INNOVATIVE PRODUCTS TO CHERISH YOUR HEALTH AND PAMPER YOUR BEAUTY

Back in Japan in the early the 70s, SENCOR set out on an exciting journey of product innovations and variety, different and original design, colours, unique properties and availability. The product portfolio may be changing, reflecting the new needs of people all around the world, but the passion to deliver well-designed products of major customer value for a reasonable price remains unchanged.

We have only one life to live. SENCOR health and beauty products are here to pamper and help, offering countless personal choices when it comes to hair dryers, curling irons, flat irons, clippers, shavers, electric toothbrushes, oral irrigators, blood pressure monitors, personal scales and electric blankets. All these are designed with care and to care.

With SENCOR, health and beauty are no longer at odds. Our hair dryers create stunning hairdos, while using advanced functions to ensure hair and overall health: ionisation maintains lively and shiny hair and special hairdryer surface features antibacterial treatment. Flat and curling irons do not far behind: there

are to 14 different temperature settings to provide gentle styling with unparalleled results and ionisation function with antistatic effect protects hair from overdrying.

Today's men understand the importance of being well-groomed and with the help of SENCOR clippers and shavers, daily shaving and styling is an easy task. Putting emphasis on safe and comfortable use, men of all skin types can now enjoy the pleasure of barber-quality styling at home. Super-easy maintenance ensures the clippers and shavers are always clean to deliver hygienic use of the highest standard.

SENCOR electric toothbrushes care both for teeth and gums, offering various pre-set programs to suit even those with different health conditions. Their working speed and gentle bristles provide effective cleaning and protect against cavities and gum diseases. But there is even more to do: oral irrigators give extra service, using a stream of high-pressure pulsating water to remove plaque and food debris between teeth and below the gum line. Such treatment is highly appreciated not only by people with braces and dental implants, which are tricky to clean, but by anyone wishing to maintain perfect gingival health.

SENCOR says yes! Our stressful jobs and busy lifestyle may result in hypertension regardless of age. At-home examination is, therefore, an important part of the health care, giving us possibility to diagnose any blood pressure disorder and get necessary medical treatment. Or have the certainty that everything is ok.

Body weight – well, that is a bit of an issue. Be in control of your body weight with one of personal scales, featuring advanced tracking functions – such as muscle or body fat weight, bone weight, body water weight, Body Mass Index (BMI) or Basal Metabolic Rate (BMR). A state-of-art models come with a Bluetooth, connecting the scale with SENCOR app, which keeps a history of all measurements, describes the trends, and generates reports to help you reach the desired body shape.

During the cold days throughout the year you will surely appreciate an electric blanket. Forget about those tiny pieces from the past, today's electric blankets are big enough to heat up a double bed. With two controllers, each side of a bed can have its own temperature set. Can you feel the pleasure of spending a chilly evening in a warm bed with a good book to read?

So do not hesitate and enter our world of modern healthcare and beauty appliances to see that innovations are not something SENCOR just speaks of. Because product development is what SENCOR lives.

WHY CHOOSE SENCOR

Decades of experience from all the world's markets empower us to produce successful appliances for personal care. Our **hair dryers and irons featuring ionisation** deliver both precise styling and gentle care, altogether with health protection ensured by their antibacterial surface. Men will appreciate **shavers with advanced 4D technology**, which adapt to any face line, leaving it professionally groomed without a sign of irritation. Family oral health is just within a reach thanks to **electronic sonic toothbrushes and oral irrigators with unique Quadpacer feature**. To be in control of the health and comfort, a **smart body scale linked to a mobile app, accurate home blood pressure monitors and generous-sized electric blankets** are here to help. Combined with durability and reasonable price, our appliances are ready to deliver unique value for your health and beauty.

HAIR CARE

Show the whole world how great your hair can be. With a few modern beauty helpers your hairstyle will be soon ready to impress. Find your ideal hair dryer, meet the newest flat irons, and try what it feels like to have curly hair. Our top modern appliances do their best to persuade you that going to hairdresser's is not needed: they style and care for your hair to give you the look of a movie star.

STYLING YOUR HAIR

WITH CARE

HAIR DRYERS

Healthy, shiny, perfectly styled hair, that's what we all dream of. And that's is exactly what SENCOR hairdryers deliver. Their gentle care starts with a range of three temperatures at two speed levels, providing extra fast or extra smooth drying. To make your hair look just stunning, ionisation seals the strands' cuticles to retain moisture, protecting your hair from overdrying and cracking. If you wish to add an extra volume, replace an air nozzle with a diffuser, which will easily create a more voluminous hair. Once you are satisfied with the hairstyle, press the cold air button to set it. Voilà!

The practical aspects will please you too. Our modern hairdryers feature a hanging loop for easy storage, let you freely move thanks to their long power cord, use rubber coat protecting their shine and even have a special anti-bacterial surface treatment. Maintenance is super-easy as they feature a washable rare grill. And when on holiday or a business trip, your hair will look great thanks to travel hair dryers with their folding handle to fit any size of luggage.

WHY CHOOSE SENCOR HAIR DRYER

- Ultralight design foreffortless use
- Different temperature and speed settings to create optimal styling
- Diffuser for extra hair volume
- Perfect grip with antibacterial surface treatment
- Ionisation function for healthy and shiny hair

ENJOY THE STYLING OPTIONS

A stylish hairstyle should highlight your beauty and SENCOR is here to help you achieve that. Use different attachments, temperature levels and speeds to create just the look as you wish.

HOME HAIR SALON

Hair Dryer

SHD 6701RD

This powerful hairdryer with 2 000W input delivers great results thanks to three temperature and two speed settings. Hairstyling is not only fast but also super-easy with ultralight design preventing your arm from getting tired. Choose an air nozzle for a sleek image or reach for a diffuser to give your hair extra volume, and fix the hairdo with a cold air button to last long.

Practical aspects are under control too: the hairdryer features removable rear grill for easier cleaning and a hanging loop for comfortable storing. A rubber-coated handle provides a firm grip, while rubber side guards prevent the hairdryer from getting scratched when put down.

PROPERTIES

- **Ultralight design for comfortable use**
- **3 temperature and 2 speed settings to deliver any hairstyle desired**
- **Sleek hair with an air nozzle and extra volume with a diffuser**
- Removable rear grill for easier cleaning
- Hanging loop for comfortable storing
- Thermal fuse protecting the motor from overheating
- Length of the power cord: 2.6 m

ACCESSORIES

- Diffuser
- Air concentrator

Hair Dryer

SHD 6700VT

Air nozzle and a diffuser: two key elements of any impressive hairstyle. With the input of 2 000W running three temperature and two speed settings the desired look is achieved with unexpected ease.

This ultralight design hairdryer with 2.6 meter long power cord provides high comfort and the rubber-coated rear part of the handle makes it easy to hold. Thermal fuse protects the motor from overheating, while scratches on the finish are prevented by rubber side guards.

PROPERTIES

- **Power input 2 000 W**
- **Ultralight design and 2.6 m power cord for uncompromised comfort**
- **Exclusive styling results with 3 temperature and 2 speed settings**
- Air nozzle, diffuser and cold air button for any hairstyle desired
- Removable rear grill for easier cleaning
- Thermal fuse protecting the motor from overheating
- Hanging loop and rubber coated rear part of the handle for safe storage and grip

FLAT IRONS

When an occasion or your mood call for straight hair, a flat iron is the best tool even if nature has given you a completely different hair type.

For such a small alliance, our flat irons feature numerous advanced properties to give you an outstanding user experience. Up to 14 different temperature settings can be chosen to suit your hair, titanium surface delivers an unparalleled elegant look, and natural appearance is provided by a special brush attachment. Steam moistening ensures the gentlest care, while an applicator of argan oil supports extra nourished and glossy hair. As far as comfort is concerned, SENCOR flat irons do their best to make your styling as easy and effortless as it gets. Ultra-light design prevents your hands from getting tired and the 360° swivel avoids any cord tangling. Moreover, freedom of movement is provided by an extra-long power cord with a protective textile coating.

So do not hesitate, choose the right one for you and get the elegant look you hope for.

