotic vacuum cleaners that deliver uncompromising vacuuming and flawless mopping. Modern technologies meet precise manufacturing resulting in automatic vacuum cleaners with long service lives that are able to handle daily chores with no effort from their owners.

A robotic vacuum cleaner is positioned in the bottom left corner of the frame, resting on a light-colored, large-tiled floor. In the background, a dark-colored sofa is visible, and a large window with sheer curtains allows bright, natural light to fill the room. The overall atmosphere is clean and modern.

LET
THE ROBOTIC
VACUUM AND
MOP, **WHILE**
YOU LIVE!

ROBOTIC VACUUM CLEANERS

SENCOR robotic vacuum cleaners have been carefully designed to deliver thorough vacuuming and meticulous mopping. With its set of special central and side brushes, this useful helper travels to every area and corner to make it perfectly clean, regardless of the surface. Perfect results are guaranteed on carpets (up to 2 cm high), floating floors, parquet floors, linoleum, tile floors and other surfaces. The user can choose from among the pre-set programmes for those that best suit their cleaning needs..

State-of-the-art technologies, including laser gyroscope navigation, ensure accurate orientation in space. The timer can be set as needed so that SENCOR robotic vacuum cleaners can be set to start their work on any selected day, hour and minute with a frequency defined by the user: only one day or multiple days per week, working days or weekends only. The powerful battery allows the appliance to operate for up to 120 minutes per charge. Moreover, the DIGITAL motor is so quiet that it can be comfortably used even in households with pets, and its construction ensures a long service life. The device can be controlled via a Wi-Fi mobile phone application or remote control.

