SENCOR

SENCOR APPLIANCES THAT HAVE WON OVER THE WORLD

More than 50 years ago, two words were combined to create one of the world's most popular brands – SENCOR. In Japan, where the company's story began, SENCOR means „thousand hearts". Today, „SEN" („thousand") represents a wide range of products and their design, while „COR" („heart") illustrates not only passion but also the company's headquarters in the heart of Europe, the Czech Republic.

It all started in Japan

Japan is well-known for its research and development of new technologies. When SENCOR entered the market in 1969, the competition was stiff. However, the traditional Japanese industriousness and perfectionism was joined by a desire to create something exceptional, resulting in products comparable to the world's leading manufacturers. In the following decades, SENCOR products entered all parts of the world and the brand became an international player.

The democratisation of technology

At SENCOR, we focus on modern trends and progressive technologies. We want to make sure that new products can truly be enjoyed by everyone, so we bring them into everyday life quickly and at a friendly price.

A comprehensive portfolio to make your life easier

SENCOR delivers its products to more than 55 countries around the world. Our ever-expanding portfolio includes more than 1000 items from a wide range of categories. These include consumer electronics, tablets and phones, office appliances, car electronics, kitchen and home appliances, and health and beauty products. And new products are still on the way to serve the wants and needs of our customers.

Quality at a reasonable price. Our key policy

Regarding price, SENCOR sticks to an uncompromising rule: quality for the right price, and not a penny more! We are convinced that everyone should be able to enjoy reliable products at a reasonable price. Simply put, we offer value for money.

Member of the FAST family

Since 2003, SENCOR has been part of the Fast Group, a major trading company. Fast currently comprises of fifteen renowned brands in the DIY and consumer electronics sector, including Philco, Fieldmann, Lamart, Yenkee, and Catler, among others.

WHY CHOOSE SENCOR

- Excellent quality at an affordable price
- Latest technology and continuous innovation
- Excellent design and a wide choice of colours
- Satisfied customers in over 55 countries

SENCOR HOME
THE WHOLE SMART HOME ON YOUR PHONE

Control your home appliances easily and conveniently from anywhere with a single app on your smartphone. It doesn't matter if you choose an air conditioner, a robot vacuum cleaner, or a heater from the ever-growing SENCOR HOME family. Or perhaps a scooter, weather station, fitness scale, or hot air fryer? The list of options doesn't stop there, because we also have dehumidifiers, humidifiers, automatic coffee machines, fans, and speakers...

Control your home helpers with a single app

You'll get a remote controller that's always really close at hand and easy to share with your household members or colleagues in the office. You're in control of sharing; set smart rules for your electric helpers. And stay in the loop with notifications on your phone.

SENCOR HOME speaks many languages

We take great care in localising our app into European languages. That's why you'll really be able to understand the SENCOR HOME app – you can communicate with each other in your native language. Or perhaps in one of 14 other languages, automatically chosen depending on your phone settings.

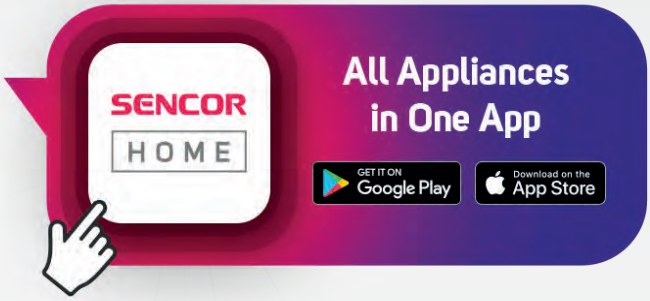

All Appliances in One App

Download on the App Store

GET IT ON Google Play

SENCOR smart appliances

We think really hard about how we want our smart products to work. From the very first moment, everything should be as intuitive and user-friendly as possible.

Adding a device to the SENCOR HOME app

The combined Bluetooth and Wi-Fi chip, which reports itself to the SENCOR HOME app, will help with the easy initial installation of your appliance. Alternatively, a QR code is also available, this can be found in the user manual or directly on the device.

And when you decide to get your next SENCOR SMART appliance, you won't be surprised by a totally different-looking control panel – we think carefully about the layout and design and unify it as much as possible.

HOME CARE

Make both household care and your life easier. Thanks to the various types of SENCOR vacuum cleaners, your house or apartment will always be perfectly vacuumed and even wiped clean. State-of-the-art robotic vacuum cleaners take care of floor maintenance and empty the dirt containers themselves. Quick cleaning is conveniently handled with the upright vacuum cleaners, which we've adapted to be perfectly manoeuvrable and lightweight.

Classic bagged vacuums impress with their performance on carpets and hard floors. They're quiet, and thanks to their precise filtration, they won't let a speck of dust back in. And bagless vacuum cleaners take the hassle out of buying dirt bags.

ENJOY YOUR FREEDOM **VACUUM WITHOUT A CORD**

CORDLESS STICK VACUUM CLEANERS

One vacuum cleaner to quickly clean various surfaces? Yes, and an upright one with a battery! Cordless stick vacuum cleaners are designed to deliver great results on carpets and hard floors, not only vacuuming but also wiping them with a single stroke. The AUTO function ensures optimum performance reflecting dirt and the surface type without having to adjust the vacuum cleaner manually.

Desired hygiene is ensured too, as the Cat-&-Dog brush with an integrated UV light removes potentially infectious organisms from surfaces. The necessary power and endurance are provided by the high-performance, Li-Ion batteries with short charging times. The rotating brush with an independent motor and LED-lit nozzle ensure thorough cleaning; the brush picks up dirt while the LED lighting catches everything, even in dark corners. The nozzle rotates 180°, which, together with its lightweight build, grants the vacuum cleaner excellent manoeuvrability. Once the job is done, simply put the vacuum back in the charging station to be ready for its next job.

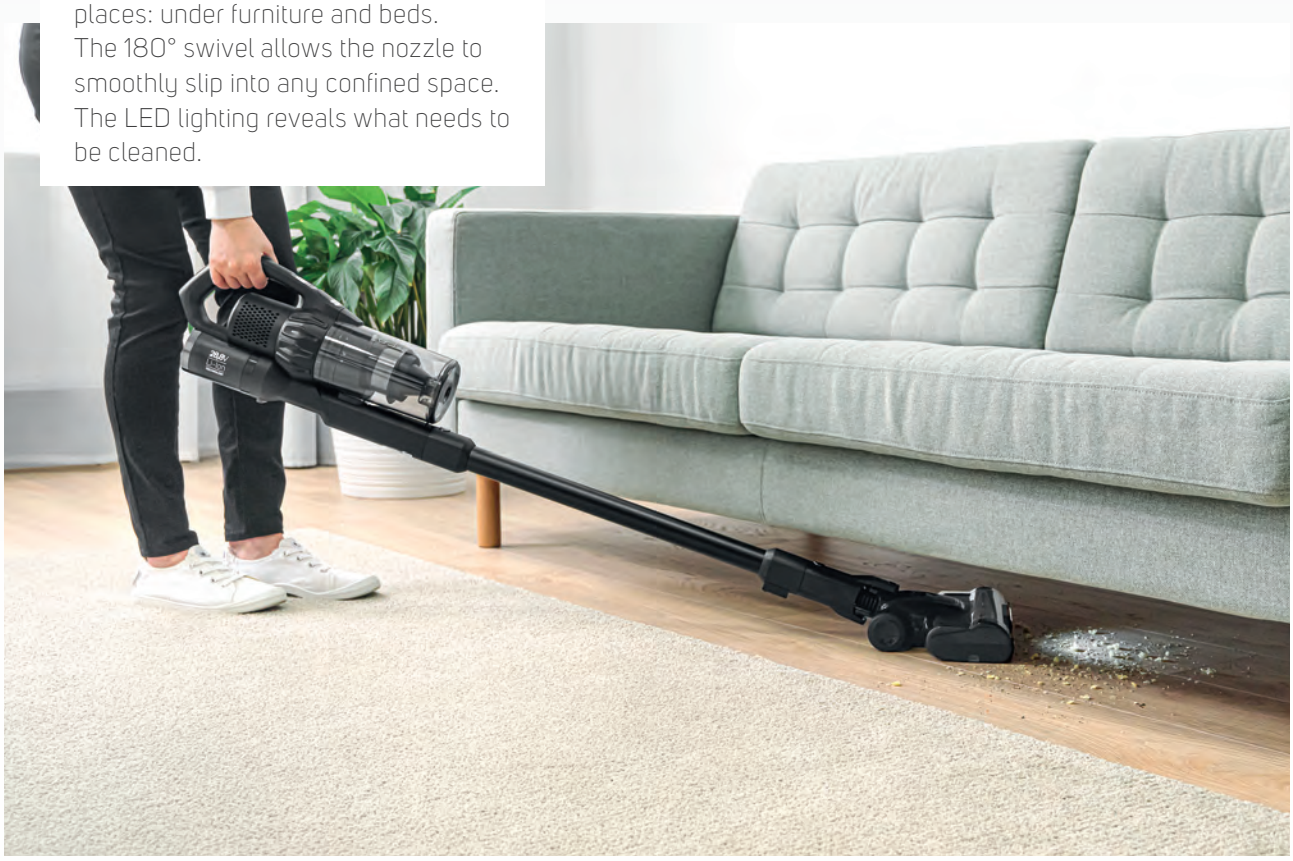

WHY CHOOSE SENCOR STICK VACUUM CLEANER

- Absolute freedom of movement without a power cord
- Vacuums hard floors and carpets, mops, and the handheld unit takes care of small cleaning jobs even outside the home
- The rotating brush with an independent motor and the LED-lit nozzle clean with precision
- The Cat-&-Dog brush with a UV light removes potentially infectious organisms
- The AUTO function ensures optimum performance reflecting dirt and the surface type

EASY SOLUTIONS

SENCOR stick vacuums deliver perfect results in even the most problematic places: under furniture and beds. The 180° swivel allows the nozzle to smoothly slip into any confined space. The LED lighting reveals what needs to be cleaned.

FOR COMPLICATED PLACES

Stick Vacuum Cleaner

SVC 9879BK

○ SVC 9829WH ● SVC 9879BK

These stick vacuum cleaners can handle messes throughout your home. They are lightweight and easy to manoeuvre, allowing you to comfortably clean even hard-to-reach places, such as between furniture and high places.

The 550 W digital motor gives them enough power for any task, while the high-capacity battery allows you to vacuum even a larger home on a single charge. The AUTO function automatically sets the optimal power according to the current level of dirt and surface type. Pet owners will also appreciate the SVC 9879BK model's motorised Cat&Dog Mini brush with UV-C disinfecting light and LED-illuminated nozzle.

FEATURES

- **550 W digital motor**
- **Bagless technology**
- **360° technology makes it easy to clean hard-to-reach places.**
- XL 0.5 l dust container – sufficient capacity for regular cleaning
- AUTO mode – automatic power adjustment per surface
- Three-level HEPA cyclone filtration system – effectively captures dust and allergens
- Li-Ion battery 28.8 V / 3000 mAh
- Battery life: up to 70 minutes
- 3 power levels: normal cleaning, high power, turbo
- Digital display – shows the selected mode and battery status
- Charging base with integrated accessory holder
- Cat&Dog Mini brush with UV-C disinfection light (applies to SVC 9879BK)
- LED nozzle lighting (applies to SVC 9879BK)

ACCESSORIES

MODELS SVC 9829WH + SVC 9879BK
1. FREESTANDING CHARGING STATION
2. COMBINATION CREVICE AND DUST BRUSH
3. COMBINATION BRUSH FOR UPHOLSTERY AND DUST

MODEL SVC 9879BK
4. INTERCHANGEABLE BRUSH FOR VACUUMING ON CARPETS & ON HARD FLOORS
5. FLEXIBLE HOSE
6. MOPPING UNIT
7. 5X WIPING CLOTH
8. SOFT DUSTING BRUSH
9. MULTI-ANGLE BRUSH ATTACHMENT
10. CAT&DOG MINI BRUSH + UV-C LIGHT

MOPPING
The mopping function removes even the finest particles, making floors completely spotless.

INNOVATIVE 500 WATT DIGITAL MOTOR
High performance and powerful suction. Fewer rotating components ensure a longer motor life.

CAT&DOG MINI BRUSH WITH UV-C LAMP
The mini brush is the perfect tool to remove pet hair. It thoroughly cleans upholstered furniture and car seats.

UV-C LAMP
UV-C light removes potential infectious organisms from cleaned surfaces with double the power.

AUTO FUNCTIONS
The optical sensor and advanced electronics detect the amount of dust and adjust the optimum performance according to the level of dirt and floor type.

DIGITAL DISPLAY
The digital display shows the battery capacity and power level and alerts you when the filter or brush needs cleaning.

HAND UNIT WITH CAT&DOG MINI BRUSH + UV-C

4-in-1 Stick Vacuum Cleaner with Mop

SVC 8776BK

Are you looking for a helper that can help clean your entire household? Then you've just found it. The SENCOR SVC 8776BK 4-in-1 stick vacuum cleaner with a mop and detachable handheld unit will surprise you with its effectiveness. Thanks to its powerful digital motor, it guarantees excellent results on thick carpets and hard floors, where you're sure to appreciate how it polishes. The three power levels allow you to adapt your cleaning to every situation. Turbo mode delivers maximum power for heavy-duty cleaning, while the high power mode handles extra messy surfaces. And for routine maintenance, the daily cleaning mode is both efficient and gentle.

The integrated mop allows you to vacuum and mop at the same time. It cleans up mess under furniture, in high areas, and even pet hair. And it sucks up even the finest dust, thanks to its LED lighting. The vacuum cleaner uses 3 power levels (turbo, high power, and daily cleaning) and can run for up to 50 minutes with its highly efficient, 25.2V Li-Ion battery with a capacity of 2500 mAh. A full charge takes 4 to 5 hours. Emptying the 0.58L internal dust container is very easy; just press one button, and the container opens, making handling quick and as hygienic as possible.

FEATURES

- **Long-life and digital 400W motor**
- **25.2 V Li-Ion battery with 2500 mAh capacity**
- **HEPA cyclone filtration system**
- LED-lit sponge with self-motor
- Mopping attachment, one-pull vacuuming, and mopping
- Removable handheld unit
- Cat&Dog rotary brush with self-motor and UV-C disinfecting light
- 3 power levels - turbo, high power, daily cleaning
- Run time: up to 50 min, Charging time: 4-5 hrs
- 180° swivel nozzle for easy manoeuvrability
- 360° technology allows access anywhere
- Bagless technology with a 580 ml container

MOPPING
The mopping function removes even the finest particles. Your floor will be completely spotless.

CAT&DOG MINI BRUSH WITH UV-C LAMP
The Cat&Dog Mini brush is the perfect tool for removing pet hair. It thoroughly cleans upholstered furniture and car seats.

UV-C LAMP
UV-C light removes potentially infectious organisms from cleaned surfaces with double the power.

ACCESSORIES

1. NOZZLE WITH LED LIGHTING AND MOTORISED BRUSH
2. WALL MOUNT
3. COMBINED CREVICE AND DUST NOZZLE
4. COMBINED UPHOLSTERY AND DUST BRUSH
5. SOFT BRUSH
6. FLEXIBLE HOSE
7. MOP ATTACHMENT + 5× MOP CLOTHS
8. JOINT COUPLING
9. MOTORISED CAT&DOG MINI ROTARY BRUSH WITH UV-C LIGHT

3-in-1 Stick Vacuum Cleaner

SVC 8726BK

The SENCOR SVC 8726BK 3-in-1 stick vacuum cleaner with a detachable handheld unit is powered by a 400W digital motor. This gives it enough power to reliably clean all types of floors. Thanks to the highly efficient, 25.2V Li-Ion battery with a capacity of 2500 mAh, it can work for up to 50 minutes on a single charge. You can set one of three power levels as needed: turbo, high power, or daily cleaning. In turbo mode, the vacuum cleaner can handle the toughest messes, while high power mode is great for extra dirty areas, and the daily cleaning mode takes care of normal cleaning.

To make sure all the dirt is clearly visible, the LED light on the vacuum cleaner nozzle illuminates the cleaning area. All dust and dirt go into the 0.5-litre capacity inner container, which can be easily and hygienically emptied by simply opening it with the touch of a button. The filter system captures swirling dust particles and maintains constant suction power. It also helps when cleaning surfaces with a high concentration of dust, such as behind furniture or thick carpets. The detachable handheld unit with the mini Cat&Dog motorised brush is the perfect helper for vacuuming up pet hair, deep cleaning upholstery, and car interiors.

FEATURES

- **Long-life and digital 400W motor**
- **25.2 V Li-Ion battery with 2500 mAh capacity**
- **HEPA cyclone filtration system**
- Floor nozzle with LED light and self-motorised brush
- Detachable handheld unit
- Cat&Dog self-motorised rotary brush
- 3 power levels: turbo, high power, daily cleaning
- Running time: up to 50 min, charging time: 4-5 hours
- 180° swivel nozzle for easy manoeuvrability
- 360° technology for floor-to-ceiling cleaning
- Bagless technology with a 580 ml container

THREE POWER LEVELS
Set one of three power levels as needed: turbo, high power, or daily cleaning.

ACCESSORIES

1. WALL MOUNT HOLDER
2. COMBINATION CREVICE & DUST NOZZLE
3. COMBINATION UPHOLSTERY & DUST BRUSH
4. CAT & DG MINI MOTORISED ROTATING BRUSH

Stick Vacuum Cleaner

SVC 7221BK

● SVC 7222BK ● SVC 7221BK

Discover power and elegance in one. The SENCOR SVC 7221BK and 7222BK stick vacuum cleaners will become your indispensable helper for everyday cleaning, powered by a strong 200 W digital motor.

The self-propelled rotating brush easily handles carpets and hard floors, while the LED lighting on the nozzle reveals even the smallest mess. Thanks to the highly efficient 22.2V Li-Ion battery with a capacity of 2600 mAh, you get complete freedom when cleaning without cables. On a single charge, the vacuum cleaners can run for up to 35 minutes in daily mode. With the SVC 7222BK model, you also get a Cat&Dog nozzle, making it easy to remove all animal hair in your home.

Cat&Dog nozzle
(applies to model SVC 7222BK)

FEATURES

- **Long-life 200 W digital motor**
- **22.2V Li-Ion battery (2600 mAh) – up to 35 minutes of runtime**
- **MULTI cyclone filtration system with washable filter**
- Telescopic tube for convenient height adjustment
- Floor nozzle with LED lighting and a brush with its own motor
- Removable handheld unit for cleaning cars or furniture
- 2 power modes: high power, daily cleaning
- 180° swivel nozzle and 360° technology for floor-to-ceiling cleaning
- Bagless technology with a 550 ml container
- Cat&Dog nozzle (applies to model SVC 7222BK)

ACCESSORIES

1. COMBINED EXTENDED CREVICE AND DUSTING NOZZLE
2. WALL MOUNT BRACKET

TWO POWER SETTINGS
Set one of two power settings as needed: high power or daily cleaning.

EASY CLEANING
The dust container can be opened with a single hand movement. Emptying dirt is quick and hygienic.

ROTATING NOZZLE WITH LED LIGHTING
LED lighting and 360° technology reveal every speck of dust from floor to ceiling.

Cordless Stick Vacuum Cleaner

SVC 7315TI

With this 2-in-1 stick vacuum cleaner, you can easily handle everyday chores quickly and efficiently. It can handle all types of surfaces, thanks to its 150 W digital motor and efficient 14.8V Li-Ion battery, providing up to 30 minutes of run time.

The lightweight and slim design makes it easy to manoeuvre around obstacles, delivering uncompromised floor-to-ceiling cleaning. The LED lighting on the nozzle reveals every speck of dust, even in dark corners. The HEPA cyclone filtration system is appreciated by all, especially allergy sufferers.

FEATURES

- **2-in-1 stick vacuum cleaner with detachable handheld unit**
- **Long-life, 150 W digital motor**
- **High-efficiency, replaceable 14.8V Li-Ion battery with a capacity of 2200 mAh**
- Running time up to 30 minutes
- Ultra-lightweight (0.875 kg) handheld unit with castors
- Rotating brush with independent motor perfectly cleans any floor type
- The 180° swivel nozzle makes it easy to use and manoeuvre around obstacles
- LED lighting on the nozzle reveals dust even in dark corners
- HEPA cyclone filtration system, suitable for allergy sufferers
- 3 power levels: normal cleaning, high power, turbo
- One-touch emptying of the dust container (0.2 l)
- Battery charge indicator
- Noise level: < 86 dB

ACCESSORIES

1. CREVICE NOZZLE
2. COMBINATION BRUSH FOR UPHOLSTERY AND DUST

HANDHELD UNIT WITH CASTORS
The ultra-lightweight, detachable handheld unit is equipped with castors that make moving around the surface incredibly easy.

LIGHTWEIGHT AND PORTABLE
Thanks to its easy unfolding and self-standing function, it takes up minimal space and is always close at hand.

EASY CLEANING
A simple hand movement is enough to open the dust container. This makes disposing of the dirt quick and hygienic.

Cordless Stick Vacuum Cleaner 3-in-1

SVC 8668AT

The highly efficient, 2200 mAh 18 V Li-Ion battery allows this cordless vacuum cleaner to operate for up to 45 minutes. The appliance vacuums any surface, and the rotary brush with an independent motor contributes to precise cleaning.

The mopping pad wipes hard surfaces, leaving the floor perfectly shiny and dust-free. Being lightweight and equipped with a rotating head, the vacuum cleaner is easy to operate. Filtration is provided by a HEPA cyclone system, and the battery level is alerted by an LED indicator.

FEATURES

- **Cordless 3-in-1 stick vacuum cleaner with mop and removable hand unit**
- **Vacuums and mops hard floors in a single stroke**
- **Highly efficient, 18V Li-Ion battery with a capacity of 2200 mAh**
- Short charging time (4-6 hours) and long operating time (up to 45 minutes)
- HEPA cyclone filtration system
- Rotary brush with independent motor for excellent cleaning on any floor
- 180° swivel nozzle for easy work and manoeuvring around obstacles
- LED lighting on the nozzle reveals dust even in dark corners
- 2 power levels: high performance and normal cleaning
- Bagless technology, 0.5 l dust container
- Self-standing function for temporary shutdown and convenient storage
- Charging base with accessory holder for practical storage
- LED battery charge indicator
- 2200 mAh Li-Ion battery with charge indicator
- Power supply voltage: 18 V
- Noise level: 78 dB Weight: 2.3 kg

MOPPING
The mopping unit with a replaceable pad removes even the finest dust particles and leaves the floor sparkling clean.

LED LIGHTING
No dirt will be missed with the LED lighting. Thanks to its fantastic manoeuvrability, the nozzle easily gets under furniture.

ACCESSORIES

1. MOPPING PAD
2. MOPPING UNIT
3. CREVICE NOZZLE
4. DUSTING BRUSH
5. FREESTANDING CHARGING STATION

Cordless Stick Vacuum Cleaner 4-in-1

SVC 0618TI

This 4-in-1 cordless stick vacuum cleaner will become an indispensable tool for everyday household care and beyond. It reliably vacuums carpets and hard floors and mops in one stroke.

Simply remove the handheld unit at the touch of a button to remove dust from furniture or car interiors. The Cat&Dog Mini brush precisely vacuums pet hair and upholstered furniture. The vacuum cleaner is very easy to operate, seamlessly manoeuvring around furniture thanks to the 180° swivel nozzle and its lightweight design. Storing the vacuum cleaner or taking a break while working is made easier by the self-standing function.

FEATURES

- **Cordless 4-in-1 stick vacuum cleaner with mop and removable handheld unit**
- **Vacuums and mops hard floors in a single stroke**
- **Motorised rotary Cat&Dog Mini brush for the handheld unit**
- Highly efficient 18V Li-Ion battery with a capacity of 2000 mAh
- Short charging time (4-6 hours) and long operating time (up to 40 minutes)
- HEPA cyclone filtration system
- Rotary brush with independent motor ensures excellent results on any floor type
- The 180° swivel nozzle makes work and manoeuvring around obstacles easy
- LED lighting on the nozzle reveals dust even in dark corners
- 2 power levels: high performance and normal cleaning
- Bagless technology, 0.5 l dust container
- Self-standing function for temporary shutdown and convenient storage
- Charging base with integrated accessory holder
- 2000 mAh Li-Ion battery with charge indicator
- Noise level: 79 dB
- Weight: 2.5 kg

ACCESSORIES

1. MOPPING PAD
2. MOPPING UNIT
3. CREVICE NOZZLE
4. DUSTING BRUSH
5. FREESTANDING CHARGING STATION

MOPPING

The mopping unit with a replaceable pad removes even the finest dust particles, leaving the floor sparkling clean.

HANDHELD UNIT WITH MOTORISED BRUSH

The removable handheld unit with the Cat&Dog Mini brush is the perfect tool for vacuuming pet hair and deep cleaning upholstered furniture and car seats.

Cordless Stick Vacuum Cleaner 3-in-1

SVC 0604 RD

SVC 0600GG SVC 0601GR SVC 0602BL
SVC 0603VT SVC 0604RD SVC 0605RS
SVC 0606GD SVC 0607CH SVC 0608BK

Enjoy unlimited freedom when cleaning. With this stick vacuum cleaner, no power cord gets in the way. You'll experience great manoeuvrability around furniture thanks to the swivel nozzle and the low weight of the vacuum cleaner. And if you need to take a break, the self-standing function makes it easy to put the vacuum aside. The vacuum cleaner has high performance on both smooth floors and carpets.

The rotary brush with its own motor takes care of precision cleaning. The nozzle with LED lighting reveals even the finest dust and simplifies vacuuming in darker areas. The handheld unit can be easily removed at the touch of a button and used to remove dust from furniture and car interiors. The Cat&Dog Mini brush uncompromisingly vacuums pet hair and upholstered furniture.

FEATURES

- **Cordless 3-in-1 stick vacuum cleaner with removable handheld unit**
- **Motorised rotary Cat&Dog Mini brush for the handheld unit**
- **Highly efficient, 21.6V Li-Ion battery with a capacity of 2000 mAh**
- Short charging time and long running time; charging time: 4-6 hours, running time: up to 45 minutes
- HEPA cyclone filtration system
- Rotating brush with independent motor for excellent results on any floor type
- Nozzle with LED lighting for perfect dust detection and easier cleaning even in darker corners
- 180° swivel nozzle for easy manoeuvrability around obstacles
- 2 power levels: high power, normal cleaning
- Bagless technology, dust container volume: 0.5 l
- Self-standing function for temporary shutdown and convenient storage
- Charging base with integrated accessory holder for practical storage
- LED battery charge indicator
- Battery type: 2000 mAh Li-Ion
- Supply voltage: 21.6 V
- Noise level: 79 dB
- Weight: 2.5 kg

ACCESSORIES

1. MOTORISED CAT&DOG MINI BRUSH
2. CREVICE NOZZLE
3. DUSTING BRUSH
4. FREESTANDING CHARGING STATION

LED LIGHTING
With the LED lighting, you won't miss any dirt. Thanks to its fantastic manoeuvrability, the nozzle easily gets under furniture.

HANDHELD UNIT WITH MOTOR BRUSH
The removable handheld unit with the Cat&Dog Mini brush is the perfect tool to vacuum pet hair and deep clean upholstered furniture and car seats.

Handheld Vacuum Cleaner

SVC 308BK

Use the SVC 308BK cordless handheld vacuum cleaner for your everyday cleaning and for small accident solving. This extra-lightweight, yet powerful, helper can handle all types of surfaces.

Thanks to the charging base, it is always fully charged and ready for the next cleaning. Two attachments allow convenient dust removal from furniture, table or car interior.

FEATURES

- **Cordless handheld vacuum cleaner**
- **Charging base with integrated holder**
- **Powerful 7.4 V, high-capacity, 2200 mAh Li-Ion battery**
- Operating time up to 20 min, short charging time (3.5 hours)
- Long-life digital motor with 80 W of power
- HEPA filtration
- Bagless technology, dust container: 0.2 litres
- 2 speed options: high power, extended vacuuming time
- Simple container emptying system and filter cleaning
- Extra lightweight, only 0.5 kg
- Noise level: < 80 dB

ACCESSORIES

1. FREESTANDING CHARGING STATION
2. CREVICE NOZZLE
3. DUSTING BRUSH

INNOVATIVE, 80 WATT DIGITAL MOTOR

Powerful helper, ideal for small areas. Fewer rotating parts prolong the life of the motor.

EXTRA LIGHT

Very easy to handle thanks to the extra-lightweight and ergonomic design.

CHARGING STATIONS

With the practical charging station, the vacuum cleaner is always fully charged and ready for the next task.

MAKE THE FLOOR SHINE

FLOOR CLEANERS

Invite a machine to help you mop, which will make your work easier, speed up cleaning, and delight you with perfect results. Our floor cleaners vacuum up dirt, both dry and wet, and mop the surface right away.

The most advanced models use Dual Power Mop technology with two rotating brushes. These rotate against each other, which increases cleaning efficiency and allows the machine to move across the floor almost on its own – all you have to do is guide it. With a powerful battery, the floor cleaners can run for up to 30 minutes on a single charge in wet mode, and in AUTO mode, they adjust their power as needed. The digital motor (500 W) is, of course, waterproof. You don't have to worry about spending a long time maintaining the device after cleaning. Thanks to its self-cleaning function, it takes care of itself, washing the brush with clean water, rinsing the pipes, and then drying with hot air.

WHY CHOOSE SENCOR HARD FLOOR CLEANER

- Vacuuming and mopping in one
- Removes both wet and dry dirt
- Powerful suction power precisely removes all dirt particles
- High-speed Power Spin Aqua8 technology for efficient mopping
- Self-cleaning function
- Battery lasts for 30 minutes of cleaning

ROTARY BRUSHES
Highly effective rotary brushes can handle even the most stubborn stains. Thanks to the Wet&Dry system, there is no need to worry about whether the dirt is dried or freshly spilled. The device takes care of everything itself.

EFFECTIVE AGAINST STAINS

Floor Cleaner

SVW 8872BK S88 AQUINO+

● SVW 8872BK ● SVW 8822BK

A complete solution for dry and wet cleaning in your home! The AQUINO+ multi-purpose cleaning system is designed for every surface and every situation – simply everything you need for a clean home in one device.

Dual Power Mop technology with two rotating brushes that rotate against each other increases cleaning efficiency and allows the vacuum cleaner to move across the floor almost on its own – all you have to do is guide it. When wet cleaning, it can run for up to 30 minutes on a single charge, and in AUTO mode, it can adjust its performance to the optimum level as needed. The digital motor (500 W) is, of course, waterproof and powerful enough to direct all dry and wet dirt into a large 600 ml container. Thanks to the internal nozzle system, the rotating brush remains clean at all times during cleaning.

When you change the attachment, you can start using the powerful stick vacuum cleaner in no time. In this mode, the device can clean for up to 45 minutes. Pet owners will appreciate the motorized Cat&Dog rotating brush, which makes it easy to remove hair from sofas and other surfaces. You don't have to worry about residual moisture in the device. The Self-Cleaning function cleans the internal system of the vacuum cleaner and, at 700 rpm, also cleans the brush. Hot air drying at 70 °C then prevents the growth of bacteria and odors.

FEATURES

- **Wet&Dry for wet and dry vacuuming**
- **Dual Power Mop with two rotating brushes**
- **Digital waterproof 500W motor**
- Stick vacuum cleaner with motorized brush, LED lighting, and automatic mode
- Self-Cleaning – self-cleaning of the brush and vacuum cleaner pipe with hot air
- Charging station with automatic hot air drying
- Battery life up to 30 minutes for wet cleaning, 45 minutes for dry vacuuming
- AUTO mode for automatic power adjustment according to the degree of soiling
- Large 600 ml dirt container

ACCESSORIES

1. MOTORIZED POWER BRUSH (ONLY SVW 8872BK)
2. FLEXIBLE HOSE (ONLY SVW 8872BK)
3. METAL TUBE (ONLY SVW 8872BK)
4. CREVICE NOZZLE WITH LED LIGHTING
5. CLEANING BRUSH
6. SOFT DUST BRUSH (ONLY SVW 8872BK)
7. DUST BRUSH
8. MINI MOTORIZED CAT&DOG BRUSH

Floor Cleaner

SVW 5010WH AQUINO

This advanced hard floor cleaner features two functions: it reliably vacuums all dirt, no matter if it's dry or wet, and also effectively wipes up at the same time. The results are excellent because it works with a powerful suction vacuum of 11000 Pa and uses Aqua8 Power Spin technology for mopping, which cleans efficiently thanks to its high speed. Wet&Dry technology can handle dry dirt and wet spills. It uses several modes: the standard mode is sufficient for normal, wet-brush vacuuming but you can also opt for dry vacuuming or enhanced performance by using turbo mode. The clean water container continuously soaks and cleans the brush at the same time, so you don't have to worry about dirty marks on the floor. All dry and wet dirt is sucked off the floor into the dirty water container.

It can run for up to 25 minutes on a single charge. When you're done cleaning, just put it in the charging station where it will clean itself using the self-cleaning function. It uses clean water to wash the brush and rinse the pipes, before drying itself with hot air. It will use either silent brush drying or turbo drying, where the hot air will also dry the HEPA filter. It only takes two hours to fully charge.

FEATURES

- **Wet&Dry – wet stains and dry particles vacuumed with 11000 Pa of suction power**
- **Power Spin Aqua8 technology to ensure precise mopping**
- **Self-Cleaning function cleans brushes and pipes**
- Charging station with automatic hot air drying
- Designed to effectively clean along walls
- Operating time of up to 25 minutes, fast charging (2 hours)
- Lightweight, only 3 kg
- Three cleaning modes
- Two separate containers for clean (500 ml) and dirty water (400 ml)

Floor Cleaner

SVW 3500WH AQUINO

Effortlessly clean and shiny floors? The SENCOR SVW 3500WH AQUINO Floor Cleaner takes care of everything. It tames dirt, stains, and spills on all types of hard floors, and the controls are so easy, everyone can use it. Switch the machine on with a single button and select one of three modes depending on the type of floor or the level of mess. You can choose standard mode with increased water flow or dry mopping, ideal for cleaning up spills, for example. You can always see the current mode and battery level on the clear display, and it can handle up to 40 minutes of operation.

Thanks to the rotating brush, which is continuously soaked with clean water, surfaces will be perfectly clean. It can also handle spaces close to walls or under furniture. When cleaning, the dirty water drains into a special container at the bottom of the cleaner, while solid dirt is collected in a separate container with the rotary brush. The cleaner's light weight makes operation convenient, and maintenance is just as easy. This is made possible by the Self-Cleaning function; the brush automatically cleans itself after use, and bacteria or unpleasant odours don't stand a chance.

FEATURES

- **Power Spin Aqua 8 mopping with rotating brush**
- **Continuous brush soaking with clean water**
- **Self-Cleaning function: self-cleaning brush**
- 3 separate containers for clean and dirty water and solid dirt
- Cleans close to walls
- Running time: up to 40 minutes
- Low weight: 2.8 kg

STEAMING THE DIRT OUT

STEAM CLEANERS

Steam cleaners succeed where conventional cleaning methods fail. And not only do they remove dirt but these devices also disinfect everything with steam. These helpers reliably treat hard surfaces such as floors or bathroom tiles, but you can just as easily use them to care for curtains, runners, or low-pile carpets.

The clever 2-in-1 solution also allows you to remove the handheld unit to get into hard-to-reach areas, such as faucets, crevices, or even radiators. The capacity of the water container allows you to work for approximately 15 minutes, but if you need more time, simply refill it with ordinary tap water.

WHY CHOOSE SENCOR STEAM CLEANER

- 2-in-1 system: cleaner with a removable handheld unit
- Reliably treats both hard and soft surfaces
- Steam disinfects everything
- Cleans even difficult-to-reach areas
- Filled with ordinary tap water

2-in-1 Multifunctional Steam Mop

SSC 6010WH

The powerful 1500 W, all-in-one steam mop and handheld cleaner can clean and disinfect your entire home. It cleans hard floors, mats, runners, and low-pile carpets.
The removable handheld unit with a wide range of accessories allows you to clean sinks, taps, showers, joints, toilets, radiators, barbecues, upholstery, and also glass surfaces like windows and mirrors.

The cleaner can also be used for cleaning curtains, drapes, or other textiles. It's ready to work fast, taking only 30 seconds to heat up fully. You can fill the reservoir with normal tap water, as the device contains a protective filter against limescale deposits. Approx. 350 ml of water provides steam for up to 15 minutes of operation.

FEATURES

- **Powerful steam mop and handheld cleaner with 1500W of power**
- **Cleans and disinfects hard floors, mats, runners, and low-pile carpets**
- **Removable handheld unit with a wide range of accessories**
- Fast steam heat up in 30 seconds
- The water tank capacity of approx. 350 ml is sufficient for up to 15 min of steam operation
- Protective water filter against limescale deposits
- Power cord length of 5 m
- 3 steam intensity levels to use on different surfaces
- Extensive accessories

AQUINO Steam Cleaner

SSC 3510WH

With the SSC 3510WH AQUINO handheld steam cleaner, cleaning takes on a new dimension. Thanks to the innovative steam generation system, it's both safer and faster. The Rapid Steam system prepares steam in just 30 seconds, which then uses its high temperature to remove most grease, dried-on dirt, and bacteria.

Together with the unique detergent dispenser, it can tackle even the toughest dirt. Water can also be refilled when in use if necessary; no need to switch off the machine. The cleaner is truly versatile, and thanks to its various attachments, it can clean even hard-to-reach surfaces, windows, upholstery, and extra messy areas.

FEATURES

- **Innovative steam generation system for safe operation**
- **Detergent dispenser for maximum cleaning precision**
- **Rapid Steam with fast steam preparation in 30 seconds**
- Steam flow up to 32 g/min with 3 bar pressure
- Power input: 1350W
- Large, 550 ml container
- 4 m cable length for easy handling

ACCESSORIES

1. DETERGENT CONTAINER
2. TEXTILE ATTACHMENT FOR UPHOLSTERY
3. FLEXIBLE EXTENSION HOSE FOR EASY HANDLING
4. WIPER FOR WINDOWS, FLAT SURFACES, AND TILES
5. CONCENTRATOR NOZZLE FOR EXTRA MESSY AREAS
6. FUNNEL AND MEASURING CUP FOR REFILLING WATER
7. NYLON ROUND BRUSH FOR DIRT IN SMALL AREAS
8. CURVED NOZZLE FOR HARD-TO-REACH AREAS

YOU LIVE, **ROBOTS WORK**

ROBOTIC VACUUM CLEANERS

SENCOR robotic vacuum cleaners handle all meticulous cleaning, while you get to enjoy your free time or have fun with friends or family. The top appliances communicate via Wi-Fi with the SENCOR HOME app, both vacuum and wipe the floor with a rotation mop, and they even come equipped with multifunction maintenance stations. The robots themselves decide when to use wet treatment as it features the Mop-Auto Lift that reliably identifies places where a rotating mop should not be used.

Your comfort is ensured by advanced technologies such as the multifunction station, which can empty the dust container or clean and dry the mop, the option of simultaneous vacuuming and rotation mopping, the impressive suction power of up to 5000 Pa, and UVC disinfection. Thanks to the special central and side brushes, this useful helper cleans the entire household, including the furthest corners. It delivers great results on carpets (up to 2 cm high), floating floors, parquet, linoleum, tiles, and other surfaces. Precise orientation throughout the space is ensured by state-of-the-art technology, including laser navigation and the 3D laser detection feature, helping to avoid small obstacles. You can also schedule the cleaning times for a selected day, hour, or minute, whichever works best for you. Of course, you can also decide on the frequency: only one or more days a week, on weekdays, or during the weekend. The strong battery provides power for up to 200 minutes of cleaning. The digital motor is so quiet that the robot can even be used in homes with pets.

WHY CHOOSE SENCOR ROBOTIC VACUUM CLEANER

- Vacuuming and rotation mopping
- State-of-the-art laser gyro navigation and 3D laser detection
- Multifunction stations, which can empty the dust container or clean and dry the mop
- Mop-Auto Lift feature to avoid unwanted moisture on carpets
- Very quiet operation, suitable for households with pets
- Long-lasting digital motor
- Up to 200 minutes of operation per charge
- Mobile app or remote controller

EFFORTLESS MOPPING

SPARKLING CLEAN FLOORS

SENCOR robotic vacuum cleaners do more than vacuuming. They are equipped with a tank and mopping pads, so you'll be delighted with a sparkling floor. Everything needed is already included. Send your robot straight off to work with no accessories to buy.

Robotic Vacuum Cleaner with Dual Rotary Mop

SRV 9790BK AQUINO+

With this robotic vacuum cleaner, cleaning functions have been given a unique companion: a dual rotary mop that takes care of perfectly clean floors. The foundation of quality vacuuming lies in the high suction power and long battery life, which runs the vacuum cleaner for up to 200 minutes. Clever technologies such as laser navigation, 3D Laser Detection for obstacle avoidance, an ultrasonic sensor for carpet detection, and Multi-Rooming allow you to set up your cleaning to be precise and disturbance-free for adults, children, and pets.

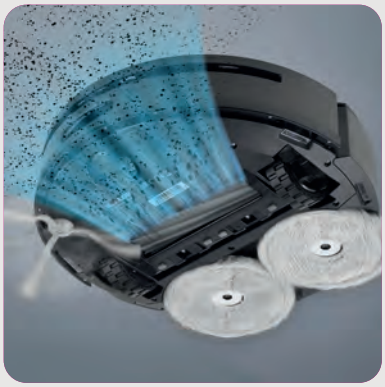

The robot operates with maximum autonomy. The integrated clean water container refills itself, allowing the rotary mop to continuously wet itself for consistent mopping throughout the cleaning process. It even washes the mops itself and drains the dirty water during the cleaning process. It sucks the collected dirt into a two-liter bag that you replace about once every 40 days. It also thoroughly cleans the mops and uses hot air to dry them, thus preventing odours and bacteria build-up. It only informs you when clean water needs to be poured in or dirty water needs to be poured out.

LASER NAVIGATION WITH 3D LASER DETECT

3D Laser Detect can even avoid small obstacles. The laser ensures perfect orientation, making cleaning faster and more thorough.

DUAL ROTATING MOPPING AND 5000PA SUCTION

Two rotating mops (10 N of pressure) and a powerful digital motor (5000 Pa of suction) perfectly clean any floor.

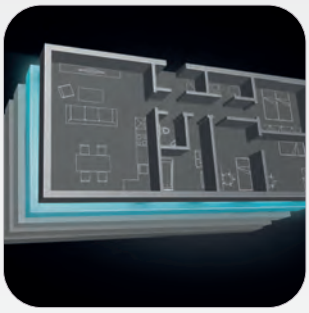

SENCOR HOME APP

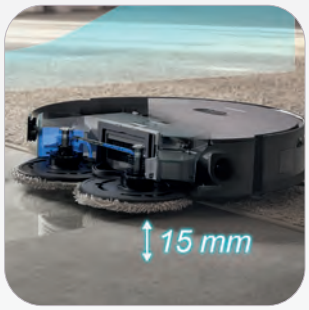

Control your vacuum cleaner and other Wi-Fi-connected SENCOR appliances in a single intuitive app.

MULTIFUNCTIONAL STATION AUTOCLEAN+
Mops are wet with clean water during cleaning and dried with hot air after cleaning. The collected dust is sucked into a dust bag.

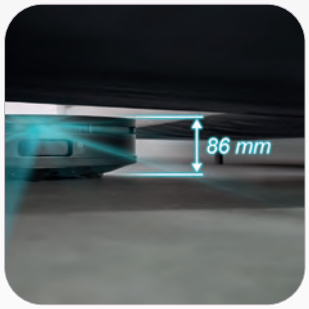

MULTI-MAPPING
Equipped with this feature, the vacuum cleaner maps up to 5 different floors, making cleaning even more efficient.

MOP-AUTO LIFT
The ultrasonic sensor detects the carpet and the mop automatically lifts to a height of 15mm.

MULTI-ROOM
The multi-room function allows you to set up cleaning for each room separately and exactly as you want and need it.

LOW HEIGHT
With a height of just 8.6 cm, the vacuum cleaner easily gets under furniture.

PRECISE MOPPING
The integrated tank ensures even mopping (it applies continuous moisture). The intensity level can be controlled electronically.

FEATURES

- **Vacuum and mop at the same time or individually**
- **Multifunction Auto Clean Station+ with self-cleaning**
- **Refills water during cleaning and washes mops**
- Refill station with a bag for automatic dust collection and mop self-cleaning with drying
- Carpet detection and mop lifting
- The 5200 mAh battery can run up to 200 minutes on a single charge
- The 5000 Pa of suction power and rotating centre brush ensure great vacuuming
- Rotary mops with 10N of pressure wipes effectively
- SENCOR HOME remote control and app
- The large, 2-litre dirt bag can be replaced once every 40 days
- Laser navigation and 3D Laser Detection
- The ultrasonic sensor accurately detects carpets

Robotic Vacuum Cleaner

SRV 9385WH

The SENCOR SRV 9385WH robotic vacuum cleaner vacuums, mops, and even dumps the collected dirt into the automatic dust collection station. This allows it to work completely independently; its bag lasts up to 60 days.

Set up can be done via remote control or in the SENCOR HOME app directly on your phone. In the app, you can define the suction and mopping intensity, the cleaning schedule, and the locations where the vacuum cleaner should go. You can also set up restricted zones. Everything is manageable wherever you are, even at work or on holiday.

The large rotary brush handles coarse dirt, while the side brush cleans corners, areas along walls, and spaces around furniture. The special attachment mops the floor and treats surfaces with an integrated UV-C light that reliably kills bacteria. The premium, 5000 mAh Li-Ion battery gives power for up to 200 minutes of operation.

With advanced LiDAR laser navigation, the robotic vacuum cleaner moves perfectly throughout space. It creates a map of the area the first time it passes through the home. In addition to the laser, it also uses infrared sensors, a stair sensor, and a TOF sensor for precise movement along walls, making the cleaning fast and efficient.

LIDAR LASER NAVIGATION

The laser ensures perfect orientation in space, making cleaning faster and more thorough.

VACUUMING AND MOPPING AT THE SAME TIME

The mopping option will tick another task off your to-do list. It will keep your floors spotless.

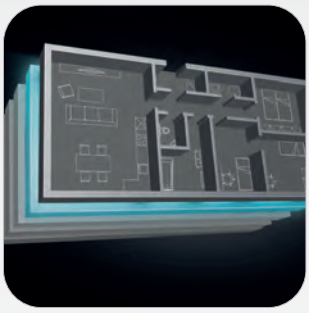

SENCOR HOME APP

Control your vacuum cleaner and other Wi-Fi-connected SENCOR appliances in a single intuitive app.

AUTOMATIC DUST COLLECTION STATION
When the vacuum cleaner has finished its work, the contents of its internal container are transferred into a dust bag in an automatic collection station.