WHY CHOOSE SENCOR FLAT IRON

- Slim design, ideal for hair straightening and styling
- Up to 14 different temperature settings to suit any hairstyle
- Ultra-light design for effortless styling
- Long power cord with protective textile coating and 360° swivel
- Titanium coated of ironing plates for optimal heat transfer and elegant results

STEAM MOISTENING CARES

With SENCOR flat irons, there is no need to have hesitation regarding daily use. The steam moistening feature will protect the beauty of your hair and ensure gentle treatment despite frequent styling. Because SENCOR truly cares.

EVERYDAY STYLING

Flat Iron

SHI 5600GD

Flat Iron

SHI 110BK

Advanced technologies, such as PTC heating or tourmaline ceramic, deliver fast heating and smooth hair straightening.

Styling is extraordinarily easy thanks to the 360° swivel power cord preventing it from getting tangled.

**PROPERTIES**

- **PTC technology for rapid heating pads to the working temperature**
- **Special floating sole plate construction prevents hair damage and reduces the pressure needed**
- **The power cable with 360° swivel to prevent twisting and tangling**

A close-up portrait of a woman with voluminous, curly reddish-brown hair. She is smiling broadly, showing her teeth, and holding a light-colored hairbrush horizontally across her face, with the bristles touching her nose. Her right eye is closed in a playful expression. The background is a plain, light color.

HAVE FUN,
HAVE CURLS

CURLING IRONS

Born with straight hair but eager for curly? No need to get a perm, our curling irons will let you change your look every other day. All you have to do is decide the size of your new curls and the curling iron with its brushes will do the rest. Up to seven easy-to-exchange attachments give tremendous look options and the cold air function, giving you extra long-lasting styling, can be used anytime during use.

As far as hair health is concerned, ionisation function with antistatic effect provides gentle care, which can be supported by the appropriate choice between two temperature levels.

Your comfort is no way compromised: adapters are easy and quick to change and the 360° swivel cord avoids any twisting and tangling.

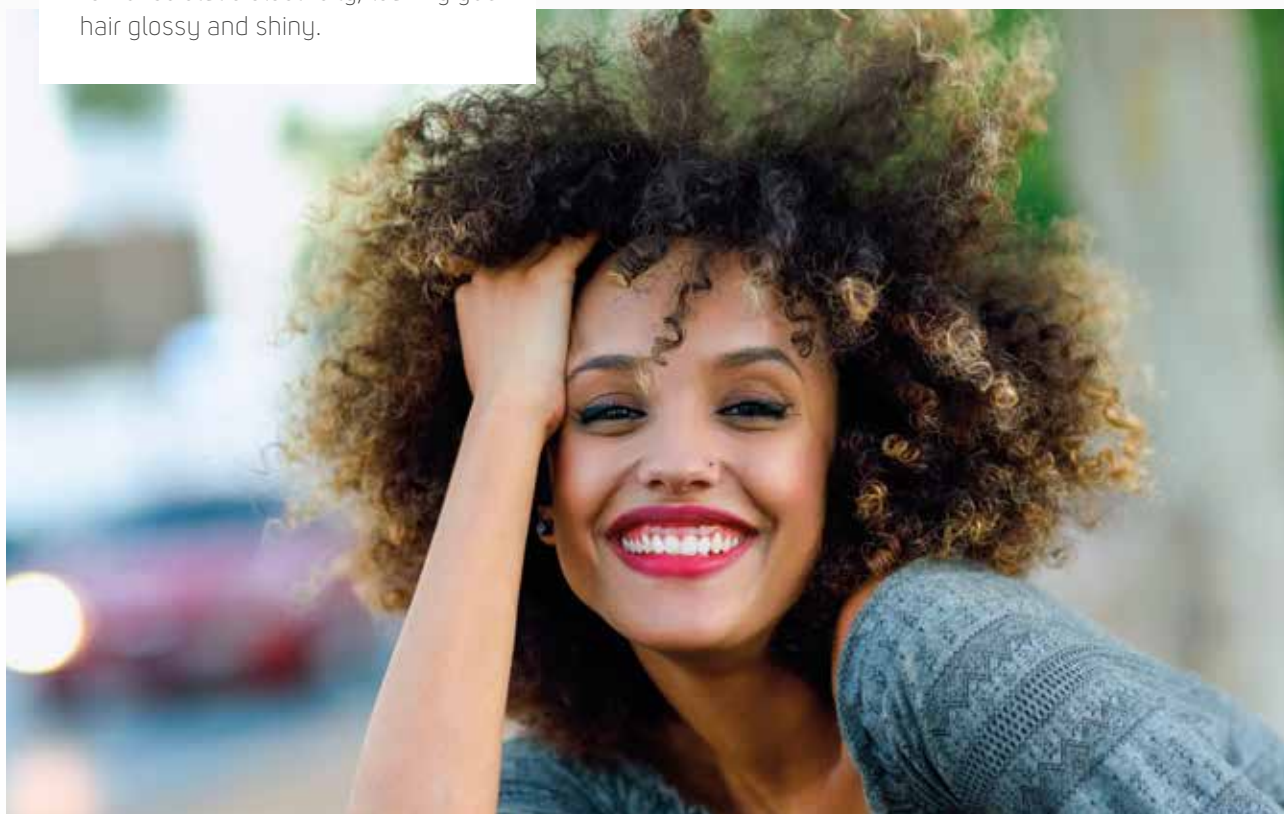

WHY CHOOSE SENCOR CURLING IRON

- Ionisation function with antistatic effect
- 7 exchangeable attachments and two temperature levels for uncompromised styling options
- Cold air button for a long-lasting looks
- Easy and quick to change adapters with fuse hanging loop
- 360° swivel cord avoids twisting and tangling

MIRACLE OF IONISATION

No more tangling and fighting static electricity when styling your hair! Our ionisation feature automatically removes static electricity, leaving your hair glossy and shiny.

LET IT SHINE

Curling Iron

SHOP**

HAIR CLIPPERS

No matter if you are up to a complete change of your look or just need a quick beard trim, SENCOR clippers will do so fast and easily. Choose among numerous exchangeable length attachments or go for comb-free trimming to style your hair just as you wish. The precise work of professional titan blades and a firm grip of an ergonomic handle give a sure hand when styling.

Moreover, multi-grooming sets offer attachments for nostril and body hair trimming, beard trimming, contour shaping and precise alignment.

The inside of a clipper hides an exceptionally quiet professional high-speed motor. Appliances are also fast to charge, some are able to reach a full battery charge in just two hours to give you 120 minutes of grooming time without a tangled power cord.

WHY CHOOSE SENCOR HAIR CLIPPER

- Numerous attachments for unlimited hair styling and body care options
- Graphical trim height indicator giving full control
- Rapid charging technology and long battery operating time
- Professional quality of blades and quiet high-speed motor
- Sure grip thanks to the ergonomic handle and free movement with cord-free use

ALWAYS IN FASHION

Fashion in men's hairstyle may change, but a set of SENCOR clippers will always deliver a top notch result. No wonder, its numerous attachments give absolute freedom for your hair and body grooming.

VARIABLE USE

Hair Clipper

SHP 8400BK

A modern hair clipper, which handles beards and nostril hair with ease thanks to its 8 attachments (3–25 mm) and 46 mm blade. Its hard plastic travel case also makes it ideal when away from home.

Fast charging takes 2 hours only, providing up to 1 hour of battery operation. Using Direct Drive technology, the clipper can be powered from a socket, either directly or during charging, without the necessity of fully charging the battery.

PROPERTIES

- **Rapid charge technology achieves a full battery within just 2 hours**
- **8 exchangeable height attachments (3 / 6 / 9.5 / 13 / 16 / 19 / 22 / 25 mm) and option to trim without the comb attachment**
- **Professional titan blades (width 46 mm)**
- Exceptionally quiet professional high-speed motor
- The battery-powered operation time of 2 hour
- Ergonomic chrome-plated handle prevents slipping
- Graphical trim height indicator
- LED charging indicator of a built-in 2200 mAh Li-Ion battery
- All-plastic travel case for easy handling and storage

Hair Clipper

SHP 8305BK

Professional multi-grooming set with 12 interchangeable attachments for hair, beard and nostril hair.

