SENCOR

INNOVATIVE PRODUCTS TO CHERISH YOUR HEALTH AND PAMPER YOUR BEAUTY

In Japan back in the early the 70's, SENCOR set out on an exciting journey to deliver product innovation and variety, different and original designs, colours, unique features and availability. The product portfolio may have changed to reflect new needs of people around the world, but the passion to deliver well-designed products highly valued by customers at a reasonable price remains unchanged.

We have only one life to live. SENCOR health and beauty products are here to pamper and help, offering countless personal choices when it comes to hair dryers, curling irons, flat irons, clippers, shavers, electric toothbrushes, oral irrigators, blood pressure monitors, personal scales and electric blankets. All are designed with and for care.

With SENCOR, health and beauty are no longer at odds. Our hair dryers create stunning hairdos, while using advanced functions to ensure hair and overall heath: ionisation maintains lively and shiny hair and the special hairdryer surface features an antibacterial treatment. Flat and curling irons do not remain far behind: there are up to 14 different temperature settings to provide gentle styling with unparalleled results and

an ionisation function with an antistatic effect protects hair from overdrying.

Today's men understand the importance of being well-groomed and with the help of SENCOR clippers and shavers, daily shaving and styling is an easy task. With an emphasis on safe and comfortable use, men with all skin types can now enjoy barber-quality styling at home. Super-easy maintenance ensures the clippers and shavers are always clean and ready for hygienic use to the highest standard.

SENCOR electric toothbrushes care for both teeth and gums, offering various pre-set programs to suit even those with different health conditions. Their operating speed and gentle bristles provide effective cleaning and protect against cavities and gum disease. But there is even more: oral irrigators provide extra care, using a stream of high-pressure pulsating water to remove plaque and food particles between teeth and below the gum line. Such treatment is highly appreciated not only by people with braces and dental implants, which are tricky to clean, but also by anyone wishing to maintain perfect oral health.

SENCOR says yes! Our stressful jobs and busy lifestyles may lead to hypertension regardless of age. At-home examinations are therefore an important part of the health care, offering the possibility of diagnosing blood pressure disorders and getting necessary medical treatment, or having the certainty that everything is fine.

Body weight – well, is a bit of an issue. Be in control of your body weight with one of the personal scales featuring advanced tracking functions such as: muscle or body fat weight, bone weight, body water weight, Body Mass Index (BMI), or Basal Metabolic Rate (BMR). The state-of-the-art models come with Bluetooth, connecting the scale with a SENCOR app, which keeps a history of all measurements, describes the trends and generates reports to help you reach the desired body shape.

During cold days throughout the year you will surely appreciate an electric blanket. Forget about the tiny blankets of the past. Today's electric blankets are bigenough to heat up a double bed. With two controllers, each side of a bed can set its own temperature. Can you feel the pleasure of spending a chilly evening in a warm bed with a good book to read?

So don't hesitate and enter our world of modern healthcare and beauty appliances to see that innovations are not something SENCOR just talks about.

At SENCOR product development is a way of life.

WHY CHOOSE SENCOR

Decades of experience from all the world's markets enable us to produce successful appliances for personal care. Our hair dryers and irons featuring ionisation deliver both precise styling and gentle care, together with health protection ensured by their antibacterial surfaces. Men will appreciate shavers with advanced 4D technology, which adapt to any face shape, leaving it professionally groomed without a sign of irritation. Family oral health is within reach thanks to electronic sonic toothbrushes and oral irrigators with the unique Quadpacer feature. In order to be in control of both your health and comfort, a smart bodu scale linked to a mobile app, accurate home blood pressure monitors and generously-sized electric blankets are here to help. Combined with durability and reasonable prices, our appliances are ready to deliver unique value for your health and beauty.

HAIR CARE

Show the whole world how great your hair can be. With a few modern beauty helpers, your hairstyle will soon be ready to impress. Find your ideal hair dryer, see the newest flat irons, and try how it feels to have curly hair. Our top modern appliances do their best to convince you that going to hairdresser's is not necessary: they style and care for your hair to give you the look of a movie star.

FLAT

When an occasion or your mood calls for straight hair, a flat iron is the best tool even when nature has given you a completely different hair type.