MULTI-MAPPING
Equipped with this feature, the vacuum cleaner maps up to 5 different floors, making cleaning even more efficient.

MULTI-ROOM
The multi-room function allows you to set up cleaning for each room separately and exactly as you want and need it.

TOF SENSOR
The TOF sensor allows precise cleaning along walls (maintains the same distance from the wall).

UV-C SANITISING LIGHT
The vacuum cleaner effectively eliminates bacteria with reliable UV-C light.

HIGH SUCTION POWER
The powerful, 4000 Pa motor can handle any type of floor. It increases suction power and better sucks dirt out of dense carpet fibres.

FEATURES

- **LiDAR laser navigation for orientation in space**
- **Automatic dust collector emptying (SRV 9385WH)**
- **4000 Pa of suction power**
- Premium, 5000 mAh Li-Ion battery
- UV-C sanitising light
- TOF sensor for precise cleaning along walls (maintains the same distance from the wall)
- Four suction and three mopping intensities
- Easy to set up in the SENCOR HOME APP or with the remote control
- Multi-rooming and multi-mapping functions for efficient cleaning planning
- Intelligent impact and fall sensors

Robotic Vacuum Cleaner

SRV 9085BK/SRV 9020BK

The intelligent SENCOR SRV 9085BK robotic vacuum cleaner takes care of hard floors and carpets for you, combining mopping with vacuuming. Perfect results are ensured by the powerful motor with a suction force of 3000 Pa. Thanks to the 2600 mAh Li-Ion battery, it can work for up to 130 minutes on a single charge.

The vacuum cleaner automatically empties the dust container directly into the 2-litre bag, which is located in the Auto Clean Station Mini charging station. The LiDAR laser navigation and various smart sensors ensure perfect orientation in space. The device is easy to control using the remote controller or the SENCOR HOME mobile app.

SRV 9085BK

LASER NAVIGATION LIDAR

The laser ensures perfect orientation in space, making cleaning faster and more thorough.

VACUUMING AND MOPPING AT THE SAME TIME

The mopping option will tick another task off your to-do list. It will keep your floors spotless.

SENCOR HOME APP

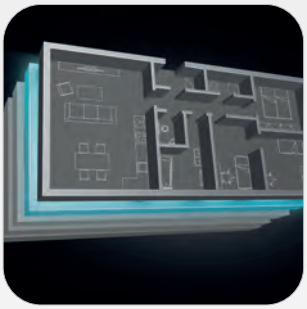

Control your vacuum cleaner and other Wi-Fi-connected SENCOR appliances in a single intuitive app.

AUTOMATIC DUST COLLECTION STATION

FEATURES

- **LiDAR laser navigation for orientation in space**
- **Automatic dust container emptying (SRV 9085BK)**
- **Suction power of 3000 Pa with power boost on carpets**
- Premium, 2600 mAh Li-Ion battery
- Four suction modes and three mopping intensities
- Multi-rooming and multi-mapping functions for efficient cleaning mapping
- Easy to use with the SENCOR HOME app or remote controller
- Intelligent impact and fall sensors

SRV 9020BK

Robotic Vacuum Cleaner

SRV 7485WH/7450WH

It is smart and, thanks to its height of only 8.3 centimeters, it can even get under hard-to-reach furniture. The SRV 7485WH carefully vacuums smooth floors and carpets, and also cleans hard surfaces by mopping. It automatically increases its power on carpets with a higher pile to ensure that everything is really clean.

A powerful motor with a suction power of 5000 Pa ensures exceptionally high-quality cleaning, and thanks to a Li-Ion battery with a capacity of 2600 mAh, it can work for up to 140 minutes on a single charge. The vacuum cleaner automatically empties the dust container directly into a 3-liter bag in the charging station, so you don't have to worry about taking out the dirt for two months. Precise orientation in the space is ensured by Lidar laser navigation. Convenient control is provided by a remote control or the SENCOR HOME mobile app directly on your phone. Pairing is a breeze with Bluetooth.

SRV 7485WH

LASER NAVIGATION LIDAR

The laser ensures perfect orientation in space, making cleaning faster and more thorough.

THREE MOPPING INTENSITIES

Electronic mopping intensity control determines how much water the vacuum cleaner should use.

SENCOR HOME

Control your vacuum cleaner and other SENCOR products connected to Wi-Fi using a unique intuitive app.

AUTOMATIC DUST COLLECTION STATION
When the vacuum cleaner finishes its work, the contents of its internal tank are transferred to a dust bag located inside the automatic dust collection station.

HIGH SUCTION POWER
The powerful 5000 Pa motor can handle any type of floor. It increases suction power on carpets and better vacuums dirt from thick carpet fibers.

LOW HEIGHT
With a height of only 8.3 cm, the vacuum cleaner can easily fit under furniture.

FEATURES

- **Lidar laser navigation for excellent spatial orientation**
- **Automatic dust container emptying**
- **5000 Pa suction power with increased performance on carpets**
- Low robot height – 8.3 cm
- Premium 2600 mAh Li-Ion battery
- Four suction intensities and three mopping intensities
- Multi-rooming and Multi-mapping functions for efficient cleaning planning
- Easy operation via the SENCOR HOME app or remote control
- Intelligent anti-collision and anti-fall sensors

SRV 7450WH

Robotic Vacuum Cleaner

SRV 4150WH

This robotic vacuum cleaner can handle any situation. It vacuums and mops at the same time! Simply pour water into the 2-in-1 container, fix on the mopping attachment, and the electronic water intensity control adjusts the power for the type of floor or dirt. It navigates spaces with confidence thanks to its gyroscopic navigation that determines the optimal cleaning route. This way, it won't miss any spots and unnecessarily return to already cleaned areas. This not only reduces cleaning times but also extends the life of the vacuum cleaner.

Reliable performance is ensured by its digital motor with a suction force of 3000 Pa. The 2600 mAh Li-Ion battery provides up to 130 minutes of operation on a single charge. The low profile of only 7.6 cm allows the robot to get under furniture, while the intelligent sensors prevent bumps and falls. Operation is easy with the remote control or the SENCOR HOME mobile app.

FEATURES

- **SENCOR Smart Gyro for precise spatial orientation**
- **Suction power: 3000 Pa**
- **Vacuums and mops at the same time**
- Electronic mopping intensity controls
- Low robot height: 7.6 cm
- Li-Ion 2600 mAh battery (up to 130 minutes of vacuuming)
- 3 suction levels and 3 mopping intensities
- Controlled with the SENCOR HOME app or remote control
- Smart sensors to prevent bumps and falls
- Mopping with electronically controlled water intensity

SENCOR SMART GYRO

Gyroscopic navigation ensures intelligent movement for perfect results.

THREE MOPPING INTENSITIES

Electronic mopping intensity control determines how much water the vacuum cleaner should use.

SENCOR HOME

Control your vacuum cleaner and other SENCOR products connected to Wi-Fi using a unique intuitive app.

Robotic Vacuum Cleaner

SRV 1550WH

A robotic vacuum cleaner with an anti-static mop can certainly be a great help when trying to save time. Our model SRV 1550WH perfectly vacuums dirt and wipes off dust simultaneously. The two side brushes clean along the walls and in the corners.

Operating the vacuum is simple thanks to the remote controller as well as the button on the cleaner itself. With a diameter of only 29 centimetres and a slim body height of 7 centimetres, the vacuum cleaner also cleans the floor under furniture and between various obstacles. SENCOR Smart Room technology ensures efficient movement. There is also a 30-minute programme for cleaning smaller spaces or a separate room. The high-quality Li-Ion battery powers the vacuum cleaner for up to 60 minutes on a single charge. When it's done cleaning, the device returns to the charging station by itself.

FEATURES

- **SENCOR Smart Room for intelligent movement throughout the space**
- **Super slim and compact (7 cm tall and with a 29 cm diameter), easily cleans under furniture**
- **Controlled by a button on the vacuum cleaner's body or by remote controller**
- Simultaneously vacuums and dusts with an anti-static mop
- Multiple cleaning programmes
- Side brushes for cleaning near walls
- Running time of up to 60 minutes
- Independently returns to its charging station

SMART ROOM

The SENCOR Smart Room function ensures effective coverage of the vacuumed area.

EASY CONTROL

Easy control using the remote control or buttons on the vacuum cleaner. The remote control can also be used to activate the 30-minute program.

LOW HEIGHT

Thanks to its height of only 7 cm, the vacuum cleaner can easily reach under furniture.

FOR CRYSTAL-CLEAR VIEWS

ROBOTIC WINDOW CLEANER

Imagine no more moving steps or fighting with smudges on the glass when washing windows. The Robotic window cleaner does the whole job for you! It reliably attaches itself to the window pane and moves precisely across it until the cleaned glass simply glistens.

To make sure the robot doesn't miss any spots, it uses SENCOR Smart Gyro navigation and sovereignly recognises frames and edges. You'll especially appreciate it in hard-to-reach places, as it makes household maintenance much safer and easier. You'll sure to fall in love with cleaning windows... with the robotic cleaner, that is.

WHY CHOOSE SENCOR ROBOTIC WINDOW CLEANER

- Convenient window cleaning with great results
- Precise movement on the glass thanks to SENCOR Smart Gyro navigation
- A safe solution for hard-to-reach areas
- Low water and energy consumption
- Controllable via remote controller or on the robot body

Robotic Window Cleaner

SRW 6010WH

Perfectly clean windows effortlessly? Yes, with the SENCOR SRW 6010WH Aquino Robotic Cleaner that does all the work for you. The robot attaches itself securely to the window with a powerful vacuum of 3000 Pa, while 2 rotating discs with replaceable microfibre pads handle the precise cleaning.

The integrated water tank and two ultrasonic nozzles automatically wet the glass. Movement is efficient and systematic thanks to the SENCOR Smart Gyro navigation system, which detects window frames and the edges of frameless surfaces. The robot can be controlled by remote control or directly on its body. You can also use it on mirrors and other glass surfaces throughout the home.

FEATURES

- **Two rotating discs with replaceable pads**
- **Integrated water tank (60 ml) and two ultrasonic nozzles**
- **SENCOR Smart Gyro navigation**
- Frame and edge detection for cleaning windows and frameless glass surfaces
- Controlled via the remote controller or directly on the robot body
- 3 window cleaning modes with water dosage control
- Safely attaches to glass (suction vacuum of 3000 Pa)
- Battery backup in case of a main power failure

WHEN **TRADITION** STANDS FOR **PERFECTION**

BAGGED VACUUM CLEANERS

Why are bagged vacuum cleaners still so popular? The answer lies in their innovative features and unrivalled performance. Attractive design meets maximum performance. The AAAA class guarantees the highest energy efficiency, the best carpet cleaning performance, flawless cleaning for hard floors, and the lowest dust re-emissions.

The latest models of bagged vacuum cleaners use HEPA H13 filtration to guarantee clean air even for allergy sufferers. In addition, the vacuum cleaners are quiet; the only 59 dB(A) sound is undisruptive even in homes with small children or pets. The soft wheels ensure easy movement, the metal telescopic XXL tube can reach anywhere, and the fantastic action radius prevents you from frequent replugging.

WHY CHOOSE SENCOR BAGGED VACUUM CLEANER

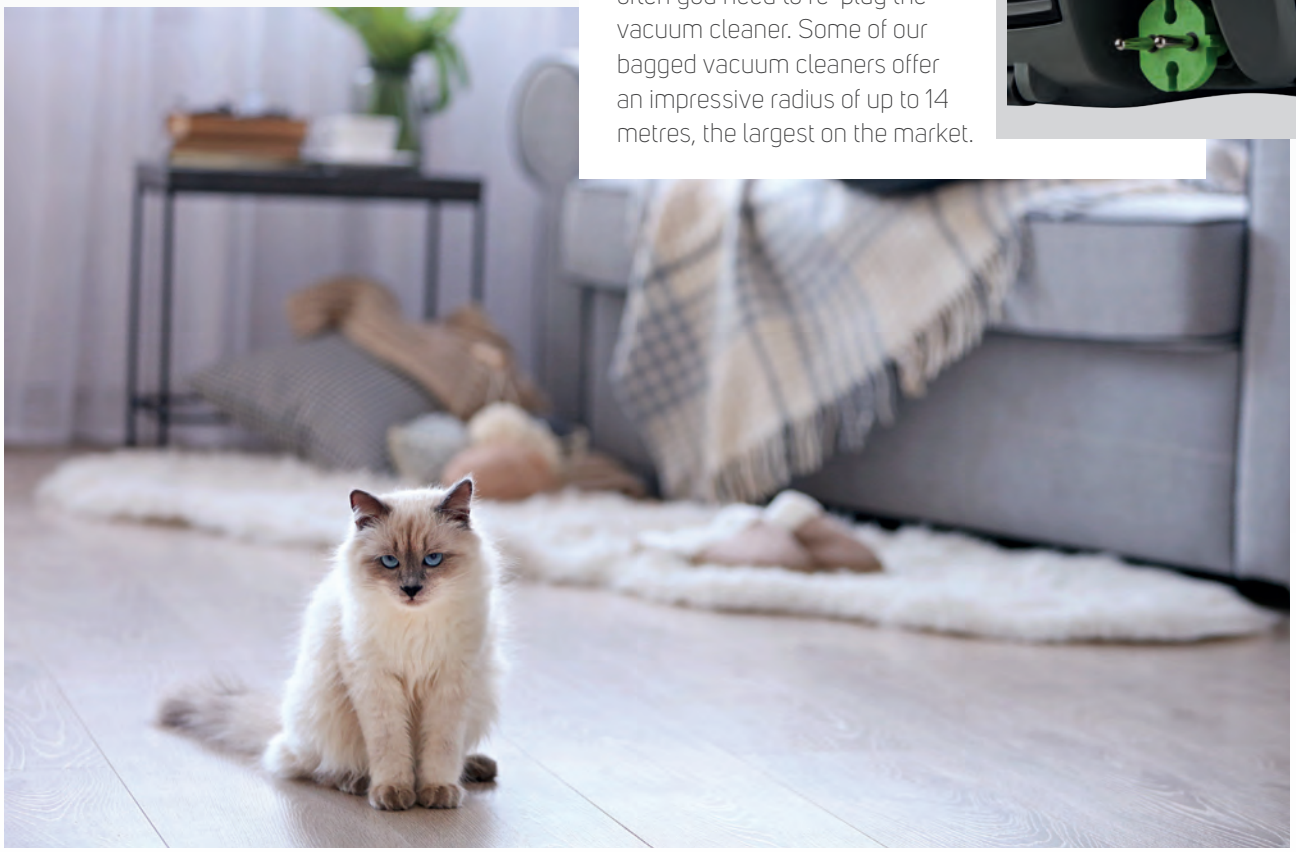

- 4AAAA ECO power guarantees excellent results on any surface
- Special technology for extra-quiet vacuuming
- Complete accessories for precise and convenient cleaning of your home, car, and pet hair
- Clean Air HEPA H13 ensures filtration suitable for allergy sufferers
- Easy and comfortable operation

CLEANING EVERYTHING

REACHING EVERYWHERE

The action radius contributes to maximum cleaning comfort. The greater the range, the less often you need to re-plug the vacuum cleaner. Some of our bagged vacuum cleaners offer an impressive radius of up to 14 metres, the largest on the market.

Bagged Vacuum Cleaner

SVC 9300BK 4AAAA ECO POWER

TWith a noise level of just 59 dB(A), this state-of-the-art vacuum cleaner gives you the quietest cleaning possible. It will tidy up your entire home, remove pet hair, and even clean your car. All this with the most efficient consumption, best results on carpets and hard floors, and minimal dust re-emission.

The Clean Air HEPA H13 filter, which is also suitable for allergy sufferers, ensures unrivalled filtration. The XXL, extra-lightweight aluminium tube with adjustable height will make your work easier. The vacuum cleaner can be parked both horizontally or vertically, allowing for convenient storage and breaks while working, and the extra-large operation radius (12 m) minimises re-plugging. The wide range of accessories helps with cleaning in any situation and location. The 4-litre synthetic bag improves filtration, while the LED indicator lets you know when the bag is full and needs a hygienic replacement.

SVC 8310BK 4AAAA ECO POWER

4AAAA EcoPower Handles pet hair, fine dust, and allergens with ease. Together with the synthetic microfibre bag, the Clean Air HEPA H13 filter reliably captures all particles. The bag is tear-resistant and will not let any trapped dirt out when replaced. The 4AAAA designation guarantees the highest possible energy efficiency, precise dust filtration, and top performance when vacuuming carpets and hard floors. And it's all as quiet as possible; with Extreme Silence Technology, it has a noise level of only 68 dB(A).

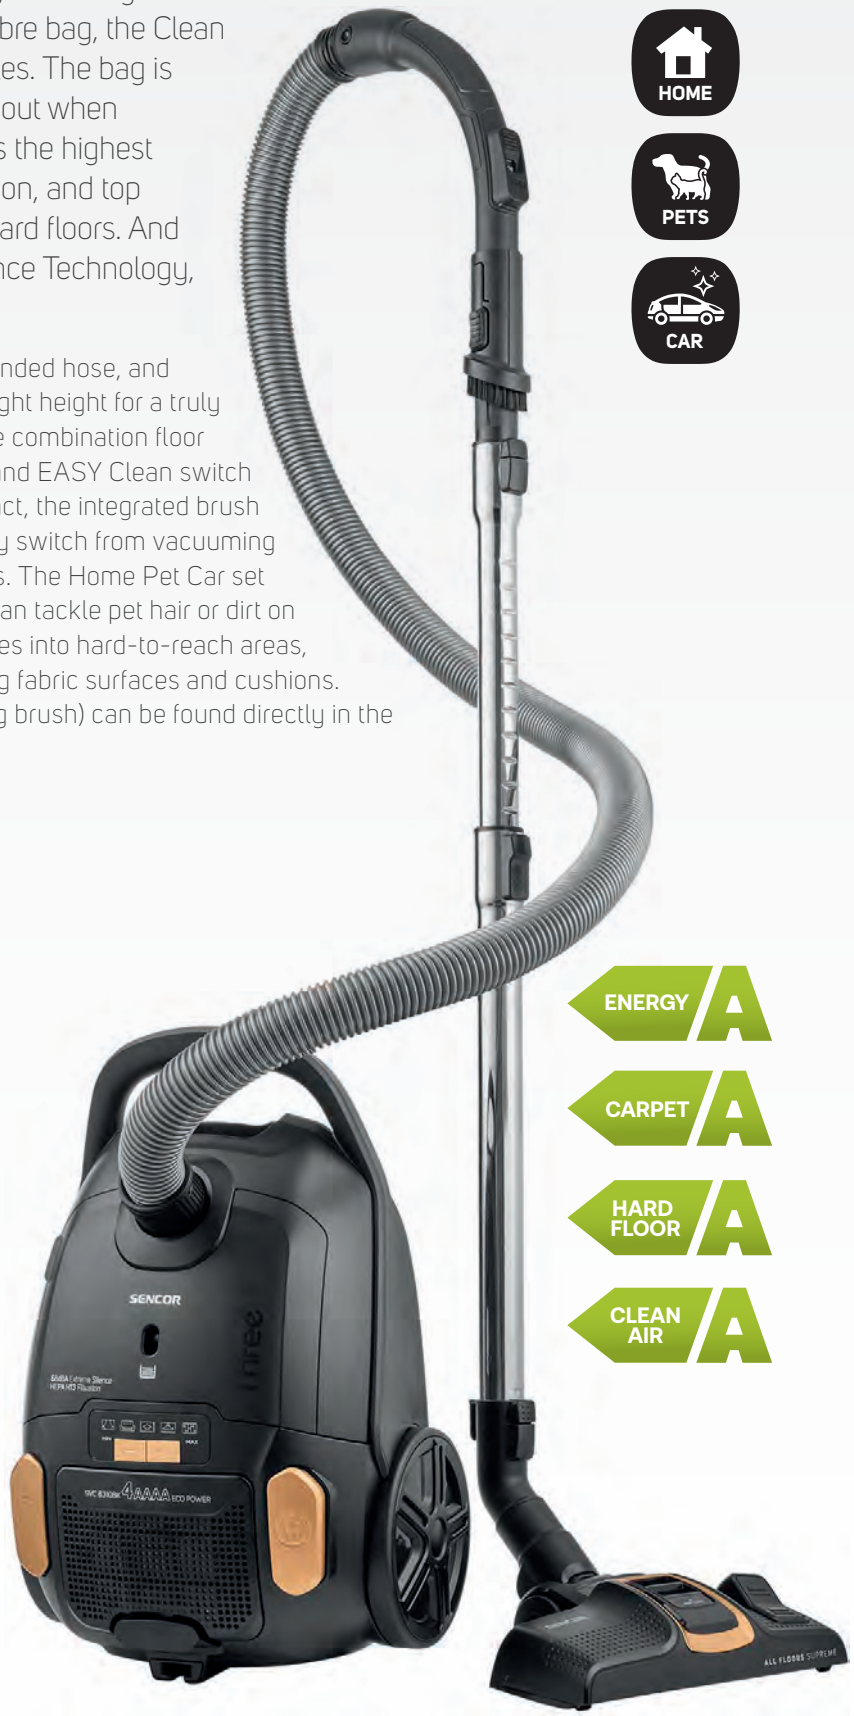

Thanks to the XXL telescopic wand, 1.7-metre extended hose, and lightweight design, you can easily adjust it to the right height for a truly comfortable vacuuming experience. In addition, the combination floor nozzle with a pull-out brush and the DEEP Clean and EASY Clean switch allow you to clean all types of floors perfectly. In fact, the integrated brush directly at the end of the hose allows you to quickly switch from vacuuming the floor to dusting furniture or hard-to-reach areas. The Home Pet Car set includes a special mini Cat&Dog turbo brush that can tackle pet hair or dirt on seats. The extra-long flexible crevice nozzle reaches into hard-to-reach areas, and the upholstery nozzle is suitable for vacuuming fabric surfaces and cushions. Other practical accessories (crevice nozzle, dusting brush) can be found directly in the vacuum cleaner.

SAVE UP VACUUM WITHOUT BAGS

BAGLESS VACUUM CLEANERS

Wishing to vacuum without additional costs? Opt for SENCOR bagless vacuum cleaners. Their dirt container is large enough to hold dust and unwanted particles from around the house. Everything stays safely inside, with the help of the Clean Air HEPA H13 filter that cleans the air enough even for allergy sufferers. The multi-cyclone system works at full power no matter how full the dust container gets.

SENCOR's premium bagless vacuum cleaners boast a 4AAAA rating for energy consumption, carpet and hard floor cleaning, and dust release, taking care of the cleaning with zero compromises.

WHY CHOOSE SENCOR BAGLESS VACUUM CLEANER

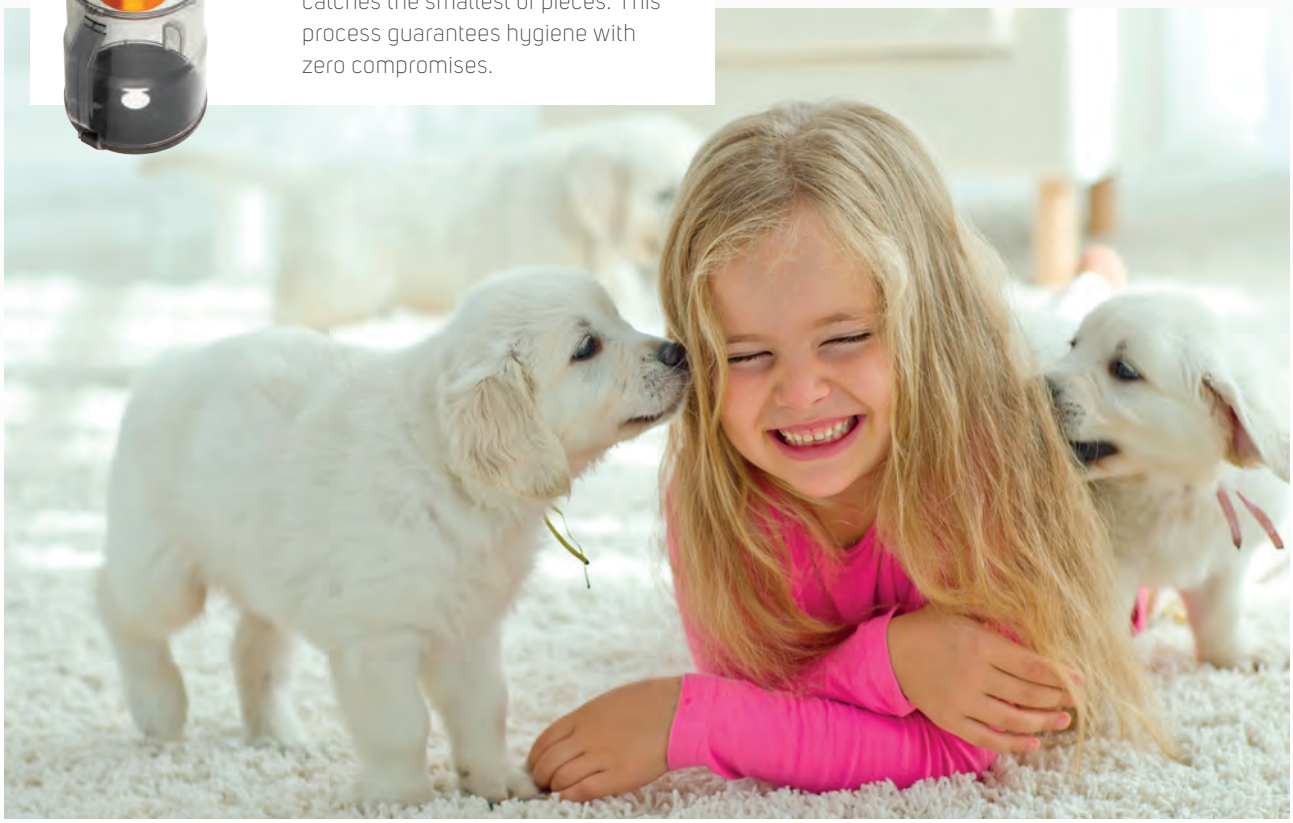

- Multi-cyclone technology without losing any suction power
- 4AAAA ECO power perfectly cleans any surface
- Complete accessories for the precise and comfortable cleaning of your home, car, and pet hair
- Clean Air HEPA H13 ensures filtration suitable for allergy sufferers
- Lower running costs, no need to buy bags

CYCLONE AND HEPA FILTRATION

Bagless vacuum cleaners use the cyclone effect, whose centrifugal force separates fine dirt from the air. Most of the particles are trapped in the container, while the HEPA filter catches the smallest of pieces. This process guarantees hygiene with zero compromises.

CYCLONE EFFECT

Bagless Vacuum Cleaner

SVC 1080TI 4AAAA ECO POWER

What this bagless vacuum cleaner model can do will impress even the most demanding users. Excellent vacuuming on all surfaces and the Complete Care accessories deliver perfect cleaning results at home, after pets, and in the car, making it the best possible choice for your household.

Multi-cyclone technology ensures that that suction power doesn't decrease, while the Clean Air HEPA H13 filter cleans the air so well that even allergy sufferers will be satisfied. Your comfort is ensured by the low noise level of 78 dB, the 314 m² surface area coverage, and the XXL metal telescopic tube that can be adjusted to any height.

FEATURES

- **SVC 1080TI 4AAAA ECO POWER cleans every surface perfectly**
- **Complete Care accessory for the best results when cleaning at home, after pets, and in the car**
- **Multi-cyclone technology prevents performance drops**
- XXL metal telescopic tube with adjustable height for ergonomic work
- Horizontal parking for easy storage and breaks during vacuuming
- The Clean Air HEPA H13 filter provides superior filtration suitable for allergy sufferers
- Low noise level of 78 dB(A) ensures quiet vacuuming
- Covers 314 m², so less repugging is needed
- Action radius of 10 m (7 m power cord length)
- XXL 3.5l dust container
- Soft wheels protect the floor and move quietly
- Automatic power cord rewind
- Electronic power control

CLEAN AIR A

Multi-cyclone system

Our most advanced bagless technology separates dirt from air in several smaller cyclones. This multi-cycling method ensures strong and consistent performance, even when the dirt container is full.

HARD FLOOR NOZZLE

This nozzle with a 100% natural brush ensures the gentle, quiet, and precise cleaning of all hard floors including wood, floating floors, tiles, linoleum, and marble.

EXTRA-LONG CREVICE NOZZLE

This nozzle can really get anywhere in the car, even into very narrow and problematic areas.

MINI TURBO BRUSH

The Mini Turbo Brush is the best choice for cleaning pet hair and vacuuming in complicated areas. It can also tackle hard-to-remove fibres on car seats, upholstery, stairs, cushions, and other textiles.

TURBO BRUSH

The powerful rotary brush is very useful for the thorough vacuuming of carpets and rugs. It can handle hair, pet, hair, and all kinds of fibres. It makes cleaning quicker and more efficient, as the gentle brushing increases vacuuming efficiency by up to 25%.

HEPA FILTER

The high-quality HEPA H13 filter captures even the smallest dust particles and dirt, helping to maintain a healthy home.

ERGONOMIC

A practical handle for easy carrying is complemented by an additional upper handle. This helps to open the dirt container easily.

ACCESSORIES

1. TURBO BRUSH
2. MINI TURBO BRUSH COMBI FLOOR NOZZLE
3. UNIVERSAL FLOOR NOZZLE WITH EXTENSIBLE BRUSH
4. CREVICE NOZZLE, DUSTING BRUSH
5. HARD FLOOR NOZZLE
6. LONG, FLEXIBLE CREVICE NOZZLE

USE

Bagless Vacuum Cleaner

SVC 1016GR

This bagless vacuum cleaner excels in three categories, scoring highest for energy efficiency, hard floor vacuuming ,and dust filtration.

The SENCOR SVC 1016GR 3AAA uses the Cyclone filtration system to maintain consistent suction power and precisely remove unwanted particles. The vacuum cleaner is very easy and comfortable to work with, as it is lightweight and has an ergonomically adjustable telescopic tube. Thanks to the rubber wheels, it moves quietly and smoothly. The bagless technology saves both money and the environment.

The accessory helps you get into hard-to-reach places. The combined 2-in-1 crevice and dust nozzle makes it easy to clean dust from different corners, while the upholstery nozzle is suitable for textile surfaces including mattresses.

FEATURES

- **Powerful 800 W**
- **3AAA: the highest class of energy efficiency, hard floor vacuuming efficiency, and dust filtration efficiency**
- **Cyclone filter system with EPA E12 filters for perfect filtration and consistent suction power**
- Stainless-steel XL tube with adjustable height for comfortable handling
- Bagless technology saves costs and nature
- 5-metre supply cable length with 7.5-metre action radio
- Fully washable, 1.5-litre dust container
- Universal floor nozzle with extendable brush
- Noise level: 80 dB

ACCESSORIES

1. HARD FLOOR NOZZLE TURBO BRUSH
2. CAT&DOG MINI TURBO BRUSH
3. UPHOLSTERY NOZZLE
4. 2-IN-1 COMBINED CREVICE AND DUST NOZZLE
5. LONG, FLEXIBLE CREVICE NOZZLE

USE

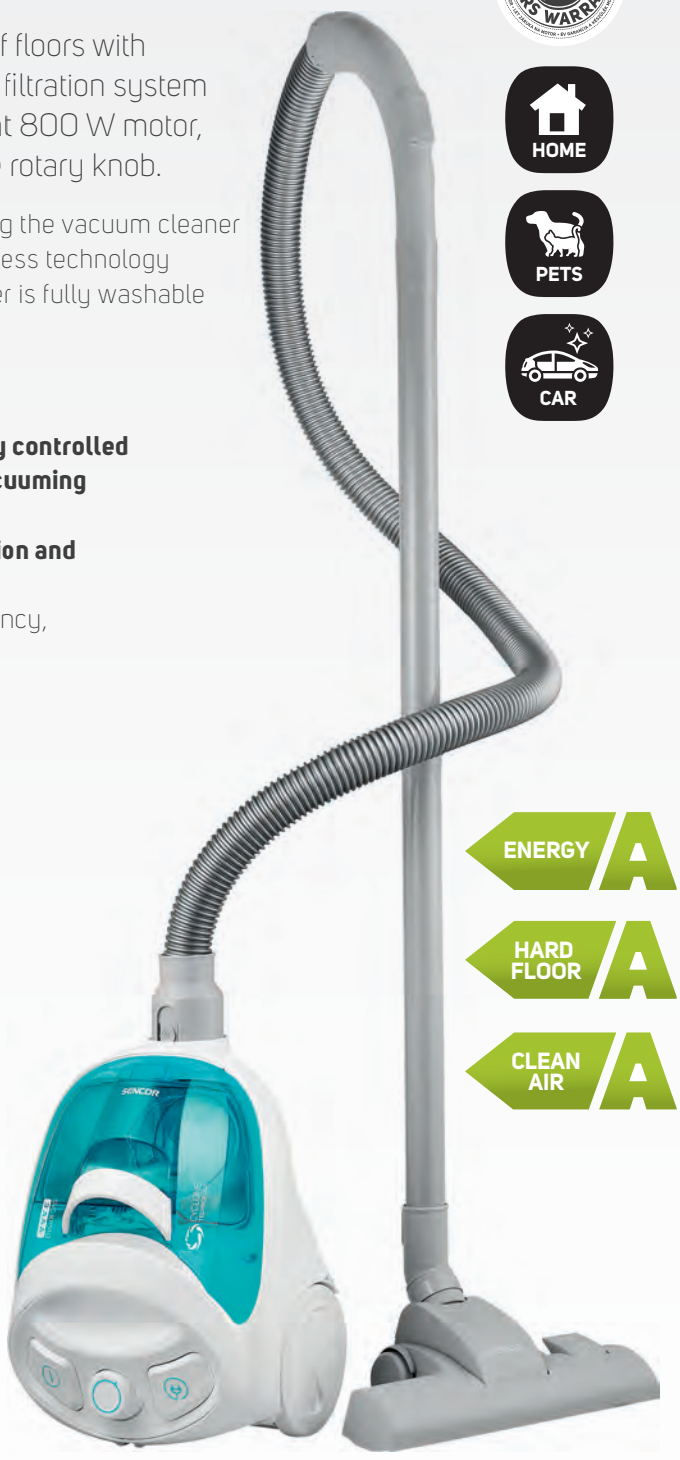

Bagless Vacuum Cleaner

SVC 1015TQ

This powerful vacuum cleaner cleans different types of floors with meticulous precision, being supported by the Cyclone filtration system with constant suction power. Equipped with an efficient 800 W motor, the suction power can be manually adjusted using the rotary knob.

The filters can capture even the smallest dust particles, making the vacuum cleaner suitable for allergy sufferers and people sensitive to dust. Bagless technology saves your wallet and the environment. The 1.5 l dust container is fully washable and easy to keep hygienically clean.

FEATURES

- **Formidable 800 W of suction power, which can be manually controlled**
- **3AAA: the highest class of energy efficiency, hard floor vacuuming efficiency, and dust filtration efficiency**
- **Cyclone filter system with EPA E12 filters for perfect filtration and consistent suction power**
- Highest energy efficiency class, hard floor vacuuming efficiency, and highest class in dust filtration efficiency
- 5 m cord length, 7.5 m radius of action
- Fully washable 1.5-litre dust container

USE

HEAT, COOL & AIR

How to ensure a pleasant and healthy environment at home or in the office? SENCOR appliances can help. These smart appliances communicate via Wi-Fi with the SENCOR HOME app, meaning you can control them wherever you are. While at work, simply tap the screen, and the device at home will start working. It's that easy.

Thermal comfort is ensured by our heat convectors and fans. During hot summer days, on the other hand, you'll appreciate the mobile air conditioner, which deals uncompromisingly with overheated room air. You'll also be refreshed by our collection of fans, whose breeze is accentuated by their side-to-side movement. Simply put, we do everything we can to keep your home and office as comfortable as possible.

NICELY WARM EVEN ON CHILLY DAYS

HOT AIR CONVECTORS

Returning to a pleasantly warm room on a cold day? No problem thanks to the latest heaters, which can be switched on and set up remotely via Wi-Fi and the SENCOR HOME app.

Different power levels provide thermal comfort, while the elegant design is provided by the front glass parts available in several colours. It's up to you whether you leave the convector free-standing in the room or mounted on the wall.

The LED digital display with touch controls can be switched off in the evening so as not to disturb your sleep. Our heat convectors can be used anywhere in the home. And thanks to their IP24 protection rating, they can even be used to keep you warm in the bathroom.

WHY CHOOSE SENCOR HOT AIR CONVECTOR

- Controlled directly on the device as well as via Wi-Fi in the SENCOR HOME app
- Elegant glass design fits all modern interiors
- Excellent performance and variable temperature options
- Free-standing or wall-mounted
- LED display with night mode for undisturbed sleep
- IP24 protection; can be used in the bathroom

ELEGANT DESIGN

Perfectly functional, perfectly beautiful. That's our thermal convectors. Their elegant look is provided by the glass, whether in white or black. They stand out as a solitaire in any room or can be mounted on the wall (both feet and a fitting system are included). The modern look is highlighted by the LED display, which shows important information and can also be used to control the device.

FOR EVERY SPACE

Convection Heater

SCF 4741BK

○ SCF 4740WH ● SCF 4741BK ● SCF 4742RD

A convection heater that looks like a designer piece? Sure! This glass heater in white, black, or red combines elegance with modern features. It's a smart device, so you can control it via Wi-Fi using the SENCOR HOME app on your mobile phone. Whether free-standing or on the wall, its modern appearance stands out.

On the front, there are touch controls with an LED-backlit display to set the temperature over a wide range of 5–45 °C. The heater meets strict international requirements and is also suitable for the bathroom thanks to its IP24 standard. You will enjoy the ECO function both in and out of the bedroom, as it offers energy savings and a quiet mode with the option to turn off the display backlight.

FEATURES

- **Wi-Fi and SENCOR HOME app controls**
- **2 power levels: low power, 1200 W / high power, 2400 W**
- **Large LED digital display with touch controls**
- Adjustable temperature range of 5–45 °C
- Free-standing or wall-mounted
- 24-hour timer
- Switch off display function
- Child lock
- IP24 degree of protection
- Safety fuse against overheating
- Open window detection function
- Dimensions: 86.5 × 10.5 × 47.5 cm
- Weight: 10.5 kg

Convection Heater

SCF 4240WH

○ SCF 4240WH ● SCF 4241BK

The glass convection heater in elegant white or black will warm up any room. In the living room, the front side made of high-quality tempered glass stands out, while in the bedroom, the option to turn off the display on the device ensures your uninterrupted sleep. In the bathroom, the heater can cope with higher humidity thanks to its IP24 protection.

You can easily adjust the heating level using the touch controls, the remote control, or the SENCOR HOME app. This can control the heater even when you're away from home, meaning your room will be pleasantly warm even when you come home from work or a trip.

FEATURES

- **2000 W**
- **Controlled by the SENCOR HOME app, remote control, or the device buttons**
- **3 modes (ECO / Comfort / Antifrost)**
- Temperature setting from 5–50 °C
- Large LED display with dimming option
- 24-hour timer & weekly scenarios adjustable via phone
- Free-standing or wall-mounted
- IP24 protection
- Open window detection function
- Overheat and freeze protection
- Child lock
- Dimensions: 78 × 22.5 × 51.5 cm
- Weight: 6.7 kg

LESS
ELECTRICITY
MORE HEAT

HOT AIR FANS

SENCOR hot air fans are here to banish unpleasant cold in no time. Quick and safe heating is provided by the ceramic PTC elements, which work more efficiently than other heat sources, thus consuming less electricity. As with all hot air equipment, safety is key. This is guaranteed by the double overheating protection and the tip-over safety feature.

Depending on the fan, the temperature can be adjusted over a wide range from 10 to 35 °C, while the oscillation effectively disperses the warm air around the room. A timer is also available so you can schedule the fan to run when you need it. With hot air fans, it's important to consider how large the space is that they're suitable for. Our most powerful fans can heat rooms up to 24 m^2 (60 m^3), meaning you can use them at home or in the office. The latest models can be controlled from anywhere using Wi-Fi and the SENCOR HOME app.

WHY CHOOSE SENCOR HOT AIR FAN

- PTC elements consume less electricity
- Controlled via Wi-Fi and SENCOR HOME app
- Safe operation with protection against overheating and tipping
- Oscillation improves heat distribution around the room
- Adjustable temperature and timer for easy use

Heat Circulator with Wi-Fi

SFH 9200GY

With three heating settings (1050 W / 2000 W / ECO) and three speeds, you can adjust the performance of this heat circulator exactly as you need it. The innovative aerodynamic turbo design optimizes air circulation (≥ 600 m³/h). But that doesn't mean the device is noisy; on the contrary, its low noise level allows for continuous use.

To distribute warm air evenly throughout the room, the circulator has integrated 80° automatic horizontal and manual vertical oscillation. You can control it using the button display, remote control, or remotely via the SENCOR HOME app.

FEATURES

- **3 heating power settings: 1050 W / 2000 W / ECO**
- **3 speeds**
- **Aerodynamic turbo design for better air circulation**
- Display, buttons, and remote control
- Automatic display dimming
- 12-hour on/off timer
- 80° automatic horizontal and manual vertical oscillation
- Tilt-over safety switch
- Double overheating protection
- Airflow ≥600 m³/h
- Low noise
- Removable washable protective covers and fan blades
- Remote control
- SENCOR HOME app – control via Wi-Fi

Ceramic Heater with Wi-Fi

SFH 8994WH

Returning to a nice warm room on a cold day? With the SFH 8994WH, you can control its performance from virtually anywhere using your smartphone and the SENCOR HOME app. Use it to switch on the heater and set the desired temperature.

The appliance is very efficient, using PTC technology, where the heat is produced by ceramic cells. These are highly efficient compared to conventional heaters and feature lower electricity consumption for the same power. The two modes perfectly heat the desired space. There is also a fan function, so the device can be used in summer too.

FEATURES

- **3 modes: fan/1300/2200 W**
- **Controlled via Wi-Fi with the SENCOR HOME app**
- **Temperature setting range from 10–49 °C**
- PTC heating elements for efficient and safe heating
- Double overheating protection
- Tip-over safety lock
- Oscillation
- Timer: 1–12 hours
- Remote control
- Integrated handle and remote control compartment
- For rooms up to 24 m² (60 m³)

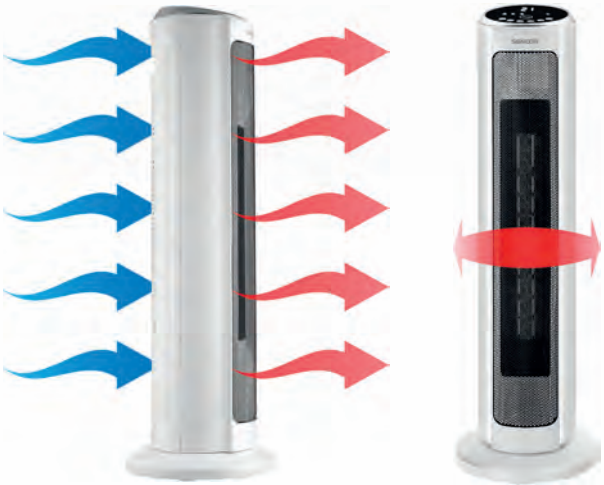

Ceramic Heater

SFH 8990BK

PTC technology uses ceramic cells, which are more efficient and consume less electricity compared to conventional cells. PTC also doesn't dry out the air or burn oxygen, which is better for your breathing. Optimal heating of the whole space is ensured not only by the two power modes but also by the option to switch to right-to-left oscillation.

Operating the heater is cost-effective: once the temperature reaches the desired value, the cells stop working, and only the fan blows the warm air around the room. When the temperature drops by 3 degrees, they start heating again. Safe operation is ensured by the double overheat protection and automatic shutdown in case of tipping.

FEATURES

- **3 modes: fan/1300/2200 W**
- **Temperature setting range from 10–35 °C**
- **PTC heating elements for efficient and safe heating**
- Double overheating protection
- Tip-over safety lock
- Oscillation
- Timer: 1–12 h
- Remote control
- Integrated handle and space for the remote control
- For rooms up to 24 m² (60 m³)

HEAT THAT **LASTS**

OIL RADIATORS

Oil radiators are useful wherever an additional heat source is needed. Not only can they warm up a room, but they can also maintain that heat for a long time. The temperature of the oil cools very slowly, so even after it's switched off, the radiator continues to provide pleasant warmth, saving both energy and money. The top models are connected to the SENCOR HOME app via Wi-Fi, so you can conveniently set the desired temperature remotely and arrive home to a warm room after work.

Thanks to the closed system with a heating element inside, operation is very safe with no risk of burns, which is especially appreciated by families with children. Another advantage of oil radiators is their completely silent operation – they don't use a fan, meaning they don't stir up dust or make any noise. This makes them ideal for bedrooms or workspaces. At the same time, they don't dry out the air, something warmly welcomed by all allergy sufferers and people with sensitive respiratory tracts. It offers maintenance-free operation, and the casters make it easy to handle, making oil radiators a practical choice to provide comfortable and reliable additional heating in small and medium-sized rooms.

WHY CHOOSE SENCOR OIL RADIATOR

- FLAT SHAPE heating elements effectively heat the space
- Powerful output of up to 2400 W
- Connected to the SENCOR HOME app
- Extremely quiet operation ideal for bedrooms and studying
- ECO mode optimises energy consumption
- Safe operation

Smart Oil-filled Radiator

SOH 8213GY / SOH 8211GY

Want fast heat without unnecessary noise? A smart oil-filled radiator can help. Two versions are available: SOH 8211GY with eleven heating elements and SOH 8213GY with thirteen elements. You can choose the model that suits you in terms of size and performance. The digital panel allows you to conveniently set the mode and target temperature in the range of 5 to 35 °C.

When the heater is not at hand, it can be controlled via the SENCOR HOME app on your phone. The large, clear display shows everything you need to know and turns off within 20 seconds of the last operation so as not to disturb you. FLAT SHAPE fins heat up to maximum power in no time, and the oil filling then maintains the heat for a long time. There are always three power levels available and an ECO mode that combines them to achieve the desired temperature while optimizing consumption.

FEATURES

- **SOH 8211GY: 11 elements, 2400 W, 1000 W / 1200 W / 2400 W modes and ECO mode**
- **SOH 8213GY: 13 elements, 2730 W, modes 1000 W / 1500 W / 2730 W / ECO**
- **FLAT SHAPE rib design for faster heating, better heat transfer to the room and greater safety**
- Maintenance-free and silent operation
- Safety features against overheating, tipping over, freezing, with open window detection function
- Digital control panel and control from the SENCOR HOME app for iOS and Android
- Set the desired temperature in the range of 5 to 35 °C
- Naturally retains heat long after switching off
- The oil filling in the radiator lasts for the entire lifetime of the device

Digital Oil-filled Radiator

SOH 6313BK / SOH 6311BK / SOH 6213WH / SOH 6211WH

A cold cottage or workshop, an inadequately heated bedroom or office. Wherever conventional heating is not enough, the SENCOR digital oil-filled radiator in white or black will help. With 11 or 13 heating fins (depending on the model) and a power output of up to 2300 W, it provides fast and efficient heating for rooms measuring 16–23 m². The innovative FLAT SHAPE fin design increases the heating surface and improves heat distribution. This means that the heated room and you will warm up faster. Thanks to its high storage capacity, the radiator naturally retains heat long after it has been switched off.