With its attachments of various lengths, it can cut hair to 3 to 12 mm in length, beards to 4 to 8 mm in length, shape contours and alignment. The quick-charge technology provides a full charge in as little as 2 hours and the built-in 600 mAh Li-Ion battery provides 60 minutes of operation.

PROPERTIES

- **12 exchangeable attachments**
- **Exceptionally quiet professional high-speed motor**
- **Rapid charge technology achieves a full charge within just 2 hours**
- Professional titan blades (width 9 / 30 / 39 mm)
- Operating time up to 60 minutes
- Direct Drive Technology
- Ergonomic chrome-plated handle prevents slipping in the hand
- Option to trim without the comb attachment
- Graphical trim height indicator
- LED charging indicator

ACCESSORIES

Practical charging stand, Nose hair removal attachment, Beard trimmer attachment, Contour styling attachment, Standard hair clipper attachment, Large hair clipper attachment, Hair clipper attachment 3 mm / 6 mm / 9 mm / 12 mm, Beard clipper attachment 4 mm, 6 mm, 8 mm, Oil, Cleaning brush, All-plastic travel case for easy handling and storage

Hair Clipper

SHP 7411BK

Multi-grooming set with 12 interchangeable attachments lets you take care of the whole body as it copes with nostril and body hair, beard trimming, contour shaping and precise alignment, and hair cutting from 3 to 12 mm in length.

The device can be powered by cable or battery; charging is provided by a micro USB connector, making it usable all over the world. The operating time when powered by the 600 mAh Li-Ion battery is 2 hours, and the battery fully charges in 2 hours.

PROPERTIES

- **12 changeable attachments**
- **Micro USB charging**
- **Exceptionally quiet professional high-speed motor**
- Rapid charge technology achieves a full charge within just 2 hours
- Power source cable/battery
- Ergonomic handle preventing slipping in the hand
- Battery operating time 2 hours
- Titanium blades (blade width 6 / 26 / 34mm)
- Option to trim without the comb attachment
- The graphic cutting length indicator
- LED charging indicator

ACCESSORIES

Practical Stand, Comb, Nose Hair Trimmer, Body Hair Shaver, Facial Hair Shaver, Design Hair Trimmer, Standard Hair Trimmer, Large Hair Trimmer, Hair Trimmer 3mm / 6mm / 9mm / 12mm, Facial Hair Height Regulation, Body Hair Height Regulation, Oil

Hair Clipper

SHP 7201SL

Use this hair clipper set with 7 attachments for cutting and precise trimming of nostril hair, beards and hair to achieve an uncompromising look.

The device can be used for up to 45 minutes and is powered by a battery which charges in 8 hours. To ensure long-life durability the clipper meets the requirements of the IPX 5 protection rating, proving its dust and water resistance. The Ni-MH battery capacity is 2x 600 mAh.

PROPERTIES

- **7 changeable attachments**
- **Titanium blades**
- **Fully charged up in 8 hours**
- High-speed motor
- Power source cable/battery
- Ergonomic handle preventing slipping
- Battery operating time 45 minutes
- Blade width 41 / 32 / 20 mm
- Option to trim without the comb attachment
- The graphic cutting length indicator
- LED charging indicator

ACCESSORIES

Practical stand, Nose Hair Trimmer, Facial Hair Shaver, Standard Hair Trimmer, Design Hair Trimmer, Large Hair Trimmer, Facial Hair Height Regulation, Body Hair Height Regulation

Hair Clipper

SHP 6201RD

Enjoy grooming with this multipurpose clipper, powered by a high-speed motor, using six changeable attachments and titanium blades to deliver outstanding results, when hairstyling, and trimming facial, body or nose hair.

An ergonomic handle prevents slipping, giving you a firm grip for the best results. The appliance is fully charged in 8 hours with 45 minutes of operating.

PROPERTIES

- **Titanium blades and six changeable attachments**
- **High-Speed Motor powered by mains/battery**
- **Option to trim without the comb attachment**
- Graphic cutting length indicator
- Integrated Ni-Mh battery fully charged in 8 hours, delivering 45 minutes of operating time
- LED charging indicator
- Ergonomic handle prevents slipping
- Blade width 41 / 32mm
- ON/OFF switch (on/off)

ACCESSORIES

Nose trimmer, facial shaver, standard hair trimmer, full-size trimmer, facial hair height regulation, body hair height regulation

Hair Clipper

SHP 4502BL

● SHP 4501BK ● SHP 4502BL

No matter if powered by cable or battery, this clipper delivers precise grooming thanks to its ergonomic handle preventing any slipping.

Trimming is possible with or without two comb attachments with a unique Lock-Up system, with the cutting length graphically indicated.

PROPERTIES

- **Power source cable/battery**
- **Removable height attachment for easy cleaning**
- **Ergonomic handle preventing slipping in the hand**
- Battery operating time 40 minutes, LED charging indicator
- Blade width 39 mm
- Option to trim without the comb attachment
- 2 comb attachments with a unique Lock-Up system (short attachment with lengths of 3, 9, 15 and 24mm and a long attachment with lengths of 14, 20, 26 and 35mm)
- Graphic cutting length indicator

ACCESSORIES

Practical stand, charger / power adapter, 2 comb attachments, cleaning brush

Hair Clipper

SHP 4302RD

Ultra-quiet high-speed motor and removable height attachment for easy cleaning make this clipper very comfortable to use. Regulator sets the cutting height from 1 to 8 mm.

Grooming can be done with or without the comb attachment with the cutting length is graphically indicated. The appliance is powered both by cable and battery (50 minutes operating time).

PROPERTIES

- **Power source mains/battery to suit any place and situation**
- **Ergonomic handle preventing slipping**
- **Battery operating time 50 minutes**
- Option to trim without the comb attachment
- Regulator for setting the cutting height from 1 to 8 mm, graphically indicated
- Integrated Nimh battery with LED charging indicator

ACCESSORIES

Charging/power adapter, cleaning brush

WATER RESISTANT

Hair Clipper

SHP 3301BL

Operating time of 50 minutes and 25mm wide blade provide an excellent opportunity to achieve an impressive look.

Ultra-quiet high-speed motor, ergonomic handle preventing slipping, removable height attachment for easy cleaning, and LED charging indicator make it highly practical to use.

PROPERTIES

- **Power source mains/battery to suit any place and situation**
- **Ultra-quiet high-speed motor for a pleasant experience**
- **Ergonomic handle prevents slipping**
- Battery operating time 50 minutes
- Blade width 25 mm, option to trim without the comb attachment
- Graphic cutting length indicator for easy orientation
- Regulator for setting the cutting height from 1 to 8 mm, graphically indicated
- Integrated Nimh battery with LED charging indicator

ACCESSORIES

**Charging/power adapter,
cleaning brush**

Hair Clipper

SHP 320SL

The uncompromising quality of stainless steel blades prevents it from any sign of rust.

Four comb attachments in different sizes (3, 6, 9 and 12 mm) and comb-free trimming are ideal for variable grooming. The trimming length can be adjusted even when styling without the attachment and ergonomically shaped handle gives a sure grip for a precise clipping.

PROPERTIES

- **Stainless protecting the blade from rust**
- **Styling with four comb attachments (3, 6, 9 and 12 mm) or even without**
- **Trimming length adjustment lever when cutting without the attachment**
- **Ergonomically shaped handle and hanging loop for comfortable use**

ACCESSORIES

4 comb attachments, cutting unit cover, comb, scissors, cleaning brush, oil

Hair Clipper

SHP 211SL

Choose any of 4 comb attachments (3, 6, 9 and 12 mm) or groom without the comb attachment to achieve the desired look.

The stainless steel blade never rusts and ergonomically shaped handle turns hygiene into a pleasing experience. The hanging loop keeps the clipper just right where you need it.