For such a small alliance, our flat irons possess numerous advanced features to deliver an outstanding user experience. Up to 14 different temperature settings can be selected to suit your hair, while the titanium surface delivers an unparalleled elegant look and natural appearance is assured by a special brush attachment. Steam moistening ensures the gentlest care, while an applicator of argan oil supports extra-nourished and glossy hair. As far as comfort is concerned, SENCOR flat irons do their best to make your styling as easy and effortless as it gets. Ultralight design keeps your hands from tiring and the 360° swivel helps avoid any cord tangling. Moreover, freedom of movement is provided by an extra-long power cord with a protective textile coating.

So do not hesitate, choose the one right for you and get the elegant look always wanted.

WHY CHOOSE

A SENCOR FLAT IRON

- Titanium-coated ironing plates for optimal heat transfer and elegant results
- Slim design, ideal for hair straightening and styling
- Up to 14 different temperature settings to suit any hairstyle
- Ultra-light design for effortless styling
- Long power cord with protective textile coating and 360° swivel

An unparalleled choice for those expecting their flat iron to deliver more than straightening.

A special brush attachment maintains its natural look, while another one combs out the hair while ironing. To deliver extra nourished and glossy hair, an applicator of argan oil is included. 14 temperature settings, titanium-coated ironing plates and a slim design deliver comfort and impressive results.

Flat Iron

SHI 131BK

The PTC technology used in this flat iron provides fast heating, while the combined ceramic tourmaline technology enables hair to glide smoothly along the pressing surface.

Moreover, the special floating pressing surfaces protect hair from damage with no need to apply heavy pressure.

FEATURES

- LED operation indicator and a display showing the current temperature
- 360° swivel power cord against torsion and prevents tangling
- Integrated lock for convenient storage

Flat Iron

SHI 110BK

Advanced technologies, such as PTC heating and tourmaline ceramics, deliver fast heating and smooth hair straightening.

Styling is extraordinarily easy thanks to the 360° swivel power cord that prevents it from getting tangled.

- PTC technology for rapid heating of plates to operating temperature
- Special floating sole plate construction prevents hair damage and reduces the pressure needed
- The power cable with 360° swivel to prevents twisting and tangling

CURLING IRONS

Born with straight hair but eager to go curly? No need to get a perm, our curling irons will let you change your look every other day. All you have to do is decide the size of your new curls and the curling iron with its brushes will do the rest. Up to seven easily interchangeable attachments offer tremendous styling options and the cold air function, which delivers extra long-lasting styling, can be used anytime during curling-iron operation.

As far as hair health is concerned, the ionisation function with an anti-static effect provides gentle care, which can be augmented by an appropriate selection between two temperature levels.

Your comfort is in no way compromised: adapters are easy and quick to change and the 360° swivel cord helps avoid any twisting or tangling.

WHY CHOOSEA SENCOR CURLING IRON

- Ionisation function with antistatic effect
- 7 exchangeable attachments and two temperature levels for uncompromising styling options
- Cold air button for long-lasting styling
- Easy and quick to change adapters with fuse and hanging loop
- 360° swivel cord eliminates twisting and tangling

THE MIRACLE OF IONISATION

No more tangling and struggling with static electricity when styling your hair! Our ionisation feature automatically removes static electricity, leaving your hair glossy and shing.

- 18 cm in diameter and two-sided design
- One side provides a standard reflection, while the other side a fivefold magnification enabling perfect care for every detail
- LED diode backlight
- Economical operation (consumption max. 5 W)
- All stainless-steel design

HAIR DRYERS

Healthy, shiny, perfectly-styled hair, it's what we all dream of and exactly what SENCOR hairdryers deliver. Their gentle care starts with a range of three temperatures at two speed levels, providing extra fast or extra even drying. To make your hair look absolutely stunning, ionisation seals the cuticles of each strand to retain moisture, protecting your hair from overdrying and breaking. If you wish to add extra volume, replace the air nozzle with a diffuser, which will easily create more voluminous hair. Once you are satisfied with the hairstyle, press the cold air button to set it. Voilà!

The practical aspects will please you too. Our modern hairdryers feature a hanging loop for easy storage, allow you to move freely thanks to their long power cords, use a rubber coating to protecting their shine and even have a special anti-bacterial surface treatment. Maintenance is super-easy as they feature a washable rear grill. And when on holiday or a business trip, your hair will look great thanks to travel hair dryers with folding handles that fit into any size of luggage.

WHY CHOOSE

A SENCOR HAIR DRYER

- Ultralight design for effortless use
- Different temperature and speed settings to create optimal styling
- Diffuser for extra hair volume
- Perfect grip with antibacterial surface treatment
- Ionisation function for healthy and shiny hair

SHD 8271VT

With the professional AC motor, this hairdryer offers three power levels and two speeds to suit any hairstyle and type.