A power input of 2300 W (for 11 fins) or 2500 W (for 13 fins) and 3 modes (Low, High, and ECO) allow flexible temperature control in the range of 5–35 °C. Thanks to the digital control panel and remote control, you can set the desired temperature quickly and easily. The built-in 24-hour timer ensures automatic switching on and off according to your needs. The device is equipped with double overheating protection, a safety lock in case of tipping over, and an anti-freeze function. You can leave it in an unheated cottage over the winter without any worries.

FEATURES

- **High heat accumulation capacity**
- **11 or 13 FLAT SHAPE heating elements for faster heating and heat transfer**
- **Power consumption 2300 W (with 11 fins) or 2500 W (with 13 fins)**
- White and black color options
- The oil filling in the radiator lasts for the entire lifetime of the device
- Temperature range: 5–35 °C
- Digital control panel and remote control
- Easy to move on casters or with handles
- Tilting holder for safe storage of the power cord
- Double protection against overheating, safety lock in case of tipping, freeze protection

Electric Oil-filled Radiator

SOH 3513-11-09-07BK
SOH 3413-11-09-07WH

Radiators from this series are maintenance-free and completely silent, which you will appreciate especially in your bedroom or study. You can choose from models with different numbers of fins in two color options: elegant black or classic white. As the number of fins increases (7, 9, 11, or 13), so does the maximum power, with the most powerful option (2500 W) capable of heating even a medium-sized room.

Everything can be conveniently adjusted using rotary selectors, with each model offering three different power levels. Thanks to their high storage capacity, the radiators can retain heat long after being switched off. The modern design of the FLAT SHAPE heating elements ensures faster heat-up, better heat distribution, and safer operation. The oil does not need to be changed during the entire service life. Practical wheels and handles make it easy to move, and a flip-up holder on the front panel allows for convenient and safe storage of the power cord. Our oil-filled radiators are equipped with triple safety protection – against overheating, tipping over, and freezing.

FEATURES

- **Maintenance-free and silent operation**
- **Safety features against overheating, tipping over, and freezing**
- **Simple control with two classic rotary controls**
- 7, 9, 11, and 13 heating elements, power consumption 1500 W, 2000 W, 2300 W, and 2500 W
- Three power levels
- High heat storage capacity, retains heat naturally for a long time after switching off
- Improved FLAT SHAPE heating fin design with faster warm-up and better heat transfer
- The radiator's oil filling lasts for the entire lifetime of the device
- Easy to move on legs with wheels or using 2 handles
- Tilting holder for safe storage of the power cord

PLEASANT TEMPERATURES **ALL YEAR ROUND**

MOBILE AIR-CONDITIONERS

With mobile air conditioners, there's no need to worry about the summer heatwave as they ensure a comfortable and cool environment wherever you are. At home or in the office, simply set the ideal temperature. Our advanced units can also be controlled via Wi-Fi and our mobile app, giving you full control even remotely. You can use the remote control on-site as well.

The new generation of devices provides cooling, ventilation, and dehumidification to keep you feeling your best. The powerful output of up to 16000 BTU/h will quickly and efficiently cool any room, while also serving as a dehumidifier. Electricity consumption is an important fact to consider. Our most efficient mobile air conditioner boasts an A++ energy rating for cooling and A+++ for heating. This makes the operation truly economical for this category.

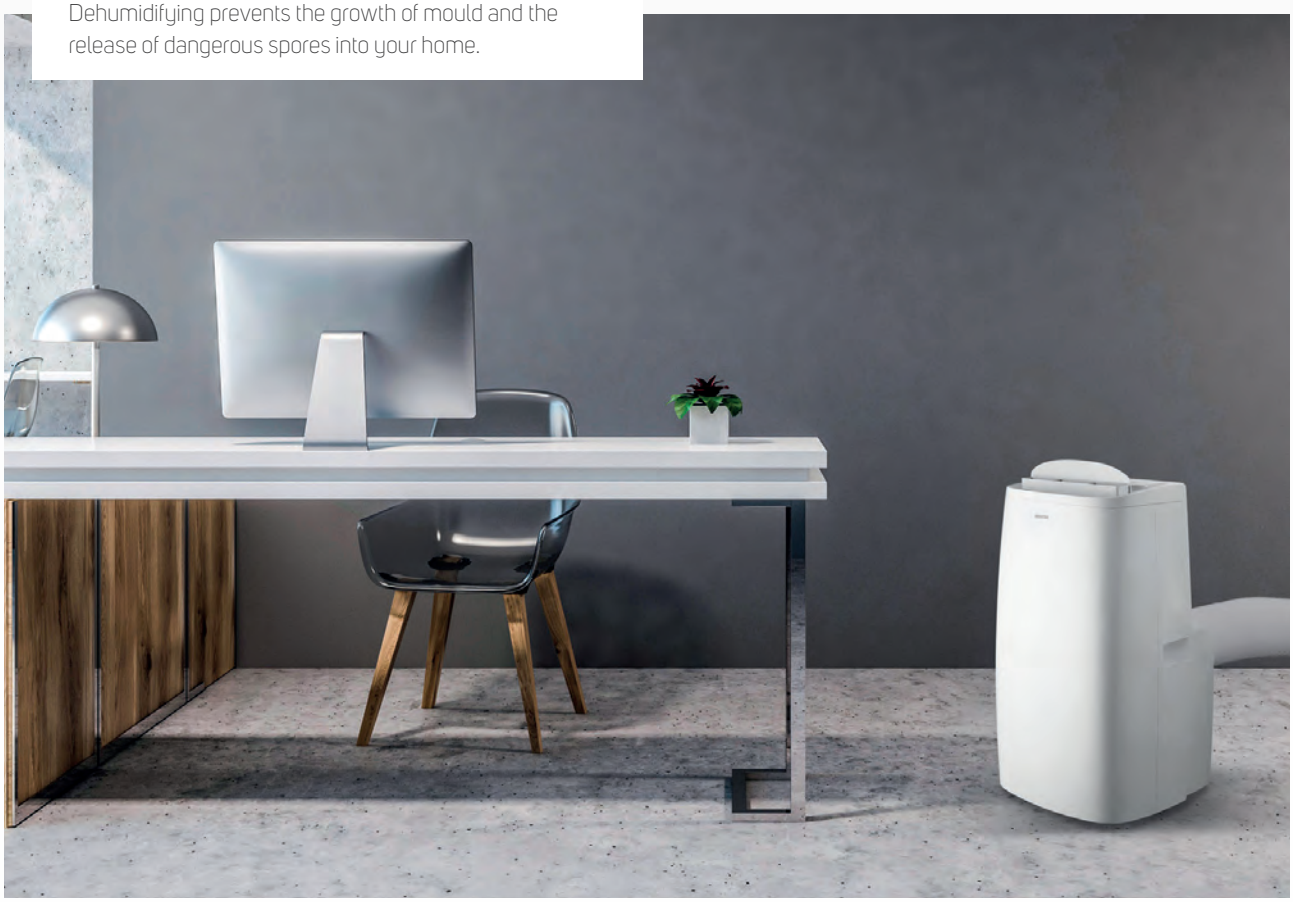

WHY CHOOSE SENCOR MOBILE AIR CONDITIONER

- Cooling, ventilation, and dehumidification in a single unit
- Energy-saving operation: energy class A++ for cooling and A+++ for heating
- Easy-to-use applications, SENCOR HOME or remote control
- Powerful cooling performance of up to 16000 BTU/h
- Easy to move from room to room
- All models with complete set for hot air extraction and window sealing

COOL IN SUMMER, WARM IN WINTER

Modern mobile air conditioners are useful all year round. They cool in the summer, heat in the winter, and whenever needed, they collect excess moisture from the air. They not only take care of your thermal needs but also your health. Dehumidifying prevents the growth of mould and the release of dangerous spores into your home.

AT HOME AND IN THE OFFICE

Iceberg AllSeasons Mobile Air Conditioner

SAC MT1803CH

The best in its category, meeting the expectations of even the most demanding users. That's the SENCOR SAC MT1803CH Iceberg AllSeasons mobile air conditioner. It offers a cooling capacity of 18000 BTU/h, quickly and efficiently ensuring a comfortable temperature whether you're sleeping or working (temp. range: 17 to 30 °C). The economical inverter motor can handle rooms up to 202 m³, and you can set the fan speed from a gentle or medium breeze to a strong airflow. Alongside efficient cooling, it can also heat economically, with a heating capacity of 17000 BTU/h, and dehumidify. In short, it can be used all year round, as situations require.

You will always be able to control the device, whether you're in the next room or on your way home. Thanks to the integrated Wi-Fi and SENCOR HOME app, it can be easily controlled from your smartphone (iOS and Android). You can also see which programme is currently running, how many degrees it is in the room, and what the desired final temperature is from anywhere. You can easily set the timer and weekly schedule.

FEATURES

- **Cooling capacity 18000 BTU/h, heating capacity 17000 BTU/h**
- **Recommended room area: 78 m², room size: 202 m³**
- **Inverter motor for more economical and efficient operation**
- 4 operating modes (cooling, heating, dehumidification, ventilation) and 3 speeds
- Temperature range: 17–30 °C in both cooling and heating modes
- Complete accessories for removing warm air from the air-conditioned room
- Control via Wi-Fi with the SENCOR HOME app, remote control, and touchscreen display
- Timer function and sleep mode for more economical operation
- Easy-to-clean air filter

Iceberg Mobile Air Conditioner Wi-Fi

SAC MT1603C

Being one of our most powerful, the SAC MT1603C Wi-Fi Iceberg mobile air conditioner will never have you feeling hot. It cools and improves air quality at home and in the offices with an area of up to 68 m²/177 m³. You can conveniently control it via Wi-Fi and the SENCOR HOME app, setting a comfortable climate remotely from anywhere or on the display panel. The night programme ensures a restful sleep, with the unit reducing the speed and dimming the brightness so as not to disturb you.

A complete sealing set is also included. Being attached by Velcro to the window and frame, the window remains fully functional. A drain hose is then inserted into the gap, which releases the excess heat from the air conditioner.

FEATURES

- **3 modes: cooling, ventilation, dehumidification**
- **Wi-Fi controls via the SENCOR HOME mobile app**
- **Cooling capacity of 16000 BTU/h**
- Remote control with LCD display
- 3 speed levels: low, medium, high
- Dehumidification capacity: 50 l/day
- Recommended room size: 68 m²/177 m³
- Adjustable temperature range from 17–30 °C
- Timer: 1–24 h
- Sleep function for quieter and more economical operation during the night
- Easy-to-clean air filter
- 1L integrated condensate tray
- Complete warm air extraction and window sealing set
- Integrated handle and 4 castor wheels for easy moving

AllSeasons Mobile Air Conditioner Wi-Fi

SAC MT1238CH

SENCOR HOME

COOL | HEAT

This powerful and practical air conditioner offers everything you need for comfortable and economical operation. The complete accessories for air extraction and window sealing are included in the package, so you can easily set it up yourself without the assistance of a professional. It stands out among its competitors with an A++ energy class and a cooling capacity of 12000 BTU/h, providing spaces with a comfortable environment in rooms up to 47 m^2 (122 m^3 with a ceiling height of 2.6 metres).

The four operating modes, three speeds, and many useful functions ensure optimum cooling or heating of your home, office, or cottage. These can be set by remote access, as the air conditioner communicates with the SENCOR HOME app, allowing you to control the currently running program, the target temperature, and the current room temperature. Easily adjust the timer or the weekly schedule. Notifications alert you to important events. You can also share it with other family members without any issues. Other useful features include a timer, SLEEP, or AUTO SWING.

FEATURES

- **A++ cooling class with 12000 BTU/h, A++ heating class with 11000 BTU/h**
- **Maximum room size of 47 m^2/122 m^3 (ceiling height of 2.6 m)**
- **4 operating modes (cooling, dehumidification, fan, and heating)**
- Three fan speeds: low, medium, and high
- 3 control options: panel, remote controller with LCD display, and SENCOR HOME app
- The air conditioner works with the environmentally-friendly R290 refrigerant
- The air filter eliminates mechanical impurities and extends the life of the air conditioner
- Temperature setting range of 17–30 °C in both cooling and heating modes
- Easy to install, with everything included (window, slide-out window, and wall installation options)
- The control panel with an LED display shows the temperature, mode, timer, Wi-Fi connection, condensate tank status, and more

Mobile Air Conditioner Wi-Fi

SAC MT1240C / SAC MT1241C

Say goodbye to the uncomfortable heat. The SAC MT1240C Mobile Air Conditioner will keep your place cool while impressing you with its design that blends in with any home and office interior. The air conditioner is easy to move wherever needed, using the handle and four integrated wheels. The cooling capacity of 12000 BTU will ensure the space is comfortable in any room up to 47 m^2/122 m^3. And you won't have to worry about high energy bills because this air conditioner comes with a Class A energy rating.

It works in three modes: cooling, dehumidification, and ventilation in several stages from low to the most powerful. The room temperature ranges from 17 to 30 °C and the dehumidification mode ensures light and fresh air at all times. In addition to the classic methods (remote controller and panel controls), the air conditioner can also be controlled via smartphones with the SENCOR HOME app. The device is made easy to use thanks to features such as the timer, self-evaporating condensate, SLEEP, SHORTCUT, FOLLOW ME, and automatic mode, which adjusts the intensity of the cool air itself according to the selected temperature, ensuring efficient and economical operation.

ACCESSORIES

REMOTE CONTROL, WINDOW AND DOOR SEALING SET: FABRIC BARRIER WITH A ZIPPER, A ROLL OF SELF-ADHESIVE VELCRO, PLASTIC WINDOW KIT FOR SLIDING AND ROOF WINDOWS FLEXIBLE HOSE WITH ADAPTERS, GASKET

FEATURES

- **Great cooling capacity of 12000 BTU/hour using natural, high-efficiency R290 gas**
- **Can be controlled over Wi-Fi using the SENCOR HOME app and the LCD remote controller**
- **Maximum room size: 47 m²/122 m³ (ceiling height of 2.6 m)**
- 3 operating modes: cooling, dehumidification (84 l/day), separate fan
- 4 fan speed settings: low, medium, high, automatic
- Class A energy rating (lowest energy consumption), temperature range of 17-30 °C
- Washable air filter (eliminates swirling dust and filters mechanical impurities)
- The air conditioner is easy to install and you can do it yourself in the comfort of your home
- The control panel with an LED display shows the set temperature and selected mode
- Automatic mode selects the optimum operation according to the set temperature
- SLEEP mode ensures quiet operation during sleep/rest periods and prevents hypothermia
- On/off timer setting after 30 minutes or 1 hour
- SHORTCUT function and automatic setting to the last selected mode upon restart
- Allows for easy handling with 4 integrated wheels and a carrying handle
- Self-evaporating function; no need to pour out condensate under normal conditions
- Built-in condensate tank (1-litre capacity) with a drainage outlet and visual indication when full

AllSeasons Mobile Air Conditioner Wi-Fi

SAC MT9079CH/ SAC MT9078CH

SENCOR HOME

COOL | HEAT

The SAC MT9079CH Wi-Fi AllSeasons Mobile Air Conditioner will keep you comfortable all year round. In summer, it refreshes with minimal energy consumption, as it handles cooling in the A++ energy class. The 9000 BTU/h output helps achieve the desired temperature (18 to 32 °C) in rooms up to 35 m^2. And when you just want to get the air moving, there's a fan mode that can be easily set to blow gently, at a medium breeze, or with full power.

In winter, it delivers almost 4 watts of heat for every 1 watt of electricity (COP 3.8) with A+++ efficiency. The desired temperature can be set between 13 and 27 °C. The SMART mode maintains a comfortable climate between 20 and 23 °C, deciding whether to heat or cool. In the dehumidification mode, the SAC MT9079CH can remove up to 14 litres of water from the air, easily replacing even specialised devices. Of course, it's environmentally friendly (eco-friendly R290 refrigerant), easy to install, and controlled via the SENCOR HOME mobile app.

ACCESSORIES

REMOTE CONTROL, WINDOW AND DOOR SEALING KIT: TEXTILE BARRIER WITH A ZIPPER, A ROLL OF SELF-ADHESIVE VELCRO, PLASTIC WINDOW SET FOR SLIDING AND ROOF WINDOWS, FLEXIBLE EXHAUST HOSE WITH ADAPTERS, GASKET, DRAIN HOSE

Energy class

COOLING **A++** | HEATING **A+++**

FEATURES

- **Cooling capacity of 9000 BTU/h, heating capacity of 8000 BTU/h**
- **Max. room size: 35 m²/91 m³ (ceiling height of 2.6 m)**
- 5 operating modes: cooling, dehumidification (14.4 l/day), separate fan, heating, and smart
- 4 fan setting levels: high, medium, low, automatic
- SLEEP mode ensures quiet operation during sleep/rest and prevents hypothermia
- Extensive accessories to flawlessly extract warm air from the conditioned room
- The air conditioner uses the high-efficiency, environmentally-friendly R290 refrigerant
- Remote controller with LCD display, the SENCOR HOME app, or using the LED display panel
- The easy-to-clean air filters eliminate swirling dust and extend the life of the air conditioner
- Temperature setting range: 18–32 °C in cooling mode and 13–27 °C in heating mode
- Installing the air conditioner is easy and can be done by yourself in the comfort of your home
- Easy handling thanks to the 4 integrated castors and handle
- Built-in condensate tank (1.2-litre volume) with a drainage outlet and visual indication when full

Mobile Air Conditioner Wi-Fi

SAC MT9040C STRONGPACK

This Mobile Air Conditioner elegantly combines performance with a compact design. The Dual Motor technology ensures less noise and higher efficiency than cheaper, single-motor units. It has an output of 9000 BTU/h and a Class A energy efficiency. This makes it easy and cost-effective to cool your office, room, or even a bedroom of up to 35 m^2.

The unit can be controlled in three ways: on the display panel, with the classic remote controller, or on your smartphone with the SENCOR HOME app. Using the app and your home Wi-Fi network, you can set up the air conditioning from anywhere, meaning you can make your home comfortable even before you arrive from work. There's also a dehumidify and fan mode. The air conditioner is easy to install and comes with a complete window assembly for hot air extraction.

ACCESSORIES

REMOTE CONTROL, WINDOW AND DOOR SEALING KIT: TEXTILE BARRIER WITH A ZIPPER, A ROLL OF SELF-ADHESIVE VELCRO, PLASTIC WINDOW SET FOR SLIDING AND ROOF WINDOWS, FLEXIBLE EXHAUST HOSE WITH ADAPTERS, GASKET, DRAIN HOSE

FEATURES

- **Compact and space-saving construction to hide the efficient performance of the Dual Motor design**
- **Cooling capacity of 9000 BTU/h for spaces up to 35 m²/91 m³**
- **Smartphone controllable via the app**
- Compatible with the SENCOR HOME app, control from anywhere with internet
- Complete window assembly for hot air extraction
- Adjustable temperature from 18 to 32 °C, dehumidify and fan mode
- Quiet operation, only 50 dB(A) in low mode
- Timer and Sleep function for comfortable use
- UV-C lamp reduces the concentration of viruses and bacteria in the cooled room
- Elegant and easy-to-read LED display
- The air filter eliminates dust swirling and filters out mechanical contaminants

Mobile Wi-Fi Air Conditioner

SAC MT1048C

It's impossible to concentrate in an overheated room, and sleep is out of reach in a hot bedroom. With the SENCOR SAC MT1048C Wi-Fi mobile air conditioner, you can avoid such inconveniences. Its cooling capacity of 10000 BTU/h ensures a pleasant environment in rooms up to 99 m³. The device has three main functions – in addition to cooling (temperature range: 17 °C to 30 °C), it also dehumidifies and ventilates.

The dehumidification mode helps rid excess moisture (it can handle up to 32 litres per day), while the ventilation mode can be used when it's not so hot outside. All this with an A-rated energy class. It's easy to control, either using the SENCOR HOME app, the remote control, or the touchscreen display. The LED panel displays the current mode, temperature, speed, and timer. In SLEEP mode, operation is quiet and economical, with the device gradually adjusting the temperature, reducing the brightness of the display, and slowing down the fan speed to make it as quiet as possible and prevent the room from becoming too cold. This contributes to a comfortable and undisturbed sleep experience. As for installation, the included fabric sleeve acts as a seal for windows and balcony doors.

FEATURES

- **Powerful cooling (10000 BTU/h)**
- **3 operating modes (cooling, ventilation, dehumidification) and 2 speeds**
- **Temperature setting range: 17–30 °C**
- Recommended room area: 34–39 m², room size: 88–99 m³
- Control via Wi-Fi with the SENCOR HOME app, remote control, and touchscreen display
- 24-hour timer with delayed start and shut-off options
- Night mode for energy saving and quieter operation at night
- Airflow volume: 320/240 m³/h (high/low speed)

Mobile Wi-Fi Air Conditioner

SAC MT8048C

If you suffer from sweltering heat at home in the summer, the SENCOR SAC MT8048C Wi-Fi mobile air conditioner is the solution. With an output of 8000 BTU/h, this model can cool a living room, bedroom, or even a small office up to 31 m². It comes with 3 available programmes (cooling, dehumidification, and ventilation).

Thanks to the integrated Wi-Fi, it can be controlled from anywhere using the SENCOR HOME app. All you need is a smartphone and an internet connection, and your home will be comfortable as soon as you open the door. The app allows you to set the temperature, change modes, and set the on/off timer up to 24 hours in advance. You can also adjust the operation of the mobile air conditioner using the remote control or directly on its panel. The LED display always shows the current selections.

FEATURES

- **Cooling capacity: 8000 BTU/h**
- **3 operating modes (cooling, ventilation, dehumidification) and 2 speeds**
- **Dehumidification removes up to 24 litres of water per day**
- Temperature settings range: 17–30 °C
- Recommended room area: 25–31 m², room size: 65–81 m³
- Control via Wi-Fi with the SENCOR HOME app, remote control, and touchscreen display
- 24-hour timer with delayed start and shut-off options
- Night sleep mode for energy savings and quieter operation at night
- Sealing kit for efficient warm air exhaust included
- Four wheels and an integrated handle for easy handling

Mobile Wi-Fi Air Conditioner

SAC MT7048C

The SENCOR SAC MT7048C mobile air conditioner can be used both during hot summer days and to combat humidity. Its 7000 BTU/h output is ideal for rooms up to 26 m² (54–67 m³). It comes with three modes to choose from: cooling (17–30 °C), ventilation, and dehumidification. The timer turns the device off after a set time, while the Sleep function ensures quieter and more economical operation to ensure your sleep remains undisturbed during the night.

With its Wi-Fi connectivity, you can conveniently control the device remotely via the SENCOR HOME app, adjusting the temperature and humidity to your liking on your way home from work, ensuring a pleasant climate is waiting for you at home. Of course, it also features a control panel and remote control. The fabric sleeve included in the package can be used during installation, allowing you to Velcro it to the window and its frame, while the window remains fully functional. The drain hose removes excess heat from the air conditioner and also protects against annoying summer insects. And the sleeve can be used on skylights, casements, and tilt windows, and is also suitable for balcony doors.

FEATURES

- **Cooling capacity: 7000 BTU/h**
- **Dehumidification capacity: 20 l/day**
- **3 modes: cooling, ventilation, dehumidification**
- Wi-Fi control via the SENCOR HOME mobile app
- Air flow volume: 300/220 m³/h
- Recommended for rooms with an area of 21–26 m²
- Recommended room size: 54–67 m³
- Adjustable temperature range: 17–30 °C
- 2 speed levels: high and low
- Remote control
- Timer range: 1-24 hours
- Sleep mode for quieter and more economical operation at night
- Delayed start/automatic shut-off
- 0.7 l integrated condensate tank with drain and fill indicator
- Complete kit for warm air exhaust and window sealing
- 0.125 kg of environmentally friendly R290 refrigerant with no greenhouse gas emissions

ACCESSORIES

REMOTE CONTROL, SEALING KIT FOR WINDOWS AND DOORS, FABRIC BARRIER WITH ZIPPER, SELF-ADHESIVE VELCRO DISC, PLASTIC WINDOW KIT FOR SLIDING AND ROOF WINDOWS, FLEXIBLE HOSE WITH ADAPTERS, SEALS

GUARDIANS OF FRESH AIR

TOWER FANS

They are elegant, powerful, and smart. Tower fans blend in with any room and don't draw attention to themselves, yet they're there for you when you need them. Choose from three speeds, various pre-set programmes, and sideways oscillation.

And you don't have to worry about getting up for every adjustment; selected models have a remote controller, while the most advanced ones even communicate with the SENCOR HOME app, so you can do everything from the screen on your mobile phone. And to make things even more convenient, the fans work silently and fill themselves thanks to a timer. With their help, you can fall asleep contentedly even on the hottest summer days.

And if you prefer a fan with the bladeless solution, we have several models for you. Thanks to their special design, these devices are especially in demand where small children are around.

WHY CHOOSE SENCOR TOWER FAN

- Elegant design for every interior
- Select models communicate via Wi-Fi with the SENCOR HOME app
- Choice of different speeds, programmes, and oscillations
- Enough power to cool you off even during the hottest of days
- A bladeless solution for all households, including those with children

THE BLADE-FREE

The bladeless design is appreciated by anyone looking for the safest solution. Such appliances can be used any busy space, especially around families with young children. Because this type of fan is safe even for fussy, little hands.

FOR ULTIMATE SAFETY

Tower Fan Wi-Fi SmartBreeze

SFT 4207BK

The SENCOR SFT 4207BK fan will become a welcome helper on hot days. It offers 3 speeds and 4 preset programmes. All this can be combined with horizontal oscillation and a vertical tilt at two angles. This allows you to adapt the airflow perfectly to what you need.

It delights with its quiet operation; its maximum noise level is 58 dB, so it won't disturb you even at night. It also has a 1-12 hour timer. After the set time has elapsed, the device automatically switches off. You can control it using Wi-Fi via the SENCOR HOME app, the remote controls, or the touchpad. The LED display on the front of the fan informs you of the current room temperature.

FEATURES

- **Wi-Fi control via the SENCOR HOME app**
- **Horizontal oscillation**
- **2 degrees of vertical tilt**
- 3 speeds (low, medium, high)
- 4 modes (normal, natural, sleep, child)
- Timer function: 1–12 hours
- Touch control
- Remote controls
- LED-backlit display with temperature indicator

Tower Fan

SFT 3800BK

The SENCOR SFT 3800BK tower fan provides a pleasantly fresh breeze during hot summer days, and its elegant appearance will also fit perfectly into any interior.

It offers 4 operating modes, 3 speeds, and horizontal oscillation to intensify that fresh feeling. You can rely on its quiet operation and easy set-up with the touch panel or remote controls. There's also a 12-hour timer with an automatic shut-off function.

FEATURES

- **Size: 96 cm**
- **Wattage: 45 W**
- **4 modes: normal/natural/sleep/falling asleep**
- 3 operating speeds: low/medium/high
- Horizontal oscillation
- Touch control panel
- Remote control
- 12-hour timer
- Hook for hanging the power cord
- AC motor with copper winding
- Max. air flow: 34.95 m³/min
- Max. air flow level: 2.55 m/s
- Max. noise level: 54.4 dB(A)

Tower Fan

SFT 3113BK

○ SFT 3112WH ● SFT 3113BK

Three airflow speeds to cool you down on hot days.

Set the power, rotation, and timer using the remote control or directly on the touch panel on the unit itself. The 50 W power output gives this tower fan enough power to keep you feeling good during even the hottest summer days.

FEATURES

- **3 speeds (low/medium/high)**
- **Horizontal oscillation**
- **Touch panel**
- Remote controls
- Timer
- Max. air flow: 7.38 m³/min
- Max. flow rate: 0.68 m/s
- Max. noise level: 56.1 dB
- Power consumption: 50 W
- Motor: aluminium

Tower Fan

SFT 3107WH

○ **SFT 3107WH** ● **SFT 3108BK**

On hot summer days, you will be pleasantly refreshed by this tower fan.

The airflow speed can be adjusted in three different stages depending on what the situation requires. Horizontal oscillation ensures optimum air distribution. Everything is easily adjusted with the classic rotary dial.

FEATURES

- **3 speeds (low/medium/high)**
- **Horizontal oscillation**
- **Manual rotary dial**
- Max. air flow: 7.38 m³/min
- Max. flow velocity: 0.68 m/s
- Max. noise level: 56.1 dB
- Power consumption: 50 W
- Motor: aluminium

Bladeless Fan

SFT 3703WH

This elegant, 95 cm tall, bladeless column fan cools you down and creates a pleasant atmosphere. The airflow can be adjusted in three speeds and three operating modes, which can be supplemented by horizontal oscillation.

Everything is conveniently controlled via the touch control panel on the fan head or the remote controller. A large display below the air outlet shows information on the selected mode, speed, and the current room temperature. To avoid any disturbance and unwanted light pollution, the display switches off after a while. The coloured backlight then enhances the environment of a relaxing evening.

FEATURES

- **Elegant design, 37”/95 cm tall**
- **3 speeds and 3 modes, 50° horizontal oscillation**
- **3 coloured backlight options**
- Touch control with LED indicators
- 15-hour timer
- Remote control

Bladeless Fan

SFT 2404WH

This bladeless fan combines functionality with intuitive touch controls and elegant design.

It operates at three speeds and three operating modes, complemented by a 15-hour timer and a remote controller. 50° horizontal oscillation is also available. And because every piece that spins or rotates is hidden inside, it's very safe even around children.

FEATURES

- **Size 24" / 62 cm**
- **3 speeds, 3 modes, 50° horizontal oscillation**
- **Touch controls with LED indicators**
- 15h timer
- Remote controller
- Max. fan flow: 1 m^3/min
- Max. air velocity: 4.3 m/s
- Max. noise level: 55 dB(A)
- Power: 50 W

Bladeless Fan

SFT 2403WH

This basic model is ideal if you want a discreet fan that looks good and works quietly. With no need to study the instructions, you can easily set the classic rotary dial to the desired mode and you're already done. Parents of young children will be pleased to know that the fan is as safe as possible, even for little hands, thanks to its bladeless design.

It operates in three speeds and three operating modes, complemented by a 15-hour timer and remote control. And because everything that spins and rotates is hidden inside, it's very safe even around children.

FEATURES

- **Size 24" / 62 cm and power consumption of 50 W**
- **3 speeds and horizontal rotation to meet your needs**
- **Easy to operate with the classic rotary dial**
- Spindle-free solution for safe use within reach of children
- Horizontal oscillation of 50°
- Max. fan flow: 1 m^3/min
- Max. air speed: 4.3 m/s
- Max. noise level: 55 dB(A)

THE MOST DIRECT **WAY** TO A REFRESHING **BREEZE**

PEDESTAL FANS

Whether you fancy modern design or prefer a classic look, you'll surely find what you're looking for amongst SENCOR pedestal fans. The most modern fans do more than just provide a fresh breeze.

The latest models offer up to four operating modes, three different speeds, and horizontal oscillation, which intensifies that fresh feeling. And of course, the fan is quiet, meaning you won't be disturbed while working or relaxing. All these devices feature a touch panel control, remote control, as well as a 12-hour timer with an automatic shut-off function. Because even a simple device can deliver superior comfort.

WHY CHOOSE SENCOR PEDESTAL FAN

- Modern and classic design
- Remote control and touch display for easy operation
- Up to four operating modes for each situation
- Three speeds and horizontal oscillation
- Quiet operation does not disturb when working or resting
- Timer and automatic shutdown for your added convenience

STRONG DURING THE DAY

Our pedestal fans use up to four different operating modes and three speeds, offering the right option for every situation. During the day, you'll appreciate the powerful performance that keeps you refreshed, while at night, the quiet operation will let you sleep undisturbed.

QUIET AT NIGHT

Pedestal Fan 3D UltraSilent 12

SFN 3040BK

Whether you control this fan using the base panel, the remote control, or conveniently from the SENCOR HOME app, you'll always feel fully refreshed.

The nine 30 cm diameter blades create an airflow of up to 6.5 m/s, and the fan head can automatically move up to 90° in both both horizontally and vertically. This distributes fresh air evenly throughout the room. And because this is an UltraSilent model, you can count on minimal noise.

FEATURES

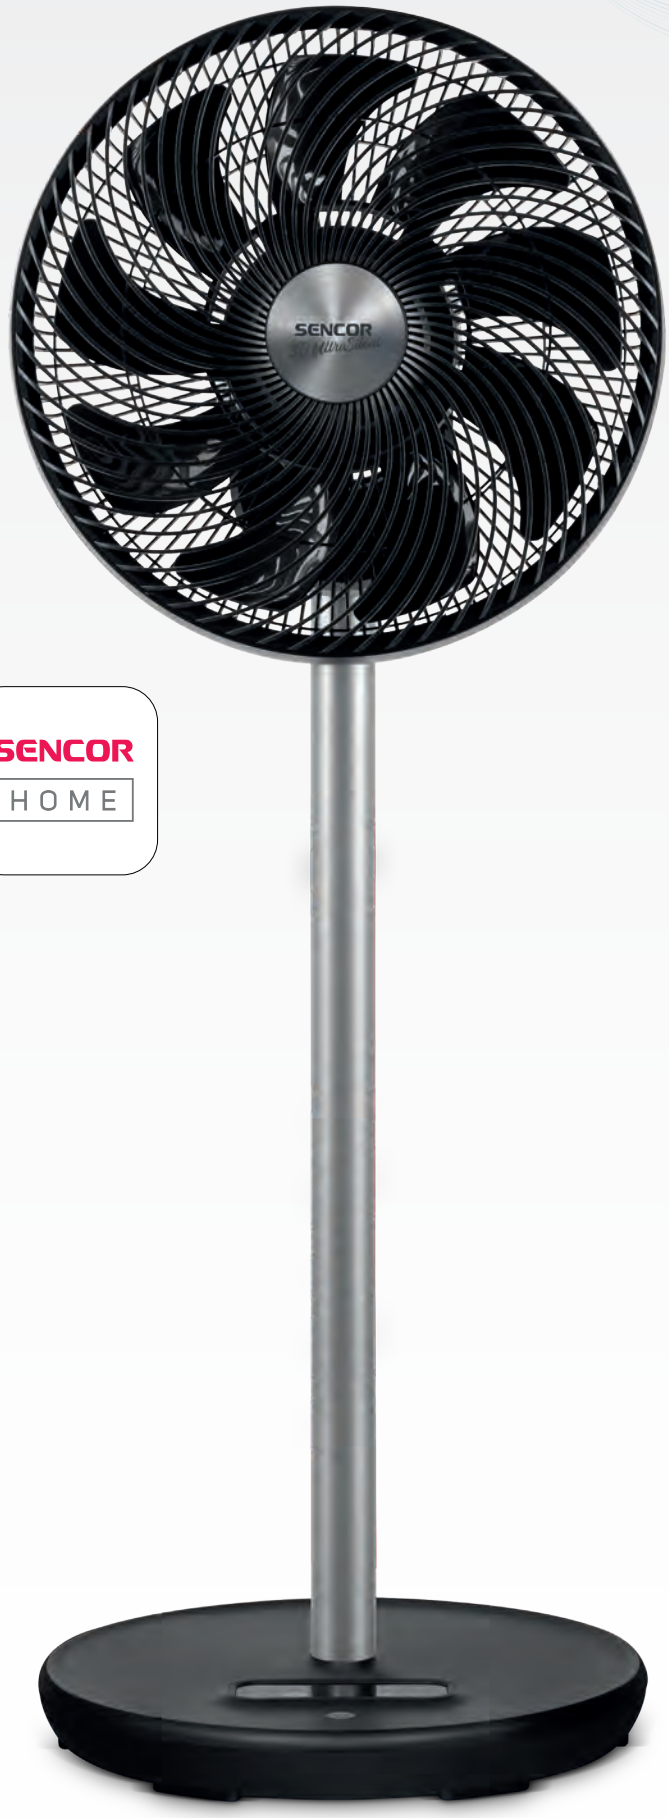

- **Very quiet BLDC motor, 8 speeds with a volume range of 31 to 48 dB**
- **90° horizontal and vertical, automatic 3D oscillation**
- **4 operating modes (NORMAL, TURBO, NATURAL, SMART ECO)**
- Timer with settings up to 12 hours
- Controlled using the SENCOR HOME app (iOS & Android) or the remote controller
- 9 blades and a 30 cm diameter, removable front cover for easy cleaning
- Room thermometer
- Flow speed of up to 6.5 m/s

Pedestal Fan 3D UltraSilent

SFN 2540WH

A truly fresh feeling without the fuss, that's exactly what the 3D UltraSilent pedestal fan gives you. The extremely quiet and reliable BLDC motor ensures a flow speed of up to 8 m/s, but you can also choose from twelve different speeds.

Even when the fan is switched off, the display shows the ambient temperature. You can check whether it's time to turn it on with a glance, either directly on the base or via the remote controller. The airflow is fully customisable to your needs, with 12 speeds, 3 oscillation angle settings (30°, 60°, 90°) in each direction, and 3 operating modes (NORMAL, SMART, NATURAL).

FEATURES

- **Extremely quiet and reliable BLDC motor**
- **Removable front cover for easy cleaning**
- **12 speeds and 3 operating modes (NORMAL, NATURAL, SMART)**
- Flow speed of up to 8 m/s
- Timer with a 1-8 hour setting
- Controls on the base or via the remote controller
- Room thermometer
- Automatic horizontal and vertical oscillation at 30° / 60° / 90°

Stand Mist Fan

SFN 1054BK

If an ordinary fan isn't enough, then there's the SFN 1054BK. Alongside its standard air fanning, it also gives you a water mist and even protects you from pesky mosquitoes.

The five-blade propeller with a respectable diameter of 40 centimetres ensures good airflow. The device has an integrated mosquito-repellent drawer, an aroma box, and an ioniser. Excellent misting duration is ensured by the 3.1-litre water tank with a level indicator and cooling insert.

FEATURES

- **5-blade propeller, basket Ø 40 cm / 16"**
- **Water mist atomiser with 3 levels**
- **Extra features: compartment for mosquito repellent, aroma box, and ioniser**
- Temperature display, touch panel, and remote controller
- 75° of oscillation
- 12-hour timer
- 3.1-litre water tank with level indicator and cooling insert

WATER TANK 3.1 L
WITH WATER INDICATOR
& ICE BOX

MOSQUITO REPELENT
DRAWER

Air Cooler

SFN 9014SL

The SFN 9014SL air cooler builds on its predecessor's success, meaning it also stands out with its unmistakable yet elegant design. It offers three functions in one. It helps as a powerful cooler, a fan, and, thanks to the 5.5-litre water tank, as a humidifier too.

The cooler makes you feel refreshed as you choose from three modes and three airflow speeds. NORMAL mode lightly blows air at the speed you choose, while NATURAL mode simulates a natural breeze, and the speeds are continuously alternated. For a refreshing night's rest, SLEEP mode is best perfect as it gradually reduces the speed until s witched off. And for even greater comfort, use the remote controller and timer for up to 9 hours.

FEATURES

- **3 modes: NORMAL, NATURAL BREEZE, SLEEP**
- **3 speeds: high / medium / low**
- **Can lower the temperature by up to 6 degrees**
- Touch control panel and remote controller
- 5.5l water tank with level indicator
- 2 cooling inserts
- Removable and cleanable cooling honeycomb filter and dust filter
- Integrated handle and 4 castors for easy handling
- Timer
- Noise levels of ≤50 dB at low speed and ≤57 dB at high speed
- Wind speed: 6–10 m/s
- Powerful airflow up to 432 m^3/h
- For spaces up to 50 m^2
- Cooling power: 110 W

Smart Column Air Cooler

SFN 9025WH

The SFN 9025WH does the work of three devices, serving as a cooler, humidifier, and classic fan. With a powerful 60W motor, it gives you summer refreshment with 3 modes and 3 airflow speeds. The NORMAL mode allows for a pleasant, 3-speed fanning, NATURAL offers a natural breeze, and at night, you'll appreciate the SLEEP mode, which gradually reduces the speed so as to disturb your sleep as little as possible.

The cooling water filter draws water from a 6-litre tank, a fan drives a stream of air through it, cooling, moisturising, and cleaning at the same time. And if it's really hot, you can add ice or pre-cooled refills to the tank for even better refreshment.

The touch-sensitive control panel with a clear LED display has a pleasant white backlight that turns off automatically after one minute. But the control options don't end there; there's also a remote control and and wireless control with the SENCOR HOME mobile app. Everything to make your life even more convenient.

TOUCH CONTROL PANEL WITH LED DISPLAY

6-LITER WATER TANK

FEATURES

- **3-in-1 cools and humidifies + works as a summer fan**
- **3 modes (NORMAL, NATURAL, SLEEP), 3 speeds**
- **Can reduce the temperature by 3-5 degrees**
- 3D oscillating exhaust blades
- Anion Purification function - refreshes the airflow with anions
- Wi-Fi control via the SENCOR HOME app
- Touch control panel with LED display, remote control
- 9-hour timer
- Suitable for rooms from 18 to 46 m²
- Quiet operation with the option to turn off the control panel sound signal

Air Cooler

SFN 6014GY

It cools, humidifies, and also functions as a fan. The SFN 6014GY simply takes care of a pleasant climate. It offers three operating modes (normal, natural, and sleep) and twelve speeds, and can reduce the room temperature by 3 to 5 °C. The touch control panel and remote control allow you to conveniently adjust all functions. You don't have to worry too much about the water tank, as it has a capacity of 5 liters, so it doesn't need to be refilled often. Cleaning is also easy, with a removable and washable cooling water filter and dust filter.

Thanks to the integrated handle, four wheels, and low weight, moving the cooler is convenient. The 24-hour timer allows you to schedule the operation of the device according to your daily routine, while the quiet and economical DC brushless fan motor with a maximum power of 28 W ensures quiet and economical operation. With an air flow of up to 15.4 m³/min and a flow rate of 2.46 m/s, the device can effectively serve an area of up to 24 m².

FEATURES

- **3-in-1: cooling, humidification, and summer fan**
- **3 modes: NORMAL, NATURAL, SLEEP**
- **12 speeds**
- Can reduce the temperature by 3 to 5 degrees
- Touch control panel and remote control
- 5-liter water tank with level indicator
- Removable and cleanable cooling water filter and dust filter
- Integrated handle and 4 wheels for easy handling
- 24-hour timer
- Max. sound power level 60.5 dB
- Flow speed up to 2.46 m/s
- Air flow up to 15.4 m³/min
- Effective area up to 24 m²
- Efficient DC brushless motor
- Energy consumption 28 W

REFRESHMENT BY YOUR SIDE

DESKTOP FANS

We're all familiar with classic table fans. But that doesn't mean that innovation has eluded them. SENCOR now also offers cordless versions, eliminating the need for an available a power outlet. They're charged via USB-C, and the fully charged battery delivers up to 15 hours of use.

Select models are designed to direct the airflow as you need it. Plus, the integrated joints allow the fan to fold up, so you can take the fresh breeze with you everywhere, at home or on vacation. Some fans come with a remote controller to set the desired operating mode (normal, smart, or natural) as well as the airflow speed.

Our table fans are also extremely quiet, meaning you can even use them while relaxing. The timer also promotes restful sleep, ensuring the device switches itself off after the set time has passed.

WHY CHOOSE SENCOR DESKTOP FAN

- Practical design, easy to fold and carry
- Up to 15 hours of battery life
- Charges via standard USB-C
- Easy controls directly on the device

SILENT HELPER

With an appliance providing a fresh breeze right next to you, the amount of noise it makes is important. With our desktop fans, nothing will disturb you at your computer. The quietest ones operate at less than 36 dB.

ON HOT DAYS

Cordless Desktop Fan

SFE 0773WH

Compact, foldable, portable, cordless, and battery operated. That's a brief description of this handy rechargeable fan that offers up to 15 hours of operation in silent mode. Should the battery run low, just plug it in via USB-C and the fan will keep running even when charging.

The design has been thought out down to the smallest detail. Thanks to the two joints on its stand, the fan can be easily folded or the airflow redirected. When folded, it's just over 10 cm in height, making it easy to carry and store. The centre of the fan's protective basket serves as a mechanical control to adjust whether it should rotate and how fast.

FEATURES

- **4 operating speeds (quiet mode, low, medium, high)**
- **Foldable and portable**
- **2 joints for easy folding and airflow directing**
- Adjustable front grille rotation
- Loop for hanging
- Automatic light dimming (within 1 minute)
- Fan diameter: 18 cm
- Blade diameter: 14.4 cm
- Up to 15 hours on a single charge in silent mode
- 1.5m USB-C charging cable
- 4000 mAh battery
- Time to full charge: 4 h
- Pass-through charging mode
- Number of charging cycles: > 300

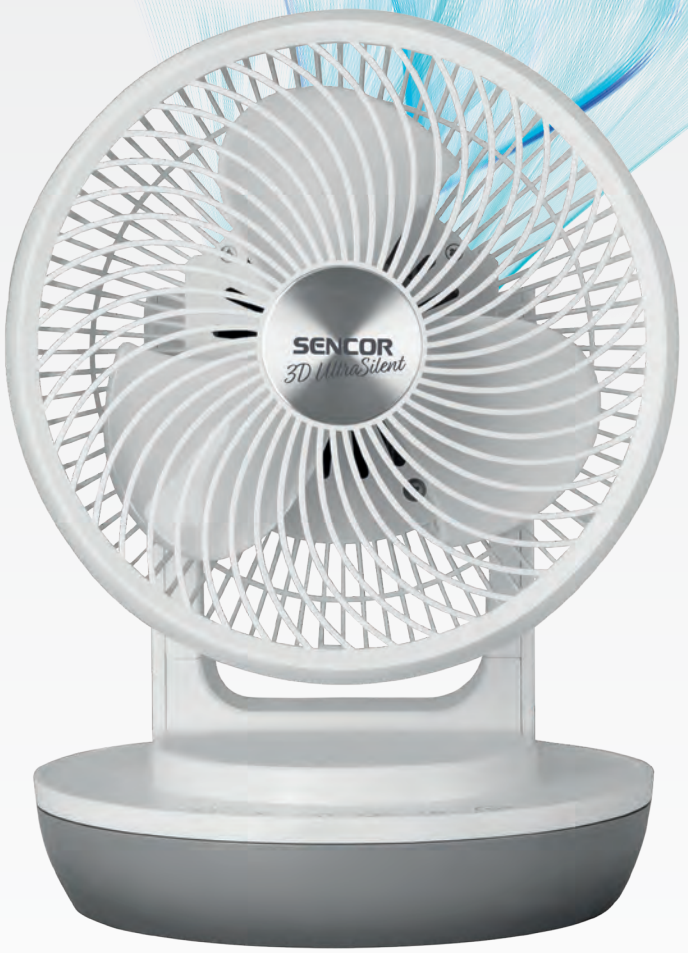

Desktop Fan 3D UltraSilent

SFE 2340WH

On hot summer days, the SFE 2340WH Desktop Fan will keep you refreshed and comfortable to the max. It can be controlled using the remote controller, where you can easily select the mode (normal, smart, natural) or the airflow speed.