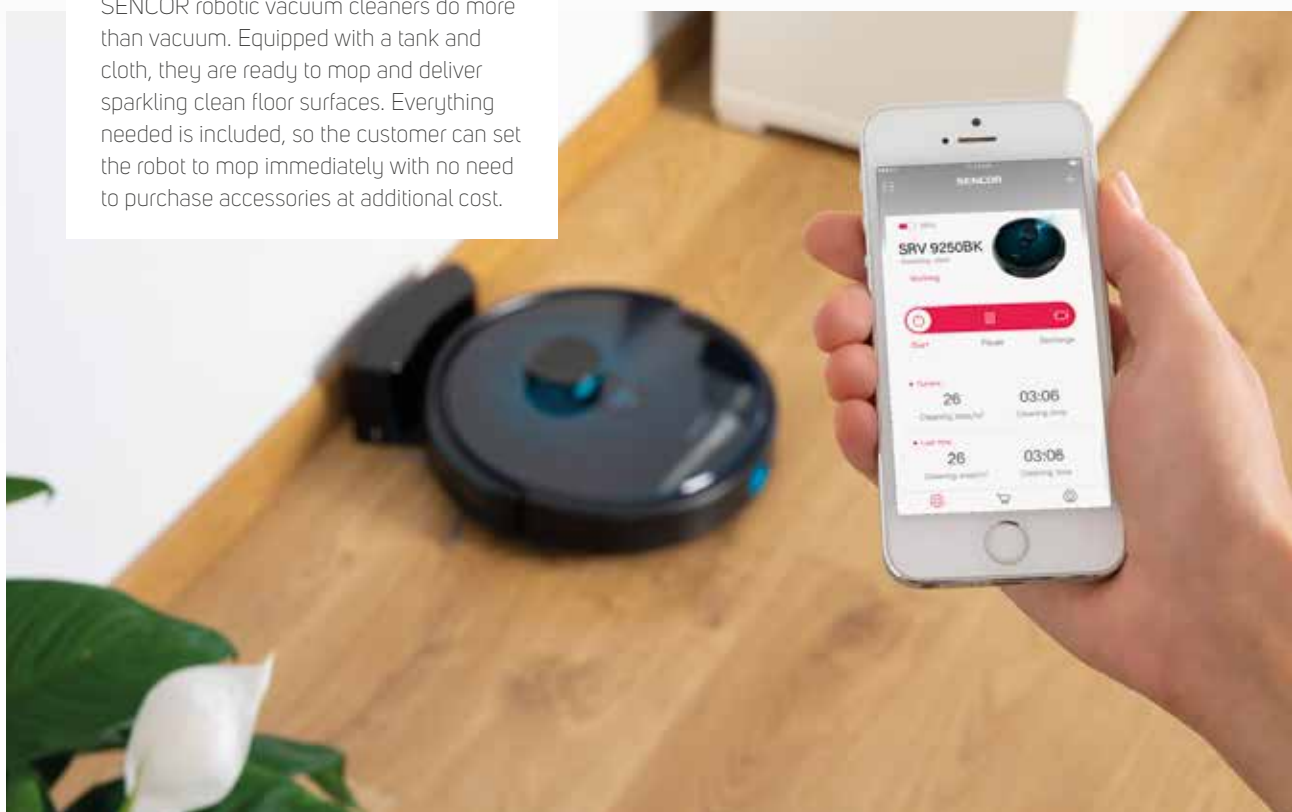

WHY CHOOSE A SENCOR ROBOTIC VACUUM CLEANER?

- Vacuuming and mopping functions
- State-of-the-art laser gyroscope navigation
- Ideal for carpets, floating floors, parquet floors, linoleum, tile floors, etc.
- Advanced orientation in space and anti-impact sensors
- Very quiet operation suitable for use around household pets
- DIGITAL motor for a long service life
- Up to 120 minutes of operation per charge
- Controlled by Wi-Fi mobile phone application or remote control

SPARKLING CLEAN FLOOR

SENCOR robotic vacuum cleaners do more than vacuum. Equipped with a tank and cloth, they are ready to mop and deliver sparkling clean floor surfaces. Everything needed is included, so the customer can set the robot to mop immediately with no need to purchase accessories at additional cost.

EFFORTLESS MOPPING

Robotic Vacuum Cleaner

SRV 9550 BK

Your life is about to change when you get a robotic vacuum cleaner. This ingenious device will work hard to welcome you home to a vacuumed and wiped floor every time you return.

The SRV 9550 uses 8000 Pa SUPER CYCLONE suction power, which makes it ideal for cleaning carpets, floating, parquet, or linoleum floors, and floor tiles. Advanced navigation based on the SENCOR Nav. guidance system ensures exquisite orientation in space and a wide range of sensors manage worry-free use even around obstacles and in multi-floor buildings. The mop function uses the included water tank and wiping cloth, and the water flow is controlled by an electric pump in which multiple water intensities can be set to deliver perfect results. Programmes and cleaning schedules can be comfortably controlled by a Wi-Fi mobile phone application. As the robotic vacuum cleaner features a wet mopping option, the water tank and mopping cloth are included to be ready to do the chores instantly, with no need to buy extra accessories. Water flow is controlled by an electric pump with 3 different water power intensities to be set and the ZigZag program takes care of flawless floor cleaning.

The cleaning starts automatically on a set day, hour, and minute at a frequency defined by the user: only one day or multiple days in the week, working days or weekends only. The device is controlled using a Wi-Fi mobile phone application or a separate remote control.

**FEATURES**

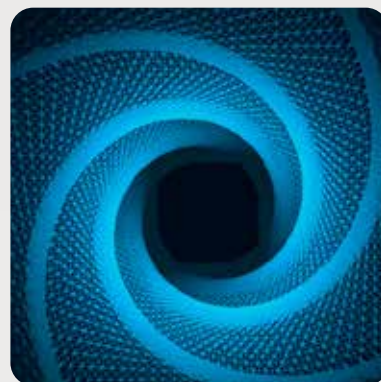

- **8000 Pa SUPER CYCLONE suction power**
- **Ideal for any surface, wet wiping option**
- **Very quiet operation suitable for household pets**
- Infrared anti-impact front sensor
- 65 W DIGITAL motor for long lifetime
- SENCOR Nav. guidance system and active space mapping system
- MULTI-ROOM: Possibility to set the optimum cleaning for each room separately
- MULTI-MAPPING: maps up to 5 different floors
- Two rotary brush central vacuum cleaner system
- Operating time of up to 200 minutes per single charge
- Remote controlled using Wi-Fi mobile phone application

