# HOW TO SELECT A VACUUM CLEANER?

With so many different types and models, which vacuum cleaner should I choose? The answer lies in user preferences, floor type and size of home. However, multiple specialized appliances deliver the best results and greatest convenience.

When it comes to thorough cleaning, SENCOR bag and bagless vacuum cleaners excel. SENCOR models of bag vacuum cleaners not only provide A-class qualities, but also ensure top hygienic manipulation. Their dust bag increases filtration levels and is easy to change without any direct contact with dirt, which together with HEPA filter highlights its suitability for allergy sufferers. SENCOR premium bag vacuum cleaners also offer extremely quiet operation, easy maintenance and a generous range of accessories, some of which are kept in a handy storage area inside the vacuum cleaner body.

Multicyclone SENCOR bagless vacuum cleaners are ready to deliver the same power regardless how full their special dirt collection container is. They lock in all the dirt without the additional cost of vacuum cleaner bags and allow the user to see how much has been vacuumed up.

Wet and dry vacuum cleaners are able to work both with or without water, which is highly practical when carpets and upholstery need cleaning.

Quick kitchen clean up, car cleaning and reaching spots under furniture all call for a SENCOR cordless vacuum cleaner. They can handle hard-floor and carpet vacuuming, wet mopping and manual cleaning using a detachable unit for small and outside-the-home jobs. Advanced technical features like a nozzle with LED light to help in dark places, HEPA cyclone filtration system and a self-standing function contribute to easy use and precise cleaning.

Enjoy coming home to a clean house by letting a robotic vacuum cleaner do everyday chores for you. The advanced navigation system and powerful Li-ion battery ensure problem-free vacuuming and even mopping.

# UNIQUE FEATURES OF SENCOR VACUUM CLEANERS

All SENCOR vacuum cleaners feature guaranteed high efficiency, precise design and industry-leading health standards. The materials we use, our unique production processes and patented technologies guarantee the high utility value of our products, and make them popular with customers all over the world.

## PERFORMANCE AND EFFICIENCY

Our appliances deliver high performance despite their very low power consumption. The materials used and functional features of SENCOR vacuum cleaners guarantee economical yet effective operation without any compromises.

**ENERGY** – Highest class of energy efficiency

**CARPET** – Highest class of carpet cleaning performance

**HARD FLOOR** – Highest class of hard floor cleaning performance

**CLEAN AIR** – Highest class of filtration efficiency

## AIR FILTRATION

Multi-layered dust microfiber dust bags with antibacterial properties provide the first filter level of unique Clean Air system. HEPA filters that capture even the smallest particles effectively complete optimal filtration. SENCOR vacuum cleaners ensure a healthy and safe home for your entire family.

## QUIET OPERATION

You will definitely appreciate the possibility of vacuuming your home at any time without concerns of waking small children or disturbing other members of your household.

## 6-YEAR MOTOR WARRANTY

Our motors feature high power, efficiency and great quality. We have complete confidence in our products, which is why we offer an **ADDITIONAL** 6-year warranty on the higher-level models of our vacuum cleaners.

A Sencor bag vacuum cleaner is shown on a grey carpet. The main unit is black and orange, with a flexible silver hose attached. The hose extends upwards and then downwards to a motorized floor head. The floor head is also black and orange, with the Sencor logo and 'ALL FLOORS SUPREMACY' text. The vacuum is positioned on a grey carpet, with a wooden floor and a grey sofa visible in the background.

# BAG VACUUM CLEANERS

With each new model of classic bag vacuum cleaner, the boundaries of what is possible are challenged. Advanced SENCOR appliances set new standards in efficiency, user convenience, noise level and hygiene. They are here for everyone who desires truly exceptional quality.

HOME CARE

A woman with long brown hair tied back, wearing a grey long-sleeved top and white trousers, is smiling while using a stick vacuum cleaner on a light-colored wooden floor. The vacuum has a long black flexible hose and a silver telescopic tube. In the background, there is a white console table with a television, a potted plant, and a brown sofa with a red and white checkered cushion. Two framed quotes are on the wall: "DO MORE OF WHAT MAKES YOU HAPPY." and "DO WHAT YOU LOVE, LOVE WHAT YOU DO."

GO FOR  
**TRADITION,**  
GO FOR  
**PERFECTION**

# BAG VACUUM CLEANERS

How is it that the popularity of bag vacuum cleaners has remained undiminished? Their innovative features and unrivaled qualities provide a sufficient answer.

These classic appliances by SENCOR come in attractive designs that conceal the powerful and efficient technical solutions inside. The four A rating ensures highest efficiency in energy consumption, the best carpet cleaning performance, flawless hard floor cleaning, and lowest dust re-emission.

Satisfy both your needs for health and convenience with the newest models of SENCOR bag vacuum cleaners, which feature both: advanced filtration systems with high-performance HEPA H13 filters to please allergy sufferers, and market-leading, quiet 59 dB(A) operation to delight both people and pets. SENCOR bag vacuum cleaners are easy to use and feature rubber wheels for easy movement, a XXL-long metal telescopic tube to fit and reach anywhere, and the longest action radius on the market to free the user from repeated plugging and unplugging.

## WHY CHOOSE A SENCOR BAG VACUUM CLEANER?

- 4AAAA ECO Power for excellent cleaning performance on any surface
- Superior silence technology for extra quiet vacuuming
- Complete care with accessories for the best results on any task around the home, pets and cars
- Clean Air HEPA H13 filters ensuring filtration suitable even for allergy sufferers
- Remote control for easy and ergonomic operation with power settings right by your hand

## CLEANING EVERYTHING

## REACHING EVERYWHERE

A wide action radius delivers major convenience. The bigger it is, the fewer times you need to unplug and again plug in the vacuum when moving around your household. Selected SENCOR bag vacuum cleaners proudly provide an impressive radius of 14 meters – the best on the market.

Bag vacuum cleaner

**SVC 9300BK 4AAAA ECO POWER**

This state-of-the-art bag vacuum cleaner delivers extra quiet cleaning with a noise level of only 59 dB(A). The appliance is able to take complete care of all household tasks, including pet and car care, while ensuring the highest class of energy efficiency and floor cleaning performance for both hard floors and carpets.