The fan is extremely quiet, so you can even use it at night. You're sure to also enjoy the automatic 3D oscillation with a range of 70° or 90° as well as the timer with the option to set the shutdown from 1 to 8 hours.

FEATURES

- **Extremely quiet operation, can even be used at night**
- **Removable front cover for easy cleaning**
- **3 speeds, maximum flow speed of up to 6.8 m/s**
- 3 operating modes (normal / natural / smart)
- Timer with a range of 1-8 hours
- Control via remote controller or on the unit
- Room thermometer
- Automatic horizontal and vertical oscillation (70° / 90°)
- Noise level of only 38.3 dB in the first mode and only 53.2 dB in the highest mode

A HEALTHY HOME WITHOUT EXCESS HUMIDITY

AIR DEHUMIDIFIERS

Excess humidity isn't only unpleasant but it can also cause health risks. Get rid of it in time with SENCOR dehumidifiers. Whether you're at home or in the office, our devices solve this problem quickly and efficiently. They use modern technology to indicate humidity, monitor its development, and dehumidify. The most powerful dehumidifiers remove tens of litres of water from the air every day.

They collect the condensate in a container or discharge it through a hose directly into the drain, whichever suits you better. As they communicate via Wi-Fi, they'll let you know in the SENCOR HOME app when the tank is full.

The most efficient units can dehumidify up to 30 litres per day, thus dramatically improving the quality of your indoor environment. Both your body and home equipment will benefit from dryer and healthier air.

WHY CHOOSE SENCOR AIR DEHUMIDIFIER

- Removes up to 30 litres of moisture from the air
- Indicates humidity, monitors its development, and dehumidifies
- Wi-Fi connection and controls with the SENCOR HOME app
- Drains condensate into a container or through a hose
- Enough power even for large rooms

AGAINST THE MOULD

All it takes is a little excess humidity and suddenly mould shows up. However, this is easy to prevent. Modern dehumidifiers extract excess water from the air at the touch of a button. This way, your room will have optimal humidity and your home will be protected from dangerous spores.

FOR YOUR HEALTH

Smart Mobile Dehumidifier

SDH 6025WH

The SDH 6025WH ensures ideal air humidity even in larger rooms. The large 8-liter water tank allows for longer operation without frequent emptying, and the full tank indicator always alerts you in time when it needs to be emptied. The device informs you of the current humidity, and you can then set the desired level from 35 to 80%. Since it has a Wi-Fi connection, you can control it via the SENCOR HOME app.

The dehumidifier has four modes (bedroom, living room, basement, and continuous operation) and three fan speeds, so it can handle a variety of situations. It also features a 0-24 hour timer and other practical features such as a child lock, automatic defrosting, and automatic restart. In addition, a carbon filter helps purify the air of unwanted odors. Thanks to its low noise level (43-49 dB(A)), it is pleasantly quiet in operation.

FEATURES

- **60 l/day (30 °C, 80% relative humidity)**
- **38 l/day (27 °C, 60% relative humidity)**
- **Water tank capacity 8 l**
- Dehumidification settings: 35 to 80%
- 4 modes: bedroom, living room, basement, continuous
- 3 fan speeds
- Precise humidity indication
- Quiet operation 43–49 dB(A)
- Timer for 0 to 24 hours
- Full tank indicator
- Automatic defrost and restart function
- Child lock
- Carbon filter
- Handles and 4 swivel casters for easy handling
- 0.7m drain hose
- Suitable for rooms with an area of 44–127 m^2
- Controlled by SENCOR HOME application (iOS and Android)

Air Dehumidifier

SDH 3028WH

The SENCOR SDH 3028WH mobile dehumidifier can remove up to 30 liters of water from the air in a single day, effectively preventing mold growth and protecting your health and household equipment. There are three operating modes available – dehumidification, fan, and laundry drying – as well as two fan speeds (high and low).

The device operates very quietly, with a noise level of only 43/41 dB, so you can place it in your bedroom or living room with peace of mind. It is easy to control – in addition to the intuitive panel directly on the device, the dehumidifier can also be controlled via the SENCOR HOME mobile app, available for iOS and Android.

FEATURES

- **Dehumidification capacity 30 l/day (30 °C/80% RH)**
- **Controlled by the SENCOR HOME app for iOS and Android**
- **Combined Wi-Fi and Bluetooth chip for hassle-free installation**
- Dehumidification power setting: 35-85%/continuous
- 3 modes: dehumidification/fan/laundry drying 2 fan speeds: high/low
- Quiet operation; noise level of only 43/41 dB

Dehumidifier

SDH 2028WH

SENCOR HOME

The SENCOR SDH 2028WH dehumidifier collects water from the air in a spacious 6-liter container or can drain it directly into the waste. It can remove up to 20 liters of water per day. Three operating modes include dehumidification, fan (with two speeds), and laundry drying.

To ensure the air quality you need, you can set the target humidity between 35-85% or use continuous operation.
A practical 0-24 hour timer adapts operation to your daily routine.

FEATURES

- **Dehumidification capacity 20 l/day (30 °C/80% RH)**
- **Controlled by the SENCOR HOME app for iOS and Android**
- **Uses a combined Wi-Fi and Bluetooth chip for hassle-free installation**
- Dehumidification power setting: 35-85%/continuous
- 3 modes: dehumidification/fan/laundry drying 2 fan speeds: high/low
- Timer: 0-24 hours

Dehumidifier

SDH 1028WH

SENCOR HOME

With a capacity of up to 10 litres of collected water per day, this dehumidifier will help keep your home free from dangerous mould. It doesn't draw unnecessary attention to itself: it's space-saving and quiet.

The dehumidifier is easy to use, as it communicates via Wi-Fi with the SENCOR HOME app. To prevent operation from disturbing you when it is not convenient, it has a practical timer. You can set it in the range of 0 to 24 hours.

FEATURES

- **Dehumidification capacity 10 l/day (30 °C/80% RH)**
- **Controlled by the SENCOR HOME app for iOS and Android**
- **Uses a combined Wi-Fi and Bluetooth chip for hassle-free installation**
- Dehumidification power setting: 35-85%/continuous
- 5 modes: fan/eco/tumble dry/auto/dehumidify
- 2 fan speeds: high/low
- Precise humidity indication, full tank indicator

Smart Dehumidifier and Air Purifier

SDH 1210WH

Get rid of excess moisture and dangerous mould spores in the air. The SDH 1210WH makes it easy, as it is very powerful and can be conveniently controlled using the SENCOR HOME app.

The dehumidifier can remove up to 12 litres of water from the air per day. You set the desired humidity and the device will collect the water in a 3.2l container or drain it directly into the drain via a hose. The dehumidifier will monitor the fullness of the water container and send you a notification in the app. Clean air is ensured by the HEPA H11 filter, which removes a significant part of the impurities. This is important because where there is high humidity, mould spores can also appear. The unit is suitable for rooms up to 30 m^2.

FEATURES

- **Dehumidification up to 12 l/day**
- **12 l/day (30 °C/80% RH)**
- **6.9 l/day (27 °C/60% RH)**
- Air purifier with efficient HEPA H11 filter
- SENCOR HOME app controls
- 4 dehumidification power settings:
- 40%/60%/80%/continuous dehumidification
- 3 fan speeds: high/low/sleep
- Timer: 2/4/8hours
- LED control panel
- Full tank alarm
- Humidity sensor
- Colour indication of air quality
- Child safety lock
- Automatic defrost mode

Smart Ultrasonic Humidifier

SHF 7647WH

The smart ultrasonic humidifier takes care of air quality through four intelligent modes (automatic, night, health, and baby). You can choose between a cool mist and a warm steam. The mist output is adjustable in seven stages to suit your current needs at all times. The large 5-litre tank, plasma function, and high humidifying power of up to 400 ml/h ensure optimum humidity in rooms up to 48 m². It also runs very quietly (up to 35 dB(A)), so as not to disturb even small children.

The device is equipped with a touch panel, a clear LED display with night mode, a remote control, and the option to connect to the SENCOR HOME app for smartphone control. There's also a 12-hour timer, an aroma box for adding essential oils, and automatic humidity control from 30 to 75%. It's safe to use, and the unit automatically shuts off with insufficient water or when the tank is removed.

FEATURES

- **Cool mist or warm steam**
- **4 modes (automatic, night, health, baby)**
- **7-speed sliding mist output adjustment**
- 5L water tank capacity
- Plasma function
- Humidifying power: 30/110W
- Evaporation rate up to 400 ml/h (±50 ml/h)
- Humidity setting: 30–75%
- Noise level: ≤35 dB(A)
- Touch panel and LED display with humidity and temperature display
- Night display mode
- Remote control
- 12-hour timer
- Aroma box
- Automatic humidity control
- Automatic shut-off with insufficient water or removed tank
- Recommended for rooms up to 48 m²
- SENCOR HOME (iOS a Android) app

TEXTILE CARE

Keeping your laundry nice and smooth used to take a lot of effort. The forerunners of modern ironing stations were metal irons that were heated on a stove or placed on a small fireplace filled with hot coal. Once they cooled, the whole procedure had to be repeated. In contrast, today's ironing is convenient and quick. Steam generators create and release steam with the power of up to 410 grams per minute. No crease stands a chance.

WHEN STEAM HELPS

STEAM GENERATORS

Steam generators make caring for clothes much easier. Whether you're ironing the classic way on a horizontal surface or directly on the hanger, the powerful device with 410 grams of steam per minute ensures perfect results.

The generators are ready to go very quickly, heating up to the required operating temperature in just 35 seconds. The water tank itself is located outside the handheld unit, making ironing convenient and effortless. You can refill the water without having to turn the station off, and the anti-drip function protects the ironed fabrics from unwanted drops that could leave stains.

Thanks to the ceramic surface, the iron glides smoothly and the smart display shows important data. With steam generators, ironing is easier than ever.

WHY CHOOSE SENCOR STEAM GENERATOR

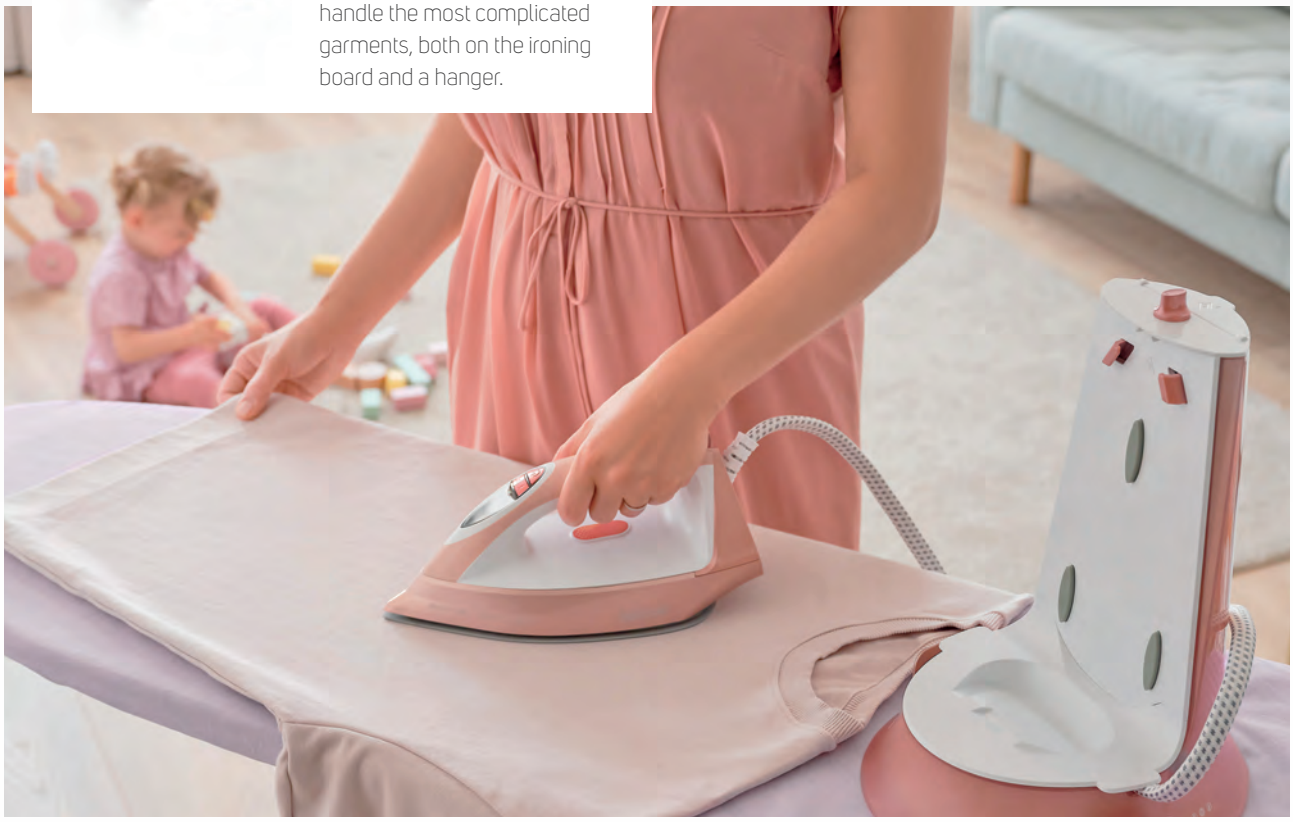

- They quickly warm up to the operating temperature
- Great results thanks to the effective steam power and steam burst
- Water tank outside the iron, making the unit much lighter
- Anti-drip function to prevent unwanted drips on clothing
- Ceramic iron surface smoothly glides over fabric
- Safety enhanced by the automatic shut-off when idle

410 G/MIN STEAM BURST

Only half a minute is needed for our steam generator to produce a sufficient amount of steam for a 410-gram burst. It can also handle the most complicated garments, both on the ironing board and a hanger.

READY IN 35 SECONDS

Steam Generator

SSI 0910RS

The SSI 0910RS steam generator can create a 410 g/min burst, handling garments made of any material with ease. The steam intensity can be easily adjusted on the smart display. Ironing is particularly convenient thanks to the fast heating feature (only 35 seconds) and the ceramic ironing surface.

Clothes made of delicate and susceptible fabrics are gently treated thanks to the vertical steaming function. The ceramic ironing surface evenly distributes heat and glides perfectly over almost all types of fabrics. This makes work more efficient and easier. The surface is also quite resistant to mechanical damage and scratches.

FEATURES

- **Extremely powerful steam system with a 140 g/min steam output**
- **Steam burst of 410 g/min**
- **Steam station ready in 35 seconds**
- Ceramic ironing surface
- ECO mode for normal ironing with low energy consumption
- NORMAL mode for standard or vertical ironing
- Power input: 3200 W
- Smart display to easily adjust the steam output
- Anti-calc system to prevent limescale build-up
- Anti-drip function to prevent drip stains
- 1.3 l water tank
- Variable temperature control
- Vertical steaming option
- Light to indicate when the iron is ready
- Automatic shut-off safety function

FLEXIBLE POWER CORD

SAFE BASE STORAGE AREA

1.3 L WATER TANK

EXTREMELY POWERFUL STEAM SYSTEM, 140 G/MIN

Steam Station

SSI 0950BZ

The SSI 0950BZ steam station with integrated boiler gives your laundry the ultimate care. With its powerful 3000 W performance, an above-standard steam output of 160 g/min, and an impressive steam boost of 430 g/min, it smooths out even the toughest creases while remaining gentle on fabrics thanks to its ceramic soleplate. Choose from three steam intensity levels, conveniently shown on the digital display.

The generously sized 1.5-liter boiler allows long ironing sessions, and if a refill is needed, it can be done without interrupting your work. An anti-drip system protects garments from water stains, while Anti-Calc technology helps prevent limescale build-up inside the appliance. An automatic shut-off feature provides extra safety when the steam station is not in use.

FEATURES

- **Power input 3000 W**
- **Steam output 160 g/min**
- **Steam boost 430 g/min**
- 3 steam output settings
- Digital control panel
- Water tank capacity 1.5 l
- Refill water without turning off
- Ceramic soleplate
- Anti-Calc technology
- Anti-Drip function
- Auto-Off function – automatic shut-off
- Low water level and descaling indicator

1.5 L WATER TANK

THREE STEAM OUTPUT SETTINGS

GENTLE BUT THOROUGH **CARE**

GARMENT STEAMERS

Say goodbye to the tedious process of setting up an ironing board and meticulously pressing each section of fabric. A garment steamer can freshen up your clothes in a fraction of the time, making it ideal for those busy mornings or last-minute touch-ups.

This handy device emits a gentle mist of steam, effortlessly smoothing out creases in fabrics. Steam is also kind to delicate materials like silk, chiffon, and wool. Unlike irons, which can scorch or leave shiny marks, steamers treat your clothes with care, ensuring they last longer and maintain their original beauty. Also, your household will benefit from owning a steamer, this multi-functional tool will even treat your upholstery and curtains.

WHY CHOOSE SENCOR GARMENT STEAMER

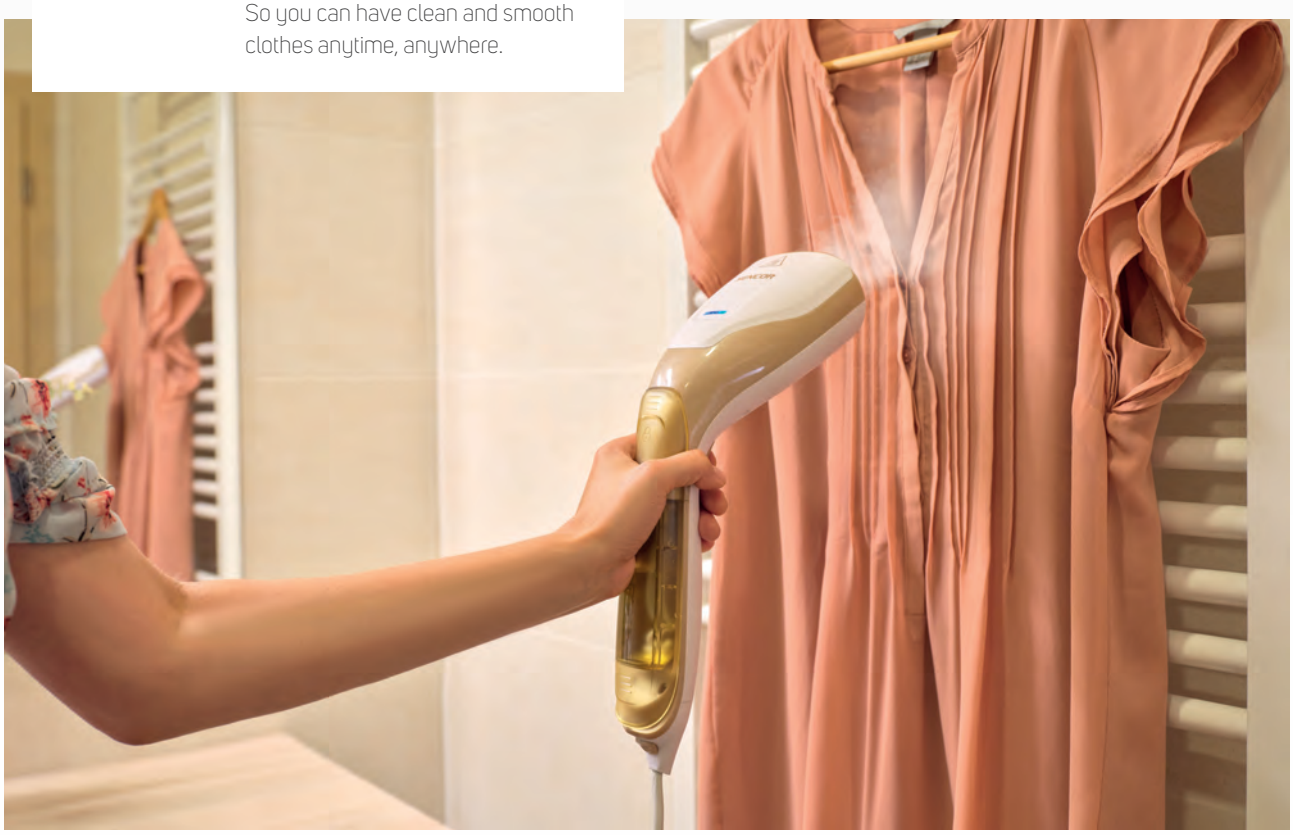

- Fast and easy solution for creases
- Vertical steaming with no need to set up an ironing board
- Powerful system with a steam output of 25 g/min
- Gentle on delicate materials and various kinds of ruffles, lace, and pleating
- Drip-Stop function prevents stains on fabrics

COMPACT DESIGN

Thanks to their small size, clothes steamers are a great helper at home and on the go, and can even handle complicated items such as shirts. So you can have clean and smooth clothes anytime, anywhere.

FOR HOME AND TRAVEL

Garment Steamer

SSI 0880BZ

Hoping to make ironing or caring for your home fabrics easier? Then try the SENCOR SSI 0880BZ Garment Steamer with 1800 W of power and two steam intensity modes.

Ironing can begin almost immediately, given that the device is ready in just 20 seconds. The 180 ml water tank is easy to fill with the included measuring cup, and gentle care is guaranteed by the ceramic ironing surface, which is also suitable for delicate fabrics. The Drip-Stop function prevents dripping and water stains on clothes.

FEATURES

- **1800 W of power**
- **Efficient steam system with 25 g/min steam output**
- **2 steam output modes**
- Digital display
- Ceramic ironing surface
- 180 ml water tank capacity
- Drip-Stop anti-drip function
- Vertical steaming
- Warm-up in 20 seconds
- Automatic shut-off after 5 min. of inactivity
- 1.9 m power cord

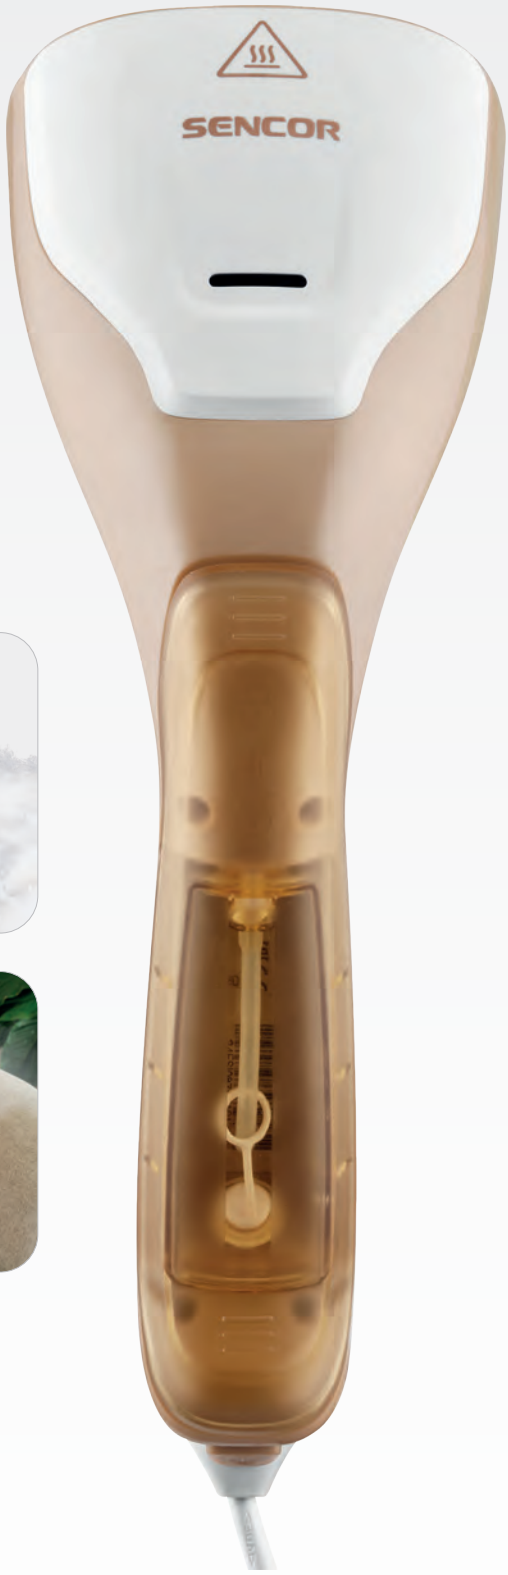

Garment Steamer

SSI 0870GD

The steamer can help wherever an iron is too cumbersome. You can comfortably iron all kinds of ruffles, including lace and pleating.

The 1000 W of input power ensures plenty of strength for a steam system with an output of 20 grams per minute. Working with the appliance is easy; the ironing plate has an aluminium surface and is fully heated in just 30 seconds. The removable reservoir holds 75 ml of water and the Drip-Stop function prevents drip stains on fabrics. The steamer also has all the necessary accessories, such as a brush attachment for thick fabrics, a heat-resistant pad, a measuring cup, and a brush.

FEATURES

- **Power input: 1000 W**
- **High-performance steam system with a steam output of 20 g/min.**
- **Aluminium ironing surface**
- Removable water tank (75 ml capacity)
- Drip-Stop function to prevent water droplets from staining fabrics
- Vertical steaming
- Quick heat-up in 30 seconds
- Auto Shut Off function to automatically turn off the iron
- Power cord length: 1.9 m
- Included: brush attachment for thick fabrics, heat resistant pad, measuring cup, brush

ACCESSORIES

BRUSH ATTACHMENT FOR THICK FABRICS, HEAT-RESISTANT PAD

FOOD PREPARATION

Join forces with SENCOR kitchen appliances and make prep work shorter and easier. Being stylish, reliable, and powerful, our appliances can keep up with even the most modern kitchens. They treat ingredients as gently as possible, preserving the best and healthiest parts in them.

Every job is easy to do when the appliances take care of the hard work for you. They will complete tedious tasks like mixing dough, whisking, grinding, slicing, and grating, allowing you to concentrate on your culinary experience.

LET THE MACHINES **WORK FOR US**

MULTIFUNCTIONAL STAND MIXERS

These multifunctional stand mixers are at the top of the range. Everything they touch turns into a masterpiece. Their whisks make creams smooth and whipped cream as soft as velvet. They process ingredients without a single mistake, kneading and mixing reliably. They can grind meat and stuff homemade sausages.

They can also make biscuits. First, they prepare the dough and then shape it into various sweet-smelling delicacies. They can also mix baby porridge and puree, nutritious drinks for athletes, as well as slushies to satisfy your sweet tooth. They're not left behind when it comes to baking either. For example, the balloon whisk can turn up to 12 eggs at once into egg-white peaks. The kneading hook will happily handle any dough, whether it's for pizza or bread. The other two special beaters can easily prepare lighter types of dough. The powerful motor, the right rhythm, and the movement system are crucial. The attachments rotate around their axis and simultaneously around the axis of the gearbox. This is the only way to mix all the ingredients perfectly.

How can a single machine handle this many different tasks? Thanks to its top-quality materials and clever design! The extremely powerful motor is protected by a 6-year warranty, the entire body is made of metal, and there's even LED lighting above the mixing bowl. With the multifunctional stand mixer, you can now take on even the most challenging recipes.

WHY CHOOSE SENCOR MULTIFUNCTION STAND MIXER

- Extremely powerful motor with a 6-year warranty
- Robust, all-metal body
- LED lighting above the mixing bowl
- Wide range of accessories (meat grinder, sausage stuffer, cookie maker)
- Optimum speed and energy-saving operation
- Stainless steel hooks

ONE APPLIANCE

A grinder for meat and coffee beans, nuts, herbs, and spices; attachments for kneading, whisking, and light doughs. And also a sausage stuffer or cookie maker. These all are included in the rich layout of accessories, rightly calling our stand mixers multifunctional.

MULTIPLE ACCESSORIES

Full-metal Stand Mixer

STM 8970 PAUL 3

FOR MOTOR 6 YEARS WARRANTY

● STM 8970 ● STM 8950

With these helpers, you can successfully tackle any culinary challenge. The STM 8970 PAUL 3 and STM 8950 are run by a powerful 1800 W motor with a superior 6-year warranty. The key element is the robust construction with a durable, all-metal body and gears that can withstand long-term use.

The controls are intuitive, being supported by the LED display, which makes selecting the preset programmes super easy. Two extra-large stainless steel bowls with a capacity of 6.7 litres provide ample space to process all ingredients. Thanks to the wide range of accessories, you can grind meat for pâté, pasta, and burgers, make homemade sausages, grate vegetables for salads and potatoes for chips, blend soups into delicious cream, shape Christmas cookies, and prepare fresh fruit juices full of fibre.

Food Processor

STM 7970 PAUL 1

The PAUL 1 food processor has metal gears and a power output of 1700 W, so it can easily handle grinding meat, thick yeast dough, and delicate sponge cake batter. The planetary gearbox operates quietly and extends the service life. To make preparing food as easy as possible, the food processor comes with two stainless-steel bowls with a capacity of 6 and 6.5 litres, each with a special lid and measuring scale.

Mixing, whisking, and kneading attachments ensure various ingredients are processed perfectly. With these attachments, you can process up to 1.8 kg of thick bread dough or 3.2 litres of cream. The FLEXI whisk is useful for preparing delicate doughs, while the balloon whisk can be used to whisk eggs, cream, and pudding.

The durable stainless-steel dough hook can handle thick and leavened doughs. The 1.5 l glass mixing bowl is perfect for preparing delicate sauces, creamy soups, smoothies and baby food. A coffee grinder is also included.

FEATURES

- **All-metal body and metal gears**
- **Powerful 1700 W motor**
- **Planetary mixing system**
- 2 stainless-steel mixing bowls with a capacity of 6.5 and 6 litres
- Whisks eggs, egg whites, cream
- Special FLEXI whisk with beater
- Mixes drinks, food, and ice cubes
- Meat grinder for coarse, medium, and fine grinding
- Attachment for making sausages and stuffing smoked meats
- Cookie cutter

Food Processor

STM 7651WS GORDON

STM 7630RS STM 7632WP STM 7651WS

These food processors will win you over with its high performance, durability, and wide range of accessories. What's more, the integrated scale will make your everyday cooking and baking easier. Not only does it weigh ingredients, but it also communicates with the SENCOR FOOD app, which contains recipes, shows nutritional values, and counts calories.

Thanks to its powerful 1500W motor with metal gears and robust all-metal body, the food processor can handle even the most demanding cooking tasks, and the motor is covered by a 10-year warranty. The three-outlet design can handle a wide range of kitchen tasks, from kneading and whisking to grinding meat or grating vegetables. The large 5.5-liter stainless steel bowl with measuring scale is ideal for preparing larger quantities of dough, while the practical LED lighting ensures a perfect overview during work. The STM 7651WS model also comes with an additional 4-liter bowl.

The appliance is equipped with a meat grinder for coarse and fine grinding, a sausage stuffer, a cookie maker, and a slicer with a grater with 4 stainless steel cones. The higher-end STM 7651WS model also has a blender with a 1.5-liter container. There are also 4 metal attachments with a non-stick coating for kneading, whisking and light dough.

Multifunctional Stand Mixer

STM 3761BK

○ STM 3760WH ● STM 3761BK

Do you prefer sweet desserts or healthy smoothies? The STM 3761BK food processor will give you both. Two NutriSmart programs take care of the extra portion of vitamins and fiber.

When baking, you'll benefit from two special attachments: the FLEXI whisker and the FLEXI beater. There are also four different attachments for kneading, whisking and batter. Everything is easily processed in the 4-litre stainless steel container with a measuring line.The robot is duty-ready, with uts robust metal controls and a powerful 1000 W motor. SENCOR Smart Power & Energy technology ensures that the robot works at optimum speed.

FEATURES

- **2 NutriSmart programmes**
- **Special FLEXI whisker and FLEXI beater**
- **Robust metal controls**
- Robust and powerful 1000 W motor
- SENCOR Smart Power & Energy - for optimum speed
- 4 litre stainless steel container with measuring groove
- 4 attachments for kneading, whisking and fine dough

Multifunctional Stand Mixer

STM 3741BK

○ STM 3740WH ● STM 3741BK

The large, five-litre container made of durable stainless steel holds 0.8 kg of dough and even 2.2 litres of batter. The robust and powerful 1200 W motor takes care of thorough processing. The robot operates at 6 speeds and also features the PULSE function and two NutriSmart programmes.

The unique LED bowl lighting makes checking the consistency of the dough much easier and helps you conjure up the most delicate desserts. However, the benefits don't stop there: the mixer comes with four kneading and whisking attachments, a special FLEXI whisker and FLEXI beater for fine doughs, a meat grinder for coarse and fine grinding with sausage filling attachments, and even unique magnetic lids.

LED LIGHTING TO EASILY CONTROL THE DOUGH CONSISTENCY

6 SPEED SETTINGS, PULSE

FEATURES

- **Robust and powerful 1200W motor handles even the toughest tasks in the kitchen**
- **5 l stainless-steel container for all types of dough (0.8kg of doughs, 2.2 l of batter)**
- **6 speed settings, PULSE function, and 2 NutriSmart programmes**
- Unique LED lighting to easily control the dough consistency
- 4 attachments for kneading and beating
- Special FLEXI beater and FLEXI whisker
- Unique magnetic lids
- Meat grinder for coarse and fine grinding, with sausage filling attachments

- STM 3637TQ
- STM 3638RS

The 363 series stand mixer will become your faithful companion while cooking and baking. Thanks to its powerful 1300 W motor, it perfectly handles every task. Cut down on your time spent in the kitchen, with a more pleasant and definitely less tiring experience.

The large stainless-steel bowl with a capacity of 5.5 litres holds enough dough to bake for the whole family or gatherings with friends. Six different speeds and the PULSE function ensure ingredients are thoroughly processed. The versatility of this machine is also evident with the ingenious kneading and whisking accessories.

FEATURES

- **Powerful 1300W motor handles even difficult kitchen work**
- **Large 5.5 l stainless-steel bowl for all types of dough**
- **6 speed settings and PULSE function**
- 3 sophisticated accessories for kneading and whisking
- Transparent anti-splash cover with a feed tube

BLEND EVERY DAY, **ANYTIME**, ANYWHERE

HAND BLENDERS

Being powerful, compact, and multifunctional, they can do the job of several devices. We simply can't imagine a kitchen without a hand blender. Their high-quality blades are made of stainless steel with a titanium coating. This makes the blades strong enough to handle not only meat and fruit but also parmesan cheese and nuts.

With the various attachments, you can slice, whisk, grate, and blend. The stainless steel attachment can also easily cope with hot dishes like soups.

SENCOR hand blenders have a powerful, yet extremely quiet, motor with a 6-year warranty. Pleasant use is guaranteed by the ergonomic shape of the blender, which makes the device fit perfectly in your hand. You'll also appreciate the large size of the containers that make everything easy to process.

WHY CHOOSE SENCOR HAND BLENDER

- Powerful and quiet engine with a 6-year warranty
- High-quality stainless steel blades with a titanium coating
- Easy to use and adjust the speed controls
- Large containers made of high-quality materials
- Ergonomic shape
- Stylish design

SMALL APPLIANCE WITH A BIG SET OF ACCESSORIES

The hand blender fulfils a variety of tasks. Thanks to its numerous accessories, it whips delicious cream, blends creamy soups, chops vegetables and crushes nuts. High temperatures are no obstacle either, the stainless-steel stick attachment allows work with hot ingredients.

EASY OPERATION

Hand Blender 4-in-1

SHB 6552BK

○ SHB 6551WH ● SHB 6552BK

Making everything easier and faster, this hand blender with a rich set of accessories will become your indispensable kitchen companion. It chops, whips, mixes, grinds, and squeezes exactly as you need it to.

The high-quality 1500 W motor is protected by a 10-year warranty, and the TITANIUM QuadBlade technology can handle any task. The 20 cm long, all-stainless-steel stick attachment reaches every corner of the container and can even handle hot ingredients. You can gradually change the speed to achieve the desired result. The ergonomically shaped handle makes the blender comfortable to hold.

FEATURES

- **10-year engine warranty**
- **TITANIUM QuadBlade Technology**
- **Power input of 1500 W**
- All-stainless-steel stick attachment with a length of 20 cm
- Continuous speed control
- Ergonomically shaped handle
- Stainless-steel accessories that can blend hot foods
- Stainless-steel blades

HAND MIXERS

When it comes to whipped cream and whites, fluffy creams or smooth mashed potatoes, hand mixers rock.

A variety of their whisks can handle anything the recipe calls for. And when the whisk gets replaced by a kneading hook, you'll soon have your dough ready. The five speeds are a great advantage too. With slow start-up and continuously increasing speed, the ingredients won't splash out of the bowl or curdle. When maximum power is needed, press the turbo button. Cleaning is super easy too, just release the whisks to wash them in the dishwasher.

WHY CHOOSE SENCOR HAND MIXER

- 5 speeds and turbo function
- Quiet operation and easy to use
- Overheat protection
- Set of accessories
- Ergonomic shape

Hand Mixer

SHM 5406YL

SHM 5400WH · SHM 5401GR · SHM 5402BL
SHM 5403OR · SHM 5404RD · SHM 5405VT
SHM 5406YL · SHM 5407TQ · SHM 5408RS

With 300 W of power, five different speeds, and two types of attachments, the SHM 5406YL can help you with any recipe.

The whisk set takes care of whipping egg whites, egg yolks, creams, mashed potatoes, and spreads, while the kneading hooks make smooth dough. All whisks and hooks are easily released at the touch of a button.

FEATURES

- **Power input of 300 W**
- **5 speeds for all kinds of recipes**
- **Turbo button delivers maximum speed**
- 2 types of attachments: whisks and hooks
- Set of whisks for whipping cream, creams, mashed potatoes, spreads, egg whites, and egg yolks
- Set of kneading hooks for dough
- Push button for convenient attachment release
- Quiet operation
- Ergonomic handle with a rubberised surface
- Easy to clean (whisks and hooks are dishwasher safe)

MEAT GRINDERS

Grinding blade and discs made of high-quality steel. This is the heart of SENCOR meat grinders. They grind meat as finely or coarsely as the recipe calls for. But there is much more. They can also reliably slice and grate fruit, vegetables, cheese or nuts, being powered by a strong motor. It enables the most powerful ones to process up to 100 kg of meat per hour.

When it comes to food, hygiene is very important, so our appliances are easy to clean. You simply disassemble the body, wash the plastic parts in the dishwasher and the metal parts under running water. Thanks to the smooth stainless steel, maintenance is quick, there is no need to let the discs soak at all.

WHY CHOOSE SENCOR MEAT GRINDER

- Powerful motor processes up to 100 kg of meat per hour
- Grinding blade and discs made of high-quality steel
- For meat, fruit, vegetables, nuts, cheese and more
- Easy cleaning for uncompromising hygiene

QUICK AND EFFORTLESS PREPARATION OF INGREDIENTS

Grinding meat just before cooking ensures it is perfectly fresh and tasty. What's more, it's ground to exactly the right consistency. But the benefits do not end with meat; our grinders can also shred vegetables or cut cheese. To make your cooking faster and easier.

EVERYTHING FRESH AND HYGIENIC

Meat Grinder

SMG 7400SL

If you care about the quality and freshness of meat, you can't do without a meat grinder. This powerful model with a 700 W motor (max. 2100 W) and a capacity of up to 2.5 kg per minute can quickly and efficiently grind various types of meat.

The package includes three grinding discs made of durable stainless steel – extra fine (3 mm), fine (5 mm), and coarse (7 mm) – which allow you to adjust the texture to suit any recipe. The aluminum filling tray and practical safety screw to prevent motor overload ensure safe and convenient operation. The feet are equipped with a non-slip surface to keep the grinder firmly in place on the work surface. In addition to grinding, the SMG 7400SL can make sausages and kubbe, and includes a solid slicer and a grater with interchangeable attachments for thin slicing, fine and coarse shredding or grating, including a grater for hard cheese and nuts. Thanks to its stable non-slip feet, the grinder remains firmly in place even under heavy loads.

FEATURES

- **700 W motor, maximum power 2100 W**
- **Safety screw to prevent motor overload**
- **Quick and easy grinding of various types of meat**
- Capacity of 2.5 kg per minute
- 3 grinding discs – extra fine (3 mm), fine (5 mm) and coarse (7 mm)
- Grinding knife and discs made of durable stainless steel
- Non-slip feet

Meat Grinder

SMG 6400SL

The SMG 6400SL is a truly multifunctional meat grinder. Thanks to its 700 W motor (up to a maximum of 2100 W), it can grind meat quickly and easily at a pace of up to 2.2 kg per minute.

The three grinding discs (extra-fine 3 mm, fine 5 mm, coarse 8 mm) and the grinding blades are made of durable steel. Practical sausage and kubbeh attachments, slicer, and grater are also included. Safe use is guaranteed by the non-slip feet.

FEATURES

- **700 W motor, maximum input of 2100 W**
- **Quick and easy grinding for different types of meat**
- **Capacity: 2.2 kg/min**
- 3 grinding discs extra-fine 3 mm / fine 5 mm / coarse 8 mm
- Grinding blade and discs made of durable steel
- Aluminium filling bowl

ACCESSORIES

EXTRUDER, SAUSAGE AND KUBBEH ATTACHMENT, SLICER AND GRATER: THIN SLICING, COARSE SLICING/GRATING, FINE SLICING/GRATING, GRATER FOR HARD CHEESE AND NUTS

Meat Grinder

SMG 5400SL

With a 700 W motor and a maximum power of up to 2100 W, the meat grinder quickly and easily grinds a variety of meats. It uses three discs for extra-fine (3 mm), fine (5 mm), and coarse (7 mm) grinding.

The grinding blade and discs are made of durable steel, which gives them a long service life. The plastic filling bowl, extruder, and sausage attachment make it easy to use. The machine can be also used for thin slicing, coarse and fine grating, and to grate hard cheeses and nuts. The non-slip feet keep the grinder steady on the work surface.

FEATURES

- **700 W motor, maximum input of 2100 W**
- **Quick and easy grinding for different types of meat**
- **Capacity: 1.7 kg/min**
- 3 grinding discs extra-fine 3 mm / fine 5 mm / coarse 7 mm
- Grinding blade and discs made of durable steel
- Plastic filling bowl
- Extruder
- Sausage and kubbeh attachment
- Slicer and grater
- Non-slip feet

ACCESSORIES

EXTRUDER, SAUSAGE AND KUBBEH ATTACHMENT, SLICER AND GRATER: THIN SLICING, COARSE SLICING/GRATING, FINE SLICING/GRATING, GRATER FOR HARD CHEESE AND NUTS

Meat Grinder

SMG 4410WH

The SENCOR SMG 4410WH electric meat grinder grinds, chops, grates, and looks good too. It can prepare up to 1.7 kg of meat in a single minute thanks to its precise processing and high-performance motor with a maximum power input of 1400 W.

The three steel discs grind meat extra-fine (3 mm), fine (5 mm), or chop it into 7 mm pieces. The machine can also easily cater for slicing and grating. Maintenance is simple: just place the plastic accessories in the dishwasher and rinse the grinding discs under warm water with detergent.

FEATURES

- **Three grinding discs (extra-fine 3 mm, fine 5 mm, and coarse 7 mm)**
- **Durable steel blades and discs**
- **Maximum power input of 1400 W**
- Easy slicing and grating
- High capacity of 1.7 kg/min
- Sausage and kubbeh attachment
- Grinding for several different types of meat
- Practical slicer and grater functions

THE MACHINE CAN ALSO EASILY HANDLE SLICING AND GRATING

THREE STEEL DISCS GRIND MEAT EXTRA FINELY, FINELY OR CHOP INTO CHUNKS

ELECTRIC GRATERS

They slice, cut, grate. Electric graters save you dozens of minutes of tedious kitchen prep. Whether you need carrots for your soup, potatoes for chips, eggs for a spread or onions for a stew, the SENCOR grater takes care of it thanks to its wide range of accessories.

To make the work even more convenient, there is no need to prepare and cut the ingredients in advance. Mostly, you just put them into the filling tube, which is almost six centimetres wide.

WHY CHOOSE SENCOR ELECTRIC GRATER

- Grating, slicing and cutting effortlessly
- A wide choice of accessories
- Wide filling tube, no need to pre-cut ingredients
- Quality materials

Electric Grater

SSG 4301BK

○ SSG 4300WH ● SSG 4301BK

With five interchangeable attachments, this slicer helps you prepare a wide variety of dishes. Use the thin or wavy graters for potato chips or decorating dishes.

The coarse and fine graters make it easy to prepare vegetables for soup or fruit and vegetable salads. The very fine grater will then come in handy for nuts or homemade breadcrumbs. The modern ergonomic design and the 53 × 53 mm wide filling tube ensure easy and comfortable use. The slicer has a closed design, so the operation is quiet, and the unit is easy to clean.

FEATURES

- **5 pieces of interchangeable accessories**
- **Thin slicer, wavy grater, coarse grater, fine grater, extra-fine grater**
- **Modern, ergonomic, space-saving design**
- Filling tube with 53 × 53 mm width allows ingredients to be grated and sliced without pre-slicing
- Grating and slicing into a bowl or directly onto a plate
- Easy to clean thanks to the closed design
- Quiet operation
- Non-slip feet ensure trouble-free use
- Storage space for the power cord
- Power cord length: 1 m
- Power input: 150 W

PRECISE TO THE GRAM

KITCHEN SCALES

Our ancestors would be surprised to see what their ancient scales have evolved into today. Modern kitchen scales show the weight instantly, on an LCD display set in three millimetres of tempered glass, making them simultaneously thin and highly durable.

The most modern models even communicate with the SENCOR FOOD app via Bluetooth. Simply enter the EAN product code, and the nutritional data for more than 400,000 items is instantly displayed. SENCOR scales weigh with an accuracy of 1 gram, i.e., the same weight as a single peppercorn.

Of course, there is a TARE function that resets the weight of the container, so that weighing the ingredients for an entire dish can be handled in a single container.

WHY CHOOSE SENCOR KITCHEN SCALE

- High-quality, hardened safety glass
- Extra-large LCD display
- High weighing accuracy
- Unit selection
- Connection to the SENCOR FOOD app
- Ultra-thin, modern design

Smart Kitchen Scale

SKS 8080

The SKS 8080 smart kitchen scale communicates via Bluetooth with the SENCOR FOOD app, which was developed in collaboration with the creators of the Calorie Tables app and offers a rich online food database.

Simply load the EAN product code and you will get nutritional data on more than 400,000 items. The white, backlit LCD display is easy to read, even in poor light conditions. The scale is powered by two 1.5V AAA batteries, which are included.