LIDAR AND GYROSCOPIC NAVIGATION

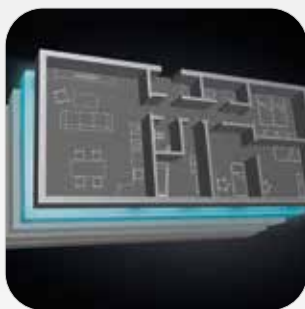

Both the laser and gyroscope ensure perfect orientation in space, making the cleaning faster and more precise.

MOP WITH WATERFLOW CONTROL

The mopping function ticks another chore off your to-do list, leaving the floor spotless and sparkling.

8000 PA SUPER CYCLON

Extremely powerful suction system with cyclone technology.

MULTI-MAPPING

Choice of up to 5 different maps (house floors or different apartments)

MULTI-ROOM

Possibility to set the optimum cleaning for each room separately

CONTROL

Be in control with a Wi-Fi mobile phone application or a remote control.

POWERFUL BATTERY

The powerful 6400 mAh battery ensures the high coverage on one charge.

DIGITAL MOTOR

New generation motor ensuring long life durability.

UNLIMITED m²

If necessary, the robotic vacuum cleaner will search for the docking station, and once it fully recharges, it automatically continues to clean where it left off.

STAIR SENSOR

Enables worry-free use in multi-floor buildings, preventing the vacuum cleaner from falling down the stairs.

HEPA FILTER

The high-quality HEPA filter absorbs the smallest dust and dirt particles to provide healthy environment.

Robotic Vacuum Cleaner

SRV 9250BK

The advanced technologies used in this robotic vacuum cleaner guarantee the carpets, floating floors, parquet floors, linoleum, and floor tiles will be vacuumed and mopped with uncompromising results.

Its active space mapping and SENCOR Nav. guidance system deliver precise orientation in space. The accuracy of the guidance system is ensured by LIDAR laser navigation, gyroscope, infrared sensors, step-detection and other sensors. The bumper bar sensor detects obstacles, while the stair sensor enables worry-free use in multi-floor buildings, and a sensor for accurate navigation ensures an automatic return to the docking station. Thorough cleaning is a must, and therefore, the powerful central vacuum cleaner with a combination rotary brush is supported by rotary side brushes for perfect cleaning in corners. As the robotic vacuum cleaner features a wet mopping option, the water tank and mopping cloth are included to be ready to do the chores instantly, with no need to buy extra accessories. The water flow is controlled by an electric pump with 3 different water power intensities to be set, and the ZigZag programme takes care of flawless floor cleaning. The cleaning starts automatically on a set day, hour, and minute at a frequency defined by the user: only one day or multiple days in the week, working days or weekends only. The device is controlled using a Wi-Fi mobile phone application or a separate remote control.

**FEATURES**

- **Vacuuming and mopping functions**
- **A powerful central vacuum cleaner with a combination rotary brush and rotary side brushes**
- **Water tank and mopping cloth included**
- 3 water power intensities and ZigZag programme for thorough mopping
- Controlled by Wi-Fi mobile phone application or a separate remote control
- MULTI-ROOM: Possibility to set the optimum cleaning for each room separately
- MULTI-MAPPING: maps up to 5 different floors
- Variable timer setting to suit the user's needs
- Infrared anti-impact front sensor to detect any obstacle
- Very quiet operation suitable for household pets
- Long lifetime DIGITAL motor with a quiet operation (under 65 dB)
- Advanced SENCOR Nav. guidance system
- Up to 120 minute cleaning time per single charge

LIDAR AND GYROSCOPIC NAVIGATION

Both the laser and gyroscope ensure perfect orientation in space, making the cleaning faster and more precise.