The Clean Air HEPA H13 filter, which is even suitable for allergy sufferers, delivers unrivaled filtration. Easy use is provided by the XXL extra

lightweight ALU telescopic tube with adjustable operating height, horizontal and vertical parking for easy storage and breaks during vacuuming, and an extra-long operating radius (12 m).

The wide range of accessories can handle cleaning in any situation or place. A 4 l synthetic dust bag improves filtration and the LED full-bag indicator shows when the bag needs to be replaced and hygienically disposed of.

# BAGLESS VACUUM CLEANERS

The idea behind these modern appliances, which also feature A-rating performance, HEPA filtration and quiet operation, is to keep all the benefits of classic vacuum cleaners while saving money on bags.

A photograph of a baby sitting on a light-colored floor, wearing a black and white striped shirt. The baby is holding a bright green ball in its mouth. To the right, the lower legs and feet of an adult wearing blue jeans are visible. The background is slightly blurred, showing what appears to be a doorway or a window with vertical bars.

**SAVE MONEY,**  
GO BAGLESS'

# BAGLESS VACUUM CLEANERS

Great cleaning results without the extra cost of bags? Absolutely, with SENCOR bagless vacuum cleaners! Their dust containers are large enough to capture dirt particles throughout your household, while its transparent material allows you to see if anything gets trapped inside. The finest dust and even larger particles are securely sealed in, supported by a Clean Air HEPA H13 filter ensures optimal filtration suitable for allergy sufferers.

Moreover, no matter how full the dust container gets, the multicyclone system ensures full suction power. SENCOR premium bagless vacuum cleaners are proudly rated 4AAAA in energy consumption, carpet cleaning, hard floor cleaning performance and dust re-emission to deliver uncompromising results, while even the basic models deliver good value at a reasonable price.

## WHY CHOOSE A SENCOR BAGLESS VACUUM CLEANER?

- Multi-cyclone technology prevents any loss of suction performance
- 4AAAA ECO Power for excellent cleaning performance on any surface
- Complete Care with accessories for best results on any task around the home, pets and cars
- Clean Air HEPA H13 filter for filtration suitable for allergy sufferers
- Lower operating costs - no need to buy bags

### CYCLONE AND HEPA FILTRATION

This bagless vacuum cleaner uses the cyclone effect, where centrifugal force separates tiny particles from the air. Most of the particles are trapped in the container, while the few remaining tiniest particles are handled by the HEPA filter to ensure uncompromising hygiene.

## CYCLONE EFFECT

Bagless vacuum cleaner

## SVC 1080TI 4AAAA ECO POWER

The results delivered by this 4AAAA ECO Power bagless vacuum cleaner will satisfy even the most demanding users. Excellent cleaning performance on any surface and the Complete Care system with all the accessories needed to achieve impressive cleaning results around your home, pet and car make it an unbeatable choice.

Multi-cyclone technology ensures that there is never a loss of suction power, while the Clean Air HEPA H13 filter delivers a filtration level suitable for even allergy sufferers. Greater user comfort is delivered by the low noise level of 78 dB, a generous coverage area of 314 m<sup>2</sup> and an XXL metal telescopic tube that can be adjusted to any height.

### FEATURES

- **SVC 1080TI 4AAAA ECO Power for excellent cleaning performance on any surface**
- **Complete Care with accessories for best results on any task around home, pets, and car**
- **Multi Cyclone Technology prevents the loss of suction power**
- Clean Air HEPA H13 filter with top filtration suitable for allergy sufferers
- Low noise 78 dB(A) for quiet vacuuming
- 314 m<sup>2</sup> coverage area for fewer outlet changes
- Action radius 10 m (cord length 7 m)
- XXL 3.5-litre dust container
- XXL metal telescopic tube for customizable ergonomic height
- Horizontal parking for easy storing or breaks during vacuuming
- Soft wheels for floor protection and quiet movement
- Automatic cord winder
- Electronic power regulation

### Multi Cyclone System

Our most advanced bagless technology separates dust from the airflow in multiple small cyclones. The multiple filtration method ensures strong and continuous suction performance, even when the dust container is full.

### HARD FLOOR NOZZLE

The nozzle ensures gentle, silent and perfect cleaning due to its 100% natural hair for gentle cleaning of all hard floors including wood, floating floors, tiles, linoleum and marble.

### THE EXTRA LONG FLEXIBLE CREVICE

Nozzle is extremely helpful in reaching anywhere inside a car, even those very hard-to-reach places.

### MINI TURBO BRUSH

The Mini Turbo Brush is the best tool for cleaning up pet hair and vacuuming hard to reach areas. It's the perfect nozzle for vacuuming up hard-to-remove fibres from car seats, upholstery, stairs, pillows and any other textile surfaces.

### TURBO BRUSH

The powerful rotating brush is perfect for deep cleaning carpets and rugs and the easy removal of hair, pet hair, fibres etc. Cleaning is quicker and more effective. The gentle brushing action increases vacuuming effectiveness by up to 25%.

### HEPA FILTER

The high-quality HEPA H13 filter captures even the smallest dust and dirt particles to provide a healthy home environment.

### ERGONOMIC

The easy-carry and practical handle is combined with an upper handle that ensures the easy emptying of the dust container.

## ACCESSORIES

1. TURBO BRUSH
2. MINI TURBO BRUSH COMBI FLOOR NOZZLE
3. UNIVERSAL FLOOR NOZZLE WITH EXTENSIBLE BRUSH
4. CREVICE NOZZLE, DUSTING BRUSH
5. HARD FLOOR NOZZLE
6. LONG FLEXIBLE CREVICE NOZZLE

Compact, light weight, easy to store with excellent cleaning performance with 3AAA rating and cyclone technology will keep your home clean as you like.

Moreover, the Clean Air Dual HEPA H13 filter provides you with top filtration suitable for allergy sufferers. The 10 m (cord length 7 m) action radius and metal telescopic tube for customizable ergonomic operating height build up 314 m<sup>2</sup> coverage area, making the vacuuming faster and more comfortable as fewer changes of the electric outlet are needed.