FEATURES

- **SENCOR FOOD app, developed in collaboration with the creators of the Calorie Chart app**
- **Rich online food database**
- **Uploading EAN food codes in the app**
- More than 400,000 continuously updated items
- Nutritional data (carbohydrates, proteins, fats, cholesterol, fibre, etc.)
- White, backlit LCD display
- Weighing capacity up to 10 kg/d = 1 g
- 2× 1.5 V AAA batteries

LINKED TO THE CALORIE TABLES APP

The SENCOR FOOD app is available for download on Google PLAY and the App Store

SENCOR FOOD app

- Detailed nutritional values and calorie calculations
- Database of 400,000 different foods
- Linked to the Nutrition Tables app retrieves data according to your diet

Kitchen Scale

SKS 7700BK

The modern look of the SENCOR SKS 7700BK Kitchen Scale is enhanced by a large and clearly legible LED display.

In addition, the scale does not require any battery changes, as it is equipped with a Li-Ion battery that is rechargeable via USB-C. It weighs food up to 10 kilograms, within the accuracy of a single gram. Operation is very easy, with only two buttons to set everything you need.

FEATURES

- **Weighs food up to 10 kg within the accuracy of 1 g**
- **4 sensors for maximum weighing accuracy**
- **Tempered glass (3 mm) / easy to clean**
- Selectable units g, lb:oz, oz, ml
- Milk weighing mode
- Touch control
- Elegant LED display
- TARE function for weighing ingredients
- Automatic reset/shutdown
- Low battery and overload indicator
- 250 mAh rechargeable lithium-ion battery
- USB Type-C charging

Kitchen Scale

SKS 7100SS

This kitchen scale will become a welcome companion in everyday cooking and baking.

Switching it on is intuitive; just a light press or loading, and it's ready to weigh within the accuracy of a single gram. The body is made of high-quality stainless steel and the elegant LED display makes reading easy. With the TARE function, you can conveniently weigh all ingredients in a single container. Two AAA batteries are included.

FEATURES

- **Weighing capacity up to 10 kg/d = 1 g**
- **Switching on by adding pressure or loading the weighing surface**
- **Highly accurate strain gauge sensors**
- High-quality stainless steel, elegant LED display
- Hanging hole
- Units: g, lb:oz, oz, ml
- TARE function for weighing ingredients
- Automatic reset and shutdown
- Low battery and overload indicator
- 2× AAA batteries

Smart Kitchen Scale

SKS 7177CH

- SKS 7170GG
- SKS 7176GD
- SKS 7177CH
- SKS 7178BK

This successor to the popular series of smart kitchen scales can now weigh up to 8 kg.

The design is dominated by a glass surface, a large white backlit display, and two touch buttons for easy operation. The scale pairs with your smartphone via Bluetooth and connects to the SENCOR FOOD app. The app contains more than 400,000 continuously updated items, so you always have a perfect overview of your calorie intake and individual nutritional components.

FEATURES

- **Glass weighing surface with large white backlit display**
- **Communicates with the SENCOR FOOD app with an extensive online food database**
- **Weighing capacity up to 8 kg / d = 1 g**
- 2× 1.5 V AAA batteries

SWEET DELIGHT WHENEVER YOU WANT

ICE CREAM MAKERS

Fancy some homemade ice cream made from high-quality ingredients that you choose yourself? With our ice cream makers, it only takes a few minutes to prepare a frozen dessert without artificial colors, flavors, or preservatives.

Your ice cream, sorbet, or even yogurt will be much healthier than store-bought varieties. Modern appliances handle the entire process fully automatically, without the need for pre-freezing, and in a short time they will conjure up a delicacy with the perfect consistency. In addition to classic ice cream, you can enjoy Italian gelato, fruit sorbet, milkshakes, or frozen drinks. Multiple containers allow you to prepare several flavors, so everyone in the household can enjoy their favorite. As a bonus, you can also prepare classic yogurt, as selected appliances can also heat.Convenient operation is ensured by a clear display, touch controls, and preset programs that guarantee the optimal temperature and preparation time. Some models can also cool the finished dessert for tens of minutes, so you can enjoy it later. Maintenance is easy, and the removable bowls are easy to wash. The joy of homemade ice cream is not spoiled by any tedious cleaning.

WHY CHOOSE SENCOR ICE CREAM MAKER

- Automatic operation without pre-freezing
- Classic ice cream, Italian gelato, fruit sorbet, milkshake, or frozen drink
- Homemade yogurt preparation
- Large ice cream container
- Ready in just one hour
- LED display
- Keep Cool function maintains cold for up to 60 minutes

Ice Cream Maker

SIC 5050WS

The SIC 5050WS allows you to prepare delicious homemade ice cream without artificial colors and preservatives – quickly, easily, and exactly to your taste. It can prepare up to three different flavors at the same time in just a few minutes, thanks to three containers with a total capacity of 1.5 liters.

It offers 10 smart programs, including Gelato, Lite Ice Cream, Ice Cream, Sorbet, Frozen Yogurt, Italian Ice, Slushies, Icyccino, Frozen Drinks, and Milk Shakes. The appliance is equipped with a color LED display and intuitive touch controls, allowing you to set everything conveniently. The quiet 500W BLDC motor ensures reliable performance without disturbing your household.

COLOR LED DISPLAY WITH INTUITIVE TOUCH CONTROL

GRATING KNIFE MADE OF HIGH-QUALITY STAINLESS STEEL

FEATURES

- **3 containers with a total capacity of 1.5 liters**
- **Color LED display**
- **10 smart programs: Gelato, Lite Ice Cream, Ice Cream, Sorbet, Frozen Yogurt, Italian Ice,**
- Slushi, Icyccino, Frozen Drinks, Milk Shake
- Simple, intuitive touch controls
- Very easy maintenance
- 500W BLDC motor with very quiet operation

Ice Cream Maker

SIC 3000WH

Make homemade ice cream from high-quality ingredients you love. With this fully automatic maker with a built-in compressor, you can do everything quickly and easily, with no pre-freezing required.

The appliance can make up to 1 liter of your favorite frozen dessert in just one hour. You can choose from 4 automatic programs, including mixing, cooling, ice cream, and yogurt. The color LED display keeps you informed about the status and counts down the preparation process. Once finished, the Keep Cool function keeps it cold for up to 60 minutes. The removable bowl is easy to clean.

A COMFORTABLE LIFE WITH ACCUMULATOR DEVICES

Accumulators are the kitchen trendsetters. These latest battery-powered helpers make cooking and baking more convenient. With no cord blocking the way, every kitchen task is easy and done quickly, leaving you more time to enjoy meals with your family and friends.

CORDLESS MEANS COMFORTABLE

CORDLESS APLIANCES

The cord will no longer get in the way when cooking. That hassle has been replaced by a powerful battery that's ready to work whenever you need it, even while charging.

Enter a new era: The era of cordless kitchen appliances. Imagine the freedom to cook and bake when you're not constrained by a power cord and don't have to buy disposable batteries!
The efficient and powerful DC motor works quickly and precisely, and the long-life battery can handle up to 600 charge cycles.
A single charge lasts up to ten uses. Each appliance is fully ready in just five hours, and of course, you can use it while it's charging.
The process is trouble-free; our wireless appliances use a time-tested adapter with a USB-C cable.

WHY CHOOSE SENCOR CORDLESS APPLIANCES

- You'll experience the comfort of cooking without a cable
- You'll appreciate how quietly they work, especially if children or pets are around
- No more buying disposable batteries

QUIET AND RELIABLE HELPER

The motor in our cordless appliances is extremely powerful, yet quiet alowing you cook whenever it suits you without disturbing anyone with excessive noise. You can also rely on the quality of the batteries. They are designed for up to 600 charging cycles and can be used ten times on each charge.

POWERFUL MOTOR, STRONG BATTERY

Cordless Hand Blender with Removable Battery

SHB 9130WH

The SHB 9130WH hand blender gives you maximum freedom when cooking. It's powered by a high-quality 11.1 V / 2000 mAh Li-Ion battery, which can handle up to 25 blending cycles on a single charge. The status indicator gives you a perfect overview of the remaining power, and the battery can be easily charged via USB-C. Working with the cordless hand blender is comfortable and safe thanks to the smooth speed control, ergonomically shaped handle, and safety lock.

The extended mixing rod adapts to different types of dishes, and the titanium blades preserve the maximum amount of vitamins in the ingredients. The package also includes other practical accessories, such as a whisk, a chopper with a 500 ml container, a 700 ml measuring cup, and a milk frother.

FEATURES

- **High-quality 11.1 V / 2000 mAh Li-Ion battery, rechargeable with a Type C charger**
- **Shorter charging time, longer operating time**
- **Smooth speed control**
- Extended mixing rod for all types of containers
- Titanium blades to preserve vitamins
- Battery status indicator
- Up to 25 mixing cycles per charge
- Ergonomically shaped handle
- Safety lock

BATTERY AND USB-C CHARGING CABLE, MIXING ROD WITH INTEGRATED BLADE, WHISK, CHOPPER WITH 500 ML CONTAINER, 700 ML MEASURING CUP, MILK FROTHER

Cordless Hand Mixer

SHM 9130WH

The SHM 9130WH cordless hand mixer gives you complete freedom of movement without compromising on performance. The high-quality Li-Ion battery (11.1 V / 2000 mAh) can handle up to 20 mixing cycles on a single charge and is quickly recharged via USB-C.

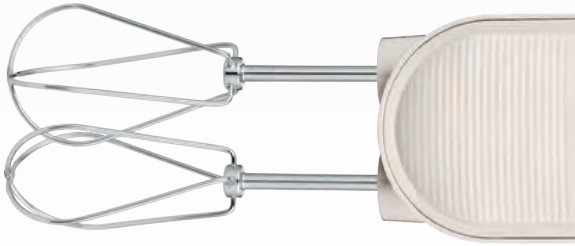

The clear digital display shows the selected speed from eight different options – from gentle mixing to intense kneading. A practical indicator light shows the battery status, and the package includes a pair of chrome beaters, a pair of dough hooks, and a USB-C charging cable.

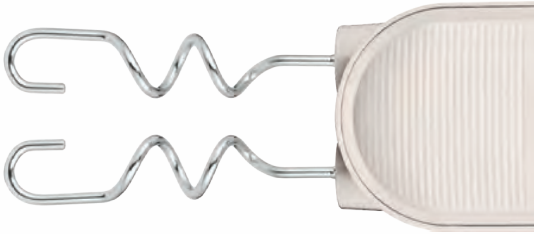

FEATURES

- **Digital display with 8 speeds**
- **Up to 20 mixing cycles on a single charge**
- **High-quality 11.1 V / 2000 mAh Li-Ion battery with Type-C charger**
- Battery status indicator light
- A pair of chrome beaters and a pair of chrome dough hooks

Cordless Smoothie Blender

SBL 9130WH

The SBL 9130WH cordless smoothie blender is appreciated by all fans of an active lifestyle. It can prepare fresh smoothies anytime, anywhere, without needing to be plugged in. The device is powered by a high-quality Li-Ion battery (11.1 V / 2000 mAh), which can handle up to 30 cycles on a single charge.

It charges quickly via USB-C, and a practical indicator light shows the battery status. It features an automatic programme and a pulse function that can handle both soft fruit and harder ingredients. Titanium blades also help preserve important vitamins. The package includes a portable 500 ml mixing container made of durable, BPA-free Tritan material, equipped with a practical drinking lid.

FEATURES

- **Pulse function and automatic programme function**
- **Titanium blades for vitamin preservation**
- **High-quality 11.1 V / 2000 mAh Li-Ion battery, rechargeable with a Type C charger**
- Shorter charging time, longer operating time
- Battery status indicator
- Up to 30 blending cycles per charge
- Portable BPA-free TRITAN blending bottle with drinking lid
- Package contents: motor unit, battery, 500 ml blending container, drinking lid, blade unit, USB-C charging cable

ACCU Hand Blender

SHB 9000GY

Enjoy food preparation with a blender that has no cord to get in the way. This hand blender is powered by a powerful, long-lasting battery. With this battery, the machine mixes at two speeds and can take on any job in the kitchen.

You can use it literally anytime, even while the battery is charging. The titanium surface of the blades preserves all the important vitamins and the quiet operation contributes to more comfortable food preparation.

FEATURES

- **High power (200 W), powerful battery with a long service life**
- **2 mixing speeds ideal for all kitchen tasks**
- **Titanium blade surface preserves all important vitamins**
- Quiet operation, ideal for households with children and pets
- Equipped with a safety lock

ACCESSORIES

WHISKER
500 ML CHOPPER
700 ML MEASURING CUP
CHARGING ADAPTER WITH USB-C CABLE

ACCU Hand Mixer

SHM 9000GY

Can a battery-powered hand mixer do all the work you need in the kitchen?

The SHM 9000GY can! Using a long-lasting battery that powers it at three speeds, it adapts to any recipe. Nothing will hold you back, the appliance can even work while charging. The quiet operation is a bonus, which will be especially appreciated by families with children and pets. Tasty porridges, creams, and whipped cream can be prepared with the two chrome whisks, while the stainless-steel whisk takes care of perfectly whipped egg whites and cream.

FEATURES

- **Powered by a Li-Ion battery with a lifetime of up to 900 cycles**
- **Direct Drive function allows you to work while charging**
- **3 speeds for various types of recipes**
- Approximately half an hour of operation after a full charge
- Quiet operation of 85 dB
- 2 chrome-plated whisks for spreads, mashed potatoes, and cream soup
- Stainless-steel whisk for beating egg whites and egg yolks
- Charging adapter with USB-C cable
- LED battery status indicator
- Automatic overload protection

ACCESSORIES

2 CHROME-PLATED WHISKS FOR WHIPPING CREAM, CREAMS, MASHED POTATOES, SPREADS
LARGE STAINLESS-STEEL WHISK FOR WHIPPING EGG WHITES AND YOLKS

ACCU Chopper

SCB 9000GY

The long-lasting battery is powerful enough to run the chopper at two different speeds to process meat, fruit, and vegetables. And, of course, there's no cord to get in the way while you're working!

Operation is easy and convenient, just put the ingredients in the glass container and select the speed. Low speeds are suitable for coarser consistency foods, white high speed is meant for finer chopping.

The blade's titanium surface preserves all the important vitamins and helps you live healthier. There's truly nothing to hold you back when cooking, as you can use the chopper even while it's charging.

FEATURES

- **Powered by a long-lasting Li-Ion battery**
- **Easy to use wherever you need it**
- **2 chopping speeds (low and high)**
- 4 blades with vitamin-preserving titanium surface
- Durable, 500 ml glass container
- Enough power to process meats, nuts, fruits, vegetables
- Quiet operation
- LED battery indicator
- Elegant and compact design
- Charging adapter with USB-C cable
- 200 W output

DURABLE 500 ML GLASS BOWL

COFFEE

The aroma of your morning coffee announces a great day before it's even started. Whether you use an automatic or pump espresso, with SENCOR, you can always count on an intense aroma, strong flavours, and smooth foam. Our coffee machines use the latest technology to give you the ultimate coffee experience. Automatic espresso machines handle all tasks, everything from grinding to dispensing. With a pump machine, you'll experience feeling like a professional barista. And if you're a fan of extra-smooth foam, don't miss our milk frothers. No latte and cappuccino lover can do without them.

ENJOY YOUR **ESPRESSO ANY TIME**

AUTOMATIC ESPRESSO MACHINES

Modern automatic espresso machines give you the same enjoyment as in the best coffee shops. You don't need to take a barista course; the touchscreen color LED panel with localized language will reliably guide you through the preparation of your drinks. The beans are stored in a closed container, from where they go directly to the conical metal grinder.

You can customize the taste of your coffee by adjusting the fineness of the grind. The temperature of the water has a big impact on the taste of the drink, which is why the Thermoblock system ensures optimal heating. Advanced models can even do this for each type separately, allowing you to adjust the coffee portion and the intensity of your drink. Extraction in the brewing unit is supported by Italian ULKA pumps with a pressure of up to 20 bar. In some models, the brewing unit can be removed and easily cleaned. Milk frothing is handled by the practical EasyLatte system, which not only prepares fine microfoam, but is also easy to clean. And if you are a fan of smart homes, choose a model that communicates with the SENCOR HOME app. You will enjoy control directly from your mobile phone along with other SENCOR products.

WHY CHOOSE SENCOR AUTOMATIC ESPRESSO MACHINE

- Compact size and elegant design for any kitchen
- Conical metal grinders with grind fineness adjustment
- Perfect extraction thanks to an Italian pump with 20 bar pressure
- Convenient control and personalization
- High-quality preparation of ground foam
- Easy cleaning

MASTER BLEND

It awakens the senses and invites you on a journey around the world right from your cup. Master blend espresso is a masterpiece of coffee alchemy. It harmoniously combines Arabica beans from Brazil and Ethiopia with Indian Robusta, creating a unique taste experience. Brazilian Arabica offers a sweet undertone with hints of chocolate and nuts, while Ethiopian Arabica brings floral notes and freshness. These two Arabicas are complemented by Robusta, which gives the coffee a full body and an intense earthy undertone, ensuring that every sip is truly strong and full-bodied. Professionally roasted in the Czech Republic.

COFFEE BEANS

Fully Automatic Espresso/Cappuccino

SES 9350CH

With just one touch, the coffee machine will prepare your beloved morning drink. You don't have to worry about a thing, because the SES 9350CH is a fully automatic machine that not only makes a fragrant espresso, but also a fluffy cappuccino. Everything is easily selected on the colour LCD display, where you can choose from a wide range of 15 drinks from espresso to flat white. The nine grind settings will meet all your expectations, and the 19 bar pressure pump will ensure perfect results.

Maintaining the machine is as simple as using it. The 300 ml milk container is made of durable material, while the removable 1.3 litre water tank ensures that there is always a fresh supply of water for your delicious coffee. The machine itself alerts you when you need to refill water or coffee beans. It also prompts you to empty the grounds reservoir or remove limescale. Of course, the machine cleans itself after each use.

Fully Automatic Espresso/Cappuccino Machine

SES 9300BK

● SES 9300BK ○ SES 9301WH

Enter the world of delicious coffee with this semi-professional, fully automatic espresso machine that combines great taste with practical features. The EasyLatte system treats you to milky beverages at the touch of a button, and the coloured LED panel makes operation intuitive and easy. All this is complemented by extra-easy cleaning.

The Thermoblock heating system ensures the optimum water temperature for every coffee. The 19-bar pump and sophisticated brewing unit prepare excellent espressos and lungos. The machine uses both beans and ground coffee. You can easily adjust the intensity, the stainless-steel grinder, and the 9 grinding stages to your preferences. The machine will also guide you through regular maintenance. It will let you know when it's time to clean, refill the beans, or empty the coffee grounds container. The descaling programme keeps the espresso in optimal condition and prolongs its life. The machine is compact, so it's sure to find a place in your kitchen.

FEATURES

- **EasyLatte milk system for everyday use**
- **Coloured LED panel ensures easy operation**
- **Thermoblock heating system for optimum water temperature**
- Intended for ground and bean coffee
- Pump pressure of 19 bar, integrated professional brewing unit
- Pre-brewing system for a fuller coffee flavour
- Latte and cappuccino with milk microfoam at the touch of a button
- Durable, 300 ml EasyLatte milk container is easily connected to the machine thanks to the EasyConnect system
- One-touch espresso and lungo programmes
- Hot water function
- Adjustable coffee strength
- Stainless-steel grinder with 9 coarseness levels
- Compact size
- Coffee container capacity of 200 g
- Removable, 1.3-litre water tank
- Coffee cup size memory function
- Water tank refill signal
- Coffee bean refill signal
- Full coffee grounds container signal
- Descaling indicator and programme

COLOURED CONTROL PANEL

Fully Automatic SMART Espresso/Cappuccino

SES 8500BK

Even the smallest kitchen deserves a great coffee machine. At just 188 mm wide, the SES 8500BK automatic espresso machine is sure to have room for it. It will reward you with delicious coffee that starts to brew just 40 seconds after you switch it on. It also shows everything clearly on the TFT display, which makes it easy to operate. With the My Coffee function, this automatic espresso machine remembers what your favourite cup of delicious drink should look like. Creamy lattes and cappuccinos with milk microfoam are just a touch away. What's more: this automatic espresso machine is compatible with the SENCOR HOME app, which you can download for free on your smartphone.

Despite the compact dimensions of the machine, the removable water tank has a decent volume of 1.5 litres. The coffee hopper holds 20 grams of beans and the milk container can hold up to 750 ml. In addition to milk drinks, the SES 8500BK will also prepare other types of coffee, such as lungo or espresso, or dispense hot water for tea. Working completely automatically, you will only be needed to refill the reservoirs or for ongoing maintenance. But you don't have to think about anything, the machine itself will let you know when to pay attention to it.

- Cup size memory function

Fully Automatic Espresso/Cappuccino

SES 8000BK

Enjoying coffee at home that tastes like it's made by an experienced barista? Nothing is easier with the SES 8000BK automatic espresso machine. The LED panel conveniently guides you through the preparation of your favourite beverage. With a single touch, you can conjure up delicious lattes and creamy cappuccinos with perfect milk microfoam. The large 750 ml milk container allows you to prepare all your drinks at once. One button is also enough for espresso or lungo, with the first drop of your favourite coffee appearing in just 40 seconds.

The integrated stainless-steel grinder has 5 adjustable grinding levels. The 20-bar pump pressure guarantees excellent coffee quality and taste, while the Thermoblock heating system ensures the optimum temperature. The cup light, water tank refill and bean signal, automatic self-cleaning, and descaling programme make this device convenient to use.

Fully Automatic Espresso Machine

SES 6100BK

The fully automatic SES 6100BK coffee machine prepares your favourite drink exactly the way you like it, thanks to its integrated metal grinder with 15 grind and coffee strength settings ranging from 9 to 14 grams. It's extremely easy to use, offering three preset volume sizes and four fully automatic programmes – for espresso, lungo, double espresso, and americano. The powerful 20-bar pump and Thermoblock heating system ensure optimal water temperature for perfect results.

The coffee maker also impresses with its compact dimensions – with a width of only 18 cm, it can easily fit in smaller kitchens. And the sufficiently large coffee bean container (200 g) and removable 1.5 l water tank save you from frequent refilling. The height-adjustable coffee dispenser (up to 115 mm) allows you to use cups of different heights. Maintenance is made easy by the removable brewing unit, which is simple to clean.

FEATURES

- **Compact size with a width of only 18 cm**
- **4 fully automatic programmes: Lungo, Double Espresso and Americano.**
- **Integrated metal grinder with 15 settings from fine to coarse grinding**
- 20 bar pump pressure
- 3 preset drink volume sizes
- 3 coffee dose settings for 9–14 g of coffee
- 200 g coffee bean container
- Removable brewing unit for easy cleaning
- Thermoblock heating system
- Adjustable coffee dispenser height up to 115 mm
- Removable 1.5 l water tank
- Input: 1350 W

Fully Automatic Espresso Machine

SES 6000BK

Delicious espresso or water for tea? With the SES 6000BK, either can be ready in less than a minute. You can conveniently select the desired beverage on the LED panel with touch buttons, and the first drop of your hot beverage will appear just 40 seconds later. Being just 18 cm wide, this compact machine fits into almost any kitchen, so everyone can enjoy a good, home-brewed coffee.

The Italian pump with 20-bar pressure works in conjunction with the stainless-steel grinder, Thermoblock, and the pre-steaming system to ensure the coffee tastes great. You can choose from the impressive 15 different grinding settings. The coffee maker also remembers the size of your favourite cup and illuminates it when dispensing your drink. Since this is an automatic machine, it won't ask you to do anything more than routine maintenance. It will alert you when you need to refill the beans or water and notify you when it comes time to clean or descale.

FEATURES

- **The LED panel with touch buttons ensures easy operation**
- **Slim and compact dimensions: only 18 cm wide**
- **Italian pump with 20-bar pressure for excellent coffee**
- First drop of your favourite coffee in just 40 seconds
- Automatic programmes (Espresso, Lungo, etc.) started with a single touch
- Hot water function for Americano or tea
- Stainless-steel grinder for precise grinding, 15 different settings
- Removable steaming unit for easy cleaning
- 200 g coffee hopper capacity for your favourite beans
- Removable, 1.5-litre water tank to ensure there's always a fresh supply of water for your delicious coffee
- Thermoblock heating system to ensure the optimum water temperature
- Height-adjustable coffee dispenser
- Pre-steaming system for a fuller coffee flavour
- Cup size memory and cup lighting function
- Water tank and coffee bean refill alarm
- Coffee grounds container empty signal
- Descaling indicator and programme
- Removable coffee grounds container
- ECO mode
- Automatic self-cleaning function

ONE-TOUCH CONTROL

PREPARING TWO BEVERAGES AT ONCE

REMOVABLE BREWING UNIT

200 GR COFFEE CONTAINER

COFFEE EXACTLY TO **YOUR TASTE**

ESPRESSO MACHINES

SENCOR espresso machines will delight all coffee enthusiasts who like to control the entire preparation process. Models with an integrated metal grinder precisely grind coffee directly into the filter to ensure that the espresso is full of flavour and aroma. The steam nozzle then makes it easy to prepare milk foam for cappuccinos or lattes. And if you're looking for maximum convenience, choose a model with an integrated milk system that takes care of milk frothing completely automatically.

The Thermoblock system monitors the correct water temperature, and powerful pumps push hot water through the tamped, finely ground coffee in the filter. Pre-brewing helps improve coffee extraction by releasing a small amount of hot water at low pressure to give the coffee a more pronounced flavour. Easy operation and maintenance are a matter of course.

WHY CHOOSE SENCOR ESPRESSO MACHINE

- Compact and stylish design for any interior
- Powerful pumps for great taste
- High-quality materials with long durability
- Optimal water heating with the Thermoblock system
- Easy and safe to use
- Extra convenience thanks to practical features and accessories
- Integrated grinder or milk system

Espresso Machine with Built-in Grinder

SES 6010SS

This coffee machine is packed with the best components for preparing delicious coffee drinks. You can easily make an intense espresso or beautiful latte art with it.

A UNIVERSAL SOLUTION FOR CAPSULE COFFEE LOVERS

MULTI-CAPSULE COFFEE MAKERS

You no longer have to worry about which type of capsules your coffee maker needs. Multi-capsule machines from SENCOR allow you to enjoy different types of coffee without being limited to a specific manufacturer. The elegant design conceals a device that will prepare a cup of your favourite beverage from capsules of various brands, including Nespresso and Dolce Gusto. You can also use ground coffee according to your taste. And it's not just about the freedom to choose which brand you like most; at the touch of a button, the multi-capsule coffee maker will prepare a strong espresso, a mild lungo, or a capsule latte for you.

How does the machine work? Practical interchangeable capsule holders allow for easy switching between different types. The coffee machine then sets the pressure, temperature, and extraction method for the specific capsule according to the selected beverage. Multi-capsule coffee machines are ideal for places where everyone prefers a different type of coffee. Whether you use it at home or in the office, you'll love its easy operation, exclusive design, and wide selection of flavours.

WHY CHOOSE SENCOR MULTI-CAPSULE COFFEE MACHINE

- Elegant design and compact dimensions for any kitchen
- Compatible with common capsule types, including Nespresso and Dolce Gusto, also with a ground coffee option
- Easy-to-use digital display
- Programmes for preparing different types of beverages
- Latte and cappuccino with milk frother

CAPSULES, PODS, AND GROUND COFFEE

Multi-capsule coffee machines open up a whole world of flavours, so you no longer have to stick to a single brand. They can prepare delicious drinks from capsules from different manufacturers, and when you feel like something different, they can easily handle pods or freshly ground beans. Finally, coffee your way.

CHOOSE ACCORDING TO YOUR TASTE

Marco Polo Multicapsule Espresso Machine

SCC 3000BK

● SCC 3000BK ○ SCC 3001WH

Get a 3-in-1 multi-capsule espresso machine and discover the rich possibilities of coffee preparation. Just insert a capsule and the machine will prepare a delicious drink in no time. The capsule can then be easily removed, leaving the coffee maker clean and easy to maintain. And if you like coffee with milk, the cofee machine will also treat you to a generous helping of froth, thanks to its frother with a 280 ml milk container.

The machine is controlled via an LED panel on the top of the coffee maker. Simply touch the panel to select your drink and adjust the size to your preferences. You can choose from programs for espresso, lungo, latte, and cappuccino, or prepare hot milk for hot chocolate..
Thanks to its excellent compatibility, you can use capsules from various manufacturers and brands in the coffee machine, including Nespresso® Original* and NESCAFÉ® Dolce Gusto®. You can also use ground coffee beans or E.S.E. pods – coffee bags.

SILKY AND RICH **MILK FROTH**

MILK FROTHERS

If you love a fluffy cappuccino, creamy latte, or macchiato, then you definitely can't do without a milk frother.

The SENCOR machines froth both cold and warm milk or simply heat it up. The attachments are easy to connect thanks to the magnetic mechanism. The integrated thermostat ensures that the resulting milk temperature does not exceed the optimum 68 °C, which is exactly where the milk froth should be. Cleaning is ensured by the non-stick surface.

WHY CHOOSE SENCOR MILK FROTHER

- Heats and froths
- High-quality construction and non-stick materials
- Practical accessories with a modern magnetic system
- Easy to use without overheating
- Stylish design

Milk Frother

SMF 2031BK

○ SMF 2030WH ● SMF 2031BK

How to prepare rich and creamy froth for lattes, cappuccinos, macchiatos, hot chocolate, or even matcha lattes? With the SMF 2031BK milk frother.

The stainless-steel whisk operates at 1100 to 3500 rpm and produces smooth froth in seconds. And not just milk, you can also use the frother for your protein drinks, smoothies, and various fruit drinks.

FEATURES

- **Rich and creamy froth in seconds**
- **Ideal for lattes, cappuccinos, macchiatos, hot chocolate, and matcha lattes**
- **Excellent results thanks to the stainless-steel whisk and 1100-3500 rpm power**
- Design or black version also SES 7220BK
- Double-walled, BPA-free design for easy handling
- Froths whole milk, protein powder, smoothies, and fruit drinks
- Timeless and compact design
- Capacity of 150 ml (frothing)/300 ml (blending)
- Easy on/off
- Easy to clean

FOR THE **UNIQUE AROMA** OF COFFEE

COFFEE GRINDERS

Freshly ground coffee releases aromas and flavors with an intensity that pre-ground blends can never offer. That's why lovers of quality coffee use coffee grinders.

Electric grinders with flat stones are fast, grind evenly, and have a wide range of settings – from fine for espresso to coarser for French press. You can also select the desired number of cups. For maximum convenience, there is the option of grinding directly into the portafilter, which will be especially appreciated by espresso lovers. In addition, the grinder automatically stops when it is done. Portable grinders offer freedom – thanks to their integrated battery, they can handle several cycles on a single charge and can even work while recharging. The ceramic grinding core extends the service life and is easy to maintain. Whether you are at home, at work, or on the go, properly ground coffee can always be with you.

WHY CHOOSE SENCOR COFFEE GRINDER

- Battery-powered or classic electric solution
- Flat stones for fast and even grinding
- Ceramic grinding core with a long service life
- Up to 20 degrees of coarseness from espresso to French press
- Battery for several grinding cycles

Electric Coffee Grinder with Flat Grinding Stones

SCG 5060BK

The electric coffee grinder ensures fast, accurate, and consistent grinding. The flat steel grinding head is extremely durable and, thanks to 20 adjustable grind settings, can prepare coffee for a wide variety of beverages, from espresso to French press.

The grinder is equipped with a 210 g coffee bean container, a rotary selector for 1 to 12 cups, and an automatic stop function. You can direct the ground espresso coffee into the included portafilter adapter. Maintenance is easy, as the grinding disc is removable for easy cleaning.

FEATURES

- **Flat grinding stones ensure fast and accurate grinding**
- **20 degrees of grind coarseness, from fine to coarse**
- **Bean container (210 g)**
- Ground coffee container (120 g)
- Rotary selector for 1 to 12 cups with automatic stop function
- Removable grinding disc for easy cleaning
- Portafilter adapter for direct coffee dispensing

Wireless Coffee Grinder

SCG 4000BK

Want freshly ground coffee wherever you are? Now you can have it, thanks to this compact USB-rechargeable grinder. A powerful 3.7V battery with a capacity of 2000 mAh and a high-speed motor allow the grinder to operate at 23,500 revolutions per minute.

It can handle 15 cycles on a single charge. It can even work while charging, so you'll never be without coffee. The ceramic grinding core is highly resistant to wear and tear, generates less heat during grinding, and is easy to maintain. The package includes a USB charging cable and cleaning brush.

FEATURES

- **Portable, suitable for home and outdoor use**
- **Adjustable grind coarseness**
- **3.7 V, 2000 mAh battery**
- Motor speed 23,500 rpm, grinding is approximately twice as fast as before
- Can operate while charging
- When fully charged, at medium coarseness and full hopper capacity (25 g), it can handle 15 cycles
- Ceramic grinding core with high wear resistance, generates less heat when grinding, washable with water
- Includes USB cable and cleaning brush

COOKING

Every meal is a wonderful opportunity to spend some time with your family and friends. But how to make cooking as easy as possible?

SENCOR appliances will guide you through your day, from a quick breakfast to a tasty lunch, ending with a dinner together.

Hectic mornings will be more relaxed with a kettle that not only boils the water but also keeps it at the desired temperature. Crunchy toast or homemade waffles are conjured up by our toasters and sandwich makers. Lunch can be cooked on an induction hotplate or in one of our microwave ovens. Our vita fryers are here to help with a quick and healthy dinner; after all, it's not only children who love chicken wings. Barbecue fans will be impressed by our electric grills, turning the barbecue season into a neverending delight.

TOP DESIGN FOR YOUR KITCHEN

While the latest technology is hidden inside our products, the cutting-edge design is visible at a glance. In fact, we place as much importance on the appearance of our appliances as we do on impeccable quality and functionality.

Our new kitchen appliance ranges allow you to equip your kitchen with a unified design. And it's not just about the colour palette. The appearance of the kettle, toaster, or even stick blender is linked by elegant elements such as metallic details, textured surfaces, and a logo finish.

ELEGANT COLORS, TEXTURED SURFACES

At first glance, you will be captivated by the elegant colors and precisely crafted, often textured surfaces. The design combines modern simplicity with timeless elegance, allowing our appliances to fit into any style of kitchen.

HOT WATER IN QUIET AND SAFE WAY

ELECTRIC KETTLES

No kitchen can do without an electric kettle. They are fast and practical, and now also extremely quiet! In order to reduce the perceived intensity of the sound emitted by the kettle by half, it was necessary to reduce the noise level by about 10 dB. But we managed to reduce it by more than 20 dB! How is this possible? The latest models have a specially shaped U-shaped bottom and a side-mounted heating element. This directs the flow of bubbles during boiling and reduces noise. Ideal for peaceful mornings with a cup of hot coffee or tea.

We also care about safety. Our double-walled kettles with Cool Touch technology do not heat up on the surface, so you won't burn yourself even when the water reaches boiling point. This is extremely important in families with seniors or children. Of course, we also think about design, and you can choose from a wide variety of options. However, all our kettles have one thing in common – the quality of the materials used. The inner surface of the kettle is made of stainless steel or tempered glass, while the outer shell is made of durable plastic or stainless steel.

WHY CHOOSE SENCOR ELECTRIC KETTLE

- Modern design for any interior
- Easy to use
- New technologies
- High-quality materials
- Powerful and safe
- Box for electric kettles
- Special design
- Extremely quiet operation

EXTREMELY QUIET OPERATION

Conventional kettles have a noise level of around 75 dB, which is equivalent to the noise of a busy street. To reduce the perceived volume by half, the noise level needs to be reduced by 10 dB. However, our new products are a full 20 dB quieter, thanks to their innovative U-shaped base and the placement of the heating element on the sides.

SPECIAL DESIGN

Double-walled Electric Kettle U-Shape with Temperature Control

SWK 0850GY

Every time you use this kettle, you will appreciate everything it can do. It offers a whole range of functions that you can select on the touch panel: preparation of baby food, hot drinks, green, black and white tea or coffee. During boiling, the Safe Touch double-walled construction keeps the outer surface cool to the touch, eliminating the risk of burns.

It is also ideal for larger households, as it has a capacity of 1.7 liters and, with a power input of 1800 W, it heats water really quickly. The bottom is U-shaped for easy cleaning. Operation is pleasantly quiet at only 50 dB. The kettle is equipped with automatic lid opening, a removable limescale filter, automatic shut-off, and boil-dry protection.

FEATURES

- **1.7 l capacity**
- **Touch panel with several options**
- **Safe Touch double kettle**
- Very quiet operation, only 50 dB
- U-shaped bottom for easy cleaning
- The interior of the kettle is made of high-quality SUS 316L stainless steel
- Removable and washable filter against impurities and limescale
- Automatic lid opening
- Stainless steel heating base with covered heating coil
- Safety protection against dry boiling and overheating
- Automatic shut-off
- Power indicator light
- Storage space for power cord in base
- Power input 1800 W

Double-walled Electric Kettle U-Shape

SWK 0800GY

Fast, safe, and durable. That's the SWK 0800GY electric kettle with a generous 1.7-liter capacity.

Its elegant design fits into any kitchen, and the Safe Touch double wall, which keeps the outer surface cool to the touch, will be appreciated not only by families with children. The interior of the kettle is made of high-quality SUS 316L stainless steel, which guarantees a long service life. The 1800 W power ensures fast water heating. However, the kettle is very quiet when in operation, with a noise level of only 50 dB.

FEATURES

- **1.7 l capacity**
- **Safe Touch double kettle**
- **Very quiet operation, only 50 dB**
- U-shaped bottom for easy cleaning
- The interior of the kettle is made of high-quality SUS 316L stainless steel
- Removable and washable filter against impurities and limescale
- Stainless steel heating base with covered heating coil
- Safety protection against dry boiling and overheating
- Automatic shut-off and lid opening
- Storage space for power cord in base
- Power consumption: 1800 W

Variable Temperature Electric Kettle with LED Display

SWK 0950WH

○ SWK 0950WH ● SWK 0951BK

To meet the demands of every drink, the SWK 0950WH offers four different water temperature settings, starting at 40, 80, 90, and 100 degrees. Once the kettle reaches the right temperature, it maintains it for you, leaving you with enough time for your other morning chores.

The 2200 W of power means that water will be ready really fast, without any long delays, and the double wall ensures comfortable yet safe use, making the surface cool to the touch. The quality of the kettle is also confirmed by the materials and technology used: the body is made of SUS 304 stainless steel, the triple safety system ensures trouble-free operation and the central 360° STRIX connector makes it easy to insert the kettle into the base.

FEATURES

- **1.5 litre capacity for the whole family or breakfast with friends**
- **The 2200 W of input power ensures quick water heating**
- **Electronic water temperature control (40-80-90-100 °C)**
- The double wall gives the kettle a safe, cool-to-touch surface
- Keeping the selected temperature and water level indicator makes it easy to use
- High-quality SUS 304 stainless steel
- Central 360° STRIX connector
- Triple safety system
- Indicator lights up during operation

Double-wall Kettle with Temperature Control

SWK 0931BK

This electric kettle in white and black has a generous volume of 1.7 litres. The double wall is very practical, combining the heatproof glass with the highly safe, CoolTouch plastic surface.

This means you definitely won't burn yourself on the body of the kettle. The desired water temperature can be set from 35 to 100 °C, depending on your needs when preparing a beverage or cooking. The white LED indicator and triple safety system, including overheat protection and automatic shut-off, ensure trouble-free use.

FEATURES

- **1.7 l capacity**
- **Double-wall kettle body: borosilicate glass in combination with CoolTouch plastic surface**
- **Temperature range pf 35–100 °C**
- 304 stainless-steel top and bottom cover
- Perfectly transparent watermark ensures easy control of the water level
- White LED indicator
- Triple safety system
- Automatic shut-off
- Overheat protection when switched on without water
- Central 360° STRIX connector
- Power: 2000 W

Double-walled Electric Kettle with Variable Temperature

SWK 0600BK

The kettle stands out with its unique Night Sky design and is also very practical. Thanks to the selectable water temperature, it offers a wide range of options for preparing hot drinks, while the elegant touch LED display allows you to easily and quickly set the temperature from 40 °C for baby milk to 100 °C for evening tea.

The Cool Touch double-walled kettle keeps the surface cool to the touch, which significantly increases safety. Durability and hygiene are ensured by the SUS 304 stainless steel inner shell and removable limescale filter. And if you add a toaster from the 0600 series, you get a matching breakfast set.

FEATURES

- **Water temperature control in the range of 40–100 °C**
- **Cool Touch double-walled kettle**
- **Touch control LED display**
- The kettle is made of high-quality SUS 304 stainless steel
- Keep warm mode
- Water level indicator
- Triple safety system
- Central 360° STRIX connector
- 1.7 l capacity
- Removable limescale filter
- 2200 W power consumption

THE COOL TOUCH SURFACE

GENEROUS 1.7 LITER CAPACITY FOR THE WHOLE FAMILY

Double-walled Electric Kettle with Variable Temperature

SWK 0610BK

Impressive design and practical features. That's the SWK 0610BK electric kettle in Night Sky design. The integrated LED display guides you through the temperature settings and shows the selected program and the current boiling temperature.

Especially when you are busy, you will appreciate the Keep Warm function, which maintains the water temperature. It can be variably set between 40 and 100 °C. The kettle has a double-walled body, with an inner layer of SUS 304 stainless steel and a high-quality plastic outer layer with Cool Touch technology. This keeps the kettle cool to the touch at all times.

FEATURES

- **Touch control panel with LED display**
- **Kettle body equipped with Cool Touch technology – cool to the touch**
- **Temperature can be set between 40–100 °C**
- Capacity: 1.7 l and power consumption: 2200 W
- Triple safety system
- Keep Warm function – maintains temperature
- 360° swivel base with Strix connector
- Safety lid opening with button
- Removable stainless steel filter to catch limescale impurities
- High-quality stainless steel surface (SUS 304)

Double-walled Electric Kettle

SWK 0551BK

○ SWK 0550WH ● SWK 0551BK

Start your day with a cup of tea or coffee that you won't have to wait long for. With a power output of 2200 W, this 1.7-liter electric kettle can heat water in an instant.

The double-walled casing, which does not heat up, and the inner surface made of premium SUS 304 stainless steel guarantee safe and long-term use. The 360° STRIX connector makes handling easy. Boil-dry and overheating protection give you peace of mind. Functionality and modern design come together in perfect balance in this kettle.

FEATURES

- **1.7 l capacity**
- **Double-walled kettle – Cool Touch**
- **The interior of the kettle is made of high-quality SUS 304 stainless steel**
- Automatic lid opening
- Removable and washable filter against impurities and limescale
- Stainless steel heating base with covered heating coil
- Safety protection against dry boiling and overheating
- Automatic shut-off
- Power indicator light
- Central 360°STRIX connector
- Storage space for power cord in base
- Power consumption: 2200 W

Electric kettle with Adjustable Temperature for Pour Over

SWK 2828BK

With this premium 0.6 l stainless steel electric kettle, you too can be a barista. It has been specially designed for lovers of tea and Pour Over coffee. Thanks to the hidden 1000 W heating element and digital control panel, boiling is completely precise. The gooseneck spout allows for gentle and controlled pouring, which is ideal for V60, Chemex, Drip, and other pour-over coffee methods.

The kettle is made of durable SUS304 stainless steel, and the perfectly balanced handle is made of real wood. Of course, it features protection against boiling dry or overheating and automatic shut-off. The kettle can maintain the desired temperature for up to 2 hours.

FEATURES

- **0.6 l capacity**
- **1000 W concealed heating element for fast boiling**
- **Digital display with temperature control panel**
- Precise temperature settings for tea and filter coffee lovers
- Gooseneck spout for gentle pouring with precise control of water flow speed and direction
- Ideal for V60, Chemex, or drip coffee
- Safety protection against boiling dry and overheating
- Automatic shut-off
- Premium quality SUS304 stainless steel for long life
- Two-hour keep-warm function
- Storage space for power cord at the bottom
- Real wood handle – well-balanced, heat-resistant, ensures stable pouring and comfort during use
- Central 360° STRIX connector for safety and long service life

Electric Kettle

SWK 1788 BK

○ SWK 1780WH ● SWK 1788BK

The SWK 1788BK electric kettle heats water for your morning tea or coffee in no time thanks to its 2200 W power. Its 1.7-liter capacity is enough for a cup for everyone, even in a large family.

The durable heating base is covered with a SUS304 stainless steel casing, which gives the appliance a long service life. For maximum safety, the kettle is equipped with boil-dry and overheating protection, automatic shut-off, and a power indicator light. The removable and washable filter traps impurities and limescale, so the water always stays clean and tasty. The 360° STRIX swivel connector makes it easy to handle from any angle, and the power cord storage space in the base helps keep your workspace tidy.

FEATURES

- **1.7 l capacity**
- **Boil-dry and overheating protection**
- **Removable and washable filter for dirt and limescale**
- High-quality SUS304 stainless steel for long life
- Automatic shut-off
- Power indicator light
- Transparent water level indicator

Electric Kettle

SWK 7510WH

○ SWK 7519BK ● SWK 7510WHK

This stylish 1.7 l electric kettle conveniently and quickly boils water for your morning coffee or tea. The transparent water level indicator allows you to easily check the amount of water, while the automatic lid opening makes filling easier.

The removable and washable filter catches impurities and limescale, so the water is always clean. The stainless steel heating base with a covered coil ensures even heating and easy maintenance. Boil-dry and overheating protection, as well as an automatic shut-off function when boiling, ensure safe operation. The kettle is equipped with a power indicator light and a central 360° STRIX connector for convenient placement from any angle. Integrated storage space for the power cord helps keep your workspace clean and tidy.

FEATURES

- **1.7 l capacity**
- **Transparent water level indicator**
- **Automatic lid opening and shut-off**
- Removable and washable filter for impurities and limescale
- Stainless steel heating base with covered heating coil
- Safety protection against boiling dry and overheating
- Power indicator light
- Central 360° STRIX connector
- Power cord storage in the base
- Power consumption: 2200 W

Dark Line Glass Electric Kettle

SWK 2711BK

This elegant electric kettle from the Dark Line series has a modern look. The dark surface combines with durable borosilicate glass, which is resistant to sudden temperature changes. With a capacity of 1.7 liters and a power input of 2200 W, it can effectively bring water to a boil. The stainless steel heating base with a concealed heating element not only supports rapid heating, but also easy maintenance.

A double-sided water level indicator, automatic lid opening, and removable limescale filter ensure convenient everyday use. Safety during operation is guaranteed by boil-dry and overheating protection and automatic shut-off. Practical details such as a power indicator light and storage space for the power cord add to the overall user comfort.