The ionisation function generates negative ions, which improve both health and look of the hair, while the Cool Shot function seals the hairdo and keeps it in perfect shape for longer. Using is as easy as it gets: the ergonomically shaped handle is designed to suit both leftand right-handed people, and the removable rear grill makes cleaning easy and thanks to a hanging loop the dryer is always at its place.

FEATURES

- Professional AC motor with power input 2200 W
- 3 power levels and 2 speeds
- Cool Shot function
- Ionisation function generates negative ions
- Ergonomically shaped handle for left- and right-handers
- Removable rear grill for easier cleaning
- Wave-shaped heating spiral
- Hanging loop
- Thermal fuse protects the motor against overheating

• Air nozzle, Volume diffuser (125 mm diameter)

Hair Dryer

SHD 8200GD

True ionic function generates millions of negative ions to give you silkier and shinier hair without crinkling. It also enables fast drying and reduces static electricity, leaving your hair beautiful and healthy.

Featuring three temperature levels, the SHD 8200GD is ready to offer its low temperature flow for extra gentle drying and well-hydrated hair. For quicker results, just use the faster of two speeds available, and cut the drying time by 33%.

FEATURES

- True ionic function with millions of negative ions for silkier and healthier hair, reduced static electricity and hair damage prevention
- Argan oil and keratin protection
- Compact size with professional AC motor and ergonomically shaped handle
- 3 temperature levels and 2 speeds
- Cool shot function for perfect fixation
- Removable rear grill for easier cleaning
- Wave-shaped heating spiral for constant temperature preventing hair damage

ACCESSORIES

- 2 slim concentrators (Hair drying and shaping)
- · Volume diffuser

SHD 8100GD

With the SHD 8100GD true ionic function, argan oil and keratin join their powers to protect your hair and give it a silkier look and feel.

This compact hair dryer features a professional AC motor with three temperature levels and two speeds, so your hair can dry extra gently or extra fast (cutting the drying time by 30%). The final cool shot fixes your hairstyle in place for long lasting look.

FEATURES

- True ionic function with millions of negative ions for silkier and healthier hair, reduced static electricity and hair-damage prevention
- Argan oil and keratin protection
- Compact size with professional AC motor and ergonomically shaped handle
- 3 temperature levels and 2 speeds
- Cool shot function for perfect fixation
- Removable rear grill for easier cleaning

SHD 7100BK

The Ionic function on the SHD 7100BK prevents your hair from crinkling, leaving it silkier and shinier than ever before. Ions also reduce static electricity for easy combing and support faster drying without the hair damage.

The hair dryer is reliable thanks to its long-life DC motor, which powers 3 temperature levels and 2 speeds.

Convenient and save usage are a matter of course.

FEATURES

- Long-life DC motor with 2000 W power input
- Three temperature levels and two speeds
- Ionic function for healthy and beautiful hair
- Wave-shaped heating spiral for constant temperature
- Cool shot function fixes your hair in place
- Ergonomically shaped handle
- Hanging loop

ACCESSORIES

• Slim Concentrator

Travel Hair Dryer

MEN'S ELECTRIC SHAVERS

A smooth shave without a sign of skin irritation: that's exactly how SENCOR electric shavers work. Enjoy the comfort of 4D technology with tilting shaving heads which perfectly adjust to all facial contours, ensuring a flawless shave so gentle to your skin. To give you freedom to move, the shaver features cordless operation powered by an integrated rechargeable battery. Modern batteries are fast charging and can last up to one month of daily use before recharging is needed.

To provide the appliance enough power for a perfect shave with minimum friction, an ultra-quiet, high-speed motor is enclosed.

Your comfort is guaranteed by an ergonomically-shaped handle the fits the hand perfectly and a water-resistant unit which can be easily washed under running water.

WHY CHOOSE

A SENCOR ELECTRIC SHAVER

- 4D technology for perfect results without a sign of skin irritation
- Fast charging with up to one-month daily use
- Ultra-quiet high-speed motor for a pleasant experience with minimal friction
- Built-in Li-Ion battery with LED charging indicator

AD SHAVE TECHNOLOGY SENCOR knows how important it is to leave your skin irritation-free after shaving. Having developed its 4D technology with tilting shaving heads, SENCOR shavers fully adjust to facial contours, ensuring a flawless and gentle shave.

Electric Shaver

SMS 7000BK

The unique self-cleaning head and stainless-steel blades are just a few of many features the SMS 7000BK offers. The Direct Drive technology lets you style and charge anytime you wish, while the quiet high-speed motor makes shaving pleasant experience.