MOP WITH WATERFLOW CONTROL

The mopping function ticks another chore off your to-do list, leaving the floor spotless and sparkling.

MOBILE APP REMOTE OPERATION

Control the robotic vacuum cleaner with a simple touch of the screen: the mobile app will clearly offer all setting possible.

Robotic Vacuum Cleaner

SRV 9200BK

With its precise LIDAR laser navigation, this robotic vacuum cleaner will cruise throughout your home, leaving all floor surfaces perfectly clean.

Thanks to its advanced technical solution, the SRV 9200 is extremely powerful and the lifespan of its DIGITAL motor is very impressive. Its five different operation modes will respond to every cleaning situation it is challed with, and its high-quality HEPA filter will capture even the smallest particles of dust and allergens. Its mobile app can be customised allowing features and modes to be set to your preference, whilst the battery level and activity performed can also be monitored.

FEATURES

- **Ideal for cleaning carpets, floating floors, parquet floors, linoleum, floor tiles, etc.**
- **Very quiet operation suitable for household pets**
- **DIGITAL motor for long lifetime**
- Gyro mapping function and precise LIDAR laser navigation for perfect orientation
- Wi-Fi mobile phone application to control and monitor
- 5 cleaning modes: Auto cleaning, maximum power, silent cleaning, auto-motion, intensive cleaning
- MULTI-ROOM: Possibility to set the optimum cleaning for each room separately
- MULTI-MAPPING: maps up to 5 different floors
- Variable timer settings (start of cleaning on a set day, hour, and minute)
- No-go areas with magnetic tape
- High-quality HEPA filter to capture even the smallest particles of dust and allergens
- Infrared sensors for worry-free movement
- Operation time of up to 120 minutes and automatic return to charging station

LIDAR AND GYROSCOPIC NAVIGATION

Both the laser and gyroscope ensure perfect orientation in space, making the cleaning faster and more precise.

MOBILE APP REMOTE OPERATION

The mobile app clearly offers all possible settings: a simple touch of the screen is enough to control this robotic vacuum cleaner.

Robotic Vacuum Cleaner

SRV 9150WH

Both perfectly vacuumed and wiped floors, that's SRV 9150WH's specialty. Its self-contained active mopping function with different water pressure settings ensures the best cleaning results, while the integrated UV-C light disinfects all surfaces.

Thanks to the Multi-rooming and Multi-mapping function, the cleaning specifications can be set for up to 5 different floors, as well as the optimal cleaning requirements separately for each room. To make using the vacuum cleaner as comfortable as possible, all programmes and cleaning schedules can be selected via the Wi-Fi mobile app.

**SENCOR**

HOME

MAKE YOUR LIFE EASIER WITH THE SENCOR HOME APP

Make your life easier with SENCOR smart appliances that can be controlled using the SENCOR HOME app. Simply download it from Google Play or the App Store and conveniently control your vacuum cleaner and other devices remotely from home, the office, or your weekend house. All you have to do is tap the screen on your mobile phone and the Wi-Fi-connected appliances will set off to do their job for you.

LIDAR AND GYROSCOPIC NAVIGATION

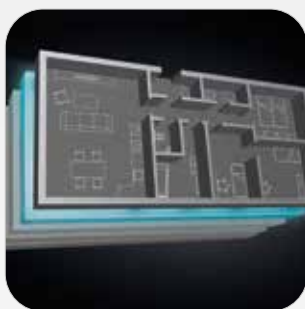

Both the laser and gyroscope ensure perfect orientation in space, making the cleaning faster and more precise.

MOP WITH WATERFLOW CONTROL

The mopping function ticks another chore off your to-do list, leaving the floor spotless and sparkling.

SENCOR HOME APP

Control your vacuum cleaner and other Wi-Fi connected SENCOR products in a single, intuitive app.

MULTI-MAPPING

Choice of up to 5 different maps (house floors or different apartments).

MULTI-ROOM

Possibility to set the optimum cleaning for each room separately.