FEATURES

- **Dark Line designer breakfast set with other kitchen products**
- **1.7 l capacity**
- **Borosilicate glass (resistant to temperature changes)**
- Double-sided water level indicator
- Automatic lid opening
- Removable and washable filter against impurities and limescale
- Stainless steel heating base with covered heating coil
- Safety protection against boiling dry and overheating
- Automatic shut-off
- Power indicator light
- Central 360° STRIX connector
- Storage space for power cord in base
- Fast water heating thanks to high power consumption of 2200 W

Glass Electric Kettle with Temperature Control

SWK 1595BK

With a generous 1.5-liter capacity and variable temperature control from 35 °C to 100 °C, this kettle heats water for any beverage, whether you're preparing delicate green tea for the whole family or a strong French press for yourself.

Thanks to its high-performance 2150W heating element, it does so quickly and efficiently. The temperature maintenance function and audible on/off indicator ensure convenient use. Safety is paramount, so the kettle has a double protection system. Borosilicate glass and stainless steel give this appliance an elegant look that will fit into any kitchen.

FEATURES

- **1.5 l capacity**
- **Variable water temperature settings from 35 to 100 °C**
- **Powerful 2150 W heating element**
- Temperature maintenance function
- Audible start/stop indication
- Double safety system
- Central 360° STRIX connector
- Elegant stainless steel design with high-quality borosilicate glass body

Dark Line Electric Kettle

SWK 2710BK

This elegant electric kettle belongs to the Dark Line design series, which also includes other stylish kitchen appliances. Its modern black design with clean lines and thoughtful details will stand out in any kitchen. The 1.7-liter capacity is enough for breakfast for the whole family.

You can check the water level through the transparent water gauge, and the automatic lid opening makes filling easy. The stainless steel heating base with a covered coil ensures fast and even heating. The removable and washable filter catches impurities and limescale. Safe operation is ensured by boil-dry and overheating protection, as well as an automatic shut-off function when the boiling point is reached. A practical power indicator light informs you when the appliance is in operation, and the 2200 W power output can heat water in a matter of moments.

FEATURES

- **Dark Line designer breakfast set with other kitchen products**
- **1.7 l capacity**
- **Transparent water level indicator**
- Automatically opening lid
- Removable and washable filter against dirt and limescale
- Stainless steel heating base with covered heating coil
- Safety protection against boiling dry and overheating
- Automatic shut-off
- Power indicator light
- Central 360° STRIX connector
- Storage space for power cord in base
- Fast water heating thanks to high power consumption of 2200 W

Electric Kettle

SWK 1738WH

The modern SWK 1738WH electric kettle with a capacity of 1.7 liters combines high performance with practicality and safety. Thanks to the automatic lid opening, water level indicator and washable filter, everyday use is not only convenient but also hygienic.

The concealed heating element in the stainless steel base ensures fast and even heating of the water. Safety features include overheating protection, boil-dry protection and automatic shut-off when boiling.

REMOVABLE
LIMESCALE FILTER

FEATURES

- **Capacity: 1.7 l**
- **Transparent water level indicator for easy water level control**
- **Automatic lid opening for convenient filling**
- Removable and washable filter against dirt and limescale
- Stainless steel heating base with concealed heating coil
- Safety protection against overheating and boiling dry
- Automatic shut-off when boiling point is reached
- 360° STRIX central connector for easy handling
- Power indicator light
- Power cord storage in the base

- Storage space for power cord in base
- BPA-free plastics
- Power consumption: 2200 W

Travel Electric Kettle

SWK 170SS

The compact SENCOR SWK 170SS kettle with a capacity of 0.5 liters is ideal for travel and small kitchens. The concealed 1100 W heating element ensures fast hot water preparation, and the body is made of high-quality stainless steel.

Filling with water is extremely easy, as there is no need to open or remove the practical lid. You can check the water level through the transparent window on the side of the kettle. Safety is ensured by an overboil and overheating protection device and an automatic shut-off function when the boiling point is reached. A removable filter protects against impurities and limescale. The package also includes two plastic cups and spoons.

EASY WATER REFILL

FEATURES

- **Volume 0.5 l**
- **Concealed heating element, power consumption 1100 W**
- **Two cups and spoons made of BPA-free material included in the package**
- Drip-free pouring
- Special lid cover for easy filling
- Safety protection against boiling dry and overheating
- Automatic shut-off
- Premium quality stainless steel for long life
- Removable and washable filter against impurities and limescale
- Storage space for the power cord at the bottom of the kettle

Travel Electric Kettle

SWK 160SS

You will appreciate the SWK 160SS kettle on vacation, business trips, and when camping. With a volume of 0.5 l and a power consumption of 1100 W, it heats water really quickly. It is made of durable borosilicate glass, which reliably withstands temperature changes.

The special lid allows for convenient filling. Two cups and spoons are included, so you always have everything you need to prepare a drink at hand. Of course, it features drip-free pouring and a removable, washable filter to prevent dirt and limescale build-up.

FEATURES

- **Volume 0.5 l**
- **Concealed heating element, power consumption 1100 W**
- **Two cups and spoons made of BPA-free material included**
- Drip-free pouring
- Special lid cover for easy filling
- Safety protection against boiling dry and overheating
- Automatic shut-off
- Borosilicate glass – resistant to temperature changes
- Removable and washable filter against dirt and limescale
- Storage space for power cord in the base
- Central 360° connector for easy placement on the base

Travel Electric Kettle

SWK 150RD

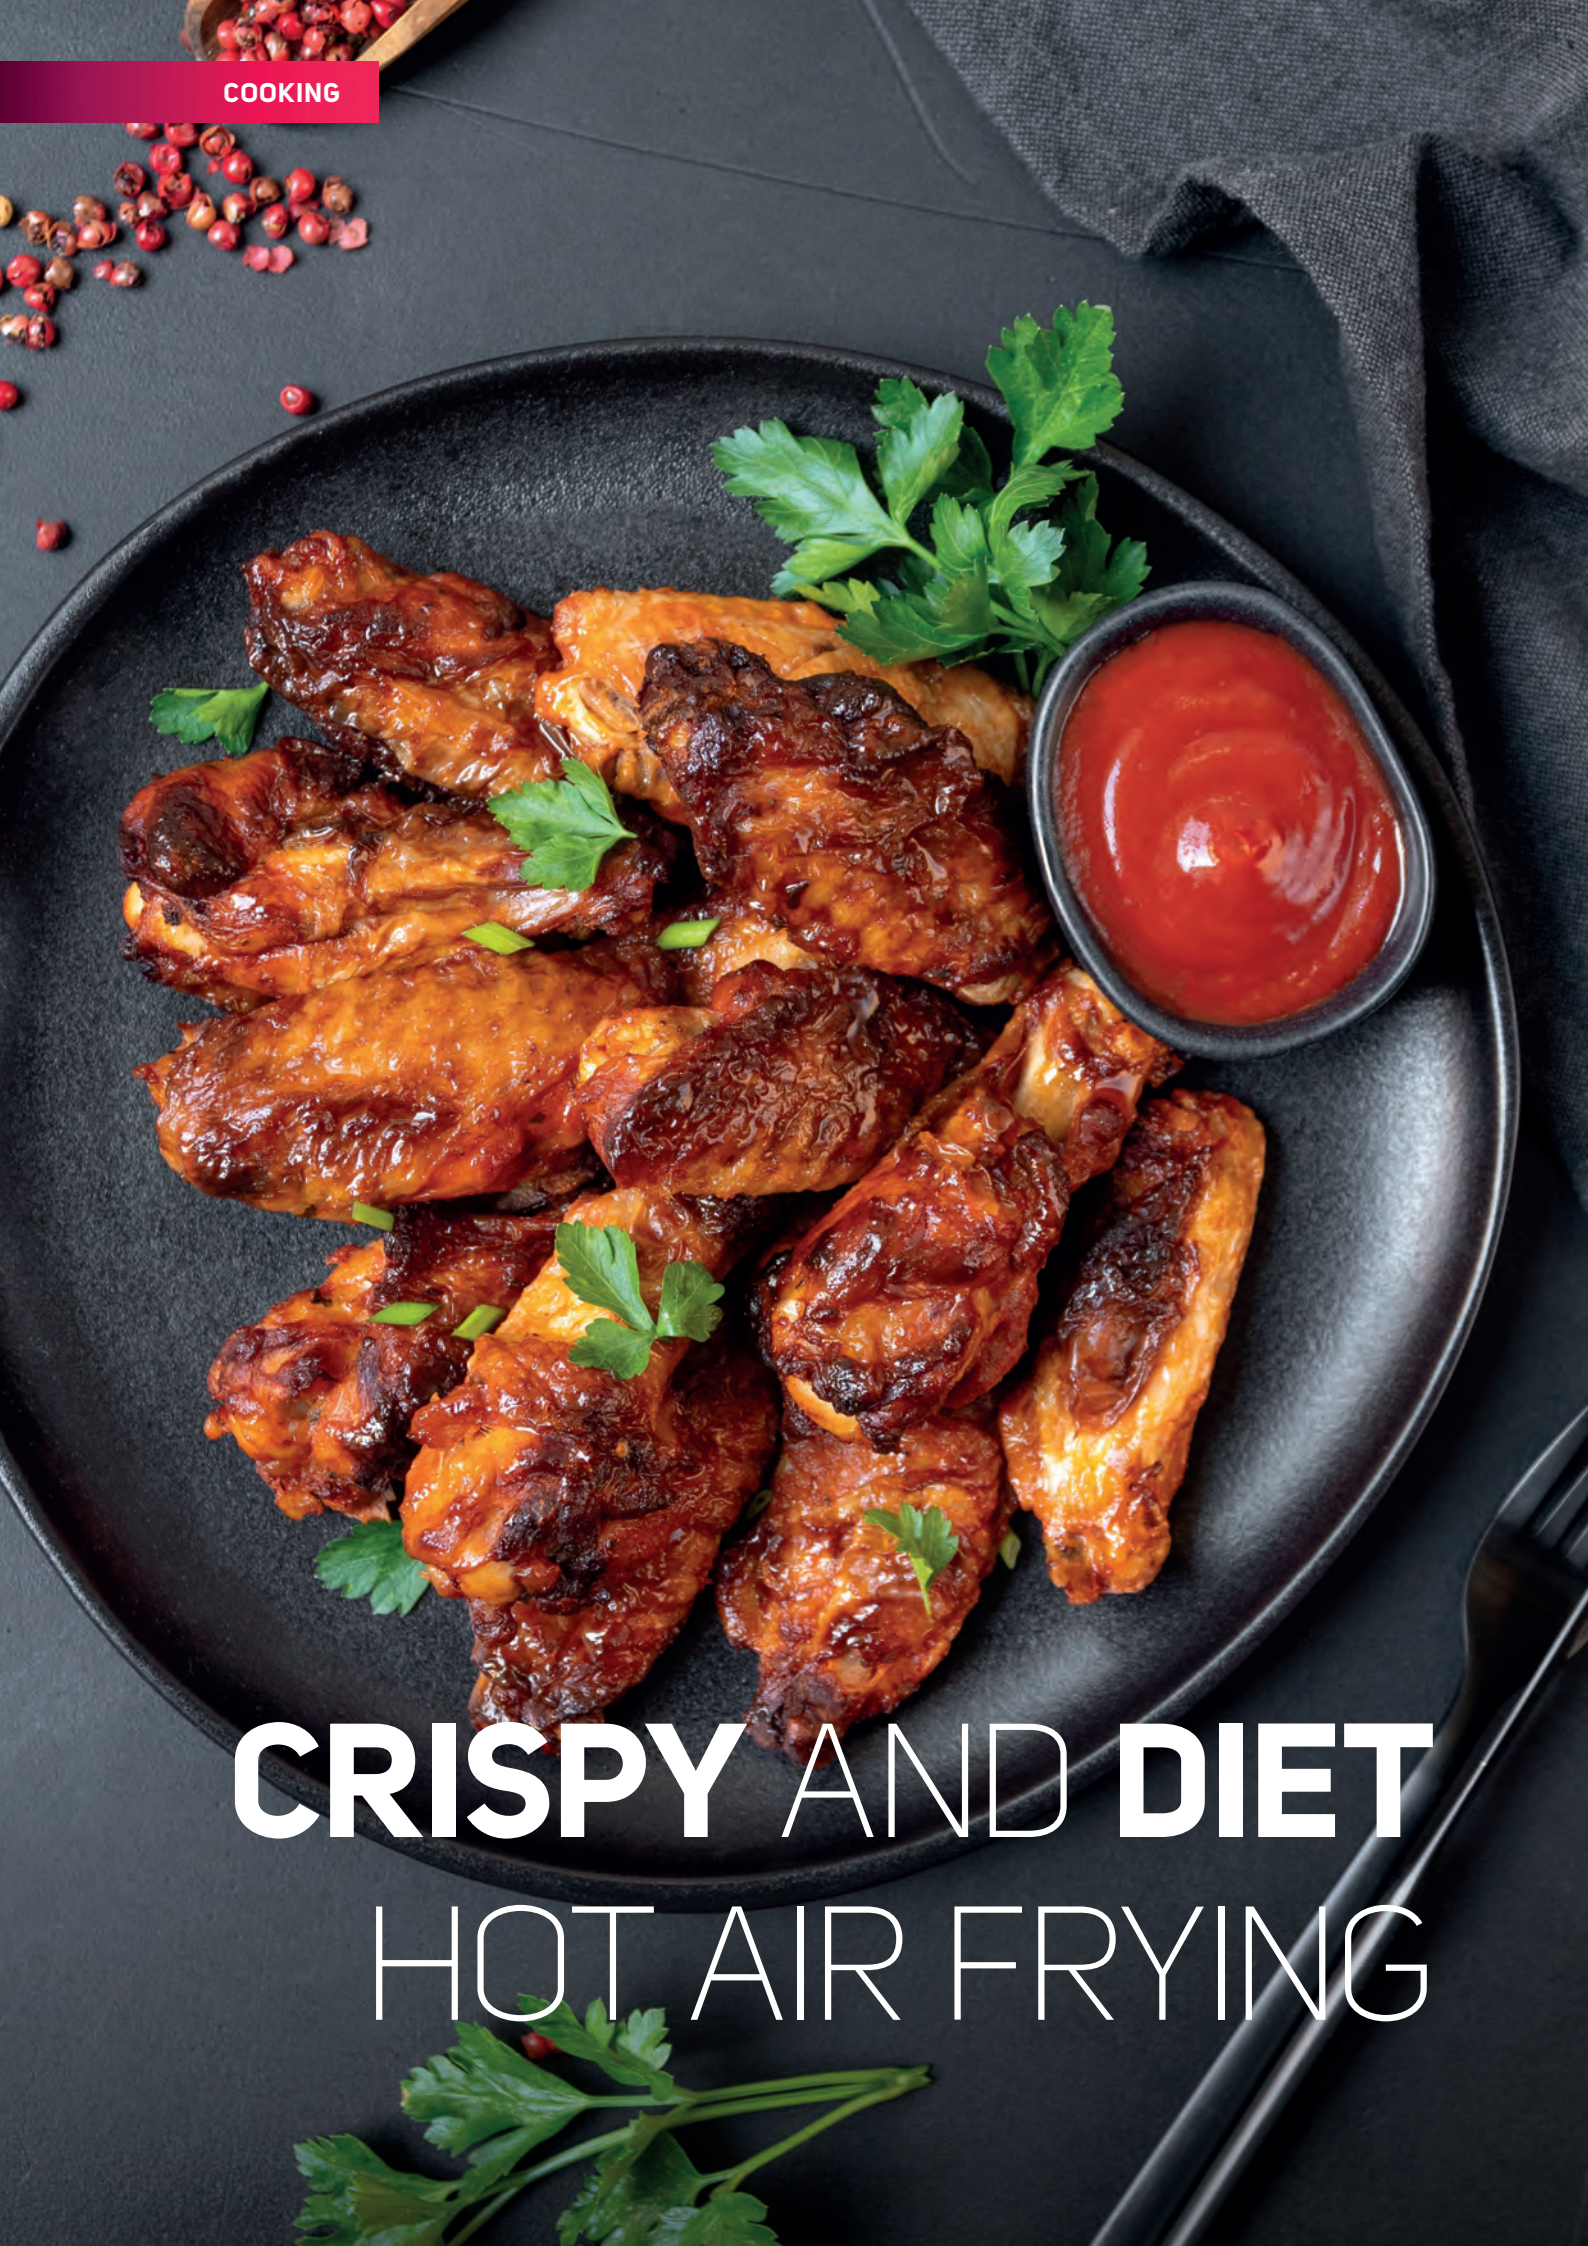

Even the fact that you're on the road doesn't have to deprive you of the opportunity to brew a hot drink. This kettle is just ready to travel.

The smaller 0.5 litre capacity ensures that it's easy to move around, and with the included cups and spoons, you don't have to search for a travel cookware. The appliance offers you everything you know from classic kettles: a double-sided watermark, an anti-calc filter and a backlit switch.

FEATURES

- **The 0.5 l capacity is ideal for travelling**
- **The 1100W covered heating coil gives the kettle a decent output**
- **Two cups and two spoons included so you don't have to deal with travel cookware**
- Convenient to use thanks to a special anti-drip spout and double-sided watermark
- Button to open the lid, on/off switch with backlight
- Removable and washable filter against calcium deposits
- Safety protection against overheating when switched on without water
- Automatic shut-off

CRISPY AND **DIET**
HOT AIR FRYING

VITA FRYERS

Want to eat fried foods while avoiding unnecessary fat? With hot air fryers from SENCOR, you can! They fry with minimal oil or no oil at all. This makes them a healthier alternative to traditional frying. How do they work? They use special technology that circulates hot air evenly and fries food from all sides, making it crispy on the outside and juicy on the inside.

Preparing food is easy; you can use one of the preset programs. Depending on the selected product, these programs can handle not only fries and chicken, but also pizza, steaks, vegetables, hamburgers, and even cakes. The models have different capacities, so there is something for everyone, whether you need smaller portions or food for the whole family.

Advanced models also have a SyncFinish function, which coordinates the completion of two different dishes. Then all you have to do is wish everyone bon appétit.

WHY CHOOSE SENCOR VITA FRYER

- Highly efficient and fast operation
- Innovative solutions for healthier cooking
- Special nano-ceramic filter suppresses odours
- Many programmes and functions to select
- LED touch display guarantees easy operation
- Large volume and practicality
- Designed for every kitchen

FOR HEALTHIER EATING

OIL-FREE FRYING
No more excess fat; frying can also be accomplished by hot air. For perfect results, SENCOR hot air fryers use variable temperatures between 60 and 200 °C, allowing you to prepare tasty and healthier food for yourself, family, and friends.

Vita Fryer

SFR 9650BK

Which hot air fryer can cook French fries and fish fingers simultaneously? The SFR 9650BK certainly does! In fact, the generous 9-litre capacity can be divided into two segments by the non-stick plate if required, and the SyncFinish function harmonises the final cooking time in both sections. What's more, the appliance can fry healthily using two different temperatures at the same time.

Use the digital display to select one of eight programmes or set the temperature and time to meet your preferences. You'll enjoy a healthier alternative to traditional frying, without the burnt oil or smell.

FEATURES

- **Total capacity of 9 l or 2 x 4.5 l**
- **One large basket or two sections separated by a non-stick moving plate**
- **Digital display and 8 selectable programmes**
- Manual cooking time and temperature adjustments (80–200 °C)
- Option to set two different temperatures simultaneously
- SyncFinish function to synchronise the final cooking time in both baskets
- Removable fryer grid with a non-stick surface for easy cleaning
- Large transparent window for monitoring the cooking process
- Handle surface cool to the touch
- Automatic shut-off
- Power: 2700 W

Hot Air Fryer

SFR 9000SS

Enjoy a feast without remorse, the SENCOR SFR 9000SS hot air fryer with an extra-large 9-liter capacity will prepare your favorite foods in a healthier way. Instead of traditional frying in oil, crispy dishes are ensured by the even flow of hot air. No more odors and burnt oil, yet you can still enjoy schnitzel and French fries. But that's not all.

Thanks to the wide temperature range (40 to 200 °C), you can bake croissants or even a bundt cake. The appliance is easy to operate on a large LED display, where you can choose from 7 preset programs.

FEATURES

- **Healthy frying system without the use of oil**
- **Extra large 9 l capacity**
- **Temperature range 40 to 200 °C**
- Large transparent window with light
- Easy to use color LED display
- 7 selectable programs
- SHAKE function with reminder to stir the food
- 60-minute timer with automatic shut-off

Hot Air Fryer

SFR 6900BK

Circulating hot air cooks food to perfection, crispy on all sides. You can enjoy frying, roasting, and even baking sweet dishes. Enjoy your favorite meat, fries, vegetables, or cheese in a healthier form. The unique large viewing window is conveniently located on top of the fryer, allowing you to easily and quickly monitor the entire process. The 12 programs make preparing various dishes as easy as possible.

The temperature can be set on the clear LED display in the range from 80 to 200 °C and the timer up to 60 minutes. After the selected time has elapsed, the fryer switches off and an audible signal sounds. The Shake function is very useful, reminding you with a signal when the food needs to be stirred. This ensures perfectly cooked delicacies with minimal effort. Maintenance is very easy – the removable frying basket grid has a non-stick surface, so all you need to clean it is a little detergent and a sponge.

FEATURES

- **6.5 l capacity**
- **Top viewing window**
- **LED display**
- 12 preset programs
- Temperature range 80 to 200 °C
- 60-minute timer
- SHAKE function
- Manual temperature and cooking time settings
- Power consumption 1700 W

Smart Vita Fryer

SFR 6600SS

The SFR 6600SS Smart Vita Fryer not only prepares crispy meals without a single drop of fat, but it can also communicate with the SENCOR HOME app via Wi-Fi.

Thanks to its 1600 W of power, it heats up in just three minutes, and the temperature can be set from 80–200 °C. To make it even easier to use, the fryer has 10 selectable programs and an LED display. Safe use is ensured by the cool-to-the-touch surface and automatic shut-off function.

FEATURES

- **Capacity of 6.5 l**
- **The power input of 1600 W ensures fast heating in 3 minutes**
- **LED display and touch control sensors**
- 60-minute timer with an audible alarm
- Temperature setting range between 80–200 °C
- 10 selectable programs
- Oil-free frying is healthier and odour-free
- Removable non-stick grid for easy cleaning
- Cool-to-the-touch surface and automatic shut-off features enhance safety
- SENCOR HOME mobile app

Vita Fryer

SFR 6551WH

○ SFR 6551WH ● SFR 6550BK

The SFR 6551WH hot-air vita fryer completely changes frying. It makes food that's both delicious and healthy. With a capacity of 6.5 litres and an input of 1600 watts, it has the size and power you need to prepare meals for the whole family.

Moreover, it does so completely oil-free, while avoiding burnt fat, odours, and unpleasant fumes. The elegant LED display and touch control sensors allow you to intuitively set up and monitor the cooking process. The fryer heats up in just 3 minutes, so you can quickly start preparing your favourite dishes. The 60-minute timer with a sound signal and 10 programmes make cooking easy. The temperature can be set from 80 °C to 200 °C, and the surface stays cool during cooking, which is important for your safety.

FEATURES

- **Volume: 6.5 l**
- **Power input of 1600 W**
- **LED display and touch control sensors**
- Quick heat up in 3 minutes
- 60-minute timer with audible alarm
- Temperature setting range of 80–200 °C
- 10 selectable programmes
- Oil-free frying system
- A healthier alternative to traditional frying methods
- No burnt oil, odour reduction
- Removable fryer grid with a non-stick surface for easy cleaning
- Cool-to-the-touch surface
- Automatic shut-off
- Modern compact design

Hot Air Fryer

SFR 5050BK

With the SENCOR SFR 5050BK hot air fryer, you can enjoy your favorite fried delicacies in a healthier form – without using oil. Thanks to its 5-liter capacity, you can easily prepare food for the whole family in much less time than with traditional cooking.

The controls are intuitive, and you can conveniently select one of 10 programs or choose your own settings on the clear LED display with touch panel. A great bonus is the automatic water injection function when preparing meat to make it even juicier and tastier.

WATER SPRAY FUNCTION

FEATURES

- **Power 1500 W**
- **Capacity 5 l**
- **Advanced hot air circulation technology**
- A healthier way to prepare food compared to traditional frying
- 10 preset programs for easy meal preparation
- Wide temperature range from 40 to 200 °C
- Water injection technology for juicier meat
- Intuitive color LED touchscreen display for convenient control
- Designer lighting

Dual Hot Air Fryer

SFR 1250BK

Why is the SFR 1250BK hot air fryer dual? It allows you to prepare meat and side dishes at the same time, thanks to two separate baskets. You can also divide the baskets into two parts, so the appliance can fry up to four different foods at once.

The SyncFinish function synchronizes the process so that you can serve your lunch or dinner right away. This model makes cooking much easier, with a choice of 10 automatic programs that take care of the entire preparation process. However, if you want to customize the process to suit your needs, you can set the temperature from 40 to 200 °C and the time up to 60 minutes. Everything is displayed on a digital color display. Limited space is not a problem, as the slim design with cleverly placed baskets does not require much space.

FEATURES

- **Capacity 2× 5.8 l (total capacity 11.6 l)**
- **10 preset programs**
- **Temperature settings 40–200 °C**
- 60-minute timer with automatic shut-off
- Easy maintenance
- Oil-free frying system
- Non-stick surface without burning
- SyncFinish function for basket synchronization

Multifunctional Fryer/Grill

SBG 8900SS

With the SBG 8900SS multifunctional fryer and grill, you'll really enjoy preparing your meals. The appliance has a large capacity and an impressive power input, so it can handle both frying and grilling with ease. The LED display shows the temperature and time, and the 7 selectable programmes can be used for baking, hot-air baking, food drying, fries, and preparing beef and grilled dishes.

The appliance operates over a temperature range of 40 °C to 265 °C, giving it great variability. It uses air circulation for oil-free frying. The equipment also includes a grill basket and plate. The cool-to-touch lid ensures safe operation. The removable container with a non-stick surface is easy to clean. With its modern, compact design, the SBG 8900SS is a perfect fit for any kitchen.

FEATURES

- **Volume: 6 l**
- **Power input of 1660 W**
- **LED display with time and temperature**
- 7 selectable programmes: roasting / hot air baking / food drying / chips / beef / grilling / manual
- Grill control settings: low / medium / medium-high / high temperature
- Wide temperature range of 40–265 °C
- Oil-free frying system
- Hot air circulation for best cooking results
- Removable container with a non-stick surface for easy cleaning
- Cool-to-touch lid
- Modern, compact design

ACCESSORIES

GRILL BASKET
GRILL PLATE

Multifunctional Fryer

SFR 9400WH

○ SFR 9400WH ● SFR 9300BK

The modern SENCOR SFR 9400WH Multifunctional fryer is here to give you a variety of tasty meals. It not only prepares delicious fried dishes, but it also cooks side dishes, makes soup, and even conjures up fresh yoghurt.

All programs are automatic, and the clear LED display is a great help in navigating the settings. You can also choose from advanced cooking techniques like sous-vide, which is a great way to cook juicy steaks with all the flavours, aromas, and nutrients remaining in the meat. Quick frying is also useful for vegetables and meats in Asian cuisine, for example. But that's not all: the SENCOR SFR 9400WH can also cope with the classic thermal preparation necessary to make yoghurt.

This appliance provides 18 cooking modes, including baking, roasting, soups, stewing, slow cooking, rice, yoghurt, popcorn, and warming, as well as a Keep Warm function. Then there's the handy fry basket for frying the most delicious chips and cutlets. And of course, it comes with a secure lid for even steam evacuation with a heat-insulated handle.

FEATURES

- **1800 W of power, and the multifunctional food preparation cuts the cooking process by more than half**
- **18 automatic food preparation programs (searing, browning, grilling, baking, boiling, frying, slow cooking, quick broth, deep frying, hot pot, steaming, rice cooking, fondue, yoghurt, popcorn)**
- **Large LED display for comfortable operation**
- Manual temperature setting from 40–240 °C
- Removable 4.8 l non-stick inner container
- Automatic shut-off function
- Extensive accessories (steamer, sous-vide grid, 6× fondue forks, frying basket) and easy maintenance

ACCESSORIES

STEAMER, SOUS-VIDE RACK, 6 FONDUE FORKS, FRYING BASKET

FROM SANDWICHES TO MEAT

SANDWICH MAKERS

Would you like crispy sandwiches, fragrant paninis, warm baguettes, or sweet waffles? Our sandwich makers will take care of everything! Thanks to interchangeable non-stick plates, they can be adapted to whatever you feel like eating.

Selected models even allow you to prepare juicy meat. Even children can prepare a quick snack, as the sandwich makers are extremely easy to use.

Thanks to the non-stick surface, the plates are easy to clean and the appliances take up very little space when stored vertically.

WHY CHOOSE SENCOR SANDWICH MAKER

- Prepares grilled sandwiches, paninis, waffles, and other delicacies
- Selected models can even grill meat
- Interchangeable plates for greater versatility
- Easy maintenance thanks to the non-stick surface
- Simple operation and elegant design

6-in-1 Sandwich Maker

SSM 9860

COOL TOUCH

The SSM 9860 sandwich maker can do much more than just crispy sandwiches – with six interchangeable plates, it can also make paninis, waffles, pancakes, children's pancakes, or small cakes.

The extra-deep baking surfaces with non-stick coating are easy to clean, and thanks to the automatic temperature control and two indicator lights, you always know when it's time to start baking. The heat-insulated handle and safety lock ensure peace of mind during use. When finished, the sandwich maker can be stored upright, so it doesn't take up much space.

FEATURES

- **For sandwiches, grilled meat, waffles, pancakes, or muffins**
- **6 interchangeable extra-deep plates**
- **Easy-to-clean baking surfaces with non-stick coating**
- Heat-insulated handle
- Operation indicator – red light
- Heating indicator – green light
- Can be stored upright
- Safety thermal fuse
- Automatic temperature control

PERFECT RICE, SIMPLE AND **EASY**

RICE COOKERS

Cooking rice to perfection isn't always simple — some dishes call for light, fluffy grains, while others need a pleasantly sticky texture. SENCOR rice cookers make it easy to achieve just the right result every time, and they'll be appreciated by anyone, not only fans of Asian cuisine.

These handy appliances can prepare every type of rice, including sushi rice, with ease. Simply select the desired program and let the machine do the rest — no need for constant attention. The most advanced models even include low-carb, low-sugar technology, capable of reducing the carbohydrate content by up to 40 percent.

With a rice cooker, there is no risk of the water boiling away or overflowing. This is ensured by special safety features and a unique steam release valve. Is cooking rice not enough? Then we have something extra! Our appliances can prepare oatmeal exactly as thick as you like, or cook legumes until they are perfectly soft. That's worth it, don't you think?

WHY CHOOSE SENCOR RICE COOKER

- Powerful, energy-saving appliance
- Low-carb, low-sugar technology to reduce carbohydrate content by up to 40%
- High-quality functional materials for better results
- Automatic operation saves time
- Various adjustable modes and programmes for rice and other dishes
- Digital display for easy operation
- Practical functions and safety features
- Easy to clean and timeless design

LOW CARB

This technology separates the excess sugar from the starch during cooking, reducing the carbohydrate content of the rice by up to 40%. However, the taste and texture of the rice remain unchanged. This makes it ideal for diabetics and health-conscious individuals.

LOW SUGAR

Low-carb Rice Cooker

SRM 0670WH

○ SRM 0670WH ● SRM 0671BK

This rice cooker features something really special: the Low-Carb, Low-Sugar function. This technology reduces the carbohydrate content of rice by up to 40%, separating excess sugar from starch during cooking without compromising the taste or texture of the rice. This makes it ideal for diabetics and health-conscious individuals.

The 1.6-litre capacity is perfect for couples, and the eight different functions include sushi, white rice, quick cooking, low carb, risotto, brown rice, and even cake and steam. The digital touchscreen makes everything easy to set up, while the delayed start, temperature hold, and auto shut-off functions also make the device pleasant to use.

FEATURES

- **Compact size for any kitchen, the 1.6-litre capacity is ideal for couples**
- **8 cooking functions - sushi, white rice, quick cook, low carb, risotto, brown rice, cake, steam**
- **Digital touchscreen makes it easy to use**
- Aluminium inner pot with a non-stick surface and stainless-steel steaming basket
- Delayed Start, Keep Warm, and Auto Shut-Off functions
- Premium and modern design

ACCESSORIES

RICE SPATULA, MEASURING CUP, STEAMING BASKET

Rice Cooker with Induction Heating

SRM 3900BK

The SRM 3900BK rice cooker uses induction technology for even and fast heating. With a three-liter capacity, you can prepare enough servings for the whole family, and of course in the highest quality. There are 13 preset programs available not only for different types of rice, but also for porridge, soups, and other dishes.

The appliance is controlled via a clear touchscreen display. Convenient features include a delayed start, a Keep Warm mode that maintains the optimal temperature without overcooking, and an automatic shut-off. The premium inner pot with a non-stick surface does not burn and is easy to clean.

INDUCTION TECHNOLOGY FOR EVEN AND FAST HEATING

FEATURES

- **Induction technology for even and fast heating and cooking perfect rice**
- **3-liter capacity – ideal for the whole family**
- **13 preset programs for all types of rice, porridge, soups, and other dishes**
- Touchscreen display
- Premium inner pot with non-stick surface
- Delayed start
- Keep Warm function (keeps rice warm without overcooking)
- Auto shut-off function
- Easy to clean (removable steam valve, inner lid and pot)
- Modern design suitable for any kitchen

ACCESSORIES

RICE SPATULA, MEASURING CUP, STEAMING BASKET

Low-carb Rice Cooker

SRM 2000WH

Cut down on the carbohydrates in rice and live a healthier life. The SRM 2000WH Rice Cooker uses Low-Carb, Low-Sugar technology to reduce carbohydrates by up to 40% by separating excess sugars from starch during cooking.

However, the taste and texture of the rice remain unchanged. This process is ideal for diabetics and anyone looking to change their diet. The appliance offers ten different functions, including slow cooking, quick rice, cereal, reheating, porridge, low-carbohydrate rice, sticky rice, claypot rice, soup, and stew. Using the device is as easy as possible thanks to the digital touchscreen used to set everything up.

FEATURES

- **Low-Carb, Low-Sugar function reduces carbohydrates by up to 40%**
- **Compact design, total volume of 2 litres**
- **10 cooking functions - slow cook, quick cook rice, cereal, reheat, porridge, low-carb rice, sticky rice, claypot rice, soup, stew**
- Digital touchscreen and unique transparent design with a light
- Convenient features: Delayed Start, Keep Warm, Auto Shut-Off
- Stainless-steel inner container and steaming basket

ACCESSORIES

RICE SPATULA, MEASURING CUP, STEAMING BASKET

Rice Cooker

SRM 1600WH

This elegant rice cooker with a digital display and a capacity of 1.6 liters can cook not only rice, but also porridge, soups, and other dishes. Rice is ready in just 30 minutes, and the Keep Warm function keeps it warm until it's time to serve.

The inner aluminum pot with a non-stick ceramic surface is easy to clean, as nothing sticks to it. The delayed start function, automatic shut-off, and non-slip feet contribute to its convenient use. The package includes a practical rice spatula, measuring cup, and steaming rack.

FEATURES

- **For preparing rice, porridge, soup, and other dishes**
- **Digital display**
- **Inner aluminum pot with non-stick ceramic coating**
- 1.6 l capacity (1300 g of dry rice)
- 5 preset programs for all types of rice, porridge, soups, and other dishes
- Delicious rice in 30 minutes
- Delayed start function
- Automatic shut-off after cooking is complete, followed by a switch to the Keep Warm function (keeps rice warm without overcooking)
- Premium modern design suitable for any kitchen
- Easy to clean (removable inner pot with non-stick surface)
- Non-slip feet

ACCESSORIES

RICE SPATULA, MEASURING CUP, STEAMING RACK

MAXIMUM FLAVOR WITH MINIMUM WORK

SLOW **COOKERS**

Meals full of rich taste, yet made with little effort – that's slow cooking, today's modern trend, which preserves all the essential vitamins, minerals and natural juices in food. SENCOR slow cookers are perfectly in line with this trend since they prepare healthy food without adding unnecessary fats or flavourings. With a 6-litre cooking pot, they feed up to seven diners.

All you have to do is cut up the ingredients, put them in a pot and press one of the settings on the digital controller. The appliance can, for example, cook meat for 14 hours, until an absolutely perfect broth is ready, while 8 hours are enough for an amazing gravy. Moreover, SENCOR slow cookers are multifunctional, can cook light meals in steam, roast, and, thanks to their five frying pre-sets, even prepare the most amazing schnitzels and fries far and wide. The slow cooker works overnight, while you are at work or even on a trip. However, it always welcomes you home with the aroma of an amazing, freshly prepared meal.

WHY CHOOSE SENCOR SLOW COOKER

- Powerful and fully automatic operation
- Quality, non-stick PFOA-free coating with ideal heat transfer
- Perfect for healthy cooking
- Easy digital control
- Choice of pre-set functions
- Practical design and large volume

Multifunctional Slow Cooker and Grill

SPR 6300BK

This versatile kitchen helper serves as a grill, slow cooker, rice cooker, and even a steamer. It's big enough for a large family, holding up to 8 portions of food. You can easily set everything up using the digital display.

The pot works fully automatically so you can focus on other, more important things. There are five pre-set cooking functions: Low Slow Cook, High Slow Cook, Sear, Sauté, and Steam, but you can also adjust your own cooking time and temperature. Once the food is ready, the cooker keeps it at the optimum serving temperature. In addition to the 6-litre aluminium inner pot with a non-stick surface, the appliance is equipped with an aluminium grill pan, a plastic steaming pot, and a tempered glass lid.

FEATURES

- **Multifunctional use as a grill, slow cooker, rice cooker, steamer, etc.**
- **Ideal for large families, prepares up to 8 servings of food**
- **Easy to operate with digital display and fully automatic operation**
- 5 pre-set cooking functions: Low Slow Cook / High Slow Cook / Sear / Sauté / Steam
- Manual adjustment of cooking time and temperature
- Temperature maintenance function, temperature range: 40–200 °C
- 6 l aluminium inner pot with a non-stick surface
- Aluminium grill pan, plastic steaming pot, and tempered glass lid
- Elegant stainless-steel design, suitable for any kitchen

Slow Cooker

SPR 5520SS

Enjoy incredibly easy cooking with the SPR 5520SS slow cooker while preparing various soups, stews, jams, lamb or beef, vegetables, and eggs.

Tasty results can be achieved by using any of the five pre-set functions; choose from very slow cooking, slow cooking, white rice, steaming, and sauté. Use the display and rotary dial to easily start cooking. With a generous 5.5 litre capacity, the cooker is ready to prepare food for the whole family, while the Keep Warm function maintains its ideal temperature until you're all together around the table. Clean-up is also hassle-free, as the non-stick aluminium inner pot prevents any burn-ons.

FEATURES

- **Easy to use with display and rotary dial**
- **5 pre-set modes: very slow cooking, slow cooking, white rice, steaming, and sauté**
- **5.5 l container capacity - suitable for the whole family**
- Non-stick aluminium inner pot for multifunctional use
- Elegant stainless-steel design, suitable for any kitchen
- Lid made of tempered glass for a long lifespan
- Keep Warm function keeps food at the ideal temperature
- Excellent for cooking soup, stew, jam, lamb, beef, vegetables, eggs, etc.

ACCESSORIES

RICE SPATULA, MEASURING CUP

EXCELLENT APPLIANCES TO FOLLOW YOU

CERAMIC COOKTOPS

Our ceramic hotplates are so compact and lightweight that you can take them anywhere. Having them around there is no need to compromise on cooking, even at the cottage, cabin, or campsite.

You can choose from single- or dual-plate units depending on how many diners you need to feed. Operation and maintenance are easy: use the knob to adjust the power and simply wipe clean the perfectly smooth ceramic surface.

WHY CHOOSE SENCOR CERAMIC COOKTOP

- Lightweight and compact, ideal for travel
- Easy to use with the rotary control dial
- Smooth surface makes maintenance easy
- Suitable for cooking, frying, stewing, and warming food

Double-hotplate Induction Cooker

SCP 5414GY

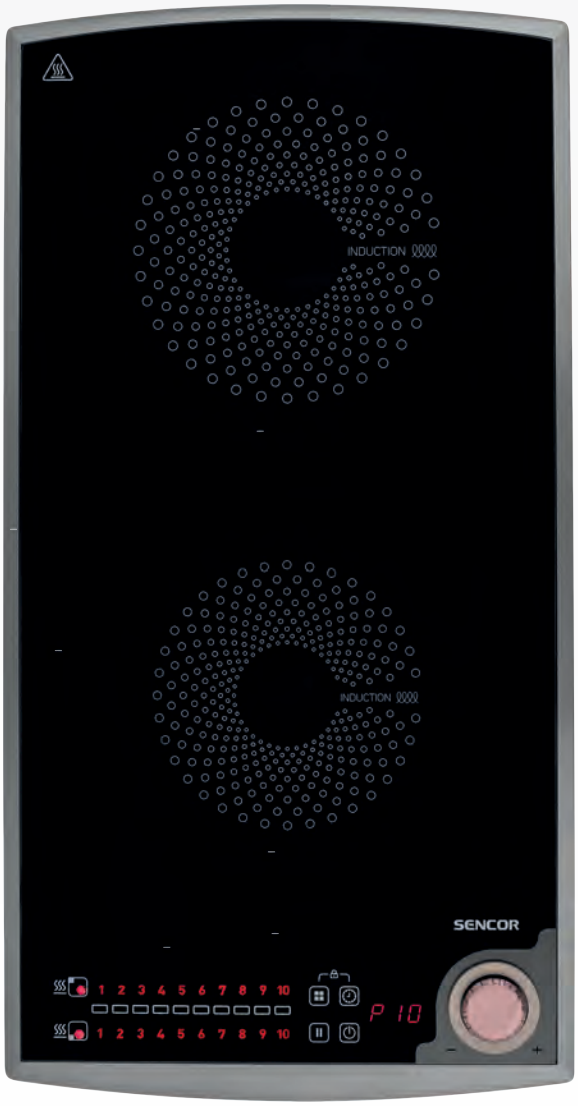

Whether you are looking for an addition to your classic stove or a solution for your cottage, caravan, or camping, the SENCOR SCP 5414GY double-hotplate induction cooker is just right for you. With a combined power of 3100 W and 10 temperature levels (60–240 °C), you can easily cook or fry whatever you feel like on two independent hotplates.

It has simple touch controls and a rotary knob, a timer from 1 minute to 3 hours, and thanks to its compact dimensions, it is easily portable.

FEATURES

- **2 independent induction hotplates**
- **Power 3100 W (1800 W + 1300 W)**
- **Simple fingertip control and rotary knob**
- 10 temperature levels (60–240 °C)
- Timer (1 minute to 3 hours)
- Easy to carry
- Easy-to-clean surface
- Dimensions: 31 × 60 × 4 cm

Single Superconductor Cooktop

SCP 5010SS

The SCP 5010SS SuperConductor Cooktop uses ceramic heating element technology, giving it many advantages over its competitors. For example, it's compact and low, the body of the cooker itself is only 25 mm high, and even with the legs it fits into only 3 cm of space.

The elements work very efficiently, with the cooktop heating up to 400 °C in just one minute and reaching a maximum of 100 degrees higher in 2 minutes. The heat distribution is even and the cooktop provides a constant temperature in continuous heating. This is as fast as an induction cooktop, however, now without its major disadvantages – no special cookware is needed, and it cooks in glass and aluminium pans too. Cooking is also safe: as soon as the surface reaches over 65 °C, a ring lights up to warn of possible burns. The cooker's stainless-steel surface is easy to clean and its size makes it very portable. The 6 pre-set cooking modes (stir fry, deep fry, fry, simmer, boil, keep warm) also make it easy to use.

FEATURES

- **Compatible with all cookware up to 28 cm in diameter**
- **With 1500 W of power, it heats up to 400 °C in 1 minute / 500 °C in 2 minutes**
- **Constant temperature / continuous heating**
- Superconductor technology using ceramic heating elements
- Coloured ring around the hob to indicate when the surface is hot
- Very compact and portable: the body is only 2.5 cm tall, with an overall height of only 3 cm
- Power adjustments in 100 W increments and an easy-to-clean seamless surface
- 6 modes (stir fry, deep fry, fry, simmer, boil, keep warm)
- Timer (up to 4 hours)

Single-plate Induction Cooker

SCP 3414GY

With this induction hotplate, you can easily cook even where there is no stove available. Whether you need to lightly simmer a dish or fry it thoroughly, nothing is a problem.

The SENCOR SCP 3414GY induction cooker offers 10 temperature levels from 60 to 240 °C. Its solid 2000 W power output can serve even a group of diners. What's more, you save energy when cooking, as induction technology only heats the bottom of the pot, not the surrounding area. The cooker has very simple combined touch and rotary controls. The LED display panel and control knob allow you to conveniently select the desired temperature or set the timer.

FEATURES

- **Induction technology**
- **2000 W power**
- **Simple touch and rotary control**
- 10 temperature levels (60–240 °C)
- Timer (1 minute to 3 hours)
- Easily portable
- Easy-to-clean surface

Double Infrared Cooktop SmoothCook

SCP 2803BK

This infrared cooktop is a great choice for your cottage or small household. To make cooking as easy as possible, the two infrared ceramic glass plates are controlled digitally.

A white numeric display shows the settings information, while the timer switches the appliance off once the selected time has passed (from 1 minute to 3 hours).

FEATURES

- **Dual-plate infrared glass ceramic cooktop**
- **Power consumption: 3500 W (2200 W + 1300 W)**
- **The continuous surface is easy to clean**
- Easy digital controls, classic chrome knobs
- Portable appliance ideal for cottages
- Display with white numerals
- Timer (1 min to 3 hours)
- Double thermal fuse
- Dimensions: 54.5 × 30 × 7.5 cm

BARBECUE ALL YEAR ROUND

CONTACT GRILLS

Regardless of the weather or season, you can throw a barbecue party using the contact grill. The days when grill plates were scorched and difficult to clean are long gone. Today's appliances have a third-generation, non-stick surface that you can even spread out into one large, continuous space, doubling the grilling area. The grill will work for you at home, out on the patio, and can be easily packed for a holiday. Thanks to CoolTouch technology, there is no need to worry about getting burned. The surface of the grill stays simply cool to touch.

The height adjustment of the top plate comes in handy when preparing juicy burgers, steaks, delicious sausages, sandwiches, and crispy vegetables. The released fat goes into a special bowl, making your food healthier. The indicator lights tell you when the appliance is switched on and ready to work. The cool touch surface and heat-insulated handle protect cooks and diners from getting burned.

WHY CHOOSE SENCOR INTELLIGENT CONTACT GRILL

- Non-stick, ribbed, and removable grilling plates
- Thermostat for temperature control with a timer
- The grill surface is CoolTouch and includes a heat-resistant, insulated handle
- Adjustable top grill height plate
- Option to open the grill flat to double the grilling surface

Smart Contact Grill

SBG 7030BK

The smart contact grill can perfectly cook steak, fish, and vegetables without you having to check when they are done. Thanks to six intelligent preset programs, manual mode, and an automatic food thickness sensor, it sets the ideal time and temperature itself.