This electric shaver is designed for dry shaving but can be easily rinsed. After fast charging (fully charged in 3,5 hours) it is ready to deliver up to 3 hours of battery powered operation.

FEATURES

- Quiet high-speed motor for perfect results
- Direct Drive Technology for freedom of use and charging
- Unique self-cleaning head
- Suitable for dry shaving
- Stainless steel blades
- · Titanium coated trimmer
- Ergonomic handle for sure grip
- Water rinse safe

An unbeatable frequency of up to 48,000 oscillations per minute stands behind the unique results of our electric toothbrushes. Compared to a normal toothbrush, plaque is removed more efficiently and gums are treated with maximum care. The unique Quadpacer technology divides the process into four phases for flawless cleaning, while the various pre-set programs are designed to suit any user.

A UV sterilizer in the recharging case, which eliminates all germs and bacteria, delivers unrivaled health care. To provide comfortable use, our electric toothbrushes come with a practical charging station with a LED battery indicator. Once fully charged, they are ready to deliver outstanding results for up to 45 days. Naturally, all models are water-safe and feature low energy consumption.

WHY CHOOSE

A SENCOR ELECTRIC SONIC TOOTHBRUSH

- Frequency up to 48,000 oscillations per minute to deliver perfect cleaning results
- Pre-set programs to suit any user
- Quadpacer technology for more mindful brushing
- Uncompromising health care with a UV sterilizer in the recharging case
- Battery life up to 45 days thanks to low energy consumption

Electric Toothbrush

SOC 3311BK

● SOC 3311BK ○ SOC 3312WH

ERGONOMICALLY-SHAPED handle

If you take dental care seriously, you cannot forget oral irrigators. Able to effectively remove bacteria, food particles and plaque from interdental areas and periodontal pockets, an oral irrigator is the best companion for achieving the ultimate oral health. Regular use helps to prevent gum disease, dental tartar and caries, as well as combating unpleasant bad breath.

SENCOR oral irrigators possess advanced features to deliver unrivaled hygiene. A magnetic irrigator holder, high volume tank and powerful pump with several water pressure levels work to address all gum requirements and conditions, including sensitive gums suffering from disease. Different preset modes deliver whatever is needed at the moment: a cleaning mode is suitable for everyday use, a massage mode to support blood circulation in the gums and a fresh mode to freshen up and clean the surface.

Take a step ahead in dental hygiene and get your oral irrigator to ensure a healthy smile for years to come.

WHY CHOOSE

A SENCOR ELECTRIC ORAL IRRIGATOR

ORAL IRRIGATORS

- Effectively removes bacteria, food particles and plaque from interdental spaces and periodontal pockets.
- Fights gum disease, dental tartar, caries and unpleasant bad breath
- Features various replaceable heads and cleaning modes to deliver the desired result
- Its water pressure reaches areas that are usually hard to reach
- 2-minute timer with Quadpacer technology ensures quality cleaning
- Comfortable to use with 100 cm long
- water tube and 360° rotating head

Oral Irrigator

SOI 3312WH

Remove bacteria, food particles and plaque from interdental areas and periodontal pockets with this powerful oral irrigator. Five preset cleaning and regeneration programs, supported by a pump frequency of 1400 pulses per minute, treat overall oral health.

Four replaceable heads provide a variety of treatments: standard head removes bacteria from teeth and gums, a specialised cleaner cares for the tongue, the cavity cleaner is there for hard-to-reach or sensitive areas and the orthodontic head cleans around braces or hard-to-reach areas around bridges.

HEALTH CARE

If a healthy lifestyle is what you are looking for, SENCOR advanced personal scales and home blood pressure monitors will become your daily companions. The scale will provide you with all the important data and measurement memory to help you adjust your diet or workout in order to achieve your weight goals, while the blood pressure monitor will inform you about possible risks so that you can take timely action to protect your health as soon as the first sign of any disorder appears.

PERSONAL **SCALES**

No longer is a personal scale a simple device that displays a single number. This modern appliance can be considered a nutritional consultant, providing you with information on your BMI, BMR, body fat and hydration, and calorie intake per day for reference.

Advanced SENCOR scales communicate with a special app; different user profiles can be set (including age, gender and height) with their weight targets and the extent of standard daily physical activity defined. Every user can thus easily and accurately follow his or her own weight gain or loss..