PROPERTIES

- **4 comb attachments (3, 6, 9 and 12 mm) or comb-free grooming to achieve the desired look**
- **Trimming length adjustment lever when cutting without the attachment**
- **Ergonomically shaped handle for a sure grip**
- **Hanging loop to keep the clipper ready to use**

ACCESSORIES

4 comb attachments, cutting unit cover, comb, scissors, cleaning brush, oil

Nose Ear Hair Trimmer

SNC 101BL

Trim your nose, ear and sideburn hair with uncompromised precision and comfort of two exchangeable heads.

Stainless steel blades deliver outstanding rust-free quality, while the washable cutting heads enable effortless cleaning.

PROPERTIES

- **Nose, ear and sideburn hair trimming with 2 exchangeable heads**
- **Stainless steel blades for premium durability**
- **Washable cutting heads to achieve maximum hygiene**
- **Integrated lighting and rubbered surface for comfortable use**

ACCESSORIES

Useful stand, cleaning brush, 1x AA alkaline battery

UNPARALLELED
**SMOOTH
SHAVE**
WITH NO SIGN
OF IRRITATION

MEN'S ELECTRIC SHAVERS

A smooth shave without the sign of skin irritation: that's exactly how SENCOR electric shavers work. Enjoy the comfort of 4D technology with tilting shaving heads, which perfectly adapt to all facial contours, ensuring flawless shave, so gentle to your complexion.

To give you the freedom to move, the shaver enables cordless operation, being powered by an integrated rechargeable battery. Modern batteries are fast charging and can last up to one month of daily use until the next charging is needed. To give the appliance enough power for a perfect shave with minimum friction, an ultra-quiet high-speed motor is incorporated.

Your comfort is guaranteed by an ergonomically shaped handle, which fits perfectly in hand, and water-resistant unit which can be easily washed under running water.

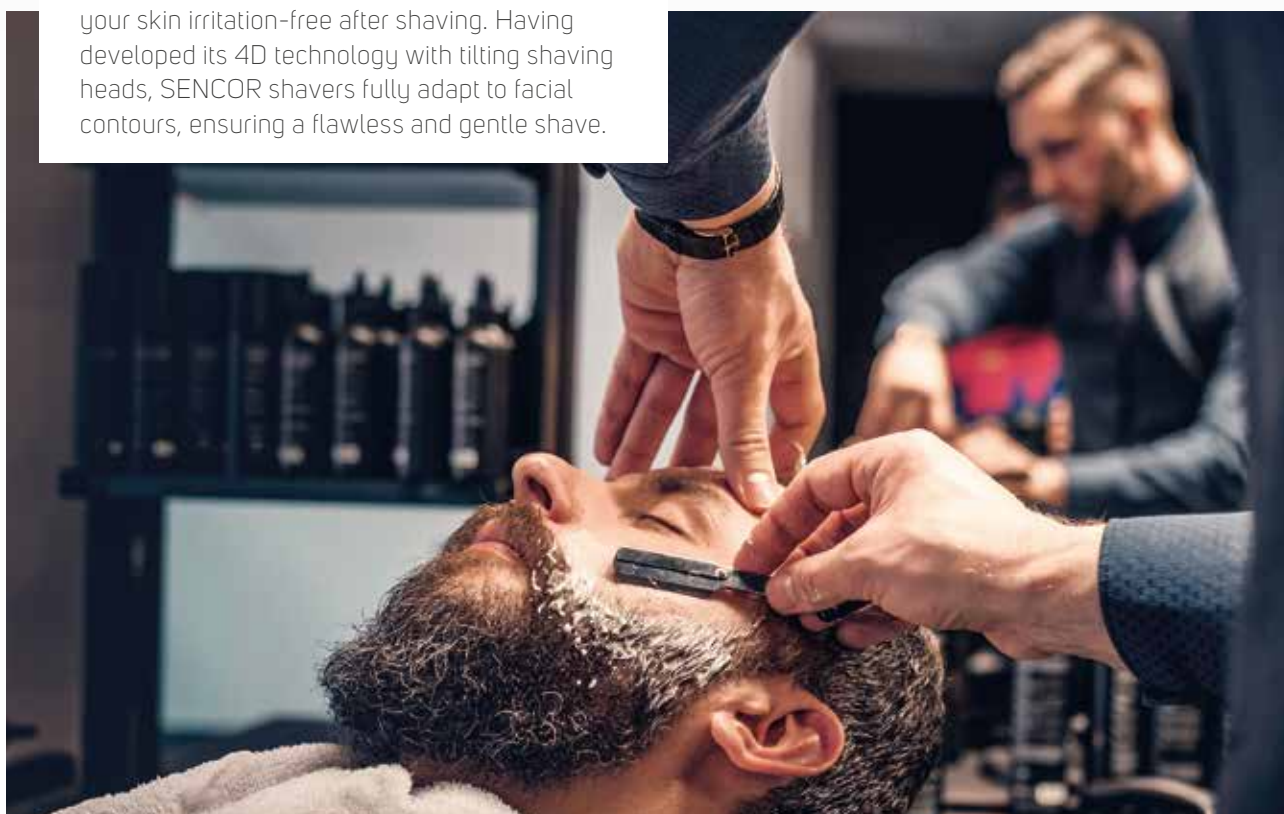

WHY CHOOSE SENCOR ELECTRIC SHAVER

- 4D technology for perfect results without a sign of skin irritation
- Fast charging with up to one-month daily use
- Ultra-quiet high-speed motor for a pleasant experience with minimal friction
- Built-in Li-Ion battery with LED charging indicator

4D SHAVE TECHNOLOGY

SENCOR knows how important it is to leave your skin irritation-free after shaving. Having developed its 4D technology with tilting shaving heads, SENCOR shavers fully adapt to facial contours, ensuring a flawless and gentle shave.

NO IRRITATION

Electric Shaver

SMS 5011SL

● SMS 5011SL ● SMS 5012GR ● SMS 5013RD

A perfect shave without nicks and cuts is provided by three separate pivoting razor heads which move in four independent directions thanks to the 4D technology and thus follow all contours of the face. The razors in the highest line are water-resistant.

The razors are equipped with a high-quality battery which lasts for up to 1 month (1-2 minutes of daily operation) when fully charged.

A trimming attachment for precise trimming for your whiskers and moustache and a cleaning brush and travel case are included.

PROPERTIES

- **4D technology for a perfect fit to your face**
- **Shaving blades with an extended service life**
- **Ultra-quiet high-speed motor**
- Built-in Li-Ion battery (500 mAh)
- LED charging indicator
- Charging time 2 hours
- Cordless operation
- Available in 3 colours

DENTAL CARE

When it comes to oral care, both health and beauty are what we strive for. Our advanced technologies promote healthy teeth and gums, prevent oral diseases and fight bad breath. Enjoy the help of modern SENCOR electric toothbrushes and oral irrigators and get an unrivalled shiny smile.

A close-up, profile view of a woman with long, light brown hair, looking upwards and to the right. She is holding a bright red apple in her mouth, with a small bite taken out of it. She is wearing a large, white, teardrop-shaped earring with black beads and a chunky, dark, textured bracelet on her right wrist. The background is a dark, textured blue.

BECAUSE ONLY
**PERFECTLY
CLEAN**
CAN BE HEALTHY

ELECTRIC SONIC TOOTHBRUSHES

Unbeatable frequency of up to 48,000 oscillations per minute stands behind unique results of our electric toothbrushes. Compared to a normal toothbrush, plaque gets removed more efficiently and gums are treated with maximal care. Unique Quadpacer technology divides the process into four phases for flawless cleaning, while different pre-set programs are designed to suit any user.