**FEATURES**

- **3AAA rating in energy consumption, hard floor cleaning performance, and dust re-emission**
- **Flexi Reach long flexible crevice nozzle to reach an place at home or inside the car**
- **Low noise 75 dB(A) for quiet vacuuming**
- 314 m<sup>2</sup> coverage area for fewer changes of electric outlet
- Metal telescopic tube for customizable ergonomic operating height
- 1-litre dust container
- Horizontal parking for easy storing or breaks during vacuuming
- Soft wheels for floor protection and quiet movement
- Automatic cord winder
- Electronic power regulation

**ACCESSORIES**

1. ACCESSORY HOLDER
2. CREVICE NOZZLE
3. UNIVERSAL FLOOR NOZZLE WITH EXTENSIBLE BRUSH
4. UPHOLSTERY NOZZLE
5. BRUSH NOZZLE
6. FLEXI REACH LONG FLEXIBLE CREVICE NOZZLE

**USE**

Bagless vacuum cleaner

## SVC 1030

The new 3rd-generation cyclone system perfectly separates dust from the air, capturing most particles at the 1st level of filtration and thereby allowing the washable HEPA filter to last longer. The turbo nozzle with special mini-turbo nozzle ensures perfect vacuuming of animal hair from upholstery, while the telescopic tube adjusts its length as needed.

Operation is made highly convenient thanks to smoothly moving rubber coated wheels, an action radius of 9 m that reduces the need to change outlets and a full-container indicator that shows when emptying is required.

## FEATURES

- **ECO Power Motor for efficient cleaning performance**
- **3rd-generation cyclone system**
- **Clean Air HEPA H13 filter ensures top filtration suitable for allergy sufferers**
- Low noise 76 dB(A) for quiet vacuuming
- 254 m<sup>2</sup> coverage area for fewer outlet changes
- Action radius 9 m (cord length 6 m)
- XL 2.3-litre dust container
- Metal telescopic tube for customisable ergonomic operating height
- Horizontal parking for easy storage or breaks during vacuuming
- Soft wheels for floor protection and quiet movement
- Automatic cord winder
- Electronic power regulation

# CORDLESS VACUUM CLEANERS

Imagine an appliance that delivers great vacuuming and mopping results, lets you move as freely as you wish and is light and easy to maneuver. Think of an appliance powerful enough to handle carpets and hard floors with a battery so strong it lasts for a complete cleaning of your home or car. Picture an elegant product so well manufactured that you can be proud to own and use. Your dream comes true with the SENCOR cordless stick vacuum cleaner.

A woman with long, wavy blonde hair, wearing a white t-shirt and blue jeans, stands barefoot on a light-colored wooden floor. She is holding a black and yellow cordless stick vacuum cleaner. The vacuum has "SENCOR CLEAN & MOP & GO" written vertically on its handle and "SENCOR POWER BRUSH" on the base. The background shows a bright room with a window with blinds, a floor lamp with a yellow shade, and a bed with a light green pillow.

BE FREE,  
BE CORDLESS

# CORDLESS VACUUM CLEANERS

Varied use, numerous surfaces, one product: SENCOR cordless stick vacuum cleaners were designed for great performance on carpets and different types of hard floors, not only vacuuming, but also mopping in one stroke.

No matter how demanding the conditions, SENCOR cordless stick vacuum cleaners deliver great results thanks to their highly powerful Li-ion battery with a short charging and long running time. The rotary brush with an independent motor and a nozzle with LED lighting deliver thorough cleaning. The brush collects dirt particles on both hard floors and carpets, while the LED light makes vacuuming dark areas easier. The advanced design of these cordless vacuum cleaners features a 180° radius swivel vacuum nozzle, which combined with light weight and a low center of gravity enables excellent control and easy maneuverability.

Once the job is finished, a smart disassembly system and self-standing function make maintenance and storage truly easy.

## WHY CHOOSE A SENCOR CORDLESS STICK VACUUM CLEANER?

- Absolute freedom of movement with no power cord
- Varied use: hard floor and carpet cleaning, mop function, hand unit for small and outside-the-home jobs
- Rotary brush with an independent motor and nozzle with LED lighting for thorough vacuuming
- Excellent control and easy maneuverability around furniture thanks to a 180° radius swivel vacuum nozzle and the light weight of the vacuum cleaner

### EASY SOLUTION

SENCOR cordless stick vacuum cleaners know how to handle the most difficult places to clean: under low furniture and beds. Their 180° radius swivel nozzle easily slips into any tight space and the LED light clearly shows what needs to be done.

### TRICKY PLACES

Cordless stick vacuum cleaner

## SVC 0825WH all-in-one

The SVC 0825 is an all-in-one appliance powered by 380 W extra strong latest technology digital BLDC motor. In fact it is set of two cleaners with plenty of accessories on top. One is versatile stick cleaner with all accessories you can imagine, other is revolutionary active floor washer which is ready to do vacuuming and wetcleaning for everyday household upkeep.

Soup or coffee spilled on the floor, no problem, Aqua8 system will vacuum and clean it all. Pet owners will appreciate its "Cat&Dog Mini" motorized power brush for the hand unit, removing pet hair from your upholstery furniture easily. The SVC 0825 offers excellent control and easy manoeuvrability around furniture thanks to its 180° radius swivel vacuum nozzle and light weight vacuum cleaner body and tube. This makes high-reach cleaning a lot easier too.

## FEATURES

- **High performance 380 W digital BLDC motor**
- **Cordless vacuum cleaner; all-in-one with removable hand unit**
- **Full fledged extractor unit AQUA 8 (spray, clean, vacuum liquids) with 2-tank system (clean water tank 0.4l and recovery tank 0.4l)**
- For all types of surfaces including wet cleaning of hard floors
- Extra light weight ERGO FLEX 90° foldable tube
- Bagless technology, dust container volume: 0.5 l
- Light, quiet and easy to control
- Rotary brush with an independent motor for uncompromised results
- Removable hand unit with "Cat&Dog Mini" Motorized Power Brush
- Two very powerful 25.2 V Li-ion batteries with LED indicator
- Short charging time (4 hours) and long operating time (up to 2x 25 minutes)
- Charging base with an integrated accessory holder and second battery charger
- 2-speed operation: high power, extended vacuuming time
- HEPA cyclonic filtration system
- Nozzle with LED lighting

## ACCESSORIES

1. CAT&DOG MINI MOTORIZED ROTATING BRUSH
2. UPHOLSTERY AND DUSTING BRUSH COMBINATION
3. CREVICE NOZZLE
4. SOFT DUSTING AND BOOKSHELF BRUSH
5. MULTI-ANGLE BRUSH ATTACHEMENT
6. FLEXIBLE HOSE
7. FLEXI REACH-LONG FLEXIBLE CREVICE NOZZLE

### **MOTORIZED BRUSH WITH LED LIGHTS**

The motorized rotating brush ensures outstanding results on any type of floor and improves the vacuuming of dirt from carpets, all with unparalleled manoeuvrability.