Thanks to a slim design and tempered glass surface, our scales are elegant and practical, able to support to load of up to 180 kg and show results with 100g accuracy. The extra-large backlit LCD display makes data easy to read and the Auto On function makes the scale ready to work just as you step on it. Take control of your weight with the support of our state-of-the-art personal scales!

WHY CHOOSE

A SENCOR PERSONAL SCALE

- Bluetooth 4.0 connection with app to track body weight changes
- Slim design and tempered safety glass surface for easy cleaning
- Convenient use with Auto-on function (weighs immediately when stepped on) and automatic shut-off when idle
- Extra-large backlit LCD display for easy reading
- Low battery and overload indicator
- Data lock function for more accurate measurement (measured weight remains displayed for 10 seconds)

- Hand grip with sensors, 8 electrodes and 6 measuring channels for accurate results
- Multiple user profiles, data storage, connection to Apple Health
- Measures: body fat %, hydration %, muscle %, bone %, protein %, visceral fat index, body lean mass, skeletal muscle
- Health report with body score and suggestion
- Weighing capacity: 180 kg / Division: 100 g

Tempered glass fitness scales with an ultra slim design show measured weight on a large LCD display and measure the following parameters:

BMR (NUMBER OF CALORIES, WHICH THE BODY NEEDS IN A RELAXED STATE IN ORDER TO MAINTAIN ALL BODY FUNCTIONS)

AMR (NUMBER OF CALORIES, WHICH THE BODY NEEDS DURING PEAK ACTIVITY)

% OF BODY FAT

% OF WATER IN THE BODY

% OF MUSCLE MASS IN THE BODY

% OF BONES

BMI

SBS 8800BK

This top-of-the-line, modern smart scale will surely meet the needs of even the most demanding customers. With Bluetooth 4.0 built in, all key parameters can be tracked on a smart phone or tablet. Multiple user profiles can be set in 15 languages, remembering the age, gender and height, target weight and the amount of usual daily physical activity.

Users follow their weight gains or losses on the slim 8mm tempered glass, which can carry up to 180 kilograms of weight. Thanks to the Auto-On function, the scale starts weighing as soon as it is stepped on.

Percentages of body fat, hydration, muscle, and bone, together with BMR and visceral fat are easy to read on the extra-large backlit LCD display. The scale is powered by four 1,5V AAA batteries (included).

FEATURES

- Bluetooth 4.0 communication with SENCOR Application
- Memory for multiple users
- Measures body fat, hydration, muscle, bone, BMR, and visceral fat
- Tempered safety glass surface for easy cleaning (8 mm)
- Weight up to 180 kg (sensitivity 100 g)
- Extra-large white backlit LCD display (82 × 42 mm)
- Measuring unit selection (kg/lb)
- Low battery and overload indicator
- Auto-on function (weighs immediately when stepped on) and automatic shut-off when idle

SBS 8000BK

The most modern smart scale will meet the needs of even the most discerning customers. Thanks to Bluetooth 4.0, it enables the user to follow all key parameters on his or her smartphone or tablet.

This model's app enables the user to set multiple user profiles in 15 languages. Based on user preference, it can measure weight in kilograms or pounds. The app does not only allow the user to enter his or her age, gender and height, it also lets him or her enter a target weight and an amount of standard daily physical activity. Every user can therefore accurately follow his or her weight gain or loss. The app also offers a lexicon of key terms and a guide to all the scale's functions.

The ultra-slim scale made from 6 mm thick tempered glass can be used by individuals weighing up to 180 kilograms. Thanks to the Auto-On function, the scale starts weighing as soon as the user steps on it. The scale, featuring an easily readable LCD display, is powered by two 1,5V batteries (AAA).

FEATURES

- Bluetooth 4.0
- · Measures key body parameters
- Calculates calories needed per day for reference
- Memory for multiple users
- Soft-touch buttons
- Slim design (22 mm)
- Glass surface for easy cleaning
- Tempered safety glass (6 mm)
- Weight up to 180 kg (sensitivity 100 g)
- Auto-on function (weighs Immediately when the scale is stepped on)
- The extra large white backlit LCD display (74 x 35,6 mm)
- Option to select measuring units (kg/lb)
- Weak battery and overload indicator
- Automatic shut-off when idle
- Data lock function for more accurate measurement (measured weight remains displayed for 10 seconds)

SBS 6015WH

SBS 6015WH ■ SBS 6016BK

This ultra-slim design fitness scale provides all the important information on body fat, water, muscle and bone % measurements which makes it very helpful when focusing on a healthy lifestyle.