The color LED display and cooking process indicator (from rare to well done), together with the temperature probe, ensure that the result is exactly as you want it. Three operating positions—closed, open at 90° or 180°—allow you to adapt the grill to different cooking methods. Thanks to the option of grilling without oil, the food is also less fatty. The removable 3rd generation non-stick plates (flat and ribbed) and removable oil drip tray are easy to clean.

FEATURES

- **6 smart preset programs + manual program**
- **Automatic food thickness sensor for optimal program settings**
- **Cooking process indicator (rare, medium, medium well, well done)**
- Temperature probe for precise grilling
- Grilling temperature up to 250°
- Color LED display
- 3 operating positions (closed / open 90° / open 180°)
- Oil-free grilling option
- Removable oil drip tray
- Removable non-stick flat and ribbed 3rd generation grilling plate
- Grilling plate dimensions: 330 × 240mm
- Easy to clean

Intelligent Contact Grill

SBG 6231SS

○ SBG 6231SS ● SBG 6238BK

Extend your grilling season for the whole year! With the SBG 6231SS grill, you can enjoy delicious burgers, fish, steaks, sausages, chicken, and vegetables just about anytime. Intelligent controls with an LCD display make it easy to use, while automatic sensors make sure every grilling result is perfect. But it wouldn't be a proper meal without a side dish. So use the extra-smooth grill plate to prepare vegetables or other side dishes.

The grill plate is big enough to cook a good portion of meat (30 × 25 cm) and doesn't need any oil. Your maximum comfort and safety are also taken care of: the grill is easy to wipe with a paper towel, and the heat insulation on the handle ensures you won't burn yourself.

FEATURES

- **Programme for hamburgers, fish, steaks, sausages, chicken, bacon, and defrosting**
- **Oil-free grilling**
- **2 fluted plates for meat, a smooth plate for side dishes**
- 3 operating positions (closed/open 90°/open 180°)
- Automatic temperature control
- Removable oil drip tray
- Power input of 2100 W

Contact Grill

SBG 4010SS

This modern contact grill has a stainless steel surface with CoolTouch technology, which ensures safe use even at high temperatures. The heat-insulated handle also ensures comfortable handling. Thanks to the non-stick cooking surfaces, you can prepare food without sticking and then clean everything very easily.

The grill can be used not only in the classic position, but also opened flat, which doubles the grilling area. After use, it can be conveniently stored in an upright position.

FEATURES

- **CoolTouch stainless-steel surface, thermally insulated handle**
- **Non-stick cooking surfaces are easy to clean**
- **Red indicator light shows when the appliance is on**
- Green light indicates that it is sufficiently heated
- Option to open the grill flat double the grilling surface
- Can be stored upright
- Power input of 2000 W
- Automatic temperature control

Contact Panini Grill

SBG 2070SS

A tasty snack or a quick lunch? The SBG 2070SS Contact Grill is at your service! The non-stick surface makes not only food preparation but also cleaning super easy. The thermally insulated handles and surface (CoolTouch) guarantee safe use.

FEATURES

- **Thermally insulated handles and surface (CoolTouch)**
- **Non-stick cooking surfaces for easy baking and cleaning**
- **Red power indicator, green heat indicator**
- Upright storage option
- Safety thermal fuse
- Automatic temperature control
- Power input of 1000 W

QUICK BREAKFAST WITH A SWEET TASTE

WAFFLE MAKERS

Kids aren't the only ones who appreciate a sweet breakfast or snack on the table every now and then. With our appliances, you can conjure up absolutely perfect waffles: simply adjust the temperature to your liking, and the non-stick surface will guarantee the waffles are perfectly shaped.

Such a treat is sure to be in high demand, so luckily for you, our waffle maker can make two portions at once. Just add fresh fruit with whipped cream, and a wonderful new day can begin.

WHY CHOOSE SENCOR WAFFLE MAKER

- Temperature setting and automatic temperature control
- Nothing burns onto the non-stick coating
- Baking surfaces are easy to clean
- Easy and safe to use
- Space-saving, upright storage

Waffle Maker

SWF 2010BK

This handy waffle maker will make you feel like you've just landed in Belgium. It prepares two pieces at once without burning either because its surface has a non-stick coating.

The heat indicator lets you know that the appliance is ready (green light). The operation indicator (red light), heat-insulated handle, thermal safety lock, and non-slip feet ensure safe use. Once your sweet breakfast or snack is ready, you can store the machine upright position, which saves space in your kitchen cabinets.

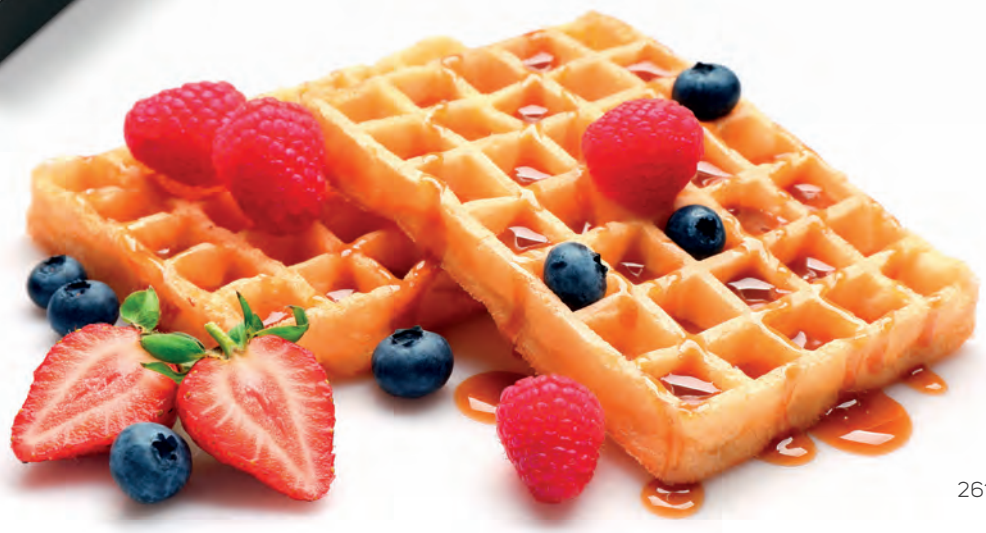

FEATURES

- **Adjustable temperature, automatic temperature control**
- **Easy-to-clean baking surfaces with a non-stick coating**
- **Operation indicator (red light) and heat indicator (green light)**
- Thermally insulated handle and non-slip feet
- Thermal safety lock
- Can be stored upright

YOUR CRISPY MORNING

ELECTRIC TOASTERS

We can't imagine breakfast without crispy toast and rolls. Everything suddenly tastes better; butter and honey or cheese and ham. And that's what SENCOR toasters are made for.

The largest ones can prepare up to four slices at once and in nine intensity levels. An electronic timer ensures that the toast is properly done. The toaster gives an even golden colour to thin and thick slices and automatically ejects them when ready. But that's not all it can do. With one of its attachments, it can also defrost bread from the freezer. Choose from a variety of different finishes. Stainless steel fits perfectly in modern kitchens, while the colourful options give a happy accent to any cooking space.

WHY CHOOSE SENCOR TOASTER

- Great performance thanks to high-quality and modern materials
- Different functions and roasting intensities
- Easy to operate and clean
- Wide range of applications in every kitchen
- Safety features

Toaster

STS 0600BK

If you are looking for an appliance that will quickly prepare a tasty and crispy breakfast or snack, then get this toaster. With a power output of 1000 W, it will toast bread exactly to your liking in two 135 mm slots.

It can also reheat and interrupt toasting before the end of the set time. It can also handle frozen bread, first defrosting it and then toasting it. The electronic timer allows you to set up to 9 levels of intensity.

Pair the toaster with a 0600-series kettle to give your kettle an elegant, cohesive style.

EASY CONTROL

FEATURES

- **Premium look**
- **Heating, pause, reheating/defrosting**
- **Automatic centering**
- Touch LED display
- High Lift for easy removal of smaller pieces
- Automatic shut-off
- Non-slip feet
- Power consumption 1000 W

Toaster

STS 7541BK

○ STS 7540WH ● STS 7541BK

The STS 754x toaster can prepare up to four slices of toast at once, so breakfast for the whole family is ready in no time. The appliance has three practical functions – reheating, warming or defrosting bread, and immediate interruption of toasting when necessary.

Thanks to automatic centering, the toast will be evenly toasted, and the High Lift function makes it easy to remove even smaller pieces. When finished, the toaster switches itself off and automatically ejects the bread. Maintenance is easy, and the removable crumb tray keeps the work surface perfectly clean.

FEATURES

- **Four slots for toasting bread**
- **Three functions in one: reheat, instant stop, defrost/defrost**
- **Automatic bread ejection and shut-off**
- Automatic centering function for even heating
- High Lift function for easy removal of smaller pieces of bread
- Easy crumb removal (slide-out tray)

Toaster

STS 7510WH

○ STS 7510WH ● STS 7511BK

With this toaster, two slices of toast are ready in no time. You can use the reheat, defrost, or instant stop functions as you see fit.

Automatic centering ensures even toasting. When finished, the bread pops up and the appliance switches off automatically. The removable tray catches all the crumbs to keep your kitchen clean.

FEATURES

- **Slots for toasting two slices of bread**
- **Three functions in one: reheat, instant stop, warm/defrost**
- **Automatic ejection and shut-off after toasting/defrosting**
- Automatic centering function for even toasting
- Easy crumb removal (removable tray)

Toaster

STS 2710BK

This two-slot toaster can prepare two slices of toast at once. Automatic centering ensures that each slice is evenly toasted.

If the bread is too large to fit in the slot, a practical toasting rack can be used. Of course, you can heat, defrost, and end the program at any time before the set time has elapsed, so your breakfast is crispy just the way you like it. And when it's done, the bread pops up automatically.

FEATURES

- **Two slots for toasting two slices of bread**
- **Three functions in one: heating, pause and reheating/ defrosting**
- **Automatic shut-off and bread eject**
- Automatic centering function for even heating
- Crumb tray for easy cleaning
- Toasting rack

Toaster

STS 4050SS

The extra-long pastry slot makes preparing breakfast or a tasty snack even easier. You can toast a whole slice of bread at once, without having to cut it.

But this elegantly designed toaster also offers additional functions such as reheating, toasting, and defrosting. Plus, you can interrupt the process at any time or adjust the degree of browning with 6 intensity settings. The icing on the cake is then the glass viewing window, providing a perfect view of how the bread is colouring.

FEATURES

- **Three functions in one: reheat, instant stop, bake/defrost**
- **Electronic timer - 6 browning intensity settings**
- **Automatic ejection and shut-off when toasting/defrosting is complete**
- Automatic centering function to evenly heat thick and thin slices of toast
- Easy removal of crumbs thanks to the pull-out tray
- Elegant design with stainless-steel surface
- Glass viewing window for monitoring the toasting process
- Toasting grid

EASY WARMING, COOKING, AND BAKING

MICROWAVE OVENS

Modern SENCOR microwave ovens do much more than just heat your food. They defrost, cook, bake, and even grill! To make food preparation as easy as possible, they offer a multitude of programmes to be selected directly on the digital panel. Just press one of them and the oven does all the work for you.

Demanding cooks will be pleased with the models including a grill. These not only defrost and reheat food quickly but also give it a crispy crust. You can prepare tasty sandwiches, pizzas, chips, and casseroles. Speed is the big advantage, microwave cooking is usually faster than traditional ovens or grills. In short, microwave ovens with grills are a great solution for those who lead busy lives but don't want to give up tasty, quality food.

WHY CHOOSE SENCOR MICROWAVE OVEN

- High-quality and safe materials
- A range of preset programmes and functions
- Simple digital controls
- Safety features including a child-safety lock
- Modern design

Microwave Oven with Grill and Hot Air Fryer Functions

SMW 6025BK

With its grill, hot air fryer, and combination modes, the SMW 6025BK microwave oven prepares all meals quickly, conveniently, and healthily. From crispy fries and juicy chicken drumsticks to fluffy sponge cake. The 25-liter interior and specially designed baking rack allow hot air to circulate evenly around the entire dish, including the bottom.

Five microwave power levels allow you to adjust the heating to your needs – from gentle defrosting to gentle heating of soups to quick heating of ready meals. In hot air fryer mode, you can set the temperature from 120 to 200 °C depending on what you are cooking. This mode uses a combination of a rear heating coil, fan, and upper quartz grill. The result is even cooking and a crispy surface. The touch panel, combined with a rotary knob, offers convenient control of all functions.

The LED display clearly shows the selected settings or the current time. LED lighting ensures visibility during cooking and after opening the door. And if you forget to close the door, the light will automatically turn off after 10 minutes. Touch to activate the child lock, which temporarily blocks the oven controls. This prevents small children from accidentally turning on the appliance. The interior is made of durable stainless steel, which is not only hygienic but also easy to clean.

FEATURES

- **Microwave heating, grill and hot air fryer functions**
- **25 l capacity**
- **Electronic touch controls and LED display with clock**
- 5 microwave power settings
- Grill function and 2 modes for combined microwave cooking and grilling
- Hot air fryer function combining rear heating coil, fan and top quartz grill for even cooking and a crispier surface
- 5 temperature settings in the range of 120–200 °C in hot air fryer mode
- 2 modes for combined microwave cooking and hot air
- Defrosting by weight and time
- 8 preset cooking programs
- 60-minute timer and audible signal
- Child safety lock
- 31.5 cm diameter turntable
- 27 cm diameter grill rack
- Baking rack with a diameter of 27 cm with non-stick coating for hot air fryer function
- Quartz grill heating elements
- Stainless steel interior for easy maintenance
- Microwave power 850 W
- Power input: grill 1200 W / hot air 2200 W

Microwave Oven

SMW 7123BK

Instead of a traditional turntable, this microwave oven uses flatbed technology, i.e., a glass plate. With dimensions of 26 × 25.5 cm, it offers more space than a conventional turntable and allows you to place more containers side by side.

The 800 W microwave power and 1000 W quartz grill reliably heat and prepare crispy dishes. The grill is ideal for baked vegetables with cheese, fried bacon, or toast with melted cheese, while the combined microwave and grill mode can easily handle chicken drumsticks or frozen pre-fried chicken strips. Five levels of microwave power allow you to adjust the heating to suit your specific dish. There are eight preset programs available, but if you don't want to choose, just use the Quick Start option. The touch panel, LED display, and integrated LED lighting ensure pleasant use.

FEATURES

- **Flatbed technology without a turntable for more space for containers of various shapes**
- **Borosilicate glass plate measuring 26 × 25.5 cm**
- **Clear LED display and intuitive touch controls**
- 23 l capacity
- 800 W microwave power and 1000 W grill
- 5 microwave power levels
- Grill function and 2 modes for combined microwave cooking and grilling
- 8 predefined programs
- Microwave heating for easy and quick heating or cooking
- Fast defrosting by weight or time
- Adjustable power and time for each type of food
- Interior with ceramic coating for easy maintenance
- LED interior lighting
- Child safety lock
- Quartz grill elements (2× 500 W)
- Interior with ceramic coating for greater scratch resistance and easier cleaning

Microwave Oven with Grill

SMW 5520BK

With a capacity of 20 liters, a turntable diameter of 25.5 cm, and a grill element (800 W), this microwave oven is a great helper when preparing and reheating food. The microwave power can be set to one of five levels, and the 60-minute timer ends the preparation and an audible signal lets you know when it's done.

There is also a Quick Start function that starts heating without any settings. The practical LED display shows the current time in standby mode as standard, but you can turn it off using the ECO function. This saves energy and means you won't be disturbed. Similarly, you can turn off all audible signals when operating or finishing cooking (MUTE function), which is especially useful when you don't want to disturb others in the morning or evening. The interior LED lighting works during operation and after opening the door. And if you forget to close it, the light will automatically turn off after 10 minutes. Perfect hygiene is ensured by the Auto Clean function, which generates enough steam in just 5 minutes to make it easy to clean the interior.

FEATURES

- **Microwave heating for easy and quick heating or cooking**
- **Grill function**
- **20 l capacity**
- Electronic controls and LED display with clock
- ECO button to turn off the display and save energy
- Control knob for setting the time and weight of food
- 5 microwave power levels
- Grill function and 2 modes for combined microwave cooking and grilling
- Defrosting by weight and time
- 8 preset cooking programs
- 60-minute timer
- Audible signal with MUTE function
- Child lock
- 25.5 cm diameter turntable

Multifunctional Microwave Oven

SMW 5320BK

The luxurious design of this microwave oven is sure to impress you at first glance, as it perfectly fits into any modern or retro kitchen with its SlimCopper design. It's easy to operate with the intuitive LED-backlit control panel.

Cooking is fast and flexible thanks to the high microwave power (up to 800 W) and a wide range of functions and programmes. With a capacity of 17 litres and a large 27 cm diameter rotating plate, it's not only ideal for heating food but also for cooking potatoes and vegetables.

FEATURES

- **LED panel with 8 pre-set programmes (popcorn, reheat, drink, pizza, potatoes, vegetables, meat, and fish)**
- **Microwave heating for quick and easy warming up and cooking**
- **Luxurious SlimCopper design and durable interior with enamel surface for easy cleaning**
- The large 17-litre interior space allows for even larger bowls of up to 27 cm
- 5 microwave power levels to meet all your needs
- Quick and hygienic defrost function
- The 60-minute timer is also sufficient for cooking food
- Microwave power of 800 W
- Audible signal to indicate when a programme ends

Microwave with Grill

SMW 4320SS

Heat, defrost, cook, and even grill? The SMW 4320SS microwave oven can do it all. By combining microwave heating and grilling, you can prepare a variety of dishes. The stainless steel not only gives this microwave oven its sophisticated look but also ensures corrosion resistance.

The durable interior with an enamel finish is easy to maintain. The two control knobs make manually operating the microwave simple. The 20-litre internal compartment is large enough for containers up to 25.5 cm in diameter. The 35-minute timer is especially helpful when preparing more demanding dishes.

FEATURES

- **Microwave technology for easy and quick heating and cooking + grilling**
- **Stainless-steel design; no sign of rust or loss of attractive appearance**
- **Durable interior with an enamelled surface for easy cleaning**
- Simple manual operation with only two control knobs
- Large interior space, 20 l capacity
- Handles dishes up to 25.5 cm in diameter
- 5 microwave power levels
- Quick and hygienic defrost function
- 35-minute timer
- Microwave power: 700 W
- Grill power: 1000 W
- Audio signal to indicate the end of the programme
- Integrated handle to open the door

Are you interested in this model but know you won't use the grill? Then choose the SMW 2120SS microwave oven.

Microwave with Grill

SMW 4220WH

This multifunctional microwave oven combines easy heating with grilling. Its large internal space allows you to use dishes up to 25.5 cm in diameter, while the enamelled surface is easy to clean.

With just two control knobs, everything is simple to set up. Just select one of the five power levels, the defrost function, or the timer. The sound signal lets you know when your food is ready.

FEATURES

- **Microwave heating and grilling**
- **Easy-to-clean enamel surface**
- **Two knobs for convenient operation**
- Large interior compartment can hold dishes up to 25.5 cm in diameter
- Capacity of 20 l
- 5 power levels and hygienic defrosting
- 35-minute timer
- Microwave power: 700 W, grill power: 1000 W
- Audible signal to alert you when the programme is finished
- Integrated handle to open the door
- Turntable diameter: 255 mm

Microwave Oven

SMW 1920RD

Only a few kitchens can do without a microwave oven. The SMW 1920RD delights with its simple operation and powerful features that make food preparation quick and convenient.

The interior space is large enough to accommodate larger plates and bowls up to 25.5 cm in diameter. The enamel surface is easy to clean, saving both time and effort. Only two control knobs are needed to set the 5 power levels, the quick defrost function, and the timer with an audible signal.

FEATURES

- **Microwave heating for simple and fast heating and cooking**
- **Enamelled interior for easy cleaning**
- **Easy manual operation, just two control knobs**
- Large internal compartment, suitable for plates up to 25.5 cm in diameter
- Capacity of 20 l
- 5 microwave power levels, quick defrost function
- 35-minute timer
- Microwave power: 700 W
- Audible signal to indicate the end of the programme

Microwave Oven

SMW 1719BK

The SMW 1719BK microwave oven quickly and easily heats, cooks, or defrosts food. Five power levels allow you to adjust the heating intensity to different types of food.

Fast and hygienic defrosting saves time and helps preserve the natural taste and texture of food. It is easy to operate – two rotary knobs allow you to set the desired power and heating time. An audible tone signals the end of the program. The 20-liter interior has an enamel finish, making it very durable and easy to clean.

FEATURES

- **Microwave heating for quick and easy heating and cooking**
- **Durable interior with enamel finish for easy cleaning**
- **Two control knobs**
- Large interior space for bowls up to 25.5 cm
- 20 l capacity
- 5 microwave power levels
- Fast and hygienic defrost function
- 35-minute timer
- 700 W microwave power
- Audible signal indicating the end of the program

Microwave Oven

SMW 6020SS

This microwave oven will make your life easier, with a clear LED panel and 9 programmes to ensure convenient cooking and heating.

Ten different power settings and a defrost function get the job done quickly and hygienically. The large internal compartment can accommodate plates of up to 26 cm in diameter, while the durable internal surface allows for easy cleaning.

FEATURES

- **LED panel with 9 simple programmes**
- **Microwave technology ensures quick and easy heating and cooking**
- **Durable enamel interior is easy to clean**
- Large internal compartment compatible with plates up to 26 cm in diameter
- Capacity of 20 litres
- 10 power settings
- Quick and hygienic defrost function
- 95-minute timer
- Microwave power: 700 W
- Audible signal to announce the end of the programme

Microwave Oven

SMW 7020BK

Do you find standard microwave ovens too small? Choose the SMW 7020BK with Flatbed technology. Instead of a turntable, it uses a 22.5 × 24.5 glass plate on which you can place multiple containers side by side.

The plate is made of borosilicate, making it scratch-resistant and easy to maintain. The 700 W microwave power is sufficient for heating a wide variety of foods or making popcorn. Operation is extremely easy, with two rotary knobs allowing for quick and easy settings. You can choose from 5 microwave power levels and a time of up to 35 minutes. When heating or cooking is complete, the microwave automatically alerts you with an audible signal – so you know immediately when your food is ready. An energy-saving LED light illuminates the interior during operation.

FEATURES

- **Flatbed technology without a turntable for more space and containers of various shapes**
- **Flatbed plate made of durable borosilicate glass measuring 22.5 × 24.5 cm**
- **20 l capacity**
- Microwave heating for easy and quick heating and cooking
- Control knobs for easy adjustment of power and heating/cooking time
- 35-minute timer
- 5 power settings including fast and hygienic defrosting
- Audible signal when operation is complete
- LED interior lighting during operation
- Interior with ceramic coating for greater scratch resistance and easier cleaning
- Door with integrated handle
- Microwave power 700 W

BAKES EVEN WHERE THERE **SEEMS TO BE NO SPACE**

MINI OVENS

Electric mini ovens can be used anywhere where there is no space for a large appliance. Thanks to their compact dimensions, they can be placed directly on the worktop without any complicated installation. At the same time, they can do almost everything a conventional oven can do – bake a cake, bake lasagna, heat up lunch, or grill vegetables – and often with lower energy consumption.

Their big advantage is that they heat up quickly. The small interior space heats up in no time, so you don't have to wait long and cooking is easy. Another plus is easy maintenance. The removable trays and racks are easy to clean, and the surfaces are resistant to burning and grease. Whether in a small apartment, student room, cottage, or office, a mini oven can do the job of a large appliance. It is simply practical, economical, and surprisingly versatile.

WHY CHOOSE SENCOR MINI OVEN

- Compact dimensions for small kitchens, cottages, or offices
- No complicated installation
- Fast heating saves time and electricity
- Baking, roasting, grilling, reheating, and preparing pizza or bread
- Durable surfaces and easy cleaning

Electric Oven

SEO 4800BK

● SEO 2800BK ● SEO 3500BK ● SEO 4800BK

This practical mini oven with a capacity of 48 liters and a power output of 3200 W can handle baking, grilling, and reheating. You can set the temperature between 90 and 230 °C. Each hotplate has its own control, so you can prepare multiple dishes at once. Five selectable programs, including a combination of top and bottom heating, a fan, and a rotisserie, allow you to customize the settings to suit your needs. Thanks to the integrated interior lighting and three separate indicator lights, you have a perfect overview of the baking process.

The package includes a non-stick baking tray, grill rack, rotisserie spit, and a practical handle for safe removal. If a smaller version is more suitable for your kitchen, you can choose the SEO 2800BK model with a capacity of 28 liters or the SEO 3500BK with a capacity of 35 liters.

FEATURES

- **Capacity 48 l**
- **Power consumption 3200 W**
- **Continuous temperature control in the range of 90–230 °C**
- Separate temperature control for each hotplate
- Rotary control with five selectable programs
- Three separate indicator lights
- Integrated interior lighting

ACCESSORIES

NON-STICK BAKING TRAY, GRILL RACK, GRILL SPIT AND SPIT HANDLE, AND PULL RODS FOR REMOVING THE BAKING TRAY AND SPIT

BRITTLE AND TASTY **VITAMINS ALL YEAR ROUND**

FOOD DEHYDRATORS

Drying is an excellent way to preserve your fruit harvest, mushrooms, fragrant herbs, and even meat. Without added chemicals, the dried food retains its great taste but also its vitamins and minerals. Slice the ingredients, place them on the drying surface, and switch the machine on. The SENCOR dehydrator will take care of the rest.

The temperature can be set between 35 °C and 75 °C, making our devices suitable for healthy, raw food. SENCOR dehydrators can handle up to ten plates at a time. Horizontal flow technology distributes heat evenly throughout the whole interior, so all food dries equally fast without the need to rotate the trays. The appliances feature clear and intuitive temperature controls and an LED display where you set the time. If you're not sure what temperature to use, the icons on the control panel will help you. To make the job even easier, an electronic timer ensures that the machine switches off.

WHY CHOOSE SENCOR FOOD DEHYDRATOR

- Programmes to set the time and temperature
- Innovative technology, horizontal flow air
- Drying a wide variety of foods in large quantities
- Intuitive controls and settings
- Safety features
- High-quality materials

Food Dehydrator

SFD 7750SS

The SENCOR SFD 7750SS large capacity food dehydrator helps to preserve fruit, vegetables, herbs, meat, and even mushrooms. Up to seven metal trays can be used for drying, which together create a surface area of 0.59 m².

The integrated fan ensures even heat distribution, while the grids in the drying trays improve airflow and prevent mould growth. The operating temperature can be set between 30 and 75 °C. An electronic timer with automatic shutdown is also available.

FEATURES

- **Total drying area: 0.59 m²**
- **7 metal trays**
- **Drying tray size: 300 × 280 mm**
- Integrated fan
- Horizontal airflow technology
- Tray grid design improves airflow, prevents mould formation
- Transparent door
- Temperature: 30–75 °C
- Timer
- Thermal overheating safety
- Power: 600 W

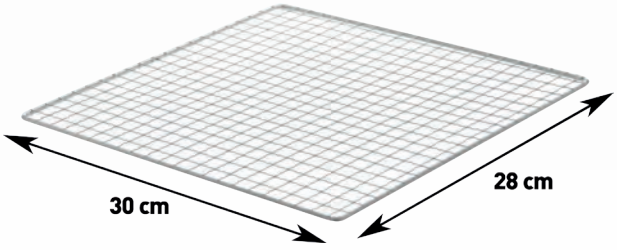

Food Dehydrator

SFD 950SS

Fruits, raisins, vegetables, dried meat, fish, tomatoes, herbs, herbal teas, mushrooms, pumpkin seeds, oranges for decoration all easily dried in the SFD 950SS food dryer.

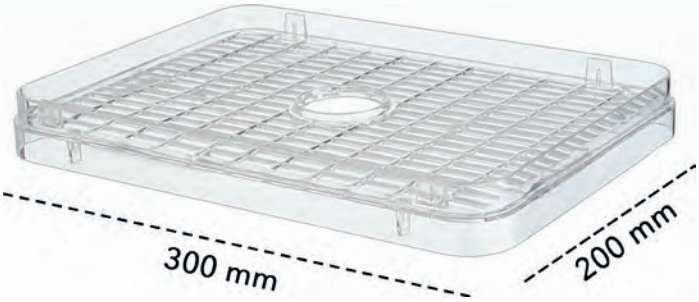

The five plastic plates, which are resistant to high temperatures, guarantee convenient use. Their design also prevents mould and optimises airflow.

FEATURES

- **5 plastic, heat-resistant plates for comfortable use**
- **The design of the plates prevents mould formation and optimises airflow**
- **Space saving when operating with fewer plates (even with one plate)**
- Drying tray 29 × 20 cm
- Adjustable temperature: 35-40-45-50-55-60-65-70 °C
- Adjustable height: 16 or 29 mm
- Integrated fan promotes even drying at all levels
- Transparent lid and trays allow you to check the drying progress at any time
- Drying trays and lid are dishwasher safe
- Illuminated main button with power indicator
- Thermal overheating safety

Food Dehydrator

SFD 6600BK

Dry food at home without unnecessary added preservatives and sugar. The whole process is extremely simple: just slice the selected ingredients, place them side by side on a tray, and put them in the dryer. It operates at temperatures from 35 °C to 70 °C and automatically switches off after the set time has elapsed.

You can dry fruit, vegetables, mushrooms, meat, herbs, flowers, pasta, and raw foods. If you don't want to adjust the temperature and time yourself, one of the five preset programs will certainly come in handy. You can place up to 500 g of ingredients on one tray, and there are 12 trays in total. Horizontal Air Flow technology ensures even drying, so there is no need to swap the trays around.

FEATURES

- **Drying with manual time and temperature settings from 35° to 70**
- **Control panel including LCD display, timer, and temperature control**
- **Electronic timer for automatic shut-off**
- Large-capacity dryer with a total drying area of 1.18 m² (65 % larger than a standard dryer with a diameter of 32 cm)
- Horizontal Air Flow technology
- Integrated fan with a diameter of 17 cm ensures even drying on all levels, no need to swap trays during drying
- 12 heat-resistant trays ensure maximum comfort
- Removable full tray for preparing RAW foods, porridge, cookies, etc.
- Easy maintenance, removable trays are dishwasher safe
- Transparent door and trays allow immediate visual control of the drying process
- Quiet operation
- Usable shelf height: 2 cm

FROM **ICE CREAM** TO HOT DINNERS

COMPRESSOR FRIDGES

On the road, at the campsite, or far away from civilisation. Car compressor fridges can accompany you wherever you go, and the best models can compete with domestic fridges, with compressor technology able to maintain stable temperatures even in the sweltering summer. They can freeze down to –18 °C without any issues, but also heat food. Another big advantage is their energy efficiency – consumption is relatively low, so they have reliable performance even when powered by a car battery or solar panel.

The compressor fridge can be connected in two ways: either to a 12/24 V car socket or to a conventional 230 V mains supply. You will appreciate the practical handles and castors for easy mobility. And the food storage is designed to keep everything well organised and clear – our models have a divided interior space and practical internal lighting. Let's hit the road!

WHY CHOOSE SENCOR COMPRESSOR FRIDGE

- Cools and warms
- Temperature range: -18 to +50 °C
- Efficient operation and two power options
- Easy handling
- Large capacity with practical divided interior
- Digital display

Mobile Compressor Car Refrigerator

SCM 5501BL

This spacious compressor refrigerator can hold plenty of good food and drinks. It comes with two separate compartments under the lid: the larger one with a capacity of 41 litres is used for freezing, while the smaller (14 litres) is for cooling. Thanks to its powerful compressor and efficient insulation, the SCM 5501BL can freeze down to –18 °C. This means you can safely transport frozen food in the fridge. But that's not all this refrigerator can do; it can also warm up items (in the range of 30–50 °C).

The SCM 5501BL itself weighs approximately 17 kilograms but has practical handles and castors that make it a breeze to handle. You can easily take it fishing, barbecuing, camping, or picnicking on a hot summer's day. The car cooler is equipped with a 12V power supply for the cigarette socket in your car, as well as an AC adapter for the regular power supply.

FEATURES

- **Nominal internal volume: 55 l**
- **Cooling function down to –18 °C, and heating function up to 50 °C**
- **2 power supply options (AC adapter 100-240 V~ / 12 V from car outlet)**
- Total internal volume: 55 l, freezer compartment: 41 l, cooling compartment: 14 l
- Handles and castors for easy handling
- Internal lighting

Mobile Compressor Car Refrigerator

SCM 3501BL

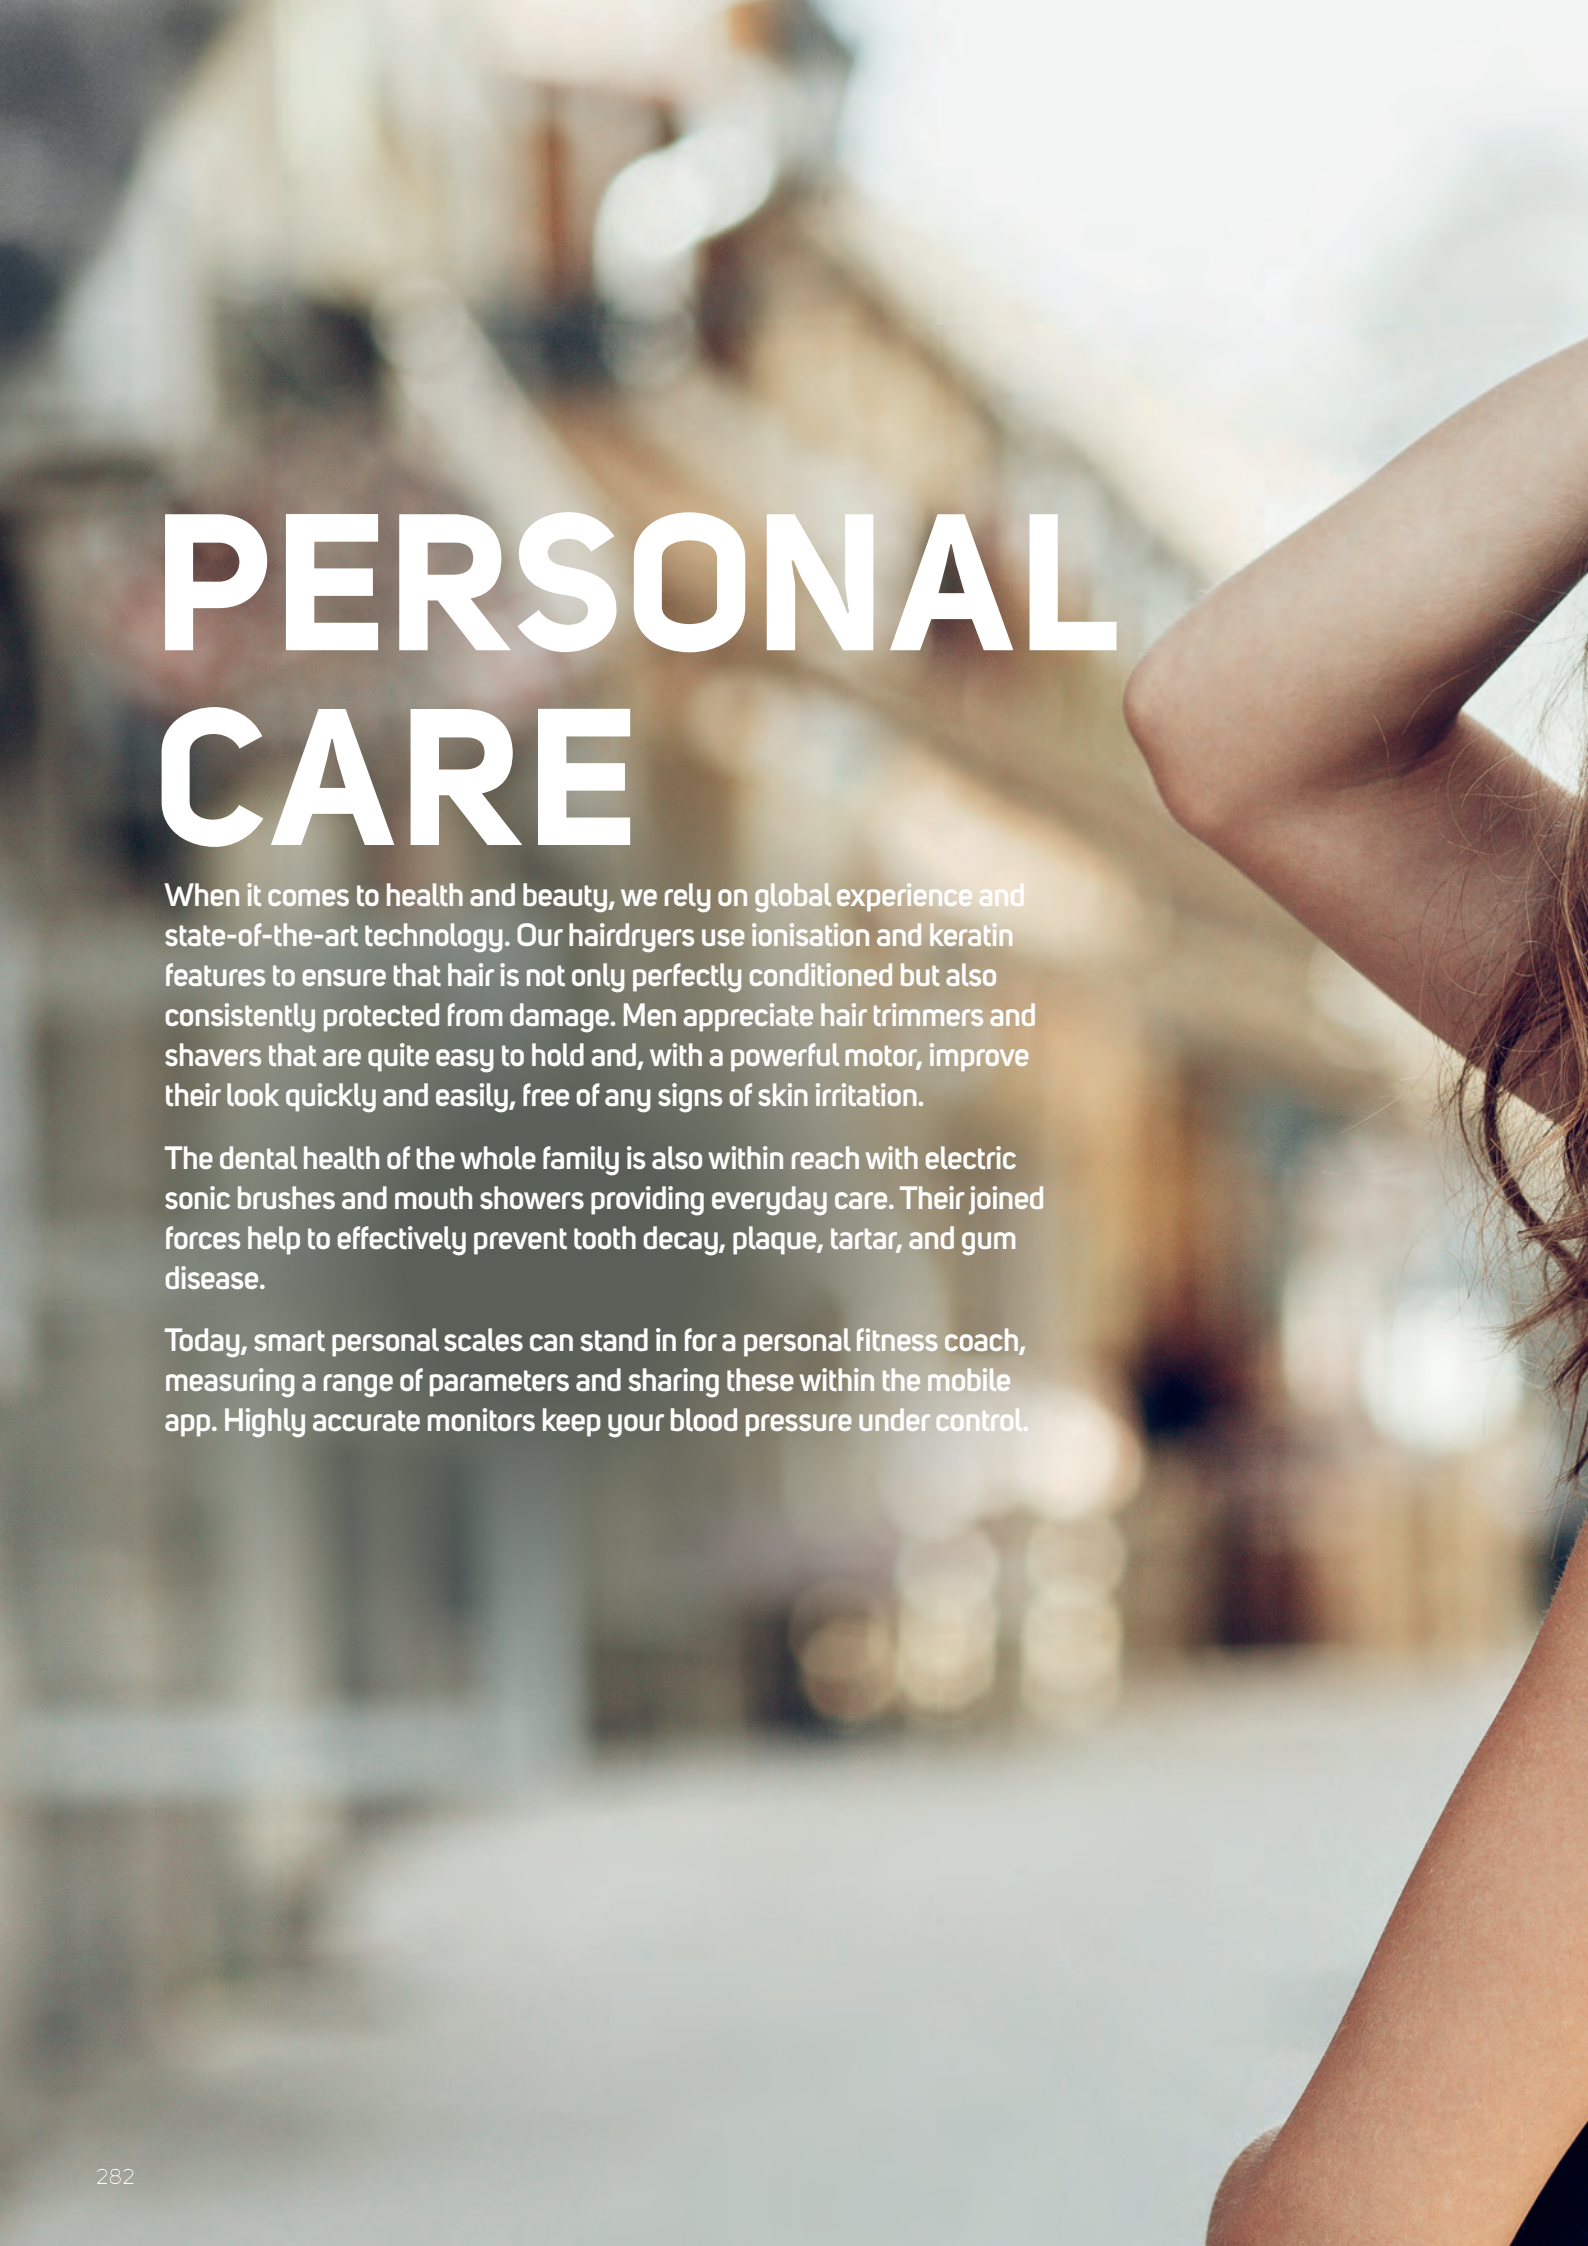

This 35-litre powerful compressor refrigerator cools, freezes, and even heats. Use it wherever you need to keep drinks and food at the right temperature – at outdoor parties, on camping holidays, and on the road.

It's divided into two compartments under the lid: a larger, 27-litre freezer compartment, and a smaller, 8-litre cooler compartment. Thanks to its powerful compressor and effective insulation, it can cool its interior to temperatures ranging from 20 to –18 °C, depending on your chosen settings. At the same time, it can also heat between 30 and 50 °C. For easy handling, the refrigerator comes with 2 handles with a comfortable grip and a pair of sturdy castors. This makes it easy to load into your car and get where you need to go. Power can be provided by the 12V cigarette socket in your car or an AC adapter to the regular mains.

FEATURES

- **Internal nominal volume: 35 l**
- **Cooling function down to –18 °C, and heating function up to 50 °C**
- **Cooling and freezing space: 8 l and 27 l**
- Large handle to make it easy to carry when picnicking or camping
- Rolling castors
- Internal lighting
- Power supply: AC adapter 100-240 V~ a 12 V from car outlet

PERSONAL CARE

When it comes to health and beauty, we rely on global experience and state-of-the-art technology. Our hairdryers use ionisation and keratin features to ensure that hair is not only perfectly conditioned but also consistently protected from damage. Men appreciate hair trimmers and shavers that are quite easy to hold and, with a powerful motor, improve their look quickly and easily, free of any signs of skin irritation.

The dental health of the whole family is also within reach with electric sonic brushes and mouth showers providing everyday care. Their joined forces help to effectively prevent tooth decay, plaque, tartar, and gum disease.

Today, smart personal scales can stand in for a personal fitness coach, measuring a range of parameters and sharing these within the mobile app. Highly accurate monitors keep your blood pressure under control.

ONLY THE **PERFECTLY** CLEAN CAN BE **HEALTHY**

ELECTRIC TOOTHBRUSHES

SENCOR sonic toothbrushes are crucial for anyone who wants perfectly clean teeth. Our electric toothbrushes are significantly more efficient than traditional manual ones, making thousands of tiny movements per minute and thus reliably removing plaque and particles even from hard-to-reach areas.

Using them is as easy as can be. Thanks to the automatic movements, no effort is needed. This will delight tired adults, impatient children and older people with limited mobility. SENCOR sonic toothbrushes also feature a timer to alert you when to move on to the next part of your mouth within the two-minute cleaning session. This gives all teeth the same thorough care. Special modes are also available, for example for gum massage or teeth whitening.

WHY CHOOSE SENCOR ELECTRIC SONIC TOOTHBRUSH

- More effective cleaning than with a conventional toothbrush
- Tens of thousands of movements per minute
- Selectable modes to suit individual needs
- Quadpacer technology for even cleaning
- Easy charging and long battery life

SONIC TECHNOLOGY

UNRIVALLED FREQUENCY

No hand can be as fast as a SENCOR sonic toothbrush. With a frequency of up to 40,000 movements per minute it perfectly cleans teeth and massages gums.

Sonic Toothbrush

SOC 5010BL

● SOC 5010BL ○ SOC 5011GD

The smart sonic toothbrush SOC 5010BL takes great care of your teeth and gums. It uses a sweeping motion and cleans at up to 38,000 strokes per minute. To evenly distribute the cleaning, the toothbrush is equipped with an intelligent timer and Quadpacer technology.