### **INNOVATIVE DIGITAL BLDC 380W MOTOR**

High performance and powerful suction with up to 80 000 RPM. Less rotating parts ensures long motor life.

### **INTEGRATED LED SPOT LIGHTS**

Dirt is no longer difficult to see thanks to the LED light. The motorized rotating brush ensures outstanding results on any type of floor.

### **FLEXI REACH**

Long flexible crevice nozzle to reach anywhere. Behind the heating panel or cabinet or under the car seat, no place is unreachable.

### **ERGO FLEX**

With Extra light weight ERGO FLEX 90° foldable tube no place is difficult to reach. You can get under lowest furniture with ease.

### **MULTI - ANGLE BRUSH ATTACHMENT**

Multi-angle brush attachment makes high-reach cleaning a lot easier. Great for keeping ceiling fans, lighting, and furniture tops dust-free.

### **CHARGING STAND WITH SECOND BATTERY**

Practical stand holds plentiful accessories at one place once charging second battery

### **CAT&DOG MINI MOTOR BRUSH**

Detachable hand unit with the Cat&Dog Mini brush is the ultimate tool for picking up pet hair and deep cleaning upholstered furniture or car seats.

### **WET&DRY EXTRACTOR AQUA 8**

AQUA 8 with convenient 2-tank system: Permanent wetting of the rollers from the pure water tank while the dirt is collected in the waste water tank. Self Cleaning Roller Brush will power clean hard floors and refresh your carpets with speed of 3 000 rpm.

Cordless stick vacuum cleaner

## SVC 0725TI 4-in-1

The 4-in-1 cordless vacuum cleaner SVC 0725TI powered by cutting-edge 400 W digital brushless motor delivers excellent results smoothly and easily. It is light, quiet, and easy to control, which makes it an ideal appliance for everyday cleaning of all types of surfaces or high-reach cleaning. The mopping function delivers a perfectly clean hard floor!

Its removable hand unit in combination with plentiful accessories allows you to quickly eliminate dirt and dust from furniture, tables or cars. Connected to the "Cat&Dog Mini" motorized power brush removes all the pet hair from your living area, while integrated UVC light is sanitizing all cleaned surfaces. The HEPA cyclonic filtration system, nozzle with LED lighting, and bagless technology make it a superb choice for any household.

## FEATURES

- **Digital BLDC motor with maximum power of 400 W**
- **Very powerful 25.2 V and 2 500 mAh Li-ion battery system with LED indicator**
- **Short charging time (4 hours) and long operating time (up to 50 minutes)**
- **High performance HEPA cyclonic filtration system**
- Removable hand unit with "Cat&Dog Mini" Motorized Power Brush with sanitizing UVC light
- 360° technology allows to reach every corner from the floor to the ceiling
- Rotary brush with an independent motor for thorough cleaning
- Nozzle with LED lighting to expose dust in darker places
- Excellent control and easy manoeuvrability (180° radius swivel)
- Bagless technology, XL dust container volume: 0.5 l
- 3-speed operation: Turbo, high power, extended vacuuming time
- Noise level: 79 dB

COMBINATION OF THE POWER OF 400W DIGITAL BLDC MOTOR AND PERFORMANCE OF THE 3-FOLD CYCLONIC HEPA FILTRATION SYSTEM ENSURES STRONG SUCTION AND CLEAN AIR LEAVING THE VACUUM CLEANER

### MOPPING

The mopping function delivers a perfectly clean floor! Wet cleaning removes even the finest particles and leaves the floor spotless.

### INNOVATIVE DIGITAL BLDC 400W MOTOR

High performance and powerful suction with up to 100 000 RPM. Less rotating parts ensures long motor life.

### CAT&DOG MINI MOTOR BRUSH WITH UVC LIGHT

The Cat&Dog Mini brush with UVC light is the ultimate tool for picking up pet hair and deep cleaning upholstered furniture or car seats.

### UVC LIGHT

The addition of UVC light to the brushing and suction of vacuum cleaner can almost double the removal of potentially infectious microorganism from the cleaned surface.

Its powerful motor with a 6-year warranty provides extra power of 1 600 W, which can be regulated and controlled with an LED display. A dual-filtration system combines the power of the cyclone and water filtration in a single tank, also augmented by a washable clean air HEPA E12 filter to ensure the best filtration suitable for even allergy sufferers.

A generous power cord with automatic winder provides a wide action radius of 9 meters and 254 m<sup>2</sup> coverage area which means faster and more convenient cleaning thanks to limited outlet switches. The XXL extra-lightweight ALU telescopic tube can be ergonomically customized, while horizontal parking makes storage and breaks during vacuuming much easier. Soft wheels for floor protection and quiet movement also deliver convenient use.

## FEATURES

- **Complete Wet&Dry care for home, car and pets with all accessories included**
- **Dual filtration system combining the power of the cyclone and water filtration in a single tank**
- **Power edition uses 1 600 W for excellent cleaning performance on any surface**
- Washable clean air HEPA E12 filter ensures the best filtration suitable for even allergy sufferers
- XXL extra-lightweight ALU telescopic tube for custom ergonomic operating height
- 6-year motor warranty
- Horizontal parking for easy storage or breaks during vacuuming
- Soft wheels for floor protection and quiet movement
- Universal floor nozzle with extensible brush
- Action radius 9 m (cord length 6 m) and 254 m<sup>2</sup> coverage area for fewer outlet changes
- Electronic power regulation with LED display
- Noise level 90 dB(A)

### DUAL SYSTEM CYCLONE & WATER FILTRATION

A combination of cyclone and water filtration together in one tank. The primary cyclone separates large dust particles from the air, while fine dust is separated by the water filter in the tank. The washable HEPA E12 filter ensures top filtration suitable for allergy sufferers.