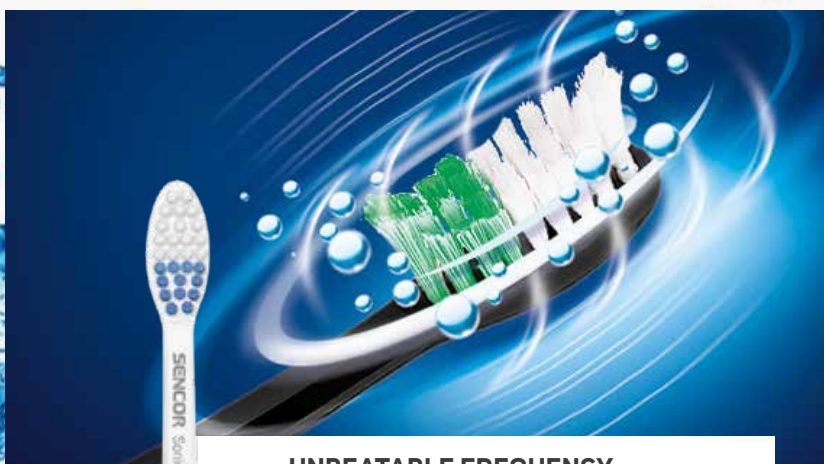

Unrivalled health care is provided by a UV sterilizer in a recharging case, which eliminates all germs and bacteria.

To provide you with comfortable use, our electric toothbrushes come with a practical charging station with a LED battery indicator. Once fully charged, they are ready to deliver outstanding results for up to 45 days. Naturally, all models are water-safe and have low energy consumption.

WHY CHOOSE SENCOR ELECTRIC SONIC TOOTHBRUSH

- Frequency up to 48,000 oscillations per minute to deliver perfect cleaning results
- Pre-set programs to suit any user
- Quadpacer technology for more mindful brushing
- Uncompromised health care with a UV sterilizer in the recharging case
- Battery life up to 45 days thanks to low energy consumption

SONIC POWER

UNBEATABLE FREQUENCY

No hand can be as efficient as a SENCOR electronic toothbrush. At the pace up to 48 000 oscillations per minute, it delivers impressive cleaning results to both your teeth and gums.

Electric Toothbrush

SOC 3311BK

● SOC 3311BK ○ SOC 3312WH

This highest series of SENCOR sonic toothbrushes in a modern design guarantees perfectly clean teeth and gums as well as maximum user comfort.

Compared to a normal toothbrush, brushing your teeth with an electric sonic toothbrush is more effective in removing plaque and a gentler way to take care of your gums. The special case will not only recharge your toothbrush, but its UV stabilizer will also eliminate any germs or bacteria.

**PROPERTIES**

- **Frequency: up to 48,000 oscillations per minute**
- **5 pre-set programs**
- **Quadpacer technology: divides cleaning into 4 phases**
- Charging station with UV sterilizer
- Battery life up to 45 days thanks to low energy consumption
- Protection against water immersion
- 2 cleaning heads

Electric Toothbrush

SOC 3210SL

A stylishly designed toothbrush for a modern bathroom and a modern user.

LEVEL OF DENTAL CARE

ORAL IRRIGATORS

If you take dental care seriously, you cannot forget oral irrigators. Being able to effectively remove bacteria, food residue and plaque from interdental areas and periodontal pockets, an oral irrigator is the best companion to achieve the ultimate oral health. Regular use helps to prevent gum diseases, dental tartar and caries, and also fights unpleasant bad breath.

SENCOR oral irrigators feature advanced properties to deliver unrivalled hygiene. Magnetic irrigator holder, high volume tank and a powerful pump with several water pressure levels work to meet all gum requirements and conditions, including sensitive gums suffering from disease. Different pre-set modes deliver, what is needed at the moment: a cleaning mode is suitable for everyday use, a massage mode to support blood circulation in gums, and a fresh mode to freshen up and clean the surface.

Take a step ahead in dental hygiene and get your oral irrigator to ensure a healthy smile for years to come.

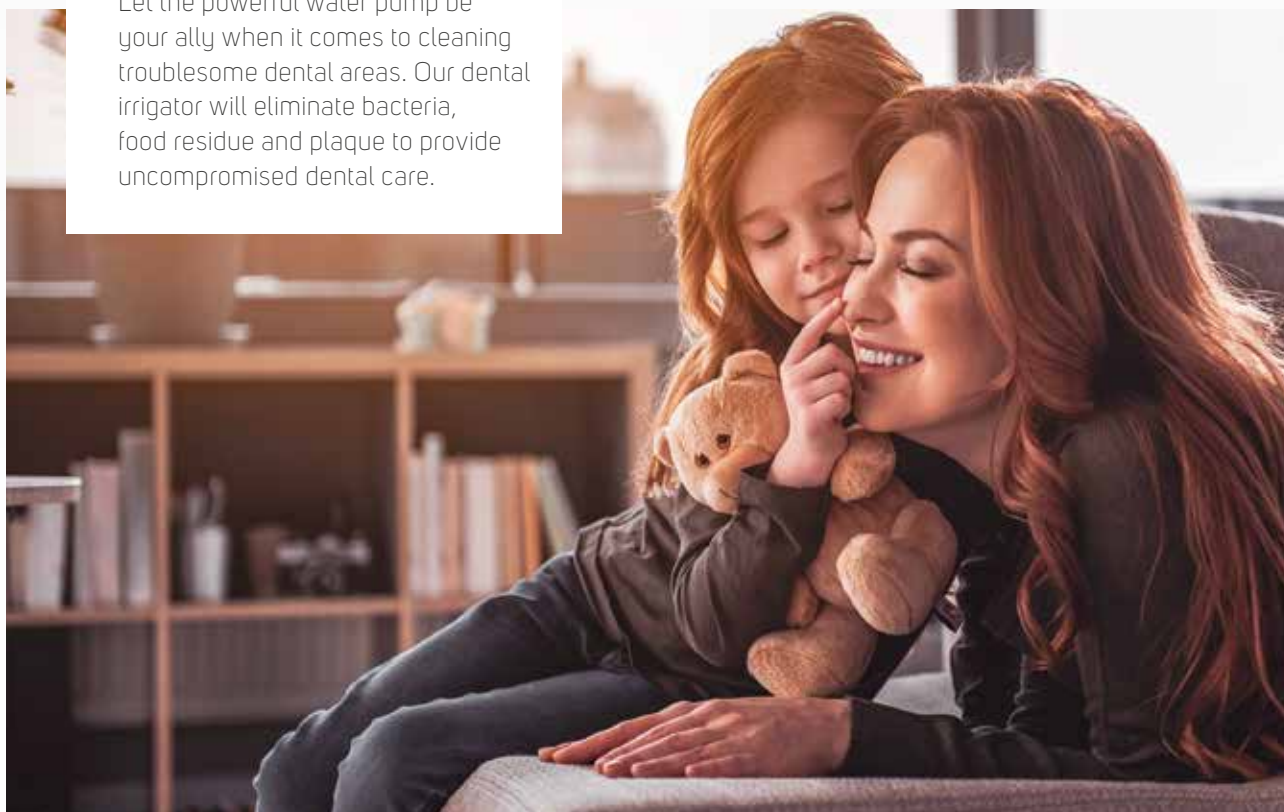

WHY CHOOSE SENCOR ELECTRIC ORAL IRRIGATOR

- Effectively removes bacteria, food remains and plaque from interdental areas and periodontal pockets.
- Fights gum diseases, dental tartar, caries, and unpleasant bad breath
- Features various replaceable heads and cleaning modes to deliver the desired result
- Its water pressure reaches usually hard-to-reach places
- 2-minute timer with Quadpacer technology ensures quality cleaning
- Comfortable to use with 100 cm long water tube and 360° rotating head

PROTECTIVE FLOW

Let the powerful water pump be your ally when it comes to cleaning troublesome dental areas. Our dental irrigator will eliminate bacteria, food residue and plaque to provide uncompromised dental care.

CARES FOR YOU

Oral Irrigator

SOI 3312WH

Remove bacteria, food remains and plaque from interdental areas and periodontal pockets with this powerful oral irrigator. Five preset cleaning and regeneration programs treat overall oral health, supported by a pump frequency of 1400 pulses per minute.

Four replaceable heads provide varied treatment: standard head removes bacteria from teeth and gums, a specialised cleaner cares for the tongue, the cavity cleaner is there for hard-to-reach or sensitive places, and orthodontic head cleans around braces or hard to reach areas around bridges.