Despite its advanced features, including memory for 8 users with automatic user identification and gender and height settings, this scale is easy to use and operate. The auto-on function activates the scale immediately when it is stepped on, offering a weighing range of up to 180 kg (with 100 g sensitivity).

FEATURES

- Touch control sensors and blue back-lit inverse LCD display
- Measures percentage content of body fat, water, muscle and bones
- Auto-On function (scale weighs immediately when stepped on)
- Weighing range up to 180 kg (with 100 g sensitivity)
- Ultra-slim design (height only 23m in thickness)
- Memory for 8 users with automatic user identification
- Option to set gender, height (80 220 cm), and measuring units (kg/lb/st:lb)
- Supplied accessories: 2x CR 2032 lithium batteries

Personal Scale

SBS 5050BK

● SBS 5050BK ○ SBS 5051WH

A smart glass scale with an ultra-slim design features a large LCD display, memory for 12 user profiles and a weight limit of 150 kilograms.

This smart scale will not only accurately calculate the user's BMI and BMR, but also recommend the optimal daily calorie intake and percentage of fat and water in the body. A light indicates low battery. The scale is powered by 1 lithium battery (included).

- Ultra Slim Design (20 mm) with a tempered glass surface for easy cleaning (6 mm)
- Extra-large LCD Display (74 x 28.5 mm) and big press buttons for easy use
- Memory for 12 users
- Weight up to 150 kg (sensitivity 100 g)
- Calculates BMI, BMR function, and daily calorie intake for reference
- Auto-on function (weighs immediately when stepped on) and automatic shut-off when idle
- Option to select measuring units (kg/lb)
- Low battery and overload indicator
- Data lock function for more accurate measurement (measured weight remains displayed for 10 seconds)

SBS 2300BK

● SBS 2300BK ○ SBS 2301WH ● SBS 2302SN

A glass surface, made of 5mm tempered safety glass, ensures this slim-design scale (21 mm) has both an elegant look and is easy to clean.

The auto-on function activates the scale immediately when stepped on, providing accurate measurement thanks to four high precision sensors. In order to achieve even more accurate weighing, the data lock function keeps the measured weight visible on the display for 10 seconds. The maximum load is 150 kg, and an overload indicator informs if this is exceeded. The scale is powered by 1x CR2032 lithium battery and features a low battery indicator.

FEATURES

- Tempered safety glass (5 mm) surface for easy cleaning
- Slim design (21 mm) with extra-large LCD display (74 x 28.5 mm)
- Weight limit 150 kg (sensitivity 100 g) with 4 high precision sensors for accurate weighing
- Auto-On function (weighs immediately when stepped on) and automatic shut-off when idle
- Data lock function for more accurate measurement displays data for 10 seconds
- Option to select measuring units (kg/lb)
- Low battery and overload indicator
- Power source: 1x CR2032 Lithium Battery (Included)

Personal Scale

SBS 113SL

This ultra-slim personal scale made of tempered glass offers an appealing, clean design and a large LCD display.

Thanks to 4 sensors, it measures very precisely up to 150 kilograms. It is powered by 1 lithium battery.

- 4 high precision sensors for accurate weighing
- Glass surface for easy cleaning tempered safety glass (6 mm)
- Slim design (24 mm)
- Weight up to 150 kg (sensitivity 100 g)
- Auto-On function (weighs immediately when the scale is stepped on)
- The extra large LCD display (74 x 28.5 mm)
- Data lock function for more accurate measurement
- Option to select measuring units (kg/lb)
- Weak battery and overload indicator
- Automatic shut-off when idle

BLOOD PRESSURE MONITORS

You may have experienced changes in your blood pressure when having it measured at your general practitioner's or the hospital. No wonder, an unusual place can cause us stress and thus influence the measurement results. A home blood monitor is therefore a great tool for tracking daily systolic and diastolic blood pressure and heart rate. All measurements are easy to read thanks to a large LCD display.

Use of the home blood pressure monitor is very simple: the device features an adjustable pressure cuff, automatic inflation and air release of the cuff, and memory for up to 60 measurements, including the date and time of measurement.

With a SENCOR blood pressure monitor you can be in control of how your heart performs and take care of your health in the comfort of your own home.

WHY CHOOSE

A SENCOR BLOOD PRESSURE MONITOR

- Easy at-home measurement of systolic and diastolic blood pressure and heart rate
- Cardiac arrhythmia warning indicator to protect your health
- Large LCD display for comfortable reading
- Memory for up to 60 measurements, date and time of measurement included
- Adjustable cuff with automatic inflation and air release

FROM THE COMFORT OF YOUR HOME

Measure your systolic and diastolic blood pressure and heart rate whenever you wish from the comfort of your home. The SENCOR blood pressure monitor is your new ally for health management.