### WET CLEAN UPHOLSTERY NOZZLE

This nozzle is perfect for thorough and deep cleaning of upholstery. Using a cleaning solution via the integrated spray nozzle, it quickly and thoroughly removes stains and traces of dirt. Spray, clean and vacuum in one go.

### TURBO BRUSH

The powerful turbine driven rotating brush is perfect for deep cleaning of carpets and rugs and the easy removal of hair, pet hair, fibers etc. Cleaning is quicker and more effective. The gentle brushing action increases vacuuming effectiveness by up to 25%.

### HARD FLOOR NOZZLE

This nozzle ensures gentle, silent and perfect cleaning thanks to its 100% natural hair for gentle cleaning of all hard floors including wood, floating floors, tiles, linoleum and marble.

### WET CLEAN FLOOR- CARPET NOZZLE

This nozzle is perfect for thorough and deep cleaning of carpets. Using a cleaning solution via the integrated spray nozzle, it quickly and thoroughly removes stains and traces of dirt. Spray, clean and vacuum in one go.

### LONG FLEXIBLE CREVICE NOZZLE

The extra long flexible crevice nozzle helps you to reach everywhere inside a car, even those very difficult-to-reach places.

### THE WET CLEAN FLOOR & WINDOW NOZZLE

The hard floor attachment for the wet floor nozzle is the perfect solution for wet window cleaning and mopping of sealed hard floors. The cleaning solution sprayed on floors or windows via the integrated spray nozzle quickly and thoroughly removes stains and traces of dirt. Spray, wipe and vacuum in one go.

Wet&Dry vacuum cleaner

## SVC 3001

Whether dry or wet, coarse or fine, SENCOR Wet&Dry vacuum cleaners remove any kind of dirt.

Thanks to the extra-large capacity of the 30-litre container, they can easily handle larger amounts of water as well. They are ideal for your car, garage, cellar, workshop, for renovations and anything else around the house.

## FEATURES

- **1400 W Power**
- **5-step filtration system with washable microfilter**
- **Aluminium telescopic tube**
- Suction power 250 W
- Washable inflow microfilter
- Washable outflow microfilter
- Soft Start function (does not overload the el. grid during motor start-up)
- Rubber coated wheels for easier handling and protection of floating floors
- 5-step filtration system
- 1 docking position for the floor nozzle
- Action radius 7.5 m (cord length 5 m)
- Universal Floor Nozzle with an Extensible Brush
- Special nozzle for vacuuming water
- Accessories stored inside
- Volume of dust bag: 7.5 l
- Volume of container for wet vacuuming: 16 l
- Capacity of the container: 30 l
- Noise level: < 77 dB

## ACCESSORIES

1. UPHOLSTERY NOZZLE
2. UNIVERSAL FLOOR NOZZLE
3. CREVICE NOZZLE
4. DUSTING BRUSH
5. WET CLEAN FLOOR NOZZLE

# ACCESSORIES

## UNIVERSAL FLOOR NOZZLE

This universal nozzle is highly effective on carpets and hard floors. Simple to set up for both types of floors with large wheels for easier operation.

## HARD FLOOR NOZZLE

This nozzle ensures gentle, silent and perfect cleaning thanks to 100% natural hair for gentle cleaning of all hard floors including wood, floating floors, tiles, linoleum and marble.

## TURBO BRUSH

The powerful turbine driven rotating brush is perfect for deep cleaning of carpets and rugs and the easy removal of hair, pet hair, fibers etc. Cleaning is quicker and more effective. The gentle brushing action increases vacuuming effectiveness by up to 25%.

## MINI TURBO BRUSH

The Mini Turbo Brush is the best tool for cleaning up pet hair and fur as well as vacuuming hard-to-reach areas. The perfect nozzle to use for removing difficult fibers from car seats, upholstery, stairs, pillows or any other textile surfaces.

## LONG FLEXIBLE CREVICE NOZZLE

The extra long flexible crevice nozzle helps you to reach everywhere inside a car, even those very difficult-to-reach places.

## CREVICE NOZZLE

The crevice nozzle makes vacuuming hard-to-reach areas, corners and crevices easy.

## DUSTING BRUSH

The dusting brush allows you to easily remove dust from your furniture, books and picture frames.

## UPHOLSTERY NOZZLE

This small nozzle with a lint-catching fabric strip is perfect for picking up pet hair or dust from sofas, cushions, mattresses and car seats.

## WET CLEAN FLOOR NOZZLE

The wet nozzle for Wet&Dry cleaners can be used for vacuuming water or other liquids from the floor or wet hard-floor cleaning.

# USE

## VACUUM CLEANERS

Performance based on energy label (from A to 4AAAA as top performance)

Filtration level (from EPA E10 to HEPA H13 as top mark)

Noise level (69 dBA is the most silent)

Coverage area in m<sup>2</sup> without outlet change

Action radius in metres

Universal Floor Nozzle

XXL Metal telescopic tube with extended length

Stainless steel telescopic tube

2 Parking positions (vertical and horizontal parking for the floor nozzle)

Soft wheels for floor protection

Crevice nozzle

Upholstery nozzle

Dusting brush

Small Accessories Placement on Holder

Small Accessories Integrated on Board

Volume of synthetic dust bag

Volume of dust container

Advanced bagless cyclonic technology

Parking position for nozzle

Advanced Multi Cyclone Technology

## CORDLESS VACUUM CLEANERS

2in1 function - stick with detachable hand held cleaner

Bagless cyclonic technology

# ROBOTIC VACUUM CLEANERS

A robot taking care of a perfectly clean floor? It's not just science fiction, but the daily routine of SENCOR robotic vacuum cleaners that deliver uncompromising vacuuming and flawless mopping. Modern technologies meet precise manufacturing resulting in automatic vacuum cleaners with long service lives that are able to handle daily chores with no effort from their owners.

A robotic vacuum cleaner is visible in the bottom left corner, resting on a light-colored wooden floor. In the background, a dark-colored sofa is positioned in front of a large window with sheer curtains, through which bright light is streaming. The overall scene is a clean, modern living room.