FEATURES

- **Controlled by the SENCOR Home mobile app**
- **Multi-rooming and Multi-mapping functions to set the optimum cleaning and restricted zones**
- **Active room orientation system (laser, gyroscope, infrared sensors)**
- Sensors for detecting stairs and other obstacles
- Three rotating brush system (rotary brush and side rotary brushes)
- Two separate dust and mopping containers (600 ml and 350 ml)
- Active wet wiping, water flow controlled by an electric pump in three water strengths
- UV-C disinfection light to remove potential infectious organisms
- Powerful 2600 mAh Li-ion battery (full charge in approx. 5 hours)
- Operating time up to 120 min. per charge
- 4 preset programs (spot, edge, auto, zigzag)
- Remote control and WI-FI mobile app

UV-C DISINFECTION LIGHT

The vacuum cleaner is equipped with a high-quality UV lamp. As cleaning, it emits ultraviolet rays that reliably destroy up to 99.9% of viruses, bacteria, moulds and mites, damaging also their ability to multiply. So not only you vacuum and mop, the built-in UV-C light eliminates dangerous microorganisms. All this without any chemicals used, making it suitable for allergy and asthma sufferers. Enjoy healthier and cleaner home environment with perfectly clean and disinfected floor.

Robotic Vacuum Cleaner

SRV 8550BK

A robotic vacuum cleaner with flawless navigation and sufficient suction power? Search no more, the SRV 8550 is here to offer everything you need. Carpets, floating floors, parquet floors, linoleum, floor tiles will be perfectly clean, thanks to its 4000 Pa SUPER CYCLONE suction power and wet wiping option.

The SENCOR Nav. system ensures guidance and orientation in space with gyroscope, infrared sensors, and step-detection and other obstacle sensors, being supported by active space mapping system. The rotary side brush will take care of cleaning in the corners, and the wet wiping option will mop the floor as you wish up to 200 minutes per single charge. Choose a program and schedule the cleaning with a Wi-Fi mobile phone application to enjoy the comfort of totally effortless cleaning.

**FEATURES**

- **4000 Pa SUPER CYCLONE suction power**
- **Ideal for any surface, wet wiping option**
- **Camera system for voice and video interaction**
- Infrared anti-impact front sensor
- Very quiet operation suitable for households with pets
- 65 W DIGITAL motor for long lifetime
- SENCOR Nav. guidance system and active space mapping system
- Two rotary brush central vacuum cleaner system
- Wide range of sensors for trouble-free movement
- Operating time of up to 200 minutes per single charge
- Remote controlled using Wi-Fi mobile phone application

GYROSCOPIC NAVIGATION

The gyroscope navigation with active mapping delivers accurate orientation in space, making the cleaning shorter and more thorough.

MOP WITH WATERFLOW CONTROL

The mopping function ticks another chore off your to-do list, leaving the floor spotless and sparkling.

MOBILE APP REMOTE OPERATION

Control the robotic vacuum cleaner with a simple touch of the screen: the mobile app clearly offers all possible settings.

Robotic Vacuum Cleaner

SRV 6250BK

Have the floor vacuumed and mopped without any effort? No problem with this powerful central vacuum cleaner with combined rotary and side brushes.

The appliance features a mop function that uses seven different water power intensities controlled by an electric pump to deliver outstanding results. The water tank and mopping cloth are included, so no other accessories need to be purchased, and mopping can start straight away.

The SENCOR Nav. guidance system confidently navigates the robotic vacuum cleaner on carpets, floating floors, parquet floors, linoleum, tile floors, etc., even in multi-floor buildings. Guidance and orientation in space is enabled by a gyroscope, infrared sensors, step-detection and other obstacle sensors.

The four programmes designed to cover a maximum area include: along the wall cleaning, spot for targeted cleaning of a 2 m² area, random movement in all directions and linear - ZigZag drive for the best performance.