PROPERTIES

- **Tank capacity 600 ml and 100 cm long water tube for a comfortable use**
- **Pump frequency 1400 pulses/minute with 5 water pressure levels to meet all gum requirements, including sensitive and diseased gums**
- **2-minute timer for optimal cleaning, featuring Quadpacer technology evenly dividing the cleaning process**
- Magnetic irrigator holder for maximum hygiene
- 360° rotating head to clean hard-to-reach spaces

Compatible with SENCOR SOI 3x oral irrigator

Oral Irrigator

SOI 2201RS

● SOI 2200SL ● SOI 2201RS ● SOI 2202TQ

Prevent gum diseases, cavities, tartar build-up and bad breath with this oral irrigator, which effectively removes bacteria, food remains and plaque from interdental areas and periodontal pockets. Four types of exchangeable heads work under continuous water pressure control with 10 possible water pressure levels to clean any hard-to-reach areas. The massage function helps to improve blood supply to gums and their regeneration.

Usage is comfortable and safe: the water flow can be turned on and off directly on the handle and the safe energy source is suitable even for damp bathrooms.

PROPERTIES

- **4 types of exchangeable heads for uncompromised oral health included**
- **Suitable for braces or bridges cleaning**
- **Magnetic irrigator holder for maximum hygiene**
- Quadpacer technology to evenly divide the cleaning time
- Tank capacity: 600 ml
- Pump frequency: 1400 pulses/minute

ACCESSORIES

- Standard head ideal for normal cleaning, removes bacteria from between teeth and between the teeth and the gums
- Tongue cleaner for cleaning the tongue, removes bacteria, food residue and dead cells from the surface
- Cavity cleaner for cleaning hard-to-reach or sensitive areas, the special construction ensures quality cleaning even when low pressure is used
- Orthodontic head for cleaning around braces or hard-to-reach areas around bridges

HEALTH CARE

If a healthy lifestyle is what you are looking for, SENCOR advanced personal scales and home blood pressure monitors will become your daily companions.

The scale will provide you with all the important data and measurement memory to help you adjust your diet or workout in order to reach your weight goal, while the blood pressure monitor will inform you about possible risks so that you can take timely action to protect your health as soon as the first sign of any disorder appears.

A woman with wavy brown hair and a bright smile is holding a large, black, vintage-style mechanical scale in front of her chest. The scale has a circular dial with multiple concentric rings of numbers. The outermost ring shows weights in kilograms (up to 160) and pounds (up to 350). The inner rings show smaller increments. A red needle points to the 0 mark on the innermost scale. The woman is wearing a grey tank top and a dark skirt. The background is a rustic, dark wood wall.

INTELLIGENT TOOLS

FOR YOUR HEALTHY
LIFESTYLE

PERSONAL SCALES

No longer is a personal scale a simple device showing a single number. Modern appliance can be considered a nutrition consultant, providing you with information on your BMI, BMR, fat and hydration, and calorie intake per day for reference.

Advanced SENCOR scales communicates with a special app; up to 12 different user profiles can be set (including age, gender and height) having their weight target and the extent of standard daily physical activity defined. Every user can thus easily and accurately follow his or her weight gain or loss.

Thanks to the slim design and tempered glass surface, our scales are elegant and practical, able to support to load of up to 180 kg and show results with 100 g accuracy. The extra-large backlit LCD display makes data easy to read and Auto On function gets the scale ready to work just as you step on it. Take control of your weight with the support of our state-of-the-art personal scales!

WHY CHOOSE SENCOR PERSONAL SCALE

- Bluetooth 4.0 connection with app to track body weight changes
- Slim design and tempered safety glass surface for easy cleaning
- Convenient use with Auto-on function (weighs immediately when stepped on) and automatic shut-off when idle
- Extra-large backlit LCD display for easy reading
- Low battery and overload indicator
- Data lock function for more accurate measurement (measured weight remains displayed for 10 seconds)

SENCOR HEALTH

TRACK YOUR ACHIEVEMENTS

Streamline your way to optimal body weight with SENCOR's personal scale connected to our app, which keeps your complete measurement history, outlines trends creates reports to help you achieve a healthier life.

Personal Scale

SBS 8800BK

This top-modern smart scale will surely fit the needs of the most demanding clients. With Bluetooth 4.0 built in, all key parameters can be tracked on a smart phone or tablet. Up to 12 different user profiles in 14 languages can be set, remembering the age, gender and height, target weight and the amount of usual daily physical activity.

Users follow their weight gain or loss on the slim 8mm tempered glass, which can weight up to 180 kilograms. Thanks to the Auto-On function, the scale will start weighing as soon as stepped on. Share of body fat, hydration, muscle, and bone, altogether with BMR and visceral fat are easy to read on an extra-big backlit LCD display. The scale is powered by four 1,5V AAA batteries (included).

PROPERTIES

- **Bluetooth 4.0 communication with SENCOR Application**
- **Memory for 12 users**
- **Measures body fat, hydration, muscle, bone, BMR, and visceral fat**
- Tempered safety glass surface for easy cleaning (8 mm)
- Weight up to 180 kg (sensitivity 100 g)
- The extra-large white backlit LCD display (82 × 42 mm)
- Measuring unit selection (kg/lb)
- Low battery and overload indicator
- Auto-on function (weighs immediately when stepped on) and automatic shut-off when idle

Tempered glass fitness scales with an ultra slim design show measured weight on a large LCD display and measure the following parameters:

BMR (NUMBER OF CALORIES, WHICH THE BODY NEEDS IN A RELAXED STATE IN ORDER TO MAINTAIN ALL BODY FUNCTIONS)

AMR (NUMBER OF CALORIES, WHICH THE BODY NEEDS DURING PEAK ACTIVITY)

% OF BODY FAT

% OF WATER IN THE BODY

% OF MUSCLE MASS IN THE BODY

% OF BONES

Personal Scale

SBS 8000BK

The most modern smart scale will fit the needs of even the most discerning clients. Thanks to Bluetooth 4.0, it enables the user to follow all key parameters on his or her smartphone or tablet.

This model's app enables the user to set 12 different user profiles in 15 languages. Based on user preference, it can measure weight in kilograms or pounds. The app does not only allow the user to enter his or her age, gender and height, it also lets him or her enter the target weight and the amount of standard daily physical activity. Every user can therefore accurately follow his or her weight gain or loss. The app also offers a lexicon of key terms and a guide to all the scale's functions.

The ultra-slim scale made from 6 mm thick tempered glass can be used by individuals weighing up to 180 kilograms. Thanks to the Auto-On function, the scale will start weighing as soon as the user steps on it. The scale, featuring an easily readable LCD display, is powered by two 1,5V batteries (AAA).

PROPERTIES

- **Bluetooth 4.0**
- **Measure body**
- **Calculate calorie needed per day for reference**
- Memory for 12 users
- Soft-touch buttons
- Slim design (22 mm)
- Glass surface for easy cleaning
- Tempered safety glass (6 mm)
- Weight up to 180 kg (sensitivity 100 g)
- Auto-on function (weighs immediately when the scale is stepped on)
- The extra large white backlit LCD display (74 x 35,6 mm)
- Option to select measuring units (kg/lb)
- Weak battery and overload indicator
- Automatic shut-off when idle
- Data lock function for more accurate measurement (measured weight remains displayed for 10 seconds)

Personal Scale

SBS 6015WH

○ SBS 6015WH ● SBS 6016BK

This ultra-slim design fitness scale will give all the important information on body fat, water, muscle and bones measurements, which makes it very helpful when focusing on a healthy lifestyle.

Despite its advanced features, including memory for 8 users with automatic user identification and gender and height setting, the scale is easy to use and operate. The auto-on function activates scale immediately when stepped on, offering the weighing range up to 180 kg (with 100 g sensitivity).

PROPERTIES

- **Touch control sensors and blue back-lit inverse LCD display**
- **Measures percentage content of body fat, water, muscle and bones**
- **Auto-On function (scale weighs immediately when stepped on)**
- Weighing range up to 180 kg (with 100 g sensitivity)
- Ultra-slim design (height only 23 mm)
- Memory for 8 users with automatic user identification
- Option to set gender, height (80 - 220 cm), and measuring units (kg/lb/st:lb)
- Supplied accessories: 2x CR 2032 lithium batteries

Personal Scale

SBS 5050BK

● SBS 5050BK ○ SBS 5051WH

A smart glass scale with an ultra-slim design features a large LCD display, memory for 12 user profiles and a weight limit of 150 kilograms.