LET  
THE ROBOTIC  
VACUUM AND  
MOP, **WHILE**  
**YOU LIVE!**

# ROBOTIC VACUUM CLEANERS

SENCOR robotic vacuum cleaners have been carefully designed to deliver thorough vacuuming and meticulous mopping. With its set of special central and side brushes, this useful helper travels to every area and corner to make it perfectly clean, regardless of the surface. Perfect results are guaranteed on carpets (up to 2 cm high), floating floors, parquet floors, linoleum, tile floors and other surfaces. The user can choose from among the pre-set programs for those that best suit their cleaning needs..

State-of-the-art technologies, including laser gyroscope navigation, ensure accurate orientation in space. The timer can be set as needed so that SENCOR robotic vacuum cleaners can be set to start their work on any selected day, hour and minute with a frequency as defined by the user: only one day or multiple days per week, working days or weekends only. The powerful battery allows the appliance to operate for up to 120 minutes per charge. Moreover, the BLDC motor is so quiet that it can be comfortably used even in households with pets and its construction ensures a long service life. The device can be controlled via a WiFi mobile phone application or remote control.

## WHY CHOOSE A SENCOR ROBOTIC VACUUM CLEANER?

- Vacuuming and mopping functions
- State-of-the-art laser gyroscope navigation
- Ideal for carpets, floating floors, parquet floors, linoleum, tile floors, etc.
- Advanced orientation in space and anti-impact sensors
- Very quiet operation suitable for use around household pets
- BLDC motor for a long service life
- Up to 120 minutes of operation per charge
- Controlled by WiFi mobile phone application or remote control

### SPARKLING CLEAN FLOOR

SENCOR robotic vacuum cleaners do more than vacuum. Equipped with a tank and cloth, they are ready to mop and deliver sparkling clean floor surfaces. Everything needed is included, so the customer can set the robot to mop immediately with no need to purchase accessories at additional cost.

### EFFORTLESS MOPPING

Robotic vacuum cleaner

## SRV 9550 BK

Your life is about to change when you get a robotic vacuum cleaner. This ingenious device will work hard to welcome you home to a vacuumed and wiped floor every time you return.

The SRV 9550 uses 8 000 Pa SUPER CYCLONE suction power, which makes it ideal for cleaning carpets, floating, parquet, or linoleum floors, and floor tiles. Advanced navigation based on SENCOR Nav. 18.0 guidance system ensures exquisite orientation in space and wide range of sensors manage worry-free use even around obstacles and in multi-floor buildings. The mop function uses the included water tank and wiping cloth, and the water flow is controlled by an electric pump in which multiple water intensities can be set to deliver perfect results. Programs and cleaning schedules can be comfortably controlled by a WiFi mobile phone application.

As the robotic vacuum cleaner features a wet mopping option, the water tank and mopping cloth are included to be ready to do the chores instantly, with no need to buy extra accessories. Water flow is controlled by an electric pump with 3 different water power intensities to be set and the ZigZag program takes care of flawless floor cleaning.

The cleaning starts automatically on a set day, hour, and minute with frequency as defined by the user: only one day or multiple days in the week, working days or weekends only. The device is controlled using a WiFi mobile phone application or a separate remote control.

## FEATURES

- **8 000 Pa SUPER CYCLONE suction power**
- **Ideal for any surface, wet wiping option**
- **Very quiet operation suitable for household pets**
- Infrared anti-impact front sensor
- 65 W BLDC motor for long lifetime
- SENCOR Nav. 18.0 guidance system and active space mapping system
- Two rotary brush central vacuum cleaner system
- Operating time of up to 200 minutes per single charge
- Remote controlled using WiFi mobile phone application

### LIDAR AND GYROSCOPIC NAVIGATION

Both laser and gyroscope ensure perfect orientation in space, making the cleaning faster and more precise.

### ACTIVE WATER PUMPMOPPING

Mopping function ticks off another chore of your to-do list, leaving the floor spotless and sparkling.

### 8000 PA SUPER CYCLON

Extremely powerful suction system with cyclone technology.

### CLEANING PROGRAMS

Four programs for comfortable cleaning  
- Spot, Edge, Auto (Random), ZigZag.

### POWERFUL BATTERY

The powerful battery 6400mAh ensure the high coverage on one charge.

### CONTROL

Be in control with a WiFi mobile phone application or a remote control.

### CHARGING

After up to 200 minutes of work the robotic vacuum cleaner automatically returns to the charging station.

### BLDC MOTOR

New generation motor ensuring long life durability.

### UNLIMITED m<sup>2</sup>

If necessary, the robotic vacuum cleaner will search for the docking station and after recharge automatically continues to clean where it left off.

### STAIR SENSOR

Enables worry-free use in multi-floor buildings, preventing the vacuum cleaner from falling down the stairs.

### HEPA FILTER

High quality HEPA filter absorbs the smallest dust and dirt particles to provide healthy environment.

## ACCESSORIES

1. REMOTE CONTROL
2. SIDE BRUSHES
3. MAGNETIC TAPE
4. CLEANING SET
5. POWER ADAPTER
6. HEPA FILTER
7. MOP FABRIC
8. CHARGING STATION
9. DUST CONTAINER
10. ROTARY BRUSH
11. 2IN1 MOP UNIT

Robotic vacuum cleaner

## SRV 9250BK

Advanced technologies used in this robotic vacuum cleaner guarantee the carpets, floating floors, parquet floors, linoleum, and floor tiles will be vacuumed and mopped with uncompromising results.

Its active space mapping and SENCOR Nav. 15.0 guidance systems deliver precise orientation in space. The accuracy of the guidance system is ensured by VSLAM laser, gyroscope, infrared sensors, step-detection and other sensors. The bumper bar sensor detects obstacles, while the stair sensor enables worry-free use in multi-floor buildings, and a sensor for accurate navigation ensures an automatic return to the docking station.

Thorough cleaning is a must, and therefore the powerful central vacuum cleaner with a combination rotary brush is supported by rotary side brushes for perfect cleaning in corners.

As the robotic vacuum cleaner features a wet mopping option, the water tank and mopping cloth are included to be ready to do the chores instantly, with no need to buy extra accessories. Water flow is controlled by an electric pump with 3 different water power intensities to be set and the ZigZag program takes care of flawless floor cleaning.