FEATURES

- **Controlled by remote control and Wi-Fi mobile phone application**
- **GYRO MAPPING** function for precise orientation in space
- **6 pre-set cleaning regimes**
- Very quiet operation suitable for households with pets (<65 dB)
- DIGITAL motor for long service life
- Automatic return to the docking station after cleaning or when the battery is low
- Operating time of up to 120 minutes per charge
- Variable time and frequency settings (automatic start of cleaning on a set day, hour and minute)
- Crosses door thresholds up to 1.5 cm high
- Warning messages on the remote control display and status indicator light on the vacuum cleaner body (stand-by mode, charging, fully charged)
- 2 dust containers: for dry vacuuming (475 ml of dust) and mopping (240 ml for dust & 230 ml water tank)
- Li-ion battery (2600 mAh) fully charged in approx. 5 hours

GYROSCOPE NAVIGATION

The gyroscope navigation with active mapping delivers accurate orientation in space, making the cleaning shorter and more thorough.

MOP WITH WATERFLOW CONTROL

The mopping function ticks another chore off your to-do list, leaving the floor spotless and sparkling.

MOBILE APP REMOTE OPERATION

Control the robotic vacuum cleaner with a simple touch of the screen: the mobile app clearly offers all possible settings.

Robotic Vacuum Cleaner

SRV 4250SL

Combining four different programmes, this robotic vacuum cleaner delivers outstanding results on carpets, floating floors, parquet floors, linoleum, tile floors, etc. The first is based on a movement along walls, while the spot programme is ideal for thorough cleaning of an especially soiled area of 2 m². Movement in numerous directions is ensured by the random option and a linear route of cleaning is driven by the ZigZag programme. The device is ready to mop the floor immediately because both the water tank and mopping cloth are included.

A wide range of sensors ensure precise orientation in space, preventing the vacuum cleaner from hitting obstacles or falling down stairs, as well as bringing the robotic vacuum cleaner back to its docking station once the programme is finished or battery gets low. The user is always aware of the status thanks to the indicator light on the vacuum cleaner body that shows if it is on stand-by mode, charging or fully charged. There is also automatic service monitoring that displays warning messages on the remote control display.

FEATURES

- **Suitable for carpets, floating floors, parquet floors, linoleum, tile floors, etc.**
- **Infrared anti-impact front sensor**
- **Very quiet operation suitable for households with pets**
- DIGITAL motor for long service life
- Two rotary brush system with side brushes for perfect cleaning in corners
- Wet mopping option with water flow controlled by an electric pump
- Variable time and frequency settings
- Running time of up to 120 minutes per charge
- Automatic shut-off if the wheels become blocked
- Crosses door thresholds up to 1.5 cm high
- 2 dust containers: for dry vacuuming (475 ml of dust) and mopping (240 ml for dust & 230 ml water tank)
- Li-ion battery (2600 mAh) fully charged in approx. 5 hours

**SENSORS NAVIGATION**

Cleaning gets faster and more precise with the perfect orientation in space provided by several sensors.

**MOP WITH WATERFLOW CONTROL**

The mopping function ticks another chore off your to-do list, leaving the floor spotless and sparkling.

**MOBILE APP REMOTE OPERATION**

To control and set the robotic vacuum cleaner use the handy app.

Robotic Vacuum Cleaner

SRV 4200

The SRV 4200 is the ideal robotic vacuum cleaner that takes care of carpets, floating floors, parquet flooring, linoleum, tiles, etc.

With its wide range of sensors and infrared anti-impact front sensor, its operation is worry-free as it can detect furniture and other such obstacles, meaning it will avoid stairs and safely return to its docking station. Its very quiet operation makes the SRV 4200 suitable for household pets, while its DIGITAL motor ensures a long lifetime.

**SENSORS NAVIGATION**

Cleaning gets faster and more precise with the perfect orientation in space provided by several sensors.