This smart scale will not only accurately calculate the user's BMI and BMR, but also recommend the optimal daily calorie intake and percentage of fat and water in the body. A light indicates low battery. The scale is powered by 1 lithium battery (included).

PROPERTIES

- **Ultra Slim Design (20 mm) with a tempered glass surface for easy cleaning (6 mm)**
- **Extra-large LCD Display (74 x 28.5 mm) and big press buttons for easy use**
- **Memory for 12 users**
- Weight up to 150 kg (sensitivity 100 g)
- Calculates BMI, BMR function, and daily calorie intake for reference
- Auto-on function (weighs immediately when stepped on) and automatic shut-off when idle
- Option to select measuring units (kg/lb)
- Low battery and overload indicator
- Data lock function for more accurate measurement (measured weight remains displayed for 10 seconds)

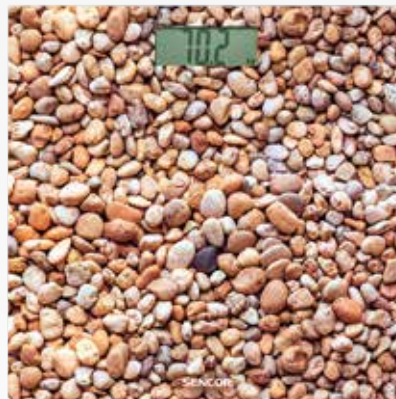

Personal Scale

SBS 2302SN

● SBS 2300BK ○ SBS 2301WH ● SBS 2301WH

Glass surface, made of 5mm tempered safety glass, ensures this slim design scale (21 mm) both an elegant look and easy cleaning.

The auto-on function activates scale immediately when stepped on, providing accurate measurement thanks to four high precision sensors. In order to achieve even more accurate weighing, the data lock function keeps the measured weight visible on display for 10 seconds. The maximum load is 150 kg, overload indicator informs if exceeded. The scale is powered by 1x CR2032 lithium battery, featuring a low battery indicator.

PROPERTIES

- **Tempered safety glass (5 mm) surface for easy cleaning**
- **Slim design (21 mm) with extra-large LCD display (74 x 28.5 mm)**
- **Weight limit 150 kg (sensitivity 100 g) with 4 high precision sensors for accurate weighing**
- Auto-On function (weighs immediately when stepped on) and automatic shut-off when idle
- Data lock function for more accurate measurement displays data for 10 seconds
- Option to select measuring units (kg/lb)
- Low battery and overload indicator
- Power source: 1x CR2032 Lithium Battery (Included)

Personal Scale

SBS 113SL

This ultra-slim personal scale made of tempered glass offers an appealing, clean design and a large LCD display.

Thanks to 4 sensors, it measures very precisely up to 150 kilograms. It is powered by 1 lithium battery.

PROPERTIES

- **4 high precision sensors for accurate weighing**
- **Glass surface for easy cleaning Tempered safety glass (6 mm)**
- Slim design (24 mm)
- Weight up to 150 kg (sensitivity 100 g)
- Auto-On function (weighs immediately when the scale is stepped on)
- The extra large LCD display (74 x 28.5 mm)
- Data lock function for more accurate measurement Option to select measuring units (kg/lb)
- Weak battery and overload indicator
- Automatic shut-off when idle

FEEL THE HEARTBEAT,
FEEL LIFE

BLOOD PRESSURE MONITORS

You may have experienced changes in your blood pressure when having it measured at your practitioner's or at the hospital. No wonder, an unusual place can stress us and therefore influence the measurement results. A home blood monitor is, therefore, a great tool to track daily systolic and diastolic blood pressure and heart rate. All measurements are easy to read thanks to a large LCD display.

Using the home blood pressure monitor is very simple: the device features adjustable pressure cuff, automatic inflation and air release of the cuff and memory for up to 60 measurements, and date and time of measurement are included.

With SENCOR blood pressure monitor you can be in control of how your heart performs and take care of your health in the comfort of your home.

FROM THE COMFORT OF YOUR HOME

Measure your systolic and diastolic blood pressure and heart rate whenever you wish from the comfort of your home. The SENCOR blood pressure monitor is your new ally for health management.

WHY CHOOSE SENCOR BLOOD PRESSURE MONITOR

- Easy at-home measurement of systolic and diastolic blood pressure and heart rate
- Cardiac arrhythmia warning indicator to protect your health
- Large LCD display for comfortable reading
- Memory for up to 60 measurements, date and time of measurement included
- Adjustable cuff with automatic inflation and air release

FOR YOUR HEALTH

Pressure Monitor

SBD 1470

Small digital blood pressure meter, easy to use at home as well as on the move. The device measures systolic and diastolic blood pressures and heart rate on the wrist. The blood pressure cuff can be set to an arm girth of up to 19.5 cm.

The device has a large LCD display and a memory for up to 60 measurements. It will display increased blood pressure values (hypertension) graphically and can also alert you about cardiac arrhythmia. Model SBD 1470 has a low-battery indicator. Powered by four AAA batteries.

PROPERTIES

- **For easy measurement in domestic conditions**
- **Measures systolic and diastolic blood pressure and heart rate**
- **Cardiac arrhythmia warning indicator**
- Graphic display of increased blood pressure values (mild / medium / heavy hypertension)
- Adjustable pressure cuff diameter of 13.5 – 19.5 cm
- Large LCD display (31 x 44 mm)
- Memory for up to 60 measurements (for 1 user) including a recording of the date and time of measurement
- Automatic inflation and air release of the cuff

Pressure Monitor **SBD 690**

Device for measuring systolic and diastolic blood pressures and heart rate on the arm.

The large LCD display for perfectly legible readings. Large and graphically distinctive buttons for easy operation.

Graphically indicates suspected hypertension and/or cardiac arrhythmia.

It provides memory for up to 60 measurements for one user. The device indicates a low battery; the data remain in the memory after battery replacement. Powered by four AA batteries.

PROPERTIES

- **For easy measurement in domestic conditions**
- **Measures systolic and diastolic blood pressure and heart pulse rate**
- **Memory for up to 60 measurements (for 1 user)**
- Graphic display of increased blood pressure values (mild / medium / heavy hypertension)
- Cardiac arrhythmia warning indicator
- Adjustable pressure cuff diameter of 22 – 42 cm
- Extra large LCD display (61 x 93 mm)
- Memory for up to 60 measurements (for 1 user) including a recording of the date and time of measurement
- Automatic inflation and air release of the cuff

BODY CARE

No more cold bed when a warm duvet is what you need the most. With a SENCOR electric blanket, you will enjoy a nicely heated bed anytime you need. And what's more – you do not have to negotiate with your partner about the temperature, each side of a double bed size electric blanket can have its own controller! So slip into your bed and get pampered.

A close-up photograph of a middle-aged couple smiling and embracing outdoors. The man, on the left, has a beard and is wearing a teal sweater and a patterned scarf. The woman, on the right, has blonde hair and is wearing a yellow knit sweater. The man is holding a white mug. The background is a soft-focus outdoor setting with greenery.

ENJOY THE
PLEASURE OF A
**WARM
BED**

ELECTRIC BLANKETS

Chilly days happen to come any time of year. But no worry, with a SENCOR electric blanket your bed will always be a warm and welcoming place after a hard day. Electric blankets come in three designs: you can choose a single or a double bed size or decide for a foot warmer to suit your need.

When using the biggest one, no compromises on your personal preferences are necessary: each side features its own remote control to adjust the temperature just as you wish.

Your comfort is guaranteed by a skin-friendly material, while automatic switch-off after three hours, overheating protection and automatic cut-off in case of damage guard your safety.