The cleaning starts automatically on a set day, hour, and minute with frequency as defined by the user: only one day or multiple days in the week, working days or weekends only. The device is controlled using a WiFi mobile phone application or a separate remote control.

## FEATURES

- **Vacuuming and mopping functions**
- **A powerful central vacuum cleaner with a combination rotary brush and rotary side brushes**
- **Water tank and mopping cloth included**
- 3 water power intensities and ZigZag program for thorough mopping
- Controlled by WiFi mobile phone application or a separate remote control
- Variable timer setting to suit the user's needs
- Infrared anti-impact front sensor to detect any obstacle
- Very quiet operation suitable for household pets
- Long lifetime BLDC motor with a quiet operation (under 60 dB)
- Advanced SENCOR Nav. 15.0 guidance system
- Up to 120 minute cleaning time per single charge

### LASER AND GYROSCOPIC NAVIGATION

Both laser and gyroscope ensure perfect orientation in space, making the cleaning faster and more precise.

### ACTIVE MOP FUNCTION

Mopping function ticks off another chore of your to-do list, leaving the floor spotless and sparkling.

### MOBILE APP REMOTE OPERATION

Control the robotic vacuum cleaner with a simple touch of the screen: the mobile app will clearly offer all setting possible.

Robotic vacuum cleaner

## SRV 8550BK

A robotic vacuum cleaner with flawless navigation and sufficient suction power? Search no more, the SRV 8550 is here to offer everything you need. Carpets, floating floors, parquet floors, linoleum, floor tiles will be perfectly clean thanks to its 4 000 Pa SUPER CYCLONE suction power and wet wiping option.

The SENCOR Nav. 16.0 system ensures guidance and orientation in space with a LIDAR, gyroscope, infrared sensors, and step-detection and other obstacle sensors, being supported by active space mapping system. The rotary side brush will take care of cleaning in the corners and wet wiping option will mop the floor as you wish up to 200 minutes per single charge. Choose a program and schedule the cleaning with a WiFi mobile phone application to enjoy the comfort of totally effortless cleaning.

## FEATURES

- **4 000 Pa SUPER CYCLONE suction power**
- **Ideal for any surface, wet wiping option**
- **Infrared anti-impact front sensor**
- Very quiet operation suitable for households with pets
- 65 W BLDC motor for long lifetime
- SENCOR Nav. 16.0 guidance system and active space mapping system
- Two rotary brush central vacuum cleaner system
- Wide range of sensors for trouble-free movement
- Operating time of up to 200 minutes per single charge
- Remote controlled using WiFi mobile phone application

### CAMERA AND GYROSCOPIC NAVIGATION

To find a smooth way in designated cleaning area.

### ACTIVE WATER PUMP MOPPING

For highly efficient cleaning even of the smallest dust particles.

### MOBILE APP REMOTE OPERATION

The mobile app clearly offers all possible settings: a simple touch of the screen is enough to control this robotic vacuum cleaner.

Robotic vacuum cleaner

**SRV 8250BK**

A wide range of sensors ensure the precise performance of this robotic vacuum cleaner with mopping function, detecting any obstacles to avoid, preventing it from falling down stairs and bringing it back to the docking station safely.

The SENCOR Nav. 13 guidance system uses an optical camera, gyroscope, infrared sensors, step-detection and other obstacle sensors together with an active space mapping system to deliver unparalleled orientation.

Timing of both vacuuming and mopping can be set to suit any user, combining four programs (along the wall, spot, random, linear) to clean the maximum area of floating floors, carpets, parquet floors, linoleum, tile floors and other surfaces.

A quiet BLDC motor, which is suitable for households with pets, powers the central vacuum cleaner and combination rotary brush and rotary side brushes for perfect cleaning in corners. As the water tank and mopping cloth are included, no extra accessories are required.

**FEATURES**

- **Operating time of up to 120 minutes per charge**
- **Controlled by remote control and WiFi mobile phone application**
- **Charging station with a wall or furniture mount option**
- Automatic return to charging station when program completed or battery low
- Crosses door thresholds up to 1.5 cm high
- Status indicator light on the vacuum cleaner body (standby mode, charging, fully charged)
- 2 dust containers: for dry vacuuming (475 ml of dust) and mopping (240 ml for dust & 230 ml water tank)
- Battery: 2 600 mAh, Li-ion (fully charged after approx. 5 hours)
- Noise level: <60 dB

**CAMERA-ASSISTED GYROSCOPIC NAVIGATION**

No falling down the stairs thanks to stair sensor. Enjoy the worry-free use even in multi-floor buildings.

**ACTIVE MOP FUNCTION**

The mopping function ticks off another chore on your to-do list, leaving the floor spotless and sparkling.

**MOBILE APP REMOTE OPERATION**

The mobile app clearly offers all possible settings: a simple touch of the screen is enough to control this robotic vacuum cleaner.

Robotic vacuum cleaner

## SRV 6250BK

Have the floor vacuumed and mopped without any effort? No problem with this powerful central vacuum cleaner with combination rotary and side brushes.

The appliance features a mop function that uses seven different water power intensities controlled by an electric pump to deliver outstanding results. Water tank and mopping cloth are included, so no other accessories need to be purchased and mopping can start straight away.

The SENCOR Nav. 9.0 guidance system confidently navigates the robotic vacuum cleaner on carpets, floating floors, parquet floors, linoleum, tile floors, etc, even in multi-floor buildings.

Guidance and orientation in space is enabled by a gyroscope, infrared sensors, step-detection and other obstacle sensors.

The four programs designed to cover a maximum area are: along the wall cleaning, spot for targeted cleaning of a 2 m<sup>2</sup> area, random movement in all directions and linear - ZigZag drive for the best performance.