FOR YOUR HEALTH

Blood Pressure Monitor

SBP 6800WH

Easy and comfortable blood pressure measurement? Yes, with SBP 6800WH! This appliance has been designed for easy measurement in your home.

Featuring the ComfortMe Technology, you can accurately monitor yourself without any pain or irritation. The reliability and accuracy of its blood pressure and heart rate measurement has been proven under vigorous testing by major health organisations.

FEATURES

MWI Technology for accurate measurement of blood pressure and heart rate

ComfortMe Technology for pleasant blood pressure monitoring

- Body movement detection
- Irregular heartbeat indication
- Adjustable pressure cuff diameter, 22-42 cm
- Averaging function: calculates average of 3 most data sets
- Large LCD 3-line display: 65 × 50 mm
- Memory for 60 measurements with date and time
- Range of measurement (pulse): 40-199 beats/min
- Range of measurement (pressure): 0-299 mmHG
- Measuring accuracy: blood pressure 3 mmHg, pulse 5% measured
- Three Mechanical Buttons: START/STOP, SET, MEM

BATTERY POWERED 4x AAA

ADJUSTABLE BLOOD PRESSURE CUFF 22–24 cm

LARGE LCD DISPLAY 65 x 50 mm

Blood Pressure Monitor

SBD 1470WH

This small digital blood pressure monitor is easy to use at home or when you are on the move. The device measures systolic and diastolic blood pressure and heart rate on the wrist. The blood pressure cuff can be set to an arm girth of up to 19.5 cm.

The device has a large LCD display and memory for up to 60 measurements. It displays increased blood pressure values (hypertension) graphically and can also alert you to cardiac arrhythmia. Model SBD 1470 features a low-battery indicator. Powered by four AAA batteries.

FEATURES

- For easy measurement under domestic conditions
- Measures systolic and diastolic blood pressure and heart rate
- Cardiac arrhythmia warning indicator
- Graphic display of increased blood pressure values (mild / medium / severe hypertension)
- Adjustable pressure cuff diameter of 13.5 19.5 cm
- Large LCD display (31 x 44 mm)
- Memory for up to 60 measurements (for 1 user) including recording the date and time of measurement
- Automatic inflation and air release of the cuff

Blood Pressure Monitor

SBP 690

A device for measuring systolic and diastolic blood pressure and heart rate on the arm.

The large LCD display shows perfectly legible readings. Large and graphically distinctive buttons allow easy operation. It graphically indicates suspected hypertension and/or cardiac arrhythmia. It provides memory for up to 60 measurements for one user. The device indicates low battery and data remain in the memory even after battery replacement. Powered by four AA batteries.

FEATURES

• For easy measurement under domestic conditions

 Measures systolic and diastolic blood pressure and heart pulse rate

Memory for up to 60 measurements (for 1 user)

• Graphic display of increased blood pressure values (mild / medium / severe hypertension)

- Cardiac arrhythmia warning indicator
- Adjustable pressure cuff diameter of 22 – 42 cm
- Extra large LCD display (61 x 93 mm)
- Memory for up to 60 measurements (for 1 user) including a recording of the date and time of measurement
- Automatic inflation and air release of the cuff

ELECTRIC BLANKETS

Chilly days may come at any time of year. But no worries, with a SENCOR electric blanket, your bed will always be a warm and welcoming place after a hard day. Electric blankets come in three designs: you can choose a single or a double-bed size, or decide in favor of a foot warmer to suit your needs.

When using the largest blanket, no compromises on your personal preferences are necessary since each side features its own remote control to adjust the temperature just as you wish.

Your comfort is guaranteed by the gentle-to-the-skin material, while an automatic switch-off after three hours, overheating protection and automatic cut-off in case of damage secure your safety.

WHY CHOOSE

A SENCOR ELECTRIC BI ANKET

- Dimensions for either a double or single bed
- Remote control and temperature setting for your comfort
- Easy maintenance thanks to removable cables with remote controls
- Gentle-to-the-skin material ensures a pleasant experience
- On indicator light and overheating protection for your safety

GOOD BYE, COLD BED

Never ever again will you have to warm up the bed yourself since a SENCOR electric blanket do the job in just 30 minutes. What a great solution for any chilly day all year long

HEATED BLANKET

Electric Blanket

SUB 291

With two independent remote controls and two temperature levels this electric blanket delivers so much comfort to two people on a double bed (160 x 140 cm). The recommended preheating time is 30 min. The blanket, made of 100 % polyester, is washable (cables with remote controls can be easily removed). The indicator informs you if it is turned on and overheating protection ensures your safety..