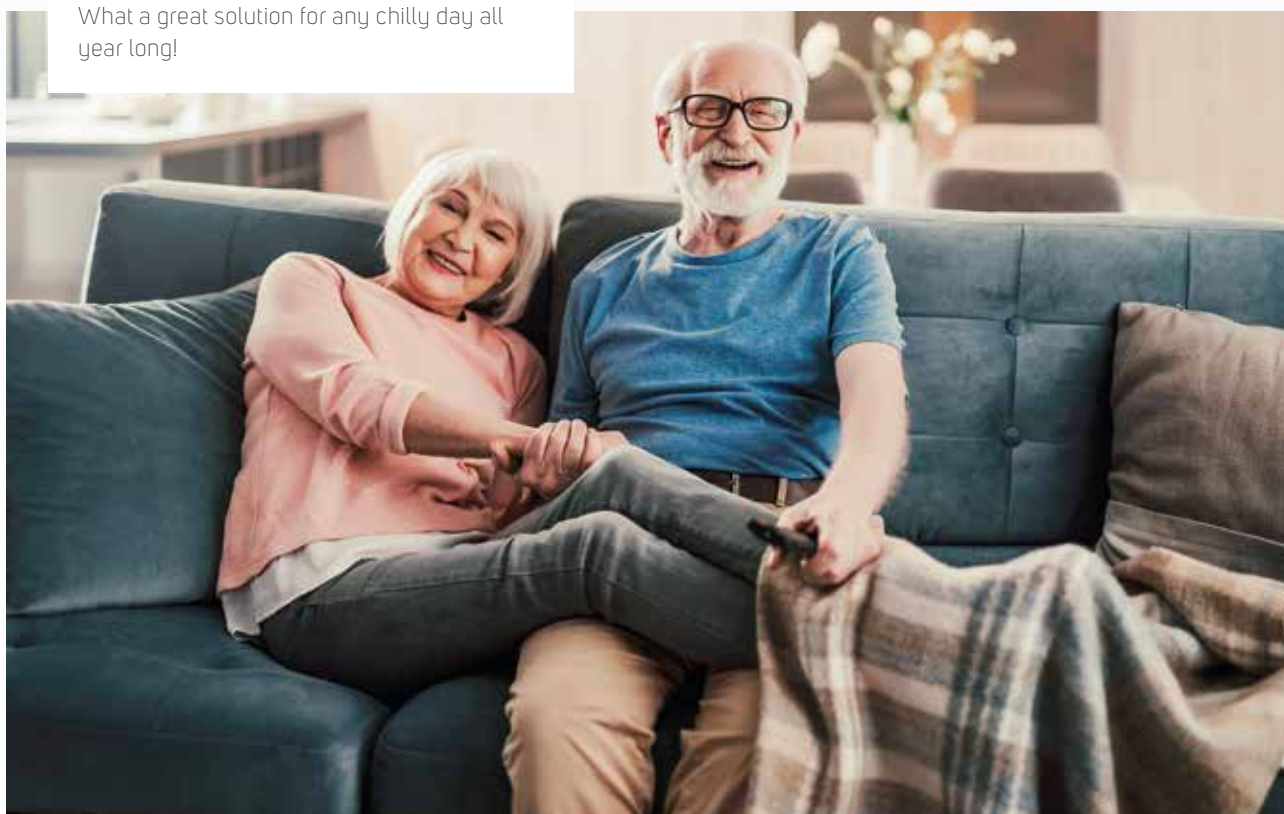

WHY CHOOSE SENCOR ELECTRIC BLANKET

- Dimensions for both a double or single bed
- Remote control and temperature setting for your comfort
- Easy maintenance thanks to removable cables with remote controls
- Skin-friendly material ensuring a pleasing experience
- On indicator light and overheating protection for your safety

GOOD BYE, COLD BED

Never ever again will you have to warm up the bed yourself, a SENCOR electric blanket take care of the job ready in just 30 minutes. What a great solution for any chilly day all year long!

HEATED BLANKET

Electric Blanket SUB 291

With two independent remote controls and two temperature levels this electric blanket delivers so much comfort to two people on a double bed (160 x 140 cm). The recommended preheating time is 30 min. Blanket, made of 100 % polyester, is washable (cables with remote controls can be easily removed). The indicator informs you if turned on and overheating protection cares for your safety.

PROPERTIES

- **Dimensions for two people on a double bed (160 x 140 cm)**
- **2 independent remote controls and 2 temperature setting levels**
- **Recommended preheating time 30 min.**
- Washable (removable cables with remote controls)
- Material: 100% polyester (synthetic fleece)
- On indicator light and overheating protection
- Length of power cord: 2.0 m
- Power input 2x60 W

Electric Blanket SUB 2700WH

Enjoy the skin-friendly and breathable soft fleece fabric with stamp welding to provide more durability. The blanket is simple to attach to the mattress by elastic cords and easy to wash thanks to the detachable controller. Unparalleled comfort is ensured by three illuminated temperature settings and a generous double-bed size (160x140 cm). Japanese wiring technology delivers high reliability with advanced safety system, featuring automatic switch-off after three hours, electronic overheating protection and automatic cut-off in case of damage.

PROPERTIES

- **The comfort of skin-friendly and breathable materials**
- **Soft fleece fabric (polyester) with stamp welding for more durability**
- **Japanese wire technology ensuring high reliability**
- Highly comfortable extra sponge layer
- 3 illuminated temperature settings
- Easy to attach to the mattress by elastic cords
- Washable thanks to detachable controller
- Double Size: 160x140 cm
- High safety system featuring electronic overheating protection and automatic cut-off in case of damage
- Automatic switch-off after 3 hours

SOFT FLEECE FABRIC

DOUBLE-BED SIZE

WASHABLE
thanks to removable cables with
remote controls

Electric Blanket

SUB 281BE

Two independent remote controls and the size of a double bed (160 x 140 cm) turn this electric blanket into a real pleasure. Two temperature setting levels are ready to provide the desired comfort after recommended 30 minute preheating time.

The blanket, made of 100% polyester (Polar Fleece), is washable thanks to removable cables with remote controls.

PROPERTIES:

- **Size of a double bed (160 x 140 cm)**
- **2 temperature setting levels with 30 minute recommended preheating time**
- **Washable 100% polyester polar fleece thanks to the removable cables with remote controls**
- On indicator light and overheating protection
- Length of power cord: 2.0 m
- Power input 2x60 W

Electric Blanket

SUB 1700WH

This single-size electric blanket will cuddle you with its highly comfortable extra sponge layer. All materials used are skin-friendly and breathable and the soft fleece fabric with stamp welding provides extra durability.

Japanese wiring technology ensures extraordinary durability, supported by overheating protection. Choose one of three temperature settings and have the blanket heated rapidly to give you a warm nap whenever you need.

PROPERTIES

- **3 illuminated temperature settings**
- **Easy to attach to the mattress by elastic cords**
- **Washable thanks to detachable controller**
- High safety system featuring overheating protection and automatic cut-off in case of damage
- Automatic switch-off after 3 hours
- Single bed size: 150 x 80 cm

ELECTRONIC TEMPERATURE
CONTROL

Electric Blanket

SUB 181BE

Great to use and easy to maintain: this electric blanket, fitting a single bed (150 x 80 cm), will give your bed an uncompromised temperature comfort no matter how cold the weather is.

With two temperature setting levels, you can choose the one to suit you, and if needed, you can wash it thanks to its removable cable.

PROPERTIES

- **Dimensions for one person**
- **Remote control**
- **Recommended preheating time 30 min.**
- On indicator light
- Overheating protection
- Length of power cord: 2.0 m
- Power input 60 W
- Washable 100% polyester (Polar Fleece) thanks to the removable cable with remote control

Electric Blanket

SUB 0700BE

Your feet will never be cold again with our foot warmer. Extra soft, fluffy fabric will give the most pleasing experience.

Three illuminated temperature settings and an automatic switch-off function after 90 minutes make it comfortable to use. High safety is ensured by electronic overheating protection and automatic cut-off in case of damage.

PROPERTIES

- **Skin-friendly with breathable microfleece**
- **Electronic temperature control of three illuminated temperature settings**
- **Automatic switch-off after 90 minutes**
- High safety system: electronic overheating protection and automatic cut-off in case of damage
- Washable, removable fluffy lining
- Fabric: 100% Polyester
- Product size: 30 x 30 x 24 cm
- Power input: 100 W