## FEATURES

- **Controlled by remote control and WiFi mobile phone application**
- **GYRO MAPPING function for precise orientation in space**
- **6 preset cleaning regimes**
- Very quiet operation suitable for households with pets (<60 dB)
- BLDC motor for long service life
- Automatic return to the docking station after cleaning or when battery low
- Operating time of up to 120 minutes per charge
- Variable time and frequency settings (automatic start of cleaning on a set day, hour and minute)
- Crosses door thresholds up to 1.5 cm high
- Warning messages on the remote control display and status indicator light on the vacuum cleaner body (stand-by mode, charging, fully charged)
- 2 dust containers: for dry vacuuming (475 ml of dust) and mopping (240 ml for dust & 230 ml water tank)
- Li-ion battery (2,600 mAh) fully charged in approx. 5 hours

### GYROSCOPE NAVIGATION WITH ACTIVE MAPPING

The gyroscope navigation with active mapping delivers accurate orientation in space, making the cleaning shorter and more thorough.

### ACTIVE MOP FUNCTION

Mopping function ticks off another chore of your to-do list, leaving the floor spotless and sparkling.

### MOBILE APP REMOTE OPERATION

Control the robotic vacuum cleaner with a simple touch of the screen: the mobile app clearly offers all possible settings.

Robotic vacuum cleaner

**SRV 4250SL**

Combining four different programs, this robotic vacuum cleaner delivers outstanding results on carpets, floating floors, parquet floors, linoleum, tile floors, etc. The first is based on a movement along walls, while the spot program is ideal for thorough cleaning of an especially soiled area of 2 m<sup>2</sup>. Movement in numerous directions is ensured by the random option and a linear route of cleaning is driven by the ZigZag program. The device is ready to mop the floor immediately because both the water tank and mopping cloth are included.

A wide range of sensors ensure precise orientation in space, preventing the vacuum cleaner from hitting obstacles or falling down stairs, as well as bringing the robotic vacuum cleaner back to its docking station once the program is finished or battery gets low. The user is always aware of the status thanks to the indicator light on the vacuum cleaner body that shows if it is on stand-by mode, charging or fully charged. There is also automatic service monitoring that displays warning messages on the remote control display.

**FEATURES**

- **Suitable for carpets, floating floors, parquet floors, linoleum, tile floors, etc**
- **Infrared anti-impact front sensor**
- **Very quiet operation suitable for households with pets**
- BLDC motor for long service life
- Two rotary brush system with side brushes for perfect cleaning in corners
- Wet mopping option with water flow controlled by an electric pump
- Variable time and frequency settings
- Running time up to 120 minutes per charge
- Automatic shut-off if the wheels become blocked
- Crosses door thresholds up to 1.5 cm high
- 2 dust containers: for dry vacuuming (475 ml of dust) and mopping (240 ml for dust & 230 ml water tank)
- Li-ion battery (2 600 mAh) fully charged in approx. 5 hours

**BASIC NAVIGATION**

Cleaning gets faster and more precise with the perfect orientation in space provided by gyroscope navigation.

**ACTIVE MOP FUNCTION**

The robotic vacuum cleaner uses an electric pump to control the water flow.

**MOBILE APP REMOTE OPERATION**

To control and set the robotic vacuum cleaner use the handy app.

Robotic vacuum cleaner

## SRV 2230TI

This powerful central vacuum cleaner is ideal for carpet and hard floor vacuuming (floating and parquet floors, linoleum, tile floors, etc.) and also for wet mopping. Thanks to its very quiet operation, the robotic vacuum cleaner is also suitable for households with pets.

Thorough cleaning is ensured by rotary central and side brushes which are able to deliver outstanding performance even in corners. As the water tank and cloth are included, the appliance is ready to mop with no additional expense for accessories. Timing and frequency of automatic cleaning can be set to suit the owner's needs: day, hour, and minute can be selected with the option to operate only one day or several days per week, only during working days or weekends.

## FEATURES

- **Suitable for carpets, floating floors, parquet floors, linoleum, tile floors, etc**
- **Infrared anti-impact front sensor, bumper bar and sensor for obstacle detection, stair sensor and sensor for accurate navigation to the docking station**
- **Very quiet operation (noise level <60 dB) suitable for households with pets**
- Vacuuming and mopping of numerous surfaces
- Four programs for cleaning maximum area: Along the Wall, Spot, Random and ZigZag
- Running time of up to 90 minutes per charge
- Automatic return to the charging station after cleaning or when the battery gets low
- Automatic shut-off if the wheels become blocked
- Warning messages on the remote control display and status indicator light on the vacuum cleaner body (standby mode, charging, fully charged)
- Volume of dust container: 500 ml
- Li-ion battery (2,600 mAh) fully charged in approx. 5 hours

### BASIC NAVIGATION

The robotic vacuum cleaner detects obstacles and stairs to provide trouble-free cleaning.

### PASSIVE MOP FUNCTION

When water tank and cloth are attached, the robotic vacuum cleaner provides both vacuuming and mopping.

### PREMIUM LI-ION AKKU

Only five hours are needed to fully charge this premium Li-ion battery which powers the device for up to 90 minutes.

Robotic vacuum cleaner

## SRV 1000SL

A great option for cleaning laminated and wooden floating floors, parquet floors, linoleum, tile floors, etc. Its anti-impact front sensor and very quiet operation ensure comfortable use, while two rotating side brushes deliver perfect performance in corners.

The robotic vacuum cleaner features a mop function with a special anti-static duster, which is included and therefore without additional cost.

Its operation is as easy and practical as it gets: the appliance has a very simple, single-button control and rubber wheels for smooth movement. Intelligent sensors even protect the device from falling down stairs.

### FEATURES

- **Infrared anti-impact front sensor**
- **Mopping cloth included**
- **Li-ion battery (1 500 mAh) fully charged in approx. 3 hours**
- Suitable for carpets, floating floors, parquet floors, linoleum, tile floors, etc
- Very quiet operation (65 dB) suitable for households with pets
- Crosses door thresholds of up to 1 cm in height (without duster attached)
- Status and weak battery indicator light on the vacuum cleaner body
- Volume of dust container: 200 ml

#### ANTI-IMPACT FRONT SENSOR

Taking into consideration all obstacles, the anti-impact sensor directs the vacuum cleaner to change course in time.

#### MOPPING CLOTH

Attaching a cloth upgrades the cleaning to a new level. The floor not only gets vacuumed, but also mopped, removing even the finest dust.

#### 1500 MAH LI-ION BATTERY

Up to eighty minutes of cleaning are delivered by the powerful battery which also charges fast (in just 3 hours).