It makes the brush vibrate every 30 seconds during cleaning, alerting you when to move to the next part of your mouth. It also checks the total every 30 seconds, equaling the recommended total of 2 minutes. If you apply too much pressure during brushing, the sensor will alert you, protecting you from damaging your tooth enamel. There are four pre-set programmes for brushing and gentle gum care: Clean, Soft, White, and Massage.

FEATURES

- **Digital display with 4 pre-set cleaning modes (Clean, Soft, White, and Massage)**
- **Pressure sensor to prevent tooth damage**
- **Quadpacer technology with time counter for effective teeth cleaning**
- Brush head replacement reminder
- On-screen battery indicator
- Speed up to 38,000 strokes per minute
- Low power consumption with up to 30 days of battery life
- IPX7 waterproof – protection against immersion

QUADPACER TECHNOLOGY
ENSURES EVEN CLEANING

Electric Sonic Toothbrush

SOC 4111GD

● SOC 4110BL ○ SOC 4111GD

The SENCOR SOC 4111GD electric sonic toothbrush provides the highest quality care for your teeth and gums. It uses high-frequency motion to work at an incredible 40,000 strokes per minute. The 5 pre-set programmes focus on both cleaning and regeneration, making the device the perfect choice not only for sensitive teeth but also for braces or dentures. The programme selection is intuitive thanks to the clear LED indicator showing the currently selected mode. Whether you're concerned about tooth enamel sensitivity, periodontal problems, or want to enjoy a gentle gum massage, you're sure to find a mode to provide the best care.

The quadpacer technology alerts you when it's time to move on with your brushing, so that all four segments of your mouth are treated evenly. The toothbrush also impresses with its exceptional durability and economical operation; it can last up to 45 days on a single charge. Included in the package, you'll find two premium replacement heads, an elegant carrying case with a UV steriliser, and a stylish charging cup.

STYLISH GLASS WITH INDUCTIVE CHARGING

CASE WITH UV STERILIZER

FEATURES

- **Speeds up to 40,000 strokes per minute**
- **5 cleaning and regeneration programmes for teeth and gums**
- **Stylish glass with inductive charging**
- Quadpacer technology for even cleaning
- Smart timer keeps time for the ideal 2 minutes of brushing
- Efficient operation for up to 45 days per single charge
- Also suitable for braces and dentures
- LED indicator shows the selected program

QUADPACER TECHNOLOGY ENSURES EVEN CLEANING

ACCESSORIES

2 INTERCHANGEABLE BRUSH HEADS, INDUCTION CHARGER, PORTABLE CASE WITH USB CONNECTOR AND UV STERILISER

Electric Toothbrush

SOC 4103GD

With five preset cleaning and regeneration programmes, the SOC 4103GD toothbrush works at an incredible speed of up to 40,000 strokes per minute. It can remove plaque several times better than a conventional toothbrush. Thanks to special oscillations, it also improves gum health.

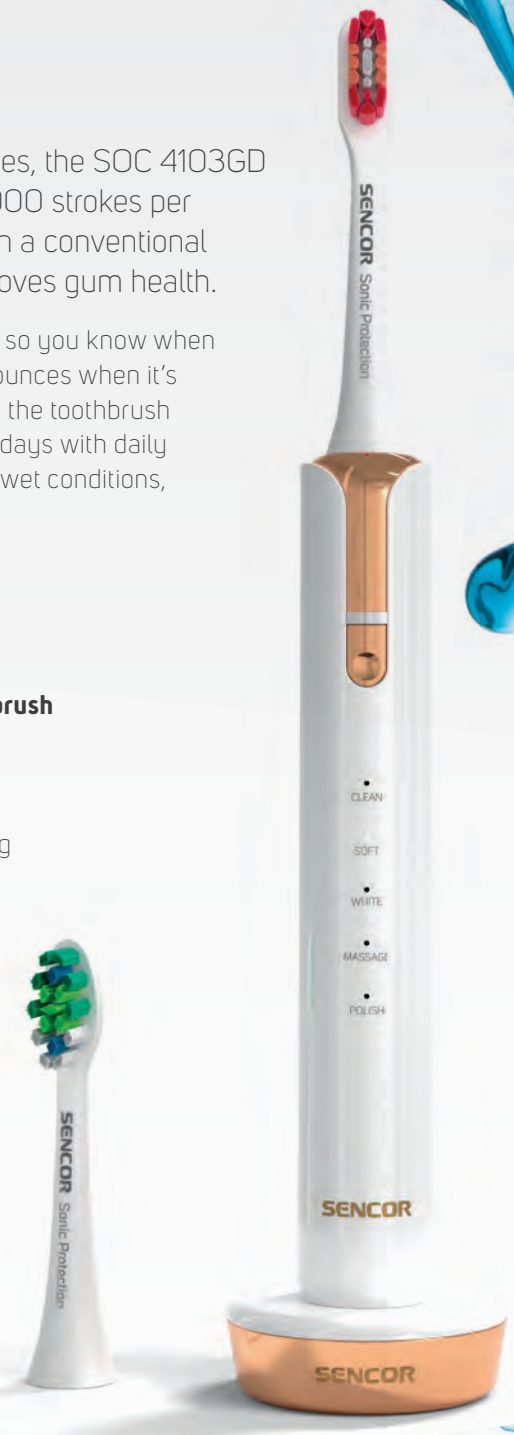

The Quadpacer technology divides cleaning into four phases, so you know when to move on with your brushing. An LED battery indicator announces when it's time to recharge, however, this doesn't happen often because the toothbrush has extremely low power consumption and can last up to 45 days with daily use. Thanks to the IPX7 certification, it works reliably even in wet conditions, while the magnetic soundproofing ensures quiet operation.

FEATURES

- **5 preset cleaning and regeneration programmes**
- **Speed up to 40,000 strokes per minute**
- **Removes plaque several times better than a conventional brush**
- Special gum care
- Quadpacer divides cleaning into four blocks
- LED battery indicator
- Ergonomically shaped handle ensures comfortable handling
- Extremely low power consumption, battery life up to 45 days with daily cleaning
- IPX7 waterproof rating
- Interchangeable heads
- Magnetic soundproofing ensures quiet operation < 65 dB(A)
- Rechargeable anywhere in the world

QUADPACER TECHNOLOGY ENSURES EVEN CLEANING

Children's Toothbrush

SOC 0811RS

SOC 0810BL SOC 0811RS

With this toothbrush, children will have fun when taking care of their teeth. It's designed to make brushing as easy as possible. The speed of up to 12,000 strokes per minute and the micro-nano head with 10,000 bristles care for children's sensitive gums.

The coloured LED lights in the translucent brush head illuminate the oral cavity, entertaining children and helping their parents too. The smart timer with Quadpacer technology divides brushing into four blocks for evenly distributed dental care. The brush head is angled at 15°, making it easier for parents to brush and finish cleaning their children's teeth. The ergonomically shaped handle ensures a comfortable grip for children and parents. Thanks to the very low battery consumption, the toothbrush can work for up to 30 days after a single charge.

FEATURES

- **Children's toothbrush with 2 modes: lighting and cleaning**
- **Brushing speed up to 12,000 strokes per minute**
- **Coloured LED lights in the transparent brush head illuminate the oral cavity**
- Micro-nano head with 10,000 bristles protects children's sensitive gums
- Quadpacer technology divides cleaning into 4 blocks
- The brush head is tilted 15°, making it easier for parents to brush their children's teeth
- Ergonomic handle design ensures a comfortable grip
- Very low power consumption; the battery lasts up to 30 days with daily use
- IPX7 waterproof protection level (protection against immersion in water)
- 1 AAA battery included

A **STREAM** THAT BRINGS A NEW LEVEL OF ORAL **HYGIENE**

ORAL IRRIGATORS

With oral irrigator no compromise on your dental hygiene is accepted, they thoroughly clean the spaces between your teeth and along gums.

The high-pressure water stream removes plaque, food debris and even bacteria that often settle in places, which are difficult to reach with a toothbrush. As a result, oral irrigators help prevent tooth decay, tartar buildup, bad breath, and gum diseases.

Oral irrigator is also an excellent tool for those wearing braces, the stream reaches all problematic areas. Our models use different water intensity settings to suit your needs and gum sensitivity. They are compact and easy to take with wherever you go, so that this perfect hygiene tool can be with you at all times.

WHY CHOOSE SENCOR ORAL IRRIGATOR

- Oral care without compromise
- Cleans interdental spaces, the gum line and all difficult-to-reach areas
- Adjustable water stream setting to suit your needs
- Fights tooth decay, tartar build-up, bad breath and gum disease
- Practical and compact design

VARIOUS NEEDS
An oral irrigator cares not only for your teeth, but also your gums and tongue. It is an excellent aid in cleaning dentures, bridges, veneers, or fixed braces, as the water jet reaches even hard-to-reach places.

THE SAME PERFECT RESULT

Oral Irrigator

SOI 1310BL

● SOI 1310BL ○ SOI 1311 GD

The oral irrigator is appreciated by anyone not wanting to compromise on oral hygiene. It helps to effectively remove debris from between the teeth, reducing the risk of tooth decay, gum inflammation, and bad breath.

This model offers five programmes to easily adjust the cleaning intensity according to the sensitivity of your teeth or your current needs. Thanks to the smart display, you always have an overview of the selected mode. The package includes five interchangeable nozzles, including special ones for your braces, tongue, and nasal hygiene. The 280 ml water tank is sufficient for thorough cleaning, thanks to its strong pressure (30–120 PSI) and pulse technology with a frequency of up to 1400 pulses per minute. The device is fully waterproof (IPX7) and features USB-C charging, ideal for travel.

FEATURES

- **Helps prevent gum inflammation, tooth decay, and bad breath**
- **5 cleaning modes including custom settings**
- **5 interchangeable nozzles for different needs**
- Pulse technology: 1200–1400 pulses/min
- Adjustable water pressure: 30–120 PSI
- 280 ml water tank
- Smart display and modern design
- IPX7 waterproof design
- Charging via USB-C
- Box on page oral irrigator

Oral Irrigator

SOI 1210BL

● SOI 1210BL ○ SOI 1211 GD

How to effectively remove bacteria, food residues, and plaque in interdental spaces and periodontal pockets? Choose this oral irrigator to deliver complex oral hygiene.

Regular use helps prevent periodontal disease, tartar build-up, tooth decay, and bad breath. The five different heads and three water flow modes can be combined to give the exact care your mouth needs.

FEATURES

- **Effectively removes bacteria, food residues, and plaque**
- **Regular cleaning prevents tooth decay, tartar build-up, and periodontal disease**
- **Massages, supports blood circulates, and helps with gum regeneration**
- The water pressure can even reach those hard-to-reach areas
- Suitable for braces
- 3 water flow modes (regular for everyday cleaning, soft for cleaning more sensitive areas, and pulse to support blood circulation and gum massage)
- Li-Ion battery charging time: 8 hours
- LED indicator for recharging
- Operating time: 56 min/2 weeks with 2 cleanings per day
- Tank capacity: 150 ml
- Pump frequency: 1400 pulses/minute
- Water pressure: 275–620 kPa

SHAPING THE HAIRSTYLE, PROTECTING THE HAIR

HAIR DRYERS AND CURLING IRONS

Can appliances help hair be healthy and shiny? The ones by SENCOR certainly can! The gentle care provided by our hair dryers starts with three different temperatures and two speeds; you can always set the dryer to be as gentle as possible to your hair. Ionisation seals in the hair fibres and retains moisture, protecting them from over-drying and breakage.

The diffuser delivers extra volume, and the finished hairstyle is easily fixed with cold air. Our curling irons are just as hair-friendly. You can choose the right combination of temperature, time, and direction to achieve the exact hairstyle you want. And it doesn't have to be only curls; our 2-in-1s can also serve as a hair straightener. Your way to beautiful and healthy hair has never been more convenient.

WHY CHOOSE SENCOR HAIR DRYER AND CURLING IRON

- Convenient to use thanks to their ultra-lightweight design
- Variable temperature, speed, time, and direction settings
- Accessories for individual styling
- Ionisation keeps hair healthy and shiny
- Gentle hair care

High-speed Hair Dryer Artemiss

SHD 9100RS

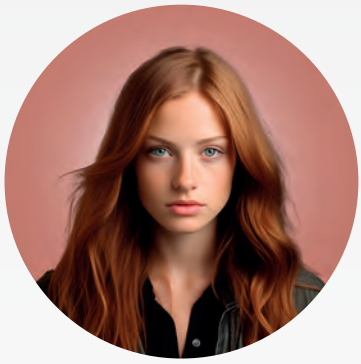

SHD 9100RS brings hair care to a new level. This high-speed hair dryer uses a BLDC digital motor, giving it longer life and more power. With speeds of up to 100,000 per minute, it can create a jet of 75mph. It will therefore dry your hair faster and much quieter. The strong ionization that the hair dryer generates also ensures that your hair will be beautifully smooth, nourished and shiny.

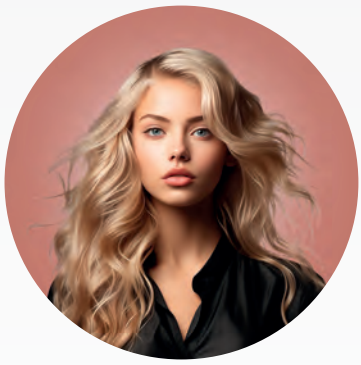

Two magnetic attachments help with styling. There are also four temperature settings: quick drying and styling, normal drying, gentle drying and cool air. You can combine them with the three speeds, so you can tailor your hair care perfectly to what you need. A final blast of cool air strengthens and sets the final hairstyle.

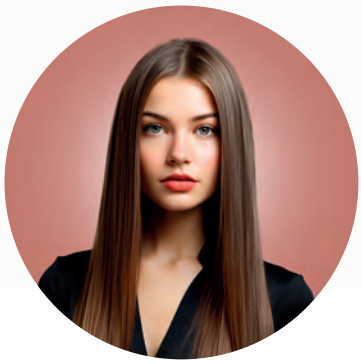

FEATURES

- **Premium care for your hair in a modern design**
- **Fast drying thanks to BLDC digital motor with up to 100,000 rpm.**
- **Ionizing technology for shiny and nourished hair**
- 4 temperature settings
- 3 airflow speeds - highest speed up to 75 km/h
- 2 magnetic attachments for easy replacement
- Quieter than conventional hair dryers, noise level only 75 dB
- Temperature range 20–72 °C
- Power input 1500 W

4 TEMPERATURE SETTINGS AND 3 AIRFLOW SPEEDS

2 MAGNETIC ATTACHMENTS FOR EASY REPLACEMENT

High-speed Hair Dryer Artemiss

SHD 9150RS

Quieter and more durable. That's the high-speed hair dryer with a brushless DC motor (BLDC). Its incredible power generates up to 110,000 revolutions per minute and a flow of up to 75 km per hour.

By combining temperature and air speed, you can choose the ideal setting for drying your hair. There are three airflow settings and four temperature levels to choose from. To keep your hair smooth and shiny, the hair dryer treats it with powerful ionization. The package includes two magnetic styling attachments that are easy to attach and switch between during styling.

FEATURES

- **High-speed professional BLDC motor**
- **Maximum speed of 110,000 revolutions per minute**
- **Power consumption of 1500 W**
- 3 airflow speed settings
- Airflow up to 75 km/h
- 4 temperature settings
- Temperature range: 20–72 °C
- Noise level: 75 dB

High-speed Hair Dryer

SHD 9050GD

The professional BLDC motor of this high-speed hair dryer generates up to 110,000 revolutions per minute, drying hair quickly, evenly, and without unnecessary stress.

There are four temperature settings, two airflow speeds, and a cool shot to set and fix your hairstyle. The ionization function reduces static electricity, limits frizz and gives hair a smooth, shiny look. The natural drying mode alternates between warm and cold air, helping to protect the hair fiber from damage. Ultra-quiet operation ensures maximum comfort even during longer blow-drying sessions. The practical folding handle makes it easy to store and travel with, while the magnetic nozzle and magnetic diffuser allow for quick attachment changes and precise airflow direction.

FEATURES

- **High-speed professional BLDC motor**
- **Maximum speed 110,000 rpm**
- **4 temperature levels**
- 2 airflow speeds
- Cool air for strengthening and fixing your hairstyle
- Ionization function
- Natural drying: cyclical alternation of hot and cold airflow
- Ultra-quiet operation
- Foldable handle
- 1 magnetic nozzle, 1 magnetic diffuser

High-speed Hair Dryer Artemiss

SHD 9000RS

The high-speed BLDC motor produces up to 90,000 thousand revolutions per minute, which means a powerful airflow of up to 75 km/h for hair drying. At the same time, the hair dryer treats hair with ionisation, which leaves it smooth, shiny and healthy.

The designers have also succeeded in eliminating a classic ailment of ordinary hairdryers: the difficulty of changing attachments. With SHD 9000RS, it's as easy as can be, because the attachments are magnetic. The combination of 4 temperature levels and three airflow intensities means you can shape your hair exactly the way you want it. You can then fix the result with a permanent cold hold, ensuring that you won't need to touch up your hair during the day.

FEATURES

- **Premium care for your hair in a modern design**
- **Fast drying thanks to BLDC digital motor with up to 90,000 rpm**
- **Ionisation technology for shiny and nourished hair**
- 4 temperature settings
- 3 airflow speeds - highest speed up to 75 km/h
- 2 magnetic attachments for easy replacement
- Quieter than conventional hairdryers, noise level only 75 dB
- Temperature range 20–56 °C
- Power input 900 W

BLDC HIGH-SPEED DIGITAL MOTOR

EASY TEMPERATURE AND SPEED ADJUSTMENT

ACCESSORIES

2 MAGNETIC ATTACHMENTS

High-speed Hair Dryer

SHD 8900RS

Whether you need a classic attachment or a diffuser for styling, this high-speed hair dryer model allows you to quickly change them using magnetic attachments. The professional BLDC motor with a maximum speed of up to 110,000 revolutions per minute ensures fast, even, and effective drying.

With three airflow speeds and four temperature settings, you can easily set the optimal mode for different hair types and desired hairstyles. The integrated ionization function reduces static electricity, prevents frizz, and gives your hair a smooth and shiny look. Ultra-quiet operation contributes to maximum comfort during use.

FEATURES

- **High-speed professional BLDC motor**
- **Maximum speed: 110,000 rpm**
- **4 temperature settings**
- 3 airflow speeds
- Ionization function
- Ultra-quiet operation
- 1 magnetic attachment, 1 magnetic diffuser

High-speed Hair Dryer

SHD 8510SL

SHD 8500RS SHD 8510SL SHD 8520BL

The high-speed hair dryer is powered by a professional BLDC motor capable of speeds up to 110,000 revolutions per minute. Four temperature levels and two airflow settings allow you to precisely adjust the performance to your hair type and desired styling.

Hair drying is fast, gentle, and even. The cool air function helps to set and fix your hairstyle. If you want to prevent hair damage, choose the natural drying mode. It alternates between warm and cool air, minimizing hair damage and promoting natural shine.

FEATURES

- **High-speed professional BLDC motor**
- **Maximum speed of 110,000 revolutions per minute**
- **4 temperature levels**
- 2 airflow speeds
- Cool shot for setting and fixing your hairstyle
- Natural drying: alternating hot and cold airflow
- Ultra quiet
- 1 magnetic attachment

Hair Dryer

SHD 8275BK

Do you want a hair dryer that's both durable and gently treats your hair?

Then choose the SHD 8275BK. Its AC motor ensures trouble-free operation, while the KeratinCare+ technology and ionisation function take care of your hair's health. With practical accessories, it's sure to become your everyday indispensable helper.

FEATURES

- **Long-lasting AC motor**
- **KeratinCare+ technology to care for hair health**
- **Ionisation function eliminates static electricity**
- 3 temperature settings for each hair type
- 2 speed settings for perfect airflow + Turbo
- 2400 W power input
- Travel case

ACCESSORIES

2 CONCENTRATORS FOR HAIR DRYING AND STYLING, DIFFUSER FOR MORE VOLUME

High-speed Wet Hair Iron Artemiss

SHI 9100RS

The Artemiss SHI 9100RS completely changes the way we care for our hair. This high-speed flat iron dries and straightens wet hair at the same time, while maintaining its natural strength, smoothness, and shine. One of four temperature settings can be chosen depending on the desired style.

High temperatures are good for styling, while low temperatures help with adjusting the hair and gentle drying. The high power and 3 airflow speeds dry and style hair in 6 to 8 minutes, while the ionising technology ensures your hair is healthy, shiny, and smooth, without unsightly or uncomfortable frizz. It's easy and safe to use; after 3 minutes of inactivity, the device automatically switches off.

FEATURES

- **Drying and ironing wet hair in one step**
- **4 temperature levels: 90, 120, 140, and 160 °C for precise styling**
- **3 airflow speeds and 2 styling modes**
- Ionising technology for smooth and shiny hair
- Intuitive LED display and cold jet for style adjustments
- Automatic shut-off for safety and energy saving
- Power consumption: 1300 W

Hair Waver

SHI 4700GD

The SHI 4700GD shapes perfect waves and adds volume to your hair. The hidden ceramic rollers with a diameter of 26 millimetres evenly distribute heat and prevent damage to the hair when styling. You can choose from the 14 temperature levels depending on your hair type, ranging from 100 °C to 230 °C (in 10 °C increments).

It's easy to use thanks to the digital display and handy temperature wheel, and it's ready for curling in only 50 seconds. A lock prevents it from opening unexpectedly, and styling is also comfortable and safe thanks to the swivel cable and ergonomic design.

FEATURES

- **Concealed ceramic rollers: Ø 26 mm**
- **14 temperatures from 100 °C to 230 °C (in 10 °C increments)**
- **Quick heat-up: ready in 50 seconds**
- Digital display with control wheel
- Safety lock prevents accidental opening
- Swivel cable for easy handling
- Large ceramic surface: 95 × 62 mm

Hair Straightener and Curler 2-in-1

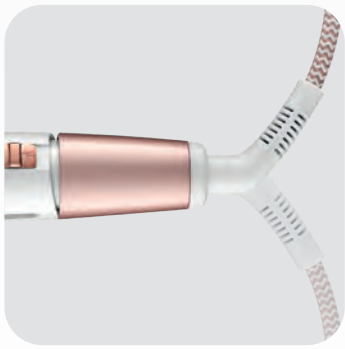

SHI 4601GD

Looking for perfectly straight hair or fancy, soft waves? Have both with just one device: the SHI 4601GD hair straightener and curling iron! It not only conditions your hair but also treats it sensitively.

The twisted ceramic plates have a smooth glide, and the digital display with a control wheel allows precise temperature adjustment from 120 to 230 °C. You only need to wait 50 seconds to start styling. The ultra-lightweight design, swivel cord, and safety lock that prevents unexpected opening ensure comfortable and safe handling. For your peace of mind, the device is also equipped with an automatic shut-off function after 60 minutes.

FEATURES

- **The best care for all hair types**
- **Twisted ceramic surface plates**
- **12 temperature settings from 120 °C to 230 °C (in 10 °C increments)**
- Digital display with temperature control dial
- Safety lock prevents accidental opening
- Ready to use in 50 seconds
- Ultra-lightweight construction
- Swivel cord
- Automatic shut-off function after 60 minutes
- Large active area: 100 × 27 mm

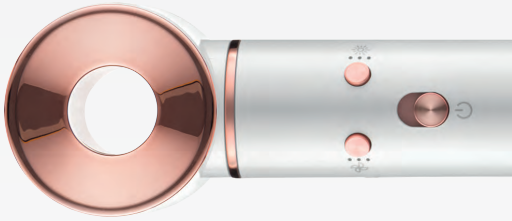

Hair Dryer Artemiss

SHS 9100RS

What if you could save space in your bathroom and replace two products with just one? Meet the Artemiss SHS 9100RS hair dryer — a smart solution that not only provides premium care for your hair, but also adds volume and shape just the way you like it.

Equipped with a high-performance BLDC motor for longer life and superior power, it ensures fast, quiet drying. You'll also appreciate the Coanda effect, which gently wraps hair around the barrel, allowing you to create curls in both directions with ease. To make styling even more versatile, the dryer comes with five interchangeable attachments. Swapping them is quick and effortless, so you can experiment with different looks whenever you wish.

FEATURES

- **BLDC high-speed motor**
- **4 temperature settings**
- **3 airflow speed settings – highest setting up to 75 km/h**
- Coanda effect for self-curling hair
- Quieter than conventional hair dryers – 75 dB
- Temperature range 20–72 °C
- 110,000 rpm and 1300 W power consumption
- 5 attachments
- Removable filter for easy maintenance

Automatic Hair Curler

SHS 0925RS

The automatic hair curler with a ceramic barrel diameter of 32 mm distributes heat evenly, making hair styling easy and precise. You can set three different temperature levels (170 °C, 190 °C, 210 °C) depending on your hair type and desired style.

The ion function also smooths hair, reduces static electricity, and adds shine. Automatic rotation to the left or right is smooth and prevents hair from tangling. The curling iron is ready to use in just 2 minutes. The ultra-lightweight design and 360° swivel cord make it easy to handle even during longer styling sessions. The curling iron automatically turns off after a few minutes of inactivity.

FEATURES

- **Ceramic barrel surface – 32 mm**
- **3 temperature settings (170 °C, 190 °C, 210 °C)**
- **Ion function for smoothing hair**
- Ultra-lightweight
- Automatic rotation without tangling
- Left/right rotation direction
- 360° swivel cord
- Safety shut-off after 30 minutes
- Ready to use in 2 minutes

Curling Iron

SHS 0930RS

You don't have to go to the salon to get a breathtaking hairstyle like the movie stars. You can easily create it yourself with the SENCOR SHS 0930RS automatic curling iron.

This device uses cordless technology, as it has an integrated 4800 mAh battery allowing you to do your hair for up to 40 minutes. Absolutely nothing gets in the way of your styling. The battery is fully charged in just three hours. The curling iron also adapts to all hairstyle requirements, offering 18 different combinations of temperature, time, and rotation direction. Plus, the luxurious design pairs perfectly with the compact size, allowing you to take the curling iron on the go.

FEATURES

- **Cordless technology for total freedom of movement**
- **18 settings to adapt to every hairstyle**
- **3 time settings (6, 8, and 10 seconds)**
- 3 temperature settings (160, 180, and 200 °C)
- Rotation settings – right, left
- Automatic shut-off
- 40-minute battery life, fully charged in only 3 hours
- 4800 mAh battery with USB-A to USB-C charging

A BARBER SHOP IN YOUR BATHROOM

HAIR CLIPPERS

Have you decided to completely change your look or you simply want to shape your beard? SENCOR clippers can help you with both. With countless attachments of different lengths to choose from, you'll always find the right one for you. Of course, you can also trim your hair and beard without them.

To make styling as comfortable as possible, the ergonomically shaped handle ensures a firm grip. Our sets also include accessories for nose and body hair removal, beard or sideburn shaping, and precision trimming. SENCOR clippers are powered by an exceptionally quiet, high-speed, professional motor. They recharge quickly, some in as little as two hours. Then they give you up to 120 minutes of hair and beard care.

WHY CHOOSE SENCOR HAIR CLIPPER

- Rich accessories for hair styling and body care
- Graphical cut-length indicator to give you full control
- Fast charging and long battery life
- Professional blades and quiet, high-speed motor
- Firm grip thanks to the ergonomic handle and cable-free movement

Men's Multigroomer

SHP 8500BK

With this multigroomer, hair, beard, and hair care become so convenient that you no longer have to go to the barber shop. Everything can be done at home, starting with a great haircut and ending with the exact body hair trim you need.

Thanks to the wide range of accessories, the SHP 8500BK provides complete care from head to toe. The blades are made of durable stainless steel, meaning they stay as sharp as possible for a long time. The device can run for up to 60 minutes on a single charge, and in two hours, the battery is fully operational again.

FEATURES

- **High-quality stainless-steel blades**
- **14 interchangeable accessories (hair, body, nose, ear trimmers, micro shaver, comb)**
- **Up to 60 minutes of battery life**
- Waterproof with IPX5 protection
- Ergonomically shaped handle
- LED display showing battery status
- Fast-charging 1200 mAh Li-Ion battery via USB-C cable (2 hours)

14 INTERCHANGEABLE ACCESSORIES

BLADES MADE OF HIGH-QUALITY STAINLESS STEEL

FAST CHARGING WITH USB-C CABLE

ACCESSORIES

4 HAIR ATTACHMENTS (4 MM, 9 MM, 12 MM, 16 MM)
3 BEARD ATTACHMENTS (1 MM, 2 MM, 3-7 MM)
2 ATTACHMENTS FOR TRIMMING AROUND THE EARS

LUBRICATING OIL

Hair and Beard Trimmer for Men

SHP 7500BK

You can rely on this hair and beard trimmer to style your look easily and precisely. Thanks to the high-quality 40 mm wide ceramic blade, metal coating for a close shave, and robust aluminium body, it provides the ideal combination of performance, precision, and durability.

The quiet, professional motor and ergonomic handle ensure comfortable use even during longer trimming sessions. Interchangeable attachments with four lengths (3/6/9/12 mm) allow you to adjust your hairstyle or beard to suit your mood, and whether you prefer to work with or without a cord, the SHP 7500BK can handle both. It lasts up to 90 minutes on a single charge, and the LED display keeps you informed of the battery status. When travelling, you're sure to appreciate the practical case and USB-C charging.

FEATURES

- **Sharp 40 mm wide ceramic blade**
- **Metal coating for a close shave**
- **Aluminium cover for long life**
- Quiet high-speed motor – professional performance without noise
- Ergonomic handle prevents slipping out of your hand
- Both cord and cordless operation
- Up to 90 minutes of operation, fully charged in 120 minutes
- LED display with battery indicator
- 4 cutting lengths: 3 / 6 / 9 / 12 mm
- Durable aluminium body and ergonomic handle
- Weight: 222 g

VARIABLE STYLING WITH FOUR ATTACHMENTS

LED DISPLAY WITH BATTERY INDICATOR

ACCESSORIES

CLEANING BRUSH, BLADE COVER, TRAVEL CASE, HAIR CUTTING ATTACHMENT 3 - 6 - 9 - 12 MM, USB-C CHARGING CABLE

Multifunctional Trimmer

SHP 0460BK

The SHP 0460BK multifunctional trimmer is the ideal companion for everyday grooming, whether at home or on the go. With stainless-steel blades and a precision attachment (0.5-10 mm), it can trim your beard and hair exactly the way you want.

The trimmer is lightweight and ergonomically shaped, fitting perfectly in your hand. The built-in Li-Ion battery provides up to 60 minutes of operation, and thanks to fast charging, the device is ready to use again in just two hours.

FEATURES

- **Sharp stainless-steel blades for smooth and precise strokes**
- **20 cutting lengths ranging from 0.5-10 mm**
- **Up to 60 minutes of cordless operation**
- Fast charging in 2 hours via micro USB
- Lightweight, quiet, and always ready
- Ergonomic handle prevents slipping out of your hand
- Weighs only 116 g – ideal for your travel bag
- Built-in Li-Ion battery with a capacity of 500 mAh

ACCESSORIES

ADJUSTABLE COMB ATTACHMENT, MICRO USB CHARGING CABLE, CLEANING BRUSH

A PERFECTLY **SHAVED FACE** WITHOUT IRRITATION SHAVERS

SHAVERS

All you need is a small shaver and your face will be perfectly smooth in no time. The shaving heads with sharp stainless steel blades ensure a precise shave. This solution will delight all men who don't have time to spare but still want to look their best.

While some razors cause minor injuries, those from SENCOR can reduce skin irritation. They adapt perfectly to the shape of your face. Whether you prefer dry or wet shaving, our razors give you the choice. Of course, you can easily adjust the power as needed. We haven't forgotten about you either. The BLDC motor is extremely fast yet quiet, and the body of the razor is ergonomically shaped to fit perfectly in your hand.

WHY CHOOSE SENCOR SHAVER

- A precise shave without skin irritation
- Rotating heads and sharp blades made of stainless steel
- Firm grip for great control over movements
- Attachment for trimming sideburns, beards, and hairstyles
- Very easy to maintain

High-Speed Men's Shaver

SMS 7500BK

The high-speed men's shaver SMS 7500BK with a BLDC motor ensures a precise and fast shave, even for extra-thick hair. The double stainless-steel blade, with a ring design and 3D floating head, adapts perfectly to the contours of the face. Whether you prefer dry or wet shaving, the shaver perfectly handles both.

With two speed modes: Standard and Turbo, you can easily adjust the power to suit your needs. The ergonomic handle fits well in the hand and prevents slipping when shaving. The LED display alerts you in time when you need to recharge, clean, or activate the safety lock. In addition, the Direct Drive technology allows use while charging.

3D FLOATING HEAD

DRY AND WET SHAVING

FEATURES

- **High-speed BLDC motor for fast shaving**
- **2 speed settings: Standard and Turbo**
- **Stainless-steel double-ring blade for hard stubble and soft beards**
- 3D floating head for better flexibility when shaving
- Designed for dry and wet shaving
- Ergonomic handle prevents slipping out of hand
- Battery life: up to 1 hour
- Charging time: up to 90 minutes
- LED display with reminders to clean, charge, and safety lock
- Direct Drive technology; the shaver can be used while charging

Electric Shaver

SMS 0900BK

Direct Drive technology and two stainless-steel blades are crucial for a comfortable yet precise shave. Although it's a dry shaver, the appliance can be rinsed under running water thanks to its IPX6 protection rating, providing easy maintenance.

The built-in 600 mAh Li-Ion battery guarantees up to 90 minutes of operation per charge. Its battery status is indicated by an LED display, and if necessary, the battery is charged in just 1.5 hours. However, with Direct Drive technology, there's no need to wait until it's fully charged; you can use the shaver even when plugged in.

FEATURES

- **Two stainless-steel blades**
- **Side trimmer for longer beards or sideburns**
- **LED display shows battery charge level**
- Direct Drive technology for shaving while charging
- Safety lock against spontaneous start-up
- Dry shaving
- Fully water washable (IPX6)
- Ergonomic handle prevents slipping out of hand
- Up to 90 minutes of battery life
- Fast charging; fully charged in 1.5 hours
- Built-in 600 mAh Li-Ion battery
- Charging via USB-C cable

LED DISPLAY WITH BATTERY STATUS

TRIMMER FOR LONGER BEARDS OR SIDEBURNS

STAINLESS STEEL BLADES FOR A SMOOTH SHAVE

Shaver

SMS 2100WH

This men's shaver with stainless steel blades and a double 3D floating head ensures a smooth and comfortable shave. Thanks to direct drive technology, it works efficiently and reliably, while micro touch controls make it easy and intuitive to use. IPX4 water resistance protects the shaver from splashing water, so you can use it in the bathroom without worry. Its sleek, compact design and light weight make it a practical companion at home and on the go.

The built-in Li-Ion battery (500 mAh) provides up to 60 minutes of operation on a single charge, with a full recharge taking one hour. Charging is convenient via a modern USB-C cable, so there is no need for a special charger.

3D FLOATING HEAD FOR A SMOOTH AND COMFORTABLE SHAVE

CHARGING VIA USB-C CABLE

FEATURES

- **Stainless steel blades for a precise and gentle shave**
- **Dual 3D floating head for perfect adaptation to the contours of the face**
- **IPX4 waterproofing – splash resistance**
- Direct drive technology and micro touch control
- Battery life 60 minutes, charging time 60 minutes
- 3.7 V / 500 mAh Li-Ion battery, USB-C charging
- Compact dimensions (70.3 × 64.3 × 28.8 mm), weight 113 g

SMART ASSITANTS FOR YOUR HEALTHY LIFESTYLE

PERSONAL SCALES

Personal scales may soon become your nutrition specialist. Not only they check your weight, they also provide you with BMI and BMR information, measure your body fat percentage, hydration level and recommend your optimal calorie intake per day.

The smart ones by SENCOR also communicate with an app, which can be downloaded to your mobile phone for free. There you create a user profile including your age, gender and height, target weight and daily physical activity. With the help of the app, you can then easily and accurately check your weight progress.Thanks to the slim design and tempered glass surface, the scales from SENCOR are both elegant and practical. Weighing capacity reaches 180 kilograms, with an accuracy only of 100 grams. The readings are clearly displayed on the extra-large backlit LCD display. The scale automatically switches on as soon as you step on it.

WHY CHOOSE SENCOR PERSONAL SCALE

- Bluetooth connection to an app tracking the changes in the measured values
- Slim design and tempered safety glass to ensure easy maintenance
- Convenient to use thanks to automatic on and automatic off when idle
- Extra-large backlit LCD display for easy data reading
- Low battery and overload indicator

FIT WITH APP

SENCOR personal scale will support you on your way to your ideal body weight. It communicates with an app, which collects your measurements, features trends and generates reports.

Smart Personal Fitness Scale with Large Display

SBS 9102BK

The SENCOR SBS 9102BK personal fitness scale is the ideal tool for body condition monitoring. Alongside measuring body weight, it offers a detailed analysis of your body composition, including muscle mass percentage, water content, and bone mass. It also provides an overview of your BMI and body fat values in seconds. The scale supports multiple user accounts, allowing the whole family to use it. With independent measurement of up to 5 segments, each member of the household can monitor muscle gain and fat loss in specific areas of the body and adjust their training and diet accordingly.

Sync with Google Fit, Apple Health & Fitbit

All this information is shown on a large display with coloured icons. And thanks to its Bluetooth connectivity, the measured data can be sent to your mobile phone via the SENCOR HOME app, or be synced with the Apple Health, Google Fit, and Fitbit apps.

FEATURES

- **Advanced ITO technology enables whole-body analysis**
- **5 separate measurement segments for tracking muscle growth and fat loss**
- **Easy Bluetooth connection to the SENCOR HOME app (iOS and Android)**
- Automatic sync with Apple Health, Google Fit, and Fitbit
- Supports user profiles for the whole family
- History and detailed analysis of all measurements
- Measures BMI, body fat, water, muscle and bone mass
- Suggests optimal daily calorie intake based on your results

HANDLE WITH INTEGRATED ELECTRODES

LED DISPLAY WITH CURRENT VALUES

TRANSFERRING DATA TO THE SENCOR HOME APP

Smart Personal Fitness Scale

SBS 9002BK

The smart personal scale will become a welcomed helper on your journey to a healthier lifestyle. Using Bluetooth, it connects to the SENCOR HOME interface and can sync your data with apps like Apple Health, Google Fit, and Fitbit.

It can serve all members in your household, allowing you to create profiles for multiple users. It not only provides you with a measurement history but also an analysis of your measurements, namely BMI, % fat, % water, % muscle and % bone.

FEATURES

- **Smart personal fitness scale with large display**
- **Bluetooth connectivity via the SENCOR HOME app for iOS and Android**
- **Sync data to Apple Health, Google Fit and Fitbit apps**
- Ability to create profiles for multiple users
- Measurement history and analysis
- Calculates BMI, % fat, % water, % muscle, % bone
- Recommends daily calorie intake
- Tempered safety glass (6 mm)
- Auto-ON function - weighs instantly when you step on the scale
- Selectable units (kg/lb)
- Automatic shutdown when idle

Sync with Google Fit, Apple Health & Fitbit

Smart Personal Fitness Scale

SBS 8002BK

The SBS 8002BK fitness scale and the SENCOR HOME app will help you to be healthy and fit. This smart device not only weighs but also measures your BMI, body fat, water, muscle, and bone percentage. It also recommends your optimal daily calorie intake.

The measured data is transferred via Bluetooth to the SENCOR HOME app and synchronised with Google Fit and Apple Health, where you can conveniently monitor and manage user profiles and measurement history. The protective tempered glass is durable and safe (6 mm). The scale activates as soon as it's stepped on and is powered by two 1.5 V AAA batteries (included).

FEATURES

- **SENCOR HOME app, Bluetooth connection with iOS and Android**
- **Multiple user profiles available**
- **Measurement history and analysis**
- Calculates BMI, fat %, water %, muscle %, bone %
- Recommends daily calorie intake
- Tempered safety glass (6 mm)
- Auto-on function weighs instantly when stepped on
- Selectable units (kg/lb)
- Automatic shutdown in idle mode
- Power: 2× 1.5V AAA batteries (included)

Sync with Google Fit, Apple Health & Fitbit

Fitness Scale

SBS 6026BK

○ SBS 6025WH ● SBS 6026BK

This personal fitness scale will quickly and easily show your body condition.

In addition to weight, it displays and analyses various parameters (body fat, water, muscle, bone, BMI). The scale is easy to use with touch buttons and a backlit display. The elegant glass surface nicely complements any room.

FEATURES

- **Measures body fat %, water %, muscle %, bone %, BMI**
- **Memory for 12 users with automatic user recognition function**
- **Tempered safety glass (6 mm) and large, backlit LCD display**
- Easy-to-maintain glass and stainless-steel surface
- Touch control
- Weighing capacity up to 180 kg (100 g resolution)
- Automatic switch-on (scale weighs immediately when stepped on)
- Special mode for active athletes
- Selectable units (kg/lb/st:lb)
- Low battery and overload indicator
- Automatic shutdown when idle

Fitness Scale

SBS 2475WH

○ SBS 2475WH ● SBS 2476BK

Elegant and precise. That's how this personal scale can be described. Its appealing design combines tempered glass with sleek rounded corners.

Weighing with a maximum deviation of 100 grams, it displays the measured values on the backlit display. The weighing capacity is an impressive 180 kg. The scale turns on as soon as you step on it. When idle, the device will switch itself off.

FEATURES

- **Precise scale sensors**
- **Tempered safety glass (5 mm)**
- **Weighing capacity up to 180 kg (100 g resolution)**
- Selectable units (kg/lb/st)
- Large LED display
- Auto-on (scale weighs immediately when stepped on)
- Automatic shutdown when idle
- Overload indication
- Low battery indication
- Power supply: 2×1.5V AAA batteries

Fitness Scale

SBS 2406BK

○ SBS 2405WH ● SBS 2406BK

This personal scale attracts with its simple and elegant design. The tempered glass with rounded corners is pleasant to look at and touch, being also damage resistant.

The scale works with an accuracy of 100 g and up to a maximum capacity of 150 kg. It also features a low battery and overload indicator, as well as an automatic on/off function. The values are displayed on a large, easy-to-read LCD display.

FEATURES

- **Precise scale sensors**
- **Tempered safety glass (5 mm)**
- **Weighing capacity up to 150 kg (100 g resolution)**
- Selectable units (kg/lb/st)
- Large LCD display
- Auto-on (scale weighs immediately when stepped on)
- Automatic shutdown when idle
- Overload indication
- Low battery indication
- Power supply: 1×3V CR2032 lithium battery

FEEL YOUR HEART, **FEEL YOUR LIFE**

DIGITAL BLOOD PRESSURE MONITORS

Not only older people should monitor their blood pressure. Health is everyone's business! SENCOR's devices accurately measure systolic and diastolic blood pressure and heart pulse rate. Importantly, everything takes place in the comfort of your own home, without the need to visit a doctor. In doctor's office many people experience a certain amount of stress, which naturally translates into higher blood pressure. But nothing like that happens at home.

Modern blood pressure monitors track the long-term development of key parameters, having a memory for up to 199 measurements and two users. For example, you and your partner. The data is displayed on a large, easy-to-read LCD display, which makes measuring and reading pleasant and simple.

WHY CHOOSE SENCOR BLOOD PRESSURE MONITOR

- Monitor your health from the comfort of your home
- Measures systolic and diastolic blood pressure as well as heart pulse rate
- Memory for two users and up to 199 measurements
- Large LCD display for easy reading
- Easy and comfortable to use

AT COMFORT OF YOUR HOME

Measure your systolic and diastolic pressure and heart pulse rate at any time you need in the comfort of your home. Blood pressure monitor by SENCOR is your new ally in your health care. Never diagnose or treat yourself based on the readings from this appliance. Always consult your physician.

TAKE CARE OF YOUR HEALTH

Smart Blood Pressure Monitor

SBP 1500WH

The state-of-the-art SBP 1500WH monitor will become your faithful guide to check your blood pressure from the comfort of your own home. It accurately measures and – thanks to the connection with the SENCOR HOME app – also displays the readings on your smartphone.

This affords you a unique overview of your health status and the option to consult the data with your doctor. Of course, it also features a large display, making the data very easy to read. The device highlights the measured values in colour, so you can tell at a glance whether you are within the optimal range. The memory is ready for two users and up to 199 measurements. It's powered by 4 AAA batteries or via the handy USB-C cable.

SENCOR HOME

FEATURES

- **Reliable blood pressure measuring in the comfort of your own home**
- **SENCOR HOME app**
- **Values are highlighted in colour**
- Up to 2 users
- Memory for up to 199 measurements
- Easy-to-read, VA 83 × 82 mm display
- Power supply: 4× AAA or via USB-C cable

Blood Pressure Monitor

SBP 1150WH

You no longer need to go to the doctor to have your blood pressure reliably measured. The SBP 1150WH blood pressure monitor takes care of that.

Thanks to the colour-highlighted measured values, you will immediately know whether the results are within the optimal range or require attention. The blood pressure monitor has memory for two users and up to 199 measurements. This allows you and your partner to be aware of your blood pressure's long-term development. The 70 × 82 mm LCD display makes the values easy to read. The device can be powered by 4 AAA batteries or with the handy USB-C cable.

FEATURES

- **Reliable pressure measuring in the comfort of your own home**
- **Values are highlighted in colour**
- **Up to 2 users**
- Memory for up to 199 measurements
- Easy-to-read, 70 × 82mm LCD display
- Power supply: 4× AAA or via USB-C cable

Blood Pressure Monitor

SBP 1100WH

The SBP 1100WH blood pressure monitor reliably monitors your health directly at home, without the stress of the doctor's office.

Since it has memory for two users, you can also share it with your partner. The device stores up to 99 measurements, and thus, monitors the long-term development of your blood pressure, detecting any changes along the way. The LCD display is large enough to make reading easy even for users with poor eyesight.

FEATURES

- **Reliable blood pressure measuring in the comfort of your own home**
- **Up to 2 users**
- **Memory for up to 99 measurements**
- Easy-to-read. 58 × 45 mm LCD display
- Power supply: 4× AAA or via USB-C cable

Blood Pressure Monitor

SBD 0900WH

This monitor is an excellent device for anyone looking to check their blood pressure in the comfort of their own home.

The SBD 0900WH offers reliable measurement and easy readings on its 58 × 45 mm LCD display. With memory for two people and storage for up to 99 measurements, you can also use it with your partner. The monitor is powered by 2 AAA batteries.

LED DISPLAY WITH BATTERY STATUS

FEATURES

- **Reliable pressure measuring in the comfort of your own home**
- **Up to 2 users**
- **Memory for up to 99 measurements**
- Easy-to-read LCD display measuring 58 × 45 mm
- Power supply: 2× AAA