**FEATURES**

- **Ideal for cleaning carpets, floating floors, parquet floors, linoleum, floor tiles, etc.**
- **Infrared anti-impact front sensor**
- **Very quiet operation suitable for household pets**
- DIGITAL motor for long lifetime
- Powerful central vacuum cleaner with combination rotary brush and side brushes for perfect cleaning
- 4 programmes: Along the wall, Spot, Random, and Linear
- Variable timer settings - start of cleaning on a set day, hour, and minute)
- Controlled using a separate remote control and Wi-Fi mobile phone application
- Overcomes door thresholds of up 1.5 cm in height

MOBILE APP REMOTE OPERATION

To control and set the robotic vacuum cleaner use the handy app.

Robotic Vacuum Cleaner

SRV 2230TI

This powerful central vacuum cleaner is ideal for carpet and hard floor vacuuming (floating and parquet floors, linoleum, tile floors, etc.) and also for wet mopping. Thanks to its very quiet operation, the robotic vacuum cleaner is also suitable for households with pets.

Thorough cleaning is ensured by the rotary central and side brushes, which are able to deliver outstanding performance even in corners. As the water tank and cloth are included, the appliance is ready to mop with no additional expense for accessories. Timing and frequency of automatic cleaning can be set to suit the owner's needs: day, hour, and minute can be selected with the option to operate only one day or several days per week, only during working days or weekends.

**FEATURES**

- **Suitable for carpets, floating floors, parquet floors, linoleum, tile floors, etc.**
- **Infrared anti-impact front sensor, bumper bar and sensor for obstacle detection, stair sensor and sensor for accurate navigation to the docking station**
- **Very quiet operation (noise level <60 dB) suitable for households with pets**
- Vacuuming and mopping of numerous surfaces
- Four programmes for cleaning maximum area: Along the Wall, Spot, Random and ZigZag
- Running time of up to 90 minutes per charge
- Automatic return to the charging station after cleaning or when the battery gets low
- Automatic shut-off if the wheels become blocked
- Warning messages on the remote control display and status indicator light on the vacuum cleaner body (standby mode, charging, fully charged)
- Volume of dust container: 500 ml
- Li-ion battery (2600 mAh) fully charged in approx. 5 hours

**SENSORS
NAVIGATION**

Cleaning gets faster and more precise with the perfect orientation in space provided by several sensors.

**PASSIVE MOP
FUNCTION**

When the water tank and cloth are attached, the robotic vacuum cleaner provides both vacuuming and mopping.

**PREMIUM LI-ION
AKKU**

Only five hours are needed to fully charge this premium Li-ion battery, which powers the device for up to 90 minutes.

Robotic Vacuum Cleaner

SRV 1000SL

A great option for cleaning laminated and wooden floating floors, parquet floors, linoleum, tile floors, etc. Its anti-impact front sensor and very quiet operation ensure comfortable use, while two rotating side brushes deliver perfect performance in corners.

The robotic vacuum cleaner features a mop function with a special anti-static duster, which is included, thus saving any additional costs.

Its operation is as easy and practical as it gets: the appliance has a very simple, single-button control and rubber wheels for smooth movement. Intelligent sensors even protect the device from falling down stairs.

FEATURES

- **Infrared anti-impact front sensor**
- **Mopping cloth included**
- **Li-ion battery (1500 mAh) fully charged in approx. 3 hours**
- Suitable for carpets, floating floors, parquet floors, linoleum, tile floors, etc
- Very quiet operation (65 dB) suitable for households with pets
- Crosses door thresholds of up to 1 cm in height (without duster attached)
- Status and weak battery indicator light on the vacuum cleaner body
- Volume of dust container: 200 ml

**ANTI-IMPACT FRONT SENSOR**

Taking into consideration all obstacles, the anti-impact sensor directs the vacuum cleaner to change course in time.

MOPPING CLOTH

Attaching a cloth upgrades the cleaning to a new level. The floor not only gets vacuumed but also mopped, removing even the finest dust.

1500 MAH LI-ION BATTERY

Up to eighty minutes of cleaning are delivered by the powerful battery, which also charges fast (in just 3 hours).