FEATURES

- Dimensions for two people on a double bed (160 x 140 cm)
- 2 independent remote controls and 2 temperature setting levels
- Recommended preheating time 30 min.
- Washable (removable cables with remote controls)
- Material: 100% polyester (synthetic fleece)
- On indicator light and overheating protection
- Length of power cord: 2.0 m
- Power input 2x60 W

Electric Blanket

SUB 2700WH

Enjoy the gentle-to-the-skin and breathable soft fleece fabric with stamp welding which provides greater durability. The blanket is easy to attach to the mattress with elastic cords and easy to wash thanks to the detachable controller. Unparalleled comfort is ensured by three illuminated temperature settings and a generous double-bed size (160x140 cm). Japanese wiring technology delivers high reliability with an advanced safety system, featuring automatic switch-off after three hours, electronic overheating protection and automatic cut-off in case of damage.

- The comfort of gentle-to-the-skin and breathable materials
- · Soft fleece fabric (polyester) with stamp welding for greater durability
- · Japanese wire technology ensures high reliability
- Highly comfortable extra sponge layer
- 3 illuminated temperature settings
- Easy to attach to the mattress with elastic cords
- Washable thanks to detachable controller
- Double Size: 160x140 cm
- High-level safety system featuring electronic overheating protection and automatic cut-off in case of damage
- Automatic switch-off after 3 hours

SOFT FLEECE FABRIC

DOUBLE-BED SIZE

WASHABLE thanks to removable cables with remote controls

Flectric Blanket

SUB 281BE

Two independent remote controls and the size of a double bed $(160 \times 140 \text{ cm})$ make this electric blanket a real pleasure. Two temperature setting levels are ready to provide the desired comfort after the recommended 30 minute preheating time..

The blanket, made of 100% polyester (Polar Fleece), is washable thanks to removable cables with remote controls.

FEATURES:

- Size of a double bed (160 x 140 cm)
- 2 temperature setting levels with 30 minute recommended preheating time
- Washable 100% polyester polar fleece thanks to the removable cables with remote controls
- On indicator light and overheating protection
- Length of power cord: 2.0 m
- Power input 2x60 W

Electric Blanket

SUB 1700WH

This single-bed size electric blanket will pamper you with its highly comfortable extra sponge layer. All materials used are gentle-to-the-skin and breathable, and the soft fleece fabric with stamp welding provides extra durability.

Japanese wiring technology ensures extraordinary durability, also supported by overheating protection. Choose one of three temperature settings and have the blanket heated rapidly to give you a warm rest whenever you need one..

- 3 illuminated temperature settings
- Easy to attach to the mattress with elastic cords
- Washable thanks to detachable controller
- High-level safety system featuring overheating protection and automatic cut-off in case of damage
- Automatic switch-off after 3 hours
- Single bed size: 150 x 80 cm

ELECTRONIC TEMPERATURE CONTROL

Flectric Blanket

SUB 181BE

Great to use and easy to maintain: this electric blanket, which fits a single bed (150 \times 80 cm), will give your bed uncompromising temperature comfort no matter how cold the weather gets.

With two temperature setting levels, you can select the one that best suits you, and when needed, you can wash it thanks to its removable cable.

FEATURES

- Dimensions for one person
- Remote control
- Recommended preheating time 30 min.
- On indicator light
- Overheating protection
- Length of power cord: 2.0 m
- Power input 60 W
- Washable 100% polyester (Polar Fleece) thanks to the removable cable with remote control

Electric Blanket

SUB 0700BE

Your feet will never be cold again with our foot warmer. Extra soft, fluffy fabric will give you the most pleasant experience.

Three illuminated temperature settings and an automatic switch-off function after 90 minutes make it comfortable to use. A high level of safety is ensured by the electronic overheating protection and automatic cut-off in case of damage.

- Skin-friendly with breathable microfleece
- Electronic temperature control of three illuminated temperature settings
- Automatic switch-off after 90 minutes
- High-level safety system: electronic overheating protection and automatic cut-off in case of damage
- Washable, removable fluffy lining
- Fabric: 100% Polyester
- Product size: 30 x 30 x 24 cm
- Power input: 100 W
